PAT Margin (%)	*3.4%*	*1.8%*	*160bps*	*2.5%*	*90bps*

Commenting on the performance, ***Mr. Paresh Dattani, Chairman and Managing Director, Sanathan Textiles Limited****, stated:*

"The first quarter of FY27 unfolded against a backdrop of significant global volatility, driven largely by the conflict in West Asia and its effect on energy and raw material markets. In that environment, our priorities were clear: secure our raw material supplies, place our entire production with customers, and keep our plants running without disruption and at high efficiency. We delivered on all three.

The second quarter built on that groundwork. Our performance was driven primarily by the continued ramp-up of our Punjab facility, which is now contributing meaningfully to volumes and margins, along with higher capacity utilisation across our operations. Domestic demand for our products stayed strong throughout the period. As raw material and product prices stabilised, customers who had deferred purchases during the uncertainty of Q1 returned to normal buying patterns.

As a result, consolidated revenue grew 35.16% QoQ to Rs. 1,804 crore, driven by a combination of the ramp up of the Punjab facility and our ability to place our entire production in the market. Consolidated EBITDA rose 144.94% YoY to Rs. 154.7 crore, with the growing contribution of the Punjab facility. Our disciplined approach to raw material procurement, and presence across Polyester, Cotton and Technical Textiles continue to serve us well. We remain focused on further improving efficiency and expanding our capacity with our aim to sustain momentum while keeping a sharp focus on margins."
