The risks and uncertainties described below are not the only risks that we currently face. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business, financial condition, results of operations, and cash flows. If any or some combination of the following risks, or other risks that are not currently known or believed to be adverse, actually occur, our business, financial condition, and results of operations could suffer, the trading price and the value of your investment in, our Equity Shares could decline, and you may lose all or part of your investment. In making an investment decision with respect to this Issue, you must rely on your own examination of our Company and the terms of this Issue, including the merits and risks involved. However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors. You should consult your tax, financial and legal advisors about the particular consequences to you of an investment in this Issue.

Materiality:

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

- *Some events may not be material individually but may be found material collectively;*
- *Some events may have material impact qualitatively instead of quantitatively; and*
- *Some events may not be material at present but may have a material impact in future.*

The financial and other related implications of risks concerned, wherever quantifiable have been disclosed in the risk factors mentioned below. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk over another.

This Letter of Offer also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from such forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Letter of Offer. Any potential investor in, and purchaser of, the Equity Shares should pay particular attention to the fact that our Company is an Indian company and is subject to a legal and regulatory environment which, in some respects, may be different from that which prevails in other countries.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context otherwise requires, in this section, reference to “we”, “us”, “our” refers to our Company.

INTERNAL RISK FACTORS, RISK MATERIAL TO THE COMPANY AND ITS BUSINESS:

1. ***There are certain outstanding legal proceedings involving our Company. Any adverse decision in such proceedings may expose us to liabilities or penalties and may adversely affect our business, financial condition, results of operations and cash flows.***

As of the date of this Letter of Offer, our Company is involved in certain legal proceedings, including criminal cases, tax disputes, and a material insolvency application pending before the NCLT. While the Company is contesting these matters at various forums, any adverse outcome in these proceedings may result in significant monetary liabilities. Specifically, our contingent liabilities, which primarily relate to disputed VAT and CST matters, could lead to substantial cash outflows that may not be fully covered by existing financial provisions.

The materialization of these liabilities or the freezing of bank accounts due to tax demands would directly impact our liquidity and working capital cycles. This strain on financial resources could hinder our ability to procure raw materials, meet day-to-day manufacturing expenses, and fulfill the “Objects of the Issue” as described in this Letter of Offer. Furthermore, the pendency of the Section 9 application under the Insolvency and Bankruptcy Code, 2016, creates a risk of disruption to management control and operational stability if the petition is admitted by the tribunal.

Beyond direct financial costs, these litigations result in a significant diversion of management's time and resources from core business operations toward legal defence and compliance. Unfavorable decisions or even the prolonged nature of such disputes may damage the Company's reputation and creditworthiness, potentially leading to higher borrowing costs or difficulties in maintaining relationships with key customers and suppliers. Consequently, these factors combined could have a material adverse effect on our business, financial condition, and results of operations.

The summary of pending litigation in relation to criminal proceedings, tax proceedings, and actions by regulatory or statutory authorities and material civil litigation involving our Company, as on the date of this Letter of Offer, has been set out below in accordance with the materiality policy set out in the section "Legal Proceedings" on page 23.

If any new developments arise, such as a change in Indian law or rulings against us by appellate courts or tribunals, we may need to make provisions in our financial statements, which would increase our expenses and current liabilities. Further, such legal proceedings could divert our management's time and attention and cause us to incur expenses. Any adverse decision in any of these proceedings may have an adverse effect on our business, results of operations and financial condition.

2. ***Any disturbance in or shutdown of our Manufacturing Facility may have a material adverse effect on our entire manufacturing operations and consequently, our business, financial condition and our results of operations.***

We have facilities only in GIDC Ubkhal, Kukarwada, Mehsana, Gujarat, through which we carry out our manufacturing operations, which exposes us to a significant concentration risk. Our manufacturing operations are based out of our manufacturing facility located at Ubkhal, Kukarwada of Gujarat State that are spread in an area of 12713 Sq. Mt. The Plant hold the capacity to manufacture all grades of stainless-Steel Products – from 200 series to the 400 series and has a production capacity of 30000 MT / Annum. The company has all essential equipment's that are required for smooth executed on of steel manufacturing process. The company possesses all major equipment required such as scrap melting, rolling, straightening, Peeling, Pickling, Wire Drawing, Process controlling and testing, Inspection & packing etc. From iron-ore & stainless scrap to manufacturing diverse structural products in Stainless Steel and Mild Steel, SML has come a long way. The group has achieved for itself a pre-eminent position in the value-added product segment of the Indian steel industry. SML started with trading of metals and later went on to manufacturing mild steel products like CTD Bars

and TMT Bars in the same year. Over a period, the company has acquired good deal of expertise with steel and hence have diversified their manufacturing activities in stainless steel to a large extent.

Our manufacturing operations and consequently our business is dependent upon our ability to operate our manufacturing facility at enhanced capacity and manage the manufacturing facility, which is subject to operating risks, including those beyond our control, such as the breakdown and failure of equipment or industrial accidents, localised social unrest and natural disasters. In the event there are any disruptions at our manufacturing facility, due to natural or man-made disasters, workforce disruptions, regulatory approval delays, fire, failure of machinery, lack of access to assured supply of electrical power and water at reasonable costs or any significant social, political or economic disturbances, our ability to manufacture our products may be adversely affected. Any disruption or suspension in the production process in this facility can significantly impact our ability to service customer needs and relation with our customers and have a material adverse effect on our business, revenues, reputation, results of operation and financial condition.

Any contravention of or non-compliance with the terms of various regulatory approvals applicable to the manufacturing facility may also require us to cease or limit production until such non-compliance is remedied to the satisfaction of relevant regulatory authorities. We cannot assure you that we will not experience work disruptions in the future resulting from any dispute with our employees or other problems associated with our employees and the labour involved in our manufacturing facility, which may hinder our regular operating activities and lead to disruptions in our operations, which could adversely affect our business, prospects, financial condition, cash flows and results of operations.

3. *We have experienced negative cash flows in the past and may continue to incur negative cash flows in the future.*

Our Company has experienced negative net cash flow in operating and financing activities in the past, the details of which are set out below:

	(₹ in Lakhs)		
Particulars	March 2025	March 2024	March 2023
Net Cash Flows from Operating Activities	(4,634.06)	(3,240.15)	(33.60)
Net Cash Flows from Investing Activities	(987.25)	(33.29)	(663.08)
Net Cash Flows from Financing Activities	5,604.63	441.22	3,527.55
Net Increase/(Decrease) in cash and cash equivalents Balance	(16.68)	(2,832.22)	2,830.86

Negative cash flows may adversely affect our liquidity position and our ability to fund working capital requirements, capital expenditure, and other business needs. There can be no assurance that we will generate positive cash flows in the future. Any continued or future negative cash flows could materially and adversely affect our business, prospects, results of operations, cash flows, and financial condition.

4. *We operate in a highly fragmented and competitive industry, and increased competition or concentration of customers and suppliers may lead to a reduction in our revenues, profit margins, or market share.*

Our industry is highly fragmented and competitive, comprising a large number of organized and unorganized players. Increased competition from existing or new competitors may exert pricing pressure, reduce our market share, or adversely impact our revenues and profitability.

A significant portion of our revenues is derived from a limited number of customers. Our top ten customers collectively contributed more than 50% of our revenues during the last two fiscal years. While the identity and contribution of our major customers may vary from period to period based on demand patterns, any loss of business from one or more significant customers, or their failure to fulfil contractual or payment obligations, could adversely affect our business, financial condition, and results of operations. Although we actively seek to add new customers to mitigate concentration risk and believe that we maintain strong and long-term relationships with our customers, there can be no assurance that such relationships will continue or that we will generate similar levels of business from these customers in the future.

Our operations are also dependent on a limited number of suppliers. The top ten suppliers of our Company accounted for approximately more than 50% of our total purchases during last 3 Financial years. Any disruption, delay, deterioration in quality, or loss of supplies from one or more of these suppliers may adversely affect our procurement of raw materials, production schedules, and ultimately our revenues and results of operations. While we regularly evaluate and engage new suppliers to improve quality and pricing, and believe that we will not face material difficulty in maintaining supplier

relationships or identifying alternative suppliers, there can be no assurance that we will be able to do so on a timely or commercially acceptable basis.

Our ability to compete successfully also depends on our capacity to anticipate, understand, and respond to changing customer preferences and evolving industry trends. Additionally, competitors may develop business or operational models that are similar or superior to ours. Any failure to compete effectively, retain existing customers, or attract new customers could materially and adversely affect our business, financial condition, results of operations, cash flows, and future prospects.

5. *In the past, there have been instances of delayed or erroneous filing of certain forms which were required to be filed as per the reporting requirements under the Companies Act, 1956 and Companies Act, 2013 to RoC by our Company.*

In the recent past, there have been instances of delayed filing of statutory form as per the reporting requirements under the Companies Act, 2013 with the RoC, which have been subsequently filed by payment of additional fees by our Company. Specifically, during the Financial Years 2024-25 and 2025-26, there were delays in the filing of Form DIR-12 (Appointment/Resignation of Directors/KMP) and Form SH-7 (Alteration of Authorised Share Capital). As of the date of this Letter of Offer, all identified delayed forms have been filed by payment of the prescribed additional fees as per the requirements of the Companies Act, 2013. The Company confirms that none of the aforementioned delayed filings currently require further regularization through compounding or adjudication proceedings, as the defaults were procedural in nature and have been rectified by the payment of additional fees under Section 403 of the Act.

