## Forward-looking statement

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This report and other statements - written and oral - that we periodically make, contain forward-looking statements that set out anticipated results based on management's plans and assumptions. We have tried, wherever possible, to identify such statements by using words such as 'anticipates', 'estimates', 'expects', 'projects', 'intends', 'plans', 'believes' and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realized, although we believe we have been prudent in our assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind.

We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

# The NASSCOM Tech Excellence Award

Building trust through AI-native payment infrastructure

On March 24, 2026, RS Software was presented with the NASSCOM Tech Excellence Award in Financial Services. NASSCOM, India's premier technology industry body, confers this recognition to companies demonstrating sustained innovation, measurable impact, and leadership in advancing financial services technology.

We view this award not as a marker of individual achievement, but as a collective outcome shaped by the trust and partnership of our investors and customers. The award recognised RS Software's long-standing contribution to payment infrastructure innovation, AI-powered fraud prevention and national payment transformation programmes. Beyond the recognition itself, it strengthened customer confidence, enhanced industry credibility and reinforced the Company's reputation as a trusted technology partner.

# Partnership, Purpose, and Presence

In an age of infinite digital connection, there remains one signal that no algorithm can replicate—the neural resonance of human presence. A handshake, a smile across the table, the subtle synchrony of shared space. These are not mere courtesies; they are the biological foundation of trust, the moment our nervous systems whisper to our brains: 'This is real. This matters.'

# Trust is the New Currency

The payments industry is entering its next phase of transformation. Over the past decade, the focus has been on digitization. Over the next decade, the focus will be on intelligence.

## Invisible Payments Require Visible Trust

The payments industry is rapidly moving toward experiences where transactions happen seamlessly in the background. Payments are becoming ever more embedded within commerce platforms, digital applications, connected devices, and everyday customer interactions. As this transition accelerates, consumers are becoming less aware of the payment process itself and more focused on the overall experience.

Yet the invisibility of payments creates a new reality. Customers may never notice a successful transaction, but they immediately notice a failed payment, a fraud incident, a service disruption, or the misuse of personal information. In this environment, trust is emerging as one of the most important differentiators in the digital economy. The institutions that can consistently deliver reliability, transparency, and resilience will be best positioned to strengthen customer confidence and drive long-term growth.

As payments become increasingly intelligent and interconnected, trust is no longer a standalone function. It is becoming the defining layer of modern payment infrastructure.

## Fraud Prevention Moves to the Core of Trust

Trust has always been the foundation of payments. Every transaction depends on confidence that money will move securely, accurately, and without disruption. However, the rapid adoption of instant payments, digital wallets, account-to-account transactions, and embedded financial services is creating new opportunities for financial crime.

Criminal networks are increasingly leveraging synthetic identities, account takeover attacks, automated scams, and AI-enabled social engineering techniques to exploit digital channels. In a world where payments settle within seconds, institutions have very little time to identify and stop threats before funds move. The challenge is no longer simply preventing fraud—it is preserving trust within increasingly connected payment ecosystems.

Historically, fraud management focused on identifying suspicious activity after a transaction had occurred. That model is becoming increasingly inadequate. As payment ecosystems move toward real-time settlement, institutions must assess risk before transactions are completed. Fraud prevention is shifting from reactive detection to proactive intervention, embedding intelligence directly into transaction flows rather than applying controls after the fact.

Artificial Intelligence is becoming a critical component of this transformation. By analyzing transactional, behavioral, and contextual data simultaneously, AI enables dynamic risk assessment in real-time, helping institutions identify anomalous behavior, detect evolving fraud patterns, improve decision accuracy, reduce false positives, and strengthen operational efficiency. As payment volumes and transaction velocity continue to grow, intelligent decisioning is becoming a fundamental requirement for maintaining trust.

## Identity Emerges as the New Trust Layer

As payment ecosystems become more digital, identity is emerging as a critical component of trust. Traditional authentication approaches are increasingly challenged by synthetic identities, account takeover attempts, and AI-generated impersonation techniques that can closely mimic legitimate customer behavior.

In response, institutions are adopting more sophisticated approaches that combine identity verification, behavioral analytics, device intelligence, transaction context, and continuous risk assessment. Identity is no longer viewed as a one-time onboarding event. It is becoming a continuous process that operates throughout the payment lifecycle.

This evolution reflects a broader industry shift toward programmable trust, where users, behaviors, and transaction intent are continuously validated to support both security and customer experience. In future payment ecosystems, trust will increasingly depend on the ability to verify not only who is transacting, but also whether the transaction context remains consistent with expected behavior.

## Compliance Becomes a Growth Enabler

As payment ecosystems expand across real-time payment rails, open banking frameworks, embedded finance platforms, digital assets, and emerging forms of digital money, regulatory complexity will continue to increase. Institutions must navigate an increasingly interconnected landscape while maintaining compliance across multiple jurisdictions and regulatory frameworks.

AI and advanced analytics are helping institutions modernize transaction monitoring, sanctions screening, anti-money laundering controls, and regulatory reporting. Increasingly, compliance is evolving from

a regulatory obligation into a business capability that enables scale, market expansion, and ecosystem participation.

One of the most important developments is the convergence of fraud management, identity intelligence, and compliance. These functions increasingly rely on the same underlying capabilities, including real-time monitoring, behavioral intelligence, transaction analysis, risk assessment, and decision governance. Institutions are moving toward unified operating models that bring together fraud prevention, AML controls, sanctions screening, identity verification, and compliance oversight within a common decisioning framework.

The outcome is stronger governance, improved operational efficiency, more consistent decision-making, and greater resilience against financial crime.

## Resilience Becomes Non-Negotiable

The next generation of payment infrastructure must do more than process transactions efficiently. It must be capable of making intelligent decisions while maintaining trust, resilience, and regulatory confidence. As payment ecosystems become increasingly interconnected, institutions must operate across multiple payment rails, regulatory frameworks, settlement models, and customer channels simultaneously. Managing this complexity requires infrastructure capable of orchestrating transactions, liquidity, compliance, and operational workflows intelligently and at scale.

Organizations that succeed will be those capable of balancing innovation with compliance, automation with accountability, and efficiency with resilience. Competitive advantage will increasingly come from the ability to enable secure, seamless, and trusted movement of value across an interconnected global economy.

## Governance and Explainability Build Confidence in AI

As artificial intelligence becomes increasingly embedded across payment infrastructure, trust depends not only on intelligent outcomes but also on transparency, accountability, and governance. From fraud prevention and compliance monitoring to payment routing and operational decision-making, AI is becoming part of the core infrastructure that powers modern payments.

Financial institutions must ensure that AI systems remain secure, explainable, auditable, and aligned with regulatory expectations. Responsible AI is not simply a compliance requirement. It is a business imperative that helps strengthen trust among customers, regulators, and ecosystem participants.

Explainable AI is becoming increasingly important in highly regulated environments. The ability to understand and explain AI-driven decisions strengthens regulatory compliance, improves stakeholder confidence, enables transparent fraud detection and risk-scoring

decisions, and supports audit readiness. AI systems must increasingly operate as glass-box models rather than opaque black boxes, improving both usability and regulatory confidence.

## Trust Embedded in Infrastructure

The future of payments will be defined by the convergence of intelligence, trust, automation, and ecosystem connectivity. Institutions will require platforms capable not only of moving money efficiently but also of making intelligent decisions while maintaining transparency, security, and regulatory confidence.

The next generation of payment infrastructure will not be defined solely by transaction processing speed. It will be defined by the ability to make intelligent decisions, coordinate complex ecosystems, and embed trust into every transaction. As payments become more connected, real-time, and data-driven, trust will increasingly move from being an external assurance mechanism to becoming an inherent characteristic of infrastructure itself.

## The Bottom Line

For RS Software, this reinforces a long-standing belief: the future belongs to trusted AI-native payment infrastructure where trust, intelligence, compliance, governance, and resilience are embedded directly into the systems that move value across the global economy.

## Payments Industry Transformation

## The Industry Moves Beyond Digitization

The payments industry is entering a new era where intelligence is becoming as important as connectivity. Over the last decade, the focus was on digitization—moving transactions from physical channels to digital networks. The next phase will be defined by how effectively payment systems can make decisions, manage complexity, and adapt in real-time.

As payments become increasingly intelligent, the industry's next growth opportunity lies in building AI-native payment infrastructure. Institutions will require platforms capable not only of moving money efficiently but also of making intelligent decisions while maintaining operational efficiency across increasingly interconnected payment ecosystems.

Artificial Intelligence is increasingly moving from isolated use cases into the core of payment operations. Predictive fraud prevention, liquidity and treasury optimization, intelligent routing, and operational decisioning are becoming embedded across the payment lifecycle. As payment volumes grow and settlement cycles continue to shorten, these capabilities are becoming essential rather than optional.

## Real-Time Payments Redefine Expectations

The rapid adoption of real-time payments is reshaping how value moves across the global economy. Instant payment systems are becoming central to both consumer and business transactions, creating new expectations around speed, availability, and customer experience.

As settlement cycles continue to compress, payment infrastructures must become increasingly responsive and intelligent. Institutions are investing in capabilities that support real-time decision-making, automated liquidity management, and dynamic operational optimization. Key industry trends include growing adoption of instant payments, continued compression of settlement cycles, increasing automation of liquidity management, and greater use of intelligent routing to optimize transaction outcomes.

## Real-Time Payments Redefine Expectations

The modern payments landscape is increasingly multi-rail. Cards, account-to-account networks, real-time payment systems, digital wallets, central bank digital currencies (CBDCs), and tokenized assets are operating side by side. The challenge is no longer gaining access to payment rails. The challenge is coordinating activity across them.

As payment ecosystems become increasingly interconnected, institutions must operate across multiple payment rails, regulatory frameworks, settlement models, and customer channels simultaneously. Managing this complexity requires more than connectivity. It requires infrastructure capable of orchestrating transactions, liquidity, and operational workflows intelligently and at scale.

Increasingly, orchestration is becoming one of the most strategic capabilities in modern payments. The orchestration layer serves as the operational control center, managing routing decisions, liquidity allocation, workflow execution, and operational visibility across diverse payment environments. As complexity increases, orchestration becomes the mechanism through which institutions simplify operations while improving performance and scalability.

## Cross-Border Payments Enter an Intelligence Era

Cross-border payments are entering a new phase of evolution. Over the past decade, the industry has focused on connecting payment systems through real-time payment networks, interoperability initiatives, and common messaging standards. These efforts have significantly improved how money moves across borders.

As connectivity improves, the challenge is shifting. The question is no longer whether institutions can connect payment systems. The question is how effectively they can manage increasingly complex flows of money across multiple networks, currencies, jurisdictions, and settlement mechanisms.

A single transaction may involve multiple payment rails, foreign exchange providers, correspondent institutions, settlement mechanisms, and regulatory frameworks before reaching its destination. Increasingly, complexity itself is becoming the primary source of friction.

Historically, payment providers competed on network reach and transaction volumes. Increasingly, competitive advantage is being determined by the quality of decisions embedded within payment infrastructure. Every cross-border transaction requires decisions around routing, liquidity, foreign exchange, and settlement. Modern payment platforms are using AI and advanced analytics to evaluate these variables in real-time and identify the most efficient transaction path.

## ISO 20022 Powers the Next Generation of Payments

One of the most significant industry transformations underway is the global adoption of ISO 20022. While often viewed as a messaging standard, ISO 20022 is fundamentally a data transformation initiative. Richer and more structured payment data improves interoperability, analytics, operational visibility, and ecosystem coordination.

The standard is expected to play a foundational role across real-time payments, cross-border payment modernization, digital asset ecosystems, CBDC initiatives, treasury and liquidity platforms, and future payment infrastructures. Institutions that view ISO 20022 as a strategic opportunity rather than a compliance requirement will be better positioned to unlock long-term value from richer payment intelligence.

## Embedded Finance Expands the Payments Ecosystem

Financial services are increasingly being integrated directly into digital platforms, software applications, marketplaces, and customer journeys. Payments, lending, insurance, and banking services are becoming embedded within non-financial experiences, reducing friction and improving accessibility.

As embedded finance expands, value creation will increasingly shift toward ecosystem participants that can coordinate customer experiences, financial services, and payment capabilities within unified digital environments. This shift is creating new opportunities for infrastructure providers that can enable interoperability, orchestration, and ecosystem participation at scale.

## From Intelligent Payments to Autonomous Payments

The payments industry is steadily moving from automation toward greater autonomy. As payment ecosystems become more real-time, connected, and intelligent, the next stage of innovation will focus on systems that can not only process information but also make decisions and initiate actions within defined business and regulatory boundaries.

Several technology trends are converging to enable this evolution. Future payment platforms will increasingly support AI-assisted decisioning, smart liquidity management, Request-to-Pay frameworks, programmable payments, machine-to-machine transactions, and intelligent settlement orchestration.

As these technologies mature, payment infrastructure will evolve beyond transaction processing toward intelligent coordination of value movement across networks, institutions, enterprises, devices, and ecosystems. The future of payments will be defined not simply by faster transactions, but by the ability to coordinate increasingly complex payment environments intelligently and at scale.

The next generation of payment infrastructure will be defined not only by speed and intelligence, but by its ability to embed trust into every decision.

## Chairman's Note

**R. Ramaraj**  
Chairman

**Dear Shareholders,**

It is my privilege to present to you the Annual Report for FY 2025–26. I hope this message finds you in good health and spirits.

The financial year under review was marked by a challenging and evolving global environment, which impacted your Company's performance. During FY 2025–26, the Company reported revenue of ₹25.16 crores and a loss of ₹29.93 crores and a consolidated loss of ₹28.51 crores, primarily due to delays in conversion of anticipated product licensing opportunities.

While these near-term outcomes were below expectations, they do not reflect the underlying strengths of the business or its long-term potential. Your Company has laid a strong foundation over the past decade through sustained investments in product development, technology, and market expansion—positioning itself for future growth.

Looking ahead, the Company is sharply focused on converting its robust pipeline into tangible business outcomes. Strengthening client partnerships, expanding global market presence, and accelerating go-to-market strategies remain key priorities. The traction witnessed across multiple geographies for the Company's products is encouraging and reinforces confidence in the business direction.

As the global landscape undergoes rapid transformation, Artificial Intelligence (AI) is emerging as a defining force reshaping industries, business models, and customer experiences. From enabling real-time decision-making to driving efficiency, personalization, and innovation, AI is fundamentally redefining how enterprises operate. Your Company recognizes this shift and is actively aligning its product strategy to embed AI-driven capabilities across its offerings. We believe that leveraging AI will not only enhance the value proposition of our solutions but also open new avenues for growth in both domestic and international markets.

Your Company continues to play an important role in strengthening the digital payments ecosystem. Enhancements to the Unified Payments Interface (UPI) platform developed for NPCI, along with products such as BBPS and EFRM, continue to contribute to the evolution and scalability of the National Payments Stack. These capabilities, combined with the Company's advanced product suite, position it well to capture opportunities in both domestic and international markets.

The Company's cumulative investments exceeding ₹130 crores in building high-quality, scalable platforms are now beginning to yield visible results. With increasing global interest in modern payment solutions, the Company is well-positioned to benefit from the ongoing transformation of the payments landscape.

Participation in global industry forums, conferences, and expos continues to enhance brand visibility and open new avenues for collaboration and growth. The Company remains committed to strengthening its global footprint and translating market interest into sustained revenue streams.

Equally, the Company continues to invest in its most valuable asset—its people. Focused initiatives on upskilling and continuous learning are ensuring that our workforce remains agile, innovative, and aligned with emerging technology trends.

As your Company continues its transition into a product-led, innovation-driven organization, the Board remains confident in its strategy and future prospects. We believe the coming years will see improved performance, driven by execution strength, market expansion, and product adoption.

On behalf of the Board of Directors, I extend my sincere appreciation to our management team, employees, partners, and all stakeholders for their dedication and commitment. I also thank you, our valued shareholders, for your continued trust and support as we work towards creating sustainable long-term value.

**Warm regards,**  
**R. Ramaraj**  
Chairman

# Payment Orchestration: Connecting the World's Payment Rails

The payments industry has entered an era of unprecedented complexity. Financial institutions no longer operate within a single payment network or settlement model. Instead, they must simultaneously support cards, account-to-account payments, real-time payment systems, digital wallets, cross-border networks, emerging digital asset ecosystems, and future forms of programmable money.

The challenge is no longer gaining access to payment rails. The challenge is coordinating activity across them. As payment ecosystems expand, institutions must manage multiple networks, settlement mechanisms, liquidity pools, regulatory requirements, customer channels, and operational workflows simultaneously. What was once a connectivity challenge has evolved into a coordination challenge.

This shift is making payment orchestration one of the most strategic capabilities in modern payments.

## Payments Are Becoming an Orchestration Problem

Historically, payment providers competed on network reach, processing speed, and transaction volumes. Success depended on connecting institutions to the appropriate payment networks and ensuring transactions moved efficiently from sender to recipient.

Today's payment environment is fundamentally different.

Modern payment ecosystems are increasingly multi-rail. Cards, account-to-account networks, real-time payment systems, digital wallets, central bank digital currencies, and tokenized assets are operating side by side. Each rail offers unique advantages in terms of speed, cost, reach, settlement models, and customer experience.

As the number of available options grows, institutions must make increasingly complex decisions for every transaction.

Which payment rail should be used? Which network offers the highest probability of success? Which route minimizes cost? Which option provides the fastest settlement? Which path best supports customer preferences and operational objectives?

Answering these questions in real-time requires a new operating model.

## The Rise of Intelligent Routing

By 2030, competitive advantage will increasingly come from routing intelligence.

Modern orchestration platforms use artificial intelligence and advanced analytics to evaluate multiple variables simultaneously, including transaction context, liquidity availability, network performance, operational conditions, customer preferences, and business objectives. Rather than relying on static routing rules, intelligent orchestration enables dynamic decision-making at transaction speed. This allows institutions to optimize payment flows across multiple rails while improving efficiency, reducing operational complexity, and enhancing transaction outcomes.

Routing is no longer a back-office function. It is becoming the decision engine that powers modern payment ecosystems.

## Orchestration as the Operational Control Layer

As payment environments become more interconnected, orchestration increasingly serves as the enterprise's operational control centre.

The orchestration layer coordinates:

- Routing decisions across multiple payment rails
- Workflow execution and exception management
- Liquidity allocation and funding optimization
- Settlement and reconciliation processes
- Operational visibility and performance monitoring
- Integration across internal and external ecosystems

By bringing these capabilities together within a unified framework, orchestration helps institutions simplify increasingly fragmented payment environments while maintaining operational agility and scalability.

The result is greater visibility, improved control, and more efficient management of end-to-end payment operations.

## Enabling a Connected Payments Ecosystem

The future of payments will not be defined by a single dominant rail. It will be defined by the ability to operate seamlessly across many.

As real-time payments, cross-border networks, embedded finance platforms, digital wallets, and emerging digital asset ecosystems continue to evolve, institutions will require infrastructure capable of coordinating transactions across increasingly diverse environments.

