THEME OF THE YEAR

Some years ask a company to reinvent itself. FY 2025-26 asked something different of Bhageria — to keep doing what already works and do it a little better. That is a quieter kind of success, but no less real for it.

Our chemicals business grew sharply this year on the back of capacity we had already built and export relationships we had already nurtured. Our solar arm switched on new generation capacity that had been under construction for some time. Our community programmes continued reaching the same villages, schools and health centres they always have. Nothing here is a sudden pivot — it is the compounding effect of choices made, and remade, year after year.

“Capacity, Capability, Continuity” is our way of naming that pattern honestly. Capacity speaks to the ground we covered this year — more output, more generation,

more reach. Capability speaks to what made that ground worth covering — the people, processes and judgment that turned investment into results rather than just expense. And continuity speaks to what we were careful not to disturb along the way: the relationships, the values and the steady hand of leadership that has carried this Company through every market cycle it has faced.

It is a theme built around the discipline of showing up for the same commitments — chemistry, clean energy and care — and trusting that each year’s progress, quietly added to the last, eventually becomes something worth pointing to.

VISION & MISSION

VISION

To be counted among the foremost names in dyes and dye intermediates — not by chasing scale alone, but by pairing cleaner, more sustainable technologies with manufacturing discipline strong enough to keep our customers choosing us first.

MISSION

We exist to keep innovating — in products, in process, in the way we work — without losing sight of the customer relationships that built this Company. That means investing in the people who carry our values forward, and treating the social, economic, and environmental health of our communities as a responsibility we hold permanently, not periodically.

OUR VALUES

Integrity

Thorough professionalism in every activity, with absolute honesty and no compromise on our principles.

Excellence

A constant push toward the best level of performance and the discipline to keep improving once we get there.

Safety

The wellbeing of our employees, suppliers, buyers and society guides every operational decision we make.

Sustainability

Every business activity carried out with an eye toward a better tomorrow for the generations that follow.

FY 2025-26 AT A GLANCE

KEY FINANCIAL METRICS

BUILDING STEADILY, YEAR ON YEAR

Bhageria's growth has never depended on a single breakthrough moment. It has been assembled, year by year, out of capacity expansions, new certifications, fresh export relationships and an ever-deepening solar footprint — each one ordinary on its own, but cumulatively the reason the Company stands where it does today.

FY 2025-26 added its own chapter to that record. Two of the Company's three core businesses — Specialty Chemicals and Solar Energy — each took a concrete step forward this year, while the foundations for the third, Pharmaceuticals, continued to be laid for the years ahead.

THE YEARS, IN BRIEF

1989

Incorporated as Bhageria Dye Chem Limited on July 12, 1989, by promoters Mr. Suresh Bhageria and Mr. Vinod Bhageria.

1990

Establishment of specialty chemicals manufacturing operations, building expertise and we entered the dye intermediates business by setting up a Vinyl Sulphone plant with a capacity of 540 TPA

1995

Went public with an objective to fund additional capacity for new products

2002

Expanded the Vinyl Sulphone plant capacity from 540 TPA to 3600 TPA

2015

- Changed name to Bhageria Industries Ltd from Bhageria Dye Chem Ltd
- Forayed into Solar roof top panels with a capacity of 2.80 MWP

2016

- Signed a Solar PPA with SECI for 25 years with a capacity of 30MW
- Listed on the National Stock Exchange (NSE)
- Stock split from face value of ₹ 10/- to ₹ 5/-

2026

Rahuri Cleantech successfully commissioning a 7 MW Solar Power Plant at Pimpalgaon Wagha, Ahilyanagar in February 2026, followed by another 7 MW Solar Power Plant at Bhatkudgaon, Maharashtra, in March 2026 and 7 MW solar PV plant online at Khanapur, Maharashtra in May 2026.

2025

- Commenced - Plasticizers Production
- Plant Under Development - H-Acid capacity from 400 to 500 MT/month at Tarapur.

2021

Acquired Bhageria & Jajodia Pharmaceuticals Private Limited as a subsidiary - marking the Company's formal entry into pharmaceuticals.

2020

Commissioned a Sulphuric Acid Plant at Tarapur with a capacity of 300 TPD.

2019

- Announced a stock bonus of 1:1
- Acquired a piece of land in Vapi, Gujarat for expansion

2018

- Merged Nipur Chemicals Limited
- Paid highest ever Dividend (110% of Face Value)

2017

Commissioned a 30MW Solar Plant, Maharashtra.

CAPACITY, CAPABILITY, CONTINUITY

CAPACITY gives us the ability to grow.

CAPABILITY enables us to grow with excellence.

CONTINUITY ensures that every achievement becomes the foundation for the next.

CHAIRMAN'S MESSAGE

*Our strength lies not only
in what we produce today,
but in the foundations
we build for tomorrow.*

Dear Shareholders,

It is with great pride that I present the Annual Report of Bhageria Industries Limited for the Financial Year 2025-26 a year of consistent, broad-based growth across our chemicals, solar and pharmaceutical businesses and one that reflects the steady compounding of strategies we have pursued with discipline and patience over several years.

Let me begin with what the numbers tell us, because this year the numbers tell a genuinely encouraging story. On a standalone basis, our total income from operations grew 45.9% to ₹880.56 crore, up from ₹604.08 crore in FY 2024-25. Our net profit grew 19% to ₹50.30 crore. Our

Chemical segment was the primary engine of this growth, contributing ₹829.56 crore in revenue, supported by plant utilisation that held at 95-97% through much of the year and sustained export demand from our customers in Southeast Asia and Europe. Reflecting the Company's strong financial position, we are pleased to recommend a final dividend of ₹2.50 per equity share for FY 2025-26, compared with ₹1.50 per equity share in the previous year. This represents a 50% dividend on the paid-up equity share capital of the Company and reflects our continued commitment to rewarding our shareholders while maintaining a strong foundation for sustainable future growth.

Beyond the headline numbers, however, what I find most encouraging about FY 2025-26 is the

quality of growth. Revenue did not expand simply because market conditions were favourable it expanded because we had made the right investments in capacity and relationships in prior years, and those investments yielded returns this year. The two decisions, I would highlight in particular are our expansion of H-Acid manufacturing capacity from 400 to 500 metric tons per month, to generate an incremental ₹50-75 crore in annual revenue once fully ramped, and our entry into the plasticizers segment, with production commencing at our Tarapur facility in December 2025. Neither of these is a bold diversification away from what we know both are disciplined extensions of the same specialty chemicals expertise that has defined Bhageria for decades. That is, I believe, the right way to grow.

On the renewable energy front, our subsidiary, Rahuri Cleantech Private Limited, successfully commissioned a 14 MW solar power plant during 2025-26, followed by the commissioning of an additional 7 MW in May 2026, taking the total installed capacity to 21 MW. This plant is part of a larger, 32 MW capacity build-out underway through Maharashtra's MSKVY 2.0 scheme and it adds real, generating megawatts to a portfolio we have been building steadily since our first entry into solar in 2015. I am deeply proud that this progress has been achieved through disciplined, organic growth rather than costly acquisitions or significant capital expenditure. It reflects years of patient project development, prudent execution, and the strong, trust-based relationships our team has built with state government stakeholders. Today, those long-term efforts are delivering tangible results translating strategic vision into reliable power generation and creating sustainable value for our shareholders.

Our pharmaceutical ambitions, I want to be candid, are a longer-term journey. We continue to invest in the R&D and regulatory infrastructure required to establish a credible position in Vitamins and Steroids the high-value API categories where we believe Bhageria can eventually build a differentiated pipeline. The contribution of this segment to this year's results remains modest and I would not wish to overstate where we are in that journey. What

I can say is that the foundation we are laying in scientific capability, in regulatory relationships and in understanding of the global healthcare supply chain is one that we believe will generate meaningful returns for our shareholders in the years ahead, even if the timeline requires continued patience.

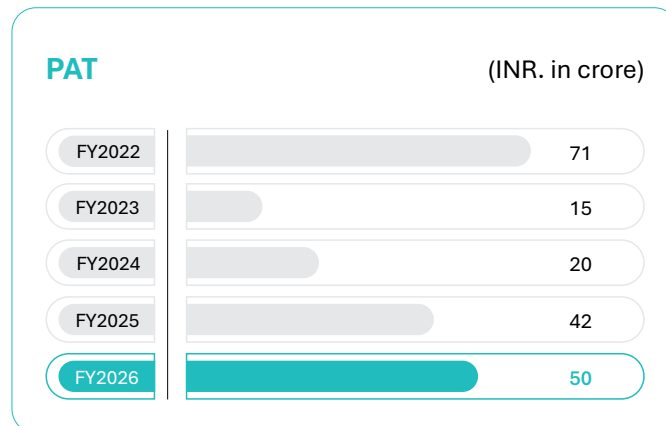

As we enter FY 2026-27, we do so from a position of financial strength and strategic clarity. India's broader economic environment easing inflation, accommodative monetary policy, and resilient rural demand provides a supportive backdrop. Our chemicals business has the capacity, the export relationships, and the process efficiency to keep growing. Our solar pipeline has real projects in execution. And our pharmaceutical ambitions remain intact, guided by the same discipline that has always defined Bhageria's approach to investing in what comes next.

Our priorities for the coming year remain firmly focused on strengthening our core business and creating sustainable long-term value. Deepen our R&D capability in both chemicals and pharmaceuticals, bring more automation into our manufacturing processes, continue strengthening our global customer relationships, and maintain the financial discipline that has allowed us to grow profitably and consistently through cycles that have challenged many of our peers. We will not chase growth at the expense of margin or balance sheet health. That has never been Bhageria's way and it will not become so.

On behalf of the entire Board, I extend my heartfelt appreciation to our employees, whose expertise and commitment make everything else in this report possible; to our customers and partners, whose continued trust is the foundation of our business; and to our shareholders, whose patient confidence allows us to keep building, year after year, on the foundation we have already laid. We look forward to continuing this journey together.

Warm regards,
Suresh Bhageria
Chairman
Bhageria Industries Limited

FINANCIAL HIGHLIGHTS

What stands out across this five-year span is the shape of the recovery:

after a dip through FY23 and FY24, three consecutive years of revenue growth have followed, with FY26 marking the highest total income and EBITDA the Company has recorded in this period. EPS rose to ₹11.52 for the year, against ₹9.68 in FY25 and the dividend payout ratio stood at 21.7%, with net worth growing to ₹460 crore.

GLOBAL PRESENCE

Our chemicals business sells into more than ten countries, and FY 2025-26's growth was not a domestic story alone — sustained demand from our Southeast Asian and European customers was a named driver of the plant utilisation that powered this year's revenue.

OUR OFFERING

Specialty Chemicals

Our chemicals business remains the engine of the Company, supplying dye intermediates to textile, leather, paper, food processing and pharmaceutical manufacturers who need consistent quality at scale. Backward integration into our own raw material production keeps us insulated from external supply shocks and gives us a cost advantage that competitors sourcing externally simply cannot match.

This year, that engine ran harder than usual. Demand from Southeast Asian and European buyers kept

our plants operating at 95-97% utilisation through much of FY 2025-26 and we used the momentum to invest for expansion lifted our H-Acid capacity from 400 to 500 metric tons per month, a move expected to contribute an incremental ₹50-75 crore to annual revenue once fully ramped. We also opened an entirely new product line at Tarapur — plasticizers — adding a fourth specialty chemical to a portfolio that has historically centred on H-Acid, Gamma Acid and Vinyl Sulphone.

The industries in which we contribute:

Our specialty chemical range now includes:

- H-Acid — recently expanded capacity, our largest-volume product
- Gamma Acid
- Vinyl Sulphone
- Plasticizers — new this year, production underway at Tarapur

These intermediates remain essential building blocks across Electronics & IT, Food, Textile & Leather, Paints & Coatings, Construction & Infrastructure, and Healthcare — sectors that, between them, ensure our chemicals business is never overly dependent on the fortunes of any single industry

Pharmaceuticals

Our pharmaceutical ambitions are best described as a foundation still being poured rather than a building already standing. The strategic focus remains on high-impact R&D in Vitamins and Steroids, where we believe a differentiated, science-led pipeline can eventually translate into a meaningful position in global healthcare. This is patient, deliberate work and we continue to invest in the regulatory groundwork and manufacturing infrastructure this sector demands before results show up in our numbers.

