PRESS RELEASE

Kanoria Chemicals & Industries Limited (KCI) Launches New Triacetin Manufacturing Facility at Ankleshwar, Gujarat

Ankleshwar, Gujarat - September 2026 - Kanoria Chemicals & Industries Limited (KCI) is pleased to announce the launch of a new 12 Metric Tons per Day (TPD) Triacetin manufacturing facility at its existing manufacturing site in GIDC, Ankleshwar, Gujarat.

The facility was launched in the presence of Mr. Saumya Vardhan Kanoria, Whole Time Director, and Mr. Sanjay Ojha, Chief of Manufacturing & Projects - Chemical Business. The new facility further strengthens KCI's specialty chemicals portfolio and will cater to the growing demand for Triacetin across food and beverage, pharmaceuticals, agrochemicals, resins, coatings, plastics, adhesives and other applications in the Indian and international markets.

Speaking on the occasion, Mr. Sanjay Ojha, Chief of Manufacturing & Projects - Chemical Business, said, "The launch of the Triacetin facility brings a new addition to KCI's specialty chemicals portfolio and enhances our capabilities in value-added products. This new facility will enable us to serve the growing requirements of customers across domestic and international markets."

He also expressed his sincere thanks to the Government of Gujarat and the cooperative support of officials, which have supported KCI in its growth initiatives. He mentioned that the company will continue to add new manufacturing capacities and expand existing capacities in line with sustainable development, inclusive growth and the Company's "Vision-2030".

About Kanoria Chemicals & Industries Limited (KCI):

Kanoria Chemicals & Industries Limited (KCI) is a leading manufacturer of chemical intermediates in India, with diversified business interests spanning chemicals, renewable energy, and textiles. KCI operates three chemical manufacturing facilities located in Ankleshwar (Gujarat), Visakhapatnam (Andhra Pradesh), and Naidupeta (Andhra Pradesh), specializing in the production of alcohol-based intermediates, phenolic resins and specialty chemicals, with Triacetin as part of its expanding specialty chemicals portfolio. The company holds several key certifications, including ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, and RC 14001:2015, and proudly carries the Responsible Care Logo awarded by the Indian Chemical Council.
