Management Commentary

Paresh Dattani

Chairman & Managing Director

Sanathan Textiles delivered a strong operational and financial performance in Q4 FY26, supported by improved efficiencies, ramp-up of the Punjab manufacturing facility, and sustained utilization at the Silvassa plant. Consolidated revenue for Q4 FY26 grew 59.7% year-on-year to ₹1,169.2 crore, while EBITDA increased 38.1% to ₹94.4 crore, with EBITDA margins improving sequentially by 280 basis points to 8.1%.

For FY26, consolidated revenue increased 27.1% to ₹3,811.2 crore, driven primarily by the Punjab facility ramp-up, while consolidated EBITDA rose 7.9% to ₹284.4 crore. Standalone PAT grew 10% to ₹191.9 crore, although consolidated PAT remained lower due to higher depreciation and finance costs associated with the newly capitalized Punjab facility.

The year was marked by global trade recalibration, tariff uncertainties, India - UK and India - EU FTAs, domestic tax changes, and geopolitical tensions in West Asia. Despite these challenges, the Company delivered resilient performance through disciplined execution, customer engagement, and operational optimization.

The Punjab facility witnessed strong customer acceptance and onboarding of new clients, validating the project's strategic vision and execution. Going forward, the Company remains focused on technical textile expansion at Silvassa, Phase II expansion at Punjab, cotton yarn expansion in Madhya Pradesh, and long-term value creation through integrated operations and manufacturing scale-up.

Operational Updates and Strategic Roadmap

Punjab Integrated Polyester Facility — Phase I Ramp-Up Complete

The company commissioned its integrated polyester yarn facility at Punjab in August 2025 and with the facility fully scaling up in March 2026, reflecting strong execution and demand absorption. With Phase I fully operationalized, focus now shifts to further improving operational efficiency and then towards commissioning Phase II, which will take the total polymerization capacity to 950 TPD reinforcing Sanathan Textiles' position as a leader in the North Indian Textile ecosystem.

Raw Material Volatility

Recent geopolitical developments in the Middle East led to volatility across the global petrochemical value chain, including PTA and MEG, resulting in elevated raw material and supply chain costs. Despite these challenges, the Company maintained stable raw material availability through disciplined procurement planning, timely import sourcing at Silvassa, and strong supplier relationships at the Punjab facility. Cotton yarn prices rose sharply, led by higher raw cotton prices and global capacity disruptions, however, demand has been resilient. Raw cotton prices in the upcoming season remain a key monitorable, given global disruptions and climate risks. We continue to manage exposure through calibrated procurement and inventory management

Upcoming Projects

Technical Textiles Expansion at Silvassa: Expansion progressing as planned, with installed capacity expected to increase from 9,000 MTPA to 18,000 MTPA, strengthening the Company's presence in higher-value technical textile applications and enabling deeper integration across the value chain.
Cotton Project at Punjab: Planned greenfield cotton spinning project aimed at strengthening the Company's integrated yarn platform, leveraging Madhya Pradesh's favorable cotton textile ecosystem alongside Sanathan Textiles' operational and execution capabilities across diversified yarn segments.

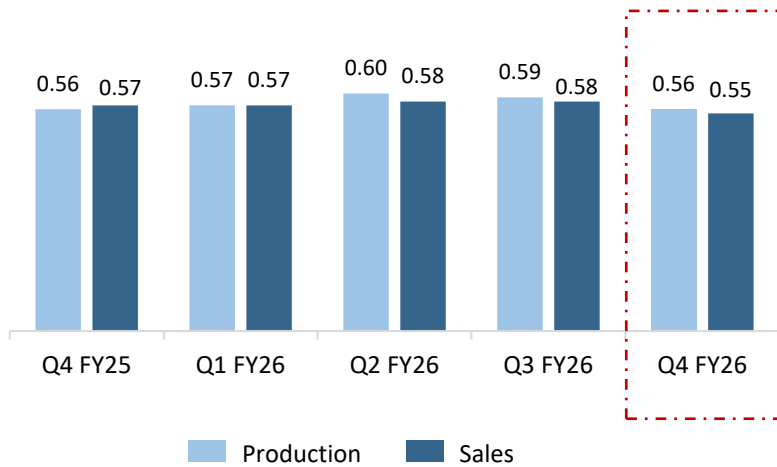

Renewable Energy Push

Signed a long-term arrangement with Serentica Renewables India Private Limited (SRIPL) — a leading RE platform backed by Vedanta & KKR, with 1GW+ operating capacity and 6.8GW of ISTS connectivity — to procure ~70% of annual energy at Punjab as captive power, via dedicated wind & solar plants. The underlying facilities are expected to be commissioned in a phased manner over FY27–FY28. Further, ₹ 48 Cr to be infused as equity, in a phased manner. The landed cost of power under the arrangement is expected to be materially lower than grid power, reducing both operating costs and the carbon footprint of the facility.

Q4 FY26 Financial Performance (Standalone)

Production & Sales (Lakh MTPA)

Revenue (₹ Cr)

Revenue from operations for Q4 FY26 stood at ₹753 crore, reflecting a growth of 3% year-on-year compared to Q4 FY25, driven by higher selling prices

EBITDA (₹ Cr)

PAT (₹ Cr)

EBITDA for the quarter stood at ₹82 crore compared to ₹53 crore in Q3 FY26, driven by an improvement in spreads across business verticals. Further, Q3 FY26 was impacted by multiple transient events

PAT for Q4 FY26 stood at ₹56 crore as against ₹38 crore in Q3 FY26, primarily supported by the improvement in EBITDA

Q4 FY26 Financial Performance (Consolidated)

Production & Sales (Lakh MTPA)

Revenue (₹ Cr)

EBITDA (₹ Cr)

PAT (₹ Cr)

Significant growth in consolidated quantity sold from 0.57 lakh MT in Q4 FY25 to 0.90 lakh MT in Q4 FY26 and revenue to ₹ 1,169 Cr from ₹ 1,079 Cr in Q3 FY26, reflects the scale-up in production at the Punjab facility

Consolidated EBITDA for the quarter stood at ₹94 crore as against ₹57 crore in Q3 FY26, supported by an improvement in spreads, and higher operating leverage during the quarter.

Following the commencement and capitalization of the Punjab facility, the related interest and depreciation expenses are now being charged to the Profit & Loss Account.

Diversified product portfolio enables to scale new markets and offer more to current customers

One Yarn, Many Things

Cationic Dyeable

Specialised polyester yarn that absorbs deeper colour, at the molecular level using cationic dyes

Born Dyed

Eliminate the need for dyeing at the processing stage

Stretch

Offers four-way stretchability and dimensional stability without using spandex

Specialty Yarn

Moisture-wicking polyester yarn. Offered in range of colors using dope-dyed technology

Cotton Yarn

Puro Cotton Yarns range is used for apparel, suiting, shirting, bedsheets, innerwear, and more
