While margins were impacted by the* ***geopolitical situation in the Middle East, resulting in higher raw material and transportation costs, particularly in the UAE****, our ability to sustain healthy operating profitability amid these challenges reflects the strength of our business model, execution capabilities and market expertise. We remain confident of* ***margin improvement as these external pressures ease****.*

We are progressing with plans to establish a warehouse and distribution facility in Tanzania, targeted to be operational by Q3 FY27, alongside commissioning a grease manufacturing facility at our Kenya plant during the same period.
