The Scheme was filed with the Stock Exchanges to obtain their In principle approval. The Company received information requirement letters from Stock Exchanges which were replied to. Later on, the exchange returned the application citing the reason that the application of Almondz Global Securities Limited cannot be considered by the Exchange as one of a promoter Mr. Navjeet Singh Sobti is not complying with the fit and proper criteria as mentioned in the prevailing Securities and Exchange Board of India (Intermediaries) Regulations, 2008.

8. Internal Financial controls

The Company has instituted a integrated internal control framework suited to its scale of operations and the nature of its business. These controls are structured to provide assurance on the reliability of financial and operational data, ensure compliance with legal and regulatory requirements, safeguard Company assets, and support consistent adherence to internal policies and procedures.

The Internal Audit function is staffed with experienced professionals who possess the requisite qualifications to evaluate business processes and risks effectively. The audit team carries out independent and objective assessments, the findings of which are reported to the Audit Committee in a timely manner.

These reports are carefully examined by the Audit Committee, which provides oversight on key issues raised and tracks the progress of remedial measures. The Committee also conducts regular performance reviews of the Internal Audit function to ensure that it remains efficient, relevant, and aligned with the evolving goals and risk environment of the Company.

During the financial year, the Audit Committee held periodic meetings to assess the internal audit outcomes, deliberate on critical observations, and review the status of corrective actions initiated. This rigorous monitoring process ensures that any internal control deficiencies are addressed proactively. The Board of Directors, along with the Audit Committee, maintains active supervision over the Company's internal controls, audit observations, and compliance landscape.

Additionally, the Audit Committee plays a vital role in overseeing the Company's quarterly and annual financial disclosures, reviewing them thoroughly before recommending approval to the Board. This review mechanism upholds the transparency and credibility of the financial reporting process.

The Company's Statutory Auditors, M/s. Mohan Gupta & Co., Chartered Accountants, conducted an audit of the financial statements for the year under review. As part of their audit, they also evaluated the Company's internal financial control systems over financial reporting in accordance with Section 143 of the Companies Act, 2013. Their report confirms that the internal control systems are satisfactory and effective, affirming the Company's continued commitment to strong governance and financial discipline.

9. Deposits

During the year, your Company has not accepted or renewed any public deposits within the meaning of Section 73 of the Companies Act, 2013, read in conjunction with the Companies (Acceptance of Deposits) Rules, 2014. This decision underscores our commitment to adhering to regulatory standards and maintaining the highest levels of financial integrity and transparency. By avoiding reliance on public deposits, we ensure a robust and stable financial foundation, aligning with our long-term strategic goals and safeguarding the interests of our stakeholders.

10. Share capital

As of March 31, 2026, the Company's issued, subscribed and paid-up share capital stood at Rs.17,36,46,754 comprising 17,36,46,754 equity shares with a nominal value of Rs. 1 each. During the reporting period, the paid-up share capital increased from Rs. 17,22,84,768 to Rs. 17,36,46,754. This increase was attributed to the issuance of 13,61,986 (Thirteen lakh Sixty-

one thousand nine hundred Eighty Six) additional equity shares to employees, as part of the Employee Stock Option Scheme-2007.

11. Details of Remuneration of Directors, Key Managerial Personnel, and Employees

Pursuant to the provisions of Section 197(12) of the Companies Act, 2013, read in conjunction with Rule 5 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, the requisite disclosures pertaining to the remuneration of Directors, Key Managerial Personnel (KMP), and employees have been furnished in 'Annexure I' to this Report. This annexure contains a detailed summary of the prescribed information, in compliance with the applicable statutory requirements.

12. Employees Stock option Plan

Under the Employee Stock Option Scheme of the Company, share options are granted to senior executives as part of their long-term incentive plan. These options typically vest over a period ranging from one to three years, post which the grantee has the right to apply for one equity share of the Company per option at a predetermined exercise price.

During the year under review, the exercise period for all options under the various series was extended and has now been uniformly set at 10 years from the date of vesting, providing greater flexibility and consistency across the scheme. The options granted are measured at their fair value on the date of grant, using the Black-Scholes valuation model. It is important to note that the scheme does not offer any cash settlement alternative.

The Almondz Global Securities Employees Stock Option Scheme 2007 ("ESOS" or "the Scheme"), as approved by the shareholders of the Company, permits the Company to grant options up to an aggregate of 9,00,00,000 shares or 50% of the paid-up share capital, whichever is lower, after taking into account the stock split in the ratio of 1:6, effective from July 23, 2024.

The Scheme is governed and administered by the Compensation Committee, The Committee is responsible for reviewing eligibility, granting options, and monitoring compliance with the terms of the Scheme.

A summary of activity under the Scheme for the financial years ended April 01, 2025, and March 31, 2026, is provided in Annexure II of this Report.

Importantly, no employee in a managerial role was granted stock options exceeding 5% of the total options granted during the financial year ended March 31, 2026. Furthermore, any grant that equaled or exceeded 1% of the issued capital (excluding outstanding warrants and conversions) was duly approved by the shareholders through special resolutions.

The ESOP underscores the Company's commitment to recognizing and rewarding employee performance, aligning their interests with the long-term success of the organization, and promoting a strong sense of ownership, loyalty, and accountability among its people.

13. Listing

The shares of your Company are listed at BSE Limited and National Stock Exchange of India Limited, Mumbai. The listing fees to the Stock Exchanges for the financial year 2026-27 have been paid.

14. Extract of Annual Return

In accordance with the amended provisions of Section 134(3)(a) and Section 92(3) of the Companies Act, 2013, read with Rule 12 of the Companies (Management and Administration) Rules, 2014, the Annual Return (Form MGT-7) for the financial year ended March 31, 2026, has been uploaded on the Company's official website. It is accessible at: www.almondzglobal.com.

15. Conservation of Energy & Technology absorption and Foreign exchange earnings and outgo

A. As the Company does not engage in any manufacturing activities, the disclosure requirements pertaining to the conservation of energy and technology absorption under Section 134(3)(m) of the Companies Act, 2013, read with the Companies (Accounts) Rules, 2014, are not applicable. However, the Company remains committed to optimizing energy management and implementing sustainable practices across its operations.

To this end, the Company ensures efficient energy use in all its offices throughout India. This commitment is reflected in our ongoing efforts to enhance energy efficiency and reduce our environmental footprint. Our digital transformation initiatives have notably reduced paper consumption, as we shift towards more sustainable, electronic processes.

In addition, the Company has consistently harnessed technological advancements to improve operational efficiency and enhance customer satisfaction. In alignment with SEBI guidelines, we are actively automating the customer onboarding process. This transition not only streamlines and accelerates client onboarding but also reduces the time-consuming and complex nature of physical onboarding procedures.

By integrating these technological innovations, the Company aims to further elevate its operational efficiency, provide a superior client experience, and maintain a strong competitive edge in the industry. Our approach underscores a broader commitment to operational excellence and sustainability, reflecting our dedication to both our clients and the environment.

- B. During the year under review there have been no earnings and outgo in foreign exchange.

16. Board of Directors Composition

The Board of Directors of our Company is duly constituted in full compliance with the Companies Act, the Listing Regulations, and the Company's Articles of Association. It represents a thoughtfully structured body, marked by a balanced mix of diversity, experience, and specialized knowledge tailored to the scale and complexity of our operations.

18. Disclosure as per Sexual Harassment of women at workplace (Prevention, Prohibition and Redressal) Act, 2013

The Company maintains a strict zero-tolerance policy towards sexual harassment, underscoring our unwavering commitment

to fostering a safe, inclusive, and respectful work environment for all employees. To support this commitment, we have implemented a comprehensive policy on the prevention, prohibition, and redressal of sexual harassment, in full compliance with the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, along with its applicable rules.

Our policy is designed to safeguard the rights and dignity of every employee by providing a well-defined framework for preventing, reporting, and addressing incidents of sexual harassment. It aims to promote a professional atmosphere where individuals feel secure, supported, and respected across all levels of the organization.

To effectively enforce this policy, the Company has established an Internal Complaints Committee (ICC), which is responsible for conducting impartial, confidential, and fair investigations into complaints. The ICC is empowered to recommend appropriate actions based on its findings, ensuring transparency, accountability, and justice.

As part of our ongoing efforts to strengthen awareness and prevention, the Company has organized sensitization programs for employees to help them understand and recognize issues related to sexual harassment, workplace behavior, and their rights and responsibilities under the law. Additionally, targeted training sessions and capacity-building workshops have been conducted specifically for ICC members to enhance their ability to handle complaints effectively and in accordance with legal and procedural standards.

During the reporting year, no complaint was received within the scope of sexual harassment. As of the end of the financial year, there are no pending complaints in this regard.

Our proactive measures reflect the Company's continuous dedication to promoting a workplace culture that goes beyond mere legal compliance. We remain committed to regularly reviewing and refining our practices to ensure that every employee experiences a work environment grounded in dignity, equity, and mutual respect.

19. Compliance with the Maternity Benefit Act, 1961

The Company has complied with the provisions of the Maternity Benefit Act, 1961, as applicable, and has extended the benefits thereunder to all eligible women employees of the Company during the year under review.

21. Vigil Mechanism/Whistle Blower Policy

Your Company has established a Vigil Mechanism and formulated a comprehensive Whistle Blower Policy to provide a responsible and secure framework for whistleblowing. This policy is a testament to our commitment to fostering

transparency, accountability, and ethical conduct within the organization. It offers a clear and secure avenue for Employees and Directors to voice their concerns about any unethical behavior, actual or suspected fraud, or violations of the company's code of conduct. The Whistle Blower Policy empowers the Audit Committee of the Board of Directors to thoroughly investigate the concerns raised by employees, ensuring that all disclosures are handled with the utmost confidentiality and seriousness. This policy is designed to protect whistleblowers from any form of retaliation, thereby encouraging a culture of openness and trust. All Directors and Employees of the Company are eligible to make protected disclosures under this policy.

We affirm that no employee of the Company was denied access to the Audit Committee, highlighting our dedication to an open-door policy and the fair treatment of all employees. This assurance underscores our commitment to addressing all concerns promptly and effectively. For more details on the establishment of the vigil mechanism, stakeholders are encouraged to visit the Company's website at www.almondzglobal.com. Here, comprehensive information about the policy and its implementation can be accessed, reflecting our commitment to transparency and stakeholder engagement. In conclusion, the Vigil Mechanism and Whistle Blower Policy are integral to our corporate governance framework, ensuring that the highest standards of ethical conduct are upheld across the organization. Through these measures, we continue to foster an environment where integrity and accountability are paramount, and where every stakeholder feels secure and empowered to report any misconduct without fear.

22. Performance evaluation of the Board, its Committees and individual Directors

Pursuant to the provisions of Companies Act, 2013 and the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015, the Board of Directors has carried out an annual evaluation of its own performance, its Committee and individual Directors. Assessment for evaluation of performance of Board, its committees and individual directors were prepared based on various aspects, which among other parameters, included competency, experience and diversity of Board members, effectiveness of its governance practices, conducting of meetings etc. Further the Independent Directors, at their meetings held during the year, reviewed the performance of the Board, the non- Independent Directors and the Chairman.

MANAGEMENT DISCUSSION AND ANALYSIS

Global Economic Environment

FY 2025–26 was characterized by heightened global economic uncertainty driven by geopolitical conflicts, changing trade dynamics, persistent inflationary pressures, and evolving monetary policies. Although the global economy remained resilient, growth moderated to around 3.0%, according to the International Monetary Fund (IMF), reflecting slower-than-historical expansion. Technological advancements in artificial intelligence (AI), digital infrastructure, and advanced manufacturing supported productivity, but geopolitical tensions, supply chain disruptions, and energy market volatility continued to pose significant risks.

The United States maintained strong economic growth, supported by AI- and technology-led capital expenditure despite weaker employment generation. Europe witnessed moderate recovery, primarily driven by the services sector, although growth prospects remained uncertain due to geopolitical tensions and higher energy costs. China experienced subdued domestic demand and weakness in the real estate sector but maintained robust export performance by diversifying exports beyond the U.S. market.

The global economy was significantly affected by several geopolitical developments during the year. The prolonged Russia–Ukraine conflict continued to disrupt commodity markets, while escalating tensions in the Middle East, particularly around the Strait of Hormuz, raised concerns over global energy security and supply chain resilience. These developments resulted in sharp fluctuations in crude oil prices, increased inflationary pressures, and heightened the risk of stagflation, especially for energy-importing economies in Asia.

Global trade also underwent significant restructuring due to increasing protectionist measures and reciprocal tariffs. The U.S. imposed broad reciprocal tariffs under the “Liberation Day” initiative, triggering trade volatility before the policy was later ruled illegal by the U.S. Supreme Court. Businesses increasingly adopted the “China Plus One” strategy, creating opportunities for countries like India to strengthen their position in global manufacturing and supply chains.

