Jindal Stainless' Hisar Unit receives Times Internet Ecopreneur Award 2026 for Lifetime Achievement in Sustainability

- Award recognises sustained commitment to decarbonisation, resource efficiency, and responsible manufacturing

Hisar, July 31, 2026: Jindal Stainless' Hisar unit has been honoured with the Times Internet Ecopreneur Award 2026 for Lifetime Achievement in Sustainability. The award was presented recently at Hyatt Regency, New Delhi, recognising the company's sustained commitment to sustainability, innovation, and environmental stewardship.

The award acknowledges the Hisar unit's continued efforts to build a low-carbon, resource-efficient, and future-ready stainless steel manufacturing ecosystem. Over the years, the company has undertaken several initiatives to reduce its environmental footprint, including investments in renewable energy, green hydrogen, waste heat recovery, energy efficiency, circular economy practices, and responsible resource management.

In Q1 FY27, the Hisar facility further strengthened its sustainability performance by increasing the share of **renewable electricity** in its power mix to **67%**, up from 58% in the corresponding period last year. The unit also achieved a **12% reduction in greenhouse gas emission intensity** while commissioning key energy-efficiency projects, including an energy-efficient centrifugal compressor and waste heat recovery systems. Additionally, the facility was certified '**Zero Waste to Landfill**' with a **Platinum+ rating** for FY 2024–25, underscoring its commitment to circular economy principles and responsible waste management.

Speaking on the recognition, Managing Director, Jindal Stainless, Mr Abhyuday Jindal, said, "This award is a proud milestone in our sustainability journey and reflects the collective efforts of our employees, partners, and stakeholders. At Jindal Stainless, we believe that industrial growth and environmental responsibility must go hand in hand. We remain committed to accelerating our decarbonisation efforts, driving innovation, and contributing to a greener and more sustainable future."

Unit Head – Hisar, Jindal Stainless, Mr Vijay Kumar Bindlish, said, "This recognition is a testament to the dedication and commitment of every member of the Hisar team. The facility continues to advance its decarbonisation roadmap through the adoption of green hydrogen in annealing operations, expanded renewable power procurement, rooftop solar generation, and energy conservation projects across

Press Release

manufacturing processes. The company also registered with the Science Based Targets initiative (SBTi), marking another important step towards setting science-based emissions reduction targets aligned with global climate goals."

Congratulating Jindal Stainless on the achievement, the Times Internet jury stated, "Congratulations on this well-deserved recognition of your outstanding contribution towards sustainability, innovation, and environmental stewardship. Your visionary leadership and enduring commitment to sustainable manufacturing, environmental excellence, and responsible industrial practices have made a lasting impact and set an exemplary benchmark for the industry."

The recognition further reinforces Jindal Stainless' commitment to integrating sustainable practices across its operations while supporting India's transition towards greener manufacturing.

About Jindal Stainless

India's leading stainless steel manufacturer, Jindal Stainless, had an annual turnover of INR 42,955 crore (USD 4.86 billion) in FY26 and an annual melt capacity of 4.2 million tonnes. It has 16 stainless steel manufacturing and processing facilities in India and abroad, including in Spain and Indonesia, and a worldwide network in 12 countries, as of March 2026. In India, there are ten sales offices and six service centres, as of March 2026. The company's product range includes stainless steel slabs, blooms, coils, plates, sheets, precision strips, wire rods, rebars, blade steel, and coin blanks.

Jindal Stainless relies on its integrated operations to enhance its cost competitiveness and operational efficiency. Founded in 1970, Jindal Stainless continues to be inspired by a vision for innovation and enriching lives and is committed to social responsibility.

Jindal Stainless remains focused on a greener and sustainable future. The company manufactures stainless steel using electric arc furnace, a process that significantly reduces greenhouse gas emissions and allows for recyclability of scrap without compromising on quality.
