Subject: Disclosure under Regulation 30 of SEBI (LODR) Regulations, 2015 – Significant Milestones in Advanced Neurovascular Care.

Dear Sir/Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are pleased to inform you that Hannah Joseph Hospital Limited, Madurai, has achieved three significant milestones in advanced neurovascular care through its Institute of Neuroscience and Department of Neurointerventional Radiology.

The Hospital has successfully performed the following advanced neurovascular procedures:

1. Carotid Artery Stenting

The Hospital successfully performed a carotid artery stenting procedure on an elderly male patient experiencing recurrent minor strokes due to severe carotid artery stenosis of approximately 90% and a highly unstable plaque. The procedure was performed using a new-generation Emboguard balloon guide catheter, which helps reduce the risk of brain embolisation during stenting. The procedure was successful, and the patient is recovering well.

2. Flow Diversion for a Complex Cerebral Aneurysm

The Hospital's medical team successfully treated a complex, wide-neck, broad-based posterior communicating artery aneurysm using the FLOWVIA Flow Diverter, sourced from Health Bridge Mediwise (HBM).

3. Transulnar Artery Stenting

The Hospital's medical team performed a transulnar artery stenting procedure by accessing the vessel through the ulnar artery at the wrist for a patient with complex vascular anatomy and significant cardiac and neurological comorbidities. Following the procedure, the patient's giddiness disappeared and mobility was fully restored.

Hannah Joseph Hospital

(Institute of Neurosciences, Cardiac Sciences, Orthopaedics & Traumatology)

These achievements demonstrate the Hospital's clinical capabilities in advanced neurointerventional procedures, including the management of complex cerebral aneurysms, stroke prevention and specialised vascular interventions for high-risk patients.

The above clinical achievements were published in *The Hindu* and the Tamil daily newspaper *Daily Thanthi*, both dated 28 October 2026. The relevant newspaper clippings are enclosed herewith for your reference and records.

Kindly take the above information on record.

Thanking you,

Yours faithfully,

For Hannah Joseph Hospital Limited

Madurai Ring Road section facilitates improved connectivity

‘The project increases the average travel speed from approximately 40 kmph to 100 kmph. Travel time along the relevant stretch is projected to reduce from around 45 minutes to 20’

The Hindu Bureau
MADURAI

The Vadipatti-Thamaraipatti section of NH-744A stretch features Advanced Traffic Management System (ATMS) with AI-enabled cameras for automated traffic monitoring and Variable Message Signs (VMS) for real-time alerts on accidents, congestion and road hazards, enhancing road safety and overall travel experience, said the Project Director, NHAI, Project Implementation Unit (PIU), Madurai, R. Murugaprakash.

Highlighting the key features of the project, he said the 30-km section of the NH-744A project developed at an estimated cost of ₹1,024 crore was designed to ease traffic congestion, improve connectivity, facilitate faster, smoother movement of

R. Murugaprakash, Project Director, NHAI, reviewing construction work on Madurai Ring Road connecting Vadipatti-Thamaraipatti in Madurai on Tuesday. G. MOORTHY

vehicles. Developed entirely on a greenfield alignment, the Madurai Ring Road section provides improved connectivity to the northern parts of Madurai district and enables through traffic to bypass congested urban areas. The corridor connects the Dindigul-Samayanallur section of NH-44 with the Tiruchi-Madurai section of

NH-38, strengthening links between key National Highway corridors, he said.

The key features include four major bridges and 29 minor bridges, two underpasses, two overpasses, two flyovers, and one partial cloverleaf interchange, 51 box culverts and 93 pipe culverts, one wildlife overpass with Noise Barriers,

and two pedestrian underpasses. The structures were designed to facilitate uninterrupted movement at key locations, improve traffic management and provide connectivity, he said. The project increased the average travel speeds from approximately 40 kmph to 100 kmph. Travel time along the relevant stretch was projected to reduce from around 45 minutes to 20 minutes, he said.

To protect wildlife that include gaur, spotted deer, wild boar, and Indian hare, an animal overpass has been constructed to ensure safe wildlife movement, reduce animal-vehicle collision and maintain habitat connectivity. The first of its kind in Tamil Nadu, the initiative marks a significant milestone in integrating wildlife conservation with highway infrastructure, he said.

Political leaders pay homage to Marudhu Brothers

The Hindu Bureau
SIVAGANGA

Political party leaders paid their respects at the memorial of freedom fighters the Marudhu brothers in Kalaiyarkovil on the occasion of their memorial day here on Tuesday.

Following the performance of the prayer at dawn for the guru puja at the Marudhu brothers' memorial, over 500 women carried milk pots and some fulfilled their vows by piercing their cheeks and carrying Kavadi.