During FY2025–26, several significant geopolitical and economic developments shaped the global operating environment. In April 2025, the United States introduced broad reciprocal tariffs under the “Liberation Day” initiative, triggering considerable volatility in global trade before the policy was subsequently challenged through legal proceedings. In May 2025, military tensions between India and Pakistan escalated into a brief conflict, resulting in temporary disruptions to regional trade and airspace before a ceasefire was reached. At the June 2025 Hague Summit, NATO member countries agreed to increase defence spending to 5% of GDP in response to evolving global security concerns. Meanwhile, the Bank of Japan marked a significant shift in monetary policy by raising interest rates after years of maintaining an ultra-loose policy stance. In the United States, the Federal Reserve reduced policy rates by a cumulative 75 basis points during the latter half of 2025 to support economic growth amid moderating inflation. Further, the escalation of the Israel–U.S.–Iran conflict heightened geopolitical uncertainty, disrupted shipping through the Strait of Hormuz and contributed to a sharp increase in global crude oil prices, thereby intensifying inflationary and supply chain risks.

Inflation, Monetary Policy and Financial Markets

Global inflation moderated from post-pandemic peaks but remained above central bank targets in several economies. Consequently, major central banks, including the U.S. Federal Reserve and the European Central Bank, adopted calibrated monetary easing by reducing policy rates to support growth, while the Bank of Japan increased interest rates to stabilize its currency. However, rising energy prices due to geopolitical conflicts may compel central banks to reassess their monetary stance.

Higher interest rates and tighter financial conditions influenced global capital flows, borrowing costs, and corporate investment decisions. Financial markets experienced intermittent volatility driven by geopolitical events, commodity price movements, inflation expectations, and evolving interest rate outlooks. Nevertheless, institutional investments remained relatively resilient, supported by healthy corporate earnings, stronger banking systems, and continued investments in technology and AI.

Indian Economic Environment

Despite global uncertainties, India continued to strengthen its position as one of the world’s fastest-growing major economies. Supported by robust domestic demand, sustained government capital expenditure, resilient private consumption, structural reforms, and rapid digitalisation, India’s macroeconomic fundamentals remained strong. The IMF projected India’s GDP growth at approximately 6.4%, while the Government’s revised GDP series (with 2022–23 as the new base year) estimated GDP growth at 7.7% during the first nine months of FY2025–26 compared with 7.1% in the corresponding period of the previous year.

Infrastructure-led Growth

Infrastructure continued to remain one of the principal engines of India’s economic expansion. Significant investments across highways, railways, airports, ports, metro systems, renewable energy, defence manufacturing and urban infrastructure generated substantial opportunities for financial institutions, investment banks and infrastructure advisory firms.

Large-scale public investment has also encouraged private capital participation through public-private partnerships, infrastructure investment trusts (InvITs) and asset monetisation initiatives, thereby expanding the addressable market for financial advisory and transaction services.

Financial Markets

India's capital markets remained among the strongest globally despite episodes of external volatility. Domestic institutional investors and retail investors continued to provide stability to the equity markets through sustained investments.

The continued increase in demat accounts, systematic investment plan (SIP) inflows and participation by first-time investors reflects the ongoing financialization of household savings. Increasing depth and liquidity within India's financial markets continue to create significant opportunities for investment banking, wealth management and capital market intermediaries.

India's Energy Transition

India continued to accelerate its transition towards cleaner and more sustainable energy sources.

The Government's Ethanol Blended Petrol (EBP) Programme, National Policy on Biofuels, renewable energy initiatives and green hydrogen mission reflect the country's commitment to reducing dependence on imported crude oil while strengthening long-term energy security.

The continued expansion of grain-based ethanol capacity, long-term procurement by Oil Marketing Companies (OMCs) and supportive policy initiatives are creating substantial opportunities for companies operating in the bioenergy value chain.

For the Almondz Group, this evolving policy landscape provides strategic growth opportunities through Premier Green Innovations Private Limited (PGIPL), whose investments in ethanol manufacturing align with India's energy transition objectives and complement the Group's diversified business portfolio.

Industry Structure and Developments

Financial Services

India's financial services sector continues to be one of the fastest-growing segments of the economy, driven by increasing financialization of household savings, expanding digital infrastructure, supportive regulatory reforms and growing participation of retail investors. Rising disposable incomes, wider adoption of digital investment platforms and greater financial awareness have accelerated demand for investment products and advisory services.

During FY2025-26, domestic institutional investors continued to provide stability to Indian capital markets despite volatility in foreign portfolio investment flows. Record participation through systematic investment plans (SIPs), increasing demat account penetration and greater adoption of technology-driven investment platforms have strengthened market depth and liquidity. Regulatory initiatives by SEBI aimed at enhancing investor protection, improving disclosure standards and strengthening market integrity are expected to further deepen India's capital markets.

These structural trends provide long-term growth opportunities for Almondz's investment banking, institutional equities, wealth management, broking and depository participant businesses.

Investment Banking

India's investment banking industry remained resilient despite an uncertain global environment. Strong corporate balance sheets, increasing infrastructure investments, strategic mergers and acquisitions, private equity activity and continuing capital market fundraising supported demand for advisory services.

Government-led infrastructure investments, renewable energy projects, manufacturing expansion under the Production Linked Incentive (PLI) Scheme and increasing corporate capital expenditure have created opportunities across equity capital markets, debt syndication, structured finance and transaction advisory.

The Company's established relationships, execution capabilities and sector expertise position it to benefit from increasing demand for integrated financial advisory solutions.

Wealth Management

The wealth management industry continues to expand, supported by increasing household wealth, growth in high-net-worth individuals (HNIs) and ultra-high-net-worth individuals (UHNIs), and rising preference for professionally managed investment solutions.

Clients increasingly seek comprehensive financial planning, portfolio diversification, alternative investment opportunities, tax-efficient investment structures and estate planning. Technology-enabled advisory, digital engagement and customised investment strategies have become key differentiators within the industry.

Almondz continues to strengthen its advisory-led wealth management platform by combining relationship-based service with research-driven investment solutions.

Equity Broking and Institutional Equities

Indian equity markets continued to witness healthy trading activity supported by sustained retail participation, improving corporate earnings and expanding investor awareness.

Institutional investors increasingly demand high-quality research, efficient execution and sector-specific investment insights. At the same time, retail investors expect seamless digital trading platforms, faster execution and enhanced customer experience.

The Company continues to strengthen its institutional research, execution capabilities and technology platforms to improve client service and operational efficiency.

Depository Participant Services

India's depository ecosystem continues to expand in line with increasing financial inclusion and digitalisation of financial services. The steady rise in demat accounts reflects growing investor participation across equity, debt and mutual fund investments.

The Company's depository participant business benefits from increasing market penetration, improved digital onboarding and greater investor awareness while maintaining a strong focus on compliance, operational efficiency and customer service.

Infrastructure Advisory

Infrastructure remains one of India's most significant long-term growth drivers. Government programmes including PM Gati Shakti, the National Infrastructure Pipeline (NIP), National Monetisation Pipeline (NMP) and continued public capital expenditure are generating substantial opportunities across transport, logistics, renewable energy, water resources and urban infrastructure.

Increasing participation by sovereign wealth funds, pension funds, multilateral institutions and private investors has created demand for specialised advisory services covering project structuring, financial modelling, transaction advisory, engineering consultancy and public-private partnership (PPP) projects.

With its multidisciplinary expertise, Almondz is well positioned to participate in India's expanding infrastructure ecosystem.

Bioenergy and Ethanol Manufacturing

India's bioenergy sector has emerged as a strategic priority under the Government's energy transition agenda. The Ethanol Blended Petrol (EBP) Programme, National Policy on Biofuels and initiatives aimed at reducing dependence on imported crude oil have accelerated investments in grain-based ethanol production.

The continued expansion of ethanol blending, long-term procurement by Oil Marketing Companies (OMCs) and supportive pricing mechanisms are encouraging capacity additions across the industry. Besides fuel ethanol, increasing demand for Extra Neutral Alcohol (ENA), Distillers Dried Grains with Soluble (DDGS) and other value-added co-products is improving the overall economics of ethanol manufacturing.

Through Premier Green Innovations Private Limited (PGIPL), the Almondz Group has established a strategic presence in the bioenergy sector. The commissioning of additional ethanol capacity and development of new grain-based ethanol facilities demonstrate the Group's commitment to supporting India's clean energy transition. The adoption of environmentally sustainable technologies, including Zero Liquid Discharge (ZLD) systems, reflects its focus on responsible manufacturing and operational efficiency.

While the industry offers significant long-term growth potential, it also requires effective management of feedstock availability, commodity price volatility, environmental compliance and evolving regulatory policies.

Business Overview

Almondz Global Securities Limited ("Almondz" or "the Company") has evolved into a diversified business enterprise with interests spanning Financial Services, Infrastructure & Engineering Advisory and Bioenergy. Over the years, the Company has successfully leveraged its domain expertise, long-standing client relationships and execution capabilities to establish a strong presence across these strategic business verticals.

The Company's diversified business model provides resilience against cyclical fluctuations in individual sectors while enabling it to participate in multiple structural growth opportunities emerging from India's expanding economy. Its integrated approach combines financial advisory, engineering consultancy and clean energy investments, allowing the Company to create sustainable long-term value for shareholders.

The Financial Services business remains the cornerstone of the Company's operations, providing investment banking, institutional equities, wealth management, equity broking and depository participant services to a diversified client base comprising corporates, financial institutions, institutional investors and high-net-worth individuals.

The Infrastructure & Engineering Advisory business leverages the Company's multidisciplinary expertise to provide project advisory, engineering consultancy, financial modelling, transaction advisory and project management services across transportation, urban infrastructure, renewable energy, water resources, industrial development and public-private partnership (PPP) projects.

Recognising the increasing importance of renewable energy and India's commitment towards energy security, the Group has strategically diversified into the Bioenergy business through Premier Green Innovations Private Limited (PGIPL). The bioenergy business focuses on grain-based ethanol manufacturing, Extra Neutral Alcohol (ENA), Distillers Dried Grains with Soluble (DDGS) and other value-added co-products, supported by environmentally sustainable manufacturing practices including Zero Liquid Discharge (ZLD) technology. This strategic diversification aligns the Group with India's long-term clean energy transition while creating an additional avenue for sustainable growth.

The Company's business philosophy continues to be guided by operational excellence, strong corporate governance, prudent risk management, technology adoption and customer-centricity. Continuous investments in digital transformation, process automation, cybersecurity and talent development further strengthen its ability to respond effectively to evolving market conditions.

Financial Performance

Despite continued geopolitical uncertainties and market volatility, the Company demonstrated resilience through its diversified business portfolio and disciplined operating model.

The Financial Services business continued to benefit from improving capital market activity, increasing investor participation and higher demand for advisory services.

Infrastructure Advisory maintained a healthy order pipeline supported by sustained public infrastructure investments and growing private sector participation.

The Bioenergy business continued to progress through capacity expansion initiatives, strengthening the Group's diversification strategy while positioning it to benefit from India's expanding ethanol blending programme.

The Company remained focused on prudent capital allocation, liquidity management, cost optimisation and strengthening technology infrastructure to support long-term sustainable growth.

Continuous investments in digital transformation, cybersecurity, operational efficiency and human capital are expected to enhance business resilience and improve competitiveness across all operating segments.

Performance review and the state of Company's affairs:

Your Company has prepared the Financial Statements for the financial year ended March 31, 2026 in terms of Sections 129, 133 and Schedule III to the Companies Act, 2013 (as amended) (the "Act") read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The gross revenue of your Company on a standalone basis is Rs. 6381.03 lakhs as compared to Rs. 3659.14 lakhs for the previous financial year 2024-2025. Profit before tax (PBT) is Rs. 209.29 Lakhs as compared Rs. 297.49 Lakhs in the previous financial year 2024-2025. The Company's consolidated total income for the year 2025-26 is Rs. 19,162.82 Lakhs as compared to Rs. 15,284.71 Lakhs in the previous year FY 2024-25. Profit before tax (PBT) is Rs. 3,305.79 Lakhs as compared to Rs. 2,027.47 Lakhs in the previous financial year 2024-2025.

Your Company currently offers depository participant services, wealth management advisory and equity broking services, Portfolio Management Services, Research Analyst on its own or through subsidiaries. The Company also provides consultancy related to Infrastructure advisory through its subsidiary. The company is a member of National Stock Exchange of India Limited (NSE) BSE Limited, (BSE); and Central Depository Services (India) Ltd., (CDSL) (for depository services).

Opportunities

The Company's diversified presence across Financial Services, Infrastructure & Engineering Advisory and Bioenergy positions it favourably to capitalise on India's long-term economic transformation. The convergence of policy reforms, infrastructure-led growth, financial market deepening and energy transition is expected to create significant opportunities across all business verticals.

Financial Services

India's financial services industry continues to benefit from the structural shift in household savings from physical assets to financial assets. Increasing retail participation in equity markets, robust inflows into mutual funds through Systematic Investment Plans (SIPs), expansion of alternative investment funds (AIFs) and growing demand for sophisticated financial products are expected to support long-term growth.

Government initiatives aimed at improving ease of doing business, strengthening capital markets and enhancing financial inclusion are likely to increase corporate fund-raising, strategic transactions and investment activity. The continued expansion of domestic institutional investors is expected to provide stability to capital markets and create opportunities for investment banking, institutional equities and wealth management businesses.

Increasing adoption of Artificial Intelligence (AI), data analytics, cloud computing and digital platforms is transforming the financial services industry. Institutions capable of combining technology with advisory capabilities are expected to improve customer experience, operational efficiency and productivity while creating new business opportunities.

