Sub: Press Release- Desco Infratech Limited Successfully Completed Laying of MDPE network and Domestic Connections for ATGL in Faridabad awarded by Adani Total Gas Limited.

Dear Sir/Madam,

Pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we wish to inform that Desco Infratech Limited has successfully completed and commissioned the execution of 100+ Km MDPE network and 6500+ Domestic PNG Connections for ATGL in Faridabad awarded by Adani Total Gas Limited.

In this regard, the Press Release containing brief details of the said Project Completion is enclosed herewith.

Kindly take the afore-mentioned submission on your records.

Thank You!

Yours faithfully,
For DESCO INFRATECH LIMITED

Malhar Desai
Whole-time Director

PRESS RELEASE

Desco Infratech Limited Successfully Completes and Commissions 100+ Km MDPE Network and 6,500+ Domestic PNG Connections for Adani Total Gas Limited in Faridabad

Desco Infratech Limited ("Desco" or "the Company"), a leading infrastructure solutions provider in the City Gas Distribution (CGD) sector, is pleased to announce the successful completion and commissioning of the project involving the laying of more than 100 kilometres of Medium Density Polyethylene (MDPE) pipeline network and the installation of over 6,500 Domestic Piped Natural Gas (PNG) connections in Faridabad, Haryana.

The project was executed pursuant to a contract awarded by Adani Total Gas Limited (ATGL) and has been completed in accordance with the prescribed technical specifications, quality standards, and project timelines.

The successful completion of this prestigious project represents another significant milestone in Desco's journey of supporting the expansion of India's natural gas distribution infrastructure and the Government of India's vision of increasing the share of natural gas in the country's energy basket.

A Milestone Achieved Amid a Dynamic Global Energy Landscape

The completion of this project assumes greater significance against the backdrop of continued geopolitical developments across the Middle East (West Asia) and their consequential impact on global energy markets, logistics, and supply chains. Such developments have reinforced the strategic importance of resilient and reliable gas infrastructure worldwide.

Despite this evolving global environment, Desco successfully executed and commissioned the project while maintaining its commitment to safety, engineering excellence, quality assurance, and timely delivery.

The Company's ability to execute critical infrastructure projects under challenging market conditions reflects its operational resilience, disciplined project management practices, and strong execution capabilities.

Commenting on the achievement, **Mr. Malhar Desai, Whole Time Director** of Desco Infratech Limited, said:

"The successful completion and commissioning of this prestigious project for Adani Total Gas Limited is another significant milestone in Desco Infratech Limited's growth journey. Executing more than 100 kilometres of MDPE pipeline network together with over 6,500 domestic PNG installations demonstrates our technical competence, disciplined execution capabilities, and unwavering commitment to quality and safety."

This achievement becomes even more meaningful in the context of the evolving geopolitical landscape and heightened volatility in global energy markets. As nations increasingly focus on strengthening energy security and building resilient gas infrastructure, we remain committed to delivering world-class engineering solutions that support India's clean energy transition.

We sincerely thank Adani Total Gas Limited for their continued trust and confidence in our capabilities. We look forward to further strengthening this valued relationship while continuing to create sustainable value for all our stakeholders."

The project execution was led under the close monitoring of **Mr. Amulya Kumar Jena, Executive Director**, whose technical leadership and on-ground project management played a vital role in ensuring smooth execution and successful commissioning of the project.

Strengthening India's Clean Energy Infrastructure

India's City Gas Distribution sector continues to witness robust expansion, driven by supportive government policies, increasing urbanization, rising demand for cleaner fuels, and sustained investments in energy infrastructure.

As the CGD network expands across the country, the demand for experienced engineering and execution partners capable of delivering complex infrastructure projects safely and efficiently is expected to remain strong.

Desco Infratech Limited has consistently demonstrated its capability to execute technically demanding projects across multiple geographical locations while maintaining high standards of operational excellence. The successful commissioning of the Faridabad project further enhances the Company's execution credentials and reinforces its positioning for future opportunities within India's rapidly growing gas distribution ecosystem.

Creating Long-Term Value

The Company believes that successful execution of marquee projects for reputed clients such as Adani Total Gas Limited strengthens its credibility, expands its execution portfolio, and enhances its ability to secure similar high-value infrastructure assignments in the future.

With an experienced workforce, robust engineering capabilities, strong project management systems, and an uncompromising focus on safety and quality, Desco remains committed to supporting India's infrastructure development while creating sustainable long-term value for its shareholders, customers, employees, and all other stakeholders.

About Desco Infratech Limited

Desco Infratech Limited is a leading engineering and infrastructure company engaged in providing end-to-end solutions for the City Gas Distribution sector. The Company specializes in steel and MDPE pipeline laying, domestic, commercial and industrial PNG installations, pipeline testing and commissioning, operation & maintenance services, and other allied engineering activities.

With an established track record of successful project execution across multiple states, Desco continues to partner with some of India's leading CGD companies in building reliable, safe and sustainable gas distribution infrastructure.
