- **Jewellery** – Portfolio (*all brands*) clocked c.21% YoY growth for the quarter. Consumer demand was healthy for most of the quarterly period, with some softening towards the close owing to shift in the festive calendar to Q3FY27. The investment-led coins demand tapered (*off a high base*), resulting in high single-digit decline YoY. Buyer growth (*at a portfolio level*) came in mid-single digits with average ticket sizes seeing double-digit growth in this period.
- **Watches** – Business recorded a robust c.30% YoY growth for the quarter. Continuing to ride on strong premiumization trends, Analog watches clocked healthy growth in the early thirties. Smart Watches business saw a recovery with encouraging high single digit growth for the quarter.
- **EyeCare** – Division delivered a strong performance with growth of c.28% YoY, driven by focused execution across key strategic priorities. The multi-brand approach, continuous upgradation of the (*existing*) store network and a sharper merchandise portfolio is meaningfully enhancing the overall customer experience, yielding encouraging results for the business.
- **Emerging Businesses** – In the portfolio, Fragrances clocked mid-thirties growth YoY, Women's Bags grew (YoY) in the twenties, and Taneira's growth was in high single digits YoY.
