Bajel Projects Wins an Ultra-mega Order Worth INR 600+ Crore for 765kV Transmission Line Package (TL05) under WR-ER Inter-Regional Network Expansion Scheme

Mumbai, 11 August 2026: Bajel Projects Limited, a Bajaj Group Power EPC company, has been awarded a transmission line package (TL05) in the ultra-mega band*, under the WR-ER Inter-Regional Network Expansion Scheme – Part A.

The scope covers construction of 765kV double-circuit transmission lines connecting Raigarh (Tamnar), Raigarh (Kotra) and Dharamjaygarh in Chhattisgarh, reinforcing critical inter-regional power evacuation capacity between the Western and Eastern regions of the national grid.

This latest win adds to Bajel's growing order book in high-voltage transmission infrastructure and reinforces the company's position as a preferred EPC partner for strategic grid-strengthening projects across India.

Commenting on the development, Mr. Rajesh Ganesh, MD & CEO, Bajel Projects Limited, said:

"This order strengthens our presence in high-capacity 765kV transmission infrastructure and reflects the continued trust placed in Bajel's execution capabilities. As India's power grid scales up to meet rising demand, we remain focused on delivering projects that are critical to the nation's energy security and inter-regional connectivity."