## Orchestration provides the foundation for this connected ecosystem.

By enabling intelligent coordination across payment rails, liquidity sources, workflows, and operational processes, orchestration transforms complexity into flexibility and connectivity into strategic advantage.

For RS Software, this evolution represents a natural extension of decades of experience in payment modernization. As the industry moves toward increasingly intelligent and interconnected ecosystems, orchestration will play a central role in enabling institutions to manage complexity, improve performance, and participate confidently in the next generation of global payments.

## The Market Opportunity

Digital adoption is widespread in B2B payments; however, activity is mainly in low-margin channels such as bank transfers and instant payments. To capture value, companies, especially software-centric players, are investing in value-added services, including invoice automation, reconciliation, and working capital tools. These are particularly important in small businesses and sectors such as healthcare, where manual workflows persist. New technologies continue to create new opportunities and threats. From tokenized money and digital currencies to AI-based fraud detection and liquidity management, innovation enhances security, efficiency, and reach. Adoption, however, is inconsistent. Regulatory uncertainties, infrastructure gaps, and varying technical standards are causing progress to occur in isolated areas. Technology providers are also encroaching on traditional banking areas. The advent of software as a service and API connectivity has created a new set of niches—with treasury management platforms such as Kyriba or GTreasury and platforms for the office of the CFO (such as Bill.com) set to capture customer mindshare and position themselves between clients and their banks. They are offering a single bank-agnostic solution to customers, allowing them to easily see a single view of their position across institutions. They are increasingly generating traction and revenues with corporate clients of all sizes across an array of sectors and geographies and disrupting banks' direct access to these clients.

**\$2.5 Trillion**

Annual global payments revenue

The payments industry remains the most valuable part of financial services, generating \$2.5 trillion in revenue from \$2.0 quadrillion in value flows, supported by 3.6 trillion transactions worldwide. The pace of change in the payments ecosystem has been extraordinary. Two primary forces have been driving the momentum — digital currencies and AI — and both have the power to radically disrupt the payments space for banks and retailers. The rapid evolution of digital currencies and, more importantly, the underlying distributed ledger technology, potentially provides greater speed, efficiency, security and acceptance.

Today, digital currencies are creating alternate rails that could fundamentally transform the traditional payment ecosystem (and, in doing so, disintermediate many financial institutions). With SWIFT's planned introduction of a blockchain-based ledger,<sup>1</sup> a fundamental shift in payment technologies is now underway. The other big disruptor is AI — agentic commerce in particular. Recent estimates suggest that around half of ChatGPT users in the US asked the tool to help them with their holiday shopping this year. Now, chatbots capable of not only selecting products, but also paying for them, are emerging and transforming the purchasing patterns of AI-native consumers. Big AI companies are at the forefront.

According to McKinsey Payments are at a turning point. What was once a pursuit of universal efficiency has become a competition among various market systems, each with its own philosophies, capabilities, and constraints. Some focus on control and interoperability through central infrastructure, while others prioritize decentralization, programmability, and private rails. Others are integrating payments into platforms, devices, and networks not traditionally associated with finance. How money moves is becoming as critical as how much. Whether it's wage payments in Southeast Asia, B2B settlements in Europe, or retail checkouts in Latin America, the design choices being made today are shaping the next decade of payments and will determine who leads, who follows, and who falls behind.

Account-to-account (A2A) payments are gaining popularity, particularly through digital wallets, which now account for approximately 30 percent of global point-of-sale volume, led by markets such as India, Brazil, and Nigeria. As transaction volume shifts toward lower-yield rails, such as instant payments, monetization challenges are rising, particularly in markets with strict regulations on interchange and processing fees. Over time, McKinsey expects new economic and fee models to emerge in A2A, potentially following the Indian example, where banks are beginning to charge payment aggregators for Unified Payments Interface (UPI) merchant transactions.

Another threat comes from digital payments attackers—such as Airwallex or Stripe—that are moving upmarket from their initial focus on retail and small and medium-sized enterprises and now serving larger companies with a global footprint. These companies bring together software and payments in increasingly integrated offerings—often with more competitive pricing and new capabilities such as real-time global disbursements—that can surpass the capabilities of all but the largest incumbent banks.

In some cases, banks can work jointly with these firms rather than compete, seeking to create win-win outcomes. For fintechs and software firms focused on customer acquisition and retention, national domestic banks are increasingly seen as critical partners and routes to market. Banks aim to deliver state-of-the-art services to their clients, even if these services are not developed internally. Consequently, many banks are increasingly white-labeling third-party technology or acting as distribution channels for branded solutions. This approach accelerates time to market and enhances customer functionality by combining the agility of software firms with the distribution power of banks. This symbiotic approach is allowing players to rapidly meet the growing demand for integrated, innovative financial solutions while limiting investment spend.

The global payments ecosystem is entering an unprecedentedly complex phase, fueled by a highly interconnected world of goods, services, and people. Over the past 30 years, globalization has enabled a smooth flow of money across borders. However, geopolitical events have led some regions and countries to lessen their dependence on global standards and systems. For example, sanctions on Russia have excluded it from international card networks, prompting it to rely on its Mir card for domestic transactions and to co-badge with China UnionPay for international transactions. Some regions and countries are promoting payments sovereignty to reduce their dependence on

global intermediaries; the European Central Bank, for instance, is promoting large-scale, Europe-focused systems.

At the same time, technological progress has accelerated the growth of mostly local and regional payment systems. The development of instant payment infrastructure is especially transformative, enabling the creation of user-friendly overlays (notable examples include Pix in Brazil, Bizum in Spain, and UPI in India). Increasingly, interoperability among domestic instant payment systems provides alternative ways to process cross-border payments, offering options beyond traditional standards. Prominent and rapidly expanding examples include the internationalization of Pix in Latin America and the expansion of the National Payments Corporation of India into the Middle East and Southeast Asia. At the same time, the rapid use of stablecoins is creating a new alternative to traditional payment rails.

These geopolitical and technological changes are reshaping the payments landscape, leading to increased regionalization and diversification. A return to the fully globalized payment systems of just five years ago seems unlikely, as the forces driving fragmentation are already in motion. Many alternative payment systems have faced difficulties in growing effectively, however, held back by poor user experiences, unclear value propositions, governance problems, and a lack of supportive legislation in key markets. In some cases, legacy systems have proved resilient enough to bypass or outcompete these novel solutions.

Consequently, the payments landscape is moving toward two possible outcomes, both of which are more fragmented than today: a multi-rail ecosystem with global passkeys, or increased localization and the decline of worldwide standards.

If global trade and commerce continue to face major challenges and geopolitical tensions grow, countries may increasingly rely on local and regional alliances, moving away from the worldwide exchange of goods, services, and people. This scenario may transpire if global actors fail to create a framework for the coexistence of global and local systems. It would likely be accompanied by an inevitable move toward regionalized payment systems.

In this scenario, countries and regions would prioritize resilience and self-reliance, resulting in more bilateral agreements, intermediary currencies, and alternative payment systems. This would lead to a significant divergence from global standards. Over time, regional systems and payment methods could dominate use cases, fundamentally transforming the financial landscape. International connectivity could become more challenging, with significant implications for the payments technology stack, particularly for institutions with a multi-region or global footprint. This might accelerate the adoption of stablecoins and tokenized currencies. The technological infrastructure supporting stablecoins is advancing rapidly. Key improvements include increasing throughput by shifting transaction processing from the main network to an expanded Layer 2 and adopting more-efficient consensus protocols. User-facing technologies such as digital wallets and bank-grade custody solutions are also becoming more reliable and easier to access, while the growth of advanced on-chain analytics tools is enhancing security and compliance.

Over the past 18 months, several high-profile announcements, partnerships, and mergers and acquisitions have demonstrated the industry's commitment to capturing value through tokenized assets.

Payments players are exploring and deploying AI technologies. While some are pursuing opportunities to boost customer engagement, most AI efforts to date have focused on reducing costs and enhancing productivity in areas such as transaction optimization, software engineering, fraud detection, and risk management.

In transaction processing, for example, companies including PayPal use AI to analyze, predict, and optimize payment routes based on factors such as transaction costs, processing times, and network congestion. Others are using AI to help automate reconciliation and settlement, which are still done manually in most institutions. Some, such as Visa, use AI to make settlements more efficient by using insights into clearing and settlement cycles, expected delays, and other variables to better time fund transfers, reduce operational costs, and ensure real-time payment finality.

In risk and fraud management, AI applications have evolved from existing advanced analytics capabilities. AI is now used to enhance risk scoring and fraud prevention, as well as to address emerging issues such as deepfakes and synthetic fraud. Capital One has advanced its fraud detection systems from pattern recognition to a more sophisticated AI system that recognizes the behavioral patterns of its customers.<sup>7</sup> Other players are leveraging AI to automate client onboarding for both retail and wholesale customers—a first step in managing the substantial back-office costs of financial crime management and compliance.

Countries' focus on payment sovereignty and local schemes will benefit local and regional players while hindering global ones. Local players can become trust anchors in domestic systems like instant payments, identity layers, and central bank digital currency platforms, promoting interoperability, connecting networks, and respecting domestic policies. Regional players, such as Wero in Europe or Pix in Brazil, can lead Economic blocs by setting rules for cross-border payments, digital identity, and data governance. Global players might shift toward flexible, open infrastructures that accommodate jurisdictional differences.

## Acceptance & Acquiring: AI as a Revenue Multiplier

The acceptance and acquiring layer is undergoing a transformation from static infrastructure to intelligent revenue optimization.

AI-driven payment optimization is increasing conversion rates by up to 22%, while reducing false positives in fraud detection by as much as 40%, directly improving transaction approval rates. AI-powered personalization is also enhancing customer retention by nearly 28%, while 65% of consumers now prefer AI-recommended payment methods that improve checkout experiences and transaction success rates.

As merchants increasingly compete on customer experience, conversion efficiency, and operational agility, intelligent payment acceptance capabilities are becoming a strategic differentiator.

This trend aligns strongly with Payabbhi®, RS Software's merchant payments platform. As payment service providers, fintechs, ISVs, and merchants seek to simplify merchant onboarding, streamline payment acceptance, automate settlements, and support embedded commerce models, platforms that can combine operational efficiency with intelligent payment experiences are becoming increasingly valuable.

## Bill Payments: The Next Frontier of AI-Led Engagement

Bill payments represent one of the most frequent and high-volume transaction categories globally, spanning utilities, telecom, financial services, government services, and subscription-based businesses. As digital payments scale, this segment is emerging as a critical battleground for AI-driven innovation.

AI-powered interfaces already resolve approximately 74% of payment-related customer queries without human intervention, while automation is reducing payment processing times by up to 73%. AI is also enabling predictive payment reminders, intelligent scheduling, automated payment execution, and continuous monitoring of payment behaviors to identify anomalies and reduce operational risk. As organizations seek to improve customer engagement while increasing operational efficiency, bill payments are evolving beyond simple transaction processing into intelligent customer interaction platforms.

This transformation aligns closely with RS Bill@Edge™, RS Software's end-to-end bill presentment and payment platform. By integrating onboarding, invoicing, bill presentment, payments, reconciliation, customer engagement, and dispute resolution into a unified ecosystem, RS Bill@Edge™ is positioned to help organizations capitalize on the growing demand for intelligent and automated bill payment experiences.

## Hyper-Personalization in Payments

AI is enabling a new level of personalization across payment experiences:

- Personalized payment recommendations increase conversion rates and user engagement
- Behavioral AI models optimize:
  - Payment method selection
  - Timing of transactions
  - User journey flows

## Real-Time Data Intelligence & Predictive Analytics

The increasing velocity of transactions is generating massive volumes of real-time data, creating opportunities for predictive intelligence.

- AI reduces reconciliation and processing cycles from 5–7 days to 1–2 days
- Improves cash flow visibility by 18–22% through predictive forecasting

## What Would make RS Software Competitive

RS Software has rare assets

- Built major payment systems like UPI infrastructure.
- Deep expertise in payment network technology.

RS Software focus is on:

Impact on Market Participants

- **Banks:** Can reduce payments-related IT spending by **20–30%** by integrating their fragmented payments architecture.
- **Merchants:** Need "autonomous payment infrastructure" featuring **smart routing** and dynamic currency optimization as standard features to meet rising consumer expectations.
- **Platform Providers:** Positioned to act as the **control layer** for AI agents and programmable finance due to their breadth across various rails.

The payments industry is not just adapting to new technologies or market shifts; it is fundamentally redefining its foundational structures in response to geopolitical forces, emergent digital paradigms, and the accelerating intelligence of AI. Success in this fragmented but interconnected future hinges on committing to seamless interoperability among diverse rails and embracing complexity. The coming years will reward players who can convert these challenges into opportunities by forging new pathways in a world where agility, innovation, and trust are the most valuable assets.

“Character is what you carry when credit fades.”

### Why RS Software Is Uniquely Positioned

Most companies cannot do this because they lack network trust.

Strategic Reality

RS Software already has rare assets:

- Built major payment systems like UPI infrastructure.
- Deep expertise in payment network technology.
- 30 years of demonstrated success with Visa, and India’s gold standard digital payment infrastructure.

### The New Architecture of Global Payments by 2030

The likely future architecture:

Layer	2030 Direction
Consumer Interface	Embedded finance everywhere
Identity Layer	Digital identity + biometrics
Payment Initiation	API-driven, account-to-account
Clearing	Real-time instant rails
Settlement	Tokenized / programmable
Cross-Border Routing	Interoperable rail orchestration
Compliance	AI-driven real-time compliance
Liquidity	Continuous optimization
Messaging	ISO 20022 standardized globally
Infrastructure Governance	Hybrid public-private

## Message from the CEO and Managing Director

**Raj Jain**  
CEO & Managing Director

“Challenges force us to be creative, resourceful, and resilient.”

### The outlier year

FY 26 has been a year of mixed blessings, a year when you have to keep reminding yourself “you win some, you lose some”. Public listed companies are measured with the yardstick of revenue and profitability growth, and we have not met either metric, resulting in major cash losses during the fiscal. This is also the year when we have successfully transformed India’s UPI and Enterprise fraud and risk management platforms to perform at levels never seen before – vindicating our confidence to be an outlier success with our Network-grade engineering capability, earning the right to serve our stakeholders and demonstrate 30+ Years of Payment Infrastructure transforming humanity with the power of digital payments.

### Dismal business metrics

We have said this before and FY 26 has only reiterated the harsh acceptance of the long sales cycle, the perceived risk of companies of small size, and the presence of established players. What made it even more complex is that during the transition from a software services company to a products company, execution on the floor itself is a significant strategic shift. It involves rethinking business models, organizational structure, technology stack, and customer engagement. There is a growing consensus among global industrial leaders: the stable foundations that once underpinned long-term corporate strategy have dissolved. Where we did not do well was to engage daily with process metrics where work happens — asking specific questions, celebrating improvement behaviours, removing obstacles. We are living in a new era. This is a period of continuous reinvention where strategy is no longer executed through static plans but through dynamic, cross-functional initiatives. Experts say that the existing measurement of metrics is a “spiral of death.” Short-term financial optimization destroying long-term capability. As per the survey at Harvard University in four decades of implementation work across 60+ countries, one pattern holds without exception: the metric system needs to conform to today’s reality. The rules have changed, global strategy leaders say they need them in 2026. The speed of change is itself part of the strategic problem and part of the opportunity for those who move with it rather than around it.

### The good news

Pursuing growth and doing all to make it happen is the principle founding value that has ensured us to be in business for 35 years. The belief is “Not knowing when the dawn will come / I open every door”. The 2026 landscape is characterized by a “mosaic” of regional rails and emerging technologies, where leading platforms act as a control layer for AI agents and programmable money.

By 2030, global payment infrastructure is likely to undergo the largest structural transformation since the creation of card networks and SWIFT. The industry is moving from a fragmented, bank-centric, batch-processing model toward a **real-time, interoperable, programmable, multi-rail global settlement fabric**.

## AI Will Become Native to Payment Infrastructure

<p>By 2030, AI becomes deeply embedded in:</p> <ul style="list-style-type: none"> <li>fraud detection</li> <li>liquidity management</li> <li>sanctions screening</li> <li>treasury optimization</li> <li>payment routing</li> <li>risk scoring</li> <li>dispute resolution</li> </ul>
<p>The next-generation payment infrastructure company is likely:</p> <ul style="list-style-type: none"> <li>AI-native</li> <li>API-first</li> <li>cloud-native</li> <li>compliance-embedded</li> </ul>
<p>This shift will redefine:</p> <ul style="list-style-type: none"> <li>monetary sovereignty</li> <li>cross-border commerce</li> <li>banking economics</li> <li>geopolitical influence</li> <li>the role of payment infrastructure provider</li> </ul>
<p>The strategic question is no longer: "Will payments digitize?" It is: "Who controls the orchestration layer of global value movement?"</p> <p>By 2030:</p> <ul style="list-style-type: none"> <li>instant payments become the global default,</li> <li>settlement windows compress from days to seconds,</li> <li>liquidity becomes continuously optimized.</li> </ul>
<p>The World Bank GPSS shows rapid global expansion of instant payment systems across central banks and jurisdictions. Examples already underway:</p> <ul style="list-style-type: none"> <li>India's UPI</li> <li>Singapore PayNow</li> <li>Brazil Pix</li> <li>FedNow in the US</li> <li>Europe's SCT Inst</li> <li>BIS Project Nexus</li> </ul>
<p>The BIS Nexus initiative explicitly aims to connect national instant payment systems into a standardized cross-border framework. The future infrastructure winners are not merely payment processors. They become:</p> <ul style="list-style-type: none"> <li>liquidity routers</li> <li>identity validators</li> <li>interoperability orchestrators</li> <li>trust infrastructure providers</li> </ul>

## Payment Infrastructure Becomes Geopolitical Infrastructure

Payments are no longer just financial utilities. They are:

- strategic state infrastructure,
- geopolitical leverage systems,
- economic influence mechanisms

Historically:

- SWIFT,
- dollar settlement,
- correspondent banking created Western financial dominance.

By 2030, countries increasingly seek alternatives:

- domestic rails,
- regional settlement systems,
- local currency trade,
- CBDC interoperability.

China's digital yuan ecosystem and mBridge participation signal this strategic direction.

“Clarity of purpose makes it easy to identify a good opportunity.”

