## GOODYEAR INDIA INTRODUCES ULTRA GRIP TRACTOR TIRE

**Gurugram, July 01, 2026** – Goodyear India recently introduced its new Ultra Grip tractor tire for the farm business during a product showcase in Chandigarh, bringing together around 100 dealers and channel partners from across the country. Designed to support Indian farmers operating across demanding field conditions, Ultra Grip delivers dependable traction, durability and longer tire life. The product reflects Goodyear India’s continued focus on agricultural tire solutions tailored to local farming applications.

“Indian farmers are adopting more demanding farming applications and require tires that can deliver dependable grip, durability and longer tire life,” said Arvind Bhandari, Managing Director of Goodyear India. “With the launch of Ultra Grip, Goodyear India is supporting farmers with a tractor tire designed for confidence and reliability in everyday agricultural operations.”

Developed for varied Indian soil and field conditions, Ultra Grip is built to support farmers in demanding day-to-day farming operations. It is designed to balance grip, durability and long-lasting performance:

- Rugged tread design: Ultra Grip features enhanced tread depth, ensuring superior grip across varied field conditions. Its tread pattern is designed to help farmers maintain traction in demanding terrain.
- Strong, durable and long-lasting: Built to handle tough field conditions, the tire features a robust construction accompanied by puncture pads and associated with superior cut and chip resistant tread compound to help reduce damage from rough surfaces. Engineered for longer tire life, Ultra Grip supports dependable performance over extended farming use.
- Better control: Ultra Grip is designed to provide enhanced stability and control across different terrains, helping farmers operate with greater confidence in everyday farming applications.

The Goodyear Ultra Grip tractor tire is currently available in 14.9-28 size, with additional sizes planned. It will be available through Goodyear India's dealer network across key agricultural markets.

\*Ultra Grip has been tested under standard testing conditions and controlled supervision.

### **About The Goodyear Tire & Rubber Company**

Goodyear is one of the world's largest tire companies. It employs about 63,000 people and manufactures its products in 49 facilities in 19 countries around the world. Its two Innovation Centers in Akron, Ohio, and Colmar-Berg, Luxembourg, strive to develop state-of-the-art products and services that set the technology and performance standard for the industry. For more information about Goodyear and its products, go to [www.goodyear.com/corporate](http://www.goodyear.com/corporate).

### **About Goodyear India Limited**

Goodyear India Limited has had a presence in India for over 104 years. Its manufacturing facility, located in Ballabgarh, Faridabad, produces automotive tires, including farm tires and commercial truck tires. In the farm segment, the Company supplies tires to all major tractor OEMs in India. Additionally, Goodyear India trades in passenger car tires and offers technologically advanced products designed to enhance the driving experience. For more information about Goodyear India and its products, go to [www.goodyear.co.in](http://www.goodyear.co.in)

Goodyear in India also operates a manufacturing plant in Aurangabad, Maharashtra, where it manufactures consumer tires. Furthermore, Goodyear has established a Technology Centre in Hyderabad to support innovation and development.
