ABOUT

Arisinfra is a technology-enabled B2B platform focused on streamlining the procurement of construction materials across India. Operating through an asset-light, aggregator-led model with no inventory risk and minimal fixed assets, the Company seamlessly integrates sourcing, quality assurance, logistics, and documentation into a unified digital supply-chain ecosystem.

Founded in 2021, Arisinfra was established with the vision of creating a digital orchestration layer for India's construction sector. Its diversified offerings span aggregates, ready-mix concrete (RMC), steel, cement, construction chemicals, asphalt, walling solutions, and other value-added services.

The Company enables real estate developers, infrastructure contractors, manufacturers, and industrial customers to execute construction projects with greater efficiency, transparency, and control. Its business is driven by three complementary revenue streams—B2B Supply, Contract Manufacturing, and Developer-as-a-Service—supported by a proprietary AI-powered platform that strengthens network effects and enhances operational efficiency with every transaction.

FY26 marked a significant milestone in the Company's growth journey. Revenue surpassed ₹10 billion, growing 39% year-on-year, while profit after tax increased more than ten-fold to ₹603 million. The Company also strengthened its balance sheet considerably, transitioning from a net debt position a year earlier to a net cash positive position by the end of FY26.
