ABOUT

Beta Drugs Ltd. (BETA) is a specialty pharmaceutical company established in 2005, focused on oncology and expanding its presence across high-growth specialty therapies, including IVF and dermatology. The company has built a diversified business platform in specialty pharmaceuticals comprising branded formulations, contract manufacturing, APIs and exports, supported by its strong oncology franchise and growing presence across domestic and international markets.

The company offers a comprehensive oncology portfolio with 180+ oncology-focused SKUs spanning chemotherapy, targeted and hormonal therapies across multiple dosage forms. Its products reach 85%+ of corporate and government hospitals in India, supported by focused R&D capabilities in innovative products and Novel Drug Delivery Systems (NDDS).

The company operates 3 WHO-GMP certified manufacturing facilities, with one additionally accredited by ANVISA, INVIMA and COFEPRIS. It has a presence across 46+ countries, supported by 280+ dossier registrations and ~300 filed for registrations in multiple geographies, while its API business provides backward integration, with 65%+ of APIs used for in-house formulations.

The company diversified through foray into the IVF products business with Nivian Lifesciences. Under its Vision 2030, the company aims to build an innovation-led specialty pharmaceutical platform, with a focus on expanding its branded portfolio, strengthening exports, enhancing manufacturing efficiency and pursuing strategic inorganic opportunities.

The company has delivered a 5-year revenue CAGR of 27% and EBITDA CAGR of 25%, while maintaining healthy profitability, and is targeting a ~25% revenue CAGR through FY30, supported by its robust growth plans.
