Sub: Disclosure under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulation, 2015 (“SEBI Listing Regulations”)

Dear Sir/Madam,

This is in continuation of our earlier intimation dated November 14, 2024, wherein we had informed about entering into a Long Term Operations & Management and Medical Services Agreement to operate and manage a 300+ beds hospital in Raipur, Chhattisgarh by the Company.

In this regard, we wish to inform you that the Hospital has commenced operations under the name and style of **Artemis Shanti Hospital, Raipur**, with effect from today, i.e., July 9, 2026.

This Hospital is a modern multi-speciality healthcare destination designed to bring advanced medical expertise, compassionate care, and world-class infrastructure closer to the people of Chhattisgarh.

You are requested to take the same on your record.

Thanking you,

Yours faithfully,

For Artemis Medicare Services Limited

Poonam Makkar

Company Secretary & Compliance Officer

Artemis Shanti Hospital, Raipur

Artemis Hospitals is one of India's leading integrated healthcare providers, recognized for its commitment to clinical excellence, advanced medical infrastructure, and patient-centric care. Backed by the Apollo Tyres Group, Artemis has built a strong reputation through its flagship Artemis Hospital, Gurugram—one of North India's premier multi-specialty tertiary care hospitals with over 700 beds. The hospital is accredited by both Joint Commission International (JCI) and NABH, reflecting its adherence to globally benchmarked standards of quality, patient safety, and clinical governance.

Building on the success of its Gurugram facility, Artemis is expanding its footprint into high-growth markets to improve access to world-class healthcare across the country. The launch of **Artemis Shanti Hospital, Raipur** marks a significant milestone in this journey, reinforcing the Group's vision of creating a geographically diversified healthcare network while bringing advanced tertiary and quaternary care closer to patients in Central India.

Artemis Shanti Hospital is a 300-bed multi-specialty tertiary care hospital designed to deliver comprehensive, technology-driven healthcare across key specialties including cardiology, oncology, neurosciences, orthopaedics, nephrology, critical care, and emergency medicine. Equipped with state-of-the-art operation theatres, advanced intensive care units, and modern diagnostic facilities, the hospital combines Artemis' proven clinical protocols with multidisciplinary expertise to provide high-quality, evidence-based care comparable to leading metro hospitals.

Strategically located to serve Raipur and a catchment area extending across Chhattisgarh and neighbouring states, Artemis Shanti Hospital aims to address the long-standing gap in advanced healthcare infrastructure in the region. By reducing the need for patients to travel to metro cities for complex treatments, the hospital is expected to significantly enhance access to specialized medical services while contributing to the overall strengthening of healthcare delivery in Central India.