To ensure timely and accurate statutory filings going forward, the company has implemented the following steps:

Strengthening Compliance Calendar – We have updated our internal compliance calendar with stricter tracking mechanisms and multiple checkpoints for each statutory requirement.

This is aimed at reinforcing our governance framework and ensuring full compliance with applicable regulatory requirements.

6. *Our Company has in the past entered certain related party transactions and may continue to do so in future. Any related party transactions that are not on an arm's length basis or that may lead to conflicts of interest may adversely affect our business, results of operation, cash flows and financial condition.*

Our Company has entered into certain related party transactions in the past and may continue to do so in the future. We confirm that all such related party transactions have been conducted in the ordinary course of business, are on an arm's length basis, and are in strict compliance with the applicable provisions of the Companies Act, 2013, the SEBI (LODR) Regulations, 2015, and other relevant statutory requirements. While we ensure adherence to our internal Related Party Transaction Policy and obtain necessary approvals from the Audit Committee and the Board, any potential conflicts of interest or transactions on terms less favourable than those available from third parties could adversely affect our business, financial condition, and results of operations.

While related party transactions provide operational synergies, they may give rise to potential conflicts of interest. We confirm that all related party transactions undertaken by the Company to date are in compliance with applicable laws and corporate governance norms. However, we cannot assure you that had similar transactions been entered into with unrelated third parties, the terms would not have been more favourable to the Company. Although we strictly adhere to disclosure requirements and statutory approvals, there remains a risk that such dealings may not always align with the interests of our minority shareholders, which could adversely affect our business, financial condition, or cash flows.

7. *Our Company doesn't own the premises where its registered office is situated and leave & license agreement have been executed for the same. Any termination or dispute in relation to this lease/ rental agreement may have an adverse effect on our business operations and results thereof.*

Currently, the property of our registered and corporate office is not owned directly by the Company. Additionally, the premises are occupied under a leave and license agreement, and any termination, non-renewal, or dispute arising from this agreement could disrupt our business continuity.

Our registered office, located at Plot No. 2/3 GIDC Ubkhal, Kukarwada, Tal. Vijapur, Dist. Mehsana, Kukarwada, Gujarat, India, 382830, is not owned by the Company but is occupied under a lease agreement.

There is uncertainty regarding the renewal of the lease after its expiry. In the event we are unable to renew the agreement on favorable terms, or at all, or if we are required to vacate the premises due to breach of agreement or for any other reason beyond our control, we may face operational disruption. Finding a suitable alternative location on short notice could be challenging and may adversely impact our ability to conduct day-to-day operations, maintain continuity in administrative functions, and service clients effectively.

Such a scenario could lead to temporary dislocation, loss of productivity, and increased costs, which may have a material adverse effect on our business operations, financial condition, and overall corporate functioning.

8. ***Any infringement of our registered corporate logo failure to protect it may adversely affect our business. Further, any kind of negative publicity or misuse of our brand name and our logo could hamper our brand building efforts and our future growth strategy could be adversely affected.***

Our business reputation and brand under which we sell our products, are critical to the success of our business. While we have been making consistent efforts to strengthen our brand, various factors, some of which are beyond our control, are critical for maintaining and enhancing our brand, and if not managed properly, may negatively affect our brand and reputation. These include our ability to effectively manage the quality of our products; increase brand awareness among existing and potential customers, dealers and distributors; adapt our advertising and promotion efforts to emerging industry standards; and protect the intellectual property related to our brand. Further, there can be no assurance that our advertising or marketing efforts will be successful in maintaining our brand and its perception with dealers and/ or result in increased sales in the future. Our inability to adapt to evolving marketing trends at the same pace as our competitors may adversely affect our ability to effectively compete in terms of our brand equity. In addition, our reputation and brands could also be affected by socially motivated groups, which could lead to a decline in our sales volume.

9. ***Our business strategies and expansion plans may be subject to various unfamiliar risks and may not be successful.***

We operate in a highly competitive industry, dominated by a large number of organized and unorganized players. Increased competition from other organized and unorganized manufacturers may lead to a reduction in our revenues, reduced profit margins or a loss of market share.

Our success depends on our ability to anticipate, understand and address the preferences of our existing and prospective clients as well as to understand evolving industry trends and our failure to adequately do so could adversely affect our business.

Other factors that could affect our ability to maintain our levels of revenues and profitability include the development of an operational model similar or superior to ours by a competitor. Our inability to compete effectively could affect our ability to retain our existing clients or attract new clients which may in turn materially and adversely affect our business, financial condition, results of operations, cash flows and prospects.

10. ***We have not entered into any agreement in respect of long term supply for raw materials required by us and as such we are susceptible to fluctuations in the cost of raw materials.***

We are dependent on our suppliers for uninterrupted supply of raw-materials. We procure our supply of raw materials from various domestic and overseas suppliers depending upon the price and quality of raw materials. While we are not dependent on any one particular supplier for supply of raw materials, any disruption of such supply of raw materials from our suppliers will adversely affect our operations and ability to deliver our products on a timely basis. Further, our profitability is partly dependent on our ability to anticipate and adapt to changes in the cost of raw materials. The prices of these raw materials are subject to fluctuation due to various factors beyond our control, including but not limited to severe climatic conditions, governmental regulations, which may reduce supply and lead to increase in supply costs. In the event that we are unable to anticipate and adapt to changing supply costs by adjusting our purchasing practices or we are unable to negotiate favourable pricing terms with our suppliers for such raw materials, then our business, profitability and financial performance may be materially and adversely affected. Further, any disruption in the adequate and timely supply of raw materials or unavailability of raw materials may adversely affect our business and results of operations.

11. ***Our Company's manufacturing activities are dependent on availability of skilled and unskilled labourers. In case of unavailability of such labourers and/ or inability to retain such personnel, our business operations could be affected***

Our Company operations and performance are depending on our ability to identify, attract and retain both skilled and unskilled labour. Owing to our manufacturing operations, our Company may have to appoint additional employees for the smooth functioning of the manufacturing unit. In case such labour is unavailable or we are unable to identify and retain such labourers, our business could be adversely affected

12. *We operate in a highly fragmented and competitive industry and increased competition may lead to a reduction in our revenues, reduced profit margins or a loss of market share.*

Our Top 10 Customers have contributed more than 50% of our revenues during the past 2 years. However, our top customers may vary from period to period depending on the demand and thus the composition and revenue generated from these customers might change as we continue to add new customers in normal course of business. We have practice of adding new customer so that any risk of losing existing customer get setoff. In the event any of our significant customers fail to fulfil their respective obligations, our business, financial condition and results of operations would be adversely affected. While we believe we have maintained good and long-term relationships with our customers, there can be no assurance that we will continue to have such long-term relationship with them. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability

Our Company is largely dependent on certain suppliers, as the top ten suppliers of our Company constitute more than 50% of the total purchases for the Fiscal 2025, Fiscal 2024 and Fiscal 2023. We cannot assure that we will be able to procure the same quantum and quality of supplies, or any supplies at all, and the loss of supplies from one or more of them may adversely affect our purchases of stock and ultimately our revenue and results of operations. However, the composition and amount of purchase from these suppliers might change as we continue seek new suppliers for our product for better quality and price in the normal course of business. Though we believe that we will not face substantial challenges in maintaining our business relationship with them or finding new suppliers, there can be no assurance that we will be able to maintain long term relationships with such suppliers or find new suppliers in time.

We operate in a highly competitive industry, dominated by a large number of organized and unorganized players. Increased competition from other organized and unorganized manufacturers may lead to a reduction in our revenues, reduced profit margins or a loss of market share.

Our success depends on our ability to anticipate, understand and address the preferences of our existing and prospective clients as well as to understand evolving industry trends and our failure to adequately do so could adversely affect our business.

Other factors that could affect our ability to maintain our levels of revenues and profitability include the development of an operational model similar or superior to ours by a competitor. Our inability to compete effectively could affect our ability to retain our existing clients or attract new clients which may in turn materially and adversely affect our business, financial condition, results of operations, cash flows and prospects.

13. *Our business is dependent on the sale of our products in key markets, particularly India, in the region of Asia, Africa, Europe, South America and Central America.*

The details of revenue from operations for the Financial Year ending March 31, 2025, March 31, 2024, March 31, 2023, March,31,2022, March 31, 2021 are as under:

Particulars	(₹in Lakhs)				
	March 31, 2025	March 31, 2024	March 31, 2023	March 31,2022	March 31, 2021
Export	---	---	---	169.92	390.08
Domestic	17078.48	9187.22	3987.63	1830.41	860.19
Total	17078.48	9187.22	3987.63	2000.33	1250.27

Our revenues from the International market declined in past years and the export revenue goes down to zero from the financial year ended march 31, 2023. Whereas the Domestic Revenue increasing significantly in past years. As we are dependent on these markets for our sales, any disruptions in such markets may materially affect our business, cash flows and results of operations. Our revenues from these markets may decline as a result of increased competition, regulatory action, pricing pressures including as a result of anti-dumping measures, fluctuations in the demand for or supply of the products of our customers, or the outbreak of an infectious disease such as COVID-19. Furthermore, our international

operations are subject to risks that are specific to each country and region in which we operate, as well as risks associated with international operations, including complying with changes in foreign laws, regulations and policies, restrictions on trade, import and export license requirements, and tariffs and taxes, intellectual property enforcement issues and changes in foreign trade and investment policies. In the event we are unable to effectively address or comply with changes in foreign laws, or meet the conditions stipulated in our licenses, we may be subject to penalties and other regulatory actions, which could adversely affect our reputation, business, prospects, result of operations and financial condition.