Naam Tamilar Katchi chief coordinator Seeman, TVK MLAs A. Kulanthai Rani, R. Srinivasa Sethupathi, and E. Elangovan, Congress State president and MP B. Manickam Tagore paid their respects.

BJP State general secretary Rama Srinivasan, former Minister G. Baskaran (on behalf of the AIADMK), MLAs Kathar Batcha Muthuramalingam and K.K. Kathiravan, former MP Bhavani Rajendran, former Minister Pon. Muthuramalingam (on behalf of the DMK), and AMMK district secretary Therpogi Pandi paid

Women carrying milk pots on their headz to pay homage at the memorial of Marudhu Brothers at Kalayarkoil in Sivaganga district on Tuesday. L. BALACHANDAR

their respects. Former Minister R.S. Rajakannappan garlanded the statues of the Marudhu brothers in Sivaganga. Over 2,700 police personnel, led by Ramanaathapuram Range DIG Manivannan and Sivaganga District SP Abhish-ek Gupta, were deployed for security duty.

Mr. Seeman said: "It cannot be said that no corruption took place in the previous regime; so the arrest of former minister Anbil Mahesh Poyyamozhi cannot be questioned. Let him prove he did nothing wrong and come out."

"By reducing the tax on aviation turbine fuel, they have only benefited cor-

porate companies. What is the use of this for the people? This government has not implemented any people-welfare schemes," he said.

He questioned why there had been no investment made for electricity generation over the past 60 years?

"They only receive commissions by purchasing electricity. The DMK bought electricity at ₹20 per unit, and TVK buys it at ₹35. What is the change in this? The government changes; there is no change in the method of governance. TVK is a cruel evil force that combines both evil forces and corrupt forces," he said.

Toddler drowns in pond

The Hindu Bureau
RAMANATHAPURAM

A one-and-a-half-year-old girl died after falling into a temple pond in Uchipuli on Monday night.

According to the police, the victim, Bhargavi, was the daughter of Rajasekar, 35, and Indhuja, 23, who got married two years ago and also have an 18-day-old infant.

An argument broke out between Rajasekar and Indhuja. Angered by the altercation, Rajasekar left for his native village of Akkida Valasai. Indhuja, accompanied by her mother Radha, followed him in an effort to pacify him.

Upon returning home, Indhuja discovered that Bhargavi, who was sleeping when they left home, was missing. An overnight search by the family proved in vain. The child's body was later found in the village pond near a temple. Police noticed a minor abrasion on the child's lip.

Police secured CCTV footage showing the toddler walking alone towards the pond in search of her parents. The police have confirmed that they did not suspect in foul play in the death of the child.

Advanced techniques for complex aneurysms and stroke care

The Hindu Bureau
MADURAI

The Institute of Neuroscience and Department of Neurointerventional Radiology at Hannah Joseph Hospital here has reached three major milestones in advanced neurovascular care, showcasing cutting-

edge advancements in treating stroke prevention, cerebral aneurysms, and complex vascular access.

M. J. Arunkumar, Chief Neurosurgeon, Chairman and Managing Director, announced that the hospital successfully performed a carotid artery stenting procedure on an elderly male

patient suffering from recurrent minor strokes caused by severe (roughly 90%) carotid stenosis and a highly unstable plaque, utilising a new-generation emboguard balloon guide catheter.

This specialised catheter temporarily halts proximal blood flow during stenting,

significantly reducing the danger of brain embolization. The procedure was a success, and the patient is recovering very well.

In a second milestone, the medical team utilised the FLOWVIA Flow Diverter, sourced from Health Bridge Mediwise (HBM), to successfully manage a com-

plex, wide-neck, broad-based posterior communicating artery aneurysm.

Additionally, the team performed a translunar carotid artery stenting procedure—accessing the vessel through the ulnar artery at the wrist—for a patient presenting with intricate vascular anatomy alongside

severe cardiac and neurological comorbidities.

Post-procedure, the patient's giddiness disappeared and mobility was fully restored, underscoring the vital role of personalised access strategies and advanced endovascular expertise in managing high-risk patients.

Man arrested for attempt to murder wife

The Hindu Bureau
NAGERCOIL

The Thuckalay police have arrested a man who attempted to murder his wife near the entrance of the Padmanabhapuram court on Tuesday.

The police said Vincent Raj, 38, of Thuckalay hacked his wife Jerlin Prema, 35, when she came to the Padmanabhapuram court on Tuesday in connection with the hearing of her divorce case under trial.

