MANAGEMENT DISCUSSION AND ANALYSIS FY 2025-26 (FY26)

1. MACROECONOMIC AND INDUSTRY STRUCTURE & DEVELOPMENTS:

A. Macroeconomic Outlook

The global economy continued to demonstrate resilience during 2025 with 3.4% growth despite a series of significant geopolitical and economic disruptions. However, a fresh military conflict in the Middle East, escalating since the end of February 2026, has introduced renewed uncertainty into the global economic environment. This development represents the latest in a succession of geopolitical events that have reshaped international relations and heightened regional tensions across major economies.

The conflict has affected global markets through elevated commodity prices, particularly energy and food, while also influencing inflation expectations and increasing volatility across financial markets. Emerging market and developing economies that are dependent on commodity imports remain particularly vulnerable, especially where currency depreciation amplifies imported inflation pressures.

The broader economic implications will depend substantially on the duration, intensity, and geographic spread of the conflict, all of which remain uncertain at this stage. The latest disruption also comes at a time when the global trading system continues to adjust to changes in United States trade policies introduced over the past year. In response, several countries have accelerated bilateral and regional trade negotiations to strengthen economic partnerships and diversify trade relationships.

Despite these challenges, global economic activity has remained relatively stable. Prior to the onset of the Middle East conflict, the global economy had performed better than anticipated, with global growth in the fourth quarter of 2025 reaching an annualized rate of 3.9%. The International Monetary Fund (IMF) has projected global growth at 3.3% for 2026 and 3.2 % for 2027, indicating a moderate but resilient growth trajectory amid persistent geopolitical and macroeconomic uncertainties.

Against the backdrop of global volatility, the Indian economy continued to exhibit strong macroeconomic resilience and remained one of the fastest-growing major economies globally.

Although higher energy prices and supply chain disruptions arising from geopolitical tensions exerted pressure on economic activity worldwide, India's economic fundamentals remained robust.

India's resilience has been supported by several structural strengths, including substantial foreign exchange reserves, moderate inflation levels, predominantly rupee-denominated public debt, a well-capitalized banking system, and ongoing efforts toward trade diversification. These factors have helped cushion the economy against external shocks and maintain macroeconomic stability.

Economic growth remained strong throughout 2025, building upon the momentum achieved during the post-pandemic recovery period. Growth was healthy in the first quarter and strengthened further during the subsequent quarters. In response to evolving economic conditions, the Reserve Bank of India adopted an accommodative monetary stance by reducing policy interest rates and easing liquidity conditions to support growth. Additionally, macroprudential measures introduced in earlier periods were selectively relaxed as underlying financial conditions improved.

On the fiscal front, the Union Budget for FY2026 announced significant tax relief measures aimed at supporting household consumption and sustaining economic momentum. These measures, combined with ongoing structural reforms and policy initiatives, contributed positively to domestic demand and investment activity.

During the year, global trade dynamics remained fluid and uncertain. United States reciprocated higher tariffs on India. This development came as a surprise to global markets and led to downward revisions in growth forecasts for certain export-oriented sectors. Despite these external challenges, India's economic growth trajectory remained resilient, supported by continued structural reforms, policy interventions, improving domestic demand, and strong underlying macroeconomic fundamentals.

The outlook for the Indian economy continues to remain favorable. Inflationary pressures are relatively contained, agricultural

prospects remain supportive due to favorable rainfall patterns, and external sector vulnerabilities are manageable given low external liabilities and comfortable foreign exchange reserves.

The banking sector remains healthy, liquidity conditions are adequate, credit growth continues at a stable pace, and corporate balance sheets remain strong. The overall flow of funds to the commercial sector also continues to support investment and economic activity.

Reflecting confidence in the underlying strength of the economy, the World Bank has projected real GDP growth of 6.6% for FY2026–27 for India, indicating continued recovery momentum and sustained economic expansion despite prevailing global uncertainties. The provisional estimates of India's GDP is 7.70% for FY2025-26.

B. Real Estate & Housing Industry Outlook

The real estate sector continues to play a significant role in India's economic growth trajectory. The sector remains an important pillar of the services economy while maintaining strong interlinkages with allied industries such as construction, cement, steel, financial services, and housing finance.

Over the years, the sector has undergone a meaningful structural transformation driven by a series of policy and regulatory reforms aimed at improving transparency, accountability, and formalization. Key initiatives such as the implementation of the Real Estate (Regulation and Development) Act (RERA), introduction of the Goods and Services Tax (GST), and the Government's "Housing for All" mission have strengthened institutional confidence and improved governance standards across the industry.

In parallel, several demand-side initiatives have enhanced housing affordability and improved access to financing. Measures including interest subvention schemes under Pradhan Mantri Awas Yojana (PMAY-Urban), establishment of the Affordable Housing Fund, lower interest rate regimes during the post-pandemic period, and streamlined credit appraisal and disbursement processes have collectively supported sustained growth in housing demand.

Urban infrastructure development has also emerged as a significant growth catalyst for the sector. Government-led initiatives such as the Smart Cities Mission and the Urban Infrastructure Development Fund (UIDF) have accelerated infrastructure creation and improved connectivity across Tier 2 and Tier 3 cities, thereby expanding the geographic base of residential demand and creating new growth opportunities for developers.

Supported by these structural reforms and favorable macroeconomic conditions, the real estate sector entered a sustained growth cycle beginning September 2021 following the COVID-19 disruption. The recovery was driven by improved consumer sentiment, rising preference for ownership-led housing demand, and increased allocation of household savings toward physical assets, particularly residential real estate.

The sector's momentum has continued through recent quarters, aided by improving affordability levels, stable

Reference: Economic Survey from Indiabudget.gov.in

financing conditions, and moderating inflationary pressures. Housing sales volumes have consistently remained above pre-pandemic levels witnessed during FY2022–FY2024, reflecting sustained end-user demand across key markets.

The housing finance segment has also recorded robust expansion, underlining the increasing financialization of residential demand. Outstanding individual housing loans increased from approximately Rs. 10 lakh crore as of March 2015 to over Rs. 37 lakh crore by March 2025. Consequently, housing loans as a percentage of GDP increased from nearly 8% to over 11% during the same period, reflecting deeper mortgage penetration, enhanced credit accessibility, and growing formal participation within the housing ecosystem.

Overall, the long-term outlook for the Indian real estate sector remains positive, supported by favorable demographics, urbanization trends, rising income levels, continued policy support, and sustained infrastructure development across emerging urban centers.

C. Housing Finance Industry Outlook

The Indian housing finance sector has witnessed sustained growth over the past decade, supported by the Government's continued focus on "Housing for All", favorable demographic trends, increasing urbanization, rising aspirations for home ownership, and the deepening reach of the financial sector. The sector has also benefited from policy initiatives such as the Pradhan Mantri Awas Yojana (PMAY) and interest-linked subsidy schemes, which have improved affordability and expanded access to formal housing credit across underserved segments. Reflecting this structural momentum, the ratio of outstanding individual housing loans to GDP increased from 8.0% in FY2014-15 to 11.2% in FY2024-25, indicating the growing penetration of housing finance in the Indian economy.

Banks and Housing Finance Companies (HFCs) continue to play a pivotal role in supporting housing credit growth through a diversified suite of loan products catering to varied borrower segments. Between March 2023 and September 2025, the aggregate outstanding individual housing loan portfolio of Banks and HFCs increased from Rs. 28.26 lakh crore to Rs. 37.18 lakh crore, registering a compound annual growth rate (CAGR) of 7.35%. On a year-on-year basis, outstanding individual housing loans grew by 9.5% as of September 2025. Further, disbursements by primary lending institutions during H1 FY2025-26 increased to Rs. 4,36,051 crore as against Rs. 4,14,580 crore in the corresponding

period of the previous year, reflecting resilient demand across housing categories.

While banks continue to dominate the overall housing finance market, particularly in the higher-ticket and premium home loan segments, the competitive landscape differs meaningfully in the affordable housing space. In lower ticket-size loans, specialized HFCs with strong regional franchises, deep customer understanding, customized underwriting capabilities, and extensive last-mile distribution networks have emerged as key market participants. These institutions have been instrumental in extending formal housing credit to economically weaker sections, self-employed borrowers, and customers operating in the informal economy, thereby bridging the affordability gap and expanding financial inclusion. As of September 2025, nearly 44% of the outstanding individual housing loan portfolio of HFCs comprised loans in the ticket-size category ranging from up to Rs. 2 lakhs to Rs. 25 lakhs, underscoring the sector's strong focus on affordable housing finance.

The affordable housing finance segment is expected to maintain healthy growth momentum, with Assets Under Management (AUM) projected growth to stabilize at around 20% in FY2026-27. Growth is expected to be driven by sustained end-user demand, continued urban migration, favorable demographics, increasing formalization of borrower income profiles, and ongoing government support through subsidy-linked schemes and affordable housing initiatives.

At the same time, yields across the sector are expected to moderate during FY2026-27 as the transmission of policy rate cuts gradually reflect in lending rates. This may exert some pressure, particularly for lenders with a higher proportion of floating-rate portfolios. Nevertheless, overall profitability for affordable housing finance players is expected to remain resilient, supported by multiple factors including improved operating leverage, rising contribution from non-interest income streams such as direct assignment (DA) transactions, and a calibrated increase in the share of higher-yielding products such as Loan Against Property (LAP). Collectively, these factors are expected to partly offset margin compression and support earnings growth across the sector.

2. REGULATORY CHANGES

The Reserve Bank of India (RBI) has introduced a variety of regulations applicable to Housing Finance Companies (HFCs) and other Non-Banking Financial Companies (NBFCs) to unify the laws that apply to HFCs/NBFCs and banks. The following are examples of these regulations:

Strengthening of Governance and Compliance Framework

SEBI, through amendments to the Listing Obligations and Disclosure Requirements Regulations, has further strengthened the governance framework applicable to listed entities by prescribing enhanced eligibility and reporting structure requirements for the Compliance Officer. The revised framework emphasizes greater accountability and alignment of the compliance function with senior management and Board oversight mechanisms.

Further, RBI issued amendments to the Credit Risk Management Directions applicable to NBFCs/HFCs, significantly expanding the scope of related party and connected lending regulations. The revised framework introduces enhanced governance requirements relating to lending to promoters, directors, Key Managerial Personnel (“KMPs”), specified employees and related entities, along with stricter conflict management, approval, monitoring and disclosure requirements. These measures are expected to strengthen credit governance standards and reinforce prudent lending practices across the sector.

Customer Due Diligence and KYC Compliance

RBI also introduced amendments to the Know Your Customer (“KYC”) Directions, 2016, with a greater focus on customer outreach, periodic updating processes and audit trail maintenance. The revised directions provide additional timelines for periodic KYC updating for low-risk customers and mandate structured customer communication mechanisms, including advance intimations and reminders through multiple channels. The amendments are aimed at improving customer convenience while ensuring continued compliance with regulatory requirements.

Credit Information Reporting Framework

During the year, RBI strengthened the credit information reporting architecture through amendments to the Credit Information Companies framework. The revised directions require more frequent reporting of borrower data, including incremental updates and overdue position changes, thereby enhancing the accuracy, timeliness and reliability of credit information available within the financial system. The framework also places increased emphasis on data quality, correction timelines and integration of CKYC identifiers.

Sector Support Measures

In view of global trade disruptions and the resultant stress on export-oriented sectors, RBI introduced temporary trade relief measures for eligible borrowers. The framework permits regulated entities, including HFCs, to provide repayment relief, moratorium support and extended export credit tenor to eligible standard accounts. These measures are intended to support viable businesses facing temporary cash flow disruptions while preserving overall financial stability.

4. OUTLOOK

In FY2025-26, our company has aimed to capitalize on the momentum established in FY2024-25, navigating the evolving economic landscape with strategic initiatives and a focus on sustainable growth.

With cumulative disbursements of around Rs. 39,995.32 crores and an AUM of Rs. 15,879.68 crores as of FY 2025-26, we continue to serve over 1.14 lakh active customers. Expanding across 12 states and one union territory, our 242 touchpoints cater to tier-2 and tier-3 cities, fulfilling homeownership dreams. This milestone is a testament to the trust and support of our valued customers, investors, vendors, credit rating agencies, analysts, and employees, whose contributions have shaped Repco Home Finance into a trusted brand that turns aspirations of homeownership into reality. As we embrace the future, we remain committed to sustained growth, ensuring greater accessibility and impact for years to come.

Strategic Focus Areas

Loan Book Composition: The Company will continue to maintain an optimal blend of salaried and non-salaried loans, ensuring a balanced risk profile and catering to diverse customer segments. Maintain a balanced portfolio with a slight tilt towards salaried professionals, ensuring a healthy risk profile and aligning with industry peers.

Non-Housing Portfolio: The non-housing book will be maintained around 35%, aligning with our strategic diversification goals.

Geographical Expansion: Efforts will be intensified to deepen penetration in Andhra Pradesh, Karnataka, Telangana and Western part of India, enhancing brand presence and tapping into underserved markets through new branch openings.

Customer Acquisition & Upticking Ticket Size: Focus on acquiring creditworthy customers and increasing ticket sizes, aligning with the upward trend in average loan amounts driven by rising property prices, leveraging the regulators dispensation risk weight etc.

Fee-Based Income: Cross-selling initiatives will be emphasized to enhance fee-based income streams, contributing to revenue diversification.

Net Interest Margin (NIM) & Spread: Efforts will be made to maintain consistent NIM and spread levels, ensuring profitability amidst market fluctuations.

Asset Quality: Prioritize asset quality through stringent credit assessments and proactive recovery measures.

Digitization: Ongoing digitization efforts will aim to improve turnaround times and process efficiencies, enhancing customer experience and operational effectiveness.

Throughout the year, the Company has achieved significant advancements across various departments, strengthening its overall operational capabilities and efficiency.

Operational Enhancements

Technological Implementation: During FY26, the Company advanced its digital transformation by deploying HRMS, Audit Management, Treasury Management, a Customer Portal, Fixed Asset, an Enterprise Data Warehouse and the Expected Credit Loss framework, resulting in greater process automation, improved data availability and faster, data driven decision making. The Company also strengthened its security posture with Privileged Access Management and multi factor authentication, enhanced email protection, and implemented an enterprise backup and recovery framework to ensure business continuity and disaster recovery readiness.

Recovery Efforts: The Company intensified its recovery efforts by systematically attending to all its NPA accounts and following the remedies available under the SARFAESI Act. More than 3,422 notices were issued during the year (FY2025-26). This assisted in bringing the borrowers up for discussion and ultimately reducing the NPA numbers. The actions would continue.

Regional Optimization: The Company has implemented localized file processing by establishing region-level operations and deploying technical and legal resources to enhance turnaround time (TAT) and operational efficiency.

The Company remains confident that the strategic measures implemented will contribute to enhancing its performance over the medium to long term, fostering sustainable growth and operational excellence.

Technological Integration: The adoption of AI-driven credit scoring and digital platforms will enhance our ability to assess and serve a broader customer base, particularly in underserved segments.

By aligning our strategies with these market dynamics, we aim to strengthen our position in the housing finance sector, delivering value to our stakeholders and contributing to the broader goal of translating aspirations of people to own a house into reality.

5. CORPORATE OVERVIEW

The Company operates in two business segments: Individual Home Loans and Home Equity. For individual borrowers in the salaried and non-salaried (self-employed professional and self-employed non-professional) segments, the Company offers a range of customized home loan products to meet their specific needs.

As of March 31st, 2026, about 67.22% of the loan book constituted housing loans with the remaining about 32.78% non-housing loans. All loans extended by the Company are to retail clients. The Company has a proportionate segmental mix of salaried and non-salaried customers, constituting 47% and 53% of the outstanding loan book, respectively. This mix of customers helps in maintaining the balance between the profit margin and credit cost.

6. GEOGRAPHIC PRESENCE

The Company has 242 points of presence as of March 31st, 2026, which included 32 satellite centers and 210 branch outlets. We are present in 12 states as well as a Union Territory. We also have two asset recovery branches.

In FY2025-26, the Company established eight new branches across Karnataka, Madhya Pradesh, Tamil Nadu and Telangana in addition to one new satellite centers in Tamil Nadu. During the year, the Company also converted thirteen satellite centers to branches. Tamil Nadu, Karnataka, Andhra Pradesh, Telangana, Kerala, Maharashtra, Odisha, West Bengal, Gujarat, Madhya Pradesh, Jharkhand, Rajasthan, and the Union Territory of Puducherry are all part of the Company's retail network.

Branch network

The Company's sources of customer acquisition are customer walk-ins, referrals, Direct Selling Agents (DSA), and Direct Sales Trainees (DST). Majority of the sales is through in house sales team, walk in customers and referrals.

7. RISK MANAGEMENT

The Company's business activities expose it to various risks, including Credit risk, Operational risk, Interest Rate risk, Liquidity risk, Reputational risk, Compliance risk and Solvency risk. Risk management forms an integral part of the Company's business. The objective of the Company's risk management system is to identify, assess, measure, manage and suggest ways to quantify

the risks and control/mitigate various types of risks involved in each area of activity.

The Company recognizes that the identification of risk is the most crucial function in managing and mitigating the risk. The Company identifies the risks in each function/activity by taking inputs from all the departments and by analyzing gaps in the existing processes and procedures. The overall responsibility of identifying, monitoring, and evaluating risks lies with departmental heads and executive management. The Company analyzes risks in terms of consequence and likelihood of its impact. The analysis considers a range of potential outcomes and the possibility of those consequences occurring.

The Company's risk management committee, comprising the Chief Risk Officer and other senior management team members, meets regularly to assess the adequacy of the existing risk management system and discuss emerging risks, operational or otherwise. The Company has constituted a Board Level Committee for Risk Management. The Board reviews the risk management practices of the Company and assists the Company in its efforts.

(I) Rigorous credit appraisal keeps credit risk mitigated

The Company's credit approval process is organized and defined and comprises a well-established protocol for complete credit evaluation. The process, which happens at the branch, Regional and Head Office level, ensures a high level of checks. A preliminary appraisal is performed by the branch manager, assisted by branch-level valuers, and lawyers. The same is again revalidated at the Regional Office level up to a certain threshold before sanction and at Head Office level above the threshold limit. Each borrower is rated based on a dynamic credit scoring model comprising over 15 parameters, including credit bureau score, carrying different weights. Credit bureau scores are tracked and taken seriously, and proposals with scores below a threshold limit without justifications are not onboarded. Apart from that, we are now capturing and analyzing granular characteristics of loan accounts, identifying patterns and behaviors, and making the credit underwriting process more effective. Pricing of a loan comprises of a minimum lending rate plus premium to loan specific characteristics like quantum, risk and deviations. All efforts are made to ensure that our pricing covers the risk we underwrite, and we believe that this pricing discipline will generate consistent and superior return ratios. To limit the magnitude of credit risk, prudential limits are laid down on various aspects of credit such as individual borrower-wise limits for housing loans and loan against properties, etc. The Loan to Value (LTV) ratio is fixed for different categories of loans taking into account the regulatory prescriptions. Further combination of advanced analytics, proactive monitoring, and scenario-based assessments like Vintage curve analytics, Migration matrix, Portfolio analysis etc is carried out and reported to committees on periodical basis to ensure portfolio quality and business sustainability.

(II) Operational risk is mitigated using various tools

Operational risk includes the risk of loss due to internal system, process, or people failures or external occurrences. The Company has put in place various controls to mitigate operational risks. An ongoing monitoring of loan accounts

is ensured by the credit monitoring department at the head office that tracks, among other things, the repayment capacity of the borrower, cash flow adequacy and proper valuation for the security etc. and informs process owners immediately. Credit review team, checks at random, if the approval by the sanctioning authority is in line with the Credit Policy of the Company. Credit offsite team at Head Office checks loan documentation and ensures compliance to loan sanction conditions before giving disbursement clearance. Operational risk is also being monitored through introduction of RCSA and specific Key Risk Indicators (KRIs) for each line of business activity. KRIs are objective measures used to track the current risk and control environment and can act as early warning signals to potential risk and control issues. They form part of periodical Operational Risk Management Reporting to the Board level committees. Post sanction of the loan, our Customer Service Department takes feedback from the customers on their onboarding experience.

Inspection of each branch based on Risk Based Internal Audit system is performed by the internal inspection team at regular intervals. Concurrent audit is done at key branches identified in terms of outstanding loans and NPAs by retired senior officials of banks entrusted with special duty. Senior Company officials also make surprise visits to branches to check if all processes and best practices are followed. Apart from that, we take the help of external Risk Containment Unit to perform KYC documents check and risk checks on all plot loans and other loans of ticket size higher than Rs. 50 lakhs for non-documented income profile. Our Recovery team starts following up with customers and takes action when an account defaults on payment.

To improve operational efficiency, quarterly board level discussions are held on reports shared by recovery officers, external audit firm, internal Inspection team and the Operations team, who oversee monitoring of the Company's offsite transactions and KYC-related compliance. New learning is put to use immediately.

Performance review of all branch personnel is undertaken twice a year by the senior management team.

(III) Interest rate risk is mitigated by matching maturity and repricing of assets and liabilities

The Company has formulated Asset-Liability Management (ALM) policy, which lays down mechanisms for assessing various types of risks and dynamically altering the asset-

liability portfolio to manage such risks. The maturity profile of assets and liabilities are monitored on an ongoing basis by Asset Liability Management Committee (ALCO) - a strategic decision-making body constituted by the Board, to mitigate the risks arising from cash flow mismatches, comprising of the Managing Director, Chief Operating Officer, Chief Development Officer, Chief Business Officer, Chief Financial Officer, Chief Risk Officer and a other senior members of the Company. In addition, the Company has put in place an efficient and transparent interest rate transmission policy in the form of Minimum Lending Rate (MLR), which is reviewed every month and applicable immediately on all new loans. The frequency of pricing reset for the existing loans is three months.

At any point in time, an optimal balance between short-term and long-term borrowings is maintained in sync with the extant asset and liability profile. Most long-term borrowings and on-lending happen at floating rates, which act as a hedge when interest rate volatility is high.

(IV) Liquidity Risk is mitigated by ensuring availability of regular funding sources to enable uninterrupted lending activity by the Company

Management of liquidity risk is the ability of a Company to meet debt obligations as they become due, without adversely affecting the Company's financial condition. This assumes significance on account of the fact that liquidity crisis, even at a single institution, can have systemic implications. The cost incurred in maintaining sufficient liquidity is adequately incorporated in the internal product pricing, performance measurement and new product approval process for all material business lines, products and activities. Therefore, management of liquidity involves optimization of cost of liquidity and profitability of the Company. Maturity based cash flow mismatches (traditional maturity gap) in the balance sheet positioning are identified as a potential source of liquidity risk and they are being measured by following a flow approach on a regular basis. For measuring the net funding requirements under various time buckets, maturity profile as suggested by RBI/NHB is used and the cumulative deficits in each time bucket is monitored vis-a-vis. the pre-determined tolerance levels. The funding requirement and deployment of surplus funds are monitored regularly. In addition to the above, we adhere to the guidelines on Liquidity Coverage Ratio (LCR), which stood at 187.60% as on March 31st, 2026 as against the regulatory prescription of 100%.

(V) Solvency risk is mitigated by keeping liquid investments

To mitigate solvency risk, the Company has an investment policy in place. The idea is to create and maintain an emergency buffer to be used in the unlikely event that things go out of hand. During the year ending March 2026, the Company made multiple investments in short-term fixed deposits with Banks, Government securities and Liquid Mutual Funds. The value of short-term investments at the end of the year was Rs.210.29 crores. In addition, the Company had a bank balance to the tune of Rs.97.01 crores. The total liquidity was about 1.88% of the balance sheet size as of March 31st, 2026.

8. BORROWING PROFILE

The Company has funding sources spread across three verticals viz. refinance from NHB, term loans and working capital loan facilities from Repco Bank and other banks. The Company has also issued Non-Convertible Debentures (NCDs), Commercial Papers (CPs) and Pass - Through Certificates (PTC) during the year.

As of March 31st, 2026, 85.5% of the Company's borrowings were by way of borrowings from Commercial Banks, 6.2% by way of refinancing from the National Housing Bank (NHB), 5.4% from Repco Bank, 1.2% by way of Commercial Papers, 1% from Non-Convertible Debentures and 0.7% from Securitization - PTC

As of March 31, 2026, 1.31% of overall borrowings were on a fixed rate basis and 98.69% on floating rate basis. The average tenor on borrowing was 8.4 years.

9. CREDIT RATING

The Company's short-term and long-term debt facilities are rated by two rating agencies – CareEdge Ratings & ICRA Limited.

The long-term facilities include both Company's term loan facilities with banks and other financial institutions.

The Company's Non-Convertible Debentures facility is rated AA- (Stable) rating by ICRA Limited. The Company has also issued Pass – Through Certificates in FY26 with senior tranche pool rating of AAA (SO).

During the year FY2025-26, rating agencies ICRA Limited & CareEdge Ratings reaffirmed AA- (Stable) rating assigned to Company's term loan facilities and A1+ rating assigned to Company's Commercial Paper facility.

10. CAPITAL ADEQUACY

RHFL's Capital Adequacy Ratio (CAR) as of March 31st, 2026, was 36.66% consisting of Tier-1 capital of 36.23% & Tier-2 capital of 0.43%.