14. *Materialisation of contingent liabilities could adversely affect our financial condition, results of operations and cash flows.*

As at March 31, 2025, we had contingent liabilities as per Ind AS 37 on “Provisions, Contingent Liabilities and *Contingent Assets*” amounting to ₹ 16403.39 Lakhs, the details of which are set forth in the table below on a consolidated basis:

(₹in Lakhs)

Claims against the company not acknowledged as debt in respect of :-	As of March 31, 2025	As of March 31, 2024	As of March 31, 2023
Disputed Income Tax matters	203.82	203.82	203.82
Disputed VAT and CST matters	16199.57	16199.57	16199.57
Total	16403.39	16403.39	16403.39

If our contingent liabilities become actual liabilities and if a significant portion of these liabilities materialize, it could have an adverse effect on our business, financial condition and results of operations.

15. *We are dependent on our Promoters, a number of Key Managerial Personnel and Senior Management and our inability to attract or retain such persons or finding equally skilled personnel could adversely affect our business, results of operations, cash flows and financial condition.*

We are highly dependent on our Promoters, a number of Senior Management and Key Managerial Personnel for formulating our business strategies and managing our business. For further information, see “Our Management” on page 69. Our ability to meet continued success and future business challenges depends on our ability to attract, recruit and retain experienced, talented and skilled professionals. To attract and retain top talent, we have had to offer, and we believe we will need to continue to offer, competitive compensation and benefits packages. If any of our Key Managerial Personnel and Senior Management cease to be associated with our Company and we fail to recruit suitable replacements in a timely manner, our ability to manage our growth and our business, results of operations and prospects may be adversely affected.

16. *Accidents at our facilities may lead to public liability consequences.*

Though we take all possible steps to ensure adoption and compliance with high standards of safety and fire control at our facilities, we cannot assure you that these mechanisms will be adequate to contain safety risks that may arise in the future. Though we maintain public liability insurance cover for our facilities, in the event of an accident, we may be exposed to civil, tort and criminal liabilities.

17. *Our Company has not taken any insurance coverage which may protect us against certain operating hazards and from all losses and this may have an adverse impact on the financial conditions of the business.*

Our Company has not procured any insurance coverage over the plant and machinery, office premises and factory premises. We may not be able to protect ourselves from any damage or loss suffered by us. To the extent that we suffer any loss or damage, the operational results of the company could be adversely affected. Such lack of insurance coverage could have a material adverse effect on our business, financial condition, results of operations and prospects.

18. *Our inability to procure and/or maintain adequate insurance cover in connection with our business may adversely affect our operations and profitability.*

Our operations are subject to inherent risks and hazards which may adversely impact our profitability, such as natural disasters Presently, we have obtained certain insurance policies such as policies to insure stock, building, furniture, fittings, from earthquake, fire, shock, terrorism, etc. There are many events that could cause significant damages to our operations, or expose us to third-party liabilities, whether or not known to us, for which we may not be insured or adequately insured, which in turn may expose us to certain risks and liabilities. There can be no assurance that our

insurance policies will be adequate to cover the losses in respect of which the insurance had been availed. Further, there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part, or on time. If we were to incur a significant liability for which we were not fully insured, it could adversely affect our results of operations and financial position.

19. *The demand and pricing in the steel industry is volatile and are sensitive to the cyclical nature of the industries it serves. A decrease in steel prices may have a material adverse effect on our business, results of operations, prospects and financial condition.*

Steel prices fluctuate based on a number of factors, such as, the availability and cost of raw material inputs, fluctuations in domestic and international demand and supply of steel and steel products, international production and capacity, fluctuation in the volume of steel imports, transportation costs, protective trade measures and various social and political factors, in the economies in which the steel producers sell their products and are sensitive to the trends of particular industries, such as, the construction and machinery industries. When downturns occur in these economies or sectors, we may experience decreased demand for our products, which may lead to a decrease in steel and steel product prices, which may, in turn, have a material adverse effect on our business, results of operations, financial condition and prospects. Low steel prices adversely affect the businesses and results of operations of steel product producers generally, including ours, resulting in lower revenue and margins and write-downs of products and raw material inventories. In addition, the volatility, length and nature of business cycles affecting the steel and steel products industry have become increasingly unpredictable, and the recurrence of another major downturn in the industry may have a material adverse impact on our business, results of operations, financial condition and prospects. In addition, substantial decreases in steel and steel product prices during periods of economic weakness have not always been balanced by commensurate price increases during periods of economic strength. Any sustained price recovery will require a broad economic recovery, in order to underpin an increase in real demand for steel and steel products by end users.

20. *Misconduct or errors by manpower engaged by us could expose us to business risks or losses that could adversely affect our business prospects, results of operations and financial condition.*

Our manufacturing operations are subject to various risks associated with the inherently hazardous production of steel. Our workers are required to work under hazardous circumstances, and environment as a significant portion of our business involves melting of iron ores in the rotary kilns. Hazards associated with our steel-making operations include accidents involving moving machinery, on-site transport, forklifts and overhead cranes; explosions, and resulting fires, fires in control rooms, electrical switch rooms, cable tunnels and vaults, transformers and lubricating oil rooms; fires caused by contact of molten metal in induction furnaces; spills and spattering of molten materials; extreme temperatures, vibration and noise; and exposure to, through inhalation or contact with, hazardous chemicals including ammonia, asbestos, carbon monoxide and various dusts such as coal dust and silica. These hazards may cause severe damage to and destruction of property and equipment, environmental damage and personal injury or even fatalities among our personnel. Any of these may result in temporary or lengthy interruptions of operations, damage to our business reputation and corporate image and the imposition of civil and criminal liabilities, the outcome of which is difficult to assess or quantify, and the cost to defend such litigation could be significant.

Our employees, members of the public or government authorities may bring claims against us arising out of these hazardous production processes. In the event that it is determined by the appropriate authorities that provisions and measures for safety within our premises are inadequate, the licenses granted to us for operations at such premises may be revoked, thereby adversely affecting our business and results of operations. We cannot assure you that we shall not be subject to legal proceedings or liabilities pursuant to any accident occur, in the future. Such events may also adversely affect public perception of our business and the perception of our suppliers, customers and employees, leading to an adverse effect on our business. Interruptions in production may also increase our costs and reduce our sales, and may require us to make substantial capital expenditures to remedy the situation or to defend litigation that we may become involved in as a result, which may negatively affect our profitability, business, reputation, financial condition, results of operations, cash flows and prospects. The risks associated with the deployment of manpower engaged by us across locations include, among others, possible claims relating to; actions or inactions, including matters for which we may have to indemnify our clients; our failure to adequately verify personnel backgrounds and qualifications resulting in deficient services; failure of manpower engaged by us to adequately perform their duties; errors or malicious acts or violation of health and safety regulations; or criminal acts.

These claims may give rise to litigation and claims for damages, which could be time-consuming. These claims may also result in negative publicity and adversely impact our reputation and brand name. Further, we may be forced to indemnify our clients against losses or damages suffered by our clients as a result of negligent acts of manpower engaged by us. We

may also be affected in our operations by the acts of third parties, including sub-contractors and service providers. Any claims and proceedings for alleged negligence as well as regulatory actions may in turn materially and adversely affect our reputation, and consequently, our business, financial condition, results of operations and prospects.

21. *We appoint contract labour for carrying out certain of our operations and we may be held responsible for paying the wages to such workers, if the independent contractors through whom such workers were engaged default on their obligations, and such obligations could have an adverse effect on our results of operations, cash flows and financial condition.*

We engage independent contractors as and when needed, through whom we engage contract labourers to carry out certain functions at our manufacturing facility for the performance of non-core tasks. Although we do not engage such labourers directly, we may be held responsible for any wage and statutory payments to be made to such labourers in the event of default by such independent contractors. Any obligation to fund such wage requirements may have an adverse impact on our results of operations and our financial conditions and may expose us to litigations, sanctions, penalties or losses arising from accidents or damages caused.

As on the date of this Letter of Offer, our Company is not registered under Contract Labour (Regulation and Abolition) Act, 1970. The Company may be liable to incur any liability financial or otherwise, if any, of whatsoever nature for the period of non-registration under the Contract Labour (Regulation and Abolition) Act, 1970. As on date there is no such liability financial or otherwise payable by the Company.

22. *We may be unable to accurately forecast demand for our products and manage our inventory.*

We evaluate our production requirements based on anticipated demand and forecasted customer order activity for our products. Accurate assessments of market demand require significant investment in our sales and marketing network and training of marketing personnel. As of our inventories turnover is 14.37, As of March 31, 2025, our inventories turnover is 7.89 as of March 31, 2024, there is 82.26% Variation recorded as compared to March 31, 2024. While we seek to accurately forecast the demand for our products to plan our production volumes, there is no guarantee that our estimate of market demand for our products in India or our overseas markets will be accurate.

A number of factors may reduce the end-user demand for our products including, among other things, an oversupply on account of increased competition. On the other hand, we may overestimate demand or demand from our customers may slow down. As a result, we may produce in excess of the actual demand, which would result in surplus stock that we may not be able to sell in a timely manner.