Renewable Energy

Bhageria's solar business, now in its second decade since our 2015 entry into the sector, exists to do two things at once: generate dependable returns through long-term power purchase agreements, and reduce the carbon footprint of the industries we serve. FY 2025-26 gave us a genuine, switched-on result to point to rather than a plan still on paper — our subsidiary Rahuri Cleantech Private Limited successfully commissioning a 7 MW Solar Power Plant at Pimpalgaon Waghera, Ahilyanagar in February 2026, followed by another 7 MW Solar Power Plant at Bhatkudgaon, Maharashtra, in March 2026 and 7 MW solar PV plant online at Khanapur, Maharashtra in May 2026.

This plant is one piece of a larger, 32 MW capacity build-out underway through the Maharashtra government's MSKVY 2.0 scheme and it adds real, generating megawatts to a portfolio we intend to keep growing in the years ahead.

ESG COMMITMENT

Climate Action & Energy Discipline

Our climate commitments continue to be anchored in recognised global frameworks — TCFD, CDP, and SBTi — with science-based targets guiding our decarbonisation work. On the ground, that translates into advanced scrubbers, dust recovery systems and low-emission cooling technologies that keep our manufacturing footprint in check even as output has grown.

This year's most tangible energy story, however, was not incremental efficiency but a new generation asset: the Khanapur solar plant, now operational and feeding clean power into the grid. Alongside it, our existing efficiency programme — capacitor power banks, microturbines recovering waste energy and our Smart Comm digital energy management system — continued running in the background, doing the less visible work of keeping our energy use disciplined.

CSR Expenditure at a Glance FY 2025-26

saw the Company direct **₹33.99** lakh across five social sectors.

Healthcare received the largest share of this spending, followed by education — a split that reflects where the Company believes its contribution can be most immediately felt, while infrastructure, animal welfare and national heritage initiatives each received meaningful, if smaller, allocations.

HEALTHCARE

₹12.94
lakh

The single largest area of CSR spend this year, continuing our village medical centre's free Ayurveda, Naturopathic and Homeopathy treatment services, alongside eye health camps and preventive screening for chronic conditions such as diabetes.

EDUCATION

₹8.75
lakh

Scholarships, learning materials and school and library infrastructure aimed at removing the financial and facility barriers that keep underprivileged youth from quality education.

ANIMAL WELFARE

₹4.80
lakh

Support for the protection and welfare of animals, both in the wild and in captivity, as part of our broader environmental stewardship commitments.

INFRASTRUCTURE

₹4.50
lakh

Community infrastructure projects aimed at tangibly improving day-to-day quality of life in the areas surrounding our operations

NATIONAL HERITAGE

₹4.50
lakh

Continued support for the preservation of India's traditional art forms and indigenous knowledge systems, with direct livelihood support for local artisans and craftsmen.

PEOPLE & COMMUNITY

Our CSR work has not changed in shape this year and that consistency is itself the point these are long-running commitments, not annual campaigns and their value comes from showing up reliably.

HEALTH & WELLNESS

Our village medical centre continues offering free Ayurveda, Naturopathic and Homeopathy treatment, alongside eye health camps and preventive screening for chronic conditions such as diabetes.

EDUCATION & SKILLS

Scholarships, learning materials and school and library infrastructure remain targeted at removing the financial and facility barriers that keep underprivileged youth from quality education.

ENVIRONMENTAL STEWARDSHIP

Ongoing protection of flora, fauna and animal welfare, supported by regular tree plantation drives across the communities where we operate.

INFRASTRUCTURE DEVELOPMENT

Community infrastructure projects aimed at tangibly improving day-to-day quality of life in the areas surrounding our operations.

HERITAGE, ART & CULTURE

Continued support for India's traditional art forms and indigenous knowledge systems, with direct livelihood support for local artisans and craftsmen.

GOVERNANCE & ETHICS

A Code of Conduct spanning Executive and Non-Executive Directors, employees and channel partners, reinforced through ongoing training, internal audits and open communication.

GOVERNANCE & ETHICS

Our Code of Conduct continues to span Executive and Non-Executive Directors, employees and channel partners, reinforced through ongoing training, internal audits and open communication channels that keep our compliance mechanisms aligned with evolving regulatory expectations.

Growth that compounds is rarely loud. It is built, year after year, on choices that look small until you measure them in decades rather than quarters.

The Nomination form is available at the website of the Company at <https://bhageriagroup.com/>

14. Dispute Resolution Mechanism (SMART ODR):

In order to strengthen the dispute resolution mechanism for all disputes between a listed company and/or registrars & transfer agents and its shareholder(s)/investor(s), SEBI had issued a Standard Operating Procedure ("SOP") vide Circular dated May 30, 2022. As per this Circular, shareholder(s)/investor(s) can opt for Stock Exchange Arbitration Mechanism for resolution of their disputes against the Company or its RTA. Further, SEBI vide Circular dated July 31, 2023 (updated as on December 20, 2023), introduced the Online Dispute Resolution (ODR) Portal. Through this ODR portal, the aggrieved party can initiate the mechanism, after exercising the primary options to resolve its issue, directly with the Company and through the SEBI Complaint Redress System (SCORES) platform. The Company has complied with the above circulars and the same are available at the website of the Company at <https://bhageriagroup.com/>. The SMART ODR Portal can be accessed at: <https://smartodr.in/login>.

15. Dematerialisation of physical shares:

Members may please note that in view of the proviso to Regulation 40(1) of the SEBI Listing Regulations, securities of listed companies can be transferred only in dematerialised form (DEMAT) with effect from 1 April 2019. Dematerialisation of shares would help to eliminate risks associated with Physical Shares. In this regard, SEBI has clarified by a Press Release No. 12/2019 dated 27 March 2019, that the said amendments do not prohibit an investor from holding the shares in physical mode and the investor has the option of holding shares in physical mode even after 1 April 2019. However, any investor who is desirous of transferring shares (which are held in physical mode) after 1 April 2019 can do so only after the shares are dematerialized. As per the SEBI mandate, the Company shall issue 'letter of confirmation(s)' in lieu of physical securities certificate(s) while processing shareholders' requests such as, transmission, transposition, subdivision, consolidation, renewal, exchange and change/deletion of names of shareholders. The securities holders/claimants are required to apply for dematerialization of securities on the basis of the 'letter of confirmation(s)' within a period of 120 days from the date of its issuance.

ANNEXURE ' IV ' TO DIRECTORS' REPORT 2025-2026

Conservation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo

Information as required under Section 134(3)(m) of the Companies Act, 2013 read with Rule 8(3) of the Companies (Accounts) Rules, 2014 for the financial year ended March 31, 2026 is given here below and forms a part of the Directors' Report.

A. Conservation Of Energy:

i. The steps taken or impact on conservation of energy;

Energy conservation remains an integral part of the Company's operational strategy and sustainability framework. The Company continues to adopt a systematic approach towards energy management through process optimization, automation of critical operations, preventive maintenance, efficient utilization of plant and machinery, and continuous monitoring of energy consumption. These initiatives have enabled improved energy efficiency, optimized resource utilization, enhanced operational performance, and reduced environmental impact while supporting cost competitiveness.

ii. The steps taken by the company for utilizing alternate sources of energy

The Company remains committed to increasing the share of renewable and sustainable energy in its operations. During the year, surplus steam generated from the Sulphuric Acid Plant at Tarapur was effectively utilized through supply to a third-party consumer, ensuring optimum utilization of waste energy and contributing to reduced dependence on conventional energy sources.

The Company also continued to derive benefits from its solar power projects established under the Captive Open Access Policy. The solar installations contributed towards meeting a portion of the Company's power requirements, resulting in lower dependence on grid electricity, reduction in energy costs, and mitigation of carbon emissions. The Company continues to explore opportunities for increasing renewable energy utilization as part of its long-term sustainability and energy security objectives.

iii. The capital investment on energy conservation equipment

During the year under review, the Company undertook the development of a 2.25 MW DC Solar Power Plant at Tapi, Songadh, Gujarat, for self-captive consumption. The project is currently under

implementation and is expected to strengthen the Company's renewable energy portfolio while meeting the power requirements of its Vapi manufacturing facility. However, the energy-efficient systems and infrastructure implemented in earlier years, including power factor correction systems, energy-efficient electrical equipment, process automation technologies, and energy management initiatives, continued to generate operational and environmental benefits. The Company remains committed to investing in energy-efficient technologies wherever commercially and technologically viable.

B. Technology Absorption:

i. The efforts made towards technology absorption during the year under review:

The Company continued to effectively utilize and optimize technologies, process improvements, and energy-efficient systems implemented in earlier years to enhance operational efficiency and manufacturing performance. Existing installations, including Variable Frequency Drives (VFDs) on major motors and critical process equipment, continued to support energy conservation, process optimization, and operational reliability.

In the Pharmaceutical Division, focused efforts were undertaken towards process refinement, quality enhancement, and strengthening of manufacturing controls. Continuous improvements in process design and quality systems contributed to greater manufacturing consistency, improved efficiency, and compliance with applicable regulatory and pharmacopeial standards

ii. the benefits derived like product improvement, cost reduction, product development or import substitution:

The continued use of advanced process control systems, analytical technologies, and quality monitoring mechanisms resulted in improved product quality, enhanced process reliability, optimized resource utilization, and operational cost efficiencies. These initiatives strengthened manufacturing consistency, ensured compliance with domestic and international quality standards, and supported the Company's ability to deliver high-quality products meeting evolving customer and regulatory requirements.

iii. In case of imported technology (imported during the last three years reckoned from the beginning of the financial year)

The Company has not imported any technology during this financial year.

iv. Expenditure incurred on Research and Development

Nil.

C. Foreign Exchange Earnings and Outgo:

The Foreign Exchange earned in terms of actual inflows during the year and the Foreign Exchange outgo in terms of actual outflows are provided in the Notes forming part of the Financial Statements.

(₹ in Lakhs)

Sr. No.	Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
1.	Foreign Exchange outgo	9,294.18	9,295.99
2.	Foreign Exchange earned	30,371.92	9,109.94

CERTIFICATE OF CORPORATE GOVERNANCE

Independent Auditor's Certificate on Compliance with the Corporate Governance requirements under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

To,
The Members of
Bhageria Industries Limited

We have examined the compliance of conditions of Corporate Governance by Bhageria Industries Limited ('the Company') for the year ended March 31, 2026, as per Regulations 17 to 27, clauses (b) to (i) of Regulation 46(2) and Paragraph C, D and E of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations').

The compliance of conditions of Corporate Governance is the responsibility of the management. Our examination was limited to a review of the procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of the Corporate Governance as stipulated in the said clause. It is neither an audit nor an expression of opinion on the financial statements of the Company.

We conducted our examination in accordance with the Guidance Note on Reports or Certificates for Special Purposes (Revised 2016) issued by the Institute of Chartered Accountants of India (the 'ICAI'). The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI. We have complied with the relevant applicable requirements of the Standard on Quality Control ('SQC') 1, Quality Control for Firms that performs Audits and Reviews of Historical Financial Information and other Assurance and Related Service Engagements.

In our opinion and to the best of our information and according to the explanations given to us and the representations made by the management, we certify that the Company has complied with the conditions of Corporate Governance as specified in Regulation 17 to 27, clause (b) to (i) of Regulation 46(2) and Paragraph C, D and E of Schedule V of the SEBI Listing Regulations, as applicable for the year ended March 31, 2026.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

This certificate is issued on the request of the company for the purpose of complying with the aforesaid Regulations only.

MANAGEMENT DISCUSSION AND ANALYSIS

GLOBAL ECONOMIC OVERVIEW

During FY 2025-26, the global economy grew at a moderate pace of around 3%. While inflation eased in many countries, economic recovery was uneven across regions. Central banks in major economies gradually reduced interest rates to support growth and consumer spending.

Many companies remained cautious about making new investments due to economic uncertainty and higher borrowing costs in previous years. Businesses continued to diversify their supply chains by reducing dependence on a single country and adopting the "China Plus One" strategy.

Global energy prices, especially crude oil, remained volatile, affecting the cost of chemicals and raw materials. Freight and logistics costs also fluctuated due to shipping disruptions in key trade routes, increasing the overall cost of imports and exports.

European manufacturing activity remained weak because of high energy costs and strict environmental regulations. In contrast, emerging economies in Asia and Latin America continued to grow and support global demand.

Governments across the world increased their focus on sustainability and carbon emissions, leading to stricter environmental regulations and carbon-related trade measures. Several countries also imposed anti-dumping duties and trade restrictions to protect domestic industries.

