- Consolidated Profit After Tax (PAT) for the company in Q1-FY27 is INR 112.08 Crores.
- EPS of the company is Rs 3.31 in Q1-FY27.

Management commentary:

Commenting on the results, Dr. Manoj Kumar Jhawar, Managing Director & Chief Executive Officer (MD&CEO), PTC India Ltd., said

"Healthy level of core performance metrics have been maintained in a scenario where the market is in transition. This has been possible largely because of the resilience of PTC's business model. The mix of volume from trades across different tenures has contributed to the growth of 12% in trading volume in Q1-FY 27. The short-term (bilateral & exchange) has contributed 67% of the volume and balance has been contributed by medium- & long-term contracts.

Our assessment of power demand remains intact with a close correlation of demand with GDP growth. With the introduction of market-oriented initiatives by CERC, like VPPA, coupling of exchange market and power market regulations (amendments), We expect demand of new product and services from clients (generator and consumers). We expect to penetrate deeper into the opportunity space around identified growth drivers and maintain our leadership position."

About PTC India Limited

PTC India Ltd., a Government of India initiative, is the pioneer in starting a power market in India. The Company has maintained its leadership position in power trading since inception. PTC has also been mandated by the Government of India to trade electricity with Bhutan, Nepal and Bangladesh.

The trading activities undertaken by PTC include long term trading of power generated from large power projects including renewables as well as short term trading arising as a result of supply and demand mismatches, which inevitably occur in various regions of the country.

The Company is credited with a number of products in the electricity trading market to meet the divergent needs of the customers Driven by the vision of shaping a vibrant power market, PTC has been providing value-added services to its clients and built trust as a reliable partner. The electricity traded from cross border resources is a significant component of the total electricity traded by the Company.

PTC is a unique example of a successful public-private partnership with major PSUs of the Ministry of Power, Government of India as promoters and a widely held ownership interest. The diverse composition of its Board of Directors includes eminent people as independent directors.
