PUDUMJEE PAPER PRODUCTS LTD

The Company has maintained its performance in terms of revenue at Rs. 807.88 crores (Rs. 809.08 crores in the last year) by larger tonnage of paper by 1675 MT and by lowering average net sales realization of paper per MT with a view to pass on the benefit of cost reduction to the customer to maintain value addition. The EBITDA for both periods stood at 18%.

The Company has successfully completed its capex programme of over Rs.110 crores for setting up of a Solar Power Plant, installing an AFBC boiler and modernizing certain important parts of three of the paper making machines.

The 15.4 MW Solar Power Plant has been successfully setup and operationalized in December 2025 at Bhalwani near Solapur. This will serve to cater to about 35% of Company's annual power requirement which not only reduces the cost but also reduces carbon footprint by about 27000 MT.

The Company is in the process of making an application for Environment clearance for the construction of the project at Mahad, due to changes in regulatory requirements.

The Company continues to focus on manufacturing various Biodegradable and Compostable Specialty Papers having barrier properties to protect contents of the package. These papers are used as input for sustainable packaging solution for various food products, pharmaceutical and related products, hospital supplies, hygiene sectors, confectionary etc., which are witnessing good growth in demand.