Currency fluctuations against the US Dollar created challenges for export-oriented businesses. At the same time, companies increasingly adopted digital technologies and Artificial Intelligence to improve efficiency and reduce operating costs.

Overall, FY 2025-26 was a year of cautious growth, requiring businesses to remain flexible, efficient, and focused on cost management.

INDIA ECONOMIC OVERVIEW

Standing out as a global macroeconomic beacon, India registered a resilient GDP growth rate of approximately 7.2% to 7.4% in FY 2025-26. This growth trajectory was heavily anchored by the Government of India's aggressive capital expenditure focus on multi-modal logistics, ports, and industrial corridors. Domestic consumption remained structurally sound, driven by a recovering rural economy following favourable monsoon patterns and robust urban wage growth. The Reserve Bank of India (RBI) managed a calibrated monetary balance, successfully tapering headline retail inflation to well within its comfortable target band. The Indian manufacturing sector benefited immensely from targeted fiscal policies and the progressive implementation of Production Linked Incentive (PLI) frameworks. Local commercial credit growth expanded dynamically, supported by structurally cleaned bank balance sheets and high corporate credit ratings. The country's foreign exchange reserves remained robust at over USD 650 Billion, providing a substantial macroeconomic cushion against global financial

shocks. India's corporate tax regime and ease-of-doing-business overhauls continued to position the nation as a premier direct investment hub in South Asia. Domestic energy security was bolstered by an optimized mix of long-term coal supply networks, imported crude parity and rapid green energy integration. Rapid digital tax collection frameworks, through GST, recorded all-time high monthly collections, confirming deep formalization within supply chains. Urbanization trends and an expanding middle class accelerated domestic demand for consumer durables, apparel, and construction materials. Despite high global volatility, the Indian Rupee exhibited superior stability against the US Dollar compared to peers, benefiting import-dependent processors. Rising domestic logistics costs, however, emerged as an operational challenge, prompting rapid implementation of national dedicated freight rail linkages. Private sector capital expenditure began showing definitive revival signs, shifting from maintenance investments to multi-year capacity additions. Backed by solid institutional macro-variables, India effectively solidified its position as a highly predictable, high-growth industrial hub during the fiscal year.

GLOBAL REACTIVE DYES & DYE INTERMEDIATES INDUSTRY

The global market for Reactive Dyes and Dye Intermediates experienced a volume-driven demand revival in FY 2025-26, supported by rebounding global textile utilization rates. Total global valuation for reactive colorants reached new baselines, driven by their superior bonding properties on cotton, wool, and blended fibers. Strict environmental enforcements across legacy manufacturing hubs in China caused frequent structural output disruptions, shifting international order books. Global apparel brands aggressively enforced strict Zero Discharge of Hazardous Chemicals (ZDHC) and OEKO-TEX compliance mandates down the chemical supply chain. The global dye intermediates market experienced notable margin pressures due to input cost movements in fundamental aromatic feedstocks like Benzene and Naphthalene. The integration of continuous flow chemistry and high-yield synthesis processes became standard among front-runner global producers looking to counter manual labor costs. Geopolitical realignments caused international textile manufacturing centers to shift toward Bangladesh, Vietnam, Turkey, and Central America, altering distribution routes. Storage and safety parameters across international ports became stringent, raising compliance overheads for international hazardous intermediate transit. Western buyers increasingly favored suppliers offering transparent carbon footprint profiling and backward-integrated chemical feedstocks. High-performance reactive colorants, which consume less water and fix rapidly at lower temperatures, outpaced conventional variants in market growth. Pricing dynamics for primary intermediaries experienced short-term variations, requiring agile pricing models from primary chemical suppliers. Global consolidate-and-build moves increased, with tier-1 manufacturers acquiring localized blending units closer to major textile consumption hubs. Extended container transit lead times forced global chemical

distributors to move away from just-in-time purchasing toward building buffer inventories. The evolution of digital ink-jet printing textiles expanded the specialized requirements for high-purity, ultra-filtered dye inputs globally. Consequently, the global sector in FY 2025-26 rewarded technologically compliant, large-scale manufacturers capable of providing supply continuity.

INDIAN DYES & DYE INTERMEDIATES INDUSTRY – OVERVIEW

The Indian Dyes and Dye Intermediates sector maintained its status as a critical global supplier, accounting for a commanding share of international colorant production. The domestic industry's core operational strength remained concentrated in localized chemical clusters across Gujarat and Maharashtra, enabling robust raw material access. Indian manufacturers capitalized on shifting global supply preferences, securing long-term supply relationships with international chemical conglomerates. The sector witnessed a strong performance due to its deep integration into domestic texturizing, weaving, and leather processing end-markets. For foundational intermediates like H-Acid, Indian production plants leveraged economies of scale to sustain steady export volumes despite global pricing headwinds. The market for Gamma Acid saw consistent demand, driven by specialized applications in deep-shade reactive black and red dye synthesis. Vinyl Sulphone production capacities operated at stable utilization, supported by steady domestic consumption and consistent off-take from overseas buyers. The supply ecosystem for amino naphthalene derivatives, including Tobias Acid and Sulpho Tobias Acid (STA), maintained stability due to improved local sourcing of key inputs. Demand for functional derivatives like Sulpho Vinyl Sulphone (SVS) grew, reflecting expanding applications in sophisticated polymer and surfactant formulations. Strict state-level pollution control protocols and Common Effluent Treatment Plant (CETP) upgrades raised entry barriers, favoring organized, well-capitalized corporations. The industry managed input cost fluctuations effectively, utilizing domestic supply linkages for critical inputs like caustic soda, chlorine, and nitric acid. Indian manufacturers increased their investments in automation and green chemistry practices to meet strict international supply-chain audits. Working capital cycles in the industry remained intensive, requiring disciplined credit management and efficient inventory control systems. Expanding domestic processing hubs boosted internal trade volumes, reducing the industry's historic, single-source reliance on export revenues. Overall, the domestic sector demonstrated its maturity in FY 2025-26 by maintaining supply reliability, high quality, and regulatory compliance.

OUTLOOK FOR FY 2026-27

The outlook for the dyes and dye intermediates industry remains positive. Demand from textiles, inks, coatings, paper, and specialty applications is expected to grow steadily. India is likely to strengthen its position as a key global supplier due to its manufacturing scale, integrated supply chain, and increasing focus on sustainability.

Manufacturers that invest in environmental compliance, process efficiency, product innovation, and export market diversification are expected to be better positioned to benefit from future growth opportunities. This is particularly relevant for companies which continue to leverage India's growing role in the global chemical supply chain.

GLOBAL SOLAR ENERGY MARKET OVERVIEW

At COP30, global climate ambition was reaffirmed with nations committing to mobilise USD 1.3 trillion annually by 2035 for climate action and tripling adaptation finance. However, the absence of a binding fossil fuel phase out roadmap and the continued gap between pledges and implementation drew criticism from developing nations and climate advocates alike.

In 2025, global renewable capacity additions reached a new record of 664 GW, with solar PV accounting for nearly 510 GW of that the single largest contributor to new capacity added worldwide. The global solar fleet crossed the 3,000 GW milestone in early 2026, tripling in just four years. Asia, led by China's 382 GW of additions, continued to dominate installations, while India emerged as the world's second-largest solar growth market with 45.7 GW added in 2025.

Despite record 2025 additions, the market is entering a phase of consolidation. The 2026 is expected to see a temporary decline, driven largely by policy changes in China & other countries and rising grid integration challenges across mature markets. However, this is widely viewed as a short-term adjustment rather than a structural shift. Meanwhile, geopolitical tensions and energy security concerns are simultaneously pushing more nations to accelerate domestic renewable programmes. Despite near-term friction, solar's cost advantage and its growing role in national energy security strategies ensure that the long-term direction of travel is clear.

SOLAR ENERGY INDUSTRY – OUTLOOK

The global solar market is on a robust growth trajectory, with solar PV set to dominate renewable capacity additions worldwide through 2030, driven by falling costs and strong policy support. India is on course to become the second-largest renewables growth market globally, after China, and is expected to comfortably reach its ambitious 2030 targets. Domestically, a deep project pipeline, PLI-backed manufacturing, and emerging demand from green hydrogen and data centers will open new growth avenues. While grid infrastructure remains a near-term challenge, the long-term outlook for India's solar industry remains exceptionally compelling.

INDIAN SOLAR ENERGY MARKET OVERVIEW

India's solar energy sector maintained strong growth momentum during FY 2025-26, supported by favourable government policies, rising power demand, increasing investments, and continued cost competitiveness. Solar power remained the leading contributor to renewable energy capacity additions, with cumulative installed solar capacity surpassing 150 GW during the year. This propelled India past the United States in annual solar additions, making it the

world's second-largest solar growth market globally. The country also achieved a record addition of 55.3 GW of non-fossil fuel power capacity during FY 2025-26, taking total installed non-fossil fuel capacity to approximately 283 GW.

Government initiatives aimed at achieving 500 GW of non-fossil fuel capacity by 2030, coupled with investments in transmission infrastructure, energy storage, and domestic manufacturing, continue to strengthen the sector's growth prospects. The increasing adoption of Battery Energy Storage Systems (BESS), rooftop solar, and utility-scale projects is expected to further enhance renewable energy integration and grid reliability.

With a robust project pipeline, supportive policy environment, and growing demand for clean energy, India's solar energy sector remains well-positioned to contribute significantly to the country's energy security, economic growth, and sustainability objectives.

GLOBAL PHARMACEUTICAL INDUSTRY – OVERVIEW

The global pharmaceutical industry continued to demonstrate resilient growth during FY 2025-26, driven by increasing healthcare expenditure, ageing populations, rising incidence of chronic diseases, and growing demand for affordable medicines. The Active Pharmaceutical Ingredients (API) segment remains a critical component of the pharmaceutical value chain, supported by increasing outsourcing activities, supply chain diversification initiatives, and a growing preference among global pharmaceutical companies to reduce dependence on single-country sourcing.

The global focus on healthcare accessibility, specialty therapies, nutraceuticals, and regulatory compliance continues to create opportunities for quality-focused API manufacturers. Furthermore, increasing investments in research, manufacturing capabilities, and supply chain resilience are expected to support long-term growth in the pharmaceutical sector. Demand for generic medicines and cost-effective APIs remains strong across both developed and emerging markets.

INDIAN PHARMACEUTICAL INDUSTRY – OVERVIEW

India continues to strengthen its position as one of the world's leading pharmaceutical manufacturing destinations and remains a key supplier of generic medicines and Active Pharmaceutical Ingredients (APIs) to global markets. The Indian pharmaceutical industry is the third largest globally by volume and among the largest suppliers of generic medicines worldwide.

Government initiatives aimed at promoting domestic API manufacturing, enhancing self-reliance in critical bulk drugs, and strengthening pharmaceutical infrastructure continue to support industry growth. Increasing healthcare awareness, expanding medical coverage, rising pharmaceutical exports, and India's growing importance in global supply chains are expected to provide sustained momentum to the sector.

INDIAN PHARMACEUTICAL INDUSTRY – OUTLOOK

The outlook for the Indian pharmaceutical API industry remains positive, supported by increasing healthcare expenditure, rising prevalence of chronic and lifestyle-related diseases, growing demand for generic medicines, and continued focus on healthcare accessibility. Government initiatives promoting domestic API manufacturing, coupled with global supply chain diversification strategies are expected to create significant growth opportunities for Indian API manufacturers.

With India's growing prominence as a preferred pharmaceutical manufacturing hub, increasing export opportunities, and continued emphasis on quality and regulatory compliance, the Company remains optimistic about the long-term growth prospects of its API business. The Company continues to focus on operational excellence, product quality, regulatory adherence, and customer-centric solutions to strengthen its market position and capitalize on emerging opportunities in both domestic and global markets.

ANALYSIS OF FINANCIAL PERFORMANCE

STANDALONE PERFORMANCE FOR THE YEAR ENDED MARCH 31, 2026:

During FY 2025-26, the Company achieved strong growth in its business operations despite a challenging operating environment marked by raw material price volatility, higher

logistics costs, and geopolitical uncertainties impacting global supply chains. Total Income increased significantly to ₹880.56 Crore from ₹604.07 Crore in the previous year, registering a growth of 45.77%, driven by improved demand across domestic and export markets and higher sales volumes across key product segments.