## Key Strategic Reality

The future global system likely becomes

- interoperable
- but politically fragmented

Boards must assume

- compliance fragmentation
- jurisdictional routing complexity
- sanctions-aware infrastructure design
- regional settlement clusters

## Identity, Data, and Trust Become More Valuable Than Payments

Payments themselves increasingly commoditize. The real strategic value shifts to:

- identity
- fraud intelligence
- tokenization
- authentication
- compliance orchestration
- consent management
- data portability

This is why firms like

- Visa
- Mastercard
- Stripe
- Adyen
- Plaid

are increasingly repositioning themselves as:

- infrastructure
- identity
- orchestration
- network intelligence companies

By 2030: the "payment" itself may become invisible. The competitive advantage lies in:

- trust
- compliance
- routing intelligence
- embedded finance ecosystems

## ISO 2022 Becomes the Universal Financial Language

One of the least appreciated but most transformative trends: global migration to ISO 2022. By 2030:

- messaging standards become normalized globally
- interoperability accelerates
- richer payment metadata becomes standard
- AI-enabled compliance improves dramatically

This becomes foundational for

- Nexus
- CBDCs
- tokenized finance
- instant payments
- AI-driven treasury systems

## What This Means for Banks

Banks face a strategic dilemma. Historically: banks controlled:

- accounts
- distribution
- payments
- customer relationships

By 2030: much of this moves toward:

- platforms
- ecosystems
- embedded finance providers
- digital identity networks

Banks risk becoming

- regulated balance-sheet utilities

Unless they evolve toward:

- orchestration
- trust
- embedded services
- programmable liquidity

### Strategic timing for RS Software

For a company like RS Software, the opportunity is extremely significant. The market is shifting from: “payment processing” to “payment infrastructure orchestration.”

RS Software is the mission-critical payments infrastructure platform that enables nations, networks, and financial institutions to build, operate, and scale real-time digital payment ecosystems with unmatched reliability, intelligence, and speed.

“ Integrity is doing right, not being right.”

### Risks and challenges

We believe our risk paradigm continues to be consistent and the learning from FY 26 have emphasized that Challenges must force us to be creative, resourceful, and resilient, and this is our commitment.

#### Major risks:

##### Growth and Competitive Risk

Challenge	Mitigation
Long sales cycle, perceived risk of companies of small size, and presence of established players in the market.	We are focused on niche segments in the payments domain, and differentiating through innovation, demonstrated success of building critical national and global payment systems. It is “the power of RS Software inside”, empowering payments industry to transform people, businesses and global commerce.
	We are building channel partners, strategic alliances and learning from our interactions with the market.
	We are enhancing our market positioning and market reach.

##### Product-Market Fit Risk

Challenge	Mitigation
Our products may not meet actual market needs or may be too similar to existing solutions.	We are constantly learning from interaction with prospects, channel partners and existing customers, creating MVPs, conducting proof of technology, continuing innovation in RS Payments Innovation Lab™, and iterating based on the feedback.

##### Talent and Capability Risk

Challenge	Mitigation
Existing teams lack product development experience or platform thinking.	RS School of Payments™ conducts regular Upskill training programs, validates learning by individuals with feedback from projects in RS Payments Innovation Lab™, customer product implementations, work in product build organization and formal appraisal system.
	Recruiting experienced product managers, UX designers, and platform architects.
	Fostering a product-centric culture.

### Financial Risk

Challenge	Mitigation
High upfront investment in product development with delayed ROI.	We have already made significant investments over the past several years, which are charged to the previous years financials, and we are maintaining a hybrid model (services + products) during transition. Ongoing investments to meet roadmap for the products, and customer specific requirements are aligned with milestones.
	Goal is to maintain a fine balance between investments and cashflows.

### Technical Debt and Scalability Risk

Challenge	Mitigation
Legacy systems may not support scalable product architecture.	We have almost no technical debt, and have already invested in microservices architecture, and have adopted cloud-native and API-first approaches.

### Compliance and Regulatory Risk

Challenge	Mitigation
Payment products must meet strict compliance standards (e.g., SOC 1&2, PCI-DSS, GDPR, KYC/AML).	RS Software from inception has regular audits and certifications to benchmark globally, and engage legal and compliance experts with early consultation with prospects.
	We try and build compliance into product design.

### Cultural and Organizational Resistance

Challenge	Mitigation
Internal resistance to change from service mindset to product mindset.	We communicate the vision clearly and frequently, and Celebrate quick wins and success stories. We are starting to align incentives with product goals.

“ Be strong enough to bounce back from missed opportunities. And be smart enough to always view challenges as a new possibility to get it right.”

## The Journey Continues

The future of payments will not be defined simply by faster transactions or broader connectivity. It will be defined by intelligent infrastructure that can make decisions, manage risk, orchestrate complex ecosystems, and earn trust with every transaction. This belief sits at the heart of RS Software's strategy.

For more than three decades, we have engineered payment infrastructure that powers some of the world's largest and most demanding payment ecosystems. The next phase of that journey is a natural evolution—from building digital payment systems to enabling AI-native payment infrastructure where intelligence, resilience, compliance and trust are embedded into every layer of the payments lifecycle.

FY26 has been a year of learning, reflection and renewal. While our financial performance fell short of expectations, it has reinforced our conviction that enduring businesses are built not only through technology innovation, but through disciplined execution, customer-centricity and the ability to continuously adapt to changing market realities. We have sharpened our strategic priorities, strengthened our product capabilities, invested in AI-led innovation and continued to build the organizational foundations required for long-term growth.

The opportunity before us is significant. Around the world, governments, payment networks, financial institutions and enterprises are modernizing payment infrastructure to support real-time payments, intelligent fraud prevention, multi-rail orchestration and AI-driven decisioning. These are the very capabilities that have defined RS Software's engineering heritage and continue to shape our future.

Our focus is therefore clear: execute with discipline, convert opportunity into sustainable growth, deepen customer relationships, and deliver platforms that help our customers build trusted, intelligent and future-ready payment ecosystems.

### The execution reality

The chapters that follow outline how we are translating this vision into reality—through our product strategy, the RS Payments Innovation Lab™, and continued investments in artificial intelligence, engineering excellence and payment innovation.

The journey continues. So does our commitment to creating long-term value for our customers, partners, employees and shareholders by helping build the trusted AI-native payment infrastructure of tomorrow.

### Gratitude

I am personally indebted to all the stakeholders for their continued faith in the company's direction, particularly to our customers and prospects who are validating the products and technology we offer to the market. We stand humbled on several achievements and the recognition for the same. Special gratitude and thanks to all our employees who work with absolute dedication and commitment. This foundation built over 35+ years is the biggest inspiration as we approach the next frontiers of transformation for humanity with the power of digital payments.

# How RS Software is Building the Future

## Four Products. One Decisioning Layer. Built for Where Payments Are Actually Going.

As the payments ecosystem transitions toward an AI-driven, real-time, and increasingly autonomous model, RS Software is strategically aligning its product portfolio to address the most critical opportunity areas across the payment lifecycle. From fraud intelligence and orchestration to acceptance and bill payments, RS Software is building an integrated platform that powers the intelligence layer of payments.

Each product is purpose-built to address specific structural shifts in the market—while collectively enabling a unified, AI-led financial ecosystem.

### RS IntelliEdge™: Advancing Trust Intelligence in a Real-Time Economy

Fraud and risk management are rapidly evolving from transaction-level controls to continuous, identity-centric intelligence systems. RS IntelliEdge™ is designed to address this shift by moving beyond traditional fraud detection into pre-transaction and behavioral intelligence.

The product roadmap reflects a clear transition toward AI-led, identity-centric risk intelligence:

- Pre-Transaction Intelligence: Introduction of session risk engines and pre-authorization scoring enables fraud detection before a transaction is initiated, aligning with the industry shift toward early-stage risk mitigation.
- Explainable AI (Model Studio / SHAP): Built-in model explainability ensures compliance with evolving global regulations (EU AI Act, RBI, CFPB), addressing the growing need for transparent and auditable AI systems.
- Identity-Centric Intelligence: Customer 360 profiles, behavioral biometrics, and cross-channel signal aggregation enable continuous risk assessment across the entire customer journey.
- AI-Led Adaptive Defense: Capabilities such as synthetic identity detection, deepfake detection, and dynamic authentication respond to emerging fraud patterns in real-time.
- Network Intelligence: Consortium-based fraud intelligence and cross-bank data sharing position RS IntelliEdge™ at the forefront of collaborative fraud prevention models.

With deployments at national-scale infrastructures and leading financial institutions, RS IntelliEdge™ is evolving into a trust intelligence platform—one that extends across fraud prevention, regulatory compliance, and real-time decisioning.

### RS DigitalEdge™: The Orchestration Control Layer

As payment ecosystems become increasingly fragmented across providers, rails, and geographies, orchestration is emerging as the central control plane for payments. RS DigitalEdge™ is designed to operate at this layer, enabling real-time routing, optimization, and decisioning across payment flows.

The platform enables:

- Multi-rail orchestration across payment types and channels
- Real-time routing optimization based on cost, success rates, and risk signals
- Unified policy execution across systems and providers
- Scalable, cloud-agnostic architecture aligned with enterprise requirements

By integrating data from fraud systems, payment networks, and merchant platforms, RS DigitalEdge™ transforms payments into adaptive, self-optimizing workflows.

### Payabbhi®: Powering Intelligent Acceptance and Acquiring

In a high-volume, margin-sensitive payments environment, even marginal improvements in approval rates and conversion directly impact revenue. Payabbhi® is designed to enhance the acceptance and acquiring layer, transforming it into a data-driven revenue engine.

Key capabilities include:

- Seamless payment acceptance across multiple methods and channels
- High-performance APIs for scalable transaction processing
- Intelligent retry and routing frameworks to improve success rates
- Developer-first architecture enabling rapid merchant integration

By leveraging AI-driven insights from orchestration and fraud systems, Payabbhi® enhances:

- Authorization rates
- Transaction success rates
- Customer experience at checkout

### RS Bill@Edge™: Enabling AI-Powered Bill Payments

Bill payments are emerging as a high-frequency, high-engagement layer within the payments ecosystem. RS Bill@Edge™ is designed to transform this space from a transactional utility into an intelligent, automated financial interaction layer.

The platform enables:

- End-to-end bill presentment and payment workflows
- Real-time reconciliation and payment tracking
- Automated billing and collection processes
- Integration with multiple payment rails and service providers
- Standardized Request-to-Pay (RfP) orchestration across banks and networks, enabling seamless invoice-to-payment journeys
- Automated reconciliation with consolidated reporting and traceability, ensuring full lifecycle visibility from invoice to settlement

With AI integration, RS Bill@Edge™ is positioned to support:

- Predictive payment scheduling and reminders
- Intelligent exception handling and reconciliation
- Enhanced customer engagement through automated interactions
- GenAI-powered invoice summaries, providing contextual insights on dues, changes, and required actions to improve user decision-making
- AI Payment Certainty Scoring, enabling proactive working capital management and improved cash flow predictability for billers
- Next-best action engines, driving intelligent payment nudges, optimized reminder timing, and proactive exception alerts
- AI-assisted SMB invoicing and drafting, simplifying invoice creation and reducing manual effort for small and mid-sized businesses

As bill payments evolve toward automation and personalization, RS Bill@Edge™ provides the infrastructure to support scalable, AI-driven payment experiences. The platform further extends into B2B payment enablement, where AI-driven insights support dynamic discounting, flexible payment terms, and working capital optimization.

## RS Payments Innovation Lab™: Driving Future Innovation

During FY 2025–26, RS Software accelerated its transformation into an AI-first payments technology company by embedding artificial intelligence across its products, software engineering processes, and organizational capabilities. As the global payments industry increasingly shifts from transaction processing to intelligent, outcome-driven financial experiences, the Company aligned its innovation strategy to help customers improve efficiency, strengthen risk management, enhance compliance, and deliver superior user experiences.

Across the product portfolio, AI capabilities were significantly enhanced. RS IntelliEdge™ expanded its explainable AI framework to support evolving regulatory requirements while introducing advanced fraud prevention through behavioral analytics and customer intelligence. AI-driven enhancements were also incorporated into Payabbhi®, RS DigitalEdge™, and RS Bill@Edge™, enabling intelligent payment routing, automated risk assessment, faster payment processing, voice-enabled billing, predictive collections, and personalized customer engagement.

Innovation extended well beyond products. The Company developed a Retrieval Augmented Generation (RAG) proof of concept that enables ChatGPT-like access to internal knowledge repositories, demonstrating the potential of indigenous AI solutions to improve knowledge discovery and decision-making. Across the software development lifecycle, AI-powered tools delivered significant productivity improvements in market research, requirements engineering, software development, testing, and project delivery. AI-assisted development also accelerated the creation of demonstration applications and enabled the generation of intelligent project dashboards, improving visibility and execution across delivery teams.

Recognizing that sustainable AI advantage depends on domain expertise as much as technology, RS Software invested extensively in building organizational capability. A structured enterprise-wide AI and payments upskilling program assessed and trained employees, resulting in a strong increase in advanced AI proficiency while encouraging broader participation in knowledge sharing, technical thought leadership, and customer-focused innovation.

The Company also strengthened collaboration across Product, Sales, and Pre-Sales teams to reposition solutions around measurable business outcomes rather than product features alone. This outcome-led approach, together with continued investments in AI-enabled product innovation and engineering excellence, reinforces RS Software's commitment to delivering intelligent, trusted, and future-ready payment solutions for customers worldwide.

### Innovation Focus for FY 2026–27

- **Multi-Agent Systems and Autonomous Agents:** Develop enterprise capabilities in multi-agent architectures, autonomous AI agents, and harness engineering to orchestrate complex software engineering, operational, and business workflows.
- **Self-Healing Intelligent Platforms:** Apply agentic AI to build self-healing platforms capable of autonomous monitoring, root cause analysis, remediation, and continuous optimization, thereby improving system availability and operational resilience.
- **AI-Driven Quality Engineering:** Develop autonomous test agents that perform functional, integration, regression, security, and compliance validation, enabling continuous system health assessment and accelerating high-quality software delivery through intelligent automation.

# Board of Directors

**R Ramaraj**  
Chairman

R. Ramaraj is widely regarded as a pioneering figure in India's digital and entrepreneurial landscape. He was the Co-Founder and Chief Executive Officer of Sify, one of India's earliest and most prominent internet ventures. In recognition of his visionary leadership, he was named 'Evangelist of the Year' at the India Internet World Convention in 2000 and voted 'IT Person of the Year' by CNET.com India in the same year.

In 2010, the Confederation of Indian Industry (CII) conferred upon him a Lifetime Achievement

Award for his outstanding contribution to fostering entrepreneurship and mentoring a generation of Indian innovators. Mr. Ramaraj has held influential advisory roles, including as Senior Advisor at Sequoia Capital and currently at Elevar Equity, where he continues to guide emerging ventures.

He served on the Board of Governors of the Indian Institute of Management Calcutta. Ramaraj has also been recognized as a distinguished alumnus of IIM Calcutta. A strong advocate for innovation and global collaboration, he was a member of the Global Board of Trustees of TiE (The Indus Entrepreneurs), and notably, the first Indian appointed to the Board of Directors of ICANN (Internet Corporation for Assigned Names and Numbers).

He holds a B.Tech. in Chemical Engineering from the University of Madras, an MBA from the Indian Institute of Management Calcutta, and a Ph.D. from SRM University.

**Sarita Jain**  
Director

Sarita Jain has been a Director on the RS Software Board since the Company's inception in 1989. In addition to possessing exemplary administrative, communication and organizational skills, Mrs. Jain holds an undergraduate degree in English Honours, a Masters degree in English from Delhi University, and an associate degree in Mass Communication.

**Cedarampattu S Mohan**  
Director

Ram Mohan is the Chief Strategy Officer of Identity Digital, the second-largest internet domain name company in the world, where he works closely with the CEO, board members and executives to achieve the company's long-term vision. Prior to this, he was the COO of Afilias, a domain name registry infrastructure company, leading it from its founding to significant business growth and success, resulting in its acquisition by Identity Digital in 2020.

After immigrating from India at age 22, Ram worked at Unisys Corporation and First Data Corporation before joining Philadelphia's first Internet startup firm Infonautics Corporation, in

1995, eventually becoming their CTO and helping them list on the Nasdaq stock exchange in 1996. Ram was a founder of the technology behind TurnTide, an anti-spam company acquired by Symantec (a provider of internet security) in July 2004. He served on the Board of ICANN, the global non-profit that oversees the Internet, from 2008 to 2018. He currently serves on the Board of the World Affairs Council of Philadelphia and several startup companies.

A cybersecurity expert, he co-founded the Security and Stability Advisory Committee at ICANN, which provides advice on major threats to Internet infrastructure. He is an inventor on seventeen U.S. patents for his work in Internet technology. Ram was the recipient of the Philadelphia Business Journal's '40 Under 40' award, InfoWorld's 'Top 100 Technology Leaders' award, a CIO100 honoree, and a Guinness World Record holder (2018).

He completed his BS in Electrical Engineering and his MBA in India before working on his MS at Drexel and post-graduate coursework at Harvard.

**Raj Jain**  
CEO & Managing Director

Raj Jain is a visionary entrepreneur in digital payments. He is the founder, CEO and Managing Director of RS Software, a company engaged for more than 25 years in the core areas of digital payments. The vision of the Company is to help its clients enhance the economic circumstances of individuals, communities and countries through the transformative power of electronic payments, contribute towards achieving financial inclusion, and make life-impacting changes through digital technologies in the way humanity conducts and experiences commerce. RS Software works with global leaders in digital payments and has built India's digital payment infrastructure.

Raj Jain believes in giving back to society and engages in philanthropic activities. He is

deeply involved with Veerayatan, an institution focused on making this world a better place, through the principles of compassion, education, religion and charity.

Raj Jain was acknowledged by Ernst & Young as one of the top 20 Outstanding Entrepreneurs of the Year, and he speaks at various global forums and at universities. He has served on the Executive Council of National Association of Software and Services Companies (NASSCOM), and he is the past Chairman of NASSCOM. He is also a Charter member of TiE (The IndUS Entrepreneurs). TiE is the world's largest global network with a mission is to foster entrepreneurship globally through mentoring, networking, and education. The focus is on generating and nurturing a new generation of entrepreneurs.

Raj Jain co-founded the fourth chapter in Silicon Valley of the Young Presidents Organization (YPO). YPO is a global network of young chief executives that connects 24,000 peers and their families in more than 130 countries to learn, exchange ideas and address the challenges leaders face today. Altogether, YPO member-run companies employ 20 million people and generate US\$ 9+ trillion in annual revenues.

**Peter Sweers**  
Director

Peter Sweers is the recently retired President of Level19, a Toronto-based technology consulting, solution delivery, and product development firm. His career is defined by a consistent focus on delivering complex change—modernizing operations, transforming technology landscapes, and driving organizational growth at scale.

Previously, Peter served as CIO/COO at Interac Corp., Canada's most trusted brand, where he led an enterprise-wide transformation of people, processes, and technology. His leadership experience spans over 25 years

across institutions such as Scotiabank, Foresters, and CGI, with a proven track record in digital transformation, cloud enablement, organizational agility, and culture renewal.

A recognized leader, Peter was named one of Canada's Top 25 Most Influential CIOs by IT World Canada and one of Canada's Tech Titans in 2019. He brings a unique blend of strategic insight, operational discipline, and mentorship, helping executives and emerging leaders achieve transformation and execution excellence. His board work reflects a deep commitment to building forward-thinking organizations and fostering impactful innovation.

Peter is also passionate about community service. He has contributed to numerous charitable boards including Ronald McDonald Children's Charities, the Nanaimo Credit Union, and the York Regional Safety Village, and has been actively involved in youth education and leadership programs such as the Choices Grade Nine School Program and the United Way.

