The successful ramp-up of our Guwahati facility and the additional soap production line at Roorkee have expanded our aggregate installed FMCG and FMCG Intermediates capacity to 20,840 tonnes per month. Our earlier aspiration was to reach approximately ₹1,000 crore in revenue by FY28. With ₹541.50 crore of revenue already achieved in H1 FY27, more than half of that figure in just six months, we are well ahead of the pace we had envisaged and are on track to reach this milestone much sooner than planned. With a diversified portfolio, an expanding customer base and an increasing contribution from FMCG businesses, we remain focused on sustaining profitable growth and creating long-term value for all stakeholders."