EBITDA for the year stood at ₹102.25 Crore as compared to ₹90.82 Crore in FY 2024-25, while Profit After Tax increased to ₹50.30 Crore from ₹42.27 Crore in the previous year. Although profitability margins were impacted by fluctuations in input costs and competitive market conditions, the Company maintained healthy earnings through operational efficiencies, prudent cost management, and improved capacity utilization.

The Board of Directors has recommended a Final Dividend of ₹2.50 per equity share of face value ₹5 each for FY 2025-26, representing a 50% dividend on the paid-up equity share capital of the Company, subject to shareholders' approval.

Details of significant Changes (Change of 25% or more as Compared to the immediately previous financial year) in key financial ratios, along with detailed explanations therefore, including:

* The movement in the above ratios during the year is primarily attributable to growth in operations and improved efficiency in the management of inventory, receivables and working capital. Consequently, the Inventory Turnover Ratio and Trade Receivables Turnover Ratio have improved as compared to the previous year, reflecting better utilization of operating resources and enhanced working capital management. Further, the Debt-Equity Ratio has decreased during the year primarily on account of reduction in borrowings and improvement in the Company's net worth. The decline in Operating Profit Margin was mainly attributable to changes in product mix, competitive market conditions, and higher input costs. The overall movement in these ratios indicates a strengthened financial position and improved operational efficiency of the Company.

CONSOLIDATED PERFORMANCE FOR THE YEAR ENDED MARCH 31, 2026:

During FY 2025-26, the Group delivered a strong financial performance amidst a challenging business environment marked by volatility in raw material prices, fluctuations in energy and freight costs, and continued geopolitical uncertainties affecting global trade. Total Income on a consolidated basis increased to ₹880.79 Crore from ₹601.59 Crore in FY 2024-25, registering a growth of 46.41%, driven by higher sales volumes, improved demand across key markets, and sustained customer engagement across the Group's product portfolio.

EBITDA for the year stood at ₹98.00 Crore as compared to ₹88.40 Crore in the previous year, reflecting a growth of 10.86%. EBITDA Margin moderated to 11.21% from 14.87% in FY 2024-25, primarily due to fluctuations in raw material prices, higher logistics costs, and competitive market conditions during the year.

The Group reported a Profit After Tax (PAT) of ₹44.49 Crore for FY 2025-26 as against ₹38.69 Crore in the previous year, representing a growth of 14.99%. PAT Margin stood at 5.09% compared to 6.51% in FY 2024-25. Despite pressure on margins, the Group maintained profitability through higher business volumes, operational efficiencies, prudent cost management, and improved capacity utilization.

RISK MANAGEMENT

The Company operates in a dynamic business environment and is exposed to various risks that could impact its operational and financial performance. The Company's risk management framework focuses on identifying, assessing, monitoring, and mitigating key business risks through appropriate controls, governance mechanisms, and continuous review by the management and the Board.

The key risks and mitigation strategies are outlined below:

Risk Category	Risk Description	Mitigation Measures
Supply Chain Risk 	Disruptions in the availability of raw materials, logistics constraints, supplier concentration, geopolitical developments and fluctuations in input costs may impact production schedules and profitability.	The Company maintains a diversified supplier base, develops long-term supplier relationships, monitors inventory levels, undertakes strategic procurement planning and continuously evaluates alternative sourcing options to ensure supply continuity.
Competition Risk 	Intense competition from domestic and international players may exert pressure on market share, pricing and margins.	The Company focuses on product quality, customer relationships, operational efficiency, innovation, cost optimization and market diversification to strengthen its competitive position and enhance customer value.

<p>Liquidity Risk</p> 	<p>Inadequate availability of funds or adverse movements in working capital requirements may affect the Company's ability to meet operational and financial obligations.</p>	<p>The Company maintains prudent treasury management practices, adequate banking relationships, diversified funding sources, regular cash flow monitoring and optimal working capital management to ensure financial flexibility.</p>
<p>Regulatory Risk</p> 	<p>Changes in applicable laws, regulations, environmental norms, taxation policies, trade policies and compliance requirements may impact business operations and profitability.</p>	<p>The Company has established compliance monitoring mechanisms and engages with professional advisors to ensure timely identification of regulatory developments and adherence to all applicable legal and statutory requirements.</p>
<p>Human Capital Risk</p> 	<p>The ability to attract, develop, and retain skilled talent is critical to sustaining operational excellence and business growth. Employee attrition, skill gaps, or leadership succession challenges may impact performance.</p>	<p>The Company focuses on employee engagement, learning and development, succession planning, performance management, competitive compensation practices and fostering a safe and inclusive work environment.</p>
<p>Environmental & Social Risk</p> 	<p>Increasing stakeholder expectations regarding environmental sustainability, workplace safety, resource efficiency and social responsibility may create operational and reputational risks.</p>	<p>The Company remains committed to sustainable business practices, environmental compliance, occupational health and safety standards, responsible resource utilization, community engagement initiatives and continuous improvement in ESG-related performance.</p>

The Company continuously reviews its risk profile and strengthens its risk management processes to address emerging challenges and opportunities. Through a proactive and integrated risk management approach, the Company seeks to protect stakeholder interests, enhance resilience, and support sustainable long-term growth.

STRATEGY

The Company's strategy is focused on achieving sustainable and profitable growth through operational excellence, customer-centricity, innovation and prudent capital allocation. The Company continues to strengthen its market position by enhancing product quality, expanding customer relationships, improving operational efficiencies and optimizing costs across the value chain.

The Company remains committed to developing value-added products, strengthening supply chain resilience, and leveraging technology to improve productivity and responsiveness to changing market dynamics. Sustainability, responsible business practices and effective risk management continue to be integral to the Company's long-term growth strategy.

Supported by a strong financial foundation, experienced management team and focus on continuous improvement, the Company is well-positioned to capitalize on emerging opportunities and create sustainable value for its shareholders and other stakeholders.

HUMAN RESOURCE

At Bhageria, our people are the cornerstone of our success and a key enabler of sustainable growth. We believe that a motivated, skilled and engaged workforce is essential for delivering operational excellence, driving innovation and creating long-term value for all stakeholders.

The Company is committed to fostering an inclusive, performance-driven and learning-oriented work environment that encourages collaboration, accountability and continuous improvement. Our Human Resource strategy focuses on attracting, developing, engaging and retaining talented professionals who contribute meaningfully to the achievement of the Company's strategic objectives.

To strengthen organizational capabilities, the Company continues to invest in employee development through structured training programs, leadership initiatives, technical skill enhancement and competency-building interventions. These initiatives are designed to support professional growth, improve productivity and prepare employees to meet evolving business challenges.

As on March 31, 2026, the Company had a workforce strength of 457 employees. During the year, 51 new employees were inducted to support business requirements and address normal attrition. The Company's comprehensive human resource framework encompasses talent acquisition,

performance management, employee engagement, succession planning, learning and development and competitive compensation practices.

The Company maintains cordial industrial relations across all its locations and remains committed to ensuring employee well-being, workplace safety, diversity, and equal opportunity. By nurturing a culture of excellence and continuous learning, Bhageria aims to build a resilient and future-ready workforce that will support its long-term growth aspirations and sustained business success.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

The Company has established a comprehensive and robust internal control framework commensurate with the nature, size, and complexity of its operations. The internal control systems are designed to ensure operational efficiency, safeguarding of assets, reliability of financial reporting, compliance with applicable laws and regulations, and effective risk management. The Company's processes are supported by an integrated ERP platform that enables standardized operations, accurate transaction processing, timely reporting, and secure management of financial and operational information. Well-defined policies, delegation of authority, approval mechanisms, and information security controls further strengthen the overall governance framework.

The Company follows a risk-based internal audit mechanism to evaluate the adequacy and effectiveness of internal controls across key business functions. The findings and recommendations of the Internal Auditors are periodically reviewed by the Audit Committee, which comprises Independent Directors. The Committee monitors the implementation of corrective actions, reviews significant observations, and provides strategic oversight to ensure continuous improvement in the control environment.

The management, together with the Audit Committee and Internal Auditors, continuously evaluates and strengthens the internal control systems to address evolving business

requirements and emerging risks. Based on such reviews, the Company believes that its internal control systems and procedures are adequate and effective, providing reasonable assurance regarding the orderly conduct of business operations, protection of assets, prevention and detection of frauds and errors, and the accuracy and completeness of financial records.

CAUTIONARY STATEMENT

The statements contained in this Management Discussion and Analysis Report describing the Company's objectives, projections, estimates, expectations, plans, strategies, or forecasts may constitute "forward-looking statements" within the meaning of applicable securities laws and regulations. These statements are based on certain assumptions and expectations of future events and are subject to various risks, uncertainties, and other factors that could cause actual results, performance, or achievements to differ materially from those expressed or implied in such statements.

Readers are cautioned not to place undue reliance on these forward-looking statements. The Company undertakes no obligation to publicly revise, update or amend any forward-looking statements, whether as a result of new information, future events, or otherwise, except as required under applicable laws and regulations.

INDEPENDENT AUDITOR'S REPORT

To the Members of

Bhageria Industries Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of **Bhageria Industries Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2026, and the Standalone statement of Profit and Loss (including other comprehensive income), Standalone statement of changes in Equity and Standalone statement of Cash flows for the year then ended, and notes to the Standalone financial statements, including a summary of material accounting policies and other explanatory information (herein after referred to as "Standalone Financial Statement").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, its profit (including other comprehensive income), the changes in equity, and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the branch auditors in terms of their reports referred to in "Other Matters" section below, is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the annual report, but

does not include the financial statements and auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the company's annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

Responsibilities of Management and those charged with governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has an adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements for the financial year of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

 - b. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - c. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - d. (i) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or

loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (ii) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (iii) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- e. The final dividend paid by the Company during the year, which pertains to previous year is in accordance with Section 123 of the Act, to the extent it applies to payment of dividend.

As stated in the note no.46 of Standalone Financial Statements, the Board of Directors of the Company has proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with Section 123 of the Act to the extent it applies to declaration of dividend.

- f. Based on our examination which included test checks, the Company has used an accounting softwares for maintaining its books of account which has a feature of recording audit trail

(edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

- C. With respect to the matter to be included in the Auditor’s Report under Section 197(16) of the Act.

In our opinion and according to the information and explanations given to us, the remuneration paid/payable by the Company to its directors during the current year is in accordance with

the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Annexure Referred to in Independent Auditors' Report on the Standalone Financial Statements of Even date to the members of Bhageria Industries Limited for the year ended March 31, 2026.

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Bhageria Industries Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013. The operations of foreign branches of the Company are subject to the laws and regulations of the respective jurisdictions and their local internal control frameworks, which are not covered by this report under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit does not extend to internal financial controls over financial reporting applicable to the operations of foreign branches of the Company, which are subject to applicable local laws and regulations.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting

Meaning of Internal Financial Control over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company;
- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of

changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on

Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note 1: Company Overview

Bhageria Industries Limited is a public limited company domiciled in India having its registered office at 1002, 10th Floor, Topiwala Centre, Off. S.V. Road, Near Goregaon Railway Station, Goregaon (West), Mumbai – 400062. The Company was incorporated on July 12, 1989 under the provision of the Companies Act, 1956. The Company is engaged in manufacturing and trading of Dyes & Dyes Intermediate, Chemicals, Pharmaceutical, generation and distribution of solar power and Engineering, Procurement & Commissioning/ construction (EPC) contractor. The equity shares of the Company are listed on the National Stock Exchange of India Limited and BSE Limited.

Note 2: Summary of Material Accounting Policies
a) Statement of Compliance

The financial statements of the company have been prepared in accordance with Indian Accounting Standards ("Ind-AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) Rules, 2016 and other relevant provisions of the Act.

b) Basis of Measurement

The financial statements have been prepared on a historical cost basis except for certain financial assets and financial liabilities (including financial instruments) which have been measured at fair value at the end of each reporting period as explained in the accounting policies stated below. The Financial Statements have been prepared on accrual and going concern basis.

c) Current versus non-current classification

The Company has classified all its assets and liabilities under current and non-current as required by Ind AS 1- Presentation of Financial Statements.

The asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or

- There is no unconditional right to defer the settlement of liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realizations in cash and cash equivalents. The Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

The Company's functional currency is the Indian Rupee. These financial statements are presented in Indian Rupees and all values are rounded to the nearest lakhs, except when otherwise stated.

d) Use of Estimates, Judgments and Assumptions

The preparation of the financial statements in conformity with Ind-AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note 3(i) below. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

e) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being received. Revenue towards satisfaction of performance obligation is measure at the amount of transaction prices (net of variable consideration) allocates to the performance obligation. Transaction price of goods sold and services rendered is net of variable consideration on account of various discount and scheme offered by the company as per Ind AS, specially INDAS 115. Revenue is measured at value of the consideration received or receivable, taking into account contractually defined terms of payment including excise duty collected which flows to the Company on its own account but excluding taxes or duties collected on behalf of the government.

Revenue from contracts with customers Ind AS 115 establishes a single comprehensive model for entities to

NOTES TO THE STANDALONE FINANCIAL STATEMENTS For the year ended March 31, 2026

use in accounting for revenue arising from contracts with customers. Under Ind AS 115, an entity recognises revenue when (or as) a performance obligation is satisfied i.e. when control of the goods and service underlying the particular performance obligation is transferred to the customer.

The Company follows specific recognition criteria as described below before the revenue is recognized.

- Sale of goods
- Revenue from sale of goods is recognized when the significant risks and rewards of ownership have been transferred to the buyer, usually on delivery of goods, recovery of the consideration is probable, the associated cost can be estimated reliably, there is no continuing effective control or managerial involvement with the goods, and the amount of revenue can be measured reliably.
- Revenue is measured at the transaction value of the consideration received or receivable. The amount recognized as revenue is exclusive of Goods and Service Tax (GST), Value Added Taxes (VAT), and is net of discounts.
- Sale of solar power
- Sale is recognized when the power is delivered by the Company at the delivery point in conformity with the parameters and technical limits and fulfilment of other conditions specified in the Power Purchase Agreement. Sale of power is accounted for as per tariff specified in the Power Purchase Agreement.
- The sale of power is accounted for net of all local taxes and duties as may be leviable on sale of electricity for all electricity made available and sold to customers.
- Other Operating Revenue
- Other Operating revenue comprises of following Items
 1. Job work income
 2. Duty drawback and other export incentives
- Revenue from manufacturing charges is recognized on completion of contractual obligation of manufacturing and delivery of product manufactured.
- Revenue from export incentives are recognized upon adherence to the compliances as may be prescribed with regard to export and / or realization of export proceeds as per foreign trade policy and its related guidelines.
- Revenue from sale of scrap is recognized on delivery of scrap items.
- The Company recognises revenue from Operations and Maintenance services using the time-elapsed measure of progress i.e. input method on a straight line basis.
- Other Income

- Other income comprises of interest income, rent income, dividend from investment and profits on redemption of investments.
- Interest income from financial assets is recognized when it is probable that the economic benefit will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on time basis by reference to the principal outstanding and at the effective rate applicable, which is the rate exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.
- Dividend income from investment is recognized when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefit will flow to the Company and the amount of income can be measured reliably).
- Profit on redemption of investment is recognized by upon exercise of power by the company to redeem the investment held in any particular security / instrument (non-current as well as current investment).
- Contract assets
Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.
- Contract liabilities
Contract Liabilities are recognised when there is billing in excess of revenue and advance received from customers.

f) Foreign Currency-Transactions and Balances

Items included in the Financial Statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('functional currency'). The Company's functional currency is Indian Rupee and accordingly, the financial statements are presented in Indian Rupee.

Transactions in foreign currencies are initially recorded by the company in functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting period. Gains and losses arising on account of differences in foreign exchange rates on settlement/ translation of monetary assets and liabilities are recognized in the Statement of Profit and Loss except exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS For the year ended March 31, 2026

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of that item (i.e. translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

g) Employee Benefits
• Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employee's services up to the end of the reporting period and are measured at the undiscounted amounts of the benefits expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

• Other Long-term employee benefit obligations

The liabilities for compensated absences (annual leave) which are not expected to be settled wholly within 12 months after the end of the period in which the employee render the related service are presented as non-current employee benefits obligations. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the Projected Unit Credit method. The benefits are discounted using the market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligations. Re-measurements as a result of experience adjustments and changes in actuarial assumptions (i.e. actuarial losses/ gains) are recognised in the Statement of Profit and Loss.

The obligations are presented as current in the balance sheet, if the Company does not have an unconditional right to defer settlement for at least twelve months after the reporting period, Regardless of when the actual settlement is expected to occur.

• Post-employment obligations

The Company operates the following post-employment schemes:

- I. Defined benefit plans such as gratuity
- II. Defined contribution plans such as provident fund.

I. Defined benefit plan - Gratuity Obligations

The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment.

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is actuarially determined using the Projected Unit Credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have a terms approximating to the terms of the obligation. The net interest cost, calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of the plan assets, is recognised as employee benefit expenses in the statement of profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the other comprehensive income in the year in which they arise and are not subsequently reclassified to Statement of Profit and Loss.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

II. Defined Contribution Plan

The Company pays provident fund contributions to publicly administered provident funds as per local regulatory authorities. The Company has no further obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS For the year ended March 31, 2026

h) Tax Expenses

The tax expense for the period comprises current and deferred tax. Taxes are recognised in the statement of profit and loss, except to the extent that it relates to the items recognised in the comprehensive income or in Equity. In which case, the tax is also recognised in the comprehensive income or in Equity.

- **Current tax:**

Current tax payable is calculated based on taxable profit for the year. Current tax is recognized based on the amount expected to be paid to or recovered from the tax authorities based on applicable tax laws that have been enacted or substantively enacted by the balance sheet date. Management periodically evaluates positions taken in the tax return with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

- **Deferred tax:**

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary timing difference. Deferred tax assets are recognized for deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and adjusted to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted on the reporting date. Current and deferred tax for the year are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

i) Property, Plant and Equipment

Land is carried at historical cost. All other items of property, plant and equipment are stated at cost, net of recoverable taxes, trade discount and rebates less accumulated depreciation and impairment losses, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate,

only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably. When significant parts of plant and equipment are required to be replaced at intervals, the company depreciates them separately based on their specific useful lives. All other repairs and maintenance costs are recognized as expense in the statement of profit and loss account as and when incurred.

Expenses incurred relating to project, net of income earned during the project development stage prior to its intended use, are considered as pre - operative expenses and disclosed under Capital Work- in- Progress.

Cost of the assets less its residual value (estimated at 5% of the cost) is depreciated over its useful life. Depreciation is calculated on written down basis over the useful life of the assets as prescribed in Schedule II to the Companies Act, 2013.

Depreciation on additions/ deletions to fixed assets is calculated pro-rata from/ up to the date of such additions/ deletions.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between sale proceeds and the carrying amount of the asset and is recognised in profit and loss account.

The management believes that the estimated useful lives are realistic and reflects fair approximation of the period over which the assets are likely to be used. At each financial year end, management reviews the residual values, useful lives and method of depreciation of property, plant and equipment and values of the same are adjusted prospectively where needed.

j) Investment Properties

Investment properties are properties that is held for long-term rentals yields or for capital appreciation (including property under construction for such purposes) or both, and that is not occupied by the Company, is classified as investment property.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated impairment loss, if any.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS For the year ended March 31, 2026

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes.

Fair values are determined based on reasonable interval performed by an accredited external independent valuer.

Investment properties are de-recognized either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit and loss in the period of de-recognition.

k) Borrowing Costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in Statement of Profit and Loss in the period in which they are incurred.

l) Impairment of Non-Financial Assets

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognized in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

m) Inventories

Inventories are valued at lower of cost (on First-In-First-Out) or net realizable value after providing for obsolescence and other losses, where considered necessary. Cost of inventories comprises all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost of purchased inventory is determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

n) Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when the company has present obligation (legal or constructive) as a result of past event and it is probable that outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense related to a provision is presented in the statement of profit and loss net of any reimbursement/contribution towards provision made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent Liability:
Contingent liability is disclosed in the case;

- When there is a possible obligation which could arise from past event and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or;
- A present obligation that arises from past events but is not recognized as expense because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or;
- The amount of the obligation cannot be measured with sufficient reliability.

Contingent asset:

Contingent asset is disclosed in case a possible asset arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

o) Leases
As lessee
Initial measurement

Lease Liability: At the commencement date, a Company measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using incremental borrowing rate.

Right-of-use assets: initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS For the year ended March 31, 2026

Subsequent measurement

Lease Liability: Company measure the lease liability by

- increasing the carrying amount to reflect interest on the lease liability;
- reducing the carrying amount to reflect the lease payments made; and
- remeasuring the carrying amount to reflect any reassessment or lease modifications.

Right-of-use assets: subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight line basis over the shorter of the lease term and useful life of the under lying asset.

Impairment: Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

Short term Lease

Short term lease is that, at the commencement date, has a lease term of 12 months or less. A lease that contains a purchase option is not a short-term lease. If the company elected to apply short term lease, the lessee shall recognise the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis. The lessee shall apply another systematic basis if that basis is more representative of the pattern of the lessee's benefit

As a lessor

Leases for which the company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. Lease income is recognised in the statement of profit and loss on straight line basis over the lease term.

p) Financial Instruments

The Company recognizes financial assets and financial liabilities when it becomes party to the contractual provision of the instrument.

Part I - Financial Assets
Initial recognition and measurement

Financial assets are initially measured at its fair value excepts for trade receivable which are initially recognised at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value of the concerned Financial assets, as appropriate, on initial recognition.

Transaction costs directly attributable to acquisition of financial assets at fair value through profit or loss are recognized immediately in profit or loss. However, trade receivable that do not contain a significant financing component are measured at transaction price.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- Financial Assets at amortized cost
- Financial Assets at FVTOCI (Fair Value through Other Comprehensive Income)
- Financial Assets at FVTPL (Fair Value through Profit or Loss)
- Financial Assets at amortized cost:

A Financial Assets is measured at the amortized cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS For the year ended March 31, 2026

Financial Assets at FVTOCI (Fair Value through Other Comprehensive Income):

A Financial Assets is classified as at the FVTOCI if following criteria are met:

The objective of the business model is achieved both by collecting contractual cash flows (i.e. SPPI) and selling the financial assets.

Financial instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the statement of profit and loss. On de- recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to the statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Financial Assets at FVTPL (Fair Value through Profit or Loss):

FVTPL is a residual category for financial instruments. Any financial instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a financial instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any financial instrument as at FVTPL.

Financial instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

All other equity investments are measured at fair value, with value changes recognised in Statement of Profit and Loss.

De- recognition:

A financial asset is primarily derecognized when rights to receive cash flows from the asset have expired or the Company has transferred its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risk and reward of the ownership of the financial asset.

Impairment of financial assets:

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss'(ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months from the reporting date.

For trade receivables, Company applies 'simplified approach', which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date, these historical default rates are reviewed and changes in the forward-looking estimates are analyzed.

For other assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the Statement of Profit and Loss under the head 'Other expenses'.

Part II - Financial Liabilities
Initial recognition and measurement

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS For the year ended March 31, 2026

- **Subsequent measurement**

The measurement of financial liabilities depends on their classification, as described below:

- **Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss is designated as such at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ loss are not subsequently transferred to statement of profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

- **Loans and borrowings**

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are de-recognised as well as through the EIR amortization process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

- **Financial guarantee contracts**

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognised less cumulative amortisation.

- **De-recognition:**

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

- **Offsetting of financial instruments:**

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Part-III Fair Value Measurement:

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or;
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets

NOTES TO THE STANDALONE FINANCIAL STATEMENTS For the year ended March 31, 2026

for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 - quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 - inputs that are unobservable for the asset or liability

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

q) Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less from the date of acquisition, which are subject to an insignificant risk of changes in value.

r) Business Combination

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the fair values of the assets transferred;

- Liabilities incurred to the former owners of the acquired business;
- Equity interest issued by the group; and
- Fair value of any asset or liability resulting from a contingent consideration arrangement.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The group recognizes any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interests' proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred. The excess of the

- Consideration transferred;
- Amount of any non-controlling interest in the acquired entity; and

- Acquisition-date fair value of any previous equity interest in the acquired entity

Over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase gain is recognised directly in equity as capital reserve.