23. *Other ventures of our Promoters are engaged in a similar line of business and conflict of interest cannot be ruled out which may have adverse effect on our operations and financial conditions.*

One of our group companies i.e. Gyscoal Enterprise Private Limited, is engaged in the business of trading of iron & steel products a business which may also be undertaken by our Company and there is no assurance that Gyscoal Enterprise Private Limited will not compete with us. This could lead to a potential conflict of interest for us and could adversely affect our results of operations and financial condition. In addition, our Promoters' may dedicate their time and resources to such ventures promoted by them which may distract or dilute management attention from our business and thus could adversely affect our results of operations and financial condition.

Further, we cannot assure you that our Promoters or Directors will not undertake or acquire interests in competing ventures in the locations or segments in which we operate. Although our Company endeavours to adopt necessary procedures and policies to prevent any potential conflicts of interest, we cannot assure you that this will not have an adverse effect on our business, financial condition, results of operations, cash flows and prospects or may potentially involve any conflict of interest.

24. *We require to obtain, maintain and/or renew certain registrations, approvals, licenses and permission in ordinary course of our business, and failure to do so, in a timely manner or at all, we may be unable to fully or partially operate our businesses and our results of operations may be adversely affected.*

We require certain approvals, licenses, registrations and permissions for our operations. While, we believe we will be able to obtain, maintain and renew such approvals or permits as required, there can be no assurance that we can do so in the timeframes anticipated by us, or at all. If we fail to obtain, maintain or renew any of these approvals or permits in a timely manner or at all, our operations and expansion plans may be interrupted, which could adversely affect our growth strategy, business and results of operations. Furthermore, our approvals and permits are subject to numerous

conditions, some of which are onerous and require us to make substantial expenditures. If we fail to comply or a regulator alleges that we have not complied with these conditions, our business and results of operations could be adversely affected.

25. *Our Company has availed unsecured loan from our Promoter, Group Company which is repayable on demand. Any demand from the lender for repayment of such unsecured loan may affect our cash flow and financial condition.*

As on December 2025, our Company has availed unsecured loan from promoter, Group Company and others. The outstanding unsecured loans of ₹1537.15 Lakhs which are repayable on demand. Sudden recall may disrupt our operations and also may compel us to seek for funding at higher interest rates, resulting in higher financial burden. Further, we may not be able to raise funds at a short notice which may result in shortage of working capital fund. For further details, please see to the section “Unsecured Loans” under “Financial Statements”. Any demand for the repayment of such unsecured loan, may adversely affect our cash flow and financial condition.

26. *We may be unable to effectively manage our future growth and expansion strategy.*

Our expansion plans and business growth could strain our managerial, operational and financial resources (including future cash flows). Our ability to manage future growth will depend on our ability to continue to implement and improve operational, financial and management information systems on a timely basis and to expand, train, motivate and manage our workforce. While in the past our personnel, systems, procedures and controls were adequate to support our growth, this may not be the case in the future. Failure to effectively manage our expansion may lead to increased costs and reduced profitability and may adversely affect our growth prospects. There can be no assurance that we will be able to achieve our business strategy relating to organic and inorganic expansion.

27. *Our industry is labour intensive and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers*

We believe that the industry in which we operate in faces competitive pressures in recruiting and retaining skilled and unskilled labour. Our industry being labour intensive is highly dependent on labour force for carrying out its manufacturing operations. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs. India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

28. *As the Equity Shares of our Company are listed on the Stock Exchange, our Company is subject to certain obligations and reporting requirements under the SEBI (LODR) Regulations 2015 and comply with other SEBI Regulations. Any non-compliance/delay in complying with such obligations and reporting requirements may render us liable to prosecution and/or penalties.*

The Equity Shares of our Company are listed on Stock Exchanges, therefore we are subject to the obligations and reporting requirements prescribed under the SEBI (LODR) Regulations, 2015 to the extent applicable, and have to adhere to and comply with other applicable Regulations framed by SEBI. Our Company endeavors to comply with all such obligations and reporting requirements, any non-compliance which might have been committed by us, may result into Stock Exchange and/or SEBI imposing penalties, issuing warnings and show cause notices against us and/or taking actions as provided under the SEBI Act and the rules and regulations made there under and applicable SEBI Circulars. Any such adverse regulatory action or development could affect our business reputation, divert management attention, and result in a material adverse effect on our business prospects and financial performance and on the trading price of the Equity Shares.

29. *Any future issuance of Equity Shares, convertible securities, or other equity-linked instruments by our Company may result in a dilution of public shareholding, and any sale of Equity Shares by our Promoter or members of the Promoter Group may adversely impact the trading price of the Equity Shares.*

The sale of Equity Shares by our Promoter or Promoter Group may also affect the market price of these securities. Furthermore, any market speculation about such issuances or sales could influence the trading price of our Equity Shares. While we cannot guarantee that we will not issue additional Equity Shares, or that our Promoter or Promoter Group will not sell, pledge, or encumber their shares, we will disclose any such actions as required.

30. *Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.*

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. Our business is working capital intensive and we may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements in respect of our operations, financial condition and results of operations.

31. *Our Company and its Subsidiaries are subject to government regulation and if we fail to obtain, maintain or renew our statutory and regulatory licenses, permits and approvals required to operate our business and results of operations may be adversely affected.*

Our Company business is subject to applicable government regulations and legislations and we require certain statutory and regulatory approvals, licenses, registrations and permissions for operating the business. These permits, licenses and approvals may also be tied to numerous conditions and terms, obtaining some of which may be time-consuming and may incur high cost. We cannot assure you that the regulatory approvals, licenses, registrations and permissions issued to us or our Subsidiaries would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Further, there is no assurance in the future that the permits, licenses, registrations and approvals applied for or held by Company and its Subsidiaries will be issued, approved or renewed in a prompt manner, or at all, under applicable laws. Further, applications for approvals, licenses, registrations and permissions for operating the business needs to be made within certain timeframes and are often subject to the discretion of relevant authorities. If we are unable to make applications or renew or obtain necessary permits, licenses and approvals on acceptable terms, in a timely manner, at a reasonable cost, or at all or in the event we fail to comply with the terms and conditions therein, it could materially and adversely affect the financial condition and results of operations of Company and its Subsidiaries, including cancellation, revocation or suspension of relevant permits, licenses, registrations and approvals and the imposition of penalties by relevant authorities.

32. *Demand and pricing in the steel industry are volatile and sensitive to the cyclical nature of the industries it serves. Any decline in steel prices may adversely affect our business, results of operations, prospects, and financial condition.*

The sales prices and volumes of manganese and iron ore are primarily dependent on the prevailing and expected demand from the steel industry. During periods of economic slowdown or reduced regional or global growth, demand for steel products generally declines, which in turn leads to a reduction in demand for manganese and iron ore.

Historically, international prices of manganese and iron ore have been volatile and subject to significant fluctuations due to changes in supply and demand, market uncertainties, global and regional economic conditions, and the cyclical nature of the steel industry, all of which are beyond our control. The steel industry itself is cyclical, and prices of steel products are influenced by various factors, including overall demand, global production capacity and capacity utilization levels, raw material costs, foreign exchange movements, trade barriers, and technological developments in steel-making processes.

Any material decline in demand for steel products or a reduction in steel prices could lead to lower demand for manganese and iron ore and a decrease in their prices, which could materially and adversely affect our revenues, business, financial condition, results of operations, and prospects.

33. *We may experience unanticipated delays and cost overruns in implementing our proposed capacity expansion plans.*

We have made, and intend to continue making, investments to expand the capacity of our manufacturing facilities to aid our growth efforts. For further information, see “*Our Business*” on page 22. Our expansion plans remain subject to the potential problems and uncertainties that construction projects face including cost overruns or delays. There can be no assurance that the proposed capacity additions and expansions will be completed as planned or on schedule, and if they are not completed in a timely manner, or at all, our budgeted costs may be insufficient to meet our proposed capital

expenditure requirements. If our actual capital expenditures significantly exceed our budgets, or even if our budgets were sufficient to cover these projects, we may not be able to achieve the intended economic benefits of these projects, which in turn may materially and adversely affect our financial condition, results of operations and prospects. There can be no assurance that we will be able to complete our expansion plans in accordance with the proposed schedule of implementation and any delay could have an adverse impact on our growth, prospects, cash flows and financial condition.

34. *A significant default by a financial counterparty, a major customer or a risk insurer could adversely affect our performance and financial condition.*

Credit risks and the related risks of default by our financial counterparties arise primarily in the normal course of business in connection with trade receivables due from our customers. Trade receivables amounting to 12615.82 Lakhs, ₹ 5500.43 Lakhs, ₹2532.35 Lakhs as of March 31, 2025, March 31, 2024, March 31, 2023 respectively. A significant default by financial counterparties or major customers could have a material adverse effect on our performance and financial condition. Furthermore, in managing the risks inherent to our operations, we transfer risks to insurers where cost effective and, accordingly, the financial failure of one or more insurers may compel us to incur a financial loss. Any of these events, if significant, may have a material adverse effect on our business, results of operations or financial condition.