Infrastructure & Engineering Advisory

Infrastructure development remains a cornerstone of India's long-term economic strategy. Continued public investment in roads, railways, airports, ports, metro systems, logistics parks, renewable energy, transmission networks and urban infrastructure is expected to sustain demand for engineering consultancy, project management, transaction advisory and financial advisory services.

The Government's continued focus on PM Gati Shakti, National Infrastructure Pipeline (NIP), National Monetisation Pipeline (NMP), Smart Cities Mission and renewable energy projects is likely to generate substantial opportunities for infrastructure advisory companies with multidisciplinary capabilities.

Growing participation of sovereign wealth funds, pension funds, infrastructure investment trusts (InvITs) and private equity investors is expected to further expand opportunities across project structuring, financial modelling, due diligence and transaction advisory.

Bioenergy

India's energy transition presents a significant long-term opportunity for the Group's bioenergy business.

The Government's emphasis on reducing dependence on imported crude oil, increasing domestic ethanol production and promoting cleaner transportation fuels through the Ethanol Blended Petrol (EBP) Programme continues to support investment in grain-based ethanol manufacturing.

Capacity expansion by Oil Marketing Companies (OMCs), increasing blending requirements, favourable procurement mechanisms and policy support are expected to strengthen long-term demand for ethanol. In addition, increasing demand for Extra Neutral Alcohol (ENA), Distillers Dried Grains with Soluble (DDGS), carbon dioxide recovery and other value-added co-products is expected to improve plant economics and operational sustainability.

The Group believes that its investments through Premier Green Innovations Private Limited (PGIPL) position it to participate meaningfully in India's rapidly expanding bioenergy ecosystem.

Strategic Opportunities

The Company expects to benefit from several long-term structural growth opportunities arising from India's evolving economic landscape. The increasing financialization of household savings, supported by sustained retail participation in capital markets and growing investments in financial products, is expected to drive demand across the Company's financial services businesses. Continued infrastructure-led economic growth, backed by significant public and private sector investments, is likely to create opportunities for the Company's infrastructure advisory and project consultancy operations.

The ongoing expansion of renewable energy and energy transition initiatives, including biofuels and other clean energy projects, is expected to support growth in the Company's bioenergy business. At the same time, increasing activity in capital markets, corporate fund-raising and investment banking is anticipated to enhance opportunities across advisory, wealth management and institutional equity businesses. Rapid digital adoption across the financial services sector is further transforming customer engagement, operational efficiency and service delivery, enabling the Company to strengthen its technology-driven offerings.

The Company also expects to benefit from the rising demand for integrated advisory and consultancy services, growing focus on environmental, social and governance (ESG) and sustainable finance initiatives, strengthening domestic manufacturing capabilities, supply chain diversification under the "China Plus One" strategy, and increasing foreign direct investment and private capital participation across key sectors of the economy.

The Company remains committed to capitalising on these opportunities through disciplined capital allocation, customer-centric innovation, operational excellence, technology adoption, strong corporate governance and prudent risk management, with a continued focus on creating sustainable long-term value for its stakeholders.

Risks and Concerns

The Company operates in a dynamic business environment where performance is influenced by macroeconomic conditions, regulatory developments, market sentiment and technological advancements. Effective identification, assessment and mitigation of risks remain integral to the Company's long-term strategy.

Macroeconomic Risk

Global economic uncertainty continues to be influenced by geopolitical conflicts, changing trade policies, volatile commodity prices, inflationary pressures and fluctuations in interest rates.

The ongoing Russia-Ukraine conflict and geopolitical tensions in the Middle East continue to create uncertainty regarding global energy supplies, shipping routes and commodity prices. Sustained volatility in crude oil prices could impact inflation, monetary policy, investment activity and corporate profitability, thereby affecting the Company's operating environment.

Financial Services Risk

The Company's financial services businesses remain exposed to fluctuations in capital market activity, investor sentiment, interest rates and liquidity conditions.

Reduced fundraising activity, lower trading volumes, changes in regulatory policies, increased market volatility or weakening investor confidence could adversely impact investment banking, institutional equities, wealth management and broking businesses.

The Company continuously monitors market developments and maintains a diversified revenue profile to mitigate concentration risks.

Infrastructure Risk

Infrastructure projects are inherently exposed to execution risks arising from project delays, cost escalations, land acquisition challenges, regulatory approvals, environmental clearances and changes in government policies.

The Company mitigates these risks through rigorous project evaluation, robust contract management, technical expertise and continuous engagement with project stakeholders.

Bioenergy Risk

The bioenergy business is influenced by multiple operational and regulatory factors.

Availability and pricing of feedstock such as maize and other grains, changes in government procurement policies, ethanol pricing mechanisms, environmental regulations, logistics costs and plant utilisation levels may influence business performance.

The Company continues to focus on operational efficiency, technology adoption, diversified sourcing strategies and regulatory compliance to mitigate these risks.

Cyber Security and Technology Risk

Rapid digitalisation has increased exposure to cyber threats, ransomware attacks, data breaches and technology disruptions.

The Company continues to invest in cybersecurity infrastructure, data protection systems, disaster recovery mechanisms, business continuity planning and employee awareness programmes to strengthen operational resilience.

Human Capital Risk

Competition for experienced professionals across financial services, engineering consultancy and manufacturing continues to intensify.

The Company remains committed to attracting, developing and retaining talent through competitive compensation, capability development, leadership programmes and employee engagement initiatives.

Internal Control Systems and Their Adequacy

The Company has established an adequate internal control framework commensurate with the size, complexity and nature of its operations. The framework is designed to ensure operational efficiency, reliability of financial reporting, safeguarding of assets, regulatory compliance and effective risk management.

Clearly defined policies, standard operating procedures, delegation of authority, maker-checker controls and technology-enabled monitoring systems form the foundation of the Company's governance framework.

The Internal Audit function conducts periodic risk-based audits covering all significant business processes and operating locations. Audit observations and recommendations are reviewed by the Audit Committee of the Board, which continuously monitors the adequacy and effectiveness of internal controls and implementation of corrective actions.

The Company continues to strengthen its cybersecurity architecture, digital governance framework and enterprise risk management systems to enhance operational resilience across all businesses.

Management believes that the existing internal control systems provide reasonable assurance regarding the orderly and efficient conduct of business operations.

Human Resources

People remain the Company's most valuable asset and the foundation of its long-term success.

The Company continues to foster a performance-driven, collaborative and ethical work culture that encourages innovation, diversity, continuous learning and customer-centricity.

Regular investments are made in technical training, leadership development, digital capability enhancement and succession planning to build future-ready talent across financial services, infrastructure consultancy and bioenergy operations.

The Company promotes equal opportunity, workplace diversity, employee well-being and adherence to the highest standards of integrity and professional conduct.

Industrial relations remained cordial during the year, reflecting the Company's commitment to maintaining a positive and inclusive work environment.

Outlook

The outlook for the Company remains positive, supported by India's favourable macroeconomic fundamentals, expanding capital markets, sustained infrastructure investments and accelerating clean energy transition.

The Financial Services business is expected to benefit from increasing financialization of savings, deeper capital markets, rising corporate fund-raising requirements and expanding wealth management opportunities.

Infrastructure Advisory is expected to benefit from continued government focus on transport, logistics, renewable energy, urban development and public-private partnership projects.

The Bioenergy business is well positioned to capitalise on increasing ethanol demand, supportive government policies, growing emphasis on energy security and the expansion of India's renewable fuel ecosystem.

While geopolitical tensions, volatile crude oil prices, inflationary pressures, evolving regulatory frameworks and global financial market uncertainties may continue to create short-term challenges, the Company's diversified business portfolio provides resilience and multiple avenues for sustainable growth.

The management remains confident that its strategic focus on business diversification, technology adoption, operational excellence, prudent capital allocation and strong corporate governance will enable the Company to deliver sustainable long-term value to shareholders and other stakeholders.

COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE

The Company is unwavering in its commitment to continuously monitor and enhance its governance practices. We believe that good corporate governance is the cornerstone of our mission and essential for achieving sustainable success. Our pursuit of holistic growth is not just a business objective but a fundamental philosophy that encompasses our responsibilities towards all stakeholders, including the environment.

Our Board considers itself the Trustee of our Shareholders, deeply acknowledging its profound responsibilities in creating and safeguarding their wealth. This fiduciary duty is taken with the utmost seriousness and dedication. The Company's comprehensive Corporate Governance practices are designed to ensure optimal performance at all times, thereby protecting and promoting the best interests of our stakeholders.

Setting an ambitious objective of achieving success in our business, the Company is committed to adopting and implementing the 'best practices' in Corporate Governance. This commitment is not just about compliance but about embedding these practices into the very fabric of our organizational culture. Our Corporate Governance Philosophy oversees our business strategies with a vigilant eye, ensuring fiscal accountability, ethical corporate behaviour, and fairness to all stakeholders, including regulators, employees, customers, vendors, investors, and society at large. Our governance framework is a testament to our dedication to ethical conduct, transparency, and integrity. We strive to go beyond the regulatory requirements, proactively seeking ways to improve our governance standards. This proactive approach ensures that we are not only compliant but also ahead of the curve, setting new benchmarks for the industry.

The information provided in this Report on Corporate Governance for the purpose of unanimity is as on March 31, 2026 This Report is updated as on the date of the Report wherever applicable.

e. Disclosure of relationships between directors inter-se

The Directors of your Company are distinguished professionals who are not related to one another, ensuring a diverse and independent perspective on governance. This independence is a cornerstone of our robust corporate governance framework, fostering objective decision-making and strategic oversight. Your Company is expertly managed by a highly competent team, including the Managing Director, Whole-time Director, and the Senior Management team. These leaders bring a wealth of experience and expertise, driving the Company towards its strategic goals with precision and dedication. Their leadership ensures that day-to-day operations are conducted with excellence, aligning with the Company's vision and mission. The Board of Directors plays a pivotal role in steering the Company towards sustained success. They meticulously review and approve the Company's strategic initiatives, ensuring that every decision is aligned with our long-term objectives. The Board's vigilant oversight is crucial in monitoring performance and implementing corrective measures, when necessary, thereby safeguarding and enhancing stakeholder value. By consistently focusing on strategic planning and performance oversight, the Board ensures that the Company not only meets but exceeds its long-term objectives. This rigorous approach guarantees that the interests of all stakeholders—shareholders, employees, customers, and the broader community are prioritized and protected.

g. Training and Familiarization for Independent Directors

Our esteemed Independent Directors possess a deep understanding of the industry and its operations, having been associated with the Company for a substantial period. Their extensive experience ensures that they are well-versed in their duties and responsibilities, as outlined in their terms of appointment and the expected time commitments.

For every newly appointed Independent Director, we have established a comprehensive and formal induction program. This program is meticulously designed to provide a thorough introduction to the Company's multifaceted business operations. Various Business Heads deliver detailed presentations covering critical areas such as business strategy, marketing, finance, and other pivotal aspects of our operations. Additionally, the Company Secretary provides an in-depth briefing on the legal and regulatory responsibilities that accompany the role of a Director.

To facilitate a smooth transition and deep integration into our governance framework, newly appointed Independent Directors are furnished with all necessary documents, reports, and internal policies. These resources are pivotal in helping them familiarize themselves with the Company's procedures and best practices. The Company is committed to the continuous development of our Independent Directors. Throughout the year, we conduct ongoing familiarization programs to keep our Directors well-informed and updated. These programs are structured to ensure that our Directors are always in tune with the latest developments and strategic directions of the Company.

Our Managing Director and Senior Managerial Personnel play a crucial role in this continuous education process. They regularly make presentations to the Board, covering essential topics such as business strategies, operational reviews, quarterly, half-yearly, and annual results, reviews of Internal Audit Reports and Action Taken Reports, statutory compliances, and risk management. These presentations ensure that our Board is comprehensively briefed on all critical aspects of the Company's performance and strategic direction.

Furthermore, Heads of Departments are required to give detailed presentations during Board meetings, providing an in-depth look at their specific activities and related matters. This practice ensures that the Board is thoroughly familiarized with the day-to-day operations and strategic initiatives across all departments.

In alignment with our commitment to transparency and stakeholder engagement, the details of our familiarization programs are readily accessible on the Company's website at www.almondzglobal.com. This accessibility underscores our dedication to maintaining the highest standards of corporate governance and continuous education.

Independent Auditor's Report

To the Members of

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of **M/s. Almondz Global Securities Limited ("the Company")** which comprises the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, **profit** and total comprehensive **Income**, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements for the financial year ended March 31, 2026. In our opinion, there are no key audit matters to be communicated in our report.

Information other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's Responsibilities Relating to Other Information'.

Responsibility of the management & those charged with governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b. In our opinion, proper books of account as required by law have been kept by the Company.
- c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
- d. In our opinion, the aforesaid financial statements comply with the Ind-AS specified under Section 133 of the Act.
- e. On the basis of the written representations received from the directors as on 31st March, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2026 from being appointed as a director in terms of Section 164 (2) of the Act.
- f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the company's internal financial controls over financial reporting.
- g. With respect to the matters to be included in the Auditor's Report in accordance with the requirements of the section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i) The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 39 to the financial statements.