Business Combination involving entities or business under common control shall be accounted for using the pooling of interest method.

s) Cash Flow Statements:

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non- cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flow from operating, investing and financing activities of Company is segregated.

t) Derivative Financial Instruments and Hedge Accounting
Initial recognition and subsequent measurement:

Company uses derivative financial instruments such as forward currency contracts to mitigate its foreign currency fluctuation risks. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting date. Gain or loss arising from changes in the fair value of hedging instrument is recognized in the Statement of Profit or Loss.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

u) Earnings Per Share

Basic earnings/ (loss) per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events, other than conversion of potential equity shares, that have changed the number of equity shares outstanding without a corresponding change in resources.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS For the year ended March 31, 2026

In case of a bonus issue, the number of ordinary shares outstanding is increased by number of shares issued as bonus shares in current year and comparative period presented as if the event had occurred at the beginning of the earliest year presented.

For the purpose of calculating diluted earnings/ (loss) per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

v) Insurance Claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

w) Segment Reporting

The Company identifies operating segments based on the internal reporting provided to the chief operating decision-maker.

The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses have been identified to segments on the basis of their relationship to the operating activities of the segment.

Note 3 : Key Accounting Judgements, Estimates & Assumptions

The preparation of the Company's financial statements requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

A. Income taxes and Deferred tax assets:

The Company's tax jurisdiction is India. Significant judgments are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. Deferred

tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized. The management assumes that taxable profit will be available while recognizing the deferred tax assets.

B. Property, Plant and Equipment:

Property, Plant and Equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life as prescribed in the Schedule II of the Companies Act, 2013 and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

C. Impairment of non-financial assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or a group of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

D. Impairment of financial assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS For the year ended March 31, 2026

E. Recognition and measurement of defined benefit obligation:

The obligation arising from the defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life expectancy. The discount rate is determined with reference to market yields at the end of the reporting period on the government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations.

F. Recognition and measurement of other provisions:

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may, therefore, vary from the figure included in other provisions.

G. Contingencies:

Management judgement is required for estimating the possible outflow of resources, if any, in respect of

contingencies/claim/ litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

H. Allowances for uncollected trade receivable and advances:

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated amounts which are irrecoverable. Individual trade receivables are written off when management deems them not collectible. Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets. The impairment provisions for financial assets are based on assumption about risk of default and expected loss rates. Judgement in making these assumptions and selecting the inputs to the impairment calculation are based on past history, existing market condition as well as forward looking estimates at the end of each reporting period.

- Description of valuation techniques used and key inputs to valuation on investment properties.

The Company obtains independent valuations for its investment properties at reasonable interval. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the Company considers information from a variety of sources including:

- Current prices in an active market for investment properties of different nature or recent prices of similar investment properties in less active markets, adjusted to reflect those differences.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS For the year ended March 31, 2026

- ii) Discounted cash flow projections based on reliable estimates of future cash flows.
iii) Capitalised income projections based upon an estimated net market income from investment properties and a capitalisation rate derived from an analysis of market evidence.

The fair values of investment properties have been determined by reputed third party and independent valuers. The main inputs used are the rental growth rates, expected vacancy rates, terminal yields and discount rates based on comparable transactions and industry data. All resulting fair value estimates for investment properties are included in level 3.

- e) Investment Property pledged/ mortgaged as security :
Refer Note 25 for information on Investment Property hypothecated / mortgaged as security by the Company.

The Company has disclosed financial instruments such as cash and cash equivalents, other bank balances, trade receivables, loans, other financial assets, borrowings, trade payables and other financial liabilities at carrying value because their carrying amounts are a reasonable approximation of the fair values due to their short term nature.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS For the year ended March 31, 2026

Level 1: Hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example over-the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data (unobservable inputs).

Valuation technique used to determine fair value:

The Company evaluates the fair value of financial assets and financial liabilities on periodic basis using the best and most relevant data available.

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments.
- the fair value of forward foreign exchange contracts is determined using forward exchange rates at the Balance Sheet date.
- The fair value of investments in Mutual Fund Units is based on Net Asset Value ("NAV") as stated by the issuers of these mutual fund units in the published statements as at the Balance Sheet Date. NAV represents the price at which the issuer will issue further units of Mutual Fund and the price at which issuers will redeem such units from investors.

Note 44 : Financial Risk Management Objectives and Policies

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables, and financial guarantee contracts. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations directly or indirectly. The Company's principal financial assets include investments, loans, trade and other receivables, cash and cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The below note explains the sources of risk which the entity is exposed to and how the entity manages the risk :

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and cash equivalents, trade receivables, derivative financial instruments, financial assets measured at amortised cost.	Ageing analysis and Credit ratings	Diversification of bank deposits and credit limits Unutilised from Consortium Banker
Liquidity Risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market Risk - Interest rate	Borrowings at variable rates		Not used any Interest rate derivatives.
Market Risk - Price risk	Equity Instruments	Sensitivity analysis	Company maintains its portfolio in accordance with the framework set by the Risk Management policies.
Market Risk - Foreign exchange risk	Export, Import and Borrowings		Forward contracts and Currency options

Credit Risk :

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

Trade receivables

Customer credit risk is managed by the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed by the management on regular basis with market information and individual credit limits are defined accordingly. Outstanding customer receivables are regularly monitored and any further services to major customers are approved by the senior management.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS For the year ended March 31, 2026

The Company measures the expected credit loss of trade receivables from customers based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, as per management perceptions, the provision for loss on collection is made on trade receivables based on Expected Credit Loss Model (ECL) as below:

No. of Days for which amount is due	<= 60 days	61 to 120 days	121 to 180 days	181 to 365 days	1-3 Years	More than 3 years
% of Provision	0.00%	0.25%	0.50%	0.75%	1.00%	100.00%

Reconciliation of provision for ECL :

(₹ in Lakhs)

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Opening Balance	13.16	-
Recognition of loss allowance measured as per ECL	(0.27)	13.16
Closing Balance	12.90	13.16

Financial instruments and cash deposits

Credit risk from balances/investments with banks and financial institutions is managed in accordance with the Company's treasury risk management policy. Investments of surplus funds are made only with approved counterparties and within limits assigned to each counterparty. The limits are assigned based on corpus of investable surplus and corpus of the investment avenue. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Liquidity Risk :

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as and when required.

The Treasury Risk Management Policy includes an appropriate liquidity risk management framework for the management of the short-term, medium-term and long term funding and cash management requirements. The Company manages the liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and by matching the maturity profiles of financial assets and liabilities. The Company invests its surplus funds in bank fixed deposit, equity and liquid schemes of mutual funds.

Market Risk :

Market risk comprises three types of risk: price risk, interest rate risk and currency risk. The risks may affect income and expenses, or the value of its financial instruments of the Company. The objective of the Management of the Company for market risk is to maintain this risk within acceptable parameters, while optimising returns. The Company exposure to, and the Management of, these risks is explained below:

NOTES TO THE STANDALONE FINANCIAL STATEMENTS For the year ended March 31, 2026

Security Price Risk

Equity price risk is related to the change in market price of the investments in quoted equity securities.

The Company's exposure to securities price risk arises from investments held by the Company and classified in the Balance Sheet at fair value through profit or loss.

To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.

Security Price Sensitivity

The following table demonstrates the sensitivity of the Company's profit before tax to a reasonably possible change in market prices of equity securities, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of investments measured at fair value through profit or loss (FVTPL).

INDEPENDENT AUDITOR'S REPORT

To the Members of

Bhageria Industries Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the Consolidated Financial Statements of Bhageria Industries Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") which comprise the Consolidated Balance Sheet as at March 31, 2026, and the Consolidated Statement of Profit and Loss (including other comprehensive income), Consolidated Statement of Changes in Equity and Consolidated Statement of Cash Flows for the year then ended, and notes to the Consolidated Financial Statements, including material accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on Separate/Consolidated audited financial statements/financial information of such subsidiaries as were audited by the other auditors, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the Consolidated State of Affairs of the Group as at March 31, 2026, of its Consolidated profit and Other Comprehensive Income, Consolidated Changes in Equity and Consolidated Cash Flow for the year then ended

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of reports of the other auditors referred to in paragraph (a) of the "Other Matters" section below, is sufficient and appropriate to provide a basis for our opinion on the Consolidated Financial Statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Directors' Report including Annexures to Directors' Report and Business Responsibility & Sustainability Report, but does not include the Consolidated Financial Statements and our Auditors' report thereon. The other information is expected to be made available to us after the date of this Auditors' report.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Companies Act, 2013 (the Act) that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has an adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the

audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial statements/financial information of such entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements/financial information of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in paragraph (a) of the section titled "Other Matters" in this audit report.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements for the financial year ended March 31, 2026 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely

rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements of 6 subsidiaries and a Foreign Branch whose financial statements/ financial information reflects total assets of Rs 16,304.60/- Lakhs as at 31 March 2026, total revenues 1180.09/- Lakhs and total net loss after tax of ₹(36.90/-) Lakhs for the year ended 31 March 2026 and cash outflows (net) of Rs 156.32/- Lakhs for the year ended 31 March 2026 respectively as considered in the consolidated financial results,. These financial statements/ financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors

One subsidiary was located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Group's management has converted the financial statements/financial information of such subsidiary from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Group's management. Our opinion in so far as it relates to the balances and affairs of such subsidiary located outside India is based on the reports of other auditors and the conversion adjustments prepared by the management of the Group and audited by us.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

1. A As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on Separate/Consolidated Financial Statements/Financial Information of such subsidiaries, which were audited by other auditors, as noted in the "Other Matters" paragraph, we report, to the extent applicable, that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements;
- b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors including for the matters stated in the paragraph 2B(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
- c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statement.

The respective Managements of the Holding Company, its subsidiaries, which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and to the other auditors of such subsidiaries, respectively that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries, to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - b. The respective Managements of the Holding Company, its subsidiaries, which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and

to the other auditors of such subsidiaries, respectively that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Holding Company or any of such subsidiaries, from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- c. Based on the audit procedures that has been considered reasonable and appropriate in the circumstances performed by us and those performed by the auditors of the subsidiaries, which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The final dividend paid during the year by the Holding company, which pertains to previous year is in accordance with Section 123 of the Act, to the extent it applies to payment of dividend.

The Board of Directors of the Holding Company have proposed a final dividend for the current year which is subject to the approval of the Members of the Holding Company at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with Section 123 of the Act, as applicable.
- vi. Based on our examination which included test checks, the subsidiary companies incorporated in India whose financial statements have been audited under the act have used accounting softwares for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective software's.

Further during the course of our audit, for the period where audit trail (edit log) facility was enabled and operated for the respective accounting softwares, we did not come across any instance of the audit trail feature being tampered with.

- C. With respect to the matter to be included in the Auditors' Report under section 197(16) of the act.

In our opinion and according to the information and explanations given to us, the remuneration paid by the company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The remuneration paid to any director by the Holding Company and subsidiary companies incorporated in India is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

2. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/ "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company and its subsidiaries included in the consolidated Financial statements of the Company, to which reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

Annexure Referred to in Independent Auditors' Report on the Consolidated Financial Statements of even date to the members of Bhageria Industries Limited for the year ended March 31, 2026.

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2026, we have audited the internal financial controls over financial reporting of Bhageria Industries Limited ("the Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), entities which are incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary Companies, which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company and its Subsidiary Companies incorporated in India based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, and audit evidence obtained by other auditors in term of their reports is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting

Meaning of Internal Financial Control over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company;(3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its five subsidiary companies incorporated in India and one foreign subsidiary, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

Our aforesaid reports under section 143(3) of the Act on the adequacy and operating effectiveness of the internal financial control with reference to financial statements in so far as it

relates to five subsidiary companies incorporated in India and one foreign subsidiary, is based on the corresponding consolidated reports of the auditors, as applicable, of such five subsidiary companies incorporated in India and one foreign subsidiary.

Our opinion is not modified in respect of this matter

During the year, the Group completed the liquidation of its wholly owned subsidiary, Bhageria Industries Holding Company WLL, incorporated in Bahrain.

The Group is engaged in manufacturing and trading of Dyes & Dyes Intermediate, Chemicals, pharmaceutical, generation and distribution of solar power and Engineering, Procurement & Commissioning/construction (EPC) contractor in Solar. The equity shares of the company are listed on the National Stock Exchange of India Limited and Bombay Stock Exchange Limited.