11. ASSET QUALITY

Over the years, the Company has developed robust risk management systems & processes in all areas of operations like loan origination, credit appraisal, loan disbursement, and collection & recovery. The new Loan Lifecycle Management System (LLMS) software introduced during the year also facilitates improving our monitoring mechanism.

The Company was successful in bringing down its Gross- Non-performing Assets (GNPA) numbers significantly. Delinquency of a few accounts is unavoidable considering the Company's exposure to unorganized sector. To strengthen its provision coverage for any unexpected credit losses in its stage 3 accounts,

the Company has retained most of the provisions released due to recoveries made during the year. NPAs (Stage-3) has decreased to 2.55% (Rs. 405.25 crores excluding Interest Accrued) of the overall loan book as of March 31st, 2026, compared to 3.26% (Rs. 472.91 crores excluding interest accrued) in the previous year.

The Provision Coverage Ratio on Stage-3 assets stood at about 54.9 % (Excluding accrued interest) as of March 31st, 2026. About 98.5% of the loans in Stage-3 were under various stages of SARFAESI as of March 31st, 2026.

12. INVESTMENTS

Repco Micro Finance Limited (RMFL) was incorporated in 2007 as Repco MSME Development & Finance Ltd. and registered as an NBFC with the Reserve Bank of India in 2010. Later, it was classified as an NBFC-MFI in December 2013. The company is promoted by Repatriates Cooperative Finance & Development Bank Ltd. (Repco Bank), which is a Government of India enterprise. RMFL is engaged in the activity of extending loans to economically backward women through the Women Self-Help Group for income generation purposes. The main objective of the company is to assist poor women in their upliftment by promoting entrepreneurship and providing microcredit and finance in different loan cycles at reasonable rates of interest. Upscaling the underprivileged through financial inclusion and the creation of first-generation entrepreneurs'.

The Company held investments in the equity of this unlisted associate Company, RMFL, to the extent of Rs. 31.6 crores (3,16,00,000 equity shares of Rs.10/- each) as of March 31st, 2026. During FY2025-26, we have received Rs. 3.79 Crore in the form of dividend from Repco Micro Finance Limited.

13. OPERATIONAL HIGHLIGHTS & PERFORMANCE SUMMARY

The Company ended the year with a resilient balance sheet, higher provision cover, and strong capital levels. The Company's primary business is housing finance. All other activities of the Company revolve around the main business.

During the year, the Company remained focused on preserving the quality of the balance sheet. Business performance in the last quarter was meaningfully better as the consumer confidence of our target group started showing an improvement. The values of FY25 are restated because of deferred tax liability on special reserve reversal and impact of implementation of daily interest rest method as advised by NHB.

14. INTERNAL AUDIT & CONTROL

The Company has put in place organized and effective internal control systems in sync with nature of business and scale of operations. The Company has implemented "Risk based Internal Audit" methodology as per guidelines specified by Reserve Bank of India (RBI).

Risk Based Internal Audit (RBIA) is an internal audit methodology which is primarily focused on assessing the inherent risk involved in the activities or system and provide assurance to the management that risk is being managed within the defined risk appetite level.

RBIA team was further strengthened to intensify the thrust on evaluation of branches and department/process to ensure that the functioning is in consonance with carefully formulated and well documented policies of the Company, in order to plug loopholes and improve customer service.

Details of the audit report of Branch Audit, Concurrent Audit and Departmental Audit are placed before Audit Committee of the Board on a quarterly basis for review. The report of standalone Information Security (IS) audit of IT systems by external IT auditors and special audit for evaluating the efficiency and effectiveness of existing internal control system are reviewed by Audit Committee as well as IT strategy committee periodically. The operation and performance of Audit department are reviewed by Audit Committee of the Board.

Evaluation of the effectiveness and appropriateness of Internal Control systems and their compliance, the robustness of internal processes, policies, accounting procedures, and compliance with laws and regulations are the goals of these efforts. Stringent policies are in place to ensure that the assets and properties of the Company are utilized in the best interest.

15. INFORMATION TECHNOLOGY

Technology & Digital Transformation

During FY26, the Company continued to make substantial progress in its digital transformation journey, with a strong emphasis on operational efficiency, risk management, and technology-driven governance.

Out of 19 applications envisaged under the phased digital transformation program (Phase I – 8 and Phase II – 11), 18 applications have been successfully deployed and are operational. During FY 2025–26, the Company implemented seven critical systems, including the Human Resource Management System (HRMS), Audit Management System, Treasury Management System, Customer Portal, Fixed Asset System (covering Accounts Receivable, Accounts Payable, and Procure-to-Pay), Enterprise Data Warehouse (EDW), and Expected Credit Loss (ECL) framework. These implementations have significantly enhanced process automation, data availability, and decision-making capabilities across functions.

The Company has also progressed with in-house development initiatives, including the phased rollout of Re-KYC and Anti-Money Laundering (AML) solutions. These initiatives are expected to further strengthen regulatory compliance, improve customer lifecycle management, and enhance risk monitoring

mechanisms.

Information Security & IT Infrastructure

The Company has undertaken several initiatives to strengthen its cybersecurity posture and IT infrastructure resilience.

Privileged Access Management (PAM) solution has been implemented to enforce robust access controls across critical systems. The deployment of multi-factor authentication has enhanced security around privileged accounts and reduced the risk of unauthorized access.

In the area of email security, the implementation of Domain-based Message Authentication, Reporting and Conformance (DMARC) has improved protection against phishing and spoofing attacks, while also providing enhanced visibility into email communication channels.

To ensure data integrity and business continuity, a comprehensive backup and recovery framework has been established through the deployment of an enterprise-grade backup solution. This has strengthened the Company's ability to efficiently manage backup and restoration of databases and virtual environments, thereby improving disaster recovery preparedness.

Further, a Data Loss Prevention (DLP) solution has been implemented to safeguard sensitive information. The system enables data classification at the user level and enhances monitoring and control over data movement, thereby reinforcing the Company's data security and compliance framework.

16. HUMAN RESOURCES

To achieve its long-term goals, the Company thinks that recruiting, developing, and keeping a quality team is essential. In order to do this, the Company gives staff members the internal and external training they need, to stay current on industry benchmark practices in the home finance sector. 565 employees took part in 46 training programs during the course of the year.

The Organization has created jobs that are efficient, meaningful, and engaging through the use of strategic job design (KRA and KPI), extending career paths, manageable skill sets, and internal talent pools to establish long-term talent access. Because of the ever-changing nature of the sector, the Company actively responds to employee needs, embraces flexible work arrangements, and provides a professional work environment while upholding positive working relationships. Throughout the year, the Company hired 104 new staff members. As of March 31st, 2026, the Company had 1384 employees on its rolls.

Environmental, Social, and Governance (ESG):

As part of our unwavering commitment to driving positive societal impact, Repco Home Finance Limited (RHFL) continues to integrate Environmental, Social, and Governance (ESG) principles into every aspect of our operations. With the ever-growing global emphasis on sustainability, corporate responsibility, and transparency, RHFL remains dedicated to fulfilling our mission of empowering underserved communities through accessible housing finance while simultaneously enhancing social welfare.

Environmental Responsibility

While our core business of home financing does not directly impact environmental resources, we recognize the significance of sustainable practices in every sphere of our operations. RHFL through Green Home Loan Scheme encourages homebuyers to invest in energy-efficient, eco-friendly housing solutions, thereby contributing to long-term environmental sustainability. Additionally, our operational practices continue to focus on minimizing our carbon footprint, reducing waste, and promoting responsible resource consumption in our offices and facilities.

Social Impact

At RHFL, our focus on financial inclusion is central to our social responsibility. We remain steadfast in providing access to home financing for individuals in Economically Weaker Sections (EWS) and Low Income Groups (LIG), including those with limited or no access to formal financial services. In addition to offering affordable home loans, we guide our customers through the complexities of insurance options, government subsidies, and

financial literacy to ensure their long-term security. Furthermore, our holistic approach extends to specialized support for elderly individuals, people with disabilities, and illiterate clients, ensuring they receive personalized care and attention.

Our corporate social responsibility (CSR) projects reflect our commitment to building stronger communities. In FY 2025-26, RHFL supported a wide range of initiatives in areas such as healthcare, education, rural development, etc. Our CSR initiatives reached vulnerable groups, underscoring our focus on inclusive development.

Governance Practices

Transparency, integrity, and accountability are at the heart of RHFL's governance framework. We adhere to robust corporate governance policies, ensuring that our business operations are conducted in compliance with international standards. Our commitment to ethical conduct is reflected in our vigilant whistleblower policies and our zero-tolerance approach towards discrimination, harassment, and unethical behaviour. We also continue to promote gender equality, diversity, and inclusion within our workforce, ensuring equal opportunity for all employees and contractors. Our Board and leadership maintain a strong focus on long-term value creation, ensuring that our ESG goals are seamlessly integrated into our business strategy.

We are proud of the progress we have made thus far, but we understand that the journey toward greater sustainability and inclusivity is ongoing. As we move forward, RHFL remains committed to expanding our ESG efforts, working hand-in-hand with our stakeholders to build a more equitable and sustainable future.

Customer-Friendly Initiatives

The practices followed by the Company are transparent, fair and impartial for the clients, customers, borrowers in all branches across the country.

ANNEXURE - 1 TO DIRECTORS' REPORT

DIVIDEND DISTRIBUTION POLICY

SCOPE AND PURPOSE

The Securities and Exchange Board of India (SEBI) on July 8, 2016 has notified the SEBI (Listing Obligations and Disclosure Requirements) (Second Amendment) Regulations, 2016 (Regulations). Vide these Regulations, SEBI has inserted Regulation 43A after Regulation 43 of SEBI (LODR) Regulations, 2015, which requires the Company to frame and adopt a Dividend Distribution Policy, which shall be disclosed in its Annual Report and on its website. Accordingly, this Dividend Distribution Policy has been adopted by the Company.

KEY PARAMETERS TO BE CONSIDERED WHILE DECLARING THE DIVIDEND

(a) The circumstances under which the shareholders of the Company may or may not expect dividend:

1. Dividend shall be declared or paid only out of:
 - I. **Profit of the current period post:**
 - a) providing for depreciation as per law;
 - b) transfer to reserves as per Companies Act, 2013 and National Housing Bank Act, 1987 and Guidelines and the rules made thereunder, Income Tax Act, 1961 or in pursuance of any applicable statute.
 - II. **Profit of previous years**
 - a) after providing for depreciation as per law; and
 - b) out of the amount available for dividend after prescribed appropriations
 - III. **Combination of I or II**
2. The losses of previous years will be set off against the current year's or previous year's profit before declaring dividend.
3. The Board will avoid practice of declaration of dividend out of reserves.
4. The company shall comply with minimum prudential requirements like Capital Adequacy, Net NPA etc as prescribed for NBFCs by RBI from time to time to declare dividend.

(b) The following financial parameters shall be considered before declaration of dividend:

1. **Income and profitability parameters:**
 - I. Net Interest Income (NII)
 - II. Profit Before Tax (PBT) and Profit After Tax (PAT)
 - III. Return on Assets (RoA)
 - IV. Return on Equity (RoE)
 - V. Earnings Per Share (EPS)
 - VI. Profit growth targets and market expectations
2. **Capitalization level parameters:**
 - I. Net Owned Funds (NOF)
 - II. Capital Risk Adequacy Ratio (CRAR), tier I capital and tier II capital
 - III. Gross leverage and net leverage
3. **Portfolio quality parameters:**
 - I. Absolute values of gross NPA and net NPA
 - II. Gross NPA and net NPA as percentage of loan assets
 - III. Provisioning levels and provision coverage
 - IV. Change in regulatory provisioning requirements
 - V. Outlook on portfolio quality
4. **Board Oversight:**
 - I. Supervisory findings of the Reserve Bank (National Housing Bank (NHB) for HFCs) on divergence in classification and provisioning for Non-Performing Assets
 - II. Qualifications in the Auditors' Report to the financial statements; and
 - III. Long term growth plans of the company

(c) Internal and external factors that shall be considered for declaration of dividend;

1. The Board and Management may decide to utilize its profit for
 - I. Business growth
 - II. Capital expenditure
 - III. Inorganic growth

IV. Provision of contingency fund

V. Acquisition of technology

2. The level of competition and the prospects of growth for the sector may require the Company to buffer up Capital to enhance operational efficiency.
3. The ability of the Company to raise funds in cost effective manner coupled with the liquidity scenario may also occasion ploughing back of profits.
4. The Company is exposed to operational, environmental, regulatory, and legal risks. Possible adverse impact from these risks notwithstanding risk migration by the Company can have a bearing on dividend payout.

(d) Quantum of Dividend Payable

If the company is eligible to declare dividend, may pay dividend, subject to the following:

- (i) The Dividend Payout Ratio is the ratio between the amount of the dividend payable in a year and the net profit as per the audited financial statements for the financial year for which the dividend is proposed.
- (ii) Proposed dividend shall include both dividend on equity shares and compulsorily convertible preference shares eligible for inclusion in Tier 1 Capital.
- (iii) In case the net profit for the relevant period includes any exceptional and/or extra-ordinary profits/ income or the financial statements are qualified (including 'emphasis of matter') by the statutory auditor that indicates an overstatement of net profit, the same shall be reduced from net profits while determining the Dividend Payout Ratio.
- (iv) The ceilings on dividend payout ratios for the company shall be 50% or as may be revised by RBI from time to time.

(e) Policy as to how the retained earnings shall be utilized:

The retained earnings will be utilized for the main objects of the Company.

(f) Parameters that shall be adopted with regard to various classes of share

The Company only has one class of equity share and there are no shares with differential rights as to either voting or dividend

(g) If the company does not meet the applicable prudential requirement prescribed for each of the last three financial years, may be eligible to declare dividend, subject to the cap and conditions as prescribed below:

- (i) Meets the applicable capital adequacy requirement in the financial year for which it proposes to pay dividend; and
- (ii) Has net NPA of less than 4 per cent as at the close of the financial year.

Rules

This policy aims to create a strategic overview for the functioning of the company and wherever required the Managing Director & CEO is authorized to frame rules for the effective implementation of this policy.

Review

This policy shall be reviewed from time to time based on the business, operational or regulatory requirements of the company but not later than the 3 year from the date of the Board's approval. In case of any inconsistency between the policy and the applicable regulatory provision, the regulatory provision shall prevail.

- e) Such omnibus approvals granted by the shareholders for material related party transactions in an annual general meeting shall be valid till the date of the next annual general

meeting held within the timelines prescribed under Section 96 of the Companies Act, 2013 or rules, notifications, or circulars issued thereunder from time to time. Provided further that in case of omnibus approvals for material related party transactions, granted by shareholders in general meetings other than annual general meeting, the validity of such omnibus approvals shall not exceed one year from the date of such approval.

4.1 Identification of Potential Related Party Transactions

Each director and Key Managerial Personnel is responsible for providing notice to the Board or Audit Committee of any potential Related Party Transaction involving him or her or his or her Relative, including any additional information about the transaction that the Board/Audit Committee may reasonably request. Board/Audit Committee will determine whether the transaction does, in fact, constitute a Related Party Transaction requiring compliance with this policy.

The Company strongly prefers to receive such notice of any potential Related Party Transaction well in advance so that the Audit Committee/Board has adequate time to obtain and review information about the proposed transaction.

4.2 Prohibitions related to Related Party Transactions

All Related Party Transactions and subsequent material modifications will require prior approval of Audit Committee.

Further, all Material Related Party Transactions and subsequent material modifications shall require prior approval of the shareholders through resolution and no related party shall vote to approve such resolutions whether the entity is a related party to the particular transaction or not

4.3 Review and Approval of Related Party Transactions

Prior approval of the Audit Committee shall be taken in all related party transactions and subsequent material modifications thereof and only those members of the audit committee, who are independent directors, shall approve related party transactions. Any member of the Committee who has a potential interest in any Related Party Transaction will recuse himself or herself and abstain from discussion and voting on the approval of the Related Party Transaction.

- (a) A related party transaction above Rs.1 Crore, whether entered into individually or taken together with previous transactions during a financial year, to which the subsidiary of the Company is a party but the Company is not a party, shall require prior approval of the audit committee of the Company if the value of such transaction, exceeds the lower of the following:
 - (i) 10% of the annual standalone turnover of the subsidiary as per the last audited financial

statements of the subsidiary; or

- (ii) the threshold for material related party transactions of listed entity as specified in Schedule XII of SEBI (LODR) Regulations.

- (b) In the event of a related party transaction above Rs.1 Crore, whether entered into individually or taken together with previous transactions during a financial year, to which the subsidiary of a Company is a party but the Company is not a party and such subsidiary does not have audited financial statements for a period of at least one year, prior approval of the audit committee of the listed entity shall be obtained if the value of such transaction exceeds the lower of the following:

- (i) 10% of the aggregate value of paid-up share capital and securities premium account of the subsidiary; or
- (ii) the threshold for material related party transactions of listed entity as specified in Schedule XII of SEBI (LODR) regulations:

Provided that the aggregate value of paid-up share capital and securities premium account of the subsidiary shall be taken as on a date, not older than three months prior to the date of seeking approval of the audit committee.

- (c) Prior approval of the audit committee of the Company shall not be required for a related party transaction to which the listed subsidiary is a party, but the Company is not a party, if regulation 23 and sub-regulation (2) of regulation 15 of SEBI (LODR) regulations are applicable to such listed subsidiary. For related party transactions of unlisted subsidiaries of a listed subsidiary as referred to in (c), the prior approval of the audit committee of the listed subsidiary shall suffice.

Prior approval of the audit committee of the company shall not be required:

- Remuneration and sitting fees paid by the Company or its subsidiary to its director, key managerial personnel or senior management, except who is part of promoter or promoter group, shall not require approval of the audit committee provided that the same is not material in terms of the provisions of sub-regulation (1) of SEBI LODR regulation.
- Transactions which are in the nature of payment of statutory dues, statutory fees or statutory charges entered into between an entity on one hand and the Central Government or any State Government or any combination thereof on the other hand.

To approve a Related Party Transaction, the Committee will be provided with all relevant material information

of the Related Party Transaction as per Companies Act, 2013, SEBI LODR Regulations, including the information pursuant to the RPT Industry Standards on "Minimum information to be provided for Review of the Audit Committee and Shareholders for Approval of Related Party Transaction (RPT)" and circulars issued by SEBI and/or any other regulatory guidelines as amended from time to time. In determining whether to approve a Related Party Transaction, the Committee will consider the following factors, among others, to the extent relevant to the Related Party Transaction:

- Whether the terms of the Related Party Transaction are fair and on arm's length basis to the Company and would apply on the same basis if the transaction did not involve a Related Party;
- Whether there are any compelling business reasons for the Company to enter into the Related Party Transaction and the nature of alternative transactions, if any;
- Whether the Related Party Transaction would affect the independence of an independent director;
- Whether the proposed transaction includes any potential reputational risk issues that may arise as a result of or in connection with the proposed transaction; and
- Whether the Related Party Transaction would present an improper conflict of interest for any director or Key Managerial Personnel of the Company, taking into account the size of the transaction, the overall financial position of the director, Executive Officer or other Related Party, the direct or indirect nature of the director's, Key Managerial Personnel's or other Related Party's interest in the transaction and the ongoing nature of any proposed relationship and any other factors the Board/ Committee deems relevant.

If the Committee determines that a Related Party Transaction should be brought before the Board, or if the Board in any case elects to review any such matter or it is mandatory under any law for Board to approve the Related Party Transaction, then the considerations set forth above will apply to the Board's review and approval of the matter, with such modification as may be necessary or appropriate under the circumstances.

Notwithstanding the foregoing, the following Related Party Transactions will not require approval of Audit Committee or Shareholders:

- i. Any transaction that involves the providing of compensation to a director or Key Managerial Personnel in connection with his or her duties to the Company or any of its subsidiaries or associates, including the reimbursement of reasonable business and travel expenses incurred in the ordinary course of business.

- ii. Any transaction in which the Related Party's interest arises solely from ownership of securities issued by the Company and all holders of such securities receive the same benefits pro rata as the Related Party.

5. Related Party Transactions not approved under this Policy

The members of the Audit Committee, who are independent directors, may ratify related party transactions within three months from the date of the transaction or in the immediate next meeting of the audit committee, whichever is earlier, subject to the following conditions:

- (i) the value of the ratified transaction(s) with a related party, whether entered into individually or taken together, during a financial year shall not exceed rupees one crore;
- (ii) the transaction is not material
- (iii) rationale for inability to seek prior approval for the transaction shall be placed before the audit committee at the time of seeking ratification;
- (iv) the details of ratification shall be disclosed along with the disclosures of related party transactions in terms of the provisions of regulation 23(9)
- (v) any other condition as specified by the audit committee

Provided that failure to seek ratification of the audit committee shall render the transaction voidable at the option of the audit committee and if the transaction is with a related party to any director, or is authorised by any other director, the director(s) concerned shall indemnify the listed entity against any loss incurred by it.

6. Reporting

All Related Party Transactions are to be disclosed in the Company's applicable returns/ report/ website as required under the Companies Act, 2013 and SEBI Regulations.

7. Rules

This policy aims to create a strategic overview for the functioning of the company and wherever required the Managing Director & CEO is authorized to frame rules for the effective implementation of this policy.

8. Review of policy

This policy shall be reviewed from time to time based on the business, operational or regulatory requirements of the company but not later than 3 years from the date of the Board's approval. In case of any inconsistency between the policy and the applicable regulatory provision, the regulatory provision shall prevail.

ANNEXURE-8 TO DIRECTORS' REPORT

26. Overview of the entity's material responsible business conduct issues

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Financial Inclusion	Opportunity and Risk	Opportunity: The real estate sector, a key driver of economic growth, has demonstrated strong momentum across both residential and commercial segments. India's housing finance market remains significantly underpenetrated, particularly in semi-urban and rural areas, presenting substantial growth opportunities. Policy and regulatory initiatives by the Government of India, such as PMAY, interest subsidy schemes, and GST reforms, along with increasing urbanization and supportive interest rate measures by the RBI, have led to a structural shift in demand within the real estate sector, especially in affordable housing. Risk: A significant portion of customers in the middle- and lower-income segments lack formally documented income streams, making cash flow assessment challenging. These borrowers are inherently more vulnerable to adverse economic conditions, changes in government policies, and external shocks such as natural calamities, which may impact their repayment capacity and increase credit risk.	RHFL is adopting higher customer due diligence and put in place strong underwriting process, risk management policies and procedures to assess the customers' willingness to pay and ability to pay at the pre-sanction level itself. RHFL has implemented stringent credit appraisal processes and highly conservative Loan to value ratio and Income to Instalment ratio in the credit sanctioning process which will avert quick mortality and result in lower delinquency. Moreover, the improved collection mechanism employed across all branches also helps in improving the collection efficiency in respect of self-employed and cash salary customers of the Company. RHFL follows systematic approach in identifying and mitigating the risk involved in Credit, Market and Operational Risk including outsourcing risks, and periodically reports to risk management committee. RHFL continues to leverage data and analytics capabilities to identify early signals of NPA trend formation through Cohort (Vintage Curve) analysis,	Positive: The home loan market size in India is currently valued at approximately ₹37 Trillion as of September 2025 as per NHB Report on Trend & Progress of Housing in India, 2025. The expected growth in home loan market for next 5 years as per Care Edge ratings is ₹70 Trillion with a CAGR of 15%, presenting significant opportunities for all types of financial institutions. Factors such as population growth, urbanization, increasing income, and government initiatives like PMAY and interest subsidies are driving the demand for home loans in the country. There is huge potential for the housing loan and mortgage loan market, especially in the self-employed and MSME customers in semi-urban and Rural areas. RHFL will use this opportunity to its benefit and penetrate into Semi Urban and Rural areas to improve its business further in the upcoming years.

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
				Migration matrix, key risk indicator (KRI) monitoring, etc.. The company also conducts periodic stress testing to assess the sustainability of its business, even during periods of financial stress. These insights support proactive risk management, enabling timely corrective actions and strengthening portfolio resilience	Negative: The exposure to Non-Documented segment may result in relatively higher credit costs and provisioning requirements during periods of economic stress or adverse external events.
2	Corporate governance	Opportunity	The Company follows strong corporate governance practices that ensure compliance with legal and regulatory requirements, robust internal control systems, thorough risk assessment, and timely, accurate disclosure of information. These practices promote accountability and transparency across the organization	Not applicable	Positive: An efficient corporate governance system ensures timely regulatory compliance, mitigating legal and compliance risks while reducing the likelihood of penalties.
3	Retention of human Capital	Opportunity	Retention of skilled and talented employees is critical to the Company's growth and success. High attrition poses a key risk to productivity and service quality, while also presenting an opportunity to strengthen HR practices. The Company has undertaken targeted initiatives to enhance employee engagement, improve satisfaction, and reduce attrition across all levels, thereby supporting overall organizational performance	Not applicable	Positive: Enhanced HR policies and processes are expected to positively impact the Company by improving employee satisfaction and productivity. The introduction of quality-driven training programs, facilitated by professional institutes, will help reduce attrition and associated replacement costs.

