Company Secretary and Compliance Officer**

India Pesticides Receives Regulatory Approvals for Insecticide and Herbicide Products in International Markets

Lucknow, India, September 18, 2026: India Pesticides Limited (BSE: 543311; NSE: IPL), one of the fast growing agro-chemical companies for technical manufacturing, is pleased to announce that it has received Technical Equivalence approval for one of its insecticide products in the United Kingdom and registration for one of its herbicide products in Argentina.

These approvals mark an important step in the Company's international growth strategy and expand its access to two key overseas markets. They also reflect the Company's manufacturing capabilities, product quality and ability to meet international regulatory requirements.

With access to these markets, the Company expects to broaden its export portfolio and build relationships with new international customers. India Pesticides will continue to pursue product registrations across regulated markets as part of its long-term strategy to increase the contribution from its international business.

Commenting on the performance, Mr. Dheeraj Kumar Jain, Chief Executive Officer said:

"These approvals are aligned with our strategy of increasing the contribution from international markets and building a diversified export portfolio. Access to the United Kingdom and Argentina will enable us to engage with new customers and commercialise our products across additional geographies. We will continue to invest in regulatory registrations and product development to scale our global business and create long-term value for our stakeholders."

About India Pesticides Limited:

Founded in 1984, India Pesticides Limited is an R&D-driven chemical manufacturer engaged in producing agrochemical technicals, active pharmaceutical ingredients, and branded formulations for diverse agricultural applications. The company offers an extensive portfolio of herbicides, fungicides, insecticides, and intermediates, supplying products across more than 25 countries while maintaining compliance with global quality standards. Its manufacturing operations are strategically located at facilities in Lucknow and Hardoi districts of Uttar Pradesh, supported by two in-house research and development centers registered with the Department of Scientific and Industrial Research. With capabilities to design, test, and commercialize complex off-patent molecules in a cost-effective and environmentally responsible manner, India Pesticides Limited has built trusted relationships with domestic and international customers. The company continues to prioritize backward integration, capacity expansion, and product innovation to strengthen its leadership in technical-grade products. Its growth strategy emphasizes reducing import dependencies, leveraging a strong management team, and advancing its manufacturing and operational frameworks to align with India's Aatma Nirbhar Bharat initiative while delivering sustainable value to stakeholders.
