Sub: Brightcom Group Limited confirmed for inclusion in FTSE Global Equity Index Series (FTSE GEIS) Micro Cap Index

Dear Sir/Madam,

We are pleased to inform you that Brightcom Group Limited has been confirmed for inclusion in the FTSE Global Equity Index Series (FTSE GEIS) Micro Cap Index, including the FTSE Asia Pacific ex Japan ex China Micro Cap Index.

The inclusion has been confirmed by FTSE Russell, an LSEG business, under the Company's FTSE security identifier B88SZ73, pursuant to the latest review of the FTSE Global Equity Index Series.

The changes arising from the review have been considered final with effect from September 7, 2026, and the inclusion of Brightcom Group Limited in the relevant index will become effective from September 21, 2026.

Brightcom Group was initially included in the FTSE Global Equity Index Series in 2020 and subsequently progressed to the FTSE Global Small Cap Index. Following the suspension of trading in the Company's shares with effect from June 14, 2024, the Company was subsequently removed from the FTSE index. The suspension was revoked with effect from July 14, 2025, and trading in the Company's shares resumed on the BSE and NSE from that date.

Following the resumption of trading in July 2025, the Company has undertaken and maintained the necessary compliances and regulatory requirements applicable to the Company and its continued participation in the securities market. The latest FTSE Russell review has taken into consideration the Company's position and compliance record following the resumption of trading, culminating in the Company's confirmation for re-inclusion in the FTSE Global Equity Index Series.

The Company's re-entry into the FTSE Global Equity Index Series, through its inclusion in the Micro Cap Index, is therefore a significant development. It represents an important recognition of the Company's re-emergence in the international equity markets following the resumption of trading in its shares and the Company's subsequent progress on its compliance and regulatory requirements.

The inclusion also strengthens Brightcom Group's visibility within the global investment universe and provides the Company with greater exposure to the international investment community. Being part of a globally recognised index such as the FTSE GEIS enables the Company to be more readily identified, evaluated and tracked by global institutional investors, fund managers, investment research teams and other market participants who use FTSE Russell indices as part of their investment analysis, portfolio construction and market benchmarking.

The Company views this development positively and remains focused on strengthening its business operations, maintaining robust compliance standards, expanding its global presence, enhancing shareholder value and creating sustainable long-term value for all its stakeholders.

This is for your information and records.

Thanking you,

Yours faithfully,
For Brightcom Group Limited

Raghunath Allamsetty
Executive Director