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
4	Data Security	Opportunity and Risk	Safeguarding customer data from cyberattacks, data security, and customer privacy is of utmost importance for the Company otherwise it may have major repercussions for customers and also for the Company which may result in non-compliance, financial risks, and reputational damage.	The Company has identified and assessed information security risks and strengthened data security by implementing data classification mechanisms and designating asset owners responsible for managing critical data assets. Additionally, the Company has enhanced its security posture through the implementation of Privileged Access Management (PAM) and Privileged Identity Management (PIM) solutions to protect critical infrastructure, strengthen accountability and monitoring, and ensure compliance with regulatory requirements. Further, the Company has implemented Data Loss Prevention (DLP) solutions and established a 24x7 Security Operations Centre (SOC) with Security Information and Event Management (SIEM) capabilities for continuous monitoring, threat detection, and incident response	Positive: Strengthening Governance, Risk, and Compliance (GRC) practices and investing in advanced information security solutions such as encryption mechanisms, Security Orchestration, Automation and Response (SOAR) and dark web monitoring have positive financial implications by reducing cyber security risks, minimizing the likelihood of data breaches, avoiding regulatory penalties, and protecting the Company from operational and reputational losses. Negative: Inadequate management of information security risks may result in negative financial implications arising from cyber incidents, data leakage, regulatory actions, legal liabilities, operational downtime, and loss of business opportunities.
5	Enhancement in Digitization	Opportunity and Risk	Opportunity: The Company has implemented digitization through the adoption of new software covering the entire loan process cycle, from lead generation to loan closure, along with a mobile application for customer onboarding. Digitization across all functions of the	The Company has embarked on its digitization journey by implementing robust firewalls, data encryption mechanisms, and other security measures across its digital platforms. In addition, periodic Information Security (IS) audits, Vulnerability Assessments, and Penetration Testing	Positive: Engaging the customer digitally will enhance customer satisfaction and also increase the productivity of the branches. The lending software enables credit appraisal more user-friendly and the automation of various verification processes in

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)

Risk: Ensuring data security and customer privacy is critical to protecting customer information from cyber-attacks and data breaches.	(VAPT) have been completed for all applications. VAPT for the infrastructure is currently in progress and is nearing completion. Further the Company has undertaken several initiatives to strengthen its cybersecurity posture and IT infrastructure resilience. In the area of email security, the implementation of Domain-based Message Authentication, Reporting and Conformance (DMARC) has improved protection against phishing and spoofing attacks, while also providing enhanced visibility into email communication channels. To ensure data integrity and business continuity, a comprehensive backup and recovery framework has been established through the deployment of an enterprise-grade backup solution. This has strengthened the Company's ability to efficiently manage backup and restoration of databases and virtual environments, thereby improving disaster recovery preparedness.	this software helps in a safe and faster lending process. The data storage is more secure and user-friendly MIS helps in quick decision-making. Negative: Frequent disruptions and server/ software downtime will adversely impact the quality of service and in productivity of branches. Putting in place high- end data base management and maintenance systems involves huge costs. Any customer data leakage, data compromise in the various third-party vendor systems forming part of our lending software, and the resultant reputational damage and cost involved in legal fees and regulatory penalties.
6	Customer Experience	Risk and Opportunity	RHFL is dedicated to providing a wide range of financial products, with a strong focus on the housing finance sector, catering to customers across all income segments. In this customer-driven industry, the quality of customer experience is a critical determinant of success.	The Company emphasizes ethical conduct, courteous interactions, and responsible business practices while dealing with customers. All customer complaints and dissatisfaction are addressed promptly and with due care to ensure timely resolution and improved service experience.	Positive: Positive customer experience fosters satisfaction, builds trust, and enhances the Company's image as a responsible and customer-centric financial institution. By focusing on improving service delivery, responsiveness, and transparency, RHFL can strengthen customer loyalty, encourage repeat business, and benefit from

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
			Every touchpoint whether during loan application, disbursement, repayment, or service support plays a significant role in shaping the customer's perception of the Company. An undesirable or inconsistent customer experience can lead to, erosion of customer trust. This not only damages the Company's reputation but may also result in a loss of customers, thereby directly impacting business performance and growth		word-of-mouth referrals. These improvements not only reinforce the Company's reputation but also serve as a competitive advantage in the housing finance sector, driving sustainable business growth. Negative: Poor customer experience - such as delays, lack of transparency, or ineffective communication-can result in dissatisfaction and loss of trust. This may lead to customer attrition, reputational damage, and reduced market presence. Over time, it can adversely impact revenue, customer retention, and growth prospects.
7	Corporate Social Responsibility (CSR)	Opportunity	CSR as a vital component of its long-term commitment to inclusive and sustainable development. The Company recognizes that business success is not solely measured by financial performance, but also by the positive social impact it creates. In line with this vision, the Company has embraced CSR as a strategic tool to address critical social and environmental issues. During the year, the Company contributed to various CSR programs, with a focus on Preventive Health Care, Promoting Education, Rural Development, and other sectors.	Not applicable	Positive: Company's CSR initiatives reflect its deep-rooted belief in the importance of human development, social equity, and environmental stewardship as core pillars of responsible business. It considers these efforts not as philanthropic acts alone, but as investments in the long-term well-being of the communities it serves. This proactive approach positions Opportunity Company as a socially responsible corporate citizen that contributes meaningfully to national development goals, while fostering trust and goodwill among stakeholders.

Customer Service & Grievance Redressal Mechanism – Key Highlights

The Company has a clearly defined and easily accessible mechanism for dealing with and redressal of customer complaints and grievances through proper service delivery and review mechanism.

a. Escalation

If customers have any grievances, they have the option to contact their home branch for a prompt resolution. In the event, the branch is unable to address the grievance satisfactorily or if the customer remains dissatisfied with the resolution provided, they can submit their grievance through the following modes:

- E-mail to a dedicated email Id: grievance@repcohome.com
- By contacting the Customer Services Department functioning at the Corporate office, Chennai via telephone, or
- Submit their grievances by post to the Customer Services Department. The grievance should be addressed to the Grievance Redressal Officer, Repco Home Finance Limited, Corporate office located at the Third floor, Alexander Square, Old No. 34 & 35, No. 2, Sardar Patel Road, Guindy, Chennai – 600032. Contact details for the Grievance Redressal Department are available on the website of the Company <https://www.repcohome.com>

In addition to receiving grievances directly from customers, the Company also addresses grievances received through various regulatory/supervisory bodies including NHB (GRIDS), Public Grievance portal (CPGRAMS), Reserve Bank of India, Ministry of Corporate Affairs and other Ministries/Regulatory Bodies. Our Customer Services department, located at our Corporate Office, is entrusted with the responsibility of handling these grievances

b. Assignment of Complaints & Redressal

Based on the nature of the grievance, specific timelines have been established for different categories to ensure timely and appropriate resolution. The Company is committed to addressing grievances in a proper and time-bound manner, providing customers with detailed guidance throughout the process.

To effectively handle customer grievances, the Company has implemented an escalation mechanism/matrix. The Company prominently displays at each branch including the corporate office as well as on its website <https://www.repcohome.com>, the escalation process for customer grievances along with contact details.

In the event of any anticipated delays beyond the stated timelines, the customer is informed by the Company. The final response/redressal is sent within one month (30 days) from the date of receipt of the complaint. In case of any further delay, the Company explains to the customer, the reason for needing more time, ensuring that the grievance is addressed within a maximum period of six weeks from the receipt of the complaint.

c. Monitoring & Analyzing Complaints

The Company maintains a systematic procedure for internal review and monitoring, which includes conducting root cause analysis of customer grievances across various levels within the organization. This process aims to improve the quality and effectiveness of customer service. The Managing Director & CEO of the Company reviews the grievance redressal process on a monthly basis. The status of complaints, along with their nature, is presented to the Board on a Half-yearly basis. This ensures transparency and accountability in addressing customer grievances.

Standalone Financial Statement 2025-26

INDEPENDENT AUDITOR'S REPORT

To the Members of Repco Home Finance Limited,

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of Repco Home Finance Limited (the "Company"), which comprise the Standalone Balance Sheet as at March 31, 2026, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and Standalone Statement of Cash flows for the year then ended and notes to the Standalone Financial Statements, including material accounting policies and other explanatory information (hereinafter referred to as the "Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2026, and its profit including Other Comprehensive Income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements Section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have

obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

Emphasis of Matter

We draw attention to following matters in financial statements:

1. As described in Note 52.8 (i) to the standalone financial statements, regarding non-recognition of Deferred Tax Liability on Special Reserve created and maintained under Section 36(1)(viii) of the Income tax act and de-recognition of Deferred Tax Liability recognised till December 31, 2025. As stated in the said note, the accounting treatment has been adopted by the company based on the Board approved position of continued maintenance of such special reserve, management assessment under Ind AS 12 and the practice followed by similarly placed institutions.
2. As described in Note 52.8 (ii) to the standalone financial statement, taking into consideration the advisory received from National Housing Bank, the company has reversed interest charged on loans during the FY 2024-25 amounting to ₹9.66 Crores through the Statement of Profit and loss of previous financial year 2024-25, in accordance with Ind AS 8 "Accounting policies, Changes in accounting estimates and errors".

Our opinion on the Statement is not modified in respect of the above matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the year ended March 31, 2026. This matter was addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter. We have determined the matter described below to be the key audit matter to be communicated in our report.

Key Audit Matter	How our audit addressed the key audit matter
Impairment on Financial Instruments based on Expected Credit Loss (ECL) method – (Refer Note 3 for material accounting policies and Note 7 for financial disclosures in the accompanying standalone financial statements) (Impairment loss allowance on loans). As at March 31, 2026, the Company reported gross loans of ₹ 15,940.11 Crores against which provision for expected credit loss of ₹340.14 Crores has been recorded in accordance with Ind AS 109 – Financial Instruments. Ind AS 109, Financial Instruments, requires the Company to provide for impairment of its financial assets (designated at amortised cost) as at the reporting date using the expected credit loss (ECL) approach in line with the board approved policy ECL involves an estimation of probability-weighted loss on financial instruments over their life, considering reasonable and supportable information about past events, current conditions, and forecasts of future economic conditions which could impact the credit quality of the Company's financial assets (loan portfolio). In the process, a significant degree of estimation and judgement has been applied by the management for: • Staging of financial assets to Stage 1, 2, or 3 (i.e. classification in 'significant increase in credit risk' ("SICR") and 'default' categories); • Grouping of the loan portfolio under homogenous pools in order to determine probability of default on a collective basis; • Determining effect of less frequent past events on future probability of default; • Estimation of management overlay, for macroeconomic factors which could impact the credit quality of the loans. • Compliance with RBI circulars and assess the level of credit impairment of financial instrument. • Disclosures as required by IND AS 109 and RBI Circular. In view of the high degree of management's judgement involved in estimation of ECL and the overall significance of the impairment loss allowance to the financial statements, it is considered as a key audit matter.	Our audit procedures included but were not limited to the following: Read and assessed the Company's accounting policies approved by the Board of Directors with respect to impairment of financial instruments considering the requirement of Ind AS 109 and applicable Reserve Bank of India guidelines/ regulations. We evaluated the implementation of relevant regulatory guidelines and pronouncements and tested the same on sample basis. We evaluated the management estimates by understanding the process of ECL estimation and related assumptions and tested the design and operating effectiveness of controls around data extraction, validation and computation. We assessed the criteria for staging of loans based on their past due status as per the requirements of Ind AS 109. Tested a sample of performing loans to assess whether any SICR or loss indicators were present requiring them to be classified under higher stages. We tested the assumptions used by the Company for grouping and staging of loan portfolio into various categories and default buckets for determining the probability of default (PD) and loss given default (LGD) rates. Tested the input data used for determining the PD and LGD rates and agreed the data with the underlying books of accounts and records. For provision of expected credit loss (ECL) against outstanding exposure classified across various stages, we obtained an understanding of the Company's ECL methodology (including factors that affect the probability of default, loss given defaults and exposure at default; various forward looking, micro-and macro-economic factors), the underlying assumptions and the sufficiency of the data used by management and tested the same on sample basis. We performed tests of controls and test of details on a sample basis in respect of the staging of outstanding exposure, and other relevant data used in impairment computation prepared by management as compared to the Company's policy. We enquired the management regarding significant judgments, estimates involved in the impairment computation, and evaluated the reasonableness thereof. We tested the arithmetical accuracy of computation of ECL provision including the management overlay computed by the Company.

Information other than the Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the "Management Discussion and Analysis FY 2025-26", which we obtained prior to the date of this auditor's report and the other information included in the Annual report (but does not include the standalone financial statements and our Auditor's Reports thereon), which is expected to be made available to us after that date.

Our Opinion on the Standalone Financial Statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the other information in the annual report, other than "Management Discussion and Analysis FY 2025-26" which we obtained prior to the date of this auditor's report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and we shall:

- (i) If the material misstatement is corrected, perform necessary procedure to ensure the correction; or
- (ii) If the material misstatement is not corrected after communicating the matter to those charged with governance, take appropriate action considering our legal rights and obligations, to seek to have the uncorrected material misstatement appropriately brought to the attention of users for whom this Auditor's Report is prepared.

Management's and Board of Director's Responsibility for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS)

specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management and Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate

in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate Internal Financial Controls with reference to the Standalone Financial Statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and the Board of Directors.
- Conclude on the appropriateness of the Management's and Board of Directors' use of the going concern basis of accounting in preparation of financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast a significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our Auditors Report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

The comparative financial statements of the company as at April 01, 2024 (except the restatement of deferred tax liability and other equity of the Company amounting to ₹183.56 Crores as at April 01, 2024 as stated in note 52 of the standalone financial statements) included in these financial statement, were audited by the predecessor auditor, who have expressed an unmodified opinion on those standalone financial statements vide their audit report dated May 14, 2024. Our opinion above on the standalone financial statements is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, based on our audit, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid Standalone Financial Statements have been kept by the Company so far as it appears from our examination of those books.
 - c. The Standalone Balance Sheet, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.
 - e. On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f. With respect to the adequacy of the internal financial controls with reference to the standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. There are no litigations pending as on the date of the Standalone Financial Statements that have material impact on the Standalone Financial Statements other than those disclosed in the Standalone Financials Statements. Refer Note No.43.1 to the Standalone Financial Statements.
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv. A) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- B) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- C) Based on the audit procedures that has been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b)

above, contain any material misstatement.

- v. The interim dividend declared and paid by the Company during the year and until the date of this audit report is in accordance with Section 123 of the Act.

The final dividend paid by the Company during the year, in respect of the same declared for the previous year is in accordance with Section 123 of the Act to the extent it applies to payment of dividend.

As stated in Note 45 to the Standalone Financial Statements, the Board of Directors of the Company has proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with Section 123 of the Act to the extent it applies to declaration of dividend.

- vi. Based on our examination which included test checks, the Company has used such accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software.

Further, during the course of the audit, based on the test-checks performed, we did not come across any instance of audit trail feature being tampered with in respect of the accounting software and such audit trail has been preserved by the Company as per the statutory requirements for record retention.

3. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended;

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid/provided by the Company to its Directors during the year was in compliance with provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT FOR THE YEAR ENDED MARCH 31, 2026

(Referred to in paragraph 1 under “Report on Other Legal and Regulatory Requirements” Section of our report to the Members of Repco Home Finance Limited of even date)

Based on the information and explanations provided by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that

(i)	(a)	A:	The Company has maintained proper records showing full particulars, including quantitative details and situation of the Property, Plant and Equipment (PPE).
		B:	The Company is maintaining proper records showing full particulars of intangible assets.
	(b)		The Company has a regular programme of physical verification of its PPE by which all PPE are verified every year. In our opinion the periodicity of such verification is reasonable having regard to the size of the Company and the nature of its assets. In our opinion, and according to the information and explanations given to us, no material discrepancies were noticed on such verification during the year.
	(c)		The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in the Standalone Financial Statements are held in the name of the Company.
	(d)		According to the information and explanations provided to us, the Company has not revalued any of its Property, Plant and Equipment (including Right-of-Use assets) or intangible assets or both during the year ended March 31, 2026.
	(e)		According to the information and explanations provided to us, no proceedings have been initiated during the year or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
(ii)	(a)		According to the information and explanation provided to us and on the basis of our examination of the records of the Company, the Company's business does not involve inventories. Accordingly, Clause 3(ii)(a) of the Order is not applicable.
	(b)		According to the information and explanations provided to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, from banks or financial institutions on the basis of security of current assets of the Company. In our opinion, the differences between the quarterly returns or statements filed by the Company during the year ended March 31, 2026 with the bank or financial institutions and the books of accounts are not material.
(iii)			According to the information and explanations provided to us and on the basis of our examination of the records of the Company, during the year, the Company has not made any investment in, provided any guarantee or security or granted any loans or advances in the nature of loans (Secured or Unsecured) to Companies, Firms, Limited Liability Partnership or Joint Ventures and Associates. The Company has granted loans (Secured) to other parties and employees. The Company has also granted loans or advances in the nature of loans (unsecured) to employees. With respect to such loans and advances:
	(a)		The Company's principal business is to give loans and is a registered housing finance company. Accordingly, the requirement to report on clause 3(iii)(a) of the Order is not applicable to the Company.
	(b)		According to the information and explanations provided to us and on the basis of our examination of the records of the Company, the terms of loans, loans and advances in the nature of loans provided during the year are not prejudicial to the Company's interest.
	(c)		In respect of loans and advances in the nature of loans, granted by the Company as part of its business of providing housing finance and loans against property to individual customers and employees, the schedule of repayment of principal and payment of interest has been stipulated by the Company.

		Having regard to the voluminous nature of loan transactions, it is not practicable to furnish entity-wise details of amount, due date for repayment or receipt and the extent of delay in this report (as suggested in the Guidance Note on CARO 2020, issued by the Institute of Chartered Accountants of India for reporting under this clause), in respect of loans and advances which were not repaid / paid when they were due or were repaid / paid with a delay. Further for loans where there are delays or defaults in repayment of principal and / or payment of interest as at the balance sheet date, the summary of the same are disclosed by Management in Note 36.23 of Notes to Financial Statements.
	(d)	According to the information and explanations provided to us and on the basis of our examination of the records of the Company, the total amount overdue for more than ninety days, in respect of loans and advances in the nature of loans, as at the year-end is ₹508.92 crores. Reasonable steps are being taken by the Company for recovery of the principal and interest as stated in the applicable Regulations and loan agreements.
	(e)	The Company's principal business is to give loans and is a registered housing finance company. Accordingly, the requirement to report on clause 3(iii)(e) of the Order is not applicable to the Company.
	(f)	According to the information and explanations provided to us and on the basis of our examination of the records of the Company, during the year, the Company has not granted loans or advances in the nature of loans which are repayable on demand or without specifying any terms or period of repayment. Accordingly, reporting under Clause 3(iii)(f) of the Order is not applicable.
(iv)		According to the information and explanations provided to us and on the basis of our examination of the records of the Company, the Company has not made any investments, granted any loans or provided any guarantees or security to the parties covered under Section 185 and 186(1) of the Act (to the extent applicable) read with the Ministry of Corporate Affairs notification number G.S.R 463(E) dated June 5, 2015. ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT FOR THE YEAR ENDED MARCH 31, 2026

(Referred to in paragraph 2(f) under "Report on Other Legal and Regulatory Requirements" Section of our report to the Members of Repco Home Finance Limited of even date)

Report on the Internal Financial Controls with reference to Standalone Financial Statements under Section 143(3)(i) of the Companies Act, 2013 (the "Act")

Opinion

We have audited the internal financial controls with reference to Standalone Financial Statements of Repco Home Finance Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to Standalone Financial Statements and such internal financial controls with reference to Standalone Financial Statements were operating effectively as at March 31, 2026, based on the internal financial control with reference to Standalone Financial Statements criteria established by the Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI").

Management's and Board of Directors' Responsibility for Internal Financial Controls

The Company's Management and Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to Standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of

its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Standalone Financial Statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Standalone Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Standalone Financial Statements included obtaining an understanding of internal financial controls with reference to Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to Standalone Financial Statements.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control with reference to standalone financial statements includes those policies and procedures that:

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

- 3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Standalone Financial Statements to future periods are subject to the risk that the internal financial controls with reference to Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Material Accounting Policies and Notes forming part of the Standalone Financial Statements for the year ended March 31, 2026

1. Corporate information

Repco Home Finance Limited ("the Company" or "RHFL") is a housing finance company head quartered in Chennai, Tamil Nadu. Incorporated in April 2000, the Company is registered as a housing finance company with the National Housing Bank (NHB). The Company's equity shares are listed on National Stock Exchange of India Limited ("NSE") and BSE Limited ("BSE").

The Company is primarily engaged in the business of lending housing loans and loan against property to individual customers.

2. Basis of preparation and presentation

2.1 Statements of Compliance

The standalone financial statements ("financial statements") have been prepared in accordance with the Companies (Indian Accounting Standards) Rules, 2015 as per Section 133 of the Companies Act, 2013 and relevant amendment rules issued thereafter ("Ind AS") on the historical cost basis except for fair value through other comprehensive income (FVOCI) instruments, all of which have been measured at fair value as explained below, the relevant provisions of the Companies Act, 2013 (the "Act") and the guidelines issued by the National Housing Bank ("NHB") and Reserve Bank of India ("RBI") to the extent applicable.

2.2 Presentation of financial statements

The Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity are prepared and presented in the format prescribed in the Division III of Schedule III to the Act. The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows" whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, financing and investing activities of the Company are segregated. Cash and cash equivalents

(including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of Balance Sheet. The company presents its balance sheet in the order of liquidity. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note No. 50.3.

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in the normal course of business, event of default or insolvency or bankruptcy of the Company and/or its counterparties.

A historical cost is a measure of value used for accounting in which the price of an asset on the balance sheet is based on its historical cost, it is generally fair value of consideration given in exchange for goods and services at the time of transaction or original cost when acquired by the Company.

Fair value is the price that is likely to be received on sale of an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company considers the characteristics of the asset or liability that market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in the financial statements is determined on such a basis, leasing transactions that are within the scope of Ind AS 116 'Leases'

2.3 Functional and presentation currency

Amounts in the financial statements are presented in Indian Rupees in crores rounded off to two decimal

places as permitted by Division III of Schedule III to the Act except when otherwise indicated.

3. Material accounting policy Information

3.1 Financial instruments – initial recognition

3.1.1 Date of recognition

Financial assets and liabilities, with the exception of loans, debt securities and borrowings are initially recognised on the transaction date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. Loans are recognised on the date when funds are disbursed to the customer. The Company recognises debt securities and borrowings when funds are received by the Company.

3.1.2 Initial measurement of financial instruments

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair value, except in the case of financial assets and financial liabilities recorded at FVTPL, transaction costs are added to, or subtracted from, this amount.

3.1.3 Measurement categories of financial assets and liabilities

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either Amortised Cost, FVOCI or FVTPL.

Financial liabilities and other than loan commitments are measured at amortised cost or FVTPL when fair value designation is applied.

3.2 Financial assets and liabilities

3.2.1 Cash and cash equivalents

Cash and cash equivalents comprise of Cash in Hand, demand deposits with other banks/ financial institutions and Balances with Banks.

Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

3.2.2 Bank balances, Loans, Trade receivables and financial investments at amortized cost

The Company measures Bank balances, Loans, Trade receivables and other financial investments at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

The details of these conditions are outlined below.

3.2.2.1 Business model assessment

- The Company determines its business model at the level that best reflects how it manages Company of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed
- How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- The expected frequency, value and timing of sales are also important aspects of the Company's assessment

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from

the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

3.2.2.2 The SPPI (Sole payment of Principal and Interest) test

As a second step of its classification process the Company assesses the contractual terms of financial asset to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Company applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

3.2.3 Financial assets or financial liabilities held for trading

The Company classifies financial assets and liability as held for trading when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking. Held-for-trading assets and liabilities are recorded and measured in the balance sheet at fair value. Changes in fair value are recognised in net gain on fair value changes. Interest and dividend income or expense is recorded in net gain on fair value changes according to the terms of the contract, or when the right to payment has been established.

Included in this classification are debt securities, equities, and customer loans that have been acquired principally for the purpose of selling or repurchasing in the near term.

3.2.4 Debt securities and other borrowed funds

After initial measurement, debt issued and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the Effective Interest Rate ('EIR').

3.2.5 Financial assets and financial liabilities at fair value through profit or loss

Financial assets and financial liabilities in this category are those that are not held for trading and have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under Ind AS 109.

Financial assets and financial liabilities at FVTPL are recorded in the balance sheet at fair value. Changes in fair value are recorded in profit and loss with the exception of movements in fair value of liabilities designated at FVTPL due to changes in the Company's own credit risk. Such changes in fair value are recorded in the Own credit reserve through OCI and do not get recycled to the profit or loss. Interest earned or incurred on instruments designated at FVTPL is accrued in interest income or finance cost, respectively, using the EIR, taking into account any discount/ premium and qualifying transaction costs being an integral part of instrument. Interest earned on assets mandatorily required to be measured at FVTPL is recorded using contractual interest rate.

3.2.6 Undrawn loan commitments

Undrawn loan commitments are commitments under which, over the duration of the commitment, the Company is required to provide a loan with pre-specified terms to the customer. Undrawn loan commitments are in the scope of the Expected Credit Loss ('ECL') requirements.