**Richard Launder**  
Director

Richard Launder has more than 30 years of experience in the payments industry with strengths in sales, marketing and operations. He is an expert in strategic selling, building effective

sales teams and marketing within diverse markets and cultures. As a Managing Director in Europe, the Middle East and Africa for one of the largest software companies in the payments industry, Mr. Launder generated more than US\$ 130 million in revenue by developing a distribution model for the region based on acquisitions, direct operations, joint ventures, distributors and sales agents. His vast experience in payments application software is particularly relevant to RS Software's strategic direction.

# Management Discussion & Analysis

## Management Perspective on Business Transformation

FY26 marked a defining year in RS Software's transformation journey. The Company undertook decisive initiatives to accelerate its evolution into a globally focused, product-led organization, while strengthening the operational foundations required to support long-term, scalable growth.

This transformation has been driven through five strategic pillars,

1. People
2. Products
3. Customers
4. Partners

and supported by a horizontal pillar of Process Excellence that underpins every aspect of execution.

## People

People remain the foundation of RS Software's transformation. The Company believes that an engaged, empowered and purpose-driven workforce is fundamental to building innovative products, delivering superior customer experiences and sustaining long-term business growth.

Supported by global market research, insights from the RS Payments Innovation Lab™ and the leadership of our Global Product Engineering teams, our employees continue to develop AI-enabled payment platforms that are designed and localized to address the evolving needs of customers across the United States, Canada, the Nordic region and India.

During the year, the Company significantly enhanced its employee experience by relocating to a new India Development Centre with nearly four times the capacity of the previous facility. Designed to global workplace standards, the new campus provides a collaborative environment with modern engineering workspaces, innovation zones, recreational facilities and dedicated spaces that support round-the-clock product development operations.

Employee onboarding was reimagined to create a structured and engaging experience from the very beginning of an employee's journey. Every new team member now receives a personalised pre-joining

welcome communication, a structured 30-45-60-75-90 day integration plan, and is paired with an experienced mentor to facilitate faster assimilation, productivity and long-term success within the organisation.

Recognising that continuous dialogue strengthens organisational culture, the Company institutionalised three structured employee listening forums covering Diversity, New Hires and High-Potential Talent. These forums provide employees with an open platform to share perspectives, discuss opportunities and recommend improvements. Feedback received is systematically evaluated, actioned where appropriate, and subsequently communicated back to participants, ensuring transparency and accountability.

To further strengthen leadership accessibility, the Company also introduced the "Office of the COO" communication channel, enabling employees to share suggestions or concerns, including anonymously where required. Every submission is jointly reviewed by the COO and Human Resources to ensure timely resolution and meaningful engagement.

Collectively, these initiatives contributed to higher employee satisfaction and reinforced the Company's commitment to building a high-performance, people-centric organisation.

## Products

As part of its transition towards becoming a global product company, RS Software placed product management, innovation and market intelligence at the centre of its operating model.

Working closely with Global Product Engineering leadership, the Company institutionalised a comprehensive Product Encyclopedia, creating a structured, end-to-end repository encompassing product vision, market opportunities, regional localisation requirements, competitive positioning, customer insights and technology roadmaps. This framework enables continuous refinement of product strategy based on customer feedback, regulatory developments, competitive intelligence

and emerging market trends, ensuring that the Company's offerings remain differentiated and aligned with evolving customer requirements.

The Company also strengthened collaboration with the RS Payments Innovation Lab™ to embed Artificial Intelligence across its entire product portfolio. AI capabilities are now being integrated into RS DigitalEdge™, RS IntelliEdge™, Payabbhi® and RS Bill@Edge™, enhancing automation, decision intelligence, fraud prevention, operational efficiency and customer experience across multiple payment ecosystems.

## Customers and revenue acquisition

There is significant learning from our FY 26 sales performance, particularly in the context of long sales cycle aggravated by the slow decision making due to the geo political environment, and projects shifting to the next fiscal year. All of this resulted in dismal revenue acquisition performance. But foundational customer focus value remains intact which is the corner stone of the company being in business for 35+ years.

Customer success remains the ultimate measure of the Company's transformation initiatives.

Throughout FY26, RS Software strengthened customer engagement across all operating regions with a clear focus on delivering measurable business value, deepening strategic relationships and expanding opportunities within its existing customer base. These efforts resulted in repeat business across all major customer engagements, reinforcing confidence in the Company's products, delivery capabilities and long-term partnership approach.

To support future growth, the Company expanded its sales organisation across the United States, Canada and India by recruiting experienced local market professionals. This approach not only strengthens customer proximity but also reflects the Company's commitment to building a truly global organisation with diverse regional expertise.

In parallel, the Company's external positioning underwent a significant shift. Customer engagement, branding and market communication are now centred around RS Software's proprietary products and platforms, reinforcing its transition from a services-oriented organisation to a product-led technology company.

To further strengthen the Company's global brand positioning, the company appointed a Chief Marketing Officer with extensive international experience spanning global media organisations and leading technology and consulting companies. This leadership action helps the Company's goal of establishing itself as a global payments technology brand.

## Partners

Strategic partnerships represent an important pillar of RS Software's global expansion strategy.

During FY26, the Company strengthened its partner ecosystem by establishing relationships with well-established regional organisations across the United States and Canada. These partnerships are designed to accelerate market access, enhance customer reach and deliver integrated payment solutions tailored to local market requirements.

The partnership model has been structured to accommodate multiple engagement approaches, including sales partnerships, joint sales and delivery models, and technology alliances that combine complementary capabilities to deliver comprehensive end-to-end payment solutions.

Each partnership is supported by a focused go-to-market strategy with clearly defined target segments, value propositions and market messaging aligned to the specific needs of the addressable market.

By leveraging the strengths of trusted regional partners while combining them with RS Software's technology expertise, the Company is building a scalable ecosystem that is expected to accelerate customer acquisition, strengthen regional presence and support sustainable growth across North America.

The transformation initiatives undertaken during FY26 represent our culture of dynamic learning from the past and getting ready for the next growth phase of the company. This foundational culture continues to strengthen RS Software's long-term strategy. While the financial return of these investments materialise progressively, the Company has enhanced the organisational capabilities, product foundation, customer engagement model and partner ecosystem required to scale globally.

### Awards, Recognition & Organizational Milestones

The growing recognition of RS Software's brand during FY26 reflected the increasing relevance of its technology, expertise and contribution to the global payments industry.

The Company's receipt of the NASSCOM SME Inspire Award for Technology Excellence in Financial Services was a significant milestone.

Another defining milestone was the inauguration of RS@Elevate, the Company's new innovation-centric workspace. More than a modern office, RS@Elevate represents a strategic investment in innovation, collaboration and future growth. By bringing together the Payments Centre of Excellence, RS Payments Innovation Lab™, RS School of Payments™ and global product engineering teams, the facility creates an environment where innovation can be transformed into market-ready solutions while offering customers and partners first-hand insight into the Company's engineering capabilities.

Together, these milestones demonstrated the Company's commitment to innovation, strengthened stakeholder confidence and reinforced the trust that underpins the RS Software brand.

### Building a Global Payments Brand

FY26 marked an important milestone in RS Software's brand transformation. As the payments industry rapidly evolves towards AI-native payment infrastructure, intelligent fraud prevention and real-time payment ecosystems, the Company strengthened its efforts to establish RS Software as a trusted global payments technology brand across North America, Europe and India.

Marketing during the year evolved beyond its traditional communications role to become a strategic business enabler. The focus shifted from promoting products to building market confidence, strengthening industry credibility and creating meaningful engagement with customers, partners, regulators, analysts and prospective talent.

This transformation could not have been achieved by Marketing alone. Building a global brand requires a unified market narrative that consistently reflects the Company's technology leadership,

engineering excellence and vision. Throughout FY26, Marketing worked in close partnership with Product Management, Sales, Pre-sales, Engineering and the Leadership Team to ensure that every customer interaction, industry event, product launch, executive presentation and thought leadership initiative reinforced the same strategic message—that RS Software is helping shape the future of trusted payment infrastructure.

The impact of this collaborative approach extended well beyond increased visibility. Marketing enabled stronger customer engagement, supported business development, enhanced employer branding, amplified executive thought leadership and strengthened the Company's reputation within the global payments ecosystem. More importantly, it helped position RS Software not simply as a technology provider, but as a trusted partner capable of solving some of the payments industry's most complex challenges.

### Strengthening Presence Across the Global Payments Ecosystem

Building a global brand requires visibility where industry decisions are made.

During FY26, RS Software significantly expanded its engagement with the global payments community through participation in leading industry forums including Payments Canada Summit, EBA Day, Global Fintech Fest, Singapore FinTech Festival, ETA Transact, Open Banking Expo Canada and other regional and international events.

These engagements formed part of a deliberate strategy to deepen relationships with financial institutions, payment networks, regulators, central banks, technology partners and fintech innovators across the Company's priority markets. Beyond showcasing products, these forums enabled meaningful dialogue around payment modernisation, AI-enabled fraud prevention, digital public infrastructure and cross-border payments while providing valuable market intelligence that continues to shape the Company's product and go-to-market strategies.

Customer engagement also became more immersive during the year. The inauguration of RS@Elevate enabled customers and partners to experience the Company's innovation ecosystem, engineering excellence and delivery capabilities first-hand. Notably, the Company hosted an international customer visit at its premises after nearly a decade, reflecting renewed customer engagement and growing confidence in the Company's future direction.

These initiatives collectively strengthened RS Software's visibility, deepened strategic relationships and enhanced its positioning across the global payments ecosystem.

### Influencing Industry Conversations

As artificial intelligence reshapes the future of financial services, RS Software continued to strengthen its position as a thought leader helping define the future of payments.

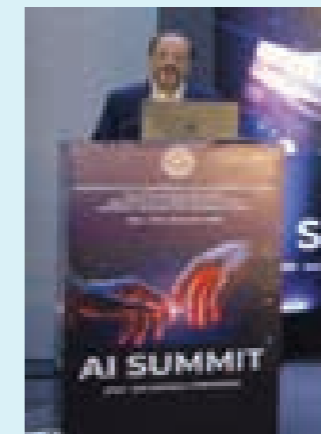

Throughout FY26, Company leaders contributed to industry conversations through keynote addresses, panel discussions, executive roundtables, podcasts, media interactions and research publications covering AI-native payments, fraud and risk management, payment modernisation, digital public infrastructure, cybersecurity, quantum computing and responsible innovation.

At platforms such as ICC VisionTech, Analytics Global Conference, NASSCOM AI Roundtables, European Women Payments Network events, and several international forums, RS Software leaders shared insights drawn from more than three decades of experience building and scaling mission-critical payment infrastructures. These discussions positioned the Company as a credible source of expertise for industry stakeholders seeking to understand the opportunities and challenges shaping the next generation of payment ecosystems.

The Company's digital thought leadership also expanded through podcasts, articles, videos and research that reached a wider global audience while reinforcing its expertise in payment innovation and trusted digital commerce.

A notable achievement during the year was the publication of research by a member of the Company's product leadership team in an internationally recognised scientific publication. The research demonstrated how Generative AI can improve fraud analyst productivity and operational efficiency, highlighting RS Software's ability to convert emerging technologies into practical business outcomes.

Collectively, these initiatives strengthened the Company's reputation as a trusted voice in the global payments industry while enhancing engagement with customers, analysts, regulators, partners and prospective employees.

### How did Marketing contribute to the Company's growth strategy during FY26?

Marketing's role during FY26 extended beyond creating awareness. It became an integral part of the Company's growth strategy.

Working collaboratively with Product Management, Sales, Pre-sales and Leadership, Marketing helped develop a unified market narrative that clearly articulated RS Software's differentiation in AI-native payment infrastructure, fraud intelligence and payment modernisation. This alignment ensured that customer conversations, product messaging, thought leadership and market outreach consistently reinforced the Company's strategic positioning.

Marketing also strengthened sales enablement by developing product collateral, supporting customer engagements, creating industry-specific campaigns and producing thought leadership content that addressed real business challenges faced by financial institutions. These initiatives helped improve customer engagement, support pipeline development and reinforce long-term brand equity.

### How did digital marketing support business growth?

Digital marketing became an important driver of market engagement and brand visibility during FY26.

The Company's website continued to serve as a strategic platform for product positioning, lead generation and talent acquisition, while an expanding library of white papers, blogs, videos, brochures and customer presentations strengthened sales enablement and demonstrated domain expertise.

LinkedIn remained the Company's primary engagement platform for the global payments community. Through a disciplined programme of executive thought leadership, product-focused campaigns and industry content, the Company's digital reach expanded significantly.

The Company's LinkedIn community grew from more than 33,000 to over 54,000 followers during the year—an increase of approximately 81%—while organic content generated over 2.16 million impressions. More importantly, these initiatives expanded engagement among decision-makers across North America, Europe and India, reinforcing RS Software's visibility within its priority markets.

Digital marketing during FY26 was therefore measured not only by impressions and follower growth, but by its contribution to strengthening customer trust, enabling business development, supporting recruitment and building a globally recognised payments brand.

## Payments at the Speed of Thought

### Marketing Priorities for FY27

The strategic direction for FY27 is clear: continue building RS Software into one of the most recognised and respected brands in the global payments industry.

Marketing will deepen its integration with Product Management, Sales and Pre-sales to ensure that every market engagement supports business growth. Greater emphasis will be placed on thought leadership, analyst relations, regional campaigns, partner marketing and account-based engagement across North America, Europe and India.

The Company will continue investing in digital experiences, marketing automation, AI-enabled engagement, website modernisation and targeted demand-generation programmes that convert market awareness into measurable business opportunities.

Looking ahead, Marketing will remain focused on one overarching objective—strengthening trust in the RS Software brand by consistently demonstrating the Company's expertise, innovation and commitment to shaping the future of intelligent payment infrastructure.

## HUMAN RESOURCES

### What were some of the employee-focused key initiatives taken by the company?

A continuous focus on employees remains one of the foundational pillars driving RS Software's performance and growth. Our HR function has led several strategic initiatives centred around enhancing employee experience, engagement, and development.

As RS Software continues to innovate in the rapidly evolving digital payments space, retaining top talent and attracting skilled professionals remains a strategic priority. To support our high-growth trajectory, we adopted a focused talent acquisition approach in FY26, by hiring a new Talent Acquisition Manager with an extensive MNC background and experience in diverse talent attraction, resulting in the recruitment of 29 lateral hires, which includes 2 senior-level hires in North America.

In addition to talent acquisition, several key employee-focused initiatives were implemented throughout the year:

- We moved into our new state-of-the-art office, RS@Elevate, marking an important milestone in our growth journey. Designed to foster collaboration, innovation, and a contemporary multinational work environment, the facility spans nearly 25,000 sq. ft. and accommodates 180 employees.
- We strengthened the new hire experience through a structured onboarding framework, featuring thoughtfully designed 15-30-45-60 day landing plans and a dedicated buddy program for the first three months. This has enabled smoother integration and accelerated productivity for new employees.

- We hosted two company-wide employee engagement events at our new Kolkata office, bringing the entire team together under one roof and strengthening our culture of connection and collaboration. The celebrations included a vibrant Christmas Bash and an enthusiastic Table Tennis Championship, both of which witnessed active employee participation and contributed to a fun, inclusive, and engaging workplace experience.
- We renewed our focus on building a diverse workforce across dimensions such as geography, gender, experience, competencies, and team composition, enriching perspectives and strengthening organizational capability.
- We introduced several employee connect initiatives, including the Business Impact Roundtable, Diversity Listening Circle, and New Hire Listening Circle. Led jointly by the HR Head and the COO, these forums encourage open and candid dialogue with employees. Feedback gathered through these channels is acted upon promptly, reinforcing trust, transparency, and leadership accessibility.
- We launched a dedicated and securely encrypted "Office of the COO" portal, providing employees with a confidential platform to share feedback and suggestions. The portal is exclusively managed by the COO and HR, ensuring complete anonymity and encouraging open communication.
- In our annual anonymous employee engagement survey, the Company achieved an Employee Net Promoter Score (eNPS) of 60, reflecting strong employee advocacy and a positive workplace experience.
- Regular learning and development programs focusing on technical and domain-specific capabilities were conducted throughout the year, equipping employees to meet evolving business requirements and supporting their continuous professional growth.
- Strengthened our quality-of-hire approach by placing greater emphasis on attitude and cultural fit alongside technical competence. Situation-based assessments were incorporated into technical interviews, enabling hiring panels to evaluate behavioural attributes more effectively and identify potential attitude-related concerns early in the selection process.
- Strengthened our talent acquisition capabilities through a series of strategic initiatives aimed at enhancing hiring quality, speed, and consistency. Key actions included the onboarding of a senior Talent Acquisition professional with strong MNC and consulting experience; modernization of job descriptions for Java (Backend and Full-Stack) and QA roles to align with evolving technology requirements; reconstitution of interview panels under senior architect leadership with plans for interviewer calibration workshops; and the redesign of the technical assessment process, introducing internally developed machine tests as a mandatory first screening stage for developers and testers to ensure objective and robust skill evaluation.

### What are the key practices in HR that are helping the company achieve the goals set by the transformation the company is pursuing?

To support the company's transformation goals, HR has implemented practices focused on capability development, performance-driven culture, and organizational agility. Key enablers include:

- i. cross-level engagement initiatives to capture employee insights and drive transparency,
- ii. a competency-led training framework aligned to business goals and career growth aspirations,
- iii. a redefined performance management system emphasizing outcomes, certifications, and self-learning, and
- iv. alignment of people processes with the company's product and growth strategy. This people-process-performance model is driving sustained organizational transformation and readiness for scale.

HR is enabling continuous employee engagement across all operating and leadership levels, through digital channels and tools, in-person interactions, and focused sessions.

There is a special focus on training and building competencies that are directly aligned with the company's business plan. The competency-building plan takes into consideration the performance, strengths, and capabilities of every individual, the existing team composition, and the employee's career growth aspirations. Highly experienced and knowledgeable leaders in the company are directly involved in driving this focused exercise, and the same is assessed each month for effectiveness and results, and improvements are incorporated as per our analysis and key business drivers.

The performance management system has been enhanced to ensure better individual and team performances that contribute to the company's business goals and ensures the retention of quality talent. There has been a significant focus on Certifications and Self Learning.

Overall, we have established a combination of people, process, and performance-oriented culture that recognizes the strengths of our human capital and also the company's needs towards its business plans, with a commitment to achieving a win-win result for the organization as a whole and every employee.

