**26. Overview of the entity's material responsible business conduct issues. Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, and approach to adapt or mitigate the risk along with its financial implications, as per the following format:**

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Energy efficiency and reduction of carbon emissions / GHG emissions in response to climate change	O	Hospital operations are energy-intensive because of continuous clinical services, critical equipment, HVAC loads, lighting and imaging systems etc. Improving energy efficiency helps reduce greenhouse gas emissions, supports regulatory alignment and lowers operating costs over time.	Deploy energy audits, LED retrofits, smart metering, HVAC optimisation, preventive maintenance, renewable energy sourcing where feasible and site-level monitoring of utility intensity.	Positive
2	Water and waste management (hazardous and non-hazardous)	R	Healthcare facilities generate biomedical, hazardous and domestic waste and are significant users of water. Weak waste segregation, treatment or reuse practices can lead to non-compliance, reputational damage, infection risk and higher operating cost.	Maintain strict segregation and labeling, authorised disposal through approved vendors, wastewater treatment and reuse, rainwater harvesting where feasible, 3R practices, periodic audits and compliance tracking with pollution control requirements.	Negative
3	Occupational health and safety	R	Clinical staff face exposure to infections, sharps injuries, chemicals, radiation, patient handling risks and fire/emergency hazards. A strong safety culture is essential to protect employees and ensure uninterrupted patient care.	Operate infection prevention and control protocols, PPE use, safety training, emergency drills, incident reporting, root-cause review, vaccination support, ergonomic controls and periodic health surveillance.	Negative
4	Privacy, cybersecurity and data security	R	Hospitals handle sensitive patient and employee data. Any unauthorised access, leak or cyber incident can result in legal exposure, regulatory scrutiny, service disruption and loss of trust.	Strengthen access controls, encryption, privileged-access management, backup and recovery protocols, vendor safeguards, awareness training, incident response and regular security audits.	Negative
5	Service quality, clinical outcomes and patient safety	O	High-quality and safe clinical care is central to the Group's value proposition. Better outcomes, fewer adverse events and a superior patient experience strengthen brand equity, referral strength and long-term loyalty.	Continue clinical audits, standard treatment protocols, infection control measures, patient feedback loops, quality committees, sentinel-event review, accreditation adherence and outcome tracking.	Positive

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
6	Digital transformation, technology and patient engagement	O	Technology-enabled care improves accessibility, process efficiency and patient reach. Digital platforms, telemedicine, analytics and digital outreach can deepen engagement and support scalable growth.	Invest in secure digital systems, interoperability, teleconsultation platforms, data analytics, automation, user training and process governance for technology adoption.	Positive
7	Risk management and business continuity	R	A healthcare business is exposed to operational, clinical, regulatory, technology, supply and external shocks. A structured risk management framework helps reduce disruption and protect continuity of care.	Maintain enterprise risk registers, review mitigation plans with stakeholders, monitor critical dependencies, stress-test business continuity and disaster recovery plans and conduct periodic management reviews.	Negative
8	Diversity, equity and inclusion	O	A diverse and inclusive workforce improves collaboration, innovation and decision-making. Inclusive employment practices also support employee engagement and reinforce the Group's employer brand.	Promote equitable hiring and promotion practices, inclusion initiatives, grievance redressal, anti-harassment measures, leadership accountability and regular workforce engagement.	Positive
9	Employee learning, talent attraction and retention	O	Healthcare quality depends on the availability of skilled doctors, nurses, technicians and support staff. Investment in learning and retention improves service continuity, productivity and patient experience.	Expand structured training, leadership development, clinical skill building, career pathways, succession planning, engagement surveys and retention-focused policies.	Positive
10	Medical ethics, legal and regulatory compliance	R	Operating in a highly regulated sector requires consistent compliance with healthcare, labour, environmental, data and anti-corruption requirements. Any breach can affect licenses, reputation and operating flexibility.	Strengthen code of conduct, compliance training, whistle-blower mechanisms, internal controls, policy reviews, ethics oversight and periodic legal/compliance audits.	Negative
11	Responsible procurement and supply chain resilience	R	Uninterrupted availability of medicines, consumables, diagnostics and equipment is critical in healthcare. Poor supplier governance or concentration risk can affect service delivery and cost stability.	Implement supplier due diligence, quality and ethical sourcing checks, critical inventory planning, alternate sourcing strategy, vendor performance review and procurement governance.	Negative