NOTE 2: SUMMARY OF MATERIAL ACCOUNTING POLICIES
a) Statement of Compliance

The consolidated financial statements of the group have been prepared in accordance with Indian Accounting Standards ("Ind-AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) Rules, 2016 and other relevant provisions of the Act.

b) Basis of consolidation

The Group consolidates entities which it owns or controls. The consolidated financial statements comprise the financial statements of the company and its subsidiary Bhageria Exim Private Limited. Control exists when the parent has power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. The subsidiary company is consolidated from the date control commences until the date control ceases

The financial statements of the Group companies are consolidated on a line-by-line basis and intra-group balances and transactions including unrealized gain/ loss from such transactions are eliminated upon consolidation. These financial statements are prepared by applying

uniform accounting policies in use at the Group. Profit and loss and each component of OCI are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

The excess of cost to the Group of its investments in the Subsidiary Companies over its share of equity of the subsidiary companies, at the dates on which the investments in the subsidiary companies were made, is recognised as 'Goodwill' being an asset in the consolidated financial statements and is tested for impairment on annual basis. On the other hand, where the share of equity in the Subsidiaries as on the date of investment is in excess of cost of investments of the Group, it is recognised as 'Capital Reserve' and shown under the head 'Reserves & Surplus', in the consolidated financial statements.

"Non-Controlling Interest" (NCI) represents the amount of equity attributable to minority shareholders at the date on which investment in the subsidiary is made and its share of movements in the equity since that date. Minority Interest in the net assets of the consolidated subsidiaries consist of the amount of equity attributable to the minority shareholders at the date on which investments in the subsidiary companies were made and further movements in their share in the equity, subsequent to the dates of investments. Net profit/ loss for the year and each component of Other Comprehensive Income of the subsidiaries attributable to minority interest is identified and adjusted against the profit after tax of the Group in order to arrive at the income attributable to shareholders of the Company. Consolidated statement of profit or loss and each component of OCI are attributed to the equity holders of the Parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

c) Basis of Measurement

The consolidated financial statements have been prepared on a historical cost basis except for certain financial assets and financial liabilities (including financial instruments) which have been measured at fair value at the end of each reporting period as explained in the accounting policies stated below. The consolidated financial statements have been prepared on accrual and going concern basis.

d) Current versus non-current classification

The Group has classified all its assets and liabilities under current and non-current as required by Ind AS 1- Presentation of consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

The asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisations in cash and cash equivalents. The Group has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

The Group's functional currency is the Indian Rupee. These consolidated financial statements are presented in Indian Rupees and all values are rounded to the nearest lakhs, except when otherwise stated.

e) Use of Estimates, Judgments and Assumptions

The preparation of the consolidated financial statements in conformity with Ind-AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these consolidated financial statements have been disclosed in Note 3(i) below. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as

management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the consolidated financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the consolidated financial statements.

f) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being received. Revenue towards satisfaction of performance obligation is measure at the amount of transaction prices (net of variable consideration) allocates to the performance obligation. Transaction price of goods sold and services rendered is net of variable consideration on account of various discount and scheme offered by the company as per Ind AS, specially INDA AS 115. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment including excise duty collected which flows to the Group on its own account but excluding taxes or duties collected on behalf of the government.

Revenue from contracts with customers Ind AS 115 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. Under Ind AS 115, an entity recognises revenue when (or as) a performance obligation is satisfied i.e. when control of the goods and service underlying the particular performance obligation is transferred to the customer.

The Group follows specific recognition criteria as described below before the revenue is recognized.

- **Sale of goods**
 - Revenue from sale of goods is recognized when the significant risks and rewards of ownership have been transferred to the buyer, usually on delivery of goods, recovery of the consideration is probable, the associated cost can be estimated reliably, there is no continuing effective control or managerial involvement with the goods, and the amount of revenue can be measured reliably
 - Revenue is measured at the transaction value of the consideration received or receivable. The amount recognized as revenue is exclusive of Goods and Service Tax (GST), Value Added Taxes (VAT), and is net of discounts.
- **Sale of solar power**
 - Sale is recognized when the power is delivered by the Company at the delivery point in conformity with the parameters and technical limits and fulfilment

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

of other conditions specified in the Power Purchase Agreement. Sale of power is accounted for as per tariff specified in the Power Purchase Agreement.

- The sale of power is accounted for net of all local taxes and duties as may be leviable on sale of electricity for all electricity made available and sold to customers.
- **Other Operating Revenue**
 - Other Operating revenue comprises of following Items
 1. Job work income
 2. Duty drawback and other export incentives
 - Revenue from manufacturing charges is recognized on completion of contractual obligation of manufacturing and delivery of product manufactured.
 - Revenue from export incentives are recognized upon adherence to the compliances as may be prescribed with regard to export and / or realization of export proceeds as per foreign trade policy and its related guidelines.
 - Revenue from sale of scrap is recognized on delivery of scrap items.
 - The Company recognises revenue from Operations and Maintenance services using the time-elapsed measure of progress i.e. input method on a straight line basis.
- **Other Income**
 - Other income comprises of interest income, rent income, dividend from investment and profits on redemption of investments.
 - Interest income from financial assets is recognized when it is probable that the economic benefit will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on time basis by reference to the principal outstanding and at the effective rate applicable, which is the rate exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.
 - Dividend income from investment is recognized when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefit will flow to the Group and the amount of income can be measured reliably).
 - Profit on redemption of investment is recognized by upon exercise of power by the Group to redeem the investment held in any particular security / instrument (non-current as well as current investment).

- **Contract assets**

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

- **Contract liabilities**

Contract Liabilities are recognised when there is billing in excess of revenue and advance received from customers.

g) Foreign Currency-Transactions and Balances

Items included in the consolidated Financial Statements of the Group are measured using the currency of the primary economic environment in which the Group operates ('functional currency'). The Group's functional currency is Indian Rupee and accordingly, the consolidated financial statements are presented in Indian Rupee.

Transactions in foreign currencies are initially recorded by the Group in functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting period. Gains and losses arising on account of differences in foreign exchange rates on settlement/ translation of monetary assets and liabilities are recognized in the Statement of Profit and Loss except exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of that item (i.e. translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

h) Employee Benefits

- **Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

which the employees render the related service are recognised in respect of employee's services up to the end of the reporting period and are measured at the undiscounted amounts of the benefits expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

- Other Long-term employee benefit obligations

The liabilities for compensated absences (annual leave) which are not expected to be settled wholly within 12 months after the end of the period in which the employee render the related service are presented as non-current employee benefits obligations. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the Projected Unit Credit method. The benefits are discounted using the market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligations. Re-measurements as a result of experience adjustments and changes in actuarial assumptions (i.e. actuarial losses/ gains) are recognised in the Statement of Profit and Loss.

The obligations are presented as current in the balance sheet, if the Group does not have an unconditional right to defer settlement for at least twelve months after the reporting period, Regardless of when the actual settlement is expected to occur.

- Post-employment obligations

The Company operates the following post-employment schemes:

- I. Defined benefit plans such as gratuity
- II. Defined contribution plans such as provident fund.

- I. **Defined benefit plan - Gratuity Obligations**

The Group provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment.

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit

obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is actuarially determined using the Projected Unit Credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have a terms approximating to the terms of the obligation. The net interest cost, calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of the plan assets, is recognised as employee benefit expenses in the statement of profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the other comprehensive income in the year in which they arise and are not subsequently reclassified to Statement of Profit and Loss.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

- II. **Defined Contribution Plan**

The Group pays provident fund contributions to publicly administered provident funds as per local regulatory authorities. The Group has no further obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due.

- i) **Tax Expenses**

The tax expense for the period comprises current and deferred tax. Taxes are recognised in the statement of profit and loss, except to the extent that it relates to the items recognised in the comprehensive income or in Equity. In which case, the tax is also recognised in the comprehensive income or in Equity.

- Current tax:

Current tax payable is calculated based on taxable profit for the year. Current tax is recognized based on the amount expected to be paid to or recovered from the tax authorities based on applicable tax laws that have been enacted or substantively enacted by the balance sheet date. Management periodically

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

evaluates positions taken in the tax return with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

- Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary timing difference. Deferred tax assets are recognized for deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and adjusted to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted on the reporting date. Current and deferred tax for the year are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

- j) **Property, Plant and Equipment**

Land is carried at historical cost. All other items of property, plant and equipment are stated at cost, net of recoverable taxes, trade discount and rebates less accumulated depreciation and impairment losses, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repairs and maintenance costs are recognized as expense in the statement of profit and loss account as and when incurred.

Expenses incurred relating to project, net of income earned during the project development stage prior to its intended use, are considered as pre - operative expenses and disclosed under Capital Work- in- Progress.

Cost of the assets less its residual value (estimated at 5% of the cost) is depreciated over its useful life. Depreciation is calculated on written down basis over the useful life of the assets as prescribed in Schedule II to the Companies Act, 2013.

Depreciation on additions/ deletions to fixed assets is calculated pro-rata from/ up to the date of such additions/ deletions.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between sale proceeds and the carrying amount of the asset and is recognised in profit and loss account.

The management believes that the estimated useful lives are realistic and reflects fair approximation of the period over which the assets are likely to be used. At each financial year end, management reviews the residual values, useful lives and method of depreciation of property, plant and equipment and values of the same are adjusted prospectively where needed.

- k) **Investment Properties**

Investment properties are properties that is held for long-term rentals yields or for capital appreciation (including property under construction for such purposes) or both, and that is not occupied by the Group, is classified as investment property.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated impairment loss, if any.

Though the Group measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

Fair values are determined based on an annual evaluation performed by an accredited external independent valuer.

Investment properties are de-recognized either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit and loss in the period of de-recognition.

l) Borrowing Costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in Statement of Profit and Loss in the period in which they are incurred.

m) Impairment of Non-Financial Assets

The Group assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognized in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

n) Inventories

Inventories are valued at lower of cost (on First-In-First-Out) or net realizable value after providing for obsolescence and other losses, where considered necessary. Cost of inventories comprises all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost of purchased inventory is determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

o) Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when the company has present obligation (legal or constructive) as a result of past event and it is probable that outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense related to a provision is presented in the statement of profit and loss net of any reimbursement/contribution towards provision made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates

Contingent Liability:

Contingent liability is disclosed in the case;

- When there is a possible obligation which could arise from past event and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or;
- A present obligation that arises from past events but is not recognized as expense because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or;
- The amount of the obligation cannot be measured with sufficient reliability.

Contingent asset:

Contingent asset is disclosed in case a possible asset arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

p) Leases

As lessee

Initial measurement

Lease Liability: At the commencement date, a Group measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using incremental borrowing rate.

Right-of-use assets: initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

Subsequent measurement

Lease Liability: Company measure the lease liability by

- increasing the carrying amount to reflect interest on the lease liability;
- reducing the carrying amount to reflect the lease payments made; and
- remeasuring the carrying amount to reflect any reassessment or lease modifications.

Right-of-use assets: subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight line basis over the shorter of the lease term and useful life of the under lying asset.

Impairment: Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

Short term Lease

Short term lease is that, at the commencement date, has a lease term of 12 months or less. A lease that contains a purchase option is not a short-term lease. If the Group elected to apply short term lease, the lessee shall recognise the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis. The lessee shall apply another systematic basis if that basis is more representative of the pattern of the lessee's benefit.

As a lessor

Leases for which the Group is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. Lease income is recognised in the statement of profit and loss on straight line basis over the lease term.

q) Financial Instruments

The Group recognizes financial assets and financial liabilities when it becomes party to the contractual provision of the instrument.

Part I - Financial Assets
• Initial recognition and measurement

Financial assets are initially measured at its fair value excepts for trade receivable which are initially recognised at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value of the concerned Financial assets, as appropriate, on initial recognition.

Transaction costs directly attributable to acquisition of financial assets at fair value through profit or loss are recognized immediately in profit or loss. However, trade receivable that do not contain a significant financing component are measured at transaction price.

• Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in Three categories:

- Financial Assets at amortized cost
- Financial Assets at FVTOCI (Fair Value through Other Comprehensive Income)
- Financial Assets at FVTPL (Fair Value through Profit or Loss)
- **Financial Assets at amortized cost:**

A Financial Assets is measured at the amortized cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Group. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

- **Financial Assets at FVTOCI (Fair Value through Other Comprehensive Income):**

A Financial Assets is classified as at the FVTOCI if following criteria are met:

The objective of the business model is achieved both by collecting contractual cash flows (i.e. SPPI) and selling the financial assets.

Financial instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Group recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the statement of profit and loss. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to the statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

- **Financial Assets at FVTPL (Fair Value through Profit or Loss):**

FVTPL is a residual category for financial instruments. Any financial instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a financial instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch')

Financial instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

All other equity investments are measured at fair value, with value changes recognised in Statement of Profit and Loss.