- ii) As informed to us, the company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii) As informed to us, the company has no amount for transferring to the Investor Education and Protection Fund by the Company.
 - iv) (a) The respective Managements of the Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or any of such subsidiaries to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (b) The respective Managements of the Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company or any of such subsidiaries from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us on the Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
 - v) With respect to Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014:

The Company has maintained its books of account using accounting software which has a feature of recording audit trail (edit log) facility. The audit trail feature has been operated throughout the year for all transactions recorded in the software, and the audit trail has not been tampered with. The audit trail has been preserved by the Company as per the statutory requirements for record retention.
2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the **Annexure-B** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure - A to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **M/s. Almondz Global Securities Limited** ("the Company") as of 31 March 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure-B to the Independent Auditors' Report

M/s Almondz Global Securities Limited

The Annexure referred to in our Independent Auditors' Report to the members of the Company on the standalone financial statements for the year ended 31 March 2026. To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

I) In respect of the Company's Property, Plant and Equipment and Intangible Assets.

- a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets.

(B) The Company has maintained proper records showing full particulars of intangible assets.

- b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programmed of physical verification of its Property, plant and equipment by which all Property, plant and equipment are verified in a phased manner over a period of three years. In accordance with this programmed, certain Property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.

- c) According to the information and explanations given to us and on the basis of our examination of the records of the company, the title deeds of immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favor of the lessee) disclosed in the standalone financial statements are held in the name of the Company

- d) The Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible.

- e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2026 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made there under.

- II) (A) The inventory (consisting shares and securities) has been verified during the year by the management. In our opinion, the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were 10% or more in the aggregate for each class of inventory.

- (B) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks on the basis of security of current assets. Therefore, reporting under clause 3(ii) (B) of the order is not applicable.

- III) The Company has made investments in, companies, firms, Limited Liability Partnerships, and granted unsecured loans to other parties, during the year, in respect of which:

- a) The Company has granted any loans, secured or unsecured, to firms, limited liability partnerships or any other parties during the year.

(A) Based on the audit procedures carried on by us and as per the information and explanations given to us, the Company has granted loans or advances and guarantees or security to subsidiaries, joint ventures and associates. Details given below:

S. No.	Particulars	Aggregate Amount of loan/ Guarantee during the year	Outstanding Balance at the end of the year
1	Corporate Guarantee to Subsidiaries	1,200 Lakhs	2,548.20 Lakhs

(B) Based on the audit procedures carried on by us and as per the information and explanations given to us, the Company has granted loans or advances and guarantees or security to other than subsidiaries, joint ventures and associates.

S. No.	Particulars	Aggregate Amount of loan/ Guarantee during the year	Outstanding Balance at the end of the year
1	Loan to Other Company	3,255 Lakhs	NIL

- b) In our opinion, the investments made, guarantees provided, security given and the terms and conditions of the grant of all loans and advances in the nature of loans and guarantees provided are not prejudicial to the company's interest

- c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments of principal amounts and receipts of interest are generally been regular as per stipulation.

- d) In respect of loans granted by the Company, there is no overdue amount for more than 90 days remaining outstanding as at the balance sheet date.

- e) No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.
- f) The Company has granted loans or advances in the nature of loans which is repayable on demand during the year.

S. No.	Particulars	Aggregate Amount of loan during the year	Outstanding Balance at the end of the year	Percentage to the total loan granted
1	Loan to Other Company	3,255 Lakhs	NIL	100%

- IV) The Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of loans granted, investments made and guarantees and securities provided, as applicable.
- V) The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order is not applicable.
- VI) The maintenance of cost records has not been specified by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013 for the business activities carried out by the Company. Hence, reporting under clause (vi) of the Order is not applicable to the Company.
- VII) In respect of statutory dues:
- a) In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Services tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues in arrears as at March 31, 2026 for a period of more than six months from the date they became payable. Except as under:

Indian Stamp Act, 1899	Stamp Duty	71.66	Not Available as Stamp Duty is collected in States where Payment and Levy Mechanism is not established.	Not paid up till date of our report

- b) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on March 31, 2026 on account of disputes are given below:

Nature of Statue	Nature of Dues	Forum where Dispute is pending	Period to which amounts relate	Amount
----- NIL -----				

- VIII) There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- IX) In respect of the borrowings:
- a) The company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.
- b) The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
- c) On the basis of examination of the financial statement, the company has applied the term loans for the purpose for which the loans were obtained.
- d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
- f) The Company has not raised any loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies and hence reporting on clause 3(ix)(f) of the Order is not applicable.
- X) In respect of the capital raised
- a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
- b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.
- XI) a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- c) We have taken into consideration the whistle blower complaints received by the company during the year (and up to the date of this report), while determining the nature, timing and extent of the audit procedure.

- XII) The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable.
- XIII) In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- XIV) a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- b) We have considered the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- XV) In our opinion during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors. and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- XVI) a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a) of the Order is not applicable.
- b) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(b) of the Order is not applicable.
- c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.
- d) In our opinion, the group has not CIC (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- XVII) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- XVIII) There has been no resignation of the statutory auditors of the Company during the year.
- XIX) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- XX) a) Since the section 135 of the Companies Act, 2013 does not apply to the company. Therefore, reporting under clause 3(XX)(a) is not applicable.
- b) Since the section 135 of the Companies Act, 2013 does not apply to the company. Therefore, reporting under clause 3(XX)(b) is not applicable.

Notes to the financial statements for the year ended March 31, 2026

Reporting Entity

Almondz Global Securities Limited ('the Company') is a company domiciled in India, with its registered office situated at Level 5, Grande Palladium, 175, CST Road, Off BKC, Kalina, Santacruz (East) Mumbai 400098. The Company was incorporated in India on June 28, 1994. The Company is involved in the business of providing professional advisory and consultancy services in the areas of equity and debt capital markets, private equity, infrastructure advisory, equity broking & wealth management, debt portfolio management services and distribution.

1. Basis of preparation

(i) Statement of compliance with Indian Accounting Standards:

These Ind AS financial statements ("the Financial Statements") have been prepared in accordance with the Indian Accounting Standards ('Ind AS') as notified by Ministry of Corporate Affairs ('MCA') under Section 133 of the Companies Act, 2013 ('Act') read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provisions of the Act. The Company has uniformly applied the accounting policies for all the periods presented in these financial statements.

The financial statements for the year ended March 31, 2026 were authorised and approved for issue by the Board of Directors on May 22, 2026.

The significant accounting policies adopted for preparation and presentation of these financial statement are included in Note 2. These policies have been applied consistently applied to all the financial year presented in the financial statements except where newly issues accounting standard is initially adopted or revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

The Balance Sheet, the Statement of Changes in Equity, the Statement of Profit and Loss and disclosures are presented in the format prescribed under Division III of Revised Schedule III of the companies Act, as amended from time to time that are required to comply with Ind AS. The Statement of Cash Flows has been presented as per the requirements of Ind AS 7 Statement of Cash Flow.

The financial statements have been prepared under the historical cost convention and accrual basis, except for certain financial assets and liabilities, defined benefit-plan liabilities and share-based payments being measured at fair value.

(ii) Financial and non-financial classification

All assets and liabilities have been classified and presented on the basis of liquidity as financial or non-financial as permitted by Division III of Schedule III to the Act.

(iii) Functional and presentation currency

These financial statements are presented in Indian Rupees ('₹'), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lacs, unless otherwise indicated.

(iv) Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities	Fair value/Amortised Cost
Net defined benefit (asset)/ liability	Fair value of plan assets less present value of defined benefit obligations

(v) Use of estimates and judgements

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures. Actual results may differ from these estimates.

Significant management judgements

Recognition of deferred tax assets – The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilised.

Business model assessment - The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and accordingly prospective change to the classification of those assets are made.

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Classification of leases – Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the

importance of the underlying asset to the Company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Company has concluded that no changes are required to lease period relating to the existing lease contract.

Expected credit loss (ECL) as per Ind AS 109 The measurement of expected credit loss allowance for financial assets measured at amortised cost requires use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g. likelihood of customers defaulting and resulting losses). The Company makes significant judgements regarding the following while assessing expected credit loss:

- Determining criteria for significant increase in credit risk;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/ market and the associated ECL; and
- Establishing groups of similar financial assets for the purposes of measuring ECL.

Provisions – At each balance sheet date, based on the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding contingent liabilities. However, the actual future outcome may be different from this judgement.

Significant estimates

Useful lives of depreciable/amortisable assets – Management reviews its estimate of useful lives, residual values and method of depreciation of depreciable/ amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets.

Defined benefit obligation (DBO) – Management's estimate of the DBO is based on several underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

2.1 Summary of significant accounting policies

(i) Cash and cash equivalents

Cash and cash equivalents consist of cash, bank balances in current and short term highly liquid investments that are readily convertible to cash with original maturities of three months or less at the time of purchase.

(ii) Provisions, contingent liabilities and contingent assets

Provisions are recognised only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best

estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are neither recognised nor disclosed except when realisation of income is virtually certain, related asset is disclosed.

(iii) Property, plant and equipment

Recognition and initial measurement

Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are recognised in statement of profit and loss.

Subsequent measurement (depreciation method, useful lives and residual value)

Property, plant and equipment are subsequently measured at cost less accumulated depreciation and impairment losses. Depreciation on property, plant and equipment is provided on the written-down method over the useful life of the assets as prescribed under Part 'C' of Schedule II of the Companies Act, 2013.

Asset class	Useful life
Building	60 years
Plant and machinery	15 years
Office equipment	5 years
Computer equipment	3 years
Furniture and fixtures	10 years
Vehicles	8-10 years

Depreciation is calculated on pro rata basis from the date on which the asset is ready for use or till the date the asset is sold or disposed.

The residual values, useful lives and method of depreciation are reviewed at the end of each financial year.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised

in the statement of profit and loss, when the asset is de-recognised.

Capital work-in-progress

Capital work-in-progress are carried at cost, comprising direct cost and related incidental expenses to acquire property, plant and equipment. Assets which are not ready for intended use are also shown under capital work-in-progress.

(iv) Intangible assets

Recognition and initial measurement

Intangible assets are stated at their cost of acquisition. The cost comprises purchase price including license fees paid, import duties and other taxes (other than those subsequently recoverable from taxation authorities), borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use.

Subsequent measurement (amortisation method, useful lives and residual value)

Intangible assets are amortised over a period of 3 years from the date when the assets are available for use. The estimated useful life (amortisation period) of the intangible assets is arrived basis the expected pattern of consumption of economic benefits and is reviewed at the end of each financial year and the amortisation period is revised to reflect the changed pattern, if any.

Investment Property

Property that is held to earn rentals and for capital appreciation. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16's requirements for cost model.

(v) Revenue from Operations

The company recognizes revenue in accordance with INDAS-115, revenue is to be recognized upon transfer of control of promised services to customers in an amount that reflects the consideration which the company expects to receive in exchange for those services.

Revenue from fixed price, fixed time frame contracts where the performance obligation are satisfied over time and when there is no uncertainty as to measurement or collectivity of consideration is recognized as per percentage of completion method.

However, only for the purpose of matching expense with revenue, in some cases we provide consultancy services for preparing Detailed Project Report (DPR) –

- on a continuous basis to the authority,
- the duration of such services to be provided under the contract is more than three months and

- the same is against periodic payment of consultancy fee

Hence income on such incomplete DPR projects is recognized on percentage of completion method as unbilled revenue.

Revenue includes the following:

i) Brokerage fee income

Revenue from contract with customer is recognized point in time when performance obligation is satisfied (when the trade is executed i.e., trade date). These include brokerage fees which is charged per transaction executed on behalf of the clients.

ii) Fees & Commission Income

This includes:

a) Income from investment banking activities and other fees.

Income from investment banking activities and other fees is recognized as and when such services are completed / performed and as per terms of agreement with the client (i.e. when the performance obligation is completed).

b) Income from depository operations.

Income from depository operations is accounted when the performance obligation is completed.

c) Income from wealth management services

Commission (net of taxes and other statutory charges) income from distribution of financial products is recognized based on mobilization and intimation received from clients/ intermediaries or over the period of service after deducting claw back as per the agreed terms.

iii) Interest Income

Under Ind AS 109 interest income is recognized by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial assets other than credit-impaired assets and financial assets classified as measured at FVTPL.

The EIR in case of a financial asset is computed

- As the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.
- By considering all the contractual terms of the financial instrument in estimating the cash flows.
- Including all fees received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Any subsequent changes in the estimation of the future cash flows is recognized in the statement of profit and loss with the corresponding adjustment to the carrying amount of the assets.

Interest income on credit impaired assets is recognized by applying the effective interest rate to the net amortized cost (net of provision) of the financial asset.

iv) Dividend Income

Dividend income is recognized

- a. When the right to receive the payment is established,
- b. it is probable that the economic benefits associated with the dividend will flow to the Company and
- c. the amount of the dividend can be measured reliably

v) Net gain on Fair value changes

Any differences between the fair values of financial assets (including investments, derivatives and stock in trade) classified as fair value through the profit or loss ("FVTPL") (refer Note 34), held by the Company on the balance sheet date is recognized as an unrealized gain / loss. In cases there is a net gain in the aggregate, the same is recognized in "Net gains on fair value changes" under Revenue from operations and if there is a net loss the same is disclosed under "Expenses" in the statement of profit and loss.

