Bharat Forge Secures Long-Term Contract with Embraer for Manufacturing of Landing Gear Forgings

Pune, India, May 11, 2026 : [Bharat Forge Ltd. \(BFL\)](#), a global leader in advanced forging and precision engineering, today announced that it has entered into a long-term contract with Embraer for the manufacturing and supply of critical landing gear forgings and becomes the first supplier from India to enter Embraer global Aerospace supply chain for forged components.

Under the agreement, Bharat Forge will supply high-integrity forged components for landing gear systems across Embraer's commercial and defence aircraft programs. This engagement reinforces Bharat Forge's expanding role in the global aerospace supply chain and strengthens its position as a trusted partner for complex, safety-critical components.

The Long-Term Contract reflects a shared commitment to quality, reliability, and long-term collaboration, while underscoring Bharat Forge's capabilities in delivering forged products that meet stringent global certification standards.

Mr. Amit B Kalyani, Vice Chairman & Joint MD, Bharat Forge Limited commented, *"The fact that BFL is the first Indian supplier of forged components for Embraer is a proud moment & a testament to the capabilities we have built in the Aerospace business and we thank them for the trust they have reimposed on BFL. We look forward to growing and adding value to our association with Embraer in the coming years. These contracts will enable to create scale for critical structural components complementing the scale built in the Aero Engine components space."*

This first contract signed with an Indian company reflects Embraer's commitment to advancing the aerospace ecosystem in India, creating long-term value across the entire supply chain. It also comes at a time when Embraer is steadily expanding its presence in the country and maintaining active dialogue with local industry leaders and government stakeholders.

About Bharat Forge Limited

Bharat Forge Limited (BFL), a Pune-based Indian multinational company, is a technology driven global leader in providing high performance, innovative safety critical components and solutions for several sectors including automotive, power, oil and gas, construction & mining, rail, marine, defense and aerospace. BFL has a global manufacturing footprint with presence across five countries, with the largest repository of metallurgical knowledge and offers full-service supply capability to its geographically dispersed marquee customers from concept to product design, engineering, manufacturing, testing and validation.