The nominal contractual value of undrawn loan commitments, where the loan agreed to be provided is on market terms, are not recorded in the balance sheet.

3.2.7 Investment in Associate

Investments in associate are accounted at cost less accumulated impairment loss, if any.

3.3 Reclassification of financial assets and liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified.

3.4 Derecognition of financial assets and liabilities

3.4.1 Derecognition of financial assets due to substantial modification of terms and conditions

The Company derecognises a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognised loans are classified as Stage 1 for ECL measurement purposes.

When assessing whether or not to derecognise a loan to a customer, amongst others, the Company considers the following factors:

- Change in counterparty
- If the modification is such that the instrument would no longer meet the SPPI criterion
- If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Company records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

3.4.2 Derecognition of financial assets other than due to substantial modification

A financial asset is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

A transfer only qualifies for derecognition if either the Company has transferred substantially all the risks and rewards of the asset or has neither transferred nor

retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Company has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Company's continuing involvement, in which case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration the Company could be required to pay.

3.4.3 Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in Statement of Profit and Loss.

3.5 Impairment of financial assets

3.5.1 Overview of the ECL principles

The Company records allowance for expected credit losses for all loans, other debt financial assets not held at FVTPL, together with loan commitments, in this section all referred to as 'financial instruments'. Equity instruments are not subject to impairment under Ind AS 109.

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss or LTECL), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss (12mECL).

The 12mECL is the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Both LTECLs and 12mECLs are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments.

The Company has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

Based on the above process, the Company categorises its loans into Stage 1, Stage 2 and Stage 3, as described below:

Stage 1: When loans are first recognised, the Company recognises an allowance based on 12mECLs. Stage 1 loans also include facilities where the credit risk has improved and the loan has been reclassified from Stage 2.

Stage 2: When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for the LTECLs. Stage 2 loans also include facilities, where the credit risk has improved and the loan has been reclassified from Stage 3.

Stage 3: Loans considered credit-impaired. The Company records an allowance for the LTECLs.

3.5.2 The calculation of ECL

The Company calculates ECLs to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive.

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

PD The Probability of Default is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio.

EAD The Exposure at Default is an estimate of the exposure at a future default date (in case of Stage 1 and Stage 2), taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments. In case of Stage 3 loans EAD represents exposure when the default occurred.

LGD The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD.

Impairment losses and releases are accounted for and disclosed separately from modification losses or gains that are accounted for as an adjustment of the financial asset's gross carrying value

The mechanics of the ECL method are summarised below:

Stage 1: The 12mECL is calculated as the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. The Company calculates the 12mECL allowance based on the expectation of a default occurring in the 12 months following the reporting date. These expected 12-month default probabilities are applied to a forecast EAD and multiplied by the expected LGD and discounted by an approximation to the original EIR.

Stage 2: When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for the LTECLs PDs and LGDs are estimated over the lifetime of the instrument. The expected cash shortfalls are discounted by an approximation to the original EIR.

Stage 3: For loans considered credit-impaired, the Company recognises the lifetime expected credit losses for these loans. The method is similar to that for Stage 2 assets, with the PD set at 100%.

Loan commitment

When estimating LTECLs for undrawn loan commitments, the Company estimates the expected portion of the loan commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected shortfalls in cash flows if the loan is drawn down. The expected cash shortfalls are discounted at an approximation to the expected EIR on the loan.

For an undrawn commitment, ECLs are calculated and presented together with the loan. For loan commitments, the ECL is recognised along with advances

3.5.3 Forward looking information

In its ECL models, the Company relies on a broad range of forward looking information as economic inputs such as: GDP growth, House price indices

The inputs and models used for calculating ECLs may not always capture all characteristics of the market at the date of the financial statements. To reflect this, qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material.

3.6 Collateral valuation

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in the form of Immovable properties. However, the fair value of collateral affects the calculation of ECLs. It is generally assessed, at a minimum, at inception and re-assessed on a specific event. The value of the property at the time of origination will be

arrived by obtaining valuation reports from Company's empanelled valuer.

3.7 Collateral repossessed

The Company generally does not use the assets repossessed for the internal operations. These repossessed assets which are intended to be realised by way of sale are considered for staging based on performance of the assets and the ECL allowance is determined based on the estimated net realisable value of the repossessed asset. The Company resorts to regular repossession of collateral provided against loans. Further, in its normal course of business, the Company from time to time, also exercises its right over property through legal procedures which include seizure of the property. As per the Company's accounting policy, collateral repossessed are not recorded on the balance sheet.

3.8 Write-offs

Financial assets are written off either partially or in their entirety only when there are no reasonable certainties in recovery from the financial asset. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to Statement of Profit and Loss.

3.9 Forborne and modified loans

The Company sometimes makes concessions or modifications to the original terms of loans as a response to the borrower's financial difficulties, rather than taking possession or to otherwise enforce collection of collateral. The Company considers a loan forborne when such concessions or modifications are provided as a result of the borrower's present or expected financial difficulties and the Company would not have agreed to them if the borrower had been financially healthy. Indicators of financial difficulties include defaults on covenants, or significant concerns raised by the Credit Risk Department. Forbearance may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, any impairment is measured using the original EIR as calculated before the modification of terms. It is the Company's policy to monitor forborne loans to help

ensure that future payments continue to be likely to occur. Derecognition decisions and classification between Stage 2 and Stage 3 are determined on a case-by-case basis. If these procedures identify a loss in relation to a loan, it is disclosed and managed as an impaired Stage 3 forborne asset until it is collected or written off.

When the loan has been renegotiated or modified but not derecognised, the Company also reassesses whether there has been a significant increase in credit risk. The Company also considers whether the assets should be classified as Stage 3. Once an asset has been classified as forborne, it will remain forborne for a minimum 12-month probation period. In order for the loan to be reclassified out of the forborne category, the customer has to meet all of the following criteria.

- All of its facilities have to be considered performing
- The probation period of 12 months has passed from the date the forborne contract was considered performing
- Regular payments of more than an insignificant amount of principal or interest have been made during at least half of the probation period

The customer does not have any contract that is more than 30 days past due. If modifications are substantial, the loan is derecognised.

3.10 Determination of fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

Level 1 financial instruments – Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 financial instruments – Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Company will classify the instruments as Level 3.

Level 3 financial instruments – Those that include one or more unobservable input that is significant to the measurement as whole.

3.11 Recognition of interest income

3.11.1 The effective interest rate method

Under Ind AS 109 interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost, debt instrument measured at FVTOCI and debt instruments designated at FVTPL. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset. The calculation considers all contractual terms of the financial instrument (for example, prepayment options) and includes any fees or incremental costs that are directly attributable and are an integral part of the EIR, but not future credit losses

3.11.2 Interest income

The Company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets

When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Company calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset (i.e. the gross carrying amount less the allowance for expected credit losses). If the financial assets cures and is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

3.12 Recognition of income and expenses

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind AS.

The Company recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable

rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation

3.12.1 Dividend Income

Dividend income is recognised when the Company's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably. This is generally when the shareholders approve the dividend.

3.12.2 Fee and commission income

Fee and commission income include fees other than those that are an integral part of EIR. The Company recognises the fee and commission income in accordance with the terms of the relevant contracts / agreement and when it is probable that the Company will collect the consideration.

3.12.3 Rental Income

Income from leases is recognised in the statement of profit and loss as per the contractual rentals unless another systematic basis is more representative of the time pattern in which benefits derived from the leased assets.

3.12.4 Income from Transfer and Servicing of Assets

The Company transfers loans through direct assignment transactions. The transferred loans are derecognised and gains/losses are accounted for, only if the Company transfers substantially all risks and rewards specified in the underlying assigned loan contract. In accordance with the Ind AS 109, on derecognition of a financial asset under assigned transactions, the difference between the carrying amount and the consideration received are recognised in the Statement of Profit and Loss.

The Company recognises either a servicing asset or a servicing liability for servicing contract. If the fee to be received is not expected to compensate the Company adequately for performing the servicing activities, a servicing liability for the servicing obligation is recognised at its fair value. If the fee to be received is expected to be more than adequate compensation for the servicing activities, a servicing asset is recognised. Corresponding amount is recognised in Statement of Profit and Loss.

3.12.5 Other Income

Other Income represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

3.13 Leases

Company as lessee

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated

depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are subject to impairment.

(ii) Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including insubstance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

(iii) Short-term leases and leases of low-value assets

Lease payments on short-term leases and leases of low-value assets are recognised as expense on actual basis over the lease term.

3.14 Property, plant and equipment

Property, plant and equipment is stated at cost excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Depreciation is calculated using the straight-line method to write down the cost of property, Plant and equipment to their residual values over their estimated useful lives. Land is not depreciated.

The estimated useful lives are, as follows:

Asset Description	Estimated Useful Life by the management	Estimated Useful Life as per Schedule II
Buildings	60 years	60 years
Computers	3-6 years	3-6 years
Office Equipment	1-5 years	5 years
Furniture and fittings	5-10 years	10 years
Motor vehicles	8 years	8 years
Electrical installations and equipment	5-10 years	10 years

The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of building over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate

Property plant and equipment is derecognised on disposal or when no future economic benefits are

expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other income / expense in the statement of profit and loss in the year the asset is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

Intangible assets / Amortisation

Intangible assets that are acquired by the Company, which have finite useful lives are measured at cost less accumulated amortization and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the intangible asset and are amortised over the lower of the estimated useful life/ licensed period on the straight-line basis or five years.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate

Intangible assets under development

Intangible assets under development are assets not ready for the intended use and is carried at cost, comprising direct cost and related incidental expenses.

3.15 Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or company's assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a

pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses of continuing operations, are recognised in the statement of profit and loss.

For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the assets or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Profit or Loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

3.16 Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to Statement of Profit and Loss in subsequent periods.

Past service costs are recognised in Statement of Profit and Loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined

benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

3.17 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. When the effect of the time value of money is material, the Company determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

3.18 Taxes

3.18.1 Current tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside Statement of Profit and Loss is recognised outside Statement of Profit and Loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

3.18.2 Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- Where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of taxable temporary differences associated with investments in subsidiaries, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of deductible temporary differences associated with investments in subsidiaries,

associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

3.18.3 Goods and services tax paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the goods and services tax paid, except:

- ▶ When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- ▶ When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

3.19 Segment reporting

The Company has identified a single segment, viz. "providing long term housing finance, loans against property and refinance loans". The Company has opted for an exemption as per para 4 of Ind AS 108. Segment information is thus given in the consolidated financial statements of the Company.

3.20 Dividends on ordinary shares

The Company recognises a liability to make cash or non-cash distributions to equity holders including parent when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity. Interim dividend are recorded as liability on the date of declaration by the company's board of directors.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the statement of profit and loss.

3.21 Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3.22 Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Company, at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Nonmonetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

Exchange differences that arise on settlement of monetary items or on reporting of monetary items at each Balance sheet date at the closing exchange rate are recognised in the statement of profit or loss in the period in which they arise.

3.23 Finance Costs

Finance costs include interest expense calculated using the EIR on respective financial instruments and borrowings including foreign currency borrowings measured at amortised cost, finance charges in respect of assets acquired on finance lease and exchange differences arising from foreign currency borrowings, to the extent they are regarded as an adjustment to interest costs. All other Borrowing costs are recognized in the Statement of profit and loss in the period in which they are incurred.

4. Significant accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, and the accompanying disclosures, as well

as the disclosure of contingent liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements are as below:

- a. Measurement of Expected Credit Loss
- b. Measurement of useful life of Property, Plant & Equipment
- c. Estimation of Taxes on Income
- d. Estimation of Employee Benefit Expense
- e. Effective Interest Rate
- f. Provisions and other contingent liabilities

Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

4.1 Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility.

4.2 Effective Interest Rate (EIR) method

The Company's EIR methodology recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well expected changes to India's base rate and other fee income/expense that are integral parts of the instrument.

4.3 Impairment of financial asset

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Company's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a LTECL basis and the qualitative assessment
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL models, including the various formulas and the choice of inputs
- Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, EADs and LGDs
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models

It has been the Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

4.4 Provisions, other contingent liabilities and contingent assets

4.4.1 Provisions and other contingent liabilities

The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of the Company's business.

When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, or it is not probable that an outflow of resources embodying

economic benefits will be required to settle the obligation a contingent liability is disclosed.

Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

Provisions and Contingent liabilities are reviewed at each balance date and disclosed in the standalone financial statements accordingly.

4.4.2 Contingent assets

Contingent assets are not recognised in financial statements. However, it is disclosed only when an inflow of economic benefits are probable.

4.4.3 Commitments

Commitments are future contractual liabilities, classified and disclosed as follows

- a) The estimated amount of contracts remaining to be executed on capital account and not provided for
- b) Undisbursed commitment relating to loans; and
- c) Other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of management

4.5 Recent Pronouncements

The Ministry of Corporate Affairs ("MCA"), through notifications, introduces new standards or notifies amendments to the existing standards under the Companies (Indian Accounting Standards) Rules, 2015, from time to time. For accounting periods beginning on or after April 01, 2026, when an entity breaches any covenant of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand, it classifies the liability as current, even if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach. An entity classifies the liability as current because, at the end of the reporting period, it does not have the right to defer its settlement for at least 12 months after that date. However, an entity classifies the liability as non-current if the lender agreed by the end of the reporting period to provide a period of grace ending at least 12 months after the reporting period, within which the entity can rectify the breach and during which the lender cannot demand immediate repayment. This amendment is to be applied retrospectively for annual reporting periods beginning on or after April 01, 2026, in accordance with Ind AS 8, Accounting Policies, Accounting Estimates and Errors. The Company has assessed the impact of the amendment, as stated above, and concluded that it has no impact on the financial statements of the Company for the year ended March 31, 2026 and March 31, 2025.

Note 20.1 - Nature and purpose of reserves

Note 20.1.1 - Securities premium reserve

Securities premium reserve is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

Note 20.1.2 - Special Reserve

The company has transferred an amount of ₹77.82 crores during the year (Previous year ₹77.20 crores) to special reserve in terms of section 36(1)(viii) of Income Tax Act 1961, out of the distributable profits of the company. For the purpose of Section 29C of the National Housing Bank Act, 1987, the creation of the aforesaid special reserve is also considered to be an eligible transfer.

Note 20.1.3 - Statutory reserve

As per Section 29C of the National Housing Bank Act, 1987, the Company is required to transfer at least 20% of its net profit every year to a reserve before any dividend is declared. Accordingly, the Company has transferred an amount of ₹90.55 Crores during the year (Previous year ₹87.89 Crores) to Statutory Reserve under Section 29C of the National Housing Bank Act, 1987.

Note 20.1.4 - General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers were to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the Company for that year, then the total dividend distribution is less than the total distributable results for that year. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013. During the year, the company has transferred ₹50 Crores (Previous year ₹50 Crores) to General Reserve.

Note 20.1.5 - Retained Earnings

Retained earnings represents the amount of accumulated earnings of the Company.

Note 20.1.6 - Other Comprehensive Income

Other Comprehensive Income represents remeasurement of the net defined benefit liabilities comprising of actuarial gain / loss.

Note 20.1.7 - Issues of bonus shares / Buyback of shares:

The Company has not issued / allotted any share pursuant to contracts without payment being received in cash, nor issued any bonus shares nor there has been any buyback of share during five years immediately preceding March 31, 2026.

Note 20.1.8 - Dividend

The Board of Directors at their meeting held on May 21, 2026 have recommended a final dividend of ₹3 per equity share for the year ended March 31, 2026 (Previous year ₹4 per equity share) subject to the approval of shareholders at the ensuing Annual General Meeting.

Note 34 - Segment information

The Company operates under the principal business segment which is "to provide loans against/for purchase, construction, repairs & renovations of housing/commercial properties". Further, the Company is operating in a single geographical segment. The Chief Operating Decision Maker (CODM) views and monitors the operating results of its single business segment for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profits or losses and is measured consistently with operating profits or losses in the financial statements. Accordingly, disclosures relating to primary and secondary business segments under the Indian Accounting Standard on 'Segment Reporting' (Ind AS 108) are not applicable to the Company.

Note 35 - Retirement benefit plan

Note 35.1 - Defined contribution plan

A Contribution towards Provident Fund is determined under the Employees' Provident Funds & Miscellaneous Provisions Act, 1952 and charged to the Statement of Profit and Loss during the period of incurrence when the services are rendered by the employees.

The expense charged in statement of profit and loss amounting to ₹7.20 crores (March 31, 2025: ₹6.20 crores) represents contributions payable to these plans by the Company at rates specified in the rules of the plan.

Note 35.2 - Defined benefit plan

The Company has a defined benefit gratuity plan in India (funded). The Company's defined benefit gratuity plan is a final salary plan for India employees, which requires contributions to be made to a separately administered fund. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age.

Note:

On November 21, 2025, the Government of India has consolidated 29 existing labour laws into four Labour Codes - the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020 (collectively referred to as the New labour Codes'). As per the requirements under Ind AS 19, changes to employee benefit plans arising from the New Labour Codes constitute plan amendments and are required to be treated as past service costs. The Company has estimated an increase in employee benefits (including changes on account of new labour code) by ₹13.73 crores and the same has been recognised under the head "Employee benefits expense" in the statement of profit and loss during the year ended March 31, 2026. The Company continues to monitor the finalisation of Central and State Rules and clarifications on the New Labour Codes and would provide appropriate accounting treatment on the basis of such developments, if needed.

vi) Institutional set-up for liquidity risk management

The Company has put in place a well-defined Risk Management Policy which includes Liquidity Risk Management policy and Contingency Funding plan to manage and monitor Liquidity risk of the Company efficiently and to report the Board on the effectiveness of the same. The Company has an Asset Liability Management Committee (ALCO) headed by the MD & CEO and its members consisting of the Senior Management officials representing Finance, Sales, Credit, Recovery, IT and Risk. The ALCO is a decision-making unit responsible for integrated balance sheet management from risk-return perspective including the strategic management of interest rate and liquidity risks. The ALCO monitors the liquidity risk by ensuring judicious mix of assets and liabilities so as to reduce mismatch in the ALM and also monitors the implementation of the Liquidity Risk Management tools prescribed in the Liquidity Risk Management Policy of the Company. The outcomes of ALCO are promptly reported to the Risk Management Committee of the Board and to the Board of Directors at regular intervals.

Note 47 - Fair value measurement

This note describes the fair value measurement of both financial and non-financial instruments and is structured as follows:

Note 47.1 - Valuation principles

Note 47.2 - Valuation governance

Note 47.4 - Valuation methodologies of financial instruments not measured at fair value

Note 47.4.1 - Fair value of financial instruments not measured at fair value

Note 47.1 - Valuation principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique.

In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

Note 47.2 - Valuation governance

The Company's fair value methodology and the governance over its models includes a number of controls and other procedures to ensure appropriate safeguards are in place to ensure its quality and adequacy. All new product initiatives (including their valuation methodologies) are subject to approvals by various functions of the Company including the risk and finance functions. The responsibility of ongoing measurement resides with the business units. Once submitted, fair value estimates are also reviewed and challenged by the Risk and Finance functions.

Note 47.4 - Valuation methodologies of financial instruments not measured at fair value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the company's financial statements. These fair values were calculated for disclosure purposes only. The below methodologies and assumptions relate only to the instruments in the below tables.

Loans and advances to customers

The fair values of loans and receivables are estimated by discounted cash flow models that incorporate assumptions for credit risks, probability of default and loss given default estimates. Where such information is not available, the company uses historical experience and other information used in its collective impairment models.

Fair values of lending portfolios are calculated using a portfolio-based approach. The company then calculates and extrapolates the fair value to the entire portfolio, using discounted cash flow models that incorporate interest rate estimates considering all significant characteristics of the loans. The credit risk is applied as a top-side adjustment based on the collective impairment model incorporating probability of defaults and loss given defaults.

Note 48 - Risk management

Note 48.1 - Introduction and risk profile

The Company, being an NBFC-HFC, operates in a highly regulated and dynamic environment and is exposed to multiple risks which is integral part of the day-to-day business. The company deals with large number of customers and is involved in long term lending. Hence, the risks to this type of business is unique and requires focused attention. Further, the management of risk is continuous and ongoing process and needs to be dynamic. The company is aware that risk is proportionate to the expected returns but should have limitations in exposing itself to the risks. This process of risk management is critical to the company's continuing profitability and reputation in the market. The company is generally exposed to credit risk, operational risk, Liquidity risk, interest rate risk, and solvency risk.

Note 48.1.1 - Risk management structure

Risk management is an integral part of the Company's business operations. The Company has implemented a Board-approved risk management policy framework, aligned with guidelines issued by NHB and RBI. The objective of the risk management framework is to measure and monitor various threats and to implement policies and procedures to mitigate such risks faced by the company and to strengthen operational controls in the day-to-day business operations.

Board of Directors are responsible for effective risk management which oversees and reviews the overall functioning of the risk management and provide necessary directions in this regard.

The Risk Management Committee of the Board (RMCB) is Board level committee entrusted with overseeing implementation of the Risk Management Policy / strategy to deal with risk management activities in an efficient and effective manner. The committee reviews the functioning of the risk management framework at periodical intervals. RMCB reviews the reports and directs for taking mitigating steps. The committee reports the status of the risk management of the company to the Board at periodical intervals through minutes of the meeting of the committee. The minutes of the committee are placed before the Board.

"Credit and Operational Risk Management Committee (CORMC) is an executive level committee headed by Managing Director & Chief Executive Officer (MD & CEO) as Chairman of the Committee, having members viz., Chief Development Officer (CDO), Chief Operating Officer (COO), Chief Business Officer (CBO), Company Secretary & Compliance Officer (CS & CO), Chief Financial Officer (CFO), Chief Information officer (CIO), all the General Managers, Chief Risk Officer (CRO), Head of Legal, Head of Internal Audit (HIA), Chief Compliance Officer (CCO), Chief Technology Officer (CTO). CORMC is responsible for laying down the operational guidelines and monitor and mitigate the credit and operational risks the company is facing.

This Committee periodically (Atleast Quarterly once or on need basis) reviews the Risk and Control Self-Assessment studies, portfolio analysis, monitor various Key Risk Indicators (KRI), etc. and provide necessary mitigations. CORMC also reviews and recommends the Risk Management Committee of the Board (RMCB) the amendments to Risk Management Policy, as and when considered necessary. The minutes of this committee is placed before Risk Management Committee of the Board (RMCB). Besides this, Assets and Liabilities Management Committee (ALCO) addresses the market and liquidity risks, conducted atleast once on Monthly basis.

The Risk Management Department in Corporate Office of the company is responsible for Identification, measurement, monitoring and taking steps for mitigation of Credit, Market and operational risk and reporting to top management and the committees concerned.

The company has an independent Risk Management department headed by Chief Risk Officer (CRO) who is responsible for coordination, overseeing and implementation of the requirements identified in the Board approved Risk Management Policy.

Note 48.1.2 - Risk Identification

The Company recognizes that identification of risk is the most crucial function in managing and mitigating the risk. The Company identifies the risks in each function/activity through Cross-departmental inputs and systematic reviews by management/committees periodically. The Company's Risk Management function operates as the second line of defence, responsible for establishing risk management frameworks, and independently identifying, assessing, monitoring, and mitigating risks across the organization. The first

(All amounts are in Indian Rupees Crores, unless otherwise stated)

line of defence, comprising departmental heads and executive management, holds the overall responsibility for identifying, managing, monitoring, and evaluating risks within their respective functions as part of day-to-day operations.

The Company on an ongoing basis identifies and maintains Enterprise-wide Risk Register covering Key risks and controls across various types of risks like Operational risk, Credit risk etc. across the departments. This register is dynamic as it gets updated by additions and deletions as and when new guidelines are issued.

Note 48.1.3 - Risk measurement

The company recognizes that risk cannot be eliminated while doing business. In fact, risk has to be leveraged to the potential extent. It is imperative that the level of risk has to be measured and evaluated to take calibrated measures to manage the risk at the appropriate level. For this purpose, the company has incorporated various tools like, Risk Register, Risk Control Self-Assessment, KRI, Stress testing etc to measure the risk both for probability and impact on an ongoing basis.

The risk issues identified are measured based on the impact it may have on the business if the company is exposed to such risks. Based on the velocity of impact each risk is categorised as 'High', 'Medium' and 'Low' risk. This is done to decide the quantum of focus required in respect of each risk issue. Weightage is given for each risk issue to enable the company to measure the risk. The company gives focus on 'High' risk issues for better management.

Note 48.1.4 - Risk Monitoring

The company recognizes an effective and constant monitoring process is essential for managing and mitigating risk. Regular monitoring would help quick detection and initiation of remedial action. Prompt detection would substantially reduce the severity and frequency of loss events. The company has put in place effective tools and methodologies for monitoring the level and direction of risk through various reports, verifications, Self – assessments exercise by Functional departments, etc ongoing basis. RHFL continues to leverage data and analytics capabilities to identify early signals of NPA trend formation through Cohort (Vintage Curve) analysis, Migration matrix, key risk indicator (KRI) monitoring, etc.. The company also conducts periodic stress testing to assess the sustainability of its business, even during periods of financial stress. These insights support proactive risk management, enabling timely corrective actions and strengthening portfolio resilience.

