Rashi Peripherals, one of India’s leading ICT distributors, to acquire a strategic stake in INR 8.5 Bn VDA Infosolutions for an equity valuation of INR 5.5 Bn, expanding into fast growing enterprise technology & digital infrastructure

This strategic move enables Rashi Peripherals to deliver the full spectrum of enterprise technology value to customers, from distribution to deployment of complex IT architectures.

- Rashi Peripherals (**‘RP tech’**), the fastest growing & consistently profitable listed company with a FY26 Revenue of **INR 158 Bn**, is amongst leading national distribution partners for global technology brands with a Pan-India presence across 56 branches, 50 service centers, and 71 warehouses, serving over 10,300 channel partners.
- RP tech intends to expand further into the value chain, from India's foremost value- added ICT distribution company to a fully integrated technology solutions and services enterprise.
- Given the growing digital infrastructure investment focus across global and Indian markets, RP tech had intended to acquire a business in the enterprise technology & digital infrastructure solutions space and leverage such a partnership to achieve accelerated growth in this space.
- Founded by first generation technopreneurs, **VDA Infosolutions Pvt. Ltd. (‘VDA’)** is a consistently profitable company being a significant player in enterprise technology and digital infrastructure solutions space, with a FY26 revenue of **~INR 8.5 Bn**.
- VDA delivers a comprehensive set of solutions across **Cloud Technology, Cybersecurity, Data Protection, Virtualization, Storage** and provides IT Consulting services, DevOps and Infrastructure management and transformation services.
- Driven by a highly skilled team of 1,000+ professionals deployed across 140+ locations Pan-India, VDA is a trusted technology partner to enterprises across sectors and an authorized partner with global technology leaders such as **IBM, Dell, Broadcom, Cisco, Palo Alto Networks, Red Hat, Nutanix and Checkpoint** among many others.
- RP tech has entered into a binding agreement to acquire upfront **67% stake for a cash consideration of INR 3.68 Bn**.
- This transaction marks a strategic inflection point for RP tech to become **a fully integrated technology solutions and services player**. RP tech will capitalize on the strategic partnership through focused growth in the technology services business.

23rd June, 2026, Mumbai: Rashi Peripherals Limited (NSE: RPTECH; ‘RP tech’) (BSE: 544119), one of the leading national distribution partners for global technology brands in India, today announced the strategic partnership of VDA Infosolutions, an enterprise technology and digital infrastructure solutions company, specialized in enterprise IT infrastructure, cloud computing, enterprise storage, cybersecurity, and overall data lifecycle management.

Global M&A advisory firm, **Singhi Advisors, acted as an exclusive strategic & financial advisor** to Rashi Peripherals on this transaction. This transaction affirms Singhi Advisors’ established transactional strength

in the IT & Technology space, reinforcing its consistent track record of advising India's most consequential companies on transformative inorganic growth initiatives.

The transaction enables RP tech to capitalize on the accelerating demand for enterprise cloud infrastructure, AI-enabled IT environments, advanced data centre solutions, cybersecurity, and hybrid IT managed services which are some of the highest growth segments in the Indian technology landscape over the next decade. The move also strengthens RP tech's commitment to India's digital transformation by enabling the adoption and deployment of high-end technology and delivering greater value to enterprise customers.

Commenting on the development, **Mr. Kapal Pansari – Managing Director of Rashi Peripherals** said, "This transaction marks a pivotal step in strengthening our position in the rapidly evolving enterprise business as a leading provider of high-end technology products and solutions. VDA Infosolutions' strong enterprise technology and digital infrastructure expertise and proven delivery capabilities enhance our ability to serve enterprise customers with advanced solutions in AI, cybersecurity, data protection, and cloud infrastructure. We are excited to bring in VDA Infosolutions's deep technical expertise, wide clientele across industry verticals, and a recurring-revenue services engine to enhance our enterprise business capabilities."

Commenced in 2010 in Mumbai, VDA Infosolutions, with a FY26 Revenue of **~INR 8.5 Bn**, has emerged as a fast-growing company specialized in enterprise technology and digital infrastructure solutions, supporting the deployment of complex and business-critical technology architectures and systems. VDA Infosolutions operates across Mumbai, Pune, Delhi, Chennai, Bangalore, Kolkata, Hyderabad, and Ahmedabad, with a highly skilled team of **1,000+ professionals** deployed across 140+ service touchpoints.

VDA Infosolutions is a trusted technology partner to enterprises across sectors. **VDA** is an authorized partner to a distinguished roster of global technology leaders, including **IBM (Platinum Partner), Dell Technologies (Titanium Partner), Broadcom (Premier & Professional Services Partner), Cisco (Data Center Partner), Palo Alto Networks (Diamond Partner), Red Hat (Advance Business Partner), Commvault, Cohesity, Hitachi, Vantara, Checkpoint and Nutanix** among many others. **VDA** delivers a comprehensive set of solutions across Cloud Technology, Cybersecurity, Data Protection, Virtualization, Storage along with IT Consulting services, DevOps and Infrastructure management and transformation services.

Mr. Vikas Save, Founder Director of VDA Infosolutions, called the partnership a defining step in the company's evolution: "This partnership marks a significant milestone in our journey toward delivering next-generation technology solutions. By enhancing our capabilities in AI-driven infrastructure, digital modernization, and cloud technologies, we are better equipped to help our customers navigate the rapidly evolving landscape of AI, digitization, and cybersecurity."

Mr. Deepak Jadhav, Founder Director of VDA Infosolutions, highlighted the commercial opportunity the alliance unlocks: "We are excited about this partnership and the opportunities it brings. By combining RP Tech's robust OEM relationships and financial strength with our technical expertise, we aim to capitalize

on the fast-growing markets in AI, digitization, and enterprise solutions, unlocking significantly larger opportunities across the country."

Mr. Ashutosh Deuskar, Founder Director of VDA Infosolutions, emphasized the partnership's role in scaling the company's services and SI portfolio: "Our partnership with Rashi Peripherals represents a major milestone in VDA Infosolutions' growth journey. Leveraging RP tech's strong OEM ecosystem, deep techno-commercial expertise, and extensive pan-India channel network, we look forward to further strengthening and expanding our managed services portfolio, as well as our system integration capabilities nationwide.

As per Gartner, the overall IT spending in India is forecast to increase by 11% to nearly **USD 176 Bn in 2026**. Investments in data centers, cloud adoption, cybersecurity, AI infrastructure, and software with services have witnessed double digit growth. This strategic partnership comes at a significant time in the technology solutions and digital infrastructure sector where the Indian market is projected to grow to **USD 133 Bn by 2035**, growing at a CAGR of 18%, making India one of the fastest growing markets globally.

This transaction represents a landmark transaction in the Indian Technology sector. The combination creates a uniquely integrated platform capable of delivering the full spectrum of enterprise technology value, from product distribution and procurement to complex solution architecture, deployment, and ongoing managed services, fundamentally transforming **RP tech's** engagement model with enterprise customers. The two businesses are powerfully complementary: **RP tech** brings unmatched distribution reach, brand relationships, and channel depth. **VDA** contributes deep technical expertise, certified delivery capabilities, a blue-chip enterprise customer base, and a recurring revenue services engine. Together, they are ideally positioned to capitalize on the accelerating demand for the highest conviction growth themes in the digital infrastructure space.