### What are HR's plans / goals in FY27?

HR will focus on the following key areas and the respective goals to ensure that we meet our business plan for FY27:

**Talent acquisition:** Our FY27 talent acquisition plan is built around the company's business plan and its medium-to-long-term strategy, with hiring numbers and talent mix projected quarter-wise in line with this outlook. The Talent Acquisition team tracks progress against these targets through a monthly review with the fulfillment and business teams, ensuring execution stays aligned with the broader business plan through the year. A key priority this year is strengthening our product implementation team and expanding our sales teams in India and the US, in line with the company's continued push towards product-led, high-value opportunities. To make our evaluation process more robust and consistent, we have introduced an AI-based assessment model for technical screening, along with behavioural-based questions across every interview round to better assess culture fitment alongside technical capability. Diversity hiring continues to be an important focus area, with a deliberate effort to improve our diversity mix across teams. On the sourcing front, our goal this year is to close the maximum number of roles in-house, with sourcing partners playing a more selective, supplementary role only where needed. As always, the company remains in active contact with its alumni network, and we continue to see ex-RSites rejoin the family in key positions.

**Competency development:** The HR team will work closely with the Innovation and Products teams, through our RS School of Payments™, to continuously train our workforce in newer areas of Payments and Technology that are required to meet the business demand and growth opportunities. The competency of every individual and his/her performance will continue to be tracked to ensure that our investment in competency building is yielding the expected results.

**Performance management:** We have recently realigned the goals of the Senior Leadership Team to ensure stronger alignment with organizational priorities. Going forward, individual goals across the organization will be progressively reviewed, with leadership objectives being cascaded to all employees to drive clarity, accountability, and alignment at every level.

The Q&B process has been strategic to the company since its inception, and the company has pursued global benchmarking all through its existence, of its process architecture. Over the years, the company has built a robust Process Architecture which has enabled RS Software teams to deliver high quality Products and Services to our customers.

In FY26, we continued to fine-tune elements of our Process Architecture and standards through the following actions:

- SOC 2 Type 2 Assessed by a 3rd party
- Re-certification of ISO 27001:2022 and ISO 9001:2015
- Introduction of AI in the QA Process to drive productivity
- Migration of processes from Services to Product based offerings and services
- Organizing training sessions, workshops, planned and unplanned audits, quality weeks and other academic and non-academic seminars
- Carrying out routine audits of quality systems by third parties

### What are your plans for FY27?

As RS Software expands from a services-led model to a products and platforms business, software quality becomes a direct driver of business performance. In FY27, the Quality and Benchmarking (Q&B) function will focus on embedding quality across the Product Development Life Cycle to improve customer confidence, accelerate value realization, reduce delivery risk, and strengthen the scalability of our product portfolio.

The business outcome of software product quality is the timely delivery of reliable, secure, and usable solutions that create measurable value for stakeholders. Q&B will ensure that quality is not treated as a downstream control activity, but as an operating discipline that protects revenue, improves adoption, reduces rework, and enables predictable delivery.

The FY27 quality agenda will be anchored on three business-critical dimensions of Product Quality:

**Functional Quality:** Functional quality will ensure that every sprint delivers validated business capability aligned with sponsor and user expectations. By integrating testing from the start of development, defects will be detected earlier, rework will be reduced, and usable product increments will be available at the end of each sprint. This will shorten feedback cycles, improve adoption, and ensure that product investments translate into visible business value faster.

**Structural Quality:** Structural quality will focus on code maintainability, understandability, testability, security, and efficiency. This will reduce the cost of change, improve speed of future releases, lower operational risk, and enable products to scale without creating technical debt that affects long-term profitability.

**Process Quality:** Process quality will establish repeatable, auditable, and measurable delivery practices that improve predictability across product teams. The focus will be on delivering products on time, within budget, and with consistent quality outcomes, thereby improving governance confidence and reducing execution risk.

The RS Software Quality Process will be strengthened to ensure that every product release meets defined industry benchmarks and supports business growth. Quality gates will be embedded from product conceptualization through release to prevent defect leakage, improve audit readiness, enhance customer trust, and create a disciplined operating model for product-led growth. This will be achieved through the following FY27 priorities:

- Complete SOC 2 Type 2 assessment across Trust Criteria to strengthen customer confidence, enterprise readiness, and market credibility.
- Conduct regular third-party VAPT to reduce security exposure, improve compliance posture, and support enterprise customer expectations.
- Run independent internal and external audits to validate process compliance, increase governance transparency, and reduce delivery risk.
- Drive continuous training on Product Management and Software Quality Assurance to build organizational capability, improve productivity, and sustain a quality-first culture.
- Introduce AI productivity tools such as Cursor and Claude across engineering, QA, product, and documentation workflows to improve development velocity, reduce manual effort, strengthen code quality, accelerate knowledge work, and enable teams to deliver higher business value with greater consistency.

As part of the FY27 transformation agenda, RS Software will introduce AI-enabled productivity tools such as Cursor and Claude to augment the way teams design, build, test, document, and manage products. Cursor can support developers through AI-assisted coding, refactoring, debugging, and repository-level understanding, while Claude can help teams accelerate requirements analysis, documentation, test case creation, knowledge synthesis, and decision support. The intent is not to replace human expertise, but to create a governed AI-assisted operating model where teams can reduce repetitive effort, shorten delivery cycles, improve quality of output, and focus more time on higher-value problem solving. Adoption will be supported through role-based enablement, usage guidelines, review controls, and measurable productivity indicators so that AI contributes directly to faster execution, better quality, and improved business outcomes across the organization.

## FINANCE

### How has the Company managed operations despite losses exceeding revenue?

During FY26, the Company reported revenues of ₹25 crore against a net loss of ₹29 crore, reflecting a phase of strategic investment and scaling. Despite this, the Company has been able to efficiently manage its operations through disciplined treasury planning and prudent financial management.

The Company has consistently adopted a forward-looking treasury strategy, ensuring adequate liquidity to meet its operational and growth requirements. Even in the face of declining revenues and increasing costs driven by investments in product development, talent acquisition, sales, and infrastructure, financial resources have been optimally deployed to sustain business continuity and support long-term growth objectives.

### How has the Company maintained financial stability amid rising overheads in FY26?

Notwithstanding the pressure on margins due to higher overheads and low revenue acquisition the Company has maintained financial stability through rigorous cost management.

The increase in expenditure is largely attributable to planned investments in strengthening the product portfolio, expanding sales capabilities, and building organizational capacity. These investments are aligned with the Company's long-term strategy and are expected to yield returns over time. The Company's strong focus on liquidity planning, cost optimization, and disciplined financial controls has enabled it to navigate this phase effectively.

### What was the biggest challenge for the finance function in FY26?

The primary challenge during the year was managing an elevated cost structure in the context of subdued revenues while simultaneously supporting strategic investments necessary for future growth.

Balancing short-term financial discipline with long-term value creation—particularly in areas such as Sales & Marketing, talent acquisition, and infrastructure development—required careful prioritization and continuous monitoring of resource allocation.

### How did the Company address these challenges?

The Company responded to these challenges through a multi-layered and proactive financial management approach:

- **Strategic Cost Alignment:** Ensuring that expenditures were aligned with both immediate operational needs and long-term business priorities.
- **Strict Budgetary Controls:** Continuous tracking of budgets and cost productivity across functions to enhance efficiency.
- **Treasury Discipline:** Maintaining strong treasury oversight to ensure liquidity, optimize cash flows, and meet all statutory obligations as a publicly listed entity.
- **Working Capital Management:** Focused efforts on timely invoicing and improved receivables collections to manage working capital effectively.

Despite a constrained financial environment, the Finance team demonstrated resilience and agility in optimizing resource utilization while supporting the Company's growth agenda.

### Outlook for Future Performance

The Company remains well-positioned for growth, supported by its strong foundation in digital payment technologies and proven execution capabilities.

Having developed critical digital assets within India's payment ecosystem—including UPI, BBPS, and EFRM—the Company has established itself as a leader in the digital payments space. It is now leveraging these capabilities to expand into global markets.

The Company's success in the North American market during FY25, along with a robust sales pipeline, provides confidence in its ability to scale internationally. Increased marketing efforts and strategic partnerships are expected to further strengthen its global footprint.

Going forward, the Company anticipates improved revenue traction as past investments begin to mature, driving operational leverage and enhancing overall financial performance.

MCA General circular 03/2025 dated 22.09.2025 in continuation of the Ministry's General Circular No. 20/2020 dated 05.05.2020, General Circular No. 02/2022 dated 05.05.2022 and General Circular No. 10/2022 dated 28.12.2022, General Circular No. 09/2023 dated 25.09.2023 and General Circular No. 09/2024 dated 19.09.2024 and after due examination, it has been decided to allow companies to conduct their AGMs through VC or OAVM till further order, in accordance with the requirements laid down in Para 3 and Para 4 of the General Circular No. 20/2020 dated 05.05.2020.

**THE INTRUCTIONS OF SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:**

**Step 1:** Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

**Step 2:** Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

- (i) The voting period begins on <Date and Time> and ends on <Date and Time>. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of <Record Date> may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and other applicable circulars/master circulars issued by SEBI from time to time, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

**Step 1:** Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

- (iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Pursuant to abovesaid SEBI Circular, Login method for e-Voting and joining virtual meetings **for Individual shareholders holding securities in Demat mode CDSL/NSDL** is given below:

Type of shareholders	Login Method

**Statement pursuant to Section 102(1) of the Companies Act, 2013 in respect of Items of Special Business set out in the Notice convening the 38th Annual General Meeting of the Company to be held on 23<sup>rd</sup> July 2026**

**Item No: 4**

The current tenure of office of Mr. Rajnit Rai Jain ("Mr. Jain") (DIN: 00122942) as the Chief Executive Officer and Managing Director of the Company, who was re-appointed with effect from 1st October, 2023 for a period of three years pursuant to the approval of the Members at the Annual General Meeting held on 26th July, 2023, is due to expire on 30th September, 2026.

Considering his extensive experience, leadership capabilities and significant contribution to the growth and development of the Company, and based on the recommendation of the Nomination and Remuneration Committee, the Board of Directors has approved the re-appointment of Mr. Rajnit Rai Jain as the Chief Executive Officer and Managing Director of the Company for a further period of three (3) years commencing from 1st October, 2026 and ending on 30th September, 2029, subject to the approval of the Members.

Mr. Rajnit Rai Jain is a distinguished entrepreneur and a pioneer in the field of digital payments. He is the Founder, Chief Executive Officer and Managing Director of the Company, which has been engaged for over twenty-five years in providing technology solutions in the core areas of digital payments. Under his leadership, the Company has established itself as a trusted partner of global leaders in the payments ecosystem and has contributed significantly to the development of India's digital payment infrastructure.

Apart from his business accomplishments, Mr. Jain is actively involved in philanthropic initiatives and is closely associated with Veerayatan, an institution dedicated to promoting compassion, education, spirituality and charitable activities.

The Board is of the opinion that the continued association of Mr. Rajnit Rai Jain as the Chief Executive Officer and Managing Director would be beneficial to the Company and, accordingly, has approved his re-appointment for a further period of three (3) years with effect from 1st October, 2026 up to 30th September, 2029, subject to the approval of the Members. During the proposed tenure, he shall continue to be liable to retire by rotation in accordance with the applicable provisions of the Companies Act, 2013.

Pursuant to Section 196(3)(a) of the Companies Act, 2013, the appointment or continuation of a person who has attained the age of seventy (70) years as Managing Director requires approval of the Members by way of a Special Resolution. Since Mr. Jain will attain the age of seventy (70) years during the proposed term of re-appointment, approval of the Members is also being sought by way of a Special Resolution for his continuation as the Managing Director and Chief Executive Officer of the Company beyond the age of seventy (70) years. The Board of Directors is of the view that his continuation in office beyond the age of seventy (70) years is justified and would be beneficial to the Company, having regard to his leadership, decision-making abilities, vast experience and in-depth knowledge of the business operations of the Company.

The Board has approved the re-appointment of Mr. Rajnit Rai Jain for a further term of three (3) years. Save and except the extension of the tenure of appointment up to 30th September, 2029, all other terms and conditions of his appointment, including remuneration, shall remain unchanged and shall continue to be governed by the approval accorded by the Members at the 35th Annual General Meeting of the Company. A brief summary of the principal remuneration terms is reproduced below for ease of reference.

**a. Period of reappointment** - From October 1, 2026, till September 30, 2029 (both days inclusive)

**b. Remuneration / Compensation** - The recommended Remuneration / Compensation together with perquisites is fixed at USD 200,000 per annum. The Board of directors may vary the components of the compensation /remuneration as given below:

Book Allowance	US\$2000
<b>Total</b>	<b>US\$2,00,000.00</b>

**c. Other benefits**

- Mr. Jain would be entitled to reimbursement of business-related expenses upto a maximum of US\$ 25000 per quarter as may be permissible under the RBI and other applicable rules incurred by him during the course of and in connection with the business of the Company whether incurred in India or in abroad subject to submission of actual Bills.
- Mr. Jain will be entitled to Health/Medical Insurance benefits as applicable to the employees of the company.
- Notwithstanding anything contained herein, in the event of absence or inadequacy of profits, computed in accordance with Section 198 of the Companies Act, 2013, in any financial year during the tenure of Mr. Rajnit Rai Jain, the Company shall pay to him as stated in the resolution whether the same exceeds the minimum remuneration, the salary, perquisites and other benefits as set out hereinabove, as set out in Section 197 and Section II of Part II of Schedule V to the Companies Act, 2013, as amended from time to time.
- The remuneration / compensation and perquisites / other benefits as aforesaid will continue to be paid to Mr. Rai Jain from USA Office of the Company and the said remuneration / compensation and perquisites / other benefits shall not be impacted by exchange rate fluctuations and shall be payable in USD. The dollar equivalent salary as above is indicative and may vary with the actual exchange rate. It may be noted that the remuneration proposed to be paid to Mr. Rajnit Rai Jain will continued to be paid from USA Office of the Company.

The remuneration and other terms and conditions as set out in the aforesaid Resolution and the Explanatory Statement may be treated as a written memorandum setting out the terms of re-appointment of Mr. Rajnit Rai Jain pursuant to Section 190 of the Companies Act, 2013.

Considering the responsibilities entrusted to Mr. Rajnit Rai Jain, Chief Executive Officer and Managing Director, and based on the

recommendation of the Nomination and Remuneration Committee, the Board of Directors has approved the remuneration set out in Item No. 4 of this Notice. Accordingly, the Board recommends the Special Resolution set out at Item No. 4 of the Notice for approval of the Members.

The relevant details of Mr. Rajnit Rai Jain, pursuant to Regulation 36(3) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Secretarial Standard on General Meetings (SS-2), seeking re-appointment at the ensuing Annual General Meeting, are annexed to this Notice.

### 2. STATE OF COMPANY'S AFFAIRS

The fiscal 26 has been a dismal and disappointing financial performance. We have ofcourse had several good developments that continue to vindicate our long term strategy execution. For example we have enhanced India's digital payment platforms to process at levels not known before, and we continue to build successfully our brand and recognition globally. The company was recognized by Nasscom, the major industry body, during this fiscal year.

#### Financial consolidation

The company continues to be on a sound financial foundation even after poor financial performance of FY 26.

The company's investment in its subsidiary Paypermint, which is being used to build an asset that has significant marketable value, is now profitable.

The company is committed to pursue cash flow focused strategy to help meet its short term to long term growth.

#### Margins analysis

The standalone net revenue for the financial year 2025-2026 stood at Rs. 2544.72 Lacs as compared to the previous financial year, which was Rs. 5786.06 Lacs. On a standalone basis, the Company's Standalone profit/(loss) before tax stood at Rs. (2992.81) Lacs in the financial year 2025-26, vis-à-vis Rs. 714.04 Lacs in the previous year. The Revenues of the company declined owing to longer sales cycle than anticipated.

On a consolidated basis, the Company's profit/(loss) before tax stood at Rs. (2850.64) Lacs in the financial year 2025-2026, vis-à-vis Rs. 963.55 Lacs in the previous year.

The total standalone capital employed decreased from Rs. 8185.25 Lacs in 2024-2025 to Rs. 5280.14 Lacs in 2025-26.

#### Ratio Analysis

The improvement in the Key Financial ratios is indicative of the improved performance and treasury management of the company. The Company has been able to improve its operations by reducing its Net Loss and returns on Equity & Capital employed exponentially. Efficient treasury management has led to improved treasury Management.

#### Vigil Mechanism/Whistle blower Mechanism

Your Company puts top priority to adherence to the Codes of Conduct and to achieve at par with the highest standards of ethical, moral, and legal conduct of business operations and henceforth encourage its employees to bring ethical and legal violations they are aware of to an internal authority without fear of punishment or unfair treatment so that action can be taken immediately to resolve the problem. A Vigil (Whistle Blower) Mechanism provides a channel to the employees and Directors to report to the management concerns about unethical behaviour, actual or suspected fraud or violation of the Codes of Conduct or policy. The mechanism also provides for adequate safeguards against victimization of Directors or employees or any other person to avail of the mechanism and also provide for direct access to the Chairman of the Audit Committee. Thus, minimization of organization's exposure to the damage that can occur when employees circumvent internal mechanisms is the main objective which neither release employees from their duty of confidentiality in the course of their work, or can it be used as a route for raising any malicious allegations against people in authority and / or colleagues in general. Your company has given affirmation that no personnel have been denied access to the Audit Committee.

Your Company has formulated a codified Whistle Blower Policy incorporating the provisions relating to Vigil Mechanism in terms of Section 177 of the Companies Act, 2013 and Regulation 22 of SEBI Listing Regulations, 2015. Further, no complaints were reported under the Vigil Mechanism during the year.

The Company's Whistle Blower Policy is available on the company's website at [https://www.rssoftware.com/rswordpress/wp-content/uploads/2022/04/vigil\\_mechanism\\_policy-rssoftware-Nov29.pdf](https://www.rssoftware.com/rswordpress/wp-content/uploads/2022/04/vigil_mechanism_policy-rssoftware-Nov29.pdf)

#### b. Nomination & Remuneration Committee

## ANNEXURE E

**(Pursuant to clause (h) of sub-section (3) of section 134 of the Act and Rule 8(2) of the Companies (Accounts) Rules, 2014)**

### A. Details of Conservation of Energy:

The Company uses electric energy for all its equipment such as air conditioners, computer systems, lighting, and utilities in the work premises. All possible measures have been taken to conserve energy.

- Through periodic energy audits to identify potential areas for saving
- By incorporating energy-efficient equipment
- By leveraging energy efficient cloud-based services
- Through automation i.e., using timers, automatic level controllers etc.

### B. Technology Absorption

: The details are given below:

#### (a) Research & Development

1. Specific area in which R & D work has been done by the Company Innovation Lab™ on:
 

Technology research was done in the RS Payments contemporary open-source technologies to build high performant payment switching using service-mesh framework for scaling up the real-time payments to 100,000+ transactions per second (TPS) and Fraud and Risk Management product (RS IntelliEdge™) to 40,000 TPS.

Research and benchmarking has been done to explore how UPI can be scaled up to 10 billion transactions a day or more.

Major research was undertaken to improve the Core-Mantle-Surface framework for the products and associated composable components which form the basis of the RS Open Payment Modernization Framework (RS OPMF™). It has been implemented in RS DigitalEdge™ and we are building connectors at Mantle layer for real-time rails across the world - like PayPal, UPI, etc.