Note 48.1.5 - Risk Assessment methodology

The risk is assessed based on self assessment by the owners of risk at the prescribed intervals. Each risk issue has to be assessed by the owners of the risk and provide a certification. The certificate is subject to verification by Risk Management Department and by Internal Auditors. Accordingly, each branch assesses the level of compliance in respect of each risk issue and provides a certificate. For this purpose, a software utility has been provided to each branch, departments in Corporate Office (CO), regional offices and Central depository (CDR). This exercise is done every quarter.

Note 48.1.6 - Credit risk

The Company is primarily in the business of lending and hence is exposed to credit risk. Various credit risk mitigations are provided in the Credit Policy of the company such as profiling each customer based on various factors of the borrower and linking pricing to the same. The internal rating of each borrower is done as a part of appraisal to arrive at the risk. The Credit risk issues are identified by the Risk Management Department and provided to the branches and Credit Department for assessment. Mitigation steps are taken immediately to manage the risk. Immediate action is initiated by way of SARFAESI, OTS, etc to recover the impaired credit.

Assets possessed under Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002:

Loan Portfolio includes gross loans amounting to ₹48.63 Crores (March 31, 2025: ₹27.59 Crores) against which the Company has taken possession of the properties under Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 and held such properties for disposal. The value of assets possessed against these loans is ₹81.65 Crores (March 31, 2025: ₹104.27 Crores)."

Restructuring of accounts

The economic fallout on account of COVID-19 pandemic has led to significant financial stress for many borrowers. Considering the above, with the intent to facilitate revival and to mitigate the impact on ultimate borrowers, Reserve Bank of India (RBI) introduced measures under the Resolution Framework for COVID-19. As per the RBI Framework, the Corporation established a policy to provide resolution for eligible borrowers having stress on account of COVID-19 in line with the RBI Guidelines.

As advised under the said circular and Company's policy, the eligibility of customers was assessed, so as to understand the extent of financial stress caused due to COVID-19, i.e. delay in construction, sales and consequent cash flow mismatch, duly supported by the documentary evidence. In addition to assessing the impact of stress, the Resolution framework was discussed with the eligible borrower prior to invocation of Resolution plan. The Resolution Framework offered to ensure that the servicing of the restructured loan is not likely to be impacted.

Moratorium

The RBI had announced Moratorium for 6 months on repayments for the period March 2020 to August 2020 for term loans and working capital facilities outstanding as on February 29, 2020. This was part of the regulatory measures adopted to mitigate the burden of debt servicing brought about by disruptions on account of Covid pandemic and to ensure continuity of viable businesses. As part of the scheme and as per Company's Board approved policy, the Company has provided moratorium to eligible borrowers.

Note 48.1.6.1 - The company's internal grading

The Company's Risk Management Department is responsible for the development, maintenance, and operation of its internal credit rating models. The Company has established an internal scoring framework that evaluates borrowers based on a range of key variables, including borrower profile, income, demographic characteristics, property details, credit bureau score, repayment behaviour, and other relevant factors. The scoring models incorporate both quantitative and qualitative information and, in addition to borrower-specific data, consider relevant external information that may influence the borrower's creditworthiness and repayment capacity. An internal credit score is assigned to each borrower at the time of on boarding. This score serves as the basis for determining the borrower's risk grade and strengthens the Company's credit underwriting and risk management processes.

Note 48.1.6.2 - Impairment - Expected credit loss (ECL)

The application of Ind AS 109 has necessitated fundamental changes to the accounting for expected default risk (risk provisioning). Specifically, the incurred loss model has been replaced by the Expected Credit Loss model (ECL). Consequent to this change, the Expected Credit losses on financial instruments are classified under three stages.

Stage 1: Every financial asset is classified as stage 1, upon initial recognition. In addition, stage 1 contains all transactions with limited default risk.

Stage 2: Financial assets whose default risk has risen significantly since initial recognition and which are not classified as cases with limited default risk.

Stage 3: Financial assets that display objective evidence of impairment at the reporting date.

The accounting standard, Ind AS 109 does not specifically prescribe any methodology for computing ECL. However, entities are required to adopt sound and market acceptable methodologies which are in line with the size, complexity and risk-profile of the financial entity for computing the ECL. The Company uses three main components to measure ECL. These are, Exposure at default (EAD), Probability of Default (PD) and Loss Given Default (LGD).

Exposure at default (EAD) is defined as the sum of Principal outstanding and interest accrued at the reporting date.

PD is defined as the probability of borrowers defaulting on their obligations.

(All amounts are in Indian Rupees Crores, unless otherwise stated)

LGD represents the economic loss. Company uses historical loss data for identified homogenous pools for the purpose of calculating LGD. For individual cases where there has been a significant deterioration in recovery, the LGD is considered to be 100%.

Accordingly, loan assets are categorised under three different stages, as under:

Stage 1: Where instalments are Current and 1-30 days overdue

Stage 2: Where instalments are 31 days – 90 days overdue and

Stage 3: Where instalments are overdue beyond 90 days

The company is required to provide 12-month Expected Credit Loss (12-month ECL) for stage 1 assets and the Life Time Expected Credit Loss (LECL) for stage 2 and stage 3 assets

12-month ECL is the expected credit loss that results from default events that are possible within 12 months after the reporting date. LECL represents the expected credit loss from default events over the expected life of a financial asset.

As prescribed under para 5.5 in Ind AS 109, 12-months PD is required to be computed for financial instruments which are in stage 1, and life time PD for those in stage 2 & 3. 12-months PD is the likelihood of the borrower defaulting in the 12 months following the reporting date while life time PD is the likelihood of the borrower defaulting during the residual tenor.

The PD model has been developed for all the major asset classes using a statistical and iterative approach. The design and construction of the model involves identification of various credit parameters and variables that have a strong and direct correlation to propensity of default. The PD model reflects to the probability of default, taking into consideration the inherent credit quality of the borrower and the residual tenor of each contract. The PD for stage 3 contracts is considered at 100%. Where a customer has one contract in stage 3 and one or more contracts in stage 1 / stage 2, the PD for all the contracts is considered at 100%.

LGD represents the economic loss, adjusted for cure rate, as a percentage of exposure at the time of default. Economic loss is the estimated shortfall in realisation of dues, in the event of default. Contracts that have turned delinquent do not necessarily involve ultimate losses, since many of them are resolved through corrective actions. The cure rate is the probability of a 'non performing' (i.e. defaulted) contract reverting to a 'performing' (i.e. non-default) status in a year. For individual cases where there has been a significant deterioration in recovery, the LGD is considered to be 100% for those cases.

Note 48.1.8 - Operational Risk

Operational Risk is constantly monitored as it is prevalent in every branch and department. Systematic improvements are made wherever required. The Operational Risk Management team identifies and monitors the operational risks in various products as well as processes of the Company. It ensures that major risks are covered or mitigated in order to avoid or minimize operational risk loss.

Note 48.1.9 - Compliance Risk

Based on the guidelines received from regulatory and statutory authorities and also based on the policy requirements, the compliance risks issues are identified, assessed and monitored for compliance-by-Compliance department.

Note 48.1.10 - Market Risk

The Company does not accept deposits from public. The resources are mobilized from banks and market. The Company has a specific committee named Assets and Liabilities Committee (ALCO) which meets at frequent intervals (minimum once in Month) to manage the liquidity, interest rates, spread etc. The Committee also prescribes Minimum Lending Rate (MLR).

(All amounts are in Indian Rupees Crores, unless otherwise stated)

Note 48.1.11 - Interest Rate Risk

The Company is subject to interest rate risk, since the rates of loans and borrowings might fluctuate over the tenure of instrument. Interest rates are highly sensitive to many factors beyond control, including the monetary policies of the Reserve Bank of India, deregulation of the financial sector in India, domestic and international economic and political conditions, inflation and other factors. In order to manage interest rate risk, the Company seeks to optimise borrowing profile between short-term and long-term loans. The liabilities are categorised into various time buckets based on their maturities and Asset Liability Management Committee supervise an interest rate sensitivity report periodically for assessment of interest rate risks.

Note 48.2 - Capital Management

The Company's capital management strategy is to effectively determine, raise and deploy capital to cover risk inherent in business and meeting the capital adequacy requirements of the Reserve Bank of India (RBI). The Company finances its operations by a combination of retained profit and bank borrowings. The Company determines the amount of capital required on the basis of operations and capital expenditure. The adequacy of the Company's capital is monitored using, among other measures, the regulations issued by the RBI.

The capital structure is monitored on the basis of net debt to equity and maturity profile of overall debt portfolio. The Company's policy is in line with Master Direction – Non-Banking Financial Company – Reserve Bank of India (Housing Finance Companies) Directions, 2025 which currently permits HFCs to borrow up to 12 times of their net owned funds ("NOF"). Refer Note 36.1 for Capital to risk weighted assets ratio (CRAR).

The Company has complied in full with all its externally imposed capital requirements over the reported periods.

Note 49.1 - Collateral and other credit enhancements

Although collateral can be an important mitigation of credit risk, it is the Company's practice to lend on the basis of the customer's ability to meet the obligations out of cash flow resources other than placing primary reliance on collateral and other credit risk enhancements. The Company obtains first and exclusive charge on all collateral that it obtains for the loans given. Home loans/ home equity loans are secured by collateral at the time of origination. In case of Home loans/ home equity loans, the value of the property at the time of origination will be arrived by obtaining valuation reports from Company's empanelled valuers. Immovable Property is the collateral for Home loans/ Home Equity loans. Security Interest in favour of the Company is created by Mortgage through deposit of title deed which is registered wherever required by law. Any surplus remaining after settlement of outstanding debt by way of sale of collateral is returned to the customer / borrower.

Note 50 - Liquidity risk and funding management

Liquidity risk is defined as the risk that the company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the company might be unable to meet its payment obligations when they fall due as a result of mismatches in the timing of the cash flows under both normal and stress circumstances. Such scenarios could occur when funding needed for illiquid asset positions is not available to the company on acceptable terms. To limit this risk, management has arranged for diversified funding sources and adopted a policy of managing assets with liquidity in mind and monitoring future cash flows and liquidity on a daily basis. The company has developed internal control processes and contingency plans for managing liquidity risk.

The company maintains diverse assets that are assumed to be easily liquidated in the event of an unforeseen interruption in cash flow. The company also has lines of credit that it can access to meet liquidity needs. In accordance with the company's policy, the liquidity position is assessed under a variety of scenarios, giving due consideration to stress factors relating to both the market in general and specifically to the company. Net liquid assets consist of cash and cash equivalents, balances other than cash and cash equivalents available for immediate use, less securities issued and borrowings due to mature within the next month.

Consolidated Financial Statement 2025-26

INDEPENDENT AUDITOR'S REPORT

To the Members of Repco Home Finance Limited,

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of Repco Home Finance Limited (hereinafter referred to as the "Company") and its share of net profit after tax and total comprehensive income of its Associate Repco Micro Finance Limited, which comprise the Consolidated Balance Sheet as at March 31, 2026, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and Consolidated Statement of Cash flows for the year then ended, and notes to the Consolidated Financial Statements, including material accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of other auditor on separate financial statements of associate referred to in other matters section below, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India of the Consolidated state of affairs of the Company and its Associate as at March 31, 2026, of its Consolidated profit including Other Comprehensive Income, Consolidated Changes in Equity and its Consolidated Cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company and its Associate in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the

Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained along with the consideration of the report of the other auditor referred to in the "Other Matters" section below, is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Emphasis of Matter

We draw attention to following matters in financial statements:

1. As described in Note 51.8 (i) to the Consolidated financial statements, regarding non-recognition of Deferred Tax Liability on Special Reserve created and maintained under Section 36(1)(viii) of the Income tax act and de-recognition of Deferred Tax Liability recognised till December 31, 2025. As stated in the said note, the accounting treatment has been adopted by the company based on the Board approved position of continued maintenance of such special reserve, management assessment under Ind AS 12 and the practice followed by similarly placed institutions.
2. As described in Note 51.8 (ii) to the Consolidated financial statement, taking into consideration the advisory received from National Housing Bank, the company has reversed interest charged on loans during the FY 2024-25 amounting to ₹9.66 Crores through the Statement of Profit and loss of previous financial year 2024-25, in accordance with Ind AS 8 "Accounting policies, Changes in accounting estimates and errors".

Our opinion on the Statement is not modified in respect of the above matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements for the financial year ended March 31, 2026. This matter was addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

We have determined the matters described below to be the key audit matter to be communicated in our report:

Key Audit Matter	How our audit addressed the key audit matter
Impairment on Financial Instruments based on Expected Credit Loss (ECL) method (Refer Note 3 for material accounting policies and Note 7 for financial disclosures in the accompanying consolidated financial statements) (Impairment loss allowance on loans) As at March 31, 2026, the Company reported gross loans of ₹ 15,940.11 Crores against which provision for expected credit loss of ₹ 340.14 Crores has been recorded in accordance with Ind AS 109 – Financial Instruments. Ind AS 109, Financial Instruments requires the Company to provide for impairment of its financial assets (designated at amortised cost) as at the reporting date using the expected credit loss (ECL) approach in line with the board approved policy ECL involves an estimation of probability-weighted loss on financial instruments over their life, considering reasonable and supportable information about past events, current conditions, and forecasts of future economic conditions which could impact the credit quality of the Company's financial assets (loan portfolio). In the process, a significant degree of estimation and judgement has been applied by the management for: • Staging of financial assets to Stage 1, 2, or 3 (i.e. classification in 'significant increase in credit risk' ("SICR") and 'default' categories); • Grouping of the loan portfolio under homogenous pools in order to determine probability of default on a collective basis; • Determining effect of less frequent past events on future probability of default; • Estimation of management overlay, for macroeconomic factors which could impact the credit quality of the loans. • Compliance with RBI circulars and assess the level of credit impairment of financial instrument. • Disclosures as required by IND AS 109 and RBI Circular In view of the high degree of management's judgement involved in estimation of ECL and the overall significance of the impairment loss allowance to the financial statements, it is considered as a key audit matter.	Our audit procedures included but were not limited to the following: Read and assessed the Company's accounting policies approved by the Board of Directors with respect to impairment of financial instruments considering the requirement of Ind AS 109 and applicable Reserve Bank of India guidelines/ regulations. We evaluated the implementation of relevant regulatory guidelines and pronouncements and tested the same on sample basis. We evaluated the management estimates by understanding the process of ECL estimation and related assumptions and tested the design and operating effectiveness of controls around data extraction, validation and computation. We assessed the criteria for staging of loans based on their past due status as per the requirements of Ind AS 109. Tested a sample of performing loans to assess whether any SICR or loss indicators were present requiring them to be classified under higher stages. We tested the assumptions used by the Company for grouping and staging of loan portfolio into various categories and default buckets for determining the probability of default (PD) and loss given default (LGD) rates. Tested the input data used for determining the PD and LGD rates and agreed the data with the underlying books of accounts and records. For provision of expected credit loss (ECL) against outstanding exposure classified across various stages, we obtained an understanding of the Company's ECL methodology (including factors that affect the probability of default, loss given defaults and exposure at default; various forward looking, micro-and macro-economic factors), the underlying assumptions and the sufficiency of the data used by management and tested the same on sample basis. We performed tests of controls and test of details on a sample basis in respect of the staging of outstanding exposure, and other relevant data used in impairment computation prepared by management as compared to the Company's policy. We enquired the management regarding significant judgments, estimates involved in the impairment computation, and evaluated the reasonableness thereof. We tested the arithmetical accuracy of computation of ECL provision including the management overlay computed by the Company.

Information other than the Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the "Management Discussion and Analysis FY 2025-26", which we obtained prior to the date of this auditor's report and the other information included in the Annual report (but does not include the consolidated financial statements and

our Auditor's Reports thereon), which is expected to be made available to us after that date.

Our Opinion on the Consolidated Financial Statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other

information is materially inconsistent with the Consolidated Financial Statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the other information in the annual report, other than "Management Discussion and Analysis FY 2025-26" which we obtained prior to the date of this auditor's report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and we shall:

- (i) If the material misstatement is corrected, perform necessary procedure to ensure the correction; or
- (ii) If the material misstatement is not corrected after communicating the matter to those charged with governance, take appropriate action considering our legal rights and obligations, to seek to have the uncorrected material misstatement appropriately brought to the attention of users for whom this Auditor's Report is prepared.

Management's and Board of Director's Responsibilities for the Consolidated Financial Statements

The Company's Management and Board of Directors are responsible for the preparation and presentation of these Consolidated Financial Statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows of the Company and its Associate in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

The respective Management and Board of Directors of the company included in the Company and of its Associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness

of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Management and Board of Directors of the Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective management and board of directors the Company and of its Associate are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Management or Board of Directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the company and its Associate are also responsible for overseeing the financial reporting process of their respective company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we

are also responsible for expressing our opinion on whether the Company has adequate Internal Financial Controls with reference to the Consolidated Financial Statements and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management's and Board of Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast a significant doubt on the ability of the Company and its Associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditor's report. However, future events or conditions may cause the Company and its Associate to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company and its Associate to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditor, such other auditor remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in paragraph (a) of the section titled "Other Matters" in this audit report.

We communicate with those charged with governance of the Company included in the Consolidated Financial Statements of which we are the independent auditor regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- a) The Consolidated financial statements include the Company's share of net profit of ₹26.44 crores and Company's share of total comprehensive income of ₹26.44 crores for the year ended March 31, 2026, as considered in the Consolidated Financial Statements, in respect of the associate, whose financial statements, other financial information have been audited by another auditor and whose report has been furnished to us by the Management and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of the Associate, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act in so far as it relates to the aforesaid Associate, is based solely on the report of such other auditor.

Our opinion above on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditor.

- b) The comparative financial statements of the Company and its associate as at April 01, 2024 (except the restatement of deferred tax liability and other equity of the Company amounting to ₹183.56 Crores as at April 01, 2024 as stated in note 51 of the consolidated financial statements) included in these financial statement, were audited by the predecessor auditor, who have expressed an unmodified opinion on those consolidated financial statements vide their audit report dated May 14, 2024. Our opinion above on the consolidated financial statements is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by clause (xxi) of paragraph 3 of Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, according to the information and explanations given to us and based on the consideration of the CARO Reports issued by us and by the respective other auditor as mentioned in Other Matters paragraph above of Associate company included in the Consolidated Financial Statements, covered under the Act, we report that there are no qualifications or adverse remarks reported in the respective CARO Reports of such Companies.
2. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditor on separate financial statements of Associate as was audited by the other auditor, as noted in the "Other Matters" paragraph, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books and the report of the other auditor.
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements.
 - (d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Indian Accounting Standards ("Ind AS") specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.
 - (e) On the basis of the written representations received from the directors of the Company as on March 31, 2026 taken on record by the Board of Directors of the Company and the report of the statutory auditor of the Associate Company incorporated in India, none of the directors of the Company and its associate company incorporated in India is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164(2) of the Act.
- (f) With respect to the adequacy of Internal Financial Controls with reference to the Consolidated Financial Statements of the Company and its Associate and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditor on separate financial statements of the associate, as noted in the "Other Matters" paragraph:
 - i. There are no litigations pending as on the date of the Consolidated Financial Statements that have a material impact on the Consolidated Financial Statements other than those disclosed in the Consolidated Financial Statements- Refer Note No. 41 to the Consolidated Financial Statements.
 - ii. The Company and its associate did not have any material foreseeable losses on long-term contracts including derivative contracts.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company and Associate Company incorporated in India.
 - iv. A) The respective management of the Company and its associate have represented to us and the other auditor that, to the best of their knowledge and belief, as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or Associate Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company or Associate company ("Ultimate

Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- B) The respective management of the Company and its associate have represented to us and the other auditor that, to the best of their knowledge and belief, as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been received by the Company or Associate Company from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company or Associate Company shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Parties (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- C) Based on the audit procedures that has been considered reasonable and appropriate in the circumstances and based on the consideration of the report of the other auditor, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The interim dividend declared and paid by the Company during the year and until the date of this audit report are in accordance with Section 123 of the Act.

The final dividend paid by the Company and its Associate Company during the year, in respect of the same declared for the previous year are in accordance with Section 123 of the Act to the extent it applies to payment of dividend.

As stated in Note 43 to the Consolidated Financial Statements, the Board of Directors of the Company has proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend

declared is in accordance with Section 123 of the Act to the extent it applies to declaration of dividend.

- vi. Based on our examination which included test checks and that performed by the other auditor of the associate, which is a company incorporated in India and whose financial statements has been audited under the Act, the Company and its Associate have used such accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all transactions recorded in the software.

Further, for the period when the edit log was enabled, during the course of the audit, we and the respective auditor did not come across any instance of audit trail feature being tampered with in respect of the accounting software and such audit trail has been preserved by the Company as per the statutory requirements for record retention.

3. With respect to the other matters to be included in the Auditor’s Report in accordance with the requirements of Section 197(16) of the Act, as amended.

In our opinion and according to the information and explanations given to us and based on the report of the Statutory Auditor of Associate Company incorporated in India which were not audited by us, the remuneration paid/ provided during the current year by the Company and its Associate Company to their directors is in accordance with the provisions of Section 197 read with schedule V of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT FOR THE YEAR ENDED MARCH 31, 2026

(Referred to in paragraph 2(f) under "Report on Other Legal and Regulatory Requirements" section of our report to the Members of Repco Home Finance Limited of even date)

Report on the Internal Financial Controls with reference to Consolidated Financial Statements under Section 143(3)(i) of the Companies Act, 2013 (the "Act")

Opinion

We have audited the internal financial controls with reference to Consolidated Financial Statements of Repco Home Finance Limited (hereinafter referred to as "the Company") and its associate, which are Companies incorporated in India, as of March 31, 2026 in conjunction with our audit of the Consolidated Financial Statements of the Company for the year ended on that date.

In our opinion and based on the consideration of reports of the other auditor on Internal Financial Controls with reference to Financial Statements of Associate Company as were audited by the other auditor, the Company and its Associate incorporated in India have, in all material respects, adequate Internal Financial Controls with reference to consolidated financial statements and such Internal Financial Controls were operating effectively as at March 31, 2026, based on the Internal Financial Controls with reference to Financial Statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI").

Management's and Board of Directors' Responsibility for Internal Financial Controls

The respective Company's Management and the Board of Directors are responsible for establishing and maintaining Internal Financial Controls based on the Internal Financial Controls with reference to Financial Statements criteria established by the respective company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate Internal Financial Controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness

of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Internal Financial Controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of Internal Financial Controls with reference to Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal Financial Controls with reference to Consolidated Financial Statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal Financial Controls with reference to Consolidated Financial Statements and their operating effectiveness. Our audit of Internal Financial Controls with reference to Consolidated Financial Statements included obtaining an understanding of Internal Financial Controls with reference to Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of their report referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's Internal Financial Controls with reference to Consolidated Financial Statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A Company's Internal Financial Controls with reference to Financial Statements are designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles.

A Company's Internal Financial Control with reference to Consolidated Financial Statements includes those policies and procedures that:

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of Internal Financial Controls with reference to Financial Statements, including the possibility

of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the Internal Financial Controls with reference to Financial Statements to future periods are subject to the risk that the Internal Financial Controls with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to Financial Statements insofar as it relates to Associate Company which is a Company incorporated in India, is based on the corresponding report of the auditor of such Company.

Our opinion is not modified in respect of this matter.

Material Accounting Policies and Notes forming part of the Consolidated Financial Statements for the year ended March 31, 2026

1. Corporate information

Repco Home Finance Limited ("RHFL" or "the Company") and its associate, Repco Micro Finance Limited ("RMFL"), are Non-Banking Financial Companies (NBFCs) engaged in specialized lending activities.

Repco Home Finance Limited (RHFL) is a housing finance company headquartered in Chennai, Tamil Nadu. Incorporated in April 2000, RHFL is registered with the National Housing Bank (NHB) as a housing finance company. It primarily provides housing loans and loans against property to individual borrowers. The Company's equity shares are listed on the National Stock Exchange of India Limited ("NSE") and BSE Limited ("BSE").

Repco Micro Finance Limited (RMFL) is a microfinance institution, also headquartered in Chennai, Tamil Nadu. Incorporated in June 2007, RMFL is registered with the Reserve Bank of India (RBI) as a Non-Banking Financial Company - Micro Finance Institution (NBFC-MFI). It is primarily engaged in offering financial services and related support to individual members of Self-Help Groups (SHGs).

2. Basis of Preparation and Presentation

2.1 Statements of Compliance

The Consolidated financial statements comprise the financial statements of Repco Home Finance Limited and its associate Repco Micro Finance Limited

The consolidated financial statements ("financial statements") have been prepared in accordance with the Companies (Indian Accounting Standards) Rules, 2015 as per Section 133 of the Companies Act, 2013 and relevant amendment rules issued thereafter ("Ind AS") on the historical cost basis except for fair value through other comprehensive income (FVOCI) instruments, all of which have been measured at fair value as explained below, the relevant provisions of the Companies Act, 2013 (the "Act") and the guidelines issued by the National Housing Bank ("NHB") and Reserve Bank of India ("RBI") to the extent

applicable.