- **De-recognition:**

A financial asset is primarily derecognized when rights to receive cash flows from the asset have expired or the Group has transferred its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risk and reward of the ownership of the financial asset.

- **Impairment of financial assets:**

In accordance with Ind AS 109, the Group uses 'Expected Credit Loss'(ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months from the reporting date.

For trade receivables, Group applies 'simplified approach', which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Group uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date, these historical default rates are reviewed and changes in the forward-looking estimates are analyzed.

For other assets, the Group uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/expense in the Statement of Profit and Loss under the head 'Other expenses'.

Part II - Financial Liabilities

- **Initial recognition and measurement**

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

- **Subsequent measurement**

The measurement of financial liabilities depends on their classification, as described below:

- **Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss is designated as such at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ loss are not subsequently transferred to statement of profit and loss. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Group has not designated any financial liability as at fair value through profit and loss.

- **Loans and borrowings**

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are de-recognised as well as through the EIR amortization process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

- **Financial guarantee contracts**

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it

incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognised less cumulative amortisation.

- **De-recognition:**

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

- **Offsetting of financial instruments:**

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Part-III Fair Value Measurement:

The Group measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or;
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

Level 1 - quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 - inputs that are unobservable for the asset or liability

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

r) Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less from the date of acquisition, which are subject to an insignificant risk of changes in value.

s) Business Combination

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the fair values of the assets transferred;

- Liabilities incurred to the former owners of the acquired business;
- Equity interest issued by the group; and
- Fair value of any asset or liability resulting from a contingent consideration arrangement.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The group recognizes any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interests' proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred. The excess of the

- Consideration transferred;
- Amount of any non-controlling interest in the acquired entity; and
- Acquisition-date fair value of any previous equity interest in the acquired entity

Over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase gain is recognised directly in equity as capital reserve.

Business Combination involving entities or business under common control shall be accounted for using the pooling of interest method.

t) Cash Flow Statements:

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flow from operating, investing and financing activities of Group is segregated.

u) Derivative Financial Instruments and Hedge Accounting Initial recognition and subsequent measurement:

Group uses derivative financial instruments such as forward currency contracts to mitigate its foreign currency fluctuation risks. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting date. Gain or loss arising from changes in the fair value of heading instrument is recognized in the Statement of Profit or Loss.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

v) Earnings Per Share

Basic earnings/ (loss) per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events, other than conversion of potential equity shares, that have changed the number of equity shares outstanding without a corresponding change in resources.

In case of a bonus issue, the number of ordinary shares outstanding is increased by number of shares issued as bonus shares in current year and comparative period presented as if the event had occurred at the beginning of the earliest year presented.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

For the purpose of calculating diluted earnings/ (loss) per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

w) Insurance Claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

x) Segment Reporting

The Group identifies operating segments based on the internal reporting provided to the chief operating decision-maker.

The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Group. Segment revenue, segment expenses have been identified to segments on the basis of their relationship to the operating activities of the segment.

Note 3 : Key Accounting Judgements, Estimates & Assumptions

The preparation of the Group consolidated financial statements requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

A. Income taxes and Deferred tax assets:

The Group's tax jurisdiction is India. Significant judgments are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/ recovered for uncertain tax positions. Deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be

utilized. The management assumes that taxable profit will be available while recognizing the deferred tax assets.

B. Property, Plant and Equipment:

Property, Plant and Equipment represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life as prescribed in the Schedule II of the Companies Act, 2013 and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

C. Impairment of non-financial assets:

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or a group of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used

D. Impairment of financial assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

E. Recognition and measurement of defined benefit obligation:

The obligation arising from the defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life expectancy. The discount rate is determined with reference to market yields at the end of the reporting period on the government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations.

F. Recognition and measurement of other provisions:

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may, therefore, vary from the figure included in other provisions.

G. Contingencies:

Management judgement is required for estimating the possible outflow of resources, if any, in respect of

contingencies/claim/ litigations against the Group as it is not possible to predict the outcome of pending matters with accuracy.

H. Allowances for uncollected trade receivable and advances:

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated amounts which are irrecoverable. Individual trade receivables are written off when management deems them not collectible. Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets. The impairment provisions for financial assets are based on assumption about risk of default and expected loss rates. Judgement in making these assumptions and selecting the inputs to the impairment calculation are based on past history, existing market condition as well as forward looking estimates at the end of each reporting period.

d) Description of valuation techniques used and key inputs to valuation on investment properties.

The Group obtains independent valuations for its investment properties at reasonable interval. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the Group considers information from a variety of sources including:

- Current prices in an active market for investment properties of different nature or recent prices of similar investment properties in less active markets, adjusted to reflect those differences.
- Discounted cash flow projections based on reliable estimates of future cash flows.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

- Capitalised income projections based upon an estimated net market income from investment properties and a capitalisation rate derived from an analysis of market evidence.

The fair values of investment properties have been determined by reputed third party and independent valuers. The main inputs used are the rental growth rates, expected vacancy rates, terminal yields and discount rates based on comparable transactions and industry data. All resulting fair value estimates for investment properties are included in level 3.

e) Investment Property pledged/ mortgaged as security :

Refer Note 25 for information on Investment Property hypothecated / mortgaged as security by the Company.

- The Group does not have any contractual obligations to purchase, construct or develop, for maintenance or enhancements of investment property.

The Group has disclosed financial instruments such as cash and cash equivalents, other bank balances, trade receivables, loans, other financial assets, borrowings, trade payables and other financial liabilities at carrying value because their carrying amounts are a reasonable approximation of the fair values due to their short term nature.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

Level 1: Hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example over-the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data (unobservable inputs).

Valuation technique used to determine fair value:

The Group evaluates the fair value of financial assets and financial liabilities on periodic basis using the best and most relevant data available.

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of forward foreign exchange contracts is determined using forward exchange rates at the Balance Sheet date
- The fair value of investments in Mutual Fund Units is based on Net Asset Value ("NAV") as stated by the issuers of these mutual fund units in the published statements as at the Balance Sheet Date. NAV represents the price at which the issuer will issue further units of Mutual Fund and the price at which issuers will redeem such units from investors.

Note 44 : Financial Risk Management Objectives and Policies

The Group's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables, and financial guarantee contracts. The main purpose of these financial liabilities is to finance the Group's operations and to provide guarantees to support its operations directly or indirectly. The Group's principal financial assets include investments, loans, trade and other receivables, cash and cash equivalents that derive directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The below note explains the sources of risk which the entity is exposed to and how the entity manages the risk :

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and cash equivalents, trade receivables, derivative financial instruments, financial assets measured at amortised cost.	Ageing analysis and Credit ratings	Diversification of bank deposits and credit limits Unutilised from Consortium Bankers.
Liquidity Risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market Risk - Interest rate	Borrowings at variable rates		Not used any Interest rate derivatives.
Market Risk - Price risk	Equity Instruments	Sensitivity analysis	Group maintains its portfolio in accordance with the framework set by the Risk Management policies.
Market Risk - Foreign exchange risk	Export, Import and Borrowings		Forward contracts and Currency options

Credit Risk :

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

Trade receivables

Customer credit risk is managed by the Group's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed by the management on regular basis with market information and individual credit limits are defined accordingly. Outstanding customer receivables are regularly monitored and any further services to major customers are approved by the senior management.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

The Group measures the expected credit loss of trade receivables from customers based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, as per management perceptions, the provision for loss on collection is made on trade receivables based on Expected Credit Loss Model (ECL) as below:

No. of Days for which amount is due	<= 60 days	61 to 120 days	121 to 180 days	181 to 365 days	1-3 Years	More than 3 years
% of Provision	0.00%	0.25%	0.50%	0.75%	1.00%	100.00%

Reconciliation of provision for ECL :

(₹ in Lakhs)

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Opening Balance	13.16	-
Recognition of loss allowance measured as per ECL	(0.27)	13.16
Closing Balance	12.90	13.16

Financial instruments and cash deposits

Credit risk from balances/investments with banks and financial institutions is managed in accordance with the Group's treasury risk management policy. Investments of surplus funds are made only with approved counterparties and within limits assigned to each counterparty. The limits are assigned based on corpus of investable surplus and corpus of the investment avenue. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Liquidity Risk :

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as and when required.

The Treasury Risk Management Policy includes an appropriate liquidity risk management framework for the management of the short-term, medium-term and long term funding and cash management requirements. The Group manages the liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and by matching the maturity profiles of financial assets and liabilities. The Group invests its surplus funds in bank fixed deposit, equity and liquid schemes of mutual funds.

Market Risk :

Market risk comprises three types of risk: price risk, interest rate risk and currency risk. The risks may affect income and expenses, or the value of its financial instruments of the Group. The objective of the Management of the Group for market risk is to maintain this risk within acceptable parameters, while optimising returns. The Group exposure to, and the Management of, these risks is explained below:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended March 31, 2026

Security Price Risk

Equity price risk is related to the change in market price of the investments in quoted equity securities.

The Group's exposure to securities price risk arises from investments held by the Group and classified in the Balance Sheet at fair value through profit or loss.

To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.

Security Price Sensitivity

The following table demonstrates the sensitivity of the Group's profit before tax to a reasonably possible change in market prices of equity securities, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of investments measured at fair value through profit or loss (FVTPL).

Foreign Exchange Risk

Foreign exchange risk arises on future commercial transactions and on all recognised monetary assets and liabilities, which are denominated in a currency other than the functional currency of the Group. The Group's management has set policy wherein exposure is identified, benchmark is set and monitored closely, and accordingly suitable hedges are undertaken. Policy also includes mandatory initial hedging requirements for exposure above a threshold.

The Group's foreign currency exposure arises mainly from foreign exchange imports, exports and foreign currency borrowings, primarily with respect to USD & EURO.

As at the end of the reporting period, the carrying amounts of the Group's foreign currency denominated monetary assets and liabilities in respect of the primary foreign currency i.e. USD and derivative to hedge the exposure, are as follows:

The Group has a branch in Bahrain. As on March 31, 2026, the branch's net assets amount to BHD 1,30,810 (P.Y. BHD 5,28,440). Resulting exchange differences are recognized in Other Comprehensive Income and accumulated in the Foreign Currency Translation Reserve.

Sensitivity to Exchange Rate Movements: A 5% change in the INR/BHD rate would affect equity by approximately ± ₹ 16.49 lakhs (P.Y. ₹ 58.60 lakhs). This impact is recognized in OCI with no effect on profit or loss.

Note 45 : Capital Management

For the purpose of the Group's capital management, capital includes issued equity share capital, securities premium and all other reserves attributable to the equity holders of the Group. The primary objective of the Group's capital management is to maximise the value of the share and to reduce the cost of capital.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Group monitors capital using a gearing ratio, which is net debt divided by total equity. The Group consider net debt, interest bearing loans and borrowings, less cash and cash equivalents and Equity comprises all components including other comprehensive income.

10	Return on Capital Employed (%)	Earning before Interest and Taxes	Capital Employed (Average Total Equity + Total Debt)	12.82%	12.78%	0.30%	Not Applicable
11	Return on Investment (%)	EBIT	Average Total Assets	8.21%	8.09%	1.44%	Not Applicable

Refer Note - The changes in the above ratios during the year are primarily attributable to improved operational performance, increase in revenue from operations and more efficient management of working capital. The improvement in inventory turnover, trade receivables turnover and trade payables turnover ratios reflects enhanced operating efficiency and better utilization of resources. The increase in net capital turnover ratio is mainly on account of higher revenue generated relative to the working capital employed during the year. The increase in the debt-equity ratio is due to additional borrowings availed during the year; however, the overall capital structure of the Company continues to remain adequately leveraged and financially stable.

Note 56 : Liquidation of Wholly Owned Subsidiary

During the year ended March 31, 2026, the Group completed the voluntary liquidation of its wholly owned subsidiary, Bhageria Industries Holding Company WLL, incorporated in Bahrain. Upon completion of the liquidation process, the Group ceased to control the subsidiary and accordingly the subsidiary was deconsolidated from the consolidated financial statements from the date of liquidation. In accordance with Ind AS 21, "The Effects of Changes in Foreign Exchange Rates", the cumulative foreign currency translation reserve attributable to the foreign operation has been reclassified from Other Equity to the Statement of Profit and Loss upon liquidation. The impact of the liquidation and consequential deconsolidation of the subsidiary on the consolidated financial statements is not material.