- (a) **Plastics (including packaging):**  
Rainbow Hospitals follows responsible waste management practices by ensuring that plastic waste generated across its operations is regularly sold to authorised plastic recyclers for environmentally sound processing. Given the nature of the healthcare services sector, plastic waste generation remains relatively low. To further reduce plastic consumption, all units are equipped with water dispensers and disposable paper cups, thereby eliminating the requirement for plastic PET bottles. In addition, the Company has phased out the use of plastic bags across general hospital operations, including carry bags, medicine packaging, and food distribution, while promoting the adoption of eco-friendly alternatives across all facilities.
- (b) **E-waste:**  
E-waste generated across the Company's units is systematically collected and stored in designated bins before being disposed of in accordance with the Company's ESG guidelines and E-Waste Management Policy. Rainbow has partnered with authorised third-party agencies to collect, recycle, and dispose of electronic waste in an environmentally responsible manner, ensuring compliance with applicable regulatory requirements.
- (c) **Hazardous waste:**  
As a healthcare service provider, the Company places strong emphasis on the safe handling and disposal of hazardous waste, particularly Biomedical Waste (BMW). All biomedical waste is disposed of through authorised hazardous waste handlers in strict compliance with the Biomedical Waste Management Rules, 2016, ensuring safe treatment, transportation, and disposal practices across operations.
- (d) **Other waste:**  
The Company ensures responsible management and disposal of other waste streams in alignment with applicable regulatory requirements and internal environmental policies. General waste is managed through authorised municipal waste management partners, while waste oil generated from operations is disposed of exclusively through certified vendors to prevent unauthorised handling or environmental contamination. General scrap materials are sold, as required, to authorised local recyclers, with detailed disposal records maintained to ensure transparency and traceability. Additionally, wastewater and other contaminated liquids are treated through in-house Sewage Treatment Plants (STP) and Effluent Treatment Plants (ETP) prior to safe discharge into municipal sewage systems, in accordance with established hospital policies and environmental norms.

### Leadership Indicators

**1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.**

In line with its Business Responsibility Policy, the Company follows a multi-stakeholder approach to responsible and sustainable business conduct, integrating economic, environmental, and social considerations into decision-making. Stakeholder consultation and engagement on ESG-related matters are undertaken by relevant functional departments through structured and ongoing interactions, as prescribed under the Policy, which emphasizes transparency, accountability, and value-driven engagement with stakeholders. Management periodically consolidates stakeholder feedback on key economic, environmental, and social issues and presents material insights to the Board during its meetings to support informed oversight and decision-making. Where stakeholder engagement is delegated, a defined internal reporting mechanism ensures that significant ESG-related concerns and outcomes are escalated to the Board. This approach enables continuous dialogue, enhances transparency, and reinforces the Company's commitment to addressing stakeholder expectations while advancing its sustainability objectives.

**2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into the policies and activities of the entity.**

Yes, the Company systematically integrates stakeholder feedback into its ESG strategy through tools like surveys, materiality assessments, and grievance mechanisms. By engaging diverse groups including employees, suppliers, and partners based on their influence and impact, management identifies high-priority environmental and social topics to guide decision-making. These insights directly shape sustainability policies and CSR initiatives, ensuring that operational actions remain aligned with stakeholder expectations and drive continuous improvement.

**3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.**

The Company prioritizes the needs of vulnerable and marginalized groups via inclusive, targeted community programs. We enhance access to vital services, promote equal opportunities, and engage these groups with culturally attuned outreach and grievance channels. Inclusivity drives every effort, delivering tangible benefits to underserved communities

<b>Total Scope 1 and Scope 2 emission intensity in terms of physical output</b> (in terms of number of beds)	emission intensity per number of bed	6.33	7.65

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes. Reasonable assurance has been carried out by Adwin Advisory Private Limited for Financial Year 2025-26.

## 8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Yes, the Company has undertaken Solar Rooftop (SRT) installations at its Rajahmundry facility as part of its ongoing commitment to environmental sustainability and clean energy adoption. In addition, solar water heaters have been incorporated into new projects to promote energy efficiency and reduce dependence on conventional energy sources. These renewable energy initiatives contribute significantly to the Company's carbon reduction efforts, with the Solar Rooftop installation expected to avoid approximately 64 tons of carbon emissions annually, while the solar water heaters are estimated to prevent nearly 140 tons of carbon emissions per year. Through these initiatives, the Company continues to strengthen its focus on sustainable infrastructure and responsible environmental stewardship.

## 9. Provide details related to waste management by the entity, in the following format:

Parameter	FY 2026	FY 2025
<b>Total Waste generated (in metric tonnes)</b>		
Plastic waste (A)	5.74	4.06

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes. Reasonable assurance has been carried out by Adwin Advisory Private Limited for Financial Year 2025-26.

**10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.**

Waste or scrap materials generated during operations primarily comprise discarded items after use, as well as residual packaging materials arising from product manufacturing and consumption. Based on the level of infection risk and hazardous intensity, waste is strategically classified into two broad categories: Hazardous Waste and Non-Hazardous Waste.

Hazardous Waste is further divided into Solid Hazardous Waste and Liquid Hazardous Waste. Solid Hazardous Waste includes Clinical Hazardous Waste, such as Biomedical Waste (BMW), and Non-Clinical Hazardous Waste, including e-waste and battery waste. Liquid Hazardous Waste comprises medical effluent waste and waste oil generated from operations.

