Factors Behind AUM Growth

SIPs Providing Stability to Net Flows

- ✓ Gross Equity Flows through SIPs is providing stability to net sales with the same growing at a CAGR of 33% FY21-26 & now almost every second rupee of flows comes from SIPs.
- ✓ We believe our net sales will closely track gross SIP flows going forward.

Particulars	FY21	FY22	FY23	FY24	FY25	FY26
Total Equity Gross Inflows	6039	12106	11575	16385	24949	28550

Contribution of Net Sales & M2M in AUM Movement (Ex-Acquisitions)

- ✓ The AUM moved by 286% between March-21 to March-26 with 44.8% & 55.2% contribution, led by Mark to Market & Net Sales.

MFDs Remain Backbone for the Company's Journey So Far

- ✓ No of Individual + Corporate ARNs in India stood at 2,07,202[#] with every fifth MFD working with Prudent.
- ✓ It provides a value proposition to the AMCs to source business from retail investors in a cost-efficient manner as it is spread across 165 branches, having a significant presence in B-30 markets.
- ✓ Around 2/3rd of the overall MFD base has joined us in the last five years. They have started contributing materially to incremental gross sales & new SIP accretion.

Our value proposition has led to increased participation and a long-standing relationship with MFDs

No. of MFDs

Productivity of MFD Increases Once They Cross the Rs 10 Crore Mark

As MFDs mature, their productivity escalates significantly. The heightened productivity of mature MFDs propels the growth of Prudent. This trend underlines the importance of nurturing and retaining MFDs, fostering their journey to veterans.

* In Rupees. As of 31st March 2026

MFDs- Diversity Bring Sustainability & Stability

Deconcentrating The MFDs share

- ✓ Value proposition offered to MFDs helps increase the MFDs pie every year with existing base stable.
- ✓ The growing MFD base helps us to deconcentrate the overall MFD structure with top 100 MFDs contributing just 14.66% to AUM.

MFDs Combining with Insurance

- MFDs
- Common for Insurance

- ✓ A large MFD base & a multi-product basket platform helps MFDs to cross-sell insurance. Of the 39,691 MFDs, 13,398 MFDs are also POSPs who sell insurance products.
- ✓ The large MFD base presents significant opportunities to increase the POSP base and to cross-sell insurance products to their existing retail investors.

As of 30th September 2026

Geographical Presence – Playing on Tier I & II Cities

Getting growth from uncharted and underpenetrated markets

- ✓ Prudent is one of the very few national distributors (non-bank) with a presence in the B-30 market, catering to retail investors. This geography is underpenetrated, providing an opportunity to grow.
- ✓ 22% of Prudent's AUM is in B-30 markets.
- ✓ Since FY18, it has opened branches in 92 locations. 62 of these are in B-30 markets.
- ✓ The mix of the physical and digital model allows it to selectively target markets for expansion, especially in Tier 2 or Tier 3 cities.

A SIP Led Equity AUM Bringing Stability to Net Flows

- ✓ As on Mar-26, AUM from the mutual fund business stood at Rs. 1,19,304 Cr with 96.8% of total AUM being equity-oriented.
- ✓ Since individual investors tend to stay invested for longer periods and prefer equity-oriented schemes, Prudent banks on them for a steady inflow of funds through SIP accounts.
- ✓ Historically, net sales number closely trails our gross sales from SIPs. Hence, SIPs provide stability to net sales.
- ✓ Monthly SIP flow as of March-26 is ₹ 1,188 crore. Annualising this, we are expecting gross flows from SIPs of Rs 14,256 crores in FY27, which is 12% of the FY27 opening AUM.