35. *Our profit margins may be adversely affected due to increases in labour costs in India.*

We are a labour-intensive business, and our success partly depends on our ability to manage our labour costs. Employee benefits expense represents a significant portion of our cost base and an increase in wages and salaries may adversely impact our profit margins. Government regulation, wage inflation and other macroeconomic factors that are beyond our control may cause salaries and wages of our employees to increase. Apart from salaries and wages, our employee benefits expense includes pension and other post-employment benefit plans that are dependent on government regulation and are difficult to predict. For instance, the Supreme Court of India in a decision delivered in *The Regional Provident Fund Commissioner (II) West Bengal v. Vivekananda Vidya mandir & Ors*, dated February 28, 2019 clarified the components of basic wages which need to be considered by companies while making employee provident fund payments, which resulted in an increase in the employee provident fund payments to be made by companies. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations.

Furthermore, in Fiscal 2021, the Parliament of India approved the Code on Social Security, 2020 (the “**Code on Social Security**”) and received the assent of the President of India on September 28, 2020, which would impact the contributions we make towards provident fund and gratuity. The Code on Social Security proposes to subsume several separate legislations including the Employee’s Compensation Act, 1923, the Employees’ State Insurance Act, 1948, the Employees’ Provident Funds and Miscellaneous Provisions Act, 1952, the Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959, the Maternity Benefit Act, 1961, the Payment of Gratuity Act, 1972, the Cine-Workers Welfare Fund Act, 1981, the Building and Other Construction Workers’ Welfare Cess Act, 1996 and the Unorganised Workers’ Social Security Act, 2008. While the rules for implementation under the Code on Social Security have not been notified, we are yet to determine the impact of all or some such laws on our business and operations. As a result, our future pension and post-employment contributions could be significantly higher than current estimates and if such additional contributions materialise, it could have an adverse effect on our financial performance.

36. *We may not be successful in implementing our business strategies. The success of our business depends substantially on our ability to implement our business strategies effectively.*

Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted customers. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

37. *Our business is subject to regulatory developments affecting manufacturing activities.*

Our business is subject to regulatory developments applicable to manufacturing activities, such as environmental, health and labour laws, regulations and standards in India. The laws, regulations and standards relate to exhaust emissions, including those specifically prescribed for the industry, waste and waste water disposal, soil and groundwater contamination, the use and handling of hazardous materials, waste disposal practices and standards relating to hygiene, ventilation and fire and electrical safety. Environmental laws and regulations in India have become and continue to be more stringent, and the scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted with any certainty. In case of any change in environmental or pollution regulations, we may be required to

invest in, among other things, environmental monitoring, pollution control equipment, and emissions management and other expenditure to comply with environmental standards. Any failure on our part to comply with any existing or future regulations applicable to us may result in legal proceedings, including public interest litigation, being commenced against us, third-party claims or the levy of regulatory fines. Furthermore, any violation of the environmental laws and regulations may result in fines, criminal sanctions, revocation of operating permits, or shutdown of our manufacturing facilities.

38. *Inability to attract, develop or retain skilled or qualified employees could negatively impact our business*

We depend on the capabilities and performance of our executive officers and employees. Competition for skilled metallurgical engineers, furnace operators, and technical employees in the steel and stainless steel industry is highly intense. There can be no assurance that we will be successful in recruiting, training, and retaining the specialized personnel required to safely and efficiently conduct our smelting, melting, and rolling mill operations.

39. *We have referred to the data derived from the industry report commissioned from IBEF (INDIA BRAND EQUITY FOUNDATION).*

We have commissioned the services of an independent third-party research agency, and have relied on the report titled “Indian refractories market assessment” dated February 2023 for certain industry-related data in this Letter of Offer. This report uses certain methodologies for market sizing and forecasting. Our Company, our Promoter, and our Directors are not related to IBEF. The investors should read the industry related disclosure in this Letter of Offer in this context.

The commissioned report also highlights certain industry and market data, which may be subject to assumptions. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions vary widely among different industry sources. Further, such assumptions may change based on various factors. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. While industry sources take due care and caution while preparing their reports, they do not guarantee the accuracy, adequacy or completeness of the data. Accordingly, investors should not place undue reliance on, or base their investment decision solely on this information.

40. *Our funding requirements and the proposed deployment of Net Proceeds have not been appraised and our Company has broad discretion over the use of the Net Proceeds and may use them in ways with which you do not agree and in ways that may not enhance our operating results or the price of our Equity Shares.-*

We intend to utilize the Net Proceeds towards the object as mentioned in the Object Clause chapter provided on pg No 54. Our fund requirements and deployment plans for the Net Proceeds are based on management estimates, our business plan based on current market conditions, which are subject to change in the future, and have not been appraised by any bank or financial institution or any other independent agency. Such internal estimates may differ from the value that would have been determined by third party appraisals, which may require us to reschedule or reallocate our expenditure, subject to applicable laws. Our fund requirements and proposed deployment schedule for the Net Proceeds are based on current general economic and market conditions and business needs, and the actual deployment of funds at each stage will depend on a number of factors, including our financial condition, business and strategy or external circumstances such as financial and market conditions, competitive environment, inflation, employment and disposable income levels, demographic trends, technological changes, changing customer preferences, interest or exchange rate fluctuations and finance charges, increasing regulations or changes in government policies, which may not be in our control. In case of increase in actual expenses or shortfall in requisite funds, additional funds for a particular activity will be met by any means available to us, including internal accruals and additional equity and/or debt arrangements, and may have an adverse impact on our business, results of operations, financial condition and cash flows. Accordingly, investors in the Equity Shares will be relying on the judgment of our management regarding the application of the Net Proceeds.

41. *We may be affected by any adverse application or interpretation of competition law in India.*

The Competition Act, 2002, as amended (the “**Competition Act**”), regulates practices having an appreciable adverse effect on competition in the relevant market in India. The Competition Act also prohibits abuse of a dominant position by any enterprise. The combination regulation (merger control) provisions under the Competition Act require acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset and turnover based thresholds to be mandatorily notified to, and pre-approved by, the Competition Commission of India (the “**CCF**”). Any breach of the provisions of Competition Act, may attract substantial monetary penalties.

Consequently, all agreements entered into by us could be within the purview of the Competition Act. Furthermore, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside of India if such agreement, conduct or combination has an appreciable adverse effect in India. We are not currently party to any outstanding proceedings, nor have we ever received any notice in relation to non-compliance with the Competition Act. Any enforcement proceedings initiated by the CCI in future, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI may affect our business, results of operations and financial condition.

- 42. *There may be certain inadvertent discrepancies in our secretarial filings and/ or corporate records. We cannot assure you that no legal proceedings or regulatory actions will be initiated against us in the future in relation to any such discrepancies.***

While our Company generally complies with statutory requirements, there have been specific instances of delays in disclosures and filings under the SEBI (LODR) Regulations, 2015, and the Companies Act, 2013. Specifically, there was a delay in the submission of the audited financial results for the quarter and year ended March 31, 2023, as required under Regulation 33 of the SEBI (LODR) Regulations. Consequently, our Company paid penalties amounting to ₹ 2,40,000 to BSE Limited and ₹ 1,55,000 to the National Stock Exchange of India Limited (NSE) and on 02.04.2025 SEBI levied penalty of ₹ 2,00,000 under 15A(b) of SEBI Act, 1992 and same has been paid by the Company within due date. Additionally, certain procedural delays occurred in the filing of other periodic disclosures, which were subsequently regularized through the payment of additional/late fees.

As of the date of this Letter of Offer, all past delayed filings and disclosures have been regularized. The Company has cleared all outstanding penalties levied by the Stock Exchanges, SEBI and the Registrar of Companies. We confirm that there are no material secretarial discrepancies currently pending rectification that would have a significant bearing on the operations of the Company.

To prevent the recurrence of such instances, the Company has implemented a robust internal compliance framework. We have adopted specialized secretarial compliance tracker that provides alerts to the management 15 days, 7 days, and 24 hours prior to any regulatory deadline. This ensures that the compliance team has sufficient lead time to prepare and review filings. Further, we have strengthened our secretarial department by appointing additional support staff. Under this mechanism, every regulatory disclosure is subjected to a dual-review process by both the Company Secretary and the Chief Financial Officer before final submission to the exchanges or regulators.

To ensure senior management oversight, a detailed 'Compliance Deviation Report' has been made a mandatory agenda item for every quarterly meeting of the Audit Committee and the Board of Directors. This report tracks all filing timelines and ensures that any potential delay is identified and addressed proactively, thereby mitigating the risk of future non-compliance.

- 43. *We have, in the past, defaulted repayment of certain debt and interest upon such debt facilities which resulted the bank accounts of the Company being declared as non-performing assets for a certain period of time.***

Our Company has, in the past, defaulted in repayment of certain loans availed from banks, which were subsequently assigned to an asset reconstruction company ("ARC") and settled through a one-time settlement. Although, as of the date of this document, we do not have any outstanding borrowings or debt obligations towards any banks or the ARC, there can be no assurance that these historical defaults and settlement arrangements will not adversely affect our ability to obtain financing on favourable terms in the future, our credit profile, our relationships with lenders and other stakeholders, or our reputation in the market. Any difficulty in accessing future credit, or any adverse perception among lenders, suppliers, customers, investors or regulators on account of such past defaults and settlements could materially and adversely affect our business, financial condition and results of operations.