Similarly, any realized gain or loss on sale of financial instruments measured at FVTPL is recognized in net gain / loss on fair value changes.

However, net gain / loss on de-recognition of financial instruments classified as amortized cost is presented separately under the respective head in the statement of profit and loss.

vi) Trading shares & Securities:

Revenue on account of trading in shares is recognised on the basis of each trade executed at the stock exchange during the financial year.

In respect of non-delivery based transactions such as derivatives and intraday, the profit and loss is accounted for at the completion of each settlement, however in case of an open settlement the net result of transactions which are squared up on FIFO basis is recognised as profit/loss in the account.

vii) Other Revenue

In respect of other heads of income, the Company follows the practice of recognising income on accrual basis.

(vi) Expenses

Expenses are recognised on accrual basis and provisions are made for all known losses and liabilities. Expenses incurred on behalf of other companies, in India, for sharing personnel, common services and facilities like premises, telephones, etc. are allocated to them at cost and reduced from respective expenses.

Similarly, expenses allocation received from other companies is included within respective expense classifications.

(vii) Borrowing costs

Borrowing costs that are directly attributable to the acquisition and/or construction of a qualifying asset, till the time such qualifying assets become ready for its intended use, are capitalised. Borrowing costs consists of interest and other cost that the Company incurred in connection with the borrowing of funds. A qualifying asset is one that necessarily

takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to the Statement of Profit and Loss as incurred basis the effective interest rate method.

(viii) Taxation

Tax expense recognised in Statement of Profit and Loss comprises the sum of deferred tax and current tax except to the extent it recognised in other comprehensive income or directly in equity.

Current tax comprises the tax payable or receivable on taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. Current tax is computed in accordance with relevant tax regulations. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received after considering uncertainty related to income taxes, if any. Current tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternate tax ('MAT') credit entitlement is recognised as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period. In the year in which MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT credit entitlement. This is reviewed at each balance sheet date and the carrying amount of MAT credit entitlement is written down to the extent it is not reasonably certain that normal income tax will be paid during the specified period.

Deferred tax is recognised in respect of temporary differences between carrying amount of assets and liabilities for financial reporting purposes and corresponding amount used for taxation purposes. Deferred tax assets are recognised on unused tax loss, unused tax credits and deductible temporary differences to the extent it is probable that the future taxable profits will be available against which they can be used. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously. Deferred tax relating to items recognised outside statement of profit and

loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity).

(ix) Employee benefits

Short-term employee benefits

Short-term employee benefits including salaries, short term compensated absences (such as a paid annual leave) where the absences are expected to occur within twelve months after the end of the period in which the employees render the related service, profit sharing and bonuses payable within twelve months after the end of the period in which the employees render the related services and non-monetary benefits for current employees are estimated and measured on an undiscounted basis.

Post-employment benefit plans are classified into defined benefits plans and defined contribution plans as under:

Defined contribution plans

The Company has a defined contribution plans namely provident fund, pension fund and employees state insurance scheme. The contribution made by the Company in respect of these plans are charged to the Statement of Profit and Loss.

Defined benefit plans

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. Under the defined benefit plans, the amount that an employee will receive on retirement is defined by reference to the employee's length of service and last drawn salary. The legal obligation for any benefits remains with the Company, even if plan assets for funding the defined benefit plan have been set aside. The liability recognised in the statement of financial position for defined benefit plans is the present value of the Defined Benefit Obligation (DBO) at the reporting date less the fair value of plan assets. Management estimates the DBO annually with the assistance of independent actuaries. Actuarial gains/losses resulting from re-measurements of the liability/asset are included in other comprehensive income.

Other long-term employee benefits

The Company also provides the benefit of compensated absences to its employees which are in the nature of long-term employee benefit plans. Liability in respect of compensated absences becoming due and expected to avail after one year from the Balance Sheet date is estimated in the basis of an actuarial valuation performed by an independent actuary using the projected unit credit method as on the reporting date. Actuarial gains and losses arising from experience and changes in actuarial assumptions are charged to Statement of Profit and Loss in the year in which such gains or losses are determined.

(x) Leases

Company as a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU assets have been separately presented in the Balance Sheet

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the ROU asset arising from the head lease.

For operating leases, rental income is recognised on a straight-line basis over the term of the relevant lease.

(xi) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss (interest and other finance cost associated) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(xii) Foreign currency**Transactions and balances**

Foreign currency transactions are translated into the functional currency, by applying the exchange rates on the foreign currency amounts at the date of the transaction. Foreign currency monetary items outstanding at the balance sheet date are converted to functional currency using the closing rate. Non-monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transaction.

Exchange differences arising on monetary items on settlement, or restatement as at reporting date, at rates different from those at which they were initially recorded, are recognised in the Statement of Profit and Loss in the year in which they arise.

Transition to Ind AS

The Company has elected to exercise the option for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP.

(xiii) Impairment of assets**a) Impairment of non-financial assets**

The company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset required, the company estimates the assets recoverable amount. An asset's recoverable is the higher of an asset's fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets.

If such assets are considered to be impaired, the impairment to be recognized in the statement of Profit and loss is measured by the amount by which the carrying amount value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been

determined (net of any accumulated amortization or depreciation) has no impairment loss been recognized for the asset in prior years.

b) Impairment of financial assets

The company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit and loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. The company applies a simplified approach in calculating Expected Credit Losses (ECLs) on trade receivables. Therefore, the company does not track changes in credit risk, but instead recognize a loss allowance based on lifetime ECLs at each reporting date. The company established a provision matrix that is based on its historical credit loss experience, adjusted for forward looking factors specific to the debtors and the economic environment.

For all other financial assets, expected credit loss are measured at an amount equal to the 12 month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the statement of profit and loss.

(xiv) Financial instruments

A Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs. Subsequent measurement of financial assets and financial liabilities is described below.

Non-derivative financial assets**Subsequent measurement**

i. Financial assets carried at amortised cost – a financial asset is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss.

- ii. **Investments in equity instruments** – Investments in equity instruments which are held for trading are classified as at fair value through profit or loss (FVTPL). For all other equity instruments, the Company makes an irrevocable choice upon initial recognition, on an instrument by instrument basis, to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit or loss (FVTPL). Amounts presented in other comprehensive income are not subsequently transferred to profit or loss. However, the Company transfers the cumulative gain or loss within equity. Dividends on such investments are recognised in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment.

De-recognition of financial assets

Financial assets (or where applicable, a part of financial asset or part of a group of similar financial assets) are de-recognised (i.e. removed from the Company's balance sheet) when the contractual rights to receive the cash flows from the financial asset have expired, or when the financial asset and substantially all the risks and rewards are transferred. Further, if the Company has not retained control, it shall also de-recognise the financial asset and recognise separately as assets or liabilities any rights and obligations created or retained in the transfer.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

First loss default guarantee

First loss default guarantee contracts are contracts that require the Company to make specified payments to reimburse the bank and financial institution for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of an agreement. Such financial guarantees are given to banks and financial institutions, for whom the Company acts as 'Business Correspondent'.

These contracts are initially measured at fair value and subsequently measure at higher of:

- The amount of loss allowance (calculated as described in policy for impairment of financial assets)
- Maximum amount payable as on the reporting date to the respective bank/financial institution which is based on the amount of loans overdue for more than 75-90 days in respect to agreements with banks and financial institutions.

Further, the maximum liability is restricted to the cash outflow agreed in the agreement.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(xv) Operating segments

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Company), whose operating results are regularly reviewed by the Company's management to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. Operating segments of the Company are reported in a manner consistent with the internal reporting provided to the company's management.

(xvi) Share Based payment

The Employees Stock Option Scheme ("the Scheme") provides for grant of equity shares of the Company to whole-time directors and employees of the Company. The fair value of options granted under Employee Stock Option Plan is recognised as an employee benefits expense with a corresponding increase in other equity. The total amount to be expensed is determined by reference to the fair value of the options. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in Statement of Profit and Loss, with a corresponding adjustment to equity.

(xvii) Stock-in-trade

A financial instrument is classified as held for trading if it is acquired or incurred principally for selling or repurchasing in the near term, or forms part of a portfolio of financial instruments that are managed together and for which there is evidence of short-term profit taking, or it is a derivative not designated in a qualifying hedge relationship. Trading derivatives and trading securities are classified as held for trading and recognized at fair value.

(xviii) Equity investment in subsidiaries

Investments representing equity interest in subsidiaries are accounted for at cost in accordance with Ind AS 27 Separate Financial Statements.

(xix) Government grants

Grants and subsidies from the government are recognised when there is reasonable assurance that:

- the Company will comply with the conditions attached to them, and
- the grant/subsidy will be received.

Grant or subsidy relates to revenue, it is recognised as income on a systematic basis in profit or loss over the periods necessary to match them with the related costs, which they are intended to compensate.

2.2 New standards or amendments to the existing standards and other pronouncements:

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. As on 31st March 2026, there is no new standard notified or amendment to any of the existing standards under Companies (Indian Accounting Standards) Rules, 2015

D. Estimation of fair values

The Company obtains independent valuations for each of its investment property by external, independent property valuers, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued.

Fair market value is the amount expressed in terms of money that may be reasonably be expected to be exchanged between a willing buyer and a willing seller, with equity or both. The valuation by the valuer assumes that Company shall continue to operate and run the assets to have economic utility.

Notes to the standalone financial statements for the year ended March 31, 2026

(All amounts are Rupees in lacs unless otherwise stated)

Valuation technique:

Under the market comparable method (or market comparable approach), a property's fair value is estimated based on comparable transactions. The market comparable approach is based upon the principle of substitution under which a potential buyer will not pay more for the property than it will cost to buy a comparable substitute property. In theory, the best comparable sale would be an exact duplicate of the subject property and would indicate, by the known selling price of the duplicate, the price for which the subject property could be sold. The unit of comparison applied by the Company is the price per square metre (sqm).

Fair value hierarchy:

The fair value measurement for the investment property has been categorised as a Level 2 fair value based on the inputs to the valuation technique used.

The valuation techniques and the inputs used in the fair value measurement categorised within Level 2 of the fair value hierarchy is as follows:

Valuation technique

Market method

Observable inputs

Guideline rate (Per sq. m.) Similar piece of land rate (Per sq.m.)

Investment property consists of commercial office spaces in Mumbai and Bangalore. During financial year 2025-26, the company has revalued the investment property at fair value for disclosure purpose and is based on the valuation by a registered valuer as defined under Rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017.

Property at Mumbai with ICICI Bank Ltd. are pledged on behalf of Almondz Global Infra Consultant Ltd (AGICL) for credit facility.

Title Deeds of investment properties are in name of the Company.

C Contingent assets

The Company does not have any contingent assets as at March 31, 2026 and March 31, 2025.

D Financial Guarantee contracts (FGCs) as per Ind AS 109

The Company has given corporate guarantees of Rs.2548.09 lac (previous year Rs.1209.95 lacs) to the lenders of AGICL, wholly owned subsidiary of the Company(AGSL).

As per Ind AS 109, Financial Guarantee contracts are realised at fair value. The fair value of the guarantee will be the present value of the difference between the net contractual cash flows required under the loan & the net contractual cash flows that would have been required without the guarantee.

The corporate guarantee issued by the company was merely to fulfil the requirements of loan. It would not have resulted in savings in the interest rates.

Therefore the fair value of guarantee which represents the difference in the PV of interest payment over the period is nil.

As per Ind AS 109, FGCs should be initially recognised at fair value. Normally the transaction price is usually the fair value unless it is contrary to arm's length price. In our case, it is not possible to reliably identify the market price for similar financial guarantee identical to those its parent has given to its subsidiary.

Alternatively fair value can also be determined by estimating using a probability adjusted discounted cash flow analysis. However in our case this method too would not be applicable as the management of AGSL (Parent co issuing corporate guarantee on behalf of its subsidiary) intend that there is no probability of default by its subsidiaries due to its strong order book & cash flows in the foreseeable future.

40 Leases

The Company is lessee under various operating leases for five properties in various places over India.

The lease terms of these premises range from 1 to 5 years and accordingly are long-term leases. These lease agreements have varying terms and are usually renewable on mutually agreeable terms.

44 Employee benefits

The Company contributes to the following post-employment defined benefit plans in India.

A. Defined contribution plans:

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards provident fund and EDLI, which are defined contribution plans. The Company has no obligations other than to make the specified contributions. The contributions are charged to the statement of profit and loss as they accrue.

	March 31, 2026	March 31, 2025
Contribution to provident fund (Refer note 36)	28.05	55.39

Notes to the standalone financial statements for the year ended March 31, 2026

(All amounts are Rupees in lacs unless otherwise stated)

B. Defined benefit plan:

Gratuity

The Company operates a post-employment defined benefit plan for Gratuity. This plan entitles an employee to receive half month's salary for each year of completed service at the time of retirement/exit. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognize each period of service as giving rise to additional employee benefit entitlement and measures each unit separately to build up the final obligation.