2.2 Presentation of financial statements

The Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity are prepared and presented in the format prescribed in the Division III of Schedule III to the Act. The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows" whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, financing and investing activities of the Companies are segregated. Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of Balance Sheet. The Company presents its balance sheet in order of liquidity. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note No.48.3.

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in the normal course of business, event of default or insolvency or bankruptcy of the Companies and/or its counterparties.

A historical cost is a measure of value used for accounting in which the price of an asset on the balance sheet is based on its historical cost, it is generally fair value of consideration given in exchange for goods and services at the time of transaction or original cost when acquired by the Companies.

Fair value is the price that is likely to be received on sale of an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date, regardless of whether that price is

directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Companies considers the characteristics of the asset or liability that market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in the financial statements is determined on such a basis, leasing transactions that are within the scope of Ind AS 116 'Leases'.

2.3 Functional and presentation currency

Amounts in the financial statements are presented in Indian Rupees in crores rounded off to two decimal places as permitted by Division III of Schedule III to the Act except when otherwise indicated.

2.4 Principles of consolidation

Associates are entities over which the has significant influence but not control or joint control. Investment in associates is accounted for using the equity method of accounting, after initially being recognised at cost.

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise investor's share of post-acquisition profit and loss of the investee in the Consolidated Statement of Profit and Loss and the Company's share of Other Comprehensive Income of the investee in other Comprehensive Income.

3. Material accounting policy information

3.1 Financial instruments – initial recognition

3.1.1 Date of recognition

Financial assets and liabilities, with the exception of loans, debt securities and borrowings are initially recognised on the transaction date, i.e., the date that the Companies become a party to the contractual provisions of the instrument. Loans are recognised on the date when funds are disbursed to the customer. The Companies recognises debt securities and borrowings when funds are received by the Companies.

3.1.2 Initial measurement of financial instruments

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair

value, except in the case of financial assets and financial liabilities recorded at FVTPL, transaction costs are added to, or subtracted from, this amount.

3.1.3 Measurement categories of financial assets and liabilities

The Companies classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either Amortised Cost, FVOCI or FVTPL.

Financial liabilities and other than loan commitments are measured at amortised cost or FVTPL when fair value designation is applied.

3.2 Financial assets and liabilities

3.2.1 Cash and cash equivalents

Cash and cash equivalents comprise of Cash in Hand, demand deposits with other banks/financial institutions and Balances with Banks.

Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

3.2.2 Bank balances, Loans, Trade receivables and financial investments at amortized cost

The companies measures Bank balances, Loans, Trade receivables and other financial investments at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

The details of these conditions are outlined below.

3.2.2.1 Business model assessment

The Companies determines its business model at the level that best reflects how it manages Companies of financial assets to achieve its business objective.

The companies' business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed.
- How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- The expected frequency, value and timing of sales are also important aspects of the Companies' assessment.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Companies' original expectations, the Companies does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

3.2.2.2 The SPPI (Sole payment of Principal and Interest) test

As a second step of its classification process the Companies assesses the contractual terms of financial asset to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Companies applies judgement and considers relevant factors such as the currency in which

the financial asset is denominated, and the period for which the interest rate is set.

3.2.3 Financial assets or financial liabilities held for trading

The Companies classifies financial assets and liability as held for trading when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking. Held-for-trading assets and liabilities are recorded and measured in the balance sheet at fair value. Changes in fair value are recognised in net gain on fair value changes. Interest and dividend income or expense is recorded in net gain on fair value changes according to the terms of the contract, or when the right to payment has been established.

Included in this classification are debt securities, equities, and customer loans that have been acquired principally for the purpose of selling or repurchasing in the near term.

3.2.4 Debt securities and other borrowed funds

After initial measurement, debt issued, and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the Effective Interest Rate ('EIR').

3.2.5 Financial assets and financial liabilities at fair value through profit or loss

Financial assets and financial liabilities in this category are those that are not held for trading and have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under Ind AS 109.

Financial assets and financial liabilities at FVTPL are recorded in the balance sheet at fair value. Changes in fair value are recorded in profit and loss with the exception of movements in fair value of liabilities designated at FVTPL due to changes in the Companies' own credit risk. Such changes in fair value are recorded in the Own credit reserve through OCI and do not get recycled to the profit or loss. Interest earned or incurred on instruments designated at FVTPL is accrued in interest income or finance cost,

respectively, using the EIR, taking into account any discount/ premium and qualifying transaction costs being an integral part of instrument. Interest earned on assets mandatorily required to be measured at FVTPL is recorded using contractual interest rate.

3.2.6 Undrawn loan commitments

Undrawn loan commitments are commitments under which, over the duration of the commitment, the Companies is required to provide a loan with pre-specified terms to the customer. Undrawn loan commitments are in the scope of the Expected Credit Loss ('ECL') requirements.

The nominal contractual value of undrawn loan commitments, where the loan agreed to be provided is on market terms, are not recorded in the balance sheet.

3.2.7 Investment in Associate

The equity method is a method of accounting whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the investor's share of the investee's net assets. The investor's profit or loss includes its share of the investee's profit or loss, and the investor's other comprehensive income includes its share of the investee's other comprehensive income.

3.3 Reclassification of financial assets and liabilities

The Companies does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Companies acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified.

3.4 Derecognition of financial assets and liabilities

3.4.1 Derecognition of financial assets due to substantial modification of terms and conditions

The Companies derecognises a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognised loans are classified as Stage 1 for ECL measurement purposes.

When assessing whether or not to derecognise a loan to

a customer, amongst others, the Companies considers the following factors:

- Change in counterparty.
- If the modification is such that the instrument would no longer meet the SPPI criterion
- If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Companies records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

3.4.2 Derecognition of financial assets other than due to substantial modification

A financial asset is derecognised when the rights to receive cash flows from the financial asset have expired. The Companies also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

A transfer only qualifies for derecognition if either the Companies has transferred substantially all the risks and rewards of the asset or has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

The Companies consider control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Companies has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Companies' continuing involvement, in which case, the Companies also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Companies has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum

amount of consideration the Companies could be required to pay.

3.4.3 Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in Statement of Profit and Loss.

3.5 Impairment of financial assets

3.5.1 Overview of the ECL principles

The Companies records allowance for expected credit losses for all loans, other debt financial assets not held at FVTPL, together with loan commitments, in this section all referred to as 'financial instruments'. Equity instruments are not subject to impairment under Ind AS 109.

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss or LTECL), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss (12mECL).

The 12mECL is the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Both LTECLs and 12mECLs are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments.

The Companies have established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

Based on the above process, the Companies categorise

its loans into Stage 1, Stage 2 and Stage 3, as described below:

Stage 1: When loans are first recognised, the Companies recognises an allowance based on 12mECLs. Stage 1 loans also include facilities where the credit risk has improved, and the loan has been reclassified from Stage 2.

Stage 2: When a loan has shown a significant increase in credit risk since origination, the Companies records an allowance for the LTECLs. Stage 2 loans also include facilities, where the credit risk has improved and the loan has been reclassified from Stage 3.

Stage 3: Loans considered credit-impaired. The Companies records an allowance for the LTECLs.

3.5.2 The calculation of ECL

The Companies calculate ECL to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive.

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

PD The Probability of Default is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio.

EAD The Exposure at Default is an estimate of the exposure at a future default date (in case of Stage 1 and Stage 2), taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments. In case of Stage 3 loans EAD represents exposure when the default occurred.

LGD The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a

given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD.

Impairment losses and releases are accounted for and disclosed separately from modification losses or gains that are accounted for as an adjustment of the financial asset's gross carrying value

The mechanics of the ECL method are summarised below:

- Stage 1:** The 12mECL is calculated as the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. The Companies calculates the 12mECL allowance based on the expectation of a default occurring in the 12 months following the reporting date. These expected 12-month default probabilities are applied to a forecast EAD and multiplied by the expected LGD and discounted by an approximation to the original EIR.
- Stage 2:** When a loan has shown a significant increase in credit risk since origination, the Companies records an allowance for the LTECLs PDs and LGDs are estimated over the lifetime of the instrument. The expected cash shortfalls are discounted by an approximation to the original EIR.
- Stage 3:** For loans considered credit-impaired, the Companies recognises the lifetime expected credit losses for these loans. The method is similar to that for Stage 2 assets, with the PD set at 100%.

Loan commitment

When estimating LTECLs for undrawn loan commitments, the Companies estimates the expected portion of the loan commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected shortfalls in cash flows if the loan is drawn down. The expected cash shortfalls are discounted at an approximation to the expected EIR on the loan.

For an undrawn commitment, ECLs are calculated and presented together with the loan. For loan commitments, the ECL is recognised along with advances

3.5.3 Forward looking information

In its ECL models, the Companies relies on a broad range of forward-looking information as economic inputs such as: GDP growth, House price indices.

The inputs and models used for calculating ECLs may not always capture all characteristics of the market at the date of the financial statements. To reflect this, qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material.

3.6 Collateral valuation

To mitigate its credit risks on financial assets, the Companies seeks to use collateral, where possible. The collateral comes in the form of Immovable properties. However, the fair value of collateral affects the calculation of ECLs. It is generally assessed, at a minimum, at inception and re-assessed on a specific event. The value of the property at the time of origination will be arrived by obtaining valuation reports from Companies' empanelled valuer.

3.7 Collateral repossessed

The Companies generally does not use the assets repossessed for the internal operations. These repossessed assets which are intended to be realised by way of sale are considered for staging based on performance of the assets and the ECL allowance is determined based on the estimated net realisable value of the repossessed asset. The Companies resorts to regular repossession of collateral provided against loans. Further, in its normal course of business, the Companies from time to time, also exercises its right over property through legal procedures which include seizure of the property. As per the Companies' accounting policy, collateral repossessed are not recorded on the balance sheet.

3.8 Write-offs

Financial assets are written off either partially or in their entirety only when there are no reasonable certainties in recovery from the financial asset. If the amount to be written off is greater than the accumulated loss

allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to Statement of Profit and Loss.

3.9 Forborne and modified loans

The Companies sometimes makes concessions or modifications to the original terms of loans as a response to the borrower's financial difficulties, rather than taking possession or to otherwise enforce collection of collateral. The Companies considers a loan forborne when such concessions or modifications are provided as a result of the borrower's present or expected financial difficulties and the Companies would not have agreed to them if the borrower had been financially healthy. Indicators of financial difficulties include defaults on covenants, or significant concerns raised by the Credit Risk Department. Forbearance may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, any impairment is measured using the original EIR as calculated before the modification of terms. It is the Companies' policy to monitor forborne loans to help ensure that future payments continue to be likely to occur. Derecognition decisions and classification between Stage 2 and Stage 3 are determined on a case-by-case basis. If these procedures identify a loss in relation to a loan, it is disclosed and managed as an impaired Stage 3 forborne asset until it is collected or written off.

When the loan has been renegotiated or modified but not derecognised, the Companies also reassesses whether there has been a significant increase in credit risk. The Companies also considers whether the assets should be classified as Stage 3. Once an asset has been classified as forborne, it will remain forborne for a minimum 12-month probation period. In order for the loan to be reclassified out of the forborne category, the customer has to meet all of the following criteria.

- All of its facilities have to be considered performing.
- The probation period of 12 months has passed from the date the forborne contract was considered performing.
- Regular payments of more than an insignificant amount of principal or interest have been made during at least half of the probation period.

The customer does not have any contract that is more than 30 days past due. If modifications are substantial, the loan is derecognised.

3.10 Determination of fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Companies.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Companies uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

- **Level 1 financial instruments** – Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Companies has access to at the measurement date. The Companies considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

- **Level 2 financial instruments** – Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Companies will classify the instruments as Level 3.
- **Level 3 financial instruments** – Those that include one or more unobservable input that is significant to the measurement as whole.

3.11 Recognition of interest income

3.11.1 The effective interest rate method

Under Ind AS 109 interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost, debt instrument measured at FVTOCI, and debt instruments designated at FVTPL. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset. The calculation considers all contractual terms of the financial instrument (for example, prepayment options) and includes any fees or incremental costs that are directly attributable and are an integral part of the EIR, but not future credit losses

3.11.2 Interest income

The Companies calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Companies calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset (i.e. the

gross carrying amount less the allowance for expected credit losses). If the financial assets cures and is no longer credit-impaired, the Companies reverts to calculating interest income on a gross basis.

3.12 Recognition of income and expenses

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind ASs.

The Companies recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115:

- Step 1: Identify contract(s) with a customer:** A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.
- Step 2: Identify performance obligations in the contract:** A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.
- Step 3: Determine the transaction price:** The transaction price is the amount of consideration to which the Companies expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.
- Step 4: Allocate the transaction price to the performance obligations in the contract:** For a contract that has more than one performance obligation, the Companies allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Companies expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Companies satisfy a performance obligation.

3.12.1 Dividend Income

Dividend income is recognised when the Companies' right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably. This is generally when the shareholders approve the dividend.

3.12.2 Fee and commission income

Fee and commission income include fees other than those that are an integral part of EIR. The Companies recognise the fee and commission income in accordance with the terms of the relevant contracts / agreement and when it is probable that the Companies will collect the consideration.

3.12.3 Rental Income

Income from leases is recognised in the statement of profit and loss as per the contractual rentals unless another systematic basis is more representative of the time pattern in which benefits derived from the leased assets.

3.12.4 Income from Transfer and Servicing of Assets

The Companies transfers loans through direct assignment transactions. The transferred loans are derecognised, and gains/losses are accounted for, only if the Companies transfers substantially all risks and rewards specified in the underlying assigned loan contract. In accordance with the Ind AS 109, on derecognition of a financial asset under assigned transactions, the difference between the carrying amount and the consideration received are recognised in the Statement of Profit and Loss.

The Companies recognises either a servicing asset or a servicing liability for servicing contract. If the fee to be received is not expected to compensate the Companies adequately for performing the servicing activities, a servicing liability for the servicing obligation is recognised at its fair value. If the fee to be received is expected to be more than adequate compensation for the servicing activities, a servicing asset is recognised. Corresponding amount is recognised in Statement of Profit and Loss.

3.12.5 Other Income

Other Income represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

3.13 Leases

Companies' as lessee

The Companies assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Companies applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Companies recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Companies recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term.

If ownership of the leased asset transfers to the Companies at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are subject to impairment.

(ii) Lease liabilities

At the commencement date of the lease, the Companies recognise lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease

payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Companies and payments of penalties for terminating the lease, if the lease term reflects the Companies exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Companies uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

(iii) Short-term leases and leases of low-value assets

Lease payments on short-term leases and leases of low-value assets are recognised as expense on actual basis over the lease term.

3.14 Property, plant and equipment

Property, plant and equipment is stated at cost excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Depreciation is calculated using the straight-line method to write down the cost of property, Plant and equipment to their residual values over their estimated useful lives. Land is not depreciated.

The estimated useful lives are, as follows:

Asset Description	Estimated Useful Life by the management	Estimated Useful Life as per Schedule II
Buildings	60 years	60 years
Computers	3-6 years	3-6 years
Office Equipment	1-5 years	5 years
Furniture and fittings	5-10 years	10 years
Motor vehicles	8 years	8 years
Electrical installations and equipment	5-10 years	10 years

The Companies, based on technical assessment made by technical expert and management estimate, depreciates certain items of building over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate

Property plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other income / expense in the statement of profit and loss in the year the asset is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

Intangible assets / Amortisation

Intangible assets that are acquired by the Companies, which have finite useful lives are measured at cost less accumulated amortization and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the intangible asset and are amortised over the lower of the estimated useful life/ licensed period on the straight-line basis or five years.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

Intangible assets under development

Intangible assets under development are assets not ready for the intended use and is carried at cost, comprising direct cost and related incidental expenses.

3.15 Impairment of non-financial assets

The Companies assesses at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Companies estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an assets or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Companies assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Companies bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Companies' CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Companies extrapolates cash flow projections in the budget using a steady or declining growth rate for

subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses of continuing operations are recognised in the statement of profit and loss.

For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Companies estimates the assets or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Profit or Loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

3.16 Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Companies has no obligation, other than the contribution payable to the provident fund. The Companies recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Companies operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to Statement of Profit and Loss in subsequent periods.

Past service costs are recognised in Statement of Profit and Loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Companies recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Companies recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Companies measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date

The Companies treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

3.17 Provisions

Provisions are recognised when the Companies have a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. When the effect of the time value of money is material, the Companies determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

3.18 Taxes

3.18.1 Current tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the reporting date in the countries where the Companies operate and generate taxable income.

Current income tax relating to items recognised outside Statement of Profit and Loss is recognised outside Statement of Profit and Loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

3.18.2 Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- Where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and,

at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

- In respect of taxable temporary differences associated with investments in subsidiaries, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:
- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

3.18.3 Goods and services tax paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the goods and services tax paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

3.19 Segment reporting

In accordance with the “Management Approach” as prescribed under Ind AS 108 – Operating Segments, the identification and reporting of operating segments are based on the internal reports regularly reviewed by the Chief Operating Decision Maker (CODM) to assess performance and allocate resources.

The accounting policies used in the preparation of segment information are consistent with those followed in the preparation of the consolidated financial statements.

3.20 Dividends on ordinary shares

The Companies recognise a liability to make cash or non-cash distributions to equity holders when the distribution is authorised, and the distribution is no longer at the discretion of the Companies. As per the corporate laws in India, a distribution is authorised when it is approved by

the shareholders. A corresponding amount is recognised directly in equity. Interim dividend are recorded as liability on the date of declaration by the company's board of directors.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the statement of profit and loss.

3.21 Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3.22 Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Companies, at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Nonmonetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a

foreign currency are translated at the exchange rate at the date of the transaction.

Exchange differences that arise on settlement of monetary items or on reporting of monetary items at each Balance sheet date at the closing exchange rate are recognised in the statement of profit or loss in the period in which they arise.

3.23 Finance Costs

Finance costs include interest expense calculated using the EIR on respective financial instruments and borrowings including foreign currency borrowings measured at amortised cost, finance charges in respect of assets acquired on finance lease and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to interest costs. All other Borrowing costs are recognized in the Statement of profit and loss in the period in which they are incurred.

4. Significant accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, and the accompanying disclosures, as well as the disclosure of contingent liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements are as below:

- a. Measurement of Expected Credit Loss
- b. Measurement of useful life of Property, Plant & Equipment
- c. Estimation of Taxes on Income
- d. Estimation of Employee Benefit Expense
- e. Effective Interest Rate
- f. Provisions and other contingent liabilities

Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Companies' accounting policies, management has made the following judgements, which have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Companies. Such changes are reflected in the assumptions when they occur.

4.1 Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility.

4.2 Effective Interest Rate (EIR) method

The Companies' EIR methodology recognises interest income / expense using a rate of return that represents

the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well expected changes to India's base rate and other fee income/expense that are integral parts of the instrument.

4.3 Impairment of financial asset

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Companies' ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- The Companies' criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a LTECL basis and the qualitative assessment
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL models, including the various formulas and the choice of inputs
- Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, EADs and LGDs
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models

It has been the Companies' policy to regularly review its models in the context of actual loss experience and adjust when necessary.

4.4 Provisions, other contingent liabilities and contingent assets

4.4.1 Provisions and other contingent liabilities

The Companies operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of the Companies' business.

When the Companies can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Companies records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, or it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation a contingent liability is disclosed.

Given the subjectivity and uncertainty of determining the probability and amount of losses, the Companies takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

Provisions and Contingent liabilities are reviewed at each balance date and disclosed in the consolidated financial statements accordingly.

4.4.2 Contingent assets

Contingent assets are not recognised in financial statements. However, it is disclosed only when an inflow of economic benefits are probable. Contingent assets are reviewed at each balance date

4.4.3 Commitments

Commitments are future contractual liabilities, classified and disclosed as follows

- a) The estimated amount of contracts remaining to be executed on capital account and not provided for
- b) Undisbursed commitment relating to loans; and
- c) Other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of management

4.5 Recent Pronouncements

The Ministry of Corporate Affairs ("MCA"), through notifications, introduces new standards or notifies amendments to the existing standards under the Companies (Indian Accounting Standards) Rules, 2015, from time to time. For accounting periods beginning on or after April 01, 2026, when an entity breaches any covenant of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand, it classifies the liability as current, even if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach. An entity classifies the liability as current because, at the end of the reporting period, it does not have the right to defer its settlement for at least 12 months after that date. However, an entity classifies the liability as non-current if the lender agreed by the end of the reporting period to provide a period of grace ending at least 12 months after the reporting period, within which the entity can rectify the breach and during which the lender cannot demand immediate repayment. This amendment is to be applied retrospectively for annual reporting periods beginning on or after April 01, 2026, in accordance with Ind AS 8, Accounting Policies, Accounting Estimates and Errors. The Company has assessed the impact of the amendment, as stated above, and concluded that it has no impact on the financial statements of the Company for the year ended March 31, 2026 and March 31, 2025.

Note 20.1 - Nature and purpose of reserves

Note 20.1.1 - Securities premium reserve

Securities premium reserve is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

Note 20.1.2 - Special Reserve

The company has transferred an amount of ₹77.82 crores during the year (Previous year ₹77.20 crores) to special reserve in terms of section 36(1)(viii) of Income Tax Act 1961, out of the distributable profits of the company. For the purpose of Section 29C of the National Housing Bank Act, 1987, the creation of the aforesaid special reserve is also considered to be an eligible transfer.

Note 20.1.3 - Statutory reserve

As per Section 29C of the National Housing Bank Act, 1987, the Company is required to transfer at least 20% of its net profit every year to a reserve before any dividend is declared. Accordingly, the Company has transferred an amount of ₹90.55 Crores during the year (Previous year ₹87.89 Crores) to Statutory Reserve under Section 29C of the National Housing Bank Act, 1987.

Note 20.1.4 - General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers were to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the Company for that year, then the total dividend distribution is less than the total distributable results for that year. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013. During the year, the company has transferred ₹50 Crores (Previous year ₹50 Crores) to General Reserve.

Note 20.1.5 - Retained Earnings

Retained earnings represents the amount of accumulated earnings of the Company.

Note 20.1.6 - Other Comprehensive Income

Other Comprehensive Income represents remeasurement of the net defined benefit liabilities comprising of actuarial gain / loss.

Note 20.1.7 - Issues of bonus shares / Buyback of shares:

The Company has not issued / allotted any share pursuant to contracts without payment being received in cash, nor issued any bonus shares nor there has been any buyback of share during five years immediately preceding March 31, 2026.

Note 20.1.8 - Dividend

The Board of Directors at their meeting held on May 21, 2026 have recommended a final dividend of ₹3 per equity share for the year ended March 31, 2026 (Previous year ₹4 per equity share) subject to the approval of shareholders at the ensuing Annual General Meeting.

Note 33 - Retirement benefit plan

Note 33.1 - Defined contribution plan

A Contribution towards Provident Fund is determined under the Employees' Provident Funds & Miscellaneous Provisions Act, 1952 and charged to the Statement of Profit and Loss during the period of incurrence when the services are rendered by the employees.

The expense charged in statement of profit and loss amounting to ₹7.20 crores (March 31, 2025: ₹6.20 crores) represents contributions payable to these plans by the Company at rates specified in the rules of the plan.

Note 33.2 - Defined benefit plan

The Company has a defined benefit gratuity plan in India (funded). The Company's defined benefit gratuity plan is a final salary plan for India employees, which requires contributions to be made to a separately administered fund. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age.

Note:

On November 21, 2025, the Government of India has consolidated 29 existing labour laws into four Labour Codes - the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020 (collectively referred to as the New labour Codes). As per the requirements under Ind AS 19, changes to employee benefit plans arising from the New Labour Codes constitute plan amendments and are required to be treated as past service costs. The Company has estimated an increase in employee benefits (including changes on account of new labour code) by ₹13.73 crores and the same has been recognised under the head "Employee benefits expense" in the statement of profit and loss during the year ended March 31, 2026. The Company continues to monitor the finalisation of Central and State Rules and clarifications on the New Labour Codes and would provide appropriate accounting treatment on the basis of such developments, if needed.

vi) Institutional set-up for liquidity risk management

The Company has put in place a well-defined Risk Management Policy which includes Liquidity Risk Management policy and Contingency Funding plan to manage and monitor Liquidity risk of the Company efficiently and to report the Board on the effectiveness of the same. The Company has an Asset Liability Management Committee (ALCO) headed by the MD & CEO and its members consisting of the Senior Management officials representing Finance, Sales, Credit, Recovery, IT and Risk. The ALCO is a decision-making unit responsible for integrated balance sheet management from risk-return perspective including the strategic management of interest rate and liquidity risks. The ALCO monitors the liquidity risk by ensuring judicious mix of assets and liabilities so as to reduce mismatch in the ALM and also monitors the implementation of the Liquidity Risk Management tools prescribed in the Liquidity Risk Management Policy of the Company. The outcomes of ALCO are promptly reported to the Risk Management Committee of the Board and to the Board of Directors at regular intervals.

Note 45 - Fair value measurement

This note describes the fair value measurement of both financial and non-financial instruments and is structured as follows:

Note 45.1 - Valuation principles

Note 45.2 - Valuation governance

Note 45.4 - Valuation methodologies of financial instruments not measured at fair value

Note 45.4.1 - Fair value of financial instruments not measured at fair value

Note 45.1 - Valuation principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique.

