**Sub: SPML Infra Secures ₹1,128 Crore 1 GWh Battery Energy Storage Project from NTPC**

Dear Sirs,

With reference to the captioned subject and in terms of Regulation 30 of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015, we would like to inform you that SPML Infra Limited has secured a landmark Rs. 1,128 crore contract to develop a 1 GWh Battery Energy Storage System (BESS) at NTPC Limited's Barauni Thermal Power Station in Bihar, marking the first large-scale grid Battery Energy Storage System project for SPML Infra.

We would like to further inform you that the award received by the Company falls within the normal course of business. Accordingly, disclosure of additional detail under SEBI Circular No SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024 is not applicable in this case.

Kindly take the above on record.

Thanking you,

**For SPML Infra Limited**

## PRESS RELEASE

For Immediate Release

# SPML Infra Secures ₹1,128 Crore 1 GWh Battery Energy Storage Project from NTPC

06 May 2026

**Kolkata, India:** SPML Infra Limited, (**NSE:SPMLINFRA, BSE:500402**), a leading publicly listed infrastructure development company in India, has secured a landmark **₹1,128 crore contract** to develop a **1 GWh Battery Energy Storage System (BESS)** at NTPC Limited's Barauni Thermal Power Station in Bihar, marking the first large-scale grid Battery Energy Storage System project for SPML Infra.

Awarded by the National Thermal Power Corporation (NTPC), this project ranks among the **largest single BESS orders awarded in India**, signalling a defining moment not just for SPML Infra, but for the country's clean energy ambitions.

The scope of work included supply, civil works, and erection of 250 MW/1,000 MWh Battery Energy Storage System (BESS) comprising 5 MWh DC containers with Battery Management System (BMS) and Thermal Management System (TMS), 33 kV panel boards, 220 kV DC & AC cables, 220 kV switchyard and all associated accessories. The project will be executed over an 18-months period followed by a 15 years of operation and maintenance.

The project will seamlessly integrate large-scale battery storage with existing thermal power infrastructure enabling peak load management, grid stability, and efficient integration of renewable power. As India's power networks evolve, Battery Energy Storage Systems are fast becoming the backbone of a stable, responsive, and future-ready electricity grid.

**Abhinandan Sethi, Managing Director, SPML Infra Limited**, said:

*"This order marks a defining moment for SPML Infra, a firm commitment to the large-scale battery energy storage sector. Energy storage will define how India powers its future, and we intend to be architects of that transformation. Partnering with NTPC on this landmark project is both a privilege and a responsibility we embrace fully. We are here to build the grid India needs — flexible, stable, and built for scale."*

This win anchors SPML Infra's broader strategic push into energy storage infrastructure, advancing its commitment to developing cutting-edge battery energy storage solutions along with our technology provider, **Energy Vault (NYSE: NRGV)**, purpose-built for India's scale and ambition. Energy storage is no longer a future priority for SPML Infra; it is a core pillar of growth today. With this order, SPML Infra strengthens its position in India's emerging battery energy storage ecosystem.

## **PRESS RELEASE**

For Immediate Release

### **India's Energy. India's Future. Stored by SPML.**

#### **About SPML Infra Ltd.:**

SPML Infra Limited (CIN: L40106WB1981PLC276372) is a distinguished infrastructure development company with over four decades of expertise across power, water, environment, and technology sectors. With a pan-India presence, SPML has successfully executed over 700 projects, creating critical infrastructure, including drinking water facilities, wastewater treatment, integrated sewerage networks, municipal waste management, power transmission & distribution, substations, rural electrification, and smart city solutions. As India's leading water management company, SPML has contributed immensely to providing clean drinking water to over 50 million people across urban and rural areas. SPML is ranked **14th among the World's Top 50 Private Water Companies** as per **Global Water Intelligence (GWI)**, London survey and is recognized as one of **India's 10 Best Infrastructure Companies**. As a publicly listed, ESG-compliant company, SPML Infra continues to drive innovation and growth in India's infrastructure landscape.