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation for gratuity were carried out as at 31 March 2026. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

A. The following table set out the status of the defined benefit obligation

	March 31, 2026	March 31, 2025
Net defined benefit liability		
Liability for Gratuity	97.43	116.15

Notes to the standalone financial statements for the year ended March 31, 2026

(All amounts are Rupees in lacs unless otherwise stated)

C. Plan assets

The plan assets of the Company are managed by Tata AIG Life Insurance Company Ltd. (Fund) through a trust managed by the Company in terms of an insurance policy taken to fund obligations of the Company with respect to its gratuity plan.

Plan assets comprises of the following:

	March 31, 2026	% of Plan assets	March 31, 2025	% of Plan assets
Funds managed by insurer	81.64	100%	74.42	100%

On an annual basis, an asset-liability matching study is done by the Company whereby the Company contributes the net increase in the actuarial liability to the plan manager in order to manage the liability risk.

D. Actuarial assumptions

a) Economic assumptions

The principal assumptions are the discount rate and salary growth rate. The discount rate is based upon the market yields available on government bonds at the accounting date with a term that matches that of liabilities. Salary increase rate takes into account of inflation, seniority, promotion and other relevant factors on long term basis. Valuation assumptions are as follows which have been selected by the company.

	March 31, 2026	March 31, 2025
Discount rate	7.09%	6.62%
Expected rate of future salary increase	7.50%	7.50%
Expected rate of return on assets	7.09%	6.62%

The discount rate has been assumed at 'March 31, 2026: 7.09% (31 March 2025: 6.62%) which is determined by reference to market yield at the balance sheet date on government securities. The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

b) Demographic assumptions

	March 31, 2026	March 31, 2025
i) Retirement age (years)	65	65
ii) Mortality rates inclusive of provision for disability	IALM (2012-14)	
iii) Withdrawal rate (%)	11.00%	11.00%

E. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	As at March 31, 2026		As at March 31, 2025	
	Increase	Decrease	Increase	Decrease
Discount rate (1.00% movement)	-9.93	11.06	-10.57	11.86
Future salary growth (1.00% movement)	8.73	-8.02	8.94	-8.79
Withdrawal rate (1.00% movement)	0.73	-0.87	0.11	-0.22

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

Sensitivities due to mortality and withdrawals are not material and hence impact of change not calculated.

Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement and life expectancy are not applicable being a lump sum benefit on retirement.

Notes to the standalone financial statements for the year ended March 31, 2026

(All amounts are Rupees in lacs unless otherwise stated)

F. Expected maturity analysis of the defined benefit plans in future years

Particulars	As at March 31, 2026	As at March 31, 2025
Duration of defined benefit obligation		
Less than 1 year	20.48	18.54
Between 1-2 years	20.46	18.32
Between 2-5 years	57.20	53.71
Between 5-10 years	89.52	85.50
Over 10 years	105.66	113.21
Total	293.31	289.27

The weighted average duration of the defined benefit plan obligation at the end of the reporting period is 8.15 years (March 31, 2025: 8.89 years).

45 Operating segments

A Basis of segmentation

Segment information is presented in respect of the Company's key operating segments. The operating segments are based on the Company's management and internal reporting structure. The chief operating decision maker identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly. All operating segments' operating results are reviewed regularly by the Board of Directors to make decisions about resources to be allocated to the segments and assess their performance.

The 'Board of Directors' have been identified as the Chief Operating Decision Maker (CODM), since they are responsible for all major decision with respect to the preparation and execution of business plan, preparation of budget, planning, expansion, alliance, joint venture, merger and acquisition, and expansion of any facility.

The Board of Directors examines the Company's performance both from a product and geographic perspective and have identified the following reportable segments of its business:

The following summary describes the operations in each of the Company's reportable segments:

Reportable segments

Debt and equity market operations

Corporate finance/ advisory fees

Wealth Advisory / Broking activities

B Information about reportable segments

Segment assets, segment liabilities and Segment profit and loss are measured in the same way as in the financial statements.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit (before tax), as included in the internal management reports that are reviewed by the Group's Board of Directors. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Inter-segment pricing, if any, is determined on an arm's length basis.

(All amounts are Rupees in lacs unless otherwise stated)

Level 1: It includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. The fair value of financial assets and liabilities included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes of similar instruments.

The Company's borrowings have been contracted at floating rates of interest. Accordingly, the carrying value of such borrowings (including interest accrued but not due) which approximates fair value.

The carrying amounts of trade receivables, trade payables, cash and cash equivalents and other financial assets and liabilities, approximates the fair values, due to their short-term nature. Fair value of financial assets and security deposits is similar to the carrying value as there is no significant differences between carrying value and fair value.

The fair value for security deposits were calculated based on discounted cash flows using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit risk.

Valuation processes

The Management performs the valuations of financial assets and liabilities required for financial reporting purposes on a periodic basis, including level 3 fair values.

b). Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk
- Interest rate risk

Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors have authorised senior management to establish the processes and ensure control over risks through the mechanism of properly defined framework in line with the businesses of the company.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risks limits and controls, to monitor risks and adherence to limits. Risk management policies are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Company has policies covering specific areas, such as interest rate risk, foreign currency risk, other price risk, credit risk, liquidity risk, and the use of derivative and non-derivative financial instruments. Compliance with policies and exposure limits is reviewed on a continuous basis.

(i) Credit risk

The maximum exposure to credit risks is represented by the total carrying amount of these financial assets in the balance sheet

Particulars	As at March 31, 2026	As at March 31, 2025
Trade receivables	3,213.80	2,300.89
Cash and cash equivalents	341.98	587.16
Bank balances other than cash and cash equivalents	51.18	56.60
Investments	11,678.51	11,214.59
Inventories	-	-
Loans	19.13	19.64
Other financial assets	2,683.93	4,482.65

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

The Company's credit risk is primarily to the amount due from customer and investments. The Company maintains a defined credit policy and monitors the exposures to these credit risks on an ongoing basis. Credit risk on cash and cash equivalents is limited as the Company generally invests in deposits with scheduled commercial banks with high credit ratings assigned by domestic credit rating agencies.

Notes to the standalone financial statements for the year ended March 31, 2026

(All amounts are Rupees in lacs unless otherwise stated)

b). Financial risk management (continued)

The maximum exposure to the credit risk at the reporting date is primarily from trade receivables. Trade receivables are unsecured and are derived from revenue earned from customers primarily located in India. The Company does monitor the economic environment in which it operates. The Company manages its Credit risk through credit approvals, establishing credit limits and continuously monitoring credit worthiness of customers to which the Company grants credit terms in the normal course of business.

On adoption of Ind AS 109, the Company uses expected credit loss model to assess the impairment loss or gain. The Company establishes an allowance for impairment that represents its expected credit losses in respect of trade receivable. The management uses a simplified approach (i.e. based on lifetime ECL) for the purpose of impairment loss allowance, the company estimates amounts based on the business environment in which the Company operates, and management considers that the trade receivables are in default (credit impaired) when counterparty seems partly or fully doubtful to pay its obligations.

When a trade receivable is credit impaired, it is written off against trade receivables and the amount of the loss is recognised in the income statement. Subsequent recoveries of amounts previously written off are credited to the income statement.

Trade receivables as at year end primarily relate to revenue generated from rendering of services. Trade receivables are generally realised within the credit period.

This definition of default is determined by considering the business environment in which entity operates and other macro-economic factors. Further, the Company does not anticipate any material credit risk of any of its other receivables.

Movement in the allowance for impairment in respect of trade receivables:

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Balance at the beginning	2.15	31.00
Impairment loss recognised / (reversed)	1.82	-28.84
Balance at the end	3.97	2.15

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are fallen due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company believes that its liquidity position, including total cash (including bank deposits under lien and excluding interest accrued but not due) of Rs.393.16 lac as at March 31, 2026 (March 31, 2025: Rs.643.76 lac) and the anticipated future internally generated funds from operations will enable it to meet its future known obligations in the ordinary course of business.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. The Company's policy is to regularly monitor its liquidity requirements to ensure that it maintains sufficient reserves of cash and funding from group companies to meet its liquidity requirements in the short and long term.

The Company's liquidity management process as monitored by management, includes the following:

- Day to day funding, managed by monitoring future cash flows to ensure that requirements can be met.
- Maintaining rolling forecasts of the Company's liquidity position on the basis of expected cash flows.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and includes interest accrued but not due on borrowings.

Total	5,460.60	5,231.18	229.42	5,460.60

The above amounts reflects the contractual undiscounted cash flows which may differ from the carrying value of the liabilities at the reporting date.

iii). Market risk

Market risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, the Company mainly has exposure to one type of market risk namely: interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk.

Exposure to interest rate risk

The Company's interest rate risk arises majorly from the term loans from banks carrying floating rate of interest. These obligations exposes the Company to cash flow interest rate risk. Since the Company has no variable borrowing rates in the current year, the Company is not exposed to interest rate risk.

48 Capital Management

For the purpose of the Company's capital management, capital includes issued equity share capital and all other equity reserves attributable to the equity holders of the Company.

Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

To maintain or adjust the capital structure, the Company may return capital to shareholders, raise new debt or issue new shares.

The Company monitors capital on the basis of the debt to capital ratio, which is calculated as interest-bearing debts divided by total capital (equity attributable to owners of the parent plus interest-bearing debts).

Particulars	As at March 31, 2026	As at March 31, 2025
Borrowings	2,796.33	2,200.85

Opinion

We have audited the Consolidated financial statements of ALMONDZ GLOBAL SECURITIES LIMITED (hereinafter referred to as "the holding company"), its subsidiaries (the holding company and its subsidiaries together referred to as "the group") and its associates, which comprising of the consolidated balance sheet as at 31st March 2026, and the consolidated statement of Profit and Loss (Including Other Comprehensive Income), the consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information

In our opinion and to under section 133 of under section 133 of the Act explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements and on the other financial information of the subsidiaries and associate the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the consolidated state of affairs of the Group and its associate, as at 31 March 2026, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated

Ind AS financial statements for the financial year ended March 31, 2026. In our opinion, there are no key audit matters to be communicated in our report.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the Annual Report but does not include the consolidated Ind AS financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the consolidated Ind AS financial statements, or our knowledge obtained in the audit otherwise appears to be materially misstated.

When we read such other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and to comply with the relevant applicable requirements of the standard on auditing for auditor's responsibility in relation to other information in documents containing audited Ind AS financial statements. We have nothing to report in this regard.

Responsibility of the Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Ind AS financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group and its associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with [the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of

adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated Ind AS financial statements the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, Or has no realistic alternative but to do so.

That respective Board of Directors of the companies included in the Group and its associates are also responsible for overseeing the financial reporting process of the Group and its associates.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We are also:

- Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding

Company has adequate internal financial controls with reference to Ind AS financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors, to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision, and performance of the audit of the Ind AS financial statements of such entities included in the consolidated Ind AS financial statements of which we are the independent auditors. For the other entities included in the consolidated Ind AS financial statements, which have been audited by other auditors, such other.

Auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Annexure - A to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of ALMONDZ GLOBAL SECURITIES LIMITED as of and for the year ended March 31, 2026, we have audited the internal financial controls over financial reporting of ALMONDZ GLOBAL SECURITIES LIMITED (hereinafter referred to as the "holding company") and its subsidiary companies, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to these consolidated financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, with reference to these consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the

internal financial controls over financial reporting with reference to these consolidated financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting with reference to these consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting with reference to these consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with references to these consolidated financial statements to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, and its subsidiary companies, have, maintained in all material respects, an adequate internal financial controls system over financial reporting with reference to these consolidated financial statements and such internal financial controls over financial reporting with reference to these consolidated financial statements were operating effectively as at 31 March 2026, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The company along with its subsidiaries its associates have been collectively hereinafter referred to as "the Group".

1. Basis of preparation

(i) Statement of compliance with Indian Accounting Standards:

These consolidated Ind AS financial statements ("the Financial Statements") have been prepared in accordance with the Indian Accounting Standards ('Ind AS') as notified by Ministry of Corporate Affairs ('MCA') under Section 133 of the Companies Act, 2013 ('Act') read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provisions of the Act. The Group has uniformly applied the accounting policies for all the periods presented in these financial statements.

The financial statements for the year ended March 31, 2026 were authorised and approved for issue by the Board of Directors on May 22, 2026.

The significant accounting policies adopted for preparation and presentation of these financial statement are included in Note 2. These policies have been applied consistently applied to all the financial year presented in the financial statements except where newly issues accounting standard is initially adopted or revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

The Balance Sheet, the Statement of Changes in Equity, the Statement of Profit and Loss and disclosures are presented in the format prescribed under Division III of Revised Schedule III of the companies Act, as amended from time to time that are required to comply with Ind AS. The Statement of Cash Flows has been presented as per the requirements of Ind AS 7 Statement of Cash Flow.

The financial statements have been prepared under the historical cost convention and accrual basis, except for certain financial assets and liabilities, defined benefit-plan liabilities and share-based payments being measured at fair value.

(ii) Principles of consolidation

The consolidated financial statements related to Almondz Global Securities Limited hereinafter referred to as the "Company" and its subsidiaries and its associates together hereinafter referred to as the "Group" comprises the following:

The consolidated financial statements incorporate the financial statements of the Parent company and all its subsidiaries (from the date control is gained, being the entities that it controls). Control is evidenced where the investor is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those return through its power over the investee. The financial statements of the subsidiaries are prepared for the same reporting year as the parent company.

