LatentView Reports Q2FY27 Results with 14.2% YoY Revenue Growth and Adjusted EBITDA Margin at 20.7%

Chennai, India – October 31, 2026: Latent View Analytics Limited (BSE: 543398, NSE: LATENTVIEW), an AI-driven analytics, data engineering, and consulting firm, today announced its financial results for the second quarter ended September 30, 2026.

Sonal Ramrakhiani, Chief Executive Officer, LatentView, said,

"We are pleased to be back on the growth trajectory this quarter, with revenue increasing 2% sequentially in dollar terms. Growth was broad-based, led by our Automotive business, alongside steady gains in Financial Services and CPG & Retail. AI continues to scale across our business, driving efficiency and productivity as we leverage top-tier tech and ecosystem partnerships to accelerate client adoption of our AI solutions.

While we anticipate some short-term impact from macroeconomic sentiment and headwinds in the technology sector, we are confident in our medium-to-long-term growth prospects. In line with this, we are investing in our sales and go-to-market channels by expanding our geographical presence and also augmenting senior leadership to advance our technology and AI offerings."

Rajan Venkatesan, Chief Financial Officer, LatentView, said,

"We are back to positive momentum in Q2FY27, reporting a quarterly revenue of ₹2,941 million, witnessing sequential growth of 2.5% in rupee terms. Industrials led the growth, expanding 21.4%, while Financial Services, our primary growth engine over the past year, increased by 3.5%. Our CPG and Retail practice also rebounded, growing 2.7%. On an adjusted basis, EBITDA margin remained steady at 20.7% despite organization-wide performance increments in July. We remain committed to drive operational efficiencies and disciplined capital allocation to ensure sustained profitability."

Key Financial Highlights

Particulars ₹ Million	Q2FY27	Q1FY27	QoQ Growth	YoY Growth	FY26