In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

Note 45.2 - Valuation governance

The Company's fair value methodology and the governance over its models includes a number of controls and other procedures to ensure appropriate safeguards are in place to ensure its quality and adequacy. All new product initiatives (including their valuation methodologies) are subject to approvals by various functions of the Company including the risk and finance functions. The responsibility of ongoing measurement resides with the business units. Once submitted, fair value estimates are also reviewed and challenged by the Risk and Finance functions.

Note 45.4 - Valuation methodologies of financial instruments not measured at fair value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the company's financial statements. These fair values were calculated for disclosure purposes only. The below methodologies and assumptions relate only to the instruments in the below tables.

Loans and advances to customers

"The fair values of loans and receivables are estimated by discounted cash flow models that incorporate assumptions for credit risks, probability of default and loss given default estimates. Where such information is not available, the company uses historical experience and other information used in its collective impairment models.

Fair values of lending portfolios are calculated using a portfolio-based approach. The company then calculates and extrapolates the fair value to the entire portfolio, using discounted cash flow models that incorporate interest rate estimates considering all significant characteristics of the loans. The credit risk is applied as a top-side adjustment based on the collective impairment model incorporating probability of defaults and loss given defaults.

Note 45.4.1 - Fair value of financial instruments not measured at fair value

Note 46 - Risk management

Note 46.1 - Introduction and risk profile

The Company, being an NBFC-HFC, operates in a highly regulated and dynamic environment and is exposed to multiple risks which is integral part of the day-to-day business. The company deals with large number of customers and is involved in long term lending. Hence, the risks to this type of business is unique and requires focused attention. Further, the management of risk is continuous and ongoing process and needs to be dynamic. The company is aware that risk is proportionate to the expected returns but should have limitations in exposing itself to the risks. This process of risk management is critical to the company's continuing profitability and reputation in the market. The company is generally exposed to credit risk, operational risk, Liquidity risk, interest rate risk, and solvency risk.

Note 46.1.1 - Risk management structure

Risk management is an integral part of the Company's business operations. The Company has implemented a Board-approved risk management policy framework, aligned with guidelines issued by NHB and RBI. The objective of the risk management framework is to measure and monitor various threats and to implement policies and procedures to mitigate such risks faced by the company and to strengthen operational controls in the day-to-day business operations.

Board of Directors are responsible for effective risk management which oversees and reviews the overall functioning of the risk management and provide necessary directions in this regard.

The Risk Management Committee of the Board (RMCB) is Board level committee entrusted with overseeing implementation of the Risk Management Policy / strategy to deal with risk management activities in an efficient and effective manner. The committee reviews the functioning of the risk management framework at periodical intervals. RMCB reviews the reports and directs for taking mitigating steps. The committee reports the status of the risk management of the company to the Board at periodical intervals through minutes of the meeting of the committee. The minutes of the committee are placed before the Board.

"Credit and Operational Risk Management Committee (CORMC) is an executive level committee headed by Managing Director & Chief Executive Officer (MD & CEO) as Chairman of the Committee, having members viz., Chief Development Officer (CDO), Chief Operating Officer (COO), Chief Business Officer (CBO), Company Secretary & Compliance Officer (CS & CO), Chief Financial Officer (CFO), Chief Information officer (CIO), all the General Managers, Chief Risk Officer (CRO), Head of Legal, Head of Internal Audit (HIA), Chief Compliance Officer (CCO), Chief Technology Officer (CTO). CORMC is responsible for laying down the operational guidelines and monitor and mitigate the credit and operational risks the company is facing. This Committee periodically (Atleast Quarterly once or on need basis) reviews the Risk and Control Self-Assessment studies, portfolio analysis, monitor various Key Risk Indicators (KRI), etc. and provide necessary mitigations. CORMC also reviews and recommends the Risk Management Committee of the Board (RMCB) the amendments to Risk Management Policy, as and when considered necessary. The minutes of this committee is placed before Risk Management Committee of the Board (RMCB). Besides this, Assets and Liabilities Management Committee (ALCO) addresses the market and liquidity risks, conducted atleast once on Monthly basis.

The Risk Management Department in Corporate Office of the company is responsible for Identification, measurement, monitoring and taking steps for mitigation of Credit, Market and operational risk and reporting to top management and the committees concerned.

The company has an independent Risk Management department headed by Chief Risk Officer (CRO) who is responsible for coordination, overseeing and implementation of the requirements identified in the Board approved Risk Management Policy.

Note 46.1.2 - Risk Identification

The Company recognizes that identification of risk is the most crucial function in managing and mitigating the risk. The Company identifies the risks in each function/activity through Cross-departmental inputs and systematic reviews by management/committees periodically. The Company's Risk Management function operates as the second line of defence, responsible for establishing risk management frameworks, and independently identifying, assessing, monitoring, and mitigating risks across the organization. The first

(All amounts are in Indian Rupees Crores, unless otherwise stated)

line of defence, comprising departmental heads and executive management, holds the overall responsibility for identifying, managing, monitoring, and evaluating risks within their respective functions as part of day-to-day operations.

The Company on an ongoing basis identifies and maintains Enterprise-wide Risk Register covering Key risks and controls across various types of risks like Operational risk, Credit risk etc. across the departments. This register is dynamic as it gets updated by additions and deletions as and when new guidelines are issued.

Note 46.1.3 - Risk measurement

The company recognizes that risk cannot be eliminated while doing business. In fact, risk has to be leveraged to the potential extent. It is imperative that the level of risk has to be measured and evaluated to take calibrated measures to manage the risk at the appropriate level. For this purpose, the company has incorporated various tools like, Risk Register, Risk Control Self-Assessment, KRI, Stress testing etc to measure the risk both for probability and impact on an ongoing basis.

The risk issues identified are measured based on the impact it may have on the business if the company is exposed to such risks. Based on the velocity of impact each risk is categorised as 'High', 'Medium' and 'Low' risk. This is done to decide the quantum of focus required in respect of each risk issue. Weightage is given for each risk issue to enable the company to measure the risk. The company gives focus on 'High' risk issues for better management.

Note 46.1.4 - Risk Monitoring

"The company recognizes an effective and constant monitoring process is essential for managing and mitigating risk. Regular monitoring would help quick detection and initiation of remedial action. Prompt detection would substantially reduce the severity and frequency of loss events. The company has put in place effective tools and methodologies for monitoring the level and direction of risk through various reports, verifications, Self – assessments exercise by Functional departments, etc ongoing basis. RHFL continues to leverage data and analytics capabilities to identify early signals of NPA trend formation through Cohort (Vintage Curve) analysis, Migration matrix, key risk indicator (KRI) monitoring, etc.. The company also conducts periodic stress testing to assess the sustainability of its business, even during periods of financial stress. These insights support proactive risk management, enabling timely corrective actions and strengthening portfolio resilience.

Note 46.1.5 - Risk Assessment methodology

The risk is assessed based on self assessment by the owners of risk at the prescribed intervals. Each risk issue has to be assessed by the owners of the risk and provide a certification. The certificate is subject to verification by Risk Management Department and by Internal Auditors. Accordingly, each branch assesses the level of compliance in respect of each risk issue and provides a certificate. For this purpose, a software utility has been provided to each branch, departments in Corporate Office (CO), regional offices and Central depository (CDR). This exercise is done every quarter.

Note 46.1.6 - Credit risk

The Company is primarily in the business of lending and hence is exposed to credit risk. Various credit risk mitigations are provided in the Credit Policy of the company such as profiling each customer based on various factors of the borrower and linking pricing to the same. The internal rating of each borrower is done as a part of appraisal to arrive at the risk. The Credit risk issues are identified by the Risk Management Department and provided to the branches and Credit Department for assessment. Mitigation steps are taken immediately to manage the risk. Immediate action is initiated by way of SARFAESI, OTS, etc to recover the impaired credit.

Assets possessed under Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002:

Loan Portfolio includes gross loans amounting to ₹48.63 Crores (March 31, 2025: ₹27.59 Crores) against which the Company has taken possession of the properties under Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 and held such properties for disposal. The value of assets possessed against these loans is ₹81.65 Crores (March 31, 2025: ₹104.27 Crores).

Restructuring of accounts

The economic fallout on account of COVID-19 pandemic has led to significant financial stress for many borrowers. Considering the above, with the intent to facilitate revival and to mitigate the impact on ultimate borrowers, Reserve Bank of India (RBI) introduced measures under the Resolution Framework for COVID-19. As per the RBI Framework, the Corporation established a policy to provide resolution for eligible borrowers having stress on account of COVID-19 in line with the RBI Guidelines.

As advised under the said circular and Company's policy, the eligibility of customers was assessed, so as to understand the extent of financial stress caused due to COVID-19, i.e. delay in construction, sales and consequent cash flow mismatch, duly supported by the documentary evidence. In addition to assessing the impact of stress, the Resolution framework was discussed with the eligible borrower prior to invocation of Resolution plan. The Resolution Framework offered to ensure that the servicing of the restructured loan is not likely to be impacted.

Moratorium

The RBI had announced Moratorium for 6 months on repayments for the period March 2020 to August 2020 for term loans and working capital facilities outstanding as on February 29, 2020. This was part of the regulatory measures adopted to mitigate the burden of debt servicing brought about by disruptions on account of Covid pandemic and to ensure continuity of viable businesses. As part of the scheme and as per Company's Board approved policy, the Company has provided moratorium to eligible borrowers.

Note 46.1.6.1 - The company's internal grading

The Company's Risk Management Department is responsible for the development, maintenance, and operation of its internal credit rating models. The Company has established an internal scoring framework that evaluates borrowers based on a range of key variables, including borrower profile, income, demographic characteristics, property details, credit bureau score, repayment behaviour, and other relevant factors. The scoring models incorporate both quantitative and qualitative information and, in addition to borrower-specific data, consider relevant external information that may influence the borrower's creditworthiness and repayment capacity. An internal credit score is assigned to each borrower at the time of on boarding. This score serves as the basis for determining the borrower's risk grade and strengthens the Company's credit underwriting and risk management processes.

Note 46.1.6.2 - Impairment - Expected credit loss (ECL)

The application of Ind AS 109 has necessitated fundamental changes to the accounting for expected default risk (risk provisioning). Specifically, the incurred loss model has been replaced by the Expected Credit Loss model (ECL). Consequent to this change, the Expected Credit losses on financial instruments are classified under three stages.

Stage 1: Every financial asset is classified as stage 1, upon initial recognition. In addition, stage 1 contains all transactions with limited default risk.

Stage 2: Financial assets whose default risk has risen significantly since initial recognition and which are not classified as cases with limited default risk.

Stage 3: Financial assets that display objective evidence of impairment at the reporting date.

The accounting standard, Ind AS 109 does not specifically prescribe any methodology for computing ECL. However, entities are required to adopt sound and market acceptable methodologies which are in line with the size, complexity and risk-profile of the financial entity for computing the ECL. The Company uses three main components to measure ECL. These are, Exposure at default (EAD), Probability of Default (PD) and Loss Given Default (LGD).

Exposure at default (EAD) is defined as the sum of Principal outstanding and interest accrued at the reporting date.

PD is defined as the probability of borrowers defaulting on their obligations.

LGD represents the economic loss. Company uses historical loss data for identified homogenous pools for the purpose of calculating LGD. For individual cases where there has been a significant deterioration in recovery, the LGD is considered to be 100%.

Accordingly, loan assets are categorised under three different stages, as under:

Stage 1: Where instalments are Current and 1-30 days overdue

Stage 2: Where instalments are 31 days – 90 days overdue and

Stage 3: Where instalments are overdue beyond 90 days

The company is required to provide 12-month Expected Credit Loss (12-month ECL) for stage 1 assets and the Life Time Expected Credit Loss (LECL) for stage 2 and stage 3 assets

12-month ECL is the expected credit loss that results from default events that are possible within 12 months after the reporting date. LECL represents the expected credit loss from default events over the expected life of a financial asset.

As prescribed under para 5.5 in Ind AS 109, 12-months PD is required to be computed for financial instruments which are in stage 1, and life time PD for those in stage 2 & 3. 12-months PD is the likelihood of the borrower defaulting in the 12 months following the reporting date while life time PD is the likelihood of the borrower defaulting during the residual tenor.

The PD model has been developed for all the major asset classes using a statistical and iterative approach. The design and construction of the model involves identification of various credit parameters and variables that have a strong and direct correlation to propensity of default. The PD model reflects to the probability of default, taking into consideration the inherent credit quality of the borrower and the residual tenor of each contract. The PD for stage 3 contracts is considered at 100%. Where a customer has one contract in stage 3 and one or more contracts in stage 1 / stage 2, the PD for all the contracts is considered at 100%.

LGD represents the economic loss, adjusted for cure rate, as a percentage of exposure at the time of default. Economic loss is the estimated shortfall in realisation of dues, in the event of default. Contracts that have turned delinquent do not necessarily involve ultimate losses, since many of them are resolved through corrective actions. The cure rate is the probability of a 'non performing' (i.e. defaulted) contract reverting to a 'performing' (i.e. non-default) status in a year. For individual cases where there has been a significant deterioration in recovery, the LGD is considered to be 100% for those cases.

Note 46.1.8 - Operational Risk

Operational Risk is constantly monitored as it is prevalent in every branch and department. Systematic improvements are made wherever required. The Operational Risk Management team identifies and monitors the operational risks in various products as well as processes of the Company. It ensures that major risks are covered or mitigated in order to avoid or minimize operational risk loss.

Note 46.1.9 - Compliance Risk

Based on the guidelines received from regulatory and statutory authorities and also based on the policy requirements, the compliance risks issues are identified, assessed and monitored for compliance-by-Compliance department.

Note 46.1.10 - Market Risk

The Company does not accept deposits from public. The resources are mobilized from banks and market. The Company has a specific committee named Assets and Liabilities Committee (ALCO) which meets at frequent intervals (minimum once in Month) to manage the liquidity, interest rates, spread etc. The Committee also prescribes Minimum Lending Rate (MLR).

(All amounts are in Indian Rupees Crores, unless otherwise stated)

Note 46.1.11 - Interest Rate Risk

The Company is subject to interest rate risk, since the rates of loans and borrowings might fluctuate over the tenure of instrument. Interest rates are highly sensitive to many factors beyond control, including the monetary policies of the Reserve Bank of India, deregulation of the financial sector in India, domestic and international economic and political conditions, inflation and other factors. In order to manage interest rate risk, the Company seeks to optimise borrowing profile between short-term and long-term loans. The liabilities are categorised into various time buckets based on their maturities and Asset Liability Management Committee supervise an interest rate sensitivity report periodically for assessment of interest rate risks.

Note 46.2 - Capital Management

"The Company's capital management strategy is to effectively determine, raise and deploy capital to cover risk inherent in business and meeting the capital adequacy requirements of the Reserve Bank of India (RBI). The Company finances its operations by a combination of retained profit and bank borrowings. The Company determines the amount of capital required on the basis of operations and capital expenditure. The adequacy of the Company's capital is monitored using, among other measures, the regulations issued by the RBI.

The capital structure is monitored on the basis of net debt to equity and maturity profile of overall debt portfolio. The Company's policy is in line with Master Direction – Non-Banking Financial Company – Reserve Bank of India (Housing Finance Companies) Directions, 2025 which currently permits HFCs to borrow up to 12 times of their net owned funds ("NOF"). Refer Note 34.1 for Capital to risk weighted assets ratio (CRAR).

The Company has complied in full with all its externally imposed capital requirements over the reported periods

Loan Covenants

There were few breaches of loan covenants during the year for facilities availed from lenders. However, the company has concluded that these loan covenants are not substantive in nature based on specific facts and circumstances applicable to it.

(All amounts are in Indian Rupees Crores, unless otherwise stated)

Note 47 - Analysis of risk concentration

The Company's concentrations of risk (for financial assets other than loans and advances) are managed by industry sector. The following table shows the risk concentration by industry for the financial assets of the Company:

Note 47.1 - Collateral and other credit enhancements

Although collateral can be an important mitigation of credit risk, it is the Company's practice to lend on the basis of the customer's ability to meet the obligations out of cash flow resources other than placing primary reliance on collateral and other credit risk enhancements. The Company obtains first and exclusive charge on all collateral that it obtains for the loans given. Home loans/ home equity loans are secured by collateral at the time of origination. In case of Home loans/ home equity loans, the value of the property at the time of origination will be arrived by obtaining valuation reports from Company's empanelled valuers. Immovable Property is the collateral for Home loans/ Home Equity loans. Security Interest in favour of the Company is created by Mortgage through deposit of title deed which is registered wherever required by law. Any surplus remaining after settlement of outstanding debt by way of sale of collateral is returned to the customer / borrower.

Note 48 - Liquidity risk and funding management

Liquidity risk is defined as the risk that the company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the company might be unable to meet its payment obligations when they fall due as a result of mismatches in the timing of the cash flows under both normal and stress circumstances. Such scenarios could occur when funding needed for illiquid asset positions is not available to the company on acceptable terms. To limit this risk, management has arranged for diversified funding sources and adopted a policy of managing assets with liquidity in mind and monitoring future cash flows and liquidity on a daily basis. The company has developed internal control processes and contingency plans for managing liquidity risk.

The company maintains diverse assets that are assumed to be easily liquidated in the event of an unforeseen interruption in cash flow. The company also has lines of credit that it can access to meet liquidity needs. In accordance with the company's policy, the liquidity position is assessed under a variety of scenarios, giving due consideration to stress factors relating to both the market in general and specifically to the company. Net liquid assets consist of cash and cash equivalents, balances other than cash and cash equivalents available for immediate use, less securities issued and borrowings due to mature within the next month.

NOTES:

1. In accordance with the General Circulars No. 14/2020 dated 8th April, 2020, 17/2020 dated 13th April, 2020, 22/2020 dated 15th June, 2020, 33/2020 dated 28th September, 2020, 39/2020 dated 31st December, 2020, 10/2021 dated 23rd June, 2021, 20/2021 dated 8th December, 2021, 3/2022 dated 5th May, 2022, 11/2022 dated 28th December, 2022, 9/2023 dated 25th September, 2023, 09/2024 dated 19th September, 2024 and 03/2025 dated 22nd September, 2025 issued by the Ministry of Corporate Affairs ("MCA") ("collectively referred as "MCA Circulars"), applicable provisions of the Companies Act, 2013 and the rules made thereunder and the SEBI Circular No. SEBI/ HO/CFD/PoD-2/P/CIR/2023/4 dated 5th January, 2023 read with applicable circulars as may be issued by SEBI, Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (SEBI Listing Regulations), companies are allowed to hold Annual General Meeting (AGM) through Video Conference (VC)/Other Audio Visual Means (OAVM), without the physical presence of Members at a common venue. The Corporate office of the Company shall be deemed to be the venue for the AGM. Hence, in compliance with the above mentioned Circulars, the AGM of the Company is being held through VC/OAVM. Since the AGM will be held through VC/OAVM, the route map and attendance slip are not annexed to this Notice.
2. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Companies (Management and Administration) Rules, 2014 (as amended from time to time) and Regulation 44 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended from time to time), Secretarial Standards on General Meetings (SS-2) issued by the Institute of Company Secretaries of India and the circulars issued by MCA and SEBI, the Company is holding its Annual General Meeting (AGM) through Video Conferencing ("VC")/ Other Audio-Visual Means ("OAVM"), without the physical presence of the Members at a common venue. For the said purpose the Company has engaged the services of KFin Technologies Limited (KFin) for conducting AGM through VC/OAVM. Further, KFin has also been engaged for facilitating e-voting to enable the members to cast their votes electronically using remote e-voting system as well as e-voting during the AGM. The procedure for participating in the meeting through VC/OAVM is explained in the notes below.
3. The attendance of the Members participating in the AGM through VC/OAVM facility shall be counted for the purpose of reckoning the quorum under Section 103 of the Act.
4. Members are requested to e-mail at evoting@kfintech.com or call helpline at 1-800-309-4001 in case of any technical assistance required at the time of log in/ assessing/e-voting at the Meeting through VC.
5. In compliance with the MCA and SEBI Circulars, the Annual Report for financial year 2025-26 along with the AGM Notice shall be sent to the shareholders in electronic form, to the e-mail address provided by them and made available to us by the Depositories to those members whose names appear on the Register of Members / Record of Depositories as on 28th August 2026. The Notice of AGM and Annual report for the financial year 2025-26 are also placed on the website of the Company i.e. www.repcohome.com and the website of KFin Technologies Limited i.e. www.kfintech.com and at the relevant sections of the websites of the stock exchanges on which the shares of the Company are listed i.e. BSE Limited (www.bseindia.com) and National Stock Exchange of India Limited (www.nseindia.com). In accordance with Regulation 36(1)(b) of the SEBI Listing Regulations, the Company is also sending a letter to Members whose e-mail ids are not registered with Company/RTA/DP providing the weblink of Company's website from where the Annual Report for the Financial Year 2025-26 can be accessed. The physical copy of the Annual Report will be sent to the shareholders based on the specific request received at cs@repcohome.com.
6. The Explanatory Statement pursuant to Section 102 of the Companies Act, 2013 ("Act") setting out material facts relating to the special business(es) and whichever business items required to be transacted at the AGM is annexed hereto.
7. Pursuant to the provisions of the Companies Act, 2013, a Member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his/her behalf and the proxy need not be a Member of the Company. Since this AGM is being held pursuant to the MCA Circulars through VC/OAVM, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by the Members will not be available for the AGM and hence the Proxy Form and Attendance Slip are not annexed to this Notice.
8. The Institutional/Corporate shareholders (i.e. other than individuals/HUF, NRI, etc.) are entitled to appoint authorized representatives to attend the AGM through VC/OAVM and cast their votes through e-voting. They are required to send a scanned copy (pdf format) of its board or governing body's resolution/authorization, etc., authorizing their representative to attend the AGM on its behalf and to vote

through remote e-voting. The said resolution/authorization shall be sent to the scrutinizer by email through its registered email address to gr@gramcsfirm.com with a copy marked to cs@repcohome.com and evoting@kfintech.com.

9. The Company has fixed Tuesday, 22nd September 2026, as the "Record Date" for determining entitlement of Members for payment of final dividend for the financial year ended 31st March, 2026, if approved at the AGM.
10. If the dividend, as recommended by the Board of Directors, is approved at the AGM by the members, payment of such dividend subject to deduction of tax at source will be dispatched/remitted on or before 28th October 2026 (30 days of AGM Date) to all Beneficial Owners in respect of shares held in dematerialized form as per the data as may be made available by the National Securities Depository Limited ("NSDL") and the Central Depository Services (India) Limited ("CDSL"), collectively "Depositories", as of end of day on Tuesday, 22nd September 2026, except to such shareholder(s) who has made request to the Company to relinquish their right of receiving dividend.
11. Pursuant to the Finance Act, 2020, dividend income will be taxable in the hands of shareholders and the Company is required to deduct tax at source from dividend paid to shareholders at the prescribed rates. For the prescribed rates for various categories, please refer to the Finance Act, 2020 and the amendments thereof. The shareholders are requested to update their PAN with the Company/RTA (in case of shares held in physical mode) and depositories (in case of shares held in demat mode).

A Resident individual shareholder with PAN and who is not liable to pay income tax can submit a yearly declaration in Form No. 15G/15H, to avail the benefit of non-deduction of tax at source by uploading the documents at <https://ris.kfintech.com/form15>. Shareholders are requested to note that in case their PAN is not registered, the tax will be deducted at a higher rate of 20%.

Non-resident shareholders can avail beneficial rates under tax treaty between India and their country of residence, subject to providing necessary documents i.e. No Permanent Establishment and Beneficial Ownership Declaration, Tax Residency Certificate, Form 10F, any other document which may be required to avail the tax treaty benefits by uploading the documents at <https://ris.kfintech.com/form15>

The aforesaid declarations and documents need to be submitted by the Members by 5.00 P.M. IST on 16th September 2026.

The Resident Non-Individual Members i.e. Insurance companies, Mutual Funds and Alternative Investment Fund (AIF) established in India and Non-Resident Non-Individual Members i.e. Foreign Institutional Investors and Foreign Portfolio Investors may alternatively submit the relevant forms / declarations / documents through their respective custodian, on or before the aforesaid timelines.

12. In terms of section 124(5) of the Companies Act, 2013, the dividend amount remaining unclaimed for a period of 7 years shall become due for transfer to the Investor Education and Protection Fund (IEPF) established by the Central Government. Further, in terms of section 124(6) of the Companies Act, 2013, in the case of such shareholders whose dividends are unpaid for a continuous period of 7 years, the corresponding shares shall be transferred to the IEPF demat account. Members who have not claimed dividends from FY 2018-19 onwards are requested to approach the Company/KFin for claiming the same as early as possible, to avoid transfer of the relevant shares to the IEPF demat account. Once unclaimed dividends are transferred to this fund, members will not be entitled to claim these dividends from the Company. The details of unclaimed dividend are available on the Company's website www.repcohome.com under the Investor section. Members may note that shares as well as unclaimed dividends [FY 2012-13, 2013-14, 2014-15, 2015-16, 2016-17, 2017-18] transferred to IEPF Authority can be claimed back from the IEPF Authority. Any person who is entitled to claim unclaimed dividends or shares etc. that have been transferred to IEPF, can claim the same by making an application directly to IEPF in the prescribed form under the IEPF Rules which is available on the website of IEPF i.e. www.iepf.gov.in
13. The facility for e-voting shall also be made available during the AGM. The Members attending the AGM, who have not cast their votes through remote e-voting and are otherwise not barred from doing so, shall be able to exercise their voting rights during the AGM. The Members who have already casted their votes through remote e-voting may attend the meeting but shall not be entitled to cast their votes again at the AGM.
14. Once the vote on a resolution is cast by the shareholder, the shareholder shall not be allowed to change it subsequently. There will be one e-vote for every Client ID irrespective of the number of joint holders. Voting Rights shall be reckoned on the paid-up value of shares registered in the name of

the Member(s) as on the cut-off date and any person who is not a member as on that date should treat this Notice for information purposes only.