- 44. *We rely on the proper functioning and integrity of our computer and data processing systems and are exposed to risks relating to data breaches.***

Our ability to operate our business depends on the functional and efficient operation of our computer and data processing and telecommunications systems across our manufacturing facilities and customer sites. Computer and data processing systems are susceptible to malfunctions and interruptions (including due to equipment damage, power outages, fire, natural disasters, breakdowns, malicious attacks, computer viruses, and a range of other hardware, software and network problems), and these risks are heightened as we attempt to integrate our IT and information systems pursuant to the Acquisitions. A significant or large-scale malfunction or interruption of our computer or data processing systems could disrupt our operations, for example by causing delays or the cancellation of customer orders, impeding the manufacture

or shipment of products, the processing of transactions and the reporting of financial results, or could damage our reputation. Some of the contracts we have entered into that, inter alia, require us to enter data in the system with strict clauses of confidentiality and preservation of such data. Furthermore, we are also required to protect any personal data in accordance with the General Data Protection Regulation applicable to operations in the European Union. In addition to the foregoing risks, we may also be liable for damages arising out of breach of contract.

We are also subject to privacy and information security regulations with respect to, among other things, the use and disclosure of personal data, and the confidentiality, integrity and availability of such information. If we fail to adequately safeguard confidential personal or other sensitive data or such data is wrongfully used by us (or by third parties) or disclosed to unauthorized persons, this could result in claims for damages and other liabilities, significant fines and other penalties and the loss of customers and reputation, which could in turn have an adverse effect on our business, results of operations, financial condition and prospects.

45. *We may be unable to secure adequate working capital on commercially reasonable terms.*

Our business requires a substantial amount of working capital, primarily to maintain optimum inventory levels of raw materials, components which are work-in-progress and finished goods as well as to offer credit to our customers as is customary in our industry. Such working capital requirements are partially offset by the credit received by us from our suppliers. For Fiscals 2025, 2024, 2023 our Net Working Capital Requirements were ₹ 13,282.15 Lakhs, ₹6,372.71 Lakhs and ₹5,234.42 Lakhs respectively and same is mentioned in the Object Clause.

In the future, we may need to seek funding for our working capital needs through additional borrowings or securities offerings. We cannot assure you that such funding will be obtained in a timely manner, on satisfactory terms, or at all. Moreover, if we raise additional debt, our interest expense will increase and our debt covenants under our existing loans may be impacted. If we raise additional funds through the issuance of equity, existing ownership interest in our Company will be diluted.

Our ability to finance our capital expenditures is also subject to a number of risks, contingencies and other factors, some of which are beyond our control, including borrowing or lending restrictions under applicable laws and the terms of our financial and other arrangements, our own profitability and liquidity and general economic and market conditions. Any inability to obtain sufficient financing, or any significant unanticipated expenses or cost escalations, could result in the delay or abandonment of our business and expansion plans. As a result, if adequate funding is not available to us in a timely manner and on commercially viable terms, it may have an adverse effect on our business, financial condition, cash flows, results of operations and prospects.

46. *Interest of our Promoters, Directors and senior management, other than normal remuneration or benefits or reimbursement of expenses incurred.*

Our Promoters, certain Directors and certain of our senior management are interested to the extent of their shareholding in the Company and related party transactions. For further information, see “*Board of Directors and Senior Management*” and “*Shareholding Pattern of our Company*” on pages 69 and 53.

OBJECT RELATED RISK:

47. *We have not identified any alternate source of financing the ‘Objects of the Issue’. If we fail to mobilize resources as per our plans, our growth plans may be affected.*

We have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue which may delay in the implementation schedule and could adversely affect our growth plans. For further details of object of Issue and schedule of implementation please refer to the chapter titled “Objects of the Issue” on page 54 of this Letter of Offer.

48. *Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised and may be subject to change based on various factors, some of which are beyond our control.*

We intend to use the Net Proceeds for the purposes described in the chapter titled 'Objects of the Issue' on page 54. The funding requirements mentioned as part of the Objects of the Issue have not been independently appraised. The utilization of the funds, as stated in the chapter 'Objects of the Issue', is at the discretion of our Board of Directors. The proposed utilization of the Net Proceeds is based on our current business plan, management estimates, prevailing market conditions,

and other commercial considerations, all of which are subject to change and may not be within the control of our management. Given the competitive nature of our industry, we may need to revise our business plan and/or management estimates from time to time, which could result in changes to our funding requirements. Our internal management estimates may exceed fair market value or the value that could have been determined by third-party appraisals, which may require us to reschedule, reallocate, or modify our utilization plan.

ISSUE RELATED RISK

- 49. *Investors will not have the option of getting the Allotment of Rights Equity Shares in physical form and the Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form (“Physical Shareholders”) may lapse in case they fail to furnish the details of their demat account to the Registrar.***

In accordance with Regulation 77A of the SEBI (ICDR) Regulations, 2018 read with the SEBI Rights Issue Master Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialised form only. Accordingly, Eligible Equity Shareholders holding Equity Shares in physical form as on Record Date and desirous of subscribing to Rights Equity Shares in this Issue are advised to furnish the details of their demat account to the Registrar or our Company at least three clear Working Days prior to the Issue Closing Date, to enable the credit of their Rights Entitlements in their respective demat accounts at least two days before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than three Working Days prior to the Issue Closing Date, shall lapse. For details, refer the section titled ‘*Terms of the Issue – Making of an Application by Eligible Equity Shareholders holding Equity Shares in physical form*’ on page 81 of this of Letter of Offer.

- 50. *Our Company will not distribute the Letter of Offer and Application Form to certain overseas Shareholders who have not provided an address in India for service of documents.***

Our Company will dispatch the Letter of Offer, the Rights Entitlement Letter, and the Application Form (the “Issue Materials”) to such Shareholders who have provided an address in India for the service of documents. The Issue Materials will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions.

However, the Companies Act, 2013 requires companies to serve documents at any address which may be provided by the members as well as through e-mail. Presently, there is lack of clarity under the Companies Act, 2013 and the rules made thereunder with respect to distribution of Issue Materials in overseas jurisdictions where such distribution may be prohibited under the applicable laws of such jurisdictions. While we have requested all the shareholders to provide an address in India for the purposes of distribution of Issue Materials, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act, 2013 and may subject us to fines or penalties.

- 51. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.***

Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and the Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renounees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. Further, in case the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renounee will not be able to apply in this Issue with respect to such Rights Entitlements. For details, see “*Terms of the Issue*” on page 81 of this Letter of Offer.

- 52. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.***

In terms of the Regulation 87 of SEBI (ICDR) Regulations, 2018 the Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Right Equity Shares to the Applicant’s demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national

monetary, financial, political, or economic conditions or other events like force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant's decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. The occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their Applications in the event of any such occurrence.

53. *Investors will be subject to market risks until the Rights Issue Shares credited to their demat accounts are listed and permitted to trade.*

Investors can start trading the Rights Issue Shares allotted to them only after they are listed and permitted to trade. Since the Equity Shares are currently traded on the Stock Exchange, investors will be subject to market risk from the date they pay for the Rights Equity Shares to the date when trading approval is granted for them. Further, we cannot assure you that the Rights Equity Shares allocated to an Investor will be credited to the Investor's demat account or that trading in the Equity Shares will commence in a timely manner.

54. *Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares.*

The Indian securities markets are smaller and more volatile than securities markets in more developed economies. The Indian stock exchanges have, in the past, experienced substantial fluctuations in the prices of listed securities. Prices of listed securities are subject to volatility linked among other factors to the uncertainty in the global markets and the rising inflationary and interest rate pressures domestically. The governing bodies of the Indian stock exchanges have, from time to time, imposed restrictions on trading in certain securities, limitations on price movements, and margin requirements. Future fluctuations or trading restrictions could have a material adverse effect on the price of our Equity Shares.

55. *The Issue Price of our Rights Equity Shares may not be indicative of the market price of our Equity Shares after the Issue.*

The Issue Price of Rights Equity Share may not be indicative of the market price for our Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. There can be no assurance that the Investors will be able to sell their Equity Shares at or above the Issue Price. The factors that could affect our share price are: a) quarterly variations in the rate of growth of our financial indicators such as earnings per share; b) changes in revenue or earnings estimates or publication of research reports by analysts; c) speculation in the press or investment community; d) general market conditions; and, e) domestic and international economic, legal, and regulatory factors unrelated to our performance.

We cannot assure you that the market price of Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Issue Shares at a price that will be higher than the actual market price of the Equity Shares at that time. Should that occur, the shareholders will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

56. *Investors may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will be subject to long term capital gains tax in India at the specified rates depending on certain factors, such as whether the sale is undertaken on or off the Stock Exchange, the quantum of gains and any available treaty exemption. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of securities transaction tax ("STT"), on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a tax treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

57. ***The Eligible Equity Shareholders holding Equity Shares in physical form will have no voting rights in respect of Equity Shares until they provide details of their demat account and Equity Shares are transferred to such demat account from the demat unclaimed suspense escrow account thereafter.***

The Equity Shares will be credited to a demat unclaimed suspense escrow account to be opened by our Company, in case of Allotment in respect of resident Eligible Equity Shareholders holding Equity Shares in physical form and who have not provided the details of their demat account to the Registrar or our Company at least three Working Days prior to the Issue Closing Date. Such Eligible Equity Shareholders are required to send, amongst others, details of their demat accounts to our Company or the Registrar to enable our Company to transfer, after verification of the details of such demat account by the Registrar, the Equity Shares from the demat unclaimed suspense escrow account to the demat accounts of such Eligible Equity Shareholders Unless and until such Eligible Equity Shareholders provide details of their demat account and the Equity Shares are transferred from demat unclaimed suspense escrow account to such demat accounts thereafter, they will have no voting rights in respect of Equity Shares. For details, see “*Terms of the Issue*” on page 81 of this Letter of Offer.