Research was also conducted in advanced areas of Artificial Intelligence and Machine Learning that include Large Language Models, Generative AI RAG, Agentic AI and more. Gen AI is already implemented for improving the efficiency of the Risk Analysts. Retrieval Augmented Generation (RAG) is being used for code quality verification from the perspective of PII and OWASP. RAG is also used to enable exploration of organizational knowledge from its rich database over three decades.

A large part of the IT Infrastructure has been moved to Cloud Hosted Platforms eliminating In-Prem Servers. This has not only contributed to reducing energy consumption but enabled higher productivity of the teams. Moreover, our solutions are built in a way so that our customers can deploy the solutions in cloud thus supporting a larger cause.

  1. Benefits expected from the R & D: The competencies built are helping the company gain mileage to win large end-to-end multi-year engagements, acquire new customers and assure value added services to all customers. The digital products and platforms and our capability to consistently build central payment infrastructural are gaining market traction globally. The company prepared itself to generate revenue from transaction processing such as Fraud and Risk platform, Real Time Payments (RTP) Switch, Digital Overlay Service Layer, Bill Payment Platform, composable components and more. These assets are helping to engage new prospect in serious opportunity discussion across the globe and will help us to acquire new customers for services businesses as well.
2. Future plan of action: Continue technology exploration in line with the RS Open Payment Modernization Framework (RS OPMF™) which comprises Core-Mantle-Surface construct of all products and components serving Faster Payments, both domestic and cross-border, API-zation of Platform, Transformation of SWIFT messages from MT to MX, adoption of ISO 20022, Fraud and Risk Management, Artificial Intelligence and Machine Learning, Digital Commerce, Cloud Computing, Blockchain, CBDC, Code Generators, Code Review Automation, and Open-Source software across solution areas. We will continue to invest in leading edge technology architecture decisions such as micro-service architecture; docker-ization, cloud-ready, cloud-agnostic and use of open- source technology. We plan to increase the number of self-service courses so that it can be administered without trainer, location, and time constraint.

### (b) Technology Absorption, Adaptation and Innovation

1. Efforts made towards technology absorption, adaptation, and innovation:
 

Technology exploration and absorption was done in the RS Payments Innovation Lab™ on AI, ML, RAG, LLM, SLM, YugaByte and more to become ready for Agentic AI based solutions and services.
2. Benefits derived as a result of the above efforts:
 

The efforts are translating to transforming Indian society towards adoption of digital payments as well as deploy the capability to build solution for other countries. These are translating to business growth with existing customers as well as build a rich service portfolio for new customer accounts. Going ahead the company plans to actively acquire new customers using the knowledge and competency acquired. The effort is effective in launching RS in the platform business and data analytics-based engagements. It helps change the market perception of RS branding from technology services provider to business service provider.

### C. Earnings and Expenditures in Foreign Currency

1. Initiatives like increasing exports, Development of new export markets etc. : Nil
2. Earning in Foreign Currency (Export Services) (INR in Lacs) : Rs. 975.87 Lacs
3. Foreign Branch Expenditure in Foreign Currency (INR in Lacs) : Rs. 1934.88 Lacs

**CORPORATE GOVERNANCE AND DISCLOSURES**

Good governance facilitates efficient, effective and entrepreneurial management that can deliver stakeholder value over the longer term. It is about commitment to values and ethical business conduct. It is a set of laws, regulations, processes and customs affecting the way a company is directed, administrated, controlled or managed.

Good corporate governance underpins the success and integrity of the organizations, institutions and markets. Corporate Governance is a combination of voluntary practices and compliance with laws and regulations leading to effective control and management of the organization. Good Corporate Governance leads to long term Shareholder value and enhances interest of other Stakeholders. It is one of the essential pillars for building an efficient and sustainable environment.

The Company recognizes that good Corporate Governance is a continuous exercise and always acts as a good corporate citizen which is inherent in the culture of the Organization. The Company believes in good and ethical Corporate Governance practices and follows the same by adopting fairness, transparency and accountability in all its operations as an on-going exercise. The Company believes that these aspects by and large set out for adequate, appropriate and timely corporate disclosures on relevant matters consistent with ethical business conduct by the Corporate Management so as to turn out performance which is fair, true and transparent and takes as much care of the interests of the Corporate Management as of its various stakeholders including shareholders, employees, debtors and creditors and is equally responsive to the requirements of various governmental and regulatory agencies.

**A. MANDATORY DISCLOSURES**

**1. COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE**

The Company's philosophy on Corporate Governance is founded on the following principles:-

- Conducting business with integrity, fairness and ethical standards.
- Follow the spirit of the law and not just the letter of the law. Corporate Governance standards should go beyond the law.
- Be transparent and maintain high degree of disclosure levels. When in doubt, disclose it.
- Make a clear distinction between personal convenience and corporate resources.
- Communicate externally, in a truthful manner, about how the Company is running internally.
- Have a simple and transparent corporate structure driven solely by business needs.
- Comply with the laws in all the countries in which the Company operates.
- Management is the trustee of shareholders' capital and not the owner.

Corporate Governance is an integral part of the philosophy of the Company in its pursuit of excellence, growth and value creation. In addition to complying with the statutory requirements, effective governance systems and practices towards improving transparency, disclosures, internal control, and promotion of ethics at workplace have been institutionalized. The Company recognizes that good governance is a continuing exercise and reiterates its commitment to pursue highest standards of Corporate Governance in the overall interest of all its stakeholders.

**c. WHISTLE BLOWER POLICY (VIGIL MECHANISM)**

Your Company is serious about its adherence to the Codes of Conduct and to achieve at par with the highest standards of ethical, moral and legal conduct of business operations and henceforth encourage its employees to bring ethical and legal violations they are aware of to an internal authority without fear of punishment or unfair treatment so that action can be taken immediately to resolve the problem.

A Vigil (Whistle Blower) mechanism provides a channel to the employees and Directors to report to the management concerns about unethical behaviour, actual or suspected fraud or violation of the Codes of Conduct or policy. The mechanism also provides for adequate safeguards against victimization of employees to avail the mechanism and also provide for direct access to the Chairman of the Audit Committee. Thus minimization of organization's exposure to the damage that can occur when employees circumvent internal mechanisms is the main objective which neither releases employees from their duty of confidentiality in the course of their work nor can it be used as a route for raising any malicious allegations against people in authority and / or colleagues in general. Your company has given affirmation that no personnel have been denied access to the Audit Committee. The Company's Whistle Blower Policy is available on the company's website. [https://rssoftware.com/rswordpress/wp-content/uploads/2022/04/vigil\\_mechanism\\_policy-rssoftware-Nov29.pdf](https://rssoftware.com/rswordpress/wp-content/uploads/2022/04/vigil_mechanism_policy-rssoftware-Nov29.pdf)

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (India Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and its profit (Including Other Comprehensive Income), Statement of Changes in Equity and its cash flows for the year ended on that date.

#### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on Standalone Financial Statement.

#### Key Audit Matters:

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed and communicated with management in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

### Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Directors Report including Annexures to Directors' Report, Report on Corporate Governance but does not include the Standalone Financial Statements and our auditors' report thereon. The Management Discussion and Analysis, Directors' Report including Annexures to Directors' Report and Report on Corporate Governance are expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or out knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

#### Responsibility of Management and Those charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income (changes in equity) and cash flows of the Company in accordance with the Ind AS and accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act, 2013 read with relevant rules issued thereunder and other Accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process

#### Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the interim consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Annexure A to the Auditors' Report**

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Report on Other Legal and Regulatory Requirements**

## Annexure B to the Auditors' Report

### Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of R S SOFTWARE (INDIA) LIMITED ('the Company') as on 31<sup>st</sup> March, 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

#### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safe guarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operative effectiveness. Our audit of internal Financial Controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion of the Company's internal financial controls system over financial reporting.

#### Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in responsible detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future period are subject to the risk that the internal financial control over financial reporting may become inadequate because of change in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ON BEHALF OF THE BOARD

**RS SOFTWARE INDIA LIMITED**  
**NOTES ON ACCOUNTS FOR THE PERIOD ENDED MAR 31,2026**

**1 Corporate Information**

RS Software has focused exclusively on providing software solution to electronic payment industries since its inception. The company is engaged in development, testing and maintenance of software for its clients based in different geographies. The company operates in US and India.

The Financial Statement are approved for issue by the company's Board of Directors on May 07,2026.

**2**

**a. Material Accounting Policies**

These financial statements are prepared in accordance with Indian Accounting Standard (Ins AS), under the historical cost convention on the actual basis except for the certain financial instruments which are measured at fair values at the end of each reporting period the provisions of the companies Act,2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules,2015 and relevant amendment rules issued there after.

Accounting Policies have been consistently applied except where a newly issued accounting standrad is initially adopted or a revision to an existing accounting standard requires a change in the accouting policiey hitherto in use.The Material accounting Policy information used in preparation of these Financial Statements have been disclosed hereunder and/or in the Notes to accounts read together with annexures therein.

As the quarter and the year figures are taken from the source and rounded to the nearest digits, the figures for the previous quarters might not always add up to the year figures reported in this statement.

**b Use of Estimates & Judgements**

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

Key source of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of impairment of goodwill, impairment of investments, useful lives of property, plant and equipment, valuation of deferred tax assets and provisions and contingent liabilities.Key estimates are critical accounting estimates.

**c Critical Accounting Estimates:**

**i) Useful lives of property, plant and equipment**

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

**ii) Valuation of deferred tax assets**

The Company reviews the carrying amount of deferred tax assets at the end of each reporting period. The policy for the same has been explained under Note 2(M).

**iii) Provisions and contingent liabilities**

A provision is recognized when the Company has a present obligation as a result of past event and it is probable than an outflow of resources will be required to settle the obligation, in respect of which the reliable estimate can be made. Provisions (excluding retirement benefits and compensated absences) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. Contingent liabilities are not recognized in the financial statements. A contingent asset is neither recognized nor disclosed in the financial statements.

**d Revenue Recognition**

Revenue is realized on time-and-material basis or Fixed Bid or Milestone as specified in the work order. Revenue from software development on time and material basis is recognized based on Service rendered (software developed) and billed to clients as per the terms of specific contracts. Revenue from Fixed Bid contract is recognized on monthly basis as per contract terms. Revenue from Milestone base contract is being recognized based on effort given during the period but the Invoice is sent to customer when the milestone is achieved as per contract.

Contracts are unbundled into separately identifiable components and the consideration is allocated to those identifiable components on the basis of their fair values. Revenue is recognized for respective components either at the point in time or over time, as applicable.

Revenue from software development contracts, which are generally time bound fixed price contracts, is recognized over the life of the contract using the percentage-of-completion method, with contract costs determining the degree of completion.

Revenue from the sale of internally developed software solution or systems or products, whether by way of Licensing or otherwise and third party products which do not require significant modification is recognized upon delivery, which is when the absolute right to use passes to the customer and the Company does not have any material remaining service obligation. Revenue by way of sale of internally developed software solution or systems or products wherein significant modification or customisation is required by customer is recognised as software development contracts, which are generally recognized over the life of the contract using the percentage-of-completion method, with contract costs or efforts determining the degree of completion.

Unbilled Revenue included in Other Financial Assets, represents amounts recognized in respect of services performed in accordance with Contract terms, not yet billed to Customers as at Reporting Period end.

The Company presents Revenues net of Indirect Taxes in its Statement of profit & Loss. All other Investment income has been accounted for on accrual basis

Arrangements with customers for software related services ( Development, Licensing , Enhancement, Modification) are either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue. Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Maintenance revenue is recognized ratably over the term of the underlying maintenance arrangement.

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

In arrangements for software development and related services and maintenance services, the Company has applied the guidance in Ind AS 115, Revenue from contract with customer, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering software development and related services as distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the company is unable to determine the standalone selling price, the company uses the expected cost plus margin approach in estimating the standalone selling price. For software development and related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

Revenue from licenses where the customer obtains a "right to use" the licenses is recognized at the time the license is made available to the customer. Revenue from licenses where the customer obtains a "right to access" is recognized over the access period. Revenue from Arrangements to deliver software products generally have elements license, modification & enhancement are bundled as software development and recognised on percentage completion method followed by Revenue from implementation and Annual Technical Services (ATS) in terms of respective contract. Transaction based Revenue on Licensed Product is recognised on availability of Transaction Volumes or monthly Fixed value as applicable.

**e Cost recognition**

Costs and expenses are recognized when incurred and have been classified according to their primary nature.

The costs of the company are broadly categorized in employee benefit expenses, depreciation and amortization and other operating expenses. Employee benefit expenses include employee compensation, allowances paid and staff welfare expenses. Other operating expenses majorly include fees to external consultants, Rent, cost running its facilities, travel expenses, communication costs allowances for delinquent receivables and other expenses. Other expenses is an aggregation of costs which are individually not material such as commission , bank charges, freight, Postage etc.

**f Property ,Plant & Equipment**

Property, plant and equipment are stated at cost, less accumulated depreciation (other than freehold land) and impairment loss, if any

Property, plant and equipment individually costing Rs 5,000 or less which are not capitalised except when they are part of a larger capital investment programmed.

Depreciation is provided for property, plant and equipment so as to expense the cost less residual values over their estimated useful lives. The Company also provides for Gratuity and Leave Encashment based on actuarial valuation, annually, made by an independent actuary as per IAS 19 Compliance of The Institute of Chartered Accountants of India, Actuarial gains and losses are recognised in full in the other comprehensive income at the of the year.

**n Income Tax**

Current Income tax expense comprise taxes on income from operation in India and in foreign jurisdiction. Income tax payable in India is determination in accordance with the provision of I. Tax Act 1961. Tax expense relating to foreign operation is determined in accordance with the laws applicable in countries where such operations are domiciled.

Advance tax and provisions for current income taxes are presented in the Balance Sheet after off setting advance taxes paid and income tax provision arising in the same tax jurisdiction and where the company intends to settle the assets and liabilities on a net basis.

Deferred income tax asset are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

**o Financial instruments**

Initial recognition

**i)** The company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. Initial recognition has been measured at its fair value plus or minus transaction costs that are directly attributable. Regular purchase and sale of financial assets are accounted for at trade date.

**ii) Financial assets at amortised cost**

The company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

**iii) Financial assets at fair value through other comprehensive income**

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**iv) Financial assets at fair value through Profit & Loss**

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

**v) Investment in subsidiaries**

Investment in subsidiaries are measured at cost

**vi) Derecognition of financial instruments**

The company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for Derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

**p Asset taken on Lease**

Leases the Company evaluates whether a contract contains a lease at the inception of the contract. For all lease arrangements with a term of more than 12 months, the Company recognizes a **Right-of-Use (ROU) asset** and a corresponding **Lease Liability**, except for leases of low-value assets.

**Initial Measurement:** The lease liability is initially measured at the present value of the lease payments to be made over the lease term, discounted using the Company's incremental borrowing rate. The ROU asset is initially measured at cost, which comprises the initial amount of the lease liability, adjusted for any lease payments made at or before the commencement date (including fair value adjustments of security deposits).

**Subsequent Measurement:** ROU assets are depreciated on a straight-line basis over the shorter of the lease term or the estimated useful lives of the assets. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made.

For **short-term leases** (12 months or less) and low-value assets, the Company recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

**q Impairment of Assets**

Property, plant and equipment are reviewed for impairment if events or changes in circumstances indicate that the carrying amount may not be recoverable. When a review for impairment is conducted, the recoverable amount is assessed by reference to the net present value of expected future post-tax cash flows of the relevant cash generating unit or fair value less cost to sell, whichever is higher. The discount rate is applied, based upon the weighted average cost of capital with appropriate adjustments for the risks associated with the relevant business. Any impairment in value is charged to the Income Statement in the year, which it occurs.

**Expected Credit Loss:** As per Ind AS 109, the company uses expected credit loss model to assess to impairment of loss or gain. The company uses provision metrics to compute expected credit loss allowances. For Trade receivables and unbilled revenue, the provision metrics takes into account available external & internal credit risk factors such as delay risk & default risk.

**r Segment Reporting**

The company's operating business are organized and managed as per Location of the client. Common costs are allocated to the cost based on the Revenue Mix. Unallocated costs are disclosed separately. The company prepare its segment information in conformity with the accounting policy adopted for preparing and presenting the financial statement of the Company as a whole.

**s Earnings per share**

Basic earning per share is calculated by dividing the net profit or Loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For Calculating Diluted earning per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

**(i) Fair value hierarchy**

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

<b>Total financial liabilities</b>	<b>-</b>	<b>-</b>	<b>629.12</b>	<b>629.12</b>

Level 1: Level 1 hierarchy includes financial instruments basically here includes cash and bank balances which are at carrying value which approximates to its fair value.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is generally the case for unlisted equity securities.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of Net assets value/ realisable value in case of investment in mutual fund
- Other financial instruments have been carried at their carrying value which approximates to its fair value

**(iii) Fair value of financial assets and liabilities measured at amortised cost**

	As at MAR 31, 2026		As at MAR 31, 2025	
	Carrying amount	Fair value	Carrying amount	Fair value

<b>Total financial liabilities</b>	<b>1,377.19</b>	<b>1,377.19</b>	<b>629.12</b>	<b>629.12</b>

The carrying amounts of trade receivables, loans, cash and cash equivalents, other bank balances, other financial assets, security deposits, trade payables and other financial liabilities are considered to be the same as their fair values, due to their short-term nature.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (i.e. foreign currency risk, interest rate risk and price risk).

**35 Financial Risk Management**

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk:

Risk	Exposure arising from	Management
Credit risk	Cash and cash equivalents, trade receivables and other financial assets measured at amortised cost.	Diversification of bank deposits and investments. Entering into transactions with customers of repute / customers having sound financial position.
Liquidity risk	Financial liabilities that are settled by delivering cash or another financial asset.	* Projecting cash flows on regular basis and also considering the level of investment and liquid assets to meet the liabilities.
Market risk – foreign exchange	Future commercial transactions and recognised financial assets & liabilities not denominated in Indian rupee (Rs.)	Integral foreign operation and incorporation of the same made in books on monthly basis
Market risk – security price risk	Investments in mutual funds	Portfolio diversification

(A) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) including deposits with banks and investments, foreign exchange transactions and other financial instruments.

i) Trade receivables

Customer credit risk is managed by the management subject to the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing. Outstanding customer receivables are regularly monitored.

At each reporting date the Company measures loss allowance for certain class of financial assets based on historical trend industry practice and the business environment in which the Company operates.

The Company's maximum exposure to credit risk for the components of the balance sheet at 31st March 2026 and 31 March 2025 is the carrying amounts of trade receivables.

Provision for expected credit loss

In determination of the allowance for credit losses on receivables, the Company has used a practical experience by computing the expected credit losses based on ageing matrix, which has taken into account historical credit loss experience and adjusted for forward looking information.

ii) Financial instruments and cash deposits

Credit risk from balances with banks and investments is managed by the Company in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

(B) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows.