Where necessary, adjustments are made to the financial statements of subsidiaries to align the accounting policies in line with accounting policies of the parent company

The financial statements of subsidiaries acquired or disposed-off during the year are included in the consolidated financial statements from the effective date of acquisition or up to the effective date of disposal, as appropriate. Intra group balances and transactions, and any unrealised income and expenses arising from intra group transactions are eliminated in preparing the consolidated financial statements.

(iii) Financial and non-financial classification

All assets and liabilities have been classified and presented on the basis of liquidity as financial or non-financial as permitted by Division III of Schedule III to the Act.

(iv) Functional and presentation currency These consolidated financial statements are presented in Indian Rupees (₹), which is also the Group's functional currency. All amounts have been rounded-off to the nearest lacs, unless otherwise indicated.

(v) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities	Fair value
Net defined benefit (asset)/ liability	Fair value of plan assets less present value of defined benefit obligations

(vi) Use of estimates and judgements

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures. Actual results may differ from these estimates.

Significant management judgements

Recognition of deferred tax assets – The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilised.

Business model assessment - The Group determines the business model at a level that reflects how groups of financial assets are managed together to achieve a business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Group monitors financial assets

measured at amortised cost that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Group's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and accordingly prospective change to the classification of those assets are made.

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Classification of leases – Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the Group's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Group has concluded that no changes are required to lease period relating to the existing lease contract.

Expected credit loss (ECL) – The measurement of expected credit loss allowance for financial assets measured at amortised cost requires use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g. likelihood of customers defaulting and resulting losses). The Group makes significant judgements regarding the following while assessing expected credit loss:

- Determining criteria for significant increase in credit risk;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/ market and the associated ECL; and
- Establishing groups of similar financial assets for the purposes of measuring ECL.

Provisions – At each balance sheet date, based on the management judgment, changes in facts and legal aspects, the Group assesses the requirement of provisions against the outstanding contingent liabilities. However, the actual future outcome may be different from this judgement.

Significant estimates

Useful lives of depreciable/amortisable assets – Management reviews its estimate of useful lives, residual values and method of depreciation of depreciable/ amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets.

Defined benefit obligation (DBO) – Management's estimate of the DBO is based on several underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

2.1 Summary of significant accounting policies

(i) Stock-in-trade

A financial instrument is classified as held for trading if it is acquired or incurred principally for selling or repurchasing in the near term, or forms part of a portfolio of financial instruments that are managed together and for which there is evidence of short-term profit taking, or it is a derivative not designated in a qualifying hedge relationship. Trading derivatives and trading securities are classified as held for trading and recognised at fair value.

Goods are valued at lower of cost or net realisable value. Cost comprises of all cost of purchase, cost of conversion and other cost incurred in bringing them to their respective present location and condition. Cost is determined using FIFO method of inventory valuation.

Consumables are valued at lower of cost or net realisable value.

(ii) Cash and cash equivalents

Cash and cash equivalents consist of cash, bank balances in current and short term highly liquid investments that are readily convertible to cash with original maturities of three months or less at the time of purchase.

(iii) Provisions, contingent liabilities and contingent assets

Provisions are recognised only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Group or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are neither recognised nor disclosed except when realisation of income is virtually certain, related asset is disclosed.

(iv) Property, plant and equipment

Recognition and initial measurement

Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing

cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repair and maintenance costs are recognised in statement of profit and loss.

Subsequent measurement (depreciation method, useful lives and residual value)

Property, plant and equipment are subsequently measured at cost less accumulated depreciation and impairment losses. Depreciation on property, plant and equipment is provided on the written-down value method over the useful life of the assets as prescribed under Part 'C' of Schedule II of the Companies Act, 2013.

Asset class	Useful life
Building	60 years
Plant and machinery	5-15 years
Office equipment	5 years
Computer equipment	3 years
Furniture and fixtures	10 years
Vehicles	8-10 years

Depreciation is calculated on pro rata basis from the date on which the asset is ready for use or till the date the asset is sold or disposed.

The residual values, useful lives and method of depreciation are reviewed at the end of each financial year.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in the statement of profit and loss, when the asset is de-recognised.

Capital work-in-progress

Capital work-in-progress are carried at cost, comprising direct cost and related incidental expenses to acquire property, plant and equipment. Assets which are not ready for intended use are also shown under capital work-in-progress.

(v) Intangible assets

Recognition and initial measurement

Intangible assets are stated at their cost of acquisition. The cost comprises purchase price including license fees paid, import duties and other taxes (other than those subsequently recoverable from taxation authorities), borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use.

Subsequent measurement (amortisation method, useful lives and residual value)

Intangible assets are amortised over a period of 3 years from the date when the assets are available for use. The estimated useful life (amortisation period) of the intangible assets is arrived basis the expected pattern of consumption of economic benefits and is reviewed at the end of each financial year and the amortisation period is revised to reflect the changed pattern, if any.

Investment Property

Property that is held to earn rentals and for capital appreciation. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16's requirements for cost model.

(vi) Revenue from operations

Revenue is recognised upon transfer of control of promised product or services to customer in an amount that reflect the consideration which the Group expects to receive in exchange for those product or services at the fair value of the consideration received or receivable, which is generally the transaction price, net of any taxes/duties and discounts.

The Group disaggregates revenue from contracts with customers by industry verticals and nature of services .

Revenue from related parties is recognised based on transaction price which is at arm's length.

Revenue from fixed price, fixed time frame contracts where the performance obligation are satisfied over time and when there is no uncertainty as to measurement or collectivity of consideration is recognized as per percentage of completion method.

However, only for the purpose of matching expense with revenue, in some cases we provide consultancy services for preparing Detailed Project Report (DPR) –

- on a continuous basis to the authority,
- the duration of such services to be provided under the contract is more than three months and
- the same is against periodic payment of consultancy fee

Hence income on such incomplete DPR projects is recognized on percentage of completion method as unbilled revenue.

Advisory and consultancy services

Fee is booked on the completion of task/project as per the terms of agreement. However, where the percentage of completion is significant enough to ascertain the outcome reliably, revenue is recognised to the extent it can be accurately measured.

Wealth/broking activities

Income from broking on distribution operations is recognised on the closure of the issue of mutual funds, bonds, fixed deposits and other money market instruments. Income from stock broking operations is accrued on completion of transaction at the stock exchanges for commission from broking operations.

In the case of trading in bonds, the profit/ loss from the transaction is recognised on the closure of the deal and consequent delivery of the bond.

Income from investment banking activities and other fees is recognised as and when such services are completed / performed and as per terms of agreement with the client (i.e. when the performance obligation is completed).

Income from depository operations is accounted when the performance obligation is completed.

Commission (net of taxes and other statutory charges) income from distribution of financial products is recognised based on mobilisation and intimation received from clients/ intermediaries or over the period of service after deducting claw back as per the agreed terms.

Brokerage and other revenue from operations are recognised net of GST wherever applicable.

Trading in shares and securities

Revenue on account of trading in shares is recognised on the basis of each trade executed at the stock exchange during the financial year.

In respect of non-delivery based transactions such as derivatives and intraday, the profit and loss is accounted for at the completion of each settlement, however in case of an open settlement the net result of transactions which are squared up on FIFO basis is recognised as profit/loss in the account.

Eye services

Revenue from eyecare services is recognised in the profit and loss over the period of service in proportion to the stage of completion of the services at reporting date.

Fee is recorded at invoice value, net of discounts and taxes if any.

Revenue from related parties is recognised based on transaction price which is at arm's length.

Professional fees

Revenue from brokerage and other revenues from operation are recognised upon transfer of control of promised service to customer in an amount that reflect the consideration which the Group expects to receive in exchange for those services at the fair value of the consideration received or receivable, which is generally the transaction price, net of any discounts.

Revenue from commission

Revenue in respect of commissions received is recognised in profit and loss over the period of contract in proportion to the stage of completion of the services at the reporting date. The stage of completion is assessed as per the terms of the agreement. Fee is recorded at invoice value, net of discounts and taxes, if any.

Interest income

Under Ind AS 109 interest income is recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial assets other than credit-impaired assets and financial assets classified as measured at FVTPL.

The EIR in case of a financial asset is computed:

- a. As the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.
- b. By considering all the contractual terms of the financial instrument in estimating the cash flows.
- c. Including all fees received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Any subsequent changes in the estimation of the future cash flows is recognised in the Statement of profit and loss with the corresponding adjustment to the carrying amount of the assets.

Interest income on credit impaired assets is recognised by applying the effective interest rate to the net amortised cost (net of provision) of the financial asset.

Net gain on fair value changes

Any differences between the fair values of financial assets (including investments, derivatives and stock in trade) classified as fair value through the profit or loss ("FVTPL") (refer Note 35), held by the Group on the balance sheet date is recognised as an unrealised gain / loss. In cases there is a net gain in the aggregate, the same is recognised in "Net gains on fair value changes" under Revenue from operations and if there is a net loss the same is disclosed under "Expenses" in the statement of profit and loss.

However, net gain / loss on de-recognition of financial instruments classified as amortised cost is presented separately under the respective head in the Statement of profit and loss.

Dividend

Revenue is recognised when the Group's right to receive payment is established by the balance sheet date.

Other revenue

In respect of other heads of income, the Group follows the practice of recognising income on accrual basis.

(vii) Expenses

Expenses are recognised on accrual basis and provisions are made for all known losses and liabilities. Expenses incurred on behalf of other companies, in India, for sharing personnel, common services and facilities like premises, telephones, etc. are allocated to them at cost and reduced from respective expenses.

Similarly, expenses allocation received from other companies is included within respective expense classifications.

(viii) Borrowing costs

Borrowing costs that are directly attributable to the acquisition and/or construction of a qualifying asset, till the time such qualifying assets become ready for its intended use, are

capitalised. Borrowing costs consists of interest and other cost that the Group incurred in connection with the borrowing of funds. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to the Statement of Profit and Loss as incurred basis the effective interest rate method.

(ix) Taxation

Tax expense recognised in Statement of Profit and Loss comprises the sum of deferred tax and current tax except to the extent it recognised in other comprehensive income or directly in equity.

Current tax comprises the tax payable or receivable on taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. Current tax is computed in accordance with relevant tax regulations. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received after considering uncertainty related to income taxes, if any. Current tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternate tax ('MAT') credit entitlement is recognised as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period. In the year in which MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT credit entitlement. This is reviewed at each balance sheet date and the carrying amount of MAT credit entitlement is written down to the extent it is not reasonably certain that normal income tax will be paid during the specified period.

Deferred tax is recognised in respect of temporary differences between carrying amount of assets and liabilities for financial reporting purposes and corresponding amount used for taxation purposes. Deferred tax assets are recognised on unused tax loss, unused tax credits and deductible temporary differences to the extent it is probable that the future taxable profits will be available against which they can be used. This is assessed based on the Group's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets and liabilities are offset only if

there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity).

(x) Employee benefits

Short-term employee benefits

Short-term employee benefits including salaries, short term compensated absences (such as a paid annual leave) where the absences are expected to occur within twelve months after the end of the period in which the employees render the related service, profit sharing and bonuses payable within twelve months after the end of the period in which the employees render the related services and non-monetary benefits for current employees are estimated and measured on an undiscounted basis.

Post-employment benefit plans are classified into defined benefits plans and defined contribution plans as under:

Defined contribution plans

The Group has a defined contribution plans namely provident fund, pension fund and employees state insurance scheme. The contribution made by the Group in respect of these plans are charged to the Statement of Profit and Loss.

Defined benefit plans

The Group has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. Under the defined benefit plans, the amount that an employee will receive on retirement is defined by reference to the employee's length of service and last drawn salary. The legal obligation for any benefits remains with the Group, even if plan assets for funding the defined benefit plan have been set aside. The liability recognised in the statement of financial position for defined benefit plans is the present value of the Defined Benefit Obligation (DBO) at the reporting date less the fair value of plan assets. Management estimates the DBO annually with the assistance of independent actuaries. Actuarial gains/losses resulting from re-measurements of the liability/asset are included in other comprehensive income.

Other long-term employee benefits

The Group also provides the benefit of compensated absences to its employees which are in the nature of long-term employee benefit plans. Liability in respect of compensated absences becoming due and expected to avail after one year from the Balance Sheet date is estimated in the basis of an actuarial valuation performed by an independent actuary using the projected unit credit method as on the reporting date. Actuarial gains and losses arising from experience and changes in actuarial assumptions are charged to Statement of Profit and Loss in the year in which such gains or losses are determined.

(xi) Leases

Group as a lessee

The Group's lease asset classes primarily consist of leases for land and buildings. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the

right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Group has substantially all the economic benefits from use of the asset through the period of the lease and
- (iii) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognises a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Group changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Group as a lessor

Leases for which the Group is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the ROU asset arising from the head lease.

For operating leases, rental income is recognised on a straight-line basis over the term of the relevant lease.

(xii) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss (interest and other finance cost associated) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(xiii) Foreign currency

Transactions and balances

Foreign currency transactions are translated into the functional currency, by applying the exchange rates on the foreign currency amounts at the date of the transaction. Foreign currency monetary items outstanding at the balance sheet date are converted to functional currency using the closing rate. Non-monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transaction.

