Dear Sir/Madam,

**Subject:** Disclosure under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 – Trial Run for Hot Charging of Mild Steel (MS) Billets for Manufacturing MS TMT Rebars.

In compliance with Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are pleased to inform the Exchange that Rathi Steel and Power Limited ("the Company") has undertaken trial run of the Hot Charging of Mild Steel Billets to the TMT Bar Mill on today i.e., 06th June 2026.

This technological milestone will be utilized to manufacture high-quality MS TMT Rebars of Fe 550 / Fe 550D grades.

**Key Highlights of the Achievement:**

**Process Efficiency:** The implementation of the Hot Charging process allows transfer of hot billets from the continuous casting machine to the rolling mill. This drastically minimizes reheating requirements, leading to significant savings in fuel consumption and reduction of scale loss.

**Sustainability & ESG Impact:** By optimizing thermal energy, this process substantially lowers the Company's carbon footprint, aligning our operational growth with sustainable environmental practices.

**Product Excellence:** The trial run successfully yielded Fe 550D grade MS TMT Rebars, which are highly recognized in the infrastructure industry for their superior tensile strength, high ductility, and excellent seismic resistance capabilities and has growing demand from reputed real estate companies.

This successful trial run marks a pivotal step forward in enhancing our operational efficiencies, reducing production costs, and strengthening our product portfolio to cater to the growing demands of India's infrastructure sector.

You are requested to please take note of the above.

Thanks and regards.

Yours faithfully,  
**For Rathi Steel and Power Limited**

**NAMITA LAL MADAN**  
**Company Secretary and Compliance Officer**