(i) Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities:

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

<b>Contractual maturities of financial liabilities 31st Mar 2026</b>	<b>Less than 1 year</b>	<b>More than 1 year</b>	<b>Total</b>
<b>Non-derivatives</b>

<b>Total non-derivative financial liabilities</b>	<b>629.12</b>	<b>-</b>	<b>629.12</b>

**(C) Market risk**

**(i) Foreign currency risk**

The Company deals with trade payables and is therefore exposed to foreign exchange risk associated with exchange rate movement.

**(ii) Price risk**

The Company's exposure to equity securities price risk arises from investments held by the Company and classified in the balance sheet at fair value through profit and loss. To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.

### Opinion

We have audited the financial statement of Responsive Solutions, Inc., (a California Corporation) which comprise the balance sheet as of March 31, 2026, and the related statement of operations, change in stockholders' equity, and cash flows for the three and twelve months ended March 31, 2026, and the related notes to the financial statements.

In our opinion, the accompanying financial statement presents fairly, in all material respects, the financial position of Responsive Solutions, Inc., as of March 31, 2026, and the results of its operations and its cash flows for the three months and twelve months ended in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Responsive Solutions, Inc., and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Responsive Solutions, Inc.'s ability to continue as a going concern within one year from the date the financial statements are available to be issued.

### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Responsive Solutions, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Responsive Solutions, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**RESPONSIVE SOLUTIONS, INC.**  
**NOTES TO FINANCIAL STATEMENTS MARCH 31, 2026**

**1. Summary of Significant Accounting Policies**

**Nature of Business** - Responsive Solutions, Inc. ("Responsive Solutions"), a California corporation incorporated in 1994, Responsive Solutions markets a multi-user Corrective Action Tracking System (CATSWeb) designed to track manufacturing nonconformities and corrective action, achieve and maintain ISO/QS 9000 certification, and empower companies in a broad range of industries to solve problems faster.

Responsive Solutions, Inc. is a wholly owned subsidiary of RS Software (India) Ltd, "Parent".

**Basis of Accounting** - Responsive Solutions prepares the financial statements using accrual basis of accounting in conformity with the generally accepted accounting principles in the United States of America. The expenses are recorded when the benefits and services are received.

**Estimates Included in the Financial Statements** - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Responsive Solutions is subject to risks and uncertainties that may cause actual results to differ from estimated amounts, such as changes in the technology, competition, litigation, legislation and regulations. Responsive Solutions regularly evaluates their estimates and assumptions using historical experience and expectations about the future. Responsive Solutions adjusts their estimates and assumptions when facts and circumstances indicate the need for change.

**Cash and Cash Equivalents** - Cash consists of interest and non-interest-bearing accounts with one financial institution. Responsive Solutions considers all highly liquid investments with original maturity of three months or less from the date of purchased, to be cash equivalents. The carrying value of cash equivalents approximates fair value.

**Accounts Payable** - Accounts payable are recorded when goods or benefits are received.

**Revenue Recognition** - On January 1, 2019, Responsive Solutions adopted new accounting standard, as amended, regarding revenue from contracts with customers using the modified retrospective approach. This standard provides guidance on recognizing revenue, including a five-step model to determine when revenue recognition is appropriate. The adoption of this standard did not have a material impact on the Responsive Solutions' financial position and results of operations.

Responsive Solutions derives revenue primarily from software services and development on fixed-price contracts. On the time-and-materials contracts, revenue is recognized as related services are rendered.

**Risks and Uncertainties** - Products are concentrated in an industry which is characterized by significant competition, rapid technological advances, changes in customer requirements and evolving regulatory requirements and industry standards. The success of Responsive Solutions depends on management's ability to anticipate and to respond quickly and adequately to technological developments in the industry, changes in customer requirements or changes to industry standards. Any significant delays in the development or introduction of products could have a material adverse effect on Responsive Solutions business and operating results.

**Fair Value of Financial Instruments** - The carrying amounts of financial instruments including cash, and accounts payable approximate fair value as of March 31, 2026, because of the relatively short maturity of these instruments.

**Income Taxes Payables** - Responsive Solutions has elected to be taxed under the chapter C of the Internal Revenue Code. Income of Responsive Solutions is reported in Responsive Solutions income tax return.

Responsive Solutions files its income tax returns in the U.S. Federal, and California jurisdictions.

None of Responsive Solutions tax returns have been examined by the taxing authorities, nor has Responsive Solutions been notified of any pending examinations.

At March 31, 2026, Responsive Solutions did not have any tax benefit disallowed under the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") FASB ASC 740, Income Taxes and no amounts have been recognized for potential interests and penalties. A tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with the tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax position not meeting the "more likely than not" test, no tax benefit is recorded.

Current tax expense for the three and twelve month ended March 31, 2026 presented are comprised of the minimum tax for Federal and the state of California based on minimal tax rates for taxable income.

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Responsive Solutions has temporary differences which are immaterial. Thus, Responsive Solutions determines it impractical to recognize such in the financial statements.

**Uncertain Tax Positions** - Responsive Solutions accounts for uncertain tax positions in accordance with GAAP. GAAP prescribes a recognition threshold and measurement process for financial statement recognition of uncertain tax positions taken or expected to be taken on a tax return. GAAP also provides guidance on recognition, de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. There was no impact on total liabilities or stockholder's equity as a result of the adoption of these provisions.

**Concentration of Credit Risk** - Financial instruments that potentially subject Responsive Solutions to concentrations of credit risk consist principally of deposits greater than \$250,000 for interest bearing accounts with each financial institution that is a member of Federal Deposit Insurance Corporation ("FDIC"), and security

deposits greater than \$500,000 (\$250,000 in cash) with each financial institution that is a member of Securities Investor Protection Corporation ("SIPC").

Responsive Solutions has no cash balances on deposit at March 31, 2026 that exceeded the balance insured by the FDIC. Management of Responsive Solutions periodically reviews its cash policies and believes any potential accounting loss is minimal.

**2. Lease Commitments** - In April 2022, Responsive Solutions signed a month-to-month lease agreement. Rent on this lease were \$84,646 during the year ended March 31, 2026.

**3. Subsequent Event** - Management has evaluated subsequent events through April 9, 2026, the date which the financial statements were available to be issued. The financial statements include all events or transactions, including estimates, required to be recognized in accordance with the accounting principles generally accepted in the United States of America. Responsive Solutions has determined that there are no unrecognized subsequent events that require additional disclosures.

### **Report on the standalone Financial Statements**

#### **Opinion**

We have audited the accompanying Standalone financial statements of **M/s. Paypermint Pvt. Limited (“the Company”)** which comprises the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as “the standalone financial statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (India Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, of profit (including other Comprehensive income), Statement of Changes in Equity and its cash flows for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Responsibility of Management for the Standalone Financial Statements**

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 (“the Act”) with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the Ind AS and accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act, 2013 read with relevant rules issued thereunder and other Accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company’s financial reporting process.

#### **Auditor’s Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained,

whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the interim consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### **Reports on Other Legal and Regulatory Requirements**

- (i) As required by the Companies (Auditors Report) order, 2016 ( the Order) issued by the Central Governance of India in terms of section 143 (11) of the Act we give in the Annexure A, a Statement on the matters specified in paragraph 3 and 4 of the order.

### Annexure A to the Auditors' Report

The Annexure referred to in Independent Auditors' Report to the members of the Company on the standalone financial statements for the year ended 31<sup>st</sup> March, 2026 we report that

i. (a)(A) The Company has generally maintained proper records showing full particulars, including quantitative details of Property, Plant and Equipment except location thereof.  
(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) According to the information and explanation given to us and on the basis of our examination of the records of the company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all Property, Plant and Equipment are verified every year. In accordance with this programme, all the Property, Plant and Equipment have been physically verified by the management during the year and no material discrepancies have been noticed on such verification. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets.

(c) The Company does not have any immovable properties. Accordingly, para 3(i)(c) of the Order is not applicable to the Company.

(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its property, plant and equipment (including Right-of-use assets) or Intangible assets or both during the year.

(e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

ii. (a) The Company is a service company, primarily rendering software services. Accordingly, it does not hold any physical inventories. Thus, paragraph 3(ii)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not been sanctioned working capital limits in excess of five crore rupees at any point of time of the year in aggregate, from banks or financial institutions on the basis of security of current assets. Accordingly, the requirement to report on para 3(ii)(b) of the Order is not applicable to the Company.

(iii) (a) On the basis of examination of records and according to the information and explanation given to us, we report that the Company has not made investment, provided any guarantee or security or granted advances in the nature of loans secured or unsecured to companies, firms, limited liability Partnership or any other parties during the year except that the Company has granted unsecured loans to its holding company during the year which is covered in the register maintained under section 189 of the Companies Act, 2013.

(A) Based on the audit procedures carried on by us and as per the information and explanations given to us, the Company has no Subsidiaries, Joint Ventures or Associates. Accordingly, the provisions of clause (iii)(a)(A) of the Order are not applicable

(B) Based on the audit procedures carried on by us and as per the information and explanations given to us, the Company has granted loans to its holding company as below :

	Loans (Amount)
Aggregate amount granted/provided during the year	Rs. 8,75,00,000
Balance Outstanding as at balance sheet date in respect of above	Rs. 5,52,89,279

(b) According to the information and explanation given to us and based on the audit proceeding conducted by us, we are of the opinion that the terms and conditions of the loans given are prima facie not prejudicial to the interest of the Company.

(c) According to the information and explanation given to us and on the basis of examination of the records of the Company, no schedule of repayment of principal and interest has been stipulated in this regard and hence clause (iii)(c) of the order is not applicable.

(d) In respect of loans granted to the holding company, no repayment schedule have been specified, hence reporting for overdue amount under clause 3(iii)(d) of the order is not applicable.

(e) No loan or advance in the nature of loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.

(f) According to the information and explanation given to us and on the basis of examination of the records of the Company, the Company has granted loan to its holding company without specifying any terms or period of repayment. The aggregate amount of such loan is Rs. 8,75,00,000 and it is hundred percent of the total loan granted to related party as defined in clause (76) of section 2 of the Companies Act, 2013.

(iv) According to the information and explanations given to us and on the basis of our examination of the records of the company, the Company has not provided any loans, investments, guarantees, and security during the year as specified under Section 185 and 186 of the Act. Accordingly, the provisions of clause 3(iv) of the Order are not applicable.

(v) The Company has not accepted any deposits and therefore the directives issued by the Reserve Bank of India and the provisions of section 73 to 76 or any other relevant provisions of the companies act 2013 and the rules formed thereunder are not applicable to the company and hence para 3(v) of the Order is not applicable to the Company.

(vi) According to the information and explanation given to us, the Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Act, for any of the services rendered by the Company. Thus paragraph 3(vi) of the Order is not applicable.

(vii) (a) According to the information and explanations given to us and as per the records of the Company examined by us, the Company is generally regular in depositing undisputed statutory dues including Goods and Services Tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and any other statutory dues, as applicable to the Company, except certain delays in deposit of GST during the year with the appropriate authorities. There are no undisputed statutory dues payable in respect of above statues outstanding as at 31<sup>st</sup> March 2026 for a period of more than six months from the date they became payable.

(b) According to information and explanations given to us and on the basis of our examination of the records of the Company, there are no dues of income tax, Goods & service tax, cess etc. which have not been deposited as at 31 March, 2026 on account of any dispute.

(viii) According to information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transaction, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.

(ix) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company have not defaulted in repayment of any loans or borrowings from any lender during the year.

(b) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not been declared willful defaulter by any bank or financial institution or other lender.

(c) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not raised any money by way of term loans.

(d) According to the information and explanations given to us and based on the audit procedures performed by us, no funds raised on short-term basis have been used for long-term purposes by the Company.

(e) The Company does not have any subsidiary, associate or joint venture. Accordingly, the requirement to report on paragraph 3(ix)(e) and (f) of the Order are not applicable to the Company.

(x) (a) The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, paragraph 3(x)(a) of the Order is not applicable.

(b) According to the information and explanation given to us and based on the audit procedures performed by us, the Company has not made any preferential allotment or private placement of shares or convertible debentures during the year, only allotment of Right Shares have been made during the year. Hence reporting under paragraph 3(x)(b) of the Order is not applicable to the Company.

## Annexure B to the Auditors' Report

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of PAYPERMINT PRIVATE LIMITED of even date)

### Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **PAYPERMINT PRIVATE LIMITED** ("the Company") as on 31<sup>st</sup> March, 2026 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

#### Management's Responsibility for Internal Financial Controls :

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safe guarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditor's Responsibility :

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operative effectiveness. Our audit of internal Financial Controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion of the Company's internal financial controls system over financial reporting.

#### Meaning of Internal Financial Controls Over Financial Reporting :

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in responsible detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are records as necessary to permit preparation of financial statements in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting :

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion :

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**1.1 Corporate Information**

Paypermint has focused exclusively on providing software solution to electronic payment industries since its inception. The company is engaged in development, testing and maintenance of software for its clients based in India. The Financial Statement are approved for issue by the company's Board of Directors on MAY 07, 2026.

**1.2 Material Accounting Policies**

These financial statements are prepared in accordance with Indian Accounting Standard (Ins AS), under the historical cost convention on the actual basis except for the certain financial instruments which are measured at fair values, the provisions of the companies Act,2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under section 133 of the Act read with Rule 3 of the companies (Indian Accounting Standards) Rules,2015 and relevant amendment rules issued there after.

Material Accounting Policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accouting policies hitherto in use.

As the quarter and the year figures are taken from the source and rounded to the nearest digits, the figures for the previous quarters might not always add up to the year figures reported in this statement.

**1.3 Use of Estimates & Judgements**

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

Key source of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of impairment of goodwill, impairment of investments, useful lives of property, plant and equipment, valuation of deferred tax assets and provisions and contingent liabilities. Key estimates are critical accounting estimates.

**2 Critical Accounting Estimates:**

**a Useful lives of property, plant and equipment**

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

**b Valuation of deferred tax assets**

The Company reviews the carrying amount of deferred tax assets at the end of each reporting period. The policy for the same has been explained under Note 2(M).

**c Provisions and contingent liabilities**

A provision is recognized when the Company has a present obligation as a result of past event and it is probable than an outflow of resources will be required to settle the obligation, in respect of which the reliable estimate can be made. Provisions (excluding retirement benefits and compensated absences) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. Contingent liabilities are not recognized in the financial statements. A contingent asset is neither recognized nor disclosed in the financial statements.

**d Revenue Recognition**

Revenue is recognised based on the occurrence of transaction and rendered in books on monthly basis commensurating with the term as agreed upon with the customer .The Revenues of the company on licensing of software is recognised on accrual basis as per the terms of licensing agreement.

**e Cost recognition**

Costs and expenses are recognized when incurred and have been classified according to their primary nature.

The costs of the company are broadly categorized in employee benefit expenses, depreciation and amortization and other operating expenses. Employee benefit expenses include employee compensation, allowances paid and staff welfare expenses. Other operating expenses majorly include fees to external consultants, Rent, cost running its facilities, travel expenses, communication costs allowances for delinquent receivables and other expenses. Other expenses is an aggregation of costs which are individually not material such us commission, bank charges, freight, Postage etc.

**f Property ,Plant & Equipment**

Property, plant and equipment are stated at cost, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Property, plant and equipment individually costing Rs 5,000 or less which are not capitalised except when they are part of a larger capital investment programmed.

Depreciation is provided for property, plant and equipment so as to expense the cost less residual values over their estimated useful lives. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

**The estimated useful lives are as mentioned below:**

PLANT AND EQUIPMENT 3 years/6 years

Depreciation on fixed assets is provided using the straight-line method on the basis of use full life of assets under schedule II of the Indian Companies Act, 2013.

**g Intangible assets**

Intangible assets purchased are measured at cost or fair value as of the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any.

Intangible assets/Software Licences are amortized on there respective individual estimated useful lives on a straight line basis , commencing from the date the assets is available to the company for its use.

The estimated useful lives are as mentioned below:

The Company also provides for Gratuity and Leave Encashment based on actuarial valuation made by an independent actuary as per IAS 19 Compliance of The Institute of Chartered Accountants of India, Actuarial gains and losses are recognised in full in the Statement of Profit & Loss account for the period in which they occur.

**m Income Tax**

Current Income tax expense comprise taxes on income from operation in India . Income tax payable in India is determination in accordance with the provision of I. Tax Act 1961.

Advance tax and provisions for current income taxes are presented in the Balance Sheet after off setting advance taxes paid and

income tax provision arising in the same tax jurisdiction and where the company intends to settle the assets and liabilities on a net basis.

Deferred income tax asset are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

**n Financial instruments**

**i) Initial recognition**

The company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

**ii) Financial assets at amortised cost**

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

iii) **Financial assets at fair value through Profit & Loss**

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

o **Impairment of Assets**

Property, plant and equipment are reviewed for impairment if events or changes in circumstances indicate that the carrying amount may not be recoverable. When a review for impairment is conducted, the recoverable amount is assessed by reference to the net present value of expected future post-tax cash flows of the relevant cash generating unit or fair value less cost to sell, whichever is higher. The discount rate is applied, based upon the weighted average cost of capital with appropriate adjustments for the risks associated with the relevant business. Any impairment in value is charged to the Income Statement in the year, which it occurs.

Expected Credit Loss: As per Ind AS 109, the company uses expected credit loss model to assess to impairment of loss or gain. The company uses provision metrics to compute expected credit loss allowances. For Trade receivables and unbilled revenue, the provision metrics takes into account available external & internal credit risk factors such as delay risk & default risk.

p **Earnings per share**

Basic earning per share is calculated by dividing the net profit or Loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For Calculating Diluted earning per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Financial assets and liabilities measured at amortised cost for which fair values are disclosed at 31 Mar'26	Level 1	Level 2	Level 3	Total
Financial assets				
Investments				
Trade receivables	-	-	-	-
Cash and cash equivalents	378.59	-	-	378.59
Other financial assets	-	-	-	-
Total financial assets	378.59	-	-	378.59
Financial liabilities				
Trade payables	-	-	6.61	6.61
Other financial liabilities	-	-	3.99	3.99
Total financial liabilities	-	-	10.60	10.60

Financial assets and liabilities measured at amortised cost for which fair values are disclosed At 31 Mar'25	Level 1	Level 2	Level 3	Total
Financial assets				
Investments				
Trade receivables	-	-	-	-
Cash and cash equivalents	572.86	-	-	572.86
Other financial assets	-	-	-	-
Total financial assets	572.86	-	-	572.86
Financial liabilities				
Trade payables	-	-	10.47	10.47
Other financial liabilities	-	-	27.28	27.28
Total financial liabilities	-	-	37.75	37.75

Level 1: Level 1 hierarchy includes financial instruments basically here includes cash and bank balances which are at carrying value which approximates to its fair value.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is generally the case for unlisted equity securities.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of Net assets value/ realisable value in case of investment in mutual fund
- Other financial instruments have been carried at their carrying value which approximates to its fair value

(iii) Fair value of financial assets and liabilities measured at amortised cost

	MAR 31, 2026		31 March 2025	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets				
Trade receivables	-	-	-	-
Cash and cash equivalents	378.59	378.59	572.86	572.86
Other financial assets	-	-	-	-
Total financial assets	378.59	378.59	572.86	572.86
Financial liabilities				
Trade payables	6.61	6.61	10.47	10.47
Other financial liabilities	3.99	3.99	27.28	27.28
Total financial liabilities	10.60	10.60	37.75	37.75

The carrying amounts of trade receivables, loans, cash and cash equivalents, other bank balances, other financial assets, security deposits, trade payables and other financial liabilities are considered to be the same as their fair values, due to their short-term nature.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

**c) Financial Risk Management**

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (i.e. foreign currency risk, interest rate risk and price risk).