முனை சிகிச்சையில் 3 முக்கிய சாதனைகள்

மதுரை ஹானா ஜோசப் மருத்துவமனை புதிய மைல்கல்

▶ ஹானா ஜோசப் மருத்துவமனையின் மூத்த மருத்துவரும், முனை ரத்தநாளச் சிகிச்சைப் பிரிவின் தலைவர் டாக்டர் விநாயகமணி மற்றும் மருத்துவக்குழுவினர்.

மதுரை, அக். 28: மதுரை ஹானா ஜோசப் மருத்துவமனை, முனைக்குச் செல்லும் ரத்த நாளங்களில் ஏற்படும் அடைப்பு மற்றும் பாதிப்புகளுக்குச் சிகிச்சை அளிப்பதில் மூன்று முக்கிய சாதனைகளை படைத்துள்ளது.

முதல் சாதனையாக, பக்கவாதம் ஏற்படும் அபாயத்தை குறைத்து வெற்றிகரமான சிகிச்சை. இதன்படி, முதிய ஆண் நோயாளிக்கு ஏற்கெனவே பலமுறை சிறிய அளவில் பக்கவாத பாதிப்புகள் ஏற்பட்டிருந்தன. ரத்தநாளத்தில் படிந்திருந்த கொழுப்புப் பொருட்கள் பிரிந்து முனைக்குச் சென்றால், மேலும் பாதிப்பு ஏற்படும் அபாயம் இருந்தது. இதனைத் தடுக்கும் வகையில், சிகிச்சையின் போது ரத்த ஓட்டத்தை கட்டுப்படுத்த உதவும் புதிய வகைபலூன் கருவி பயன்படுத்தப்பட்டது. சிகிச்சை வெற்றிகரமாக முடிந்த நிலையில் நோயாளி தற்போது நலமாக உள்ளார்.

2வது சாதனையாக, முனையில் ஏற்பட்ட ரத்த

நாள வீக்கத்திற்கு சிகிச்சை அளிக்கப்பட்டது. இதற்கு, “ஃப்ளோவியா” என்ற நவீன கருவியை பயன்படுத்திய தமிழகத்தின் முதல் மருத்துவமனை என்ற சாதனையையும் ஹானா ஜோசப் மருத்துவமனை பெற்றுள்ளது. சிகிச்சைக்குப் பிறகு மூன்று மாதங்கள் கழித்து எடுக்கப்பட்ட எம்.ஆர்.ஐ ஸ்கேனில், அந்த ரத்தநாள வீக்கம் முற்றிலும் மறைந்திருப்பது தெரியவந்தது. நோயாளியும் தற்போது நலமாக உள்ளார்.

3வது சாதனையாக, தென் தமிழகத்தில் முதன்முறையாக மணிக்கட்டு வழியாகச் சிகிச்சை அளிக்கப்பட்டது. சில நோயாளிகளுக்கு ரத்த நாளங்களின் அமைப்பு மற்றும் பிற உடல் நல பிரச்சனைகள் காரணமாக, வழக்கமான முறையில் சிகிச்சை அளிப்பது சிரமமாக இருக்கும். அத்தகைய நோயாளிகளுக்கு, மணிக்கட்டில் உள்ள ரத்த நாளம் வழியாகச் சிகிச்சை அளித்து மருத்துவமனை புதிய சாதனையை படைத்துள்ளது.

இது குறித்து மருத்துவமனையின் தலைமை முனை அறுவை சிகிச்சை நிபுணரும், தலைவரும் நிர்வாக இயக்குநருமான டாக்டர் எம்.ஜே.அருண் குமார் கூறுகையில், “நவீன மருத்துவக் கருவிகளின் உதவியுடன், முன்பு சவாலாக இருந்த பல பாதிப்புகளுக்கு இப்போது சிறந்த சிகிச்சை அளிக்க முடிகிறது. நோயாளிகளுக்குப் பாதுகாப்பான சிகிச்சையை வழங்குவதே எங்கள் நோக்கம்” என்றார்.

மருத்துவமனையின் மூத்த மருத்துவரும், முனை ரத்தநாளச் சிகிச்சைப் பிரிவின் தலைவருமான டாக்டர் விநாயகமணி கூறுகையில், “நவீன மருத்துவக் கருவிகளின் உதவியுடன் சிக்கலான முனை ரத்த நாளப் பிரச்சனைகளுக்கும் சிகிச்சை அளிக்க முடிகிறது. ஒவ்வொரு நோயாளியின் உடல் நிலைக்கு ஏற்ற சிகிச்சையைத் தேர்ந்தெடுத்து, அவர்களின் உடல் நலத்தையும் வாழ்க்கைத் தரத்தையும் மேம்படுத்துவதே எங்கள் நோக்கம்” என்றார்.