58. ***In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects / schedule of implementation of this Issue which would in turn affect our revenues and results of operations.***

The funds that we receive would be utilized for the Objects of the Issue as has been stated in the section titled ‘*Objects of the Issue*’ beginning on page 54. The proposed schedule of implementation of the objects of the Issue is based on our management’s estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, we may have to revise our business, development and working capital plans resulting in unprecedented financial mismatch and this may adversely affect our revenues and results of operations.

EXTERNAL RISK FACTORS-

59. ***Our growth depends on the sustained growth of the Indian economy and may be impacted by an economic slowdown in India-***

Macroeconomic factors that affect the Indian economy and the global economic scenario have an impact on our business. Factors that may adversely impact the Indian economy, and hence our results of operations, may include:

- any increase in Indian interest rates or inflation;
- any exchange rate fluctuations;
- any scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing for our expansions;
- changes in India’s tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India’s various neighbouring countries;
- occurrence of natural or man-made disasters or outbreak of an infectious diseases, such as
- COVID-19;
- prevailing regional or global economic conditions, including in India’s principal export markets; and
- any downgrading of India’s debt rating by a domestic or international rating agency.

Our performance and the growth of our business also depends on the performance of the economies of the regional markets we serve from our Indian manufacturing facilities. Any slowdown or perceived slowdown in the Indian economy or those of our regional markets, could adversely impact our business, results of operations and financial condition.

60. ***We are subject to changes in Indian taxation laws or their interpretation-***

Any change in Indian tax laws could adversely affect our operations. Any such future amendments may affect certain benefits such as exemption for income earned by way of dividend from investments in other domestic companies and units of mutual funds exemption for interest received in respect of tax-free bonds, and long-term capital gains on equity shares if withdrawn by the statute in the future, and the same may no longer be available to us.

Furthermore, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations, and group structure could result in us being deemed

to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs relating to compliance with such new requirements, which may also require management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent, may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

We cannot predict whether any new tax laws or regulations impacting our operations will be enacted, what the nature and impact of the specific terms of any such laws or regulations will be or whether, if at all, any laws or regulations would have an adverse effect on our business.

61. *The trading volume and market price of the Equity Shares may be volatile following the Issue, and you may not be able to sell your Equity Shares at or above the Issue Price.*

The market price of the Equity Shares may fluctuate as a result of, among other things, the following factors, some of which are beyond our control:

- actual or anticipated variations in our results of operations, including compared to expectations of securities analysts and investors and those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates by analysts and investors;
- announcements about our earnings that are not in with analyst expectations;
- announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations or capital commitments;
- complaints from our customers, shortages or interruptions in the availability of raw materials, or reports of incidents of tampering of raw materials;
- announcements by third parties or governmental entities of significant claims or proceedings against us;
- new laws and governmental regulations applicable to our industry;
- additions or departures of senior management;
- changes in our shareholder base;
- changes in our dividend policy;
- changes in accounting standards, policies, guidance, interpretations or principles;
- the public's reaction to our press releases, other public announcements, and filings with the regulator;
- adverse media reports about us or our industry;
- changes / volatility in exchange rates;
- changes in the regulatory and legal environment in which we operate;
- fluctuations in stock market prices and volume; and
- general economic and stock market conditions.

Any of these factors listed above could result in large and sudden changes in the volume and trading price of the Equity Shares and adversely affect the price of the Equity Shares. The market price of the Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to resell the Equity Shares at or above the Issue Price. Furthermore, the Issue Price which may include a discount of not more than 5% on the Floor Price in accordance with the SEBI ICDR Regulations, which will be determined by our Company in consultation with the Lead Manager may not be necessarily indicative of the market price of the Equity Shares after this Issue is complete.

62. *An investor will not be able to sell any of the Equity Shares subscribed in the Issue other than on a recognized Indian stock exchange for a period of one year from the date of allotment of such Equity Shares.*

Pursuant to the SEBI ICDR Regulations, for a period of one year from the date of the allotment of the Equity Shares in the Issue, investors subscribing the Equity Shares in the Issue may only sell such Equity Shares on NSE or BSE and may not enter into any off-market trading in respect of such Equity Shares. We cannot be certain that these restrictions will not have an impact on the price of the Equity Shares. This may affect the liquidity of the Equity Shares subscribed by investors and it is uncertain whether these restrictions will adversely impact the market price of the Equity Shares subscribed by investors

63. *Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares or dividend paid thereon.*

Our ability to pay dividends in the future will depend on our earnings, financial condition, cash flow, working capital requirements and capital expenditure. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant. We cannot assure you that we will be able to pay dividends in the future. Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares held as investments in an Indian company are generally taxable in India. Any capital gain realised on the sale of listed equity shares on a Stock Exchange held for more than 12 months immediately preceding the date of transfer will be subject to long term capital gains in India at the specified rates depending on certain factors, such as whether the sale is undertaken on or off the Stock Exchanges, the quantum of gains and any available treaty relief. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of Securities Transaction Tax (“STT”), on the sale of any Equity Shares held for more than 12 months immediately preceding the date of transfer. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Furthermore, any capital gains realised on the sale of listed equity shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will not be chargeable to tax in India in cases where relief from such taxation in India is provided under a treaty between India and the country of which the seller is resident and the seller is entitled to avail benefits thereunder. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

64. *We are required to comply with environmental laws and regulations that could cause us to incur significant costs.*

Our operations are subject to various international, national, state and local laws and regulations, which are subject to laws specific to the industry in which we operate, as well as laws generally governing business in India, including those relating to the protection of the environment and occupational health and safety, including those governing the generation, handling, storage, use, management, transportation and disposal of, or exposure to, environmental pollutants or hazardous materials resulting from our business operations. While we are not aware of any outstanding material claims or obligations, we may incur substantial costs, including clean up or remediation costs, fines and civil or criminal sanctions, and third-party property damage or personal injury claims, as a result of violations of or liabilities under environmental or health and safety laws or non-compliance with permits required at our facilities, which, as a result, may have an adverse effect on our business and financial condition.

65. *Any future issuance of Equity Shares, or convertible securities or other equity linked instruments by us may dilute your shareholding. Furthermore, any such further issuance of our securities and/or sale of Equity Shares by the Promoters or members of our Promoter Group may adversely affect the trading price of our Equity Shares.*

We cannot assure you that we will not issue additional Equity Shares. Any future equity issuances by us, including a primary offering of Equity Shares, convertible securities or securities linked to Equity Shares may lead to the dilution of your shareholding in our Company. Furthermore, any future equity issuances by us or sale of our Equity Shares by the Promoters or members of our Promoter Group or any of our other principal shareholders or any public perception regarding such issuance or sales may adversely affect the trading price of the Equity Shares, may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares. In particular, our Board has approved the preferential issue of Equity Shares to the Promoters, subject to receipt of necessary approvals, including consent of the Shareholders. There can be no assurance that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that our Shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

66. *There may be less information available about companies listed on Indian securities markets than companies listed on securities markets in other countries.-*

There may be less publicly available information about Indian public companies, including our Company, than is regularly disclosed by public companies in other countries with more mature securities markets. There is a difference between the level of regulation and monitoring of the Indian securities markets and the activities of investors, brokers and other participants in those markets, and that of markets in other more developed economies. In India, while there are certain regulations and guidelines on disclosure requirements, insider trading and other matters, there may be less publicly available information about Indian companies than is regularly made available by public companies in many developed

economies. As a result, you may have access to less information about our business, results of operations and financial condition, and those of our competitors that are listed on the Stock Exchanges, on an ongoing basis, than you may in the case of companies subject to the reporting requirements of certain other countries.

67. *Under Indian law, foreign investors are subject to investment restrictions that may limit our ability to attract foreign investors, which may adversely affect the trading price of our Equity Shares.*

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then a prior regulatory approval is required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no objection or a tax clearance certificate from the Indian income tax authorities. Furthermore, the Indian Government may impose foreign exchange restrictions in certain emergency situations, including situations where there are sudden fluctuations in interest rates or exchange rates, where the Indian Government experiences extreme difficulty in stabilizing the balance of payments or where there are substantial disturbances in the financial and capital markets in India. These restrictions may require foreign investors to obtain the Indian Government's approval before acquiring Indian securities or repatriating the interest or dividends from those securities or the proceeds from the sale of those securities. We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all. For further information, see "Restrictions on Purchases and Resales" on page 111.

68. *Natural disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business.*

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics, acts of war, terrorist attacks and other events, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic and political events in India or countries to who we export our products could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the price of the Equity Shares.

69. *Political, economic or other factors that are beyond our control may have adversely affect our business and results of operations.*

The Indian economy is influenced by economic developments in other countries. These factors could depress economic activity which could have an adverse effect on our business, financial condition and results of operations. Any financial disruption could have an adverse effect on our business and future financial performance.

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our services may be adversely affected by an economic downturn in domestic, regional and global economies.

Economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production.

Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

CONFIRMATIONS

A. Compliance with the Listing Agreement and SEBI LODR Regulations, 2015:

The Board of Directors, in its meeting held on December 29, 2025, approved an equity investment of ₹ 87.62 Lakhs (USD 100,000) for subscribing to up to 50% of the share capital of the said entity at a par value of \$0.01 per share. This investment is scheduled to be deployed in one or more tranches during the Financial Years 2026-27. As per the Foreign Exchange Management (Overseas Investment) Directions, 2022, no prior approval from the Reserve Bank of India is required for this infusion. The capital investment of ₹ 87.62 Lakhs (USD 100,000) will be fresh equity infusion and same will be utilized for the working Capital of the Company.