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk:

Risk	Exposure arising from	Management
Credit risk	Cash and cash equivalents, trade receivables and other financial assets measured at amortised cost.	Diversification of bank deposits and investments. Entering into transactions with customers of repute / customers having sound financial position.
Liquidity risk	Financial liabilities that are settled by delivering cash or another financial asset.	* Projecting cash flows on regular basis and also considering the level of investment and liquid assets to meet the liabilities.
Market risk – foreign exchange	Future commercial transactions and recognised financial assets & liabilities not denominated in Indian rupee (Rs.)	Integral foreign operation and incorporation of the same made in books on monthly basis
Market risk – security price risk	Investments in mutual funds	Portfolio diversification

(A) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) including deposits with banks and investments, foreign exchange transactions and other financial instruments.

i) Trade receivables

Customer credit risk is managed by the management subject to the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing. Outstanding customer receivables are regularly monitored.

At each reporting date the Company measures loss allowance for certain class of financial assets based on historical trend industry practice and the business environment in which the Company operates.

ii) Provision for expected credit loss

In determination of the allowance for credit losses on receivables, the Company has used a practical experience by computing the expected credit losses based on ageing matrix, which has taken into account historical credit loss experience and adjusted for forward looking information.

iii) Financial instruments and cash deposits

Credit risk from balances with banks and investments is managed by the Company in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

(B) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows.

(i) Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities:

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

## INDEPENDENT AUDITOR'S REPORT

**To  
The Members of  
M/s. R S Software (India) Limited**

### Report on the Audit of the Consolidated Financial Statements

#### Opinion

We have audited the accompanying Consolidated financial statements of **M/s. R S Software (India) Limited** ("the Company") and its subsidiaries M/s. Responsive Solutions Inc., and Paypermint Pvt. Limited (the Company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2026, and the Consolidated Statement of Profit and Loss (including other Comprehensive Income) the Consolidated Statement of Changes in Equity and the Consolidated Cash Flows Statement for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of their consolidated state of affairs of the Company as at March 31, 2026, of Consolidated profit and (including other Comprehensive Income), Consolidated Changes in Equity and its Consolidated Cash Flows for the year the ended as on that date.

#### Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements

#### Key Audit Matters

Key audit matters (KAM) are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion of these matters.

Sr. No	Key Audit Matter	How our audit addressed the Key Audit Matter
1	The application of revenue recognition accounting Standard is complex and involved a number of Key judgements and estimates and is the focus area of audit. It involves the analysis of Customer Contracts (which includes identification and review of distinct performance obligations in the contract and determination of its Transaction price in relation with the performance obligation and the basis used to recognize revenue.	Our audit procedure in recognition of revenue includes- a. Obtaining an understanding of the systems, processes and controls implemented for recording and computing revenue b. Thereafter tested the controls relating to identification of the distinct performance obligations and determination of transaction price. We carried out a combination of procedures involving enquiry and observation, and inspection of evidence in respect of operation of these controls. c. Selected on sample basis for performing the following procedures 1. Reviewed the particulars of the agreements (i.e distinct performance obligations, nature of work, transaction price including other Terms and Conditions). 2. Compared the Actual Performance Obligations with agreed performance obligations and revenue booking based on performance obligations achieved/rendered. 3. Effectiveness of controls have also been tested which broadly includes identification of major performance obligations of the company as stated in the agreement, nature of contracts whether milestone based, fixed price contracts, maintenance contracts, certain enhancement related contracts and determination of revenue recognition accordingly ( like Fixed price / maintenance revenue contracts should be recognized on a straight line basis or using the percentage completion method) 4. Reviewing the details of the resources engaged in the performance of the contracts, on test check basis, along with their approved attendance by the client 5. Reviewed the terms of the contracts in relation to 'transaction price' including any variable consideration and tested that revenue booking corresponds to the same. 6. In respect of revenue recorded for time and material and fixed price monthly contracts samples were tested using a combination of approved time sheets customer acceptances & subsequent invoicing and existing trend of collections. 7. In respect of revenue recorded for fixed price development contract and fixed time frame contract samples were tested to check the performance and obligation using the percentage of completion method based on Managements estimate of the Contract cost.

#### Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Directors Report including Annexures to Directors' Report, Report on Corporate Governance but does not include the Consolidated Financial Statements and our auditors' report thereon. The Management Discussion and Analysis, Directors' Report including Annexures to Directors' Report and Report on Corporate Governance are expected to be made available to us after the date of this auditor's report.

Our opinion on the Consolidated Financial Statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Companies annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

#### Responsibility of Management and Those charged with Governance for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in term of the requirements of the Act, that give a true and fair view of the consolidated financial position, Consolidated Financial performance and Consolidated Cash Flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group and of its associates and jointly controlled entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies including in the Group are responsible for overseeing the financial reporting process of the Group.

#### Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs we exercise professional judgement and maintain professional skepticism throughout the audit. We also :

- Identify and assess the risks of material misstatement of the interim Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the interim consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the interim consolidated financial statements, including the disclosures, and whether the interim consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditor's such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the interim consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Other Matters

We did not audit the financial statement of M/s. ## Annexure A to the Auditors' Report

### Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

In conjunction with our audit of the consolidated financial statements as of and for the year ended March 31, 2026, we have audited the internal financial controls over financial reporting of the **R S Software (India) Limited**, the Holding company and **Paypermint Private Limited**, its subsidiary company, which is company incorporated in India, as of that date.

#### Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company and its subsidiary company, which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013..

#### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

#### Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in responsible detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future period are subject to the risk that the internal financial control over financial reporting may become inadequate because of change in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, the Holding Company and its subsidiary company which is a company incorporated in India have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**NOTES ON ACCOUNTS FOR THE YEAR ENDED MARCH 31, 2026**

**1 Corporate Information**

RS Software has focused exclusively on providing software solution to electronic payment industries since its inception. The company is engaged in development, testing and maintenance of software for its clients based in different geographies. The company operates in US and India.

The Financial Statement are approved for issue by the company's Board of Directors on MAY 07, 2026.

**2**

**a. Material Accounting Policies**

These financial statements are prepared in accordance with Indian Accounting Standard (Ins AS), under the historical cost convention on the actual basis except for the certain financial instruments which are measured at fair values at the end of each reporting period the provisions of the companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under section 133 of the Act read with Rule 3 of the companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued there after.

Accounting Policies have been consistently applied except where a newly issued accounting standrad is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The Material accounting Policy information used in preparation of these Financial Statements have been disclosed hereunder and/or in the Notes to accounts read together with annexures therein.

As the quarter and the year figures are taken from the source and rounded to the nearest digits, the figures for the previous quarters might not always add up to the year figures reported in this statement.

The Consolidated financial statements comprise the financial statements of the Company, its controlled trusts and its subsidiaries, as disclosed in Notes to Accounts. Control exists when the parent has power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. The financial statements of the subsidiaries are consolidated on a line-by-line basis and intra-group balances and transactions including unrealized gain / loss from such transactions are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group.

**b Use of Estimates & Judgements**

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

Key source of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of impairment of goodwill, impairment of investments, useful lives of property, plant and equipment, valuation of deferred tax assets and provisions and contingent liabilities. Key estimates are critical accounting estimates.

**c Critical Accounting Estimates:**

**i) Useful lives of property, plant and equipment**

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

**ii) Valuation of deferred tax assets**

The Company reviews the carrying amount of deferred tax assets at the end of each reporting period. The policy for the same has been explained under Note 2(M).

**iii) Provisions and contingent liabilities**

A provision is recognized when the Company has a present obligation as a result of past event and it is probable than an outflow of resources will be required to settle the obligation, in respect of which the reliable estimate can be made. Provisions (excluding retirement benefits and compensated absences) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. Contingent liabilities are not recognized in the financial statements. A contingent asset is neither recognized nor disclosed in the financial statements.

**d Revenue Recognition**

Revenue is realized on time-and-material basis or Fixed Bid or Milestone as specified in the work order. Revenue from software development on time and material basis is recognized based on Service rendered (software developed) and billed to clients as per the terms of specific contracts. Revenue from Fixed Bid contract is recognized on monthly basis as per contract terms. Revenue from Milestone base contract is being recognized based on effort given during the period but the Invoice is sent to customer when the milestone is achieved as per contract.

Contracts are unbundled into separately identifiable components and the consideration is allocated to those identifiable components on the basis of their fair values. Revenue is recognized for respective components either at the point in time or over time, as applicable.

Revenue from software development contracts, which are generally time bound fixed price contracts, is recognized over the life of the contract using the percentage-of-completion method, with contract costs determining the degree of completion.

Revenue from the sale of internally developed software solution or systems or products, whether by way of Licensing or otherwise and third party products which do not require significant modification is recognized upon delivery, which is when the absolute right to use passes to the customer and the Company does not have any material remaining service obligation. Revenue by way of sale of internally developed software solution or systems or products wherein significant modification or customisation is required by customer is recognised as software development contracts, which are generally recognized over the life of the contract using the percentage-of-completion method, with contract costs or efforts determining the degree of completion.

Unbilled Revenue included in Other Financial Assets, represents amounts recognized in respect of services performed in accordance with Contract terms, not yet billed to Customers as at Reporting Period end.

The Company presents Revenues net of Indirect Taxes in its Statement of profit & Loss. All other Investment income has been accounted for, on accrual basis

Arrangements with customers for software related services ( Development, Licensing, Enhancement, Modification) are either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue. Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Maintenance revenue is recognized ratably over the term of the underlying maintenance arrangement.

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

In arrangements for software development and related services and maintenance services, the Company has applied the guidance in Ind AS 115, Revenue from contract with customer, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering software development and related services as distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the company is unable to determine the standalone selling price, the company uses the expected cost plus margin approach in estimating the standalone selling price. For software development and related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control the work as it progresses.

Revenue from licenses where the customer obtains a "right to use" the licenses is recognized at the time the license is made available to the customer. Revenue from licenses where the customer obtains a "right to access" is recognized over the access period. Revenue from Arrangements to deliver software products generally have elements license, modification & enhancement are bundled as software development and recognised on percentage completion method followed by Revenue from implementation and Annual Technical Services (ATS) in terms of respective contract. Transaction based Revenue on Licensed Product is recognised on availability of Transaction Volumes or monthly Fixed value as applicable.

**e Cost recognition**

Costs and expenses are recognized when incurred and have been classified according to their primary nature.

The costs of the company are broadly categorized in employee benefit expenses, depreciation and amortization and other operating expenses. Employee benefit expenses include employee compensation, allowances paid and staff welfare expenses. Other operating expenses majorly include fees to external consultants, Rent, cost running its facilities, travel expenses, communication costs allowances for delinquent receivables and other expenses. Other expenses is an aggregation of costs which are individually not material such as commission, bank charges, freight, Postage etc.

**f Property, Plant & Equipment**

**n Income Tax**

Current Income tax expense comprise taxes on income from operation in India and in foreign jurisdiction. Income tax payable in India is determination in accordance with the provision of I. Tax Act 1961. Tax expense relating to foreign operation is determined in accordance with the laws applicable in countries where such operations are domiciled.

Advance tax and provisions for current income taxes are presented in the Balance Sheet after off setting advance taxes paid and income tax provision arising in the same tax jurisdiction and where the company intends to settle the assets and liabilities on a net basis.

Deferred income tax asset are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

**o Financial instruments**

Initial recognition

**R S SOFTWARE INDIA LIMITED**  
**NOTES ON ACCOUNTS FOR THE YEAR ENDED MARCH 31,2026**

i) The company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. Initial recognition has been measured at its fair value plus or minus transaction costs that are directly attributable. Regular purchase and sale of financial assets are accounted for at trade date.

**ii) Financial assets at amortised cost**

The company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

**iii) Financial assets at fair value through other comprehensive income**

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**iv) Financial assets at fair value through Profit & Loss**

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

**v) Investment in subsidiaries**

Investment in subsidiaries are measured at cost

**vi) Derecognition of financial instruments**

The company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for Derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

**p Asset taken on Lease**

Leases The Company evaluates whether a contract contains a lease at the inception of the contract. For all lease arrangements with a term of more than 12 months, the Company recognizes a Right-of-Use (ROU) asset and a corresponding Lease Liability, except for leases of low-value assets.

Initial Measurement: The lease liability is initially measured at the present value of the lease payments to be made over the lease term, discounted using the Company's incremental borrowing rate. The ROU asset is initially measured at cost, which comprises the initial amount of the lease liability, adjusted for any lease payments made at or before the commencement date (including fair value adjustments of security deposits).

Subsequent Measurement: ROU assets are depreciated on a straight-line basis over the shorter of the lease term or the estimated useful lives of the assets. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made.

For short-term leases (12 months or less) and low-value assets, the Company recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

**q Impairment of Assets**

Property, plant and equipment are reviewed for impairment if events or changes in circumstances indicate that the carrying amount may not be recoverable. When a review for impairment is conducted, the recoverable amount is assessed by reference to the net present value of expected future post-tax cash flows of the relevant cash generating unit or fair value less cost to sell, whichever is higher. The discount rate is applied, based upon the weighted average cost of capital with appropriate adjustments for the risks associated with the relevant business. Any impairment in value is charged to the Income Statement in the year, which it occurs.

Expected Credit Loss: As per Ind AS 109, the company uses expected credit loss model to assess to impairment of loss or gain. The company uses provision metric to compute expected credit loss allowances. For Trade receivables and unbilled revenue, the provision metric takes into account available external & internal credit risk factors such as delay risk & default risk.

**r Segment Reporting**

The company's operating business are organized and managed as per Location of the client. Common costs are allocated to the cost based on the Revenue Mix. Unallocated costs are disclosed separately. The company prepare its segment information in conformity with the accounting policy adopted for preparing and presenting the financial statement of the Company as a whole.

**s Earnings per share**

Basic earning per share is calculated by dividing the net profit or Loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For Calculating Diluted earning per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Financial assets and liabilities measured at amortised cost for which fair values are disclosed At 30 Sep 2025	Level 1	Level 2	Level 3	Total

Other financial liabilities	-	-	555.00	555.00
<b>Total financial liabilities</b>	<b>-</b>	<b>-</b>	<b>673.97</b>	<b>673.97</b>

**Level 1:** Level 1 hierarchy includes financial instruments basically here includes cash and bank balances which are at carrying value which approximates to its fair value.

**Level 2:** The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is generally the case for unlisted equity securities.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of Net assets value/ realisable value in case of investment in mutual fund
- Other financial instruments have been carried at their carrying value which approximates to its fair value

(iii) Fair value of financial assets and liabilities measured at amortised cost

Financial assets	30 SEP 2025		31 March 2025	
	Carrying amount	Fair value	Carrying amount	Fair value
Trade receivables	845.15	845.15	467.99	467.99
Cash and cash equivalents	458.99	458.99	2,137.67	2,137.67

<b>Total financial assets</b>	<b>1,329.56</b>	<b>1,329.56</b>	<b>2,631.28</b>	<b>2,631.28</b>
<b>Financial liabilities</b>				
Trade payables	157.19	157.19	118.97	118.97
Other financial liabilities	682.42	682.42	555.00	555.00
<b>Total financial liabilities</b>	<b>839.61</b>	<b>839.61</b>	<b>673.97</b>	<b>673.97</b>

The carrying amounts of trade receivables, loans, cash and cash equivalents, other bank balances, other financial assets, security deposits, trade payables and other financial liabilities are considered to be the same as their fair values, due to their short-term nature.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

39 Financial risk management

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (i.e. foreign currency risk, interest rate risk and price risk).

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk:

Risk	Exposure arising from	Management
Credit risk	Cash and cash equivalents, trade receivables and other financial assets measured at amortised cost.	Diversification of bank deposits and investments. Entering into transactions with customers of repute / customers having sound financial position.
Liquidity risk	Financial liabilities that are settled by delivering cash or another financial asset.	* Projecting cash flows on regular basis and also considering the level of investment and liquid assets to meet the liabilities.
Market risk – foreign exchange	Future commercial transactions and recognised financial assets & liabilities not denominated in Indian rupee (Rs.)	Integral foreign operation and incorporation of the same made in books on monthly basis
Market risk – security price risk	Investments in mutual funds	Portfolio diversification

(A) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) including deposits with banks and investments, foreign exchange transactions and other financial instruments.

i) Trade receivables

Customer credit risk is managed by the management subject to the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing. Outstanding customer receivables are regularly monitored.

At each reporting date the Company measures loss allowance for certain class of financial assets based on historical trend industry practice and the business environment in which the Company operates.

The Company's maximum exposure to credit risk for the components of the balance sheet at 31 March 2025 and 31 March 2024 is the carrying amounts of trade receivables.

Provision for expected credit loss

In determination of the allowance for credit losses on receivables, the Company has used a practical experience by computing the expected credit losses based on ageing matrix, which has taken into account historical credit loss experience and adjusted for forward looking information.

ii) Financial instruments and cash deposits

**RS SOFTWARE INDIA LIMITED**  
**NOTES ON ACCOUNTS FOR THE YEAR ENDED MARCH 31,2026**

Credit risk from balances with banks and investments is managed by the Company in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

**(B) Liquidity risk**

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows.

**(i) Maturities of financial liabilities**

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities:

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

Dear Shareholder,

We invite your attention to the following points and request you to take necessary action(s) as applicable to you.

In terms of Circular No. CIR/MRD/DP/10/2013 dated 21st March 2013 issued by SEBI, henceforth payment of dividend will be made through ECS/NECS/NEFT etc. only.

- 1) Accordingly, you are requested to send your correct bank account details (including MICR No., IFSC Code, Account Type etc.) to your Depository Participant before if you are holding shares in demat form.
- 2) If you are holding shares in physical form, Company will mandatorily print the bank account details of the shareholders on physical dividend warrant. In cases where either the bank details such as MICR/IFSC etc. that are required for making electronic payment are not available or the electronic payment instructions have failed or have been rejected by the bank dividend warrant will be sent after printing the correct bank account details on it only. Accordingly, you are requested to send before (as per the format given below) your complete bank details along with a cancelled cheque to **MUFG INTIME INDIA PRIVATE LIMITED (Formerly C. B. Management Services (P) Limited), 20 R N MUKHERJEE ROAD RASOI COURT, 5<sup>TH</sup> FLOOR KOLKATA 700001.**
- 3) to enable us to credit the dividend amount directly to your Bank account.