Exchange differences arising on monetary items on settlement, or restatement as at reporting date, at rates different from those at which they were initially recorded, are recognised in the Statement of Profit and Loss in the year in which they arise.

Transition to Ind AS

The Group has elected to exercise the option for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP.

(xiv) Impairment of assets

a) Impairment of non-financial assets

At each reporting date, the Group assesses whether there is any indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset required, the Group estimates the assets recoverable amount. An asset's recoverable is the higher of an asset's fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets.

If such assets are considered to be impaired, the impairment to be recognised in the Statement of profit and loss is measured by the amount by which the

carrying amount value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) has no impairment loss been recognised for the asset in prior years.

b) Impairment of financial assets

The Group recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit and loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. The Group applies a simplified approach in calculating Expected Credit Losses (ECLs) on trade receivables. Therefore, the Group does not track changes in credit risk, but instead recognise a loss allowance based on lifetime ECLs at each reporting date. The Group established a provision matrix that is based on its historical credit loss experience, adjusted for forward looking factors specific to the debtors and the economic environment.

For all other financial assets, expected credit loss are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in the Statement of profit and loss.

(xv) Financial instruments

A Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs. Subsequent measurement of financial assets and financial liabilities is described below.

Non-derivative financial assets

Subsequent measurement

i. Financial assets carried at amortised cost – a financial asset is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss.

- ii. **Investments in equity instruments** – Investments in equity instruments which are held for trading are classified as at fair value through profit or loss (FVTPL). For all other equity instruments, the Group makes an irrevocable choice upon initial recognition, on an instrument by instrument basis, to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit or loss (FVTPL). Amounts presented in other comprehensive income are not subsequently transferred to profit or loss. However, the Group transfers the cumulative gain or loss within equity. Dividends on such investments are recognised in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment.

De-recognition of financial assets

Financial assets (or where applicable, a part of financial asset or part of a group of similar financial assets) are de-recognised (i.e. removed from the Group's balance sheet) when the contractual rights to receive the cash flows from the financial asset have expired, or when the financial asset and substantially all the risks and rewards are transferred. Further, if the Group has not retained control, it shall also de-recognise the financial asset and recognise separately as assets or liabilities any rights and obligations created or retained in the transfer.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

First loss default guarantee

First loss default guarantee contracts are contracts that require the Group to make specified payments to reimburse the bank and financial institution for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of an agreement. Such financial guarantees are given to banks and financial institutions, for whom the Group acts as 'Business Correspondent'.

These contracts are initially measured at fair value and subsequently measure at higher of:

- The amount of loss allowance (calculated as described in policy for impairment of financial assets)
- Maximum amount payable as on the reporting date to the respective bank/financial institution which is based on the amount of loans overdue for more than 75-90 days in respect to agreements with banks and financial institutions.

Further, the maximum liability is restricted to the cash outflow agreed in the agreement.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(xvi) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group), whose operating results are regularly reviewed by the Group's chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. Operating segments of the Group are reported in a manner consistent with the internal reporting provided to the CODM.

(xvii) Share based payment

The Employees Stock Option Scheme ("the Scheme") provides for grant of equity shares of the parent company to whole-time directors and employees of the parent company. The fair value of options granted under Employee Stock Option Plan is recognised as an employee benefits expense with a corresponding increase in other equity. The total amount to be expensed is determined by reference to the fair value of the options. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the Group revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in Statement of Profit and Loss, with a corresponding adjustment to equity.

(xviii) Equity investment in subsidiaries

Investments representing equity interest in subsidiaries are accounted for at cost in accordance with Ind AS 27 Separate Financial Statements.

(xix) Government grants

Grants and subsidies from the government are recognised when there is reasonable assurance that:

- the Group will comply with the conditions attached to them, and
- the grant/subsidy will be received.

Grant or subsidy relates to revenue, it is recognised as income on a systematic basis in profit or loss over the periods necessary to match them with the related costs, which they are intended to compensate.

2.2 New standards or amendments to the existing standards and other pronouncements:

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. As on 31st March 2026, there is no new standard notified or amendment to any of the existing standards under Companies (Indian Accounting Standards) Rules, 2015

46 Operating segments

A Basis of segmentation

Segment information is presented in respect of the Group's key operating segments. The operating segments are based on the Group's management and internal reporting structure. The chief operating decision maker identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly. All operating segments' operating results are reviewed regularly by the Board of Directors to make decisions about resources to be allocated to the segments and assess their performance.

The Board of Directors examines the Group's performance from a product perspective and have identified the following reportable segments of its business:

The following summary describes the operations in each of the Group's reportable segments:

Reportable segments	Operations
Debt and equity market operations	It comprises dealing/trading in shares and bonds which involves exposure to market risk.
Corporate finance/ advisory fees	It comprises merchant banking, underwriting commission, corporate and loan syndication fees and arranger of debts/bonds, etc. There are mainly in the nature of services involving no or negligible risk.
Wealth Advisory / Broking activities	It comprises stock and share broking on stock exchanges and other related ancillary services, broking and commission of mutual funds, equity initial public offerings, capital gain bonds, fixed deposits of government undertakings and RBI taxable bonds etc. These are mainly in the nature of services involving no or negligible risk.
Infrastructure advisory	It comprises advisory services in relation to infrastructure projects mainly in the nature of services involving no or negligible risk.
Healthcare services	It comprises establishing, administering and running eye-care hospitals.

B Information about reportable segments

Segment assets, segment liabilities and Segment profit and loss are measured in the same way as in the financial statements.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit (before tax), as included in the internal management reports that are reviewed by the Group's Board of Directors. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Inter-segment pricing, if any, is determined on an arm's length basis.

Notes to the consolidated financial statements for the year ended March 31, 2026

(All amounts are Rupees in lacs unless otherwise stated)

Level 1: It includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. The fair value of financial assets and liabilities included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes of similar instruments.

The Group's borrowings have been contracted at floating rates of interest. Accordingly, the carrying value of such borrowings (including interest accrued but not due) which approximates fair value.

The carrying amounts of trade receivables, trade payables, cash and cash equivalents and other financial assets and liabilities, approximates the fair values, due to their short-term nature. Fair value of financial assets which includes bank deposits (due for maturity after twelve months from the reporting date) and security deposits is similar to the carrying value as there is no significant differences between carrying value and fair value.

The fair value for security deposits were calculated based on discounted cash flows using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit risk.

Valuation processes

The Management performs the valuations of financial assets and liabilities required for financial reporting purposes on a periodic basis, including level 3 fair values.

b). Financial risk management

The Group has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk
- Interest rate risk

Risk management framework

The Group Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board of Directors have authorised senior management to establish the processes and ensure control over risks through the mechanism of properly defined framework in line with the businesses of the Group.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risks limits and controls, to monitor risks and adherence to limits. Risk management policies are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Group has policies covering specific areas, such as interest rate risk, foreign currency risk, other price risk, credit risk, liquidity risk, and the use of derivative and non-derivative financial instruments. Compliance with policies and exposure limits is reviewed on a continuous basis.

(i) Credit risk

The maximum exposure to credit risks is represented by the total carrying amount of these financial assets in the balance sheet

Particulars	As at March 31, 2026	As at March 31, 2025
Cash and cash equivalents	629.13	2,204.82
Bank balances other than cash and cash equivalents	91.96	95.44
Trade receivables	5,412.74	5,212.98
Inventories	-	-
Loans	441.08	34.66
Investments	14,282.62	12,187.47
Other financial assets	4,997.62	6,457.41

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers.

The Group's credit risk is primarily to the amount due from customer and investments. The Group maintains a defined credit policy and monitors the exposures to these credit risks on an ongoing basis. Credit risk on cash and cash equivalents is limited as the Group generally invests in deposits with scheduled commercial banks with high credit ratings assigned by domestic credit rating agencies.

Notes to the consolidated financial statements for the year ended March 31, 2026

(All amounts are Rupees in lacs unless otherwise stated)

b). Financial risk management (continued)

The maximum exposure to the credit risk at the reporting date is primarily from trade receivables. Trade receivables are unsecured and are derived from revenue earned from customers primarily located in India. The Group does monitor the economic environment in which it operates. The Group manages its Credit risk through credit approvals, establishing credit limits and continuously monitoring credit worthiness of customers to which the Group grants credit terms in the normal course of business.

On adoption of Ind AS 109, the Company uses expected credit loss model to assess the impairment loss or gain. The Company establishes an allowance for impairment that represents its expected credit losses in respect of trade receivable. The management uses a simplified approach (i.e. based on lifetime ECL) for the purpose of impairment loss allowance, the company estimates amounts based on the business environment in which the Company operates, and management considers that the trade receivables are in default (credit impaired) when counterparty seems partly or fully doubtful to pay its obligations.

When a trade receivable is credit impaired, it is written off against trade receivables and the amount of the loss is recognised in the income statement. Subsequent recoveries of amounts previously written off are credited to the income statement.

Wherever the provision matrix cannot be applied to calculate a default risk rate, the Group creates a provision on a certain percentage of its receivables, following the prudence approach of accounting.

Trade receivables as at year end primarily relate to revenue generated from rendering of services. Trade receivables are generally realised within the credit period.

This definition of default is determined by considering the business environment in which entity operates and other macro-economic factors. Further, the Group does not anticipate any material credit risk of any of its other receivables.

Movement in the allowance for impairment in respect of trade receivables:

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Balance at the beginning	247.42	222.93
Impairment loss recognised	-12.31	24.49
Balance at the end	235.11	247.42

(ii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are fallen due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group believes that its liquidity position, including total cash (including bank deposits under lien and excluding interest accrued but not due) of Rs.721.09 lac as at March 31, 2026 (March 31, 2025: Rs.2300.26 lac) and the anticipated future internally generated funds from operations will enable it to meet its future known obligations in the ordinary course of business.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. The Group's policy is to regularly monitor its liquidity requirements to ensure that it maintains sufficient reserves of cash and funding from group companies to meet its liquidity requirements in the short and long term.

The Group's liquidity management process as monitored by management, includes the following:

- Day to day funding, managed by monitoring future cash flows to ensure that requirements can be met.
- Maintaining rolling forecasts of the Group's liquidity position on the basis of expected cash flows.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and includes interest accrued but not due on borrowings.

b). Financial risk management (continued)

As at March 31, 2025	Carrying amount	Contractual cash flows		
		Less than one year	More than one year	Total
Payables				
Trade payables	1,086.44	1,086.44	-	1,086.44

Lease liabilities	612.56	178.67	433.89	612.56
Other financial liabilities	863.63	642.39	221.24	863.63
Total	10,064.12	9,210.09	854.03	10,064.12

The above amounts reflects the contractual undiscounted cash flows which may differ from the carrying value of the liabilities at the reporting date.

iii). Market risk

Market risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, the Group mainly has exposure to one type of market risk, viz. interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's main interest rate risk arises from non-current borrowings with variable rates, which expose the Group to cash flow interest rate risk.

Exposure to interest rate risk

The Group's interest rate risk arises majorly from the term loans from banks carrying floating rate of interest. These obligations exposes the Group to cash flow interest rate risk. Since there were no borrowings at floating interest rates, the Group is not exposed to interest rate risk as of the reporting date.

48 Capital Management

For the purpose of the Group's capital management, capital includes issued equity share capital and all other equity reserves attributable to the equity holders of the Group.

Management assesses the Group's capital requirements in order to maintain an efficient overall financing structure. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

To maintain or adjust the capital structure, the Group may return capital to shareholders, raise new debt or issue new shares.

The Group monitors capital on the basis of the debt to capital ratio, which is calculated as interest-bearing debts divided by total capital (equity attributable to owners of the parent plus interest-bearing debts).

Particulars	As at March 31, 2026	As at March 31, 2025
Borrowings	4,540	4,698

In line with the Ministry of Corporate Affairs (MCA) Circular No. 17/2020 dated April 13, 2020, the Notice calling the AGM/EGM has been uploaded on the website of the Company at www.almondzglobal.com. The Notice can also be accessed from the websites of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively. The AGM/EGM Notice is also disseminated on the website of CDSL (agency for providing the Remote e-Voting facility and e-voting system during the AGM/EGM) i.e. www.evotingindia.com.
- VII. The AGM/EGM has been convened through VC/OAVM in compliance with applicable provisions of the Companies Act, 2013 read with MCA Circular No. 14/2020 dated April 8, 2020 and MCA Circular No. 17/2020 dated April 13, 2020 and MCA Circular No. 20/2020 dated May 05, 2020.
- VIII. In continuation to this Ministry's **General Circular No. 20/2020** dated 05.05.2020, General Circular No. 02/2022 dated 05.05.2022 and General Circular No. 10/2022 dated 28.12.2022 and after due examination, it has been decided to allow companies whose AGMs are due in the Year 2023 or 2024, to conduct their AGMs through VC or OAVM on or before 30th September, 2024 in accordance with the requirements laid down in Para 3 and Para 4 of the General Circular No. 20/2020 dated 05.05.2020.

THE INSTRUCTIONS OF SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:

Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

Step 2: Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

- (i) The voting period begins on **Sunday, September 27, 2026 (9:00 A.M. IST) and will end on Tuesday, September 29, 2026 (5:00 P.M. IST)**. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of i.e. **Wednesday, September 23, 2026** may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

- (iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.