In addition to the equity subscription, the Company proposes to provide financial assistance in the form of a working capital loan to the USA entity for an amount up to ₹ 200 lakhs. Out of the net proceeds of the issue, a total amount of ₹287.62 lakhs will be utilized towards these object. This loan is intended to meet the day-to-day operational requirements and facilitate business expansion in sectors including general trading, hospitality, technology, and stainless-steel products. The provision of this loan has been approved as a Related Party Transaction, given that our Promoter and CEO, Mr. Viral Mukundbhai Shah, serves as the initial Director of the USA entity.

The primary objective of these funds is to enable the Company to enhance its product portfolio and diversify its service offerings in the international market. Cost-Benefit Analysis for Investment in Shah Metacorp Holdings USA INC. :

Our Company intends to utilize around ₹ 87.62 Lakhs (USD 100,000) for equity investment, Shah Metacorp Holdings USA INC., which was registered on March 27, 2025, in Delaware, USA. The primary strategic benefit of this investment is to establish a domestic presence in the United States to circumvent the prohibitive 50% Section 232 duties currently levied on Indian steel imports. By transitioning from an exporter to a domestic U.S. entity, our products will gain price competitiveness of approximately 30% to 50% compared to other foreign suppliers, significantly increasing our market reach in the North American stainless steel sector.

From a financial perspective, the U.S. market offers superior price realization with potential gross margins of 25% to 35%, compared to the global average of 12% to 15%. This expansion is projected to result in a consolidated margin increase of 10% to 20% for the Company. Operationally, the establishment of the Joint Venture will enable a “Just-In-Time” (JIT) delivery model through local warehousing, reducing lead times from the current 10 weeks (for sea-borne exports) to just 1 to 3 weeks, thereby enhancing inventory turnover and customer satisfaction.

Regarding the proposed financial assistance of ₹ 200 Lakhs as a working capital loan to the USA entity, the funds are essential for initial inventory sourcing and operational setup. Approximately 60% of these funds will be used to procure initial raw materials and establish a scrap trading base, while the remaining 40% is earmarked for securing warehouse leases, logistics infrastructure, and maintaining legal and regulatory compliance in Delaware. The Board believes this investment is justified as it provides direct access to a U.S. stainless steel market forecasted to be worth \$144.9 billion by 2026.

Justification for Working Capital Requirements

The working capital requirement of ₹ 200 Lakhs for Shah Metacorp Holdings USA INC is substantiated by the localized operational needs essential for establishing a competitive presence in the North American stainless steel market. A primary allocation of approximately ₹ 120 Lakhs is dedicated to inventory localization to transition from a ten-week sea-borne export model to a “Just-In-Time” delivery system, which reduces customer lead times to just one to three weeks. This localized inventory strategy also facilitates the establishment of a scrap aggregation hub in Delaware, enabling the said USA entity to procure high-quality stainless steel scrap for local resale or internal supply to the Indian parent entity at competitive rates.

Furthermore, an estimated ₹ 50 Lakhs is required to maintain the necessary logistics and supply chain infrastructure, including the leasing and operation of regional warehouses in high-demand industrial corridors. These facilities are critical for maintaining “Tier-1” supplier status, as they ensure reliable delivery within 24 hours to automotive and industrial clients. The funds also cover the upfront costs associated with freight and port charges, ensuring that international trade movements do not disrupt the domestic U.S. distribution flow.

The remaining ₹ 30 Lakhs serves as a vital buffer for regulatory compliance and administrative overhead, covering ongoing legal fees and trade permit renewals necessary to navigate Section 232 duties and “Buy American” mandates. This portion of the working capital also bridges the cash flow gap caused by international payment cycles and currency fluctuations, ensuring the said USA entity to maintain a healthy current ratio between 1.5 and 2.0. By substantiating these requirements, the Company demonstrates that the ₹ 200 Lakhs is appropriately sized to support the initial scaling and operational agility of the USA entity. Further, the equity capital investment of ₹ 87.62 Lakhs (USD 100,000) will be fresh equity infusion and same will be utilised for the working Capital of the Company.

The working capital projections made by the Company are based on certain key assumptions, as set out below:

Sr. No.	Particulars	Basis of Estimation / Assumption
---------	-------------	----------------------------------

1.	Inventories	The Company deals in billets, ingots, TMT bars and other long products where procurement, melting, rolling and dispatch involve lead time across multiple processes, resulting in a higher holding of raw materials, work-in-process and finished goods. Inventory levels are estimated based on production cycle time, seasonal demand, procurement lead time of scrap and other inputs, and minimum safety stock required to avoid production disruption, keeping in view the planned increase in capacity utilisation and product mix in carbon and stainless steel segments
2.	Trade Receivables	Credit terms are based on the Company's past experience with customers in domestic and export markets, industry practice in the steel sector and the relative bargaining power with each class of customer (traders, end-users, project customers, etc.). The Company expects moderate elongation in receivable days in view of its strategic focus on value-added products and new customer segments where higher credit support is generally required at the initial penetration stage
3.	Loans and Advances	This mainly comprises advances to suppliers for procurement of scrap, ferro-alloys, consumables and stores & spares, as well as advances to employees and balances with government authorities; levels are linked to expected purchase volumes and normal advance terms in the industry.
4.	Trade Payables	Payable days are linked to standard credit terms available from scrap suppliers, logistics vendors and other service providers; the Company intends to gradually normalise payable days to a sustainable level in line with industry practice and its liquidity position. Any conscious reduction in supplier credit is expected to be compensated by improved commercial terms (pricing, discounts and assured supply), which would support margins but increase the net working capital requirement.
7.	Other Current Liabilities	Other Current Liabilities mainly includes Advance from Customers & Statutory dues, Employee benefits.
8.	Provisions	Being Short term provision of Gratuity Obligation as per Actuarial Valuation & Provision for Income Tax.

Assuming full subscription and allotment of the Rights Equity Shares in the Issue, our Company proposes to utilize ₹1616.92 Lakhs of the Proceeds within 1 year towards our working capital requirements. DETAILED RATIONALE FOR THE ISSUE PRICE

The Issue Price of ₹4.86 per Rights Equity Share, which includes a premium of ₹3.86 per share, has been determined by the Board of Directors of the Company in consultation with management and financial advisors. This price represents an aggregate collection of up to ₹4,980.00 Lakhs assuming full subscription in the Issue. The Issue Price has been arrived at prior to the determination of the Record Date and constitutes 100% of the price payable on Application. Furthermore, this proposed pricing framework is exactly 4.86 times the face value of ₹1 per Equity Share.

In justifying this valuation, the management highlights several structural and qualitative strengths of the Company. Shah Metacorp Limited has built an established manufacturing presence, possessing a combined average plant capacity of 12,00,000 MT per annum to produce diverse grades of stainless steel long products. The operational execution is heavily backed by the core expertise of our Promoter and CEO, Mr. Viral Mukundbhai Shah, who brings over 20 years of experience in the steel sector. Additionally, the Company is actively executing a strategic growth plan focused on value-added product segments, international footprint optimization through entities like Shah Metacorp Holdings USA INC, and diversification into complementary fields such as power and energy through its subsidiaries.

From a quantitative standpoint, the pricing is fundamentally supported by the company's financial growth metrics derived from its audited financial records. The basic and diluted earnings per share (EPS) of the Company grew significantly from ₹0.11 for the financial year ended March 31, 2024, to ₹0.61 for the financial year ended March 31, 2025. Based on this financial year 2025 audited EPS of ₹0.61, the Price-to-Earnings (P/E) ratio in relation to the proposed Issue Price of ₹4.86 stands at approximately 7.97x.

The underlying corporate value is further demonstrated by the expansion in capital efficiency and book value. The Return on Net Worth (RoNW) experienced a distinct upward adjustment, rising from 7.34% in Fiscal 2024 to 19.60% in Fiscal 2025. Moreover, the Net Asset Value (NAV) per Share was recorded at ₹4.36 as of March 31, 2025. Crucially, the theoretical ex-rights price computed in accordance with Regulation 10(4)(b) of the SEBI (SAST) Regulations stands at ₹5.09 per Equity Share. The proposed Issue Price of ₹4.86 therefore offers an immediate discount relative to this statutory ex-rights baseline of ₹5.09, ensuring favorable baseline value for all participating Eligible Equity Shareholders.

The ex-rights price of the Equity Shares as per regulation 10(4)(b) of the SEBI Takeover Regulations is ₹ 5.09 per Equity Share. The Issue Price is 4.86 times of the face value of the Equity Share.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

There are two routes through which foreign investors may invest in India. One is the “*automatic route*”, where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the “*government route*”, where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise way such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the consolidated FDI Policy Circular of 2020 (***‘FDI Circular 2020’***), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that:

1. The activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI (SAST) Regulations;
2. The non- resident shareholding is within the sectoral limits under the FDI Policy; and
3. The pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid to make any investment in the Issue. Our Company will not be responsible for any allotments made by relying on such approvals.

Please also note that pursuant to Circular no. 14 dated September 16, 2003, issued by RBI, Overseas Corporate Bodies have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as an incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants / Investors Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
