GSPC GROUP SCHEME OF ARRANGEMENT FULLY IMPLEMENTED WITH LISTING AND TRADING OF GSPL TRANSMISSION

Gandhinagar,
30th September 2026

As a significant final step towards full implementation of mega merger – demerger Scheme of Arrangement involving GSPC Group of Companies, the equity shares of GSPL Transmission Limited (“GTL”) commenced trading on the BSE and NSE on 30th September following all necessary approvals granted by SEBI and the Stock Exchanges.

GSPL Transmission Limited is a Resulting Company from the GSPC Group Scheme of Arrangement into which the Gas Transmission Business of erstwhile Gujarat State Petronet Limited (“GSPL”) was demerged.

GTL’s transmission network is strategically located within the State of Gujarat covering 26 districts, providing direct connectivity to major natural gas supply sources as well as key demand centres across the State. The Company’s network is connected to all significant natural gas supply points in Gujarat, including designated collection points near the natural gas fields of various gas field operators.

GTL’s equity shares debuted on the BSE and NSE on 30th September, 2026. Commenting on this occasion, Shri M K Das, IAS, Chief Secretary to Government of Gujarat and Chairman, GTL stated *“Today GTL is the Second Largest Gas Transmission Company in India with its 2900 KMs of Gujarat Natural Gas Pipeline Network, on Open Access Basis. GTL continues to look for more growth opportunities. We are sure that the investors community will continue to repose its faith in the Company’s strong business model.”*

GTL owns and operates about 2900 KMs of Natural Gas Transmission Pipelines in Gujarat most of which are high pressure pipelines. GTL has firm plans to expand its Gujarat Network by laying additional 711 KMs of pipelines which includes Anjar – Palanpur Pipelines of about 284 KMs for which the Company has already awarded EPC Contract at an estimated Cost of approx. Rs. 1800 Crores. Further, the Company is also implementing Jamnagar Dwarka Pipeline project in Dwarka district which will further connect to major gas source in Kutch basin which will boost gas transportation business of GTL. Other pipelines under implementation include Dahej-Bhadbhut Pipeline, Vantewad Rajpipla Pipeline and Bhayla connectivity which will further augment GTL’s gas transmission network and improve Transportation Tariff.
