Dear Sir/Madam,

Subject: Intimation under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulation, 2015 - Press Release

We are enclosing a copy of the press release titled **"GK Energy Delivers Strong Q1 Performance with Revenue at ₹505 Crore and PAT up 62%"**.

The said information will also be uploaded on the website of the Company www.gkenergy.in.

You are requested to kindly take the above information on your records.

Thanking you,

By order of Board of Directors

GK Energy Delivers Strong Q1 Performance with Revenue at ₹505 Crore and PAT up 62%

Reports Strong First Quarter Performance Driven by Execution Scale and Operational Efficiency

Pune, August 07, 2026: GK Energy, India's largest decentralized renewable energy infrastructure company specializing in solar infrastructure deployment across India, today announced its standalone financial results for the quarter ended June 30, 2026.

For the quarter ended June 30, 2026, GK Energy reported **Revenue from Operations of ₹505.19 crore**, compared to **₹295.27 crore** in the corresponding quarter of the previous year, registering a **71.10% year-on-year growth**.

The Company reported **EBITDA of ₹86.11 crore**, reflecting a **47.72% year-on-year increase** over ₹58.30 crore reported in Q1 FY2025–26. **Profit After Tax (PAT)** stood at **₹59.67 crore**, compared to **₹36.94 crore** in the corresponding quarter last year, representing a healthy **61.55% year-on-year growth**.

Building on the strong foundation established during FY2025–26, the Company delivered another quarter of robust growth, driven by its low-capex operating model. Performance during the quarter was supported by sustained execution under renewable energy framework, rising demand for decentralized solar infrastructure, and strong execution capabilities.

Commenting on the performance, **Mr. Gopal Kabra, Chairman & Managing Director, GK Energy**, said: *"India's transition towards renewable energy continues to create meaningful opportunities to expand access to clean and reliable power. At GK Energy, we remain focused on building a scalable and disciplined business that delivers long-term value for all stakeholders. Our performance this quarter reflects the strength of our execution capabilities, financial discipline and the trust placed in us by our customers and partners. As the sector continues to evolve, we will remain committed to delivering sustainable growth while contributing meaningfully to India's clean energy ambitions. With a strong project pipeline, strong execution ecosystem and expanding market presence, we are well positioned to sustain this growth momentum during the year."*

During the quarter, GK Energy continued to strengthen its operational capabilities across regions while further enhancing its project execution capacity. The Company's decentralized operating model, supported by a robust ecosystem of OEM/ODM manufacturing partners and an extensive installation network, continues to enable efficient project execution at scale.

The Company till June 2026 has cumulatively installed more than 164,500 renewable energy systems and commissioned over 726 MW of renewable energy capacity across India, with operational presence spanning 7,500+ villages. Its execution capabilities are supported by dedicated warehousing infrastructure, logistics capabilities, and a large network of installation and commissioning partners across multiple states.

India's renewable energy sector continues to witness strong policy support through initiatives promoting solar adoption, energy security and rural electrification. With increasing investments in clean energy infrastructure and growing adoption of decentralized solar solutions across residential, commercial and agricultural segments, GK Energy remains well positioned to capitalize on the long-term growth opportunity.

About GK Energy

GK Energy is one of India's leading decentralised renewable energy infrastructure execution companies focused on solar-powered agricultural pumping systems, rooftop solar systems, and distributed clean energy solutions.

Founded in 2008, the Company operates through a technology-defined and low-capex business model supported by an extensive OEM/ODM manufacturing ecosystem, decentralised logistics infrastructure, and one of the sector's largest field execution networks. GK Energy's operating architecture enables scalable deployment of renewable energy systems across rural and distributed markets without heavy manufacturing capital intensity.

GK Energy primarily operates across solar-powered agricultural pumping systems, rooftop solar systems, distributed renewable infrastructure, and emerging clean energy segments aligned with India's long-term energy transition and sustainability goals.