15. Members may join the AGM through VC/OAVM Facility by following the procedure as mentioned in the notice herein which shall be kept open for the Members from 11:00 AM (IST) i.e. 30 minutes before the time scheduled to start the AGM and the Company may close the window for joining the VC/OAVM facility, 15 minutes after the scheduled time to start the AGM.

16. In order to promote optimum utilization of natural resources responsibly, we request shareholders to update their contact details including e-mail address, mandates, nominations, power of attorney, Company details covering the name of the Company and branch details, Company account number, MICR code, IFSC code, etc. with their depository participants and with RTA to enable the Company to send all the communications electronically including Annual Report, Notices, Circulars, etc. The Company is concerned about protecting the environment and utilizing natural resources in a sustainable way.

Further it may be noted for the purpose of receiving dividend the members are requested to contact their Depository Participant (DP) and register their email id and bank account details with their demat account, as per the process advised by their Depository Participant.

17. The Register of Directors and Key Managerial Personnel and their shareholding maintained under Section 170 of the Companies Act, 2013 and the Register of Contracts and Arrangements in which Directors are interested maintained under Section 189 of the Companies Act, 2013 shall be made available only in electronic form for inspection during the Meeting through VC.

18. All documents referred to in this Notice will be available electronically for inspection by the Members during the AGM. All documents referred to in the Notice will also be available for electronic inspection without any fee by the Members from the date of circulation of this Notice up to the date of AGM. Members seeking to inspect such documents can send an email to cs@repcohome.com/investorservices@repcohome.com.

19. Brief details of the directors, who are being appointed/re-appointed, is annexed hereto as per requirements of regulation 36(3) of the SEBI (Listing Obligations and

Disclosure Requirements) Regulations, 2015 and as per provisions of the Companies Act, 2013.

20. Pursuant to the provisions of Section 91 of the Companies Act, 2013, and Regulations 42, SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Register of Members and Share Transfer Books of the Company will remain closed from 23rd September 2026 to 29th September 2026 (both days inclusive) for the purpose of this AGM of the Company and for determining the entitlement of the shareholders to the payment of dividend.

21. Members holding shares in physical form are requested to notify in writing any changes in their address/bank account details to the Secretarial Department of the Company or to the Registrar & Transfer Agent of the Company i.e. KFin Technologies Ltd. Members holding shares in electronic form are requested to notify the changes in the above particulars directly to their Depository Participants (DP).

22. Non-Resident Indian Members are requested to inform RTA of the Company any change in their residential status on return to India for permanent settlement, particulars of their Company account maintained in India with complete name, branch account type, account number and address of Company with pin code number, if not furnished earlier. Members holding shares in electronic form may contact their respective Depository Participants for availing this facility.

23. SEBI has mandated the submission of a Permanent Account Number (PAN) by every person dealing in the securities market. Members holding shares in electronic form are, therefore, requested to submit the PAN to their depository participants with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN details to the Company or RTA.

24. As per the provisions of Section 72 of the Companies Act, 2013, the facility for making nomination is available for the Members in respect of the shares held by them by submitting Form SH-13 to RTA (if holding physical shares)/ to their DP (if holding demat shares).

25. Shareholders are requested to note that pursuant to SEBI circular dated 3rd November, 2021 (subsequently amended by circulars dated 14th December, 2021, and 17th November, 2023) mandated that the security holders (holding securities in physical form), whose folio(s) were not updated with the KYC details (any of the details viz., PAN; Choice of Nomination; Contact Details; Mobile Number and Bank Account Details

and signature, if any) shall be eligible for any payment including dividend, interest or redemption in respect of such folios, only through electronic mode with effect from 1st April, 2024. Members are requested to intimate / update changes, if any, in postal address, e-mail address, mobile number, PAN, nomination, bank details such as name of the bank and branch, bank account number, IFS Code, etc.

Shareholders are requested to update the KYC details by submitting the relevant forms duly filled in along with self attested supporting proofs. The forms can be downloaded from the website of the RTA, KFin Technologies Limited; <https://ris.kfintech.com/clientservices/isc/isrforms.aspx>

EXPLANATORY STATEMENT PURSUANT TO SECTION 102(2) OF THE COMPANIES ACT, 2013:

Item No. 4

The company currently has M/s. R. Subramanian and Company LLP, Chartered Accountants, (FRN:004137S/S200041) as Statutory Auditors who were appointed for a term of three consecutive years to hold office from the conclusion of 24th Annual General Meeting till the conclusion of 27th Annual General Meeting.

Pursuant to RBI (Non-Banking Financial Companies Miscellaneous) Directions, 2025 read with RBI Circular RBI/2021- 22/25 Ref.No.DoS. CO.ARG/SEC.01/08.91.001/2021- 22 dated 27th April, 2021, on Guidelines for Appointment of Statutory Central Auditors (SCAs)/Statutory Auditors (SAs), ("RBI Guidelines") the Company having an assets size of Rs.15,000 Crores and above, as at the end of previous year the statutory audit of such company should be conducted under joint audit of a minimum of two audit firms (Partnership firms/Limited Liability Partnerships (LLPs)) and accordingly such Company is required to appoint Joint Statutory Auditors for a period of 3 consecutive years. In this regard, as the Company have crossed the specified threshold of Rs.15,000 Crores asset size as at 31st March, 2026, accordingly the Statutory Audit of the Company shall be conducted under joint audit of a minimum of two audit firms.

The Board of Directors of the Company ("the Board"), on the recommendation of the Audit Committee in its meeting held on 11th August, 2026 has approved and recommended for the approval of the Members, the appointment of M/s. Rajagopal & Badri Narayanan, Chartered Accountants (FRN: 003024S) as the Joint Statutory Auditors of the Company for a period of 3 consecutive years from the conclusion of 26th AGM until the conclusion of 29th AGM of the Company subject to the said firm continuing to fulfil the applicable eligibility norms each year.

M/s. Rajagopal & Badri Narayanan, the proposed joint Statutory Auditors has given their consent & confirmed that their appointment, if made, will be within the limit specified under the Companies Act, 2013 and RBI Guidelines. They have also confirmed that they are not disqualified to be appointed as statutory auditor in terms of the provisions of the Section 141

of the Companies Act, 2013 and the provisions of the Companies (Audit and Auditors) Rules, 2014 and relevant RBI Guidelines.

Brief Profile including the details in relation to and credentials of the statutory auditor(s) proposed to be appointed:

M/s. Rajagopal & Badri Narayanan, (Firm Registration No.: 003024S) is a firm of Chartered Accountants established in the year 1981. At present, the firm has 6 fulltime Partners. The firm has around 35 years of Audit Experience and has expertise in various areas like Internal & Operational Audits, Taxation, Business Valuations, Financial Compliance matters, and Due Diligence Reviews apart from specialized services in relation to development of Financial / Accounting / Internal Control and Internal Audit Manuals.

The proposed fees to be paid to Joint Statutory Auditor:

The proposed fee is Rs.12,50,000 plus applicable taxes towards statutory audit fee, Rs.6,75,000 plus applicable taxes per financial year for quarterly limited review and branch audit fee Rs.40,000/- per branch plus applicable taxes excluding certification fees and out of pocket expenses which will be over and above the above limit.

The revision in remuneration if any shall be as mutually agreed between the Board of Directors and Statutory Auditors. There is no outgoing Statutory Auditor of the Company. Since the Joint Statutory Auditor is proposed to be appointed for the first time, there is no existing remuneration payable to an outgoing auditor against which the proposed remuneration can be compared. Accordingly, the disclosure relating to any material change in the remuneration payable to the proposed Joint Statutory Auditor vis-à-vis the remuneration paid to an outgoing auditor, together with the rationale for such change, is not applicable.

It may be noted that M/s. R. Subramanian and Company LLP Chartered Accountants, (FRN. 004137S/S200041) the current Statutory Auditor, will continue to undertake the audit of the Company until the conclusion of the 27th Annual General Meeting.

The Board recommends the Ordinary Resolution as set out in Item No. 4 of this Notice for approval of the Members. None of the Directors or any key managerial personnel or the relatives of the directors or key managerial personnel are in any way concerned or interested, financially or otherwise, in the said resolution.

Item No.5

The provisions of Regulation 23 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, mandates prior approval of Members by means of an ordinary resolution for all material related party transactions and subsequent material modifications as defined by the Audit Committee even if such transactions are in the ordinary course of the business of the Company and at an arm's length basis. A transaction with a related party shall be considered material if the transactions to be entered into individually or taken together with previous transactions during a financial year, exceeds 10% of the annual consolidated turnover as per the last audited financial statements of the Company. The annual consolidated turnover of the Company for the financial year 2025-26 is Rs. 1793.90 Crores. The Company has been entering into transactions with Repatriates Co-operative Finance & Development Bank Limited (Repco Bank), Promoter of the Company since incorporation, in the ordinary course of business. Repatriates Co-operative Finance & Development Bank Limited (Repco Bank), promoter holds 37.13% of equity shares in the Company as on date. The Members may please note that in terms of the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the related parties shall not vote to approve resolution.

Your Directors recommend the passing of the resolution proposed at Item No.5 of the Notice as Ordinary Resolution. It may be noted that Mr. C.Thangaraju and Mr. E.Santhanam are on the Board of Repco Home Finance Limited as well as on the Board of Repatriates Co-operative Finance & Development Bank Limited (Promoter). Mr. Paiyur Kuppuraman Vaidyanathan, Chief General Manager, Repco Bank and Mr. Bakthavatsalu Kannan, General Manager, Repco Bank are presently on deputation to Repco Home Finance Limited as Wholtime Directors. None of the any other Directors or any key managerial personnel or the relatives of the directors or key managerial personnel are in any way concerned or interested, financially or otherwise, in the said resolution.

Item No. 6

In terms of provisions of Section 180(1)(c) of the Companies Act, 2013, the Board cannot, except with the consent of the Members in a general meeting, by means of a Special Resolution, borrow money(ies) where the money to be borrowed, together with the money already borrowed (apart from temporary loans obtained from the Company's bankers in the ordinary course of business), in excess of the aggregate of the paid-up share capital, free reserves and securities premium.

The shareholders of the company at its 14th Annual General Meeting held on dated 11th September 2014 accorded its approval by way of special resolution under section 180(1)(c) and all other applicable provisions, if any, of the Companies Act, 2013 to the Board of Directors of the Company for borrowing money(ies) in

excess of the aggregate of the paid-up capital and free reserves of the Company upto a sum of Rs.15,000 Crores (apart from temporary loans obtained from the Company's Bankers in the ordinary course of business).

Considering the present and future business requirements of the Company, ongoing expansion plans, capital expenditure commitments and additional funding requirements, the Board may have to resort to multiple financing alternatives, the amount of which is expected to exceed the approved existing borrowing limit of Rs.15,000 Crores. The borrowings of the Company include term loans from Banks, loan from Repco Bank, refinance from National Housing Bank, Non-Convertible Debentures, Commercial Papers, Pass through Certificate (PTC) etc. The limits will be availed by the Company only based on the actual requirement. However, a higher limit will help the Company to approach various Banks / Institutions and have sufficient cost-effective funds at disposal and optimize cost of funds. The total borrowings of the Company as on 31st March, 2026 was Rs. 12,215.19 Crores (excluding interest accrued and EIR adjustments). As per Master Direction Reserve Bank of India (Housing Finance Companies) Directions, 2025 the maximum amount that the Company can borrow shall not exceed twelve times of the Net Owned Funds (NOF) as per the last audited Balance Sheet and as on 31st March, 2026, the NOF was Rs.3634.21 Crores.

In view of the above, it is considered desirable to increase the Company's existing borrowing limit from Rs.15,000 Crores to Rs.20,000 Crores. In order to comply with the requirements under Section 180(1)(c) of the Companies Act, 2013, consent of the Members is sought through the resolution(s) proposed at Item No.6 by way of special resolution to enable the Board of Directors of the Company to borrow money(ies) upto a sum of Rs.20000 Crores (apart from temporary loans obtained from Company's Bankers in the ordinary course of business).

None of the Directors or any Key Managerial Personnel or the relatives of the Directors or Key Managerial Personnel is in any way concerned or Interested, financially or otherwise, in the said resolution, except for borrowings, if any, from Repco Bank (Promoter of the Company), in which case, Mr. C. Thangaraju (Non-Executive & Non-Independent Director), Mr. E. Santhanam (Non-Executive & Non-Independent Director), Mr. Paiyur Kuppuraman Vaidyanathan (Whole-time director) and Mr. Bakthavatsalu Kannan (Whole time Director) shall be deemed to be the interested Directors.

Your Directors recommend the passing of the resolution proposed at Item No.6 of the Notice.

Item No. 7

In terms of Section 42, 71 and all other applicable provisions, if any, of the Companies Act, 2013, a Company may, subject to the provisions of that section, make an offer or invitation for subscription of securities including non-convertible debentures, commercial papers or any other debt securities by way of the private placement.

Further, in terms of Rule 14(2) of the Companies (Prospectus and Allotment of Securities) Rules, 2014 and all other applicable provisions, if any, of the said Act, Directions/Guidelines issued by the Regulators or any other statutory authorities issued from time to time, a Company shall not make a private placement of its securities unless the proposed offer of securities or invitation to subscribe to securities has been previously approved by the shareholders of the Company by a Special Resolution, for each of the offers or invitations. In case of an offer or invitation for subscription to the Non-Convertible Debentures (NCD), it shall be sufficient if the Company passes a previous Special Resolution only once in a year for all the offers or invitation for such debentures during the year.

The Company has been mainly dependent on refinance assistance from National Housing Bank, term loans from the commercial banks and loans from its promoter Repatriates Co- operative Finance & Development Bank Limited (Repco Bank) for its resources. During the period under review, the Company has successfully raised funds through Commercial Paper on 06th June, 2025 and 25th June, 2025 of Rs.100 Crores and Rs.50 Crores respectively and has issued Non-Convertible debentures of Rs.125 Crores on 13th March 2026. Further the Company undertook securitization transactions through issuance of Pass Through Certificates secured by identified receivables.

Keeping in view the increasing volume of business of the Company and the need to diversify the sources of funding and the cost of each of the sources and subject to the provisions of Section 42 of Companies Act, 2013 read with Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014 and all other applicable provisions, if any, of the said Act, Directions/Guidelines issued by the Regulators or any other statutory authorities issued from time to time, your Company intends to offer or invite subscription to Non-convertible Debentures upto an amount of Rs.1500 Crore (Rupees One Thousand Five Hundred Crore only) and Commercial Paper upto an amount of Rs.1000 Crore (Rupees One Thousand Crore only) on a private placement basis for a period of one year from the conclusion of this meeting until the conclusion of the next Annual General Meeting in one

or more tranches, subject to the condition that the amount accepted in the form of the said Non-Convertible Debentures and commercial paper together with the existing borrowings and future borrowings would be within the limits specified by the members under section 180(1)(c) of the Companies Act, 2013.

The terms of issue of the above Non-Convertible Debentures would depend upon the requirement of the funds, time of issue, market conditions, and alternative sources of funds available to the Company and would be decided by the Company in consultation with the merchant bankers/arrangers, if any appointed by the Company for the purpose. All the required details/disclosures relating to the issue would be made available in the respective information memorandum.

Disclosure pursuant to Rule 14(1) of the Companies (Prospectus and Allotment of Securities) Rules, 2014, are provided below- NCDs on private placement basis upto an amount of Rs.1500 Crores:

Particulars of the offer including date of passing Board Resolution: In line with Rule 14(1) of the Prospectus and Allotment Rules, the date of the relevant board resolution(s) and/or committee(s) resolution shall be mentioned/ disclosed in the private placement offer cum application letter for each offer/issue of the NCDs. The particulars of each offer shall be determined by the Board/ Committees authorized by the Board from time to time.

Kind of securities offered and the price at which the security is being offered: Kind of securities and price will be decided by the Board or Committees constituted by the Board for each specific issuance, on the basis of the interest rate/effective yield determined and based on market conditions prevailing at the time of the respective issue.

Basis or justification for the price (including premium, if any) at which the offer or invitation is being made: Not applicable. The NCDs proposed to be issued in one or more tranches are non-convertible debt securities which will be issued either at par or at premium or at a discount to face value in accordance with terms to be decided by the Board/Committee constituted by Board and as disclosed in the electronic bidding platform of the recognized stock exchanges.

Name and address of valuer who performed valuation: Not applicable. The NCDs proposed to be issued in tranches are non-convertible debt securities.

Amount which the Company intends to raise by way of securities: The limit specified in the proposed resolution(s) under Section 42 of the Act, is up to Rs.1500 Crores, which limit shall be subject

to the overall borrowing limits of the Company, as approved by the Members of the Company from time to time under Section 180(1)(c) of the Act.

Material terms of raising of securities, proposed time schedule, purposes or objects of offer, contribution being made by the promoters or directors either as part of the offer or separately in furtherance of objects; principal terms of assets charged as securities: The material/specific terms of each offer/issue of NCDs and the other information being sought herein shall be decided by the Board/Committee constituted by Board from time to time. These disclosures will be specifically made in the respective disclosure documents executed in respect of each offer/issue of NCDs.

In order to issue Non-Convertible Debentures and Commercial Papers by way of an offer or invitation for subscription on private placement and in terms of the above mentioned provisions of the Companies Act, 2013 and rules, subject to Directions/Guidelines by the Regulators or any other statutory authorities issued from time to time, the prior consent of the members is sought by way of a Special Resolution.

Your Directors recommend the passing of the resolution proposed at Item No.7 of the Notice.

None of the Directors or any key managerial personnel or the relatives of the directors or key managerial personnel are in any way concerned or interested, financially or otherwise, in the said resolution.

Item No. 8

Based on the recommendation of the Nomination & Remuneration Committee (NRC), the Board at its meeting held on 11th August 2026, appointed Mrs. Aparna Sudip Kumar (DIN: 07667316) as an Additional Director in the category of Non-Executive & Independent Director for a period of 2 consecutive years from 11th August, 2026 upto 10th August, 2028, subject to the approval of the shareholders. In this regard, the Company has received a notice in writing from a member, pursuant to the provisions of Section 160 of the Companies Act, 2013. Also, the Company has received requisite declarations from Mrs. Aparna Sudip Kumar.

Mrs. Aparna Sudip Kumar is not disqualified and debarred from being appointed as Non-Executive & Independent Director, in terms of Sections 164 of the Companies Act, 2013 or by order of SEBI or any other such authority and she has given her consent to act as Non-Executive & Independent Director of the Company. She has also confirmed that she meets the fit & proper criteria as per Reserve Bank of India (Housing Finance Companies) Directions,

2025 read with Reserve Bank of India (Non-Banking Financial Companies - Governance) Directions, 2025.

Mrs. Aparna Sudip Kumar fulfils the conditions specified under the Companies Act, 2013 read with rules made thereunder and the SEBI Listing Regulations for her appointment as a Non-Executive & Independent Director of the Company.

Brief Profile:

Mrs. Aparna Sudip Kumar holds a Bachelor of Science (Honours) in Electronics, a Post Graduate Diploma in Computer Applications and a Post Graduate Programme for Senior Executives (PGP MAX-MBA) from Indian School of Business (ISB). She has over 30 years of experience in Information Technology with leadership roles in multinational IT consulting and banking sectors. She has worked as Chief Information Officer for both Multinational Bank and PSU Bank.

Having considered Mrs. Aparna Sudip Kumar's qualifications, expertise, and experience in the field of Information Technology, the Nomination and Remuneration Committee recommended the appointment of Mrs. Aparna Sudip Kumar as Non-Executive & Independent Director on the Board of the Company. Considering the recommendation of NRC, the Board approved the appointment of Mrs. Aparna Sudip Kumar as an Additional Director in the capacity of Non-Executive & Independent Director. It has been determined that Mrs. Aparna Sudip Kumar meets all the criteria for independence and that she is independent to the management of the Company.

Pursuant to Rule 6 of the Companies (Appointment and Qualification of Directors) Rules, 2014, Mrs. Aparna Sudip Kumar has enrolled her name in the online data bank maintained for Independent Directors with the Indian Institute of Corporate Affairs.

The resolution seeks the approval of the members in terms of Sections 152 read with Schedule IV and other applicable provisions of the Companies Act, 2013, read with the rules made thereunder (including any statutory modifications or re-enactment(s) thereof, for the time being in force) and Regulation 17 and other applicable regulations of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and any other applicable laws for the appointment of Mrs. Aparna Sudip Kumar (DIN 07667316) as Non-Executive & Independent Director for a period of two years from 11th August 2026 upto 10th August, 2028.

As per Regulation 17(1C) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 effective from

1st January, 2022, the approval of the shareholders is required to be taken for the appointment of a person on the Board of Directors at the next general meeting or within a time period of three months from the date of appointment, whichever is earlier. Further, in terms of Regulation 25(2A) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 appointment of Mrs. Aparna Sudip Kumar as an Independent Director requires approval of members of the Company by passing a special resolution.

Your Directors recommend the passing of the resolution proposed at Item No.8 of the Notice. Except Mrs. Aparna Sudip Kumar and/or her relatives, none of the directors, key managerial personnel, or the relatives of the directors or key managerial personnel are directly or indirectly, concerned or interested, financially or otherwise, in the said resolution.

Item No. 9

Item No. 10

The shareholders of the Company, through postal ballot, had approved the appointment of Mr. Thangappan Karunakaran (DIN: 09280701) as the Managing Director & Chief Executive Officer of the Company for a term of three years from 11th April, 2025 to 10th April, 2028. At the time of appointment, the upper ceiling of his annual remuneration was fixed at Rs. 80 Lakhs per annum, comprising the following components:

- Fixed Salary: up to Rs. 50 Lakhs per annum
- Perquisites and Allowances: up to Rs. 9 Lakhs per annum
- Performance Incentive/Variable Pay: up to Rs. 21 Lakhs per annum (to be determined by the Nomination and Remuneration Committee based on performance)

Subsequently, in the 25th Annual General Meeting held on 22nd August 2025, the shareholders approved an 8% increase in the fixed pay, resulting in increase from Rs. 50 Lakhs to Rs. 54 Lakhs per annum while the upper limits for the other remuneration components such Variable Pay and Perquisites & Allowances remained unchanged. Accordingly, the overall

maximum remuneration was revised from Rs.80 Lakhs to Rs. 84 Lakhs per annum, effective 1st May 2025.

Based on Mr. Thangappan Karunakaran's performance evaluation as Managing Director & CEO, the Nomination and Remuneration Committee (NRC) recommended to the Board, an increase in the fixed pay and variable pay component by 12.96% and 52.38% respectively w.e.f 1st June, 2026. The Board of Directors, at its meeting held on 21st May 2026 approved an 12.96% and 52.38% increase in the fixed pay and variable pay component, resulting in increase in Annual Fixed Pay from Rs. 54 Lakhs to Rs. 61 Lakhs per annum and Variable Pay from Rs. 21 Lakhs to Rs.32 Lakhs per annum, with effect from 1st June, 2026, subject to the approval of the shareholders. It may be noted that there are no change in Perquisites & Allowances which remain at Rs. 9 Lakhs per annum.

Based on the proposed revision, the revised emoluments of Mr. Thangappan Karunakaran with effect from 1st June 2026 will be as mentioned below:

- Fixed Pay: Rs.61 Lakhs per annum
- Performance Incentive/Variable Pay: Upto Rs.32 Lakhs per annum and it will be decided by Nomination & Remuneration Committee based on performance
- Perquisites and Allowances: Upto Rs.9 Lakhs per annum
- Total remuneration: Rs. 102 Lakhs per annum

Minimum Remuneration: In the event of absence or inadequacy of profits in any financial year, the aforementioned remuneration shall be paid as the minimum remuneration, subject to the provisions of the Companies Act, 2013 and/or any other applicable statutory provisions.

All other terms and conditions of appointment as approved by the shareholders earlier shall remain unchanged.

In terms of Sections 197 and 198 read with Schedule V and other applicable provisions of the Companies Act, 2013, any revision in the remuneration of the Managing Director & CEO requires the approval of the members by way of an Ordinary Resolution.

Accordingly, the approval of the Members is being sought for the revision in remuneration of Mr. Thangappan Karunakaran, Managing Director & CEO, with effect from 1st June, 2026.

Your Directors recommend the passing of the resolution proposed at Item No. 10 of the Notice.

None of the Directors, Key Managerial Personnel or their relatives, except Mr. Thangappan Karunakaran and/or his relatives, are concerned or interested, financially or otherwise, in the said resolution.
