Press Release

JBM Electric Vehicles launches Next Generation 'GALAXY' Electric Luxury Coach at Prawaas 5.0, Gandhinagar

- Shri Nitin Gadkari, Hon'ble Union Minister of Transport & Highways launched India's first indigenous Sleeper & Seater Electric Luxury coach
- Designed to offer higher earning potential for the operators, enhanced convenience for inter-city luxury travel
- Offers the highest seating capacity in its segment paired with highest luggage space
- JBM 'GALAXY' platform has successfully demonstrated operations of over 900 kms per day
- JBM EV continues to hold the highest market share in the Indian electric luxury coach segment

Ahmedabad/Gandhinagar, July 10, 2026: JBM Electric Vehicles (JBM EV), a global leader in e-mobility and EV Ecosystem Solutions launched the next generation 'GALAXY' electric luxury coach at Prawaas 5.0 yesterday. The vehicle was launched by **Shri Nitin Gadkari, Hon'ble Union Minister of Transport & Highways** in the august presence of **Shri Nishant Arya, Chairman, JBM Electric Vehicles**. JBM EV is part of JBM Auto, the flagship company of the \$3.3 bn global Indian conglomerate, JBM Group.

The new 'GALAXY' Coach showcases 22 Maharaja reclining seats + 20 plush sleeper berths with an onboard washroom. JBM Galaxy is also available in another seat configuration offering 24 Maharaja reclining seats + 20 plush sleeper berths (without washroom). It also offers the highest seating capacity in its segment paired with highest luggage space, a combination designed to strengthen operator revenue potential and passenger convenience on longer routes. With this launch, JBM GALAXY coach will be available in 3 variants i.e. seater, sleeper & seater and sleeper.

Speaking on the occasion, **Shri Nishant Arya, Chairman, JBM Electric Vehicles**, said, *"The next generation GALAXY has been developed to meet the evolving expectations of premium inter-city travel with a sharper focus on luxury, utility and business efficiency. It reflects our commitment to creating electric mobility solutions that are sophisticated in design, practical in operation and aligned with the future of sustainable transportation."*

Styled with a European-inspired design language, the coach features class leading luxurious interiors, panoramic windows, individual AC louvers and reading lights, USB charging sockets, generous leg and head room, etc. setting new benchmarks in passenger comfort. The vehicle comes with a robust and comprehensive safety and performance package with an ADAS-enabled architecture, EBS and ABS, hill-hold, live surveillance cameras, emergency exits, etc. to ensure uncompromised passenger safety on long-distance intercity travel.

JBM GALAXY comes with kneeling and height adjustment feature for easier boarding alongwith electronically controlled air suspension. It is powered by high-efficiency modular battery packs paired with fast charging and regenerative braking. The overall package is aimed at delivering a seamless long-distance travel experience to the passengers.

JBM EV has deployed over 3,300 electric buses across 17 states and 12+ major airports in India. The company has a robust order book of 10,000+ electric buses and operates the world's largest dedicated integrated electric bus manufacturing facility (outside China) in the Delhi-NCR region, with an annual production capacity of 20,000 electric buses. Under its 3 bn e-kms promise, JBM electric buses have already clocked 450 million e-kms, having served over 1.5 bn bus commuters globally.

About JBM Electric Vehicles (P) Ltd.

JBM Electric Vehicles (P) Ltd. is the leading electric bus and EV ecosystem player globally. The company specialises in manufacturing ultra-sophisticated and technologically superior zero-emission electric buses that have established class-leading benchmarks across various geographies globally. JBM EV is spearheading the global shift towards electric mobility, and the company currently offers an extensive portfolio of e-buses ranging from city, intercity, luxury coach, staff, school, tarmac and special purpose vehicles.