Non-Hazardous Waste is categorised into Solid General Waste, General Scrap, and Liquid Waste, such as treated sewage water from Sewage Treatment Plants (STP). These classifications enable effective waste segregation, safe handling, regulatory compliance, and environmentally responsible disposal practices.

**Categories of Waste:**

**1. Solid Waste**

- **General Waste:** Includes dry waste such as wrappers, paper, and tissues, along with wet waste comprising biodegradable kitchen and food waste.
- **Biomedical Waste (BMW):** Consists of human anatomical waste and contaminated medical materials, managed in strict accordance with the organisation's Biomedical Waste Management Policy and applicable regulatory requirements.
- **Scrap Waste:** Includes recyclable materials such as iron, plastic, cardboard, and other reusable materials, which are disposed of through authorised recycling vendors.
- **E-Waste:** Comprises discarded electrical and electronic equipment, managed in line with ESG guidelines in collaboration with authorised recyclers, including M/s Trittech Systems.

**2. Liquid Waste**

- **Infected Liquids:** Generated from surgical procedures, laboratories, and clinical processes requiring specialised handling and treatment.
- **Waste Oils:** Includes used oil generated from kitchens and diesel generators, which is disposed of through authorised CPCB-approved vendors.
- **Wastewater:** Treated through in-house Sewage Treatment Plant (STP) and Effluent Treatment Plant (ETP) systems prior to safe discharge into municipal drainage systems.

**Waste Disposal Practices**

- General waste is routed through authorised municipal waste management channels.
- Biomedical waste is collected and disposed of through authorised regulatory partners in compliance with biomedical waste management regulations.
- E-waste is systematically collected, safely stored, and periodically disposed of in accordance with the organisation's ESG policy.
- Scrap materials and waste oils are managed through approved vendors, with disposal records maintained for monitoring and traceability.
- Wastewater is treated in compliance with applicable environmental norms to prevent pollution and contamination.

**FY26 Key Initiatives**

1. Transition towards the adoption of sustainable and low-carbon materials across operations.
2. Promotion of recyclable and eco-friendly bags to reduce environmental impact.
3. Increased use of eco-friendly toys in pediatric care areas.
4. Progressive phase-out of plastic bags across facilities and operations.
5. Strengthening waste segregation practices and ensuring authorised disposal of all waste streams.
6. Reinforcement of the "Reduce, Reuse, Recycle" principle across operational activities to enhance resource efficiency and sustainability.

- 11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:**

Sr. no.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval/ clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
Not applicable			

- 12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:**

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No)	Relevant Web link
Not applicable					

- 13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:**

Yes, the Company is in compliance with all the relevant statutory regulations and guidelines. There were no cases of non-compliances recorded during the financial year.

S. No.	Specify the law/regulation / guidelines which was not complied with	Provide details of the non-compliance	Any fines / penalties / action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
Yes, the Company is in compliance with all the relevant statutory regulations and guidelines. There were no cases of non-compliances recorded during the financial year.				

**Leadership Indicators****1. Water withdrawal, consumption and discharge in areas of water stress (in kilolitres):**

For each facility/ plant located in areas of water stress, provide the following information:

**i) Name of the area**

**ii) Nature of operations**

**iii) Water withdrawal, consumption and discharge in the following format:**

Parameter	FY 2026	FY 2025
<b>Water withdrawal by source (in kilolitres)</b>		
i) Surface Water	-	-

<b>Total Scope 3 emission intensity</b> (optional) – the relevant metric may be selected by the entity		-	-

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along with prevention and remediation activities.

NA

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency or reduce impact due to emissions/effluent discharge/waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Renewable Energy Commissioning (Solar Roof top) at Rajahmundry	Renewable Energy Commissioning (Solar Roof top) at Rajahmundry	Energy Generation $80 * 4 = 320$ kwh/day, 72000 kwh/year, Carbon emission going to be avoided - 85 M tons/year.
	AHU with VRV control system	Energy Conservation technology used in new projects such as Mahadevpura IVF, Hennur IP, Electronic City in Bangalore and Vijayawada & LB Nagar for efficient energy usage and less carbon emissions	Energy savings - 25 % than conventional HVAC
	Solar Water Heaters and Heat pumps	Green Energy has been implemented in new projects for efficient use of renewable energy and Energy efficient Heat pumps for water heating	<ul style="list-style-type: none"> <li>Heat pumps are 3.5 times more efficient than conventional electric heaters, resulting in energy savings of approximately 18,256 units across two newly commissioned units.</li> <li>Solar water heaters contributed additional savings of approximately 20,296 units of energy.</li> <li>These initiatives generated financial savings of around ₹1.6 lakh and helped avoid approximately 18 tonnes of carbon emissions.</li> </ul>
	LED Lighting system	We executed Energy efficient LED lighting system	50 % more efficient than CFL and conventional Tubes
	Fixing of Retrofit Emission control Device	we fixed RECD - Devices at stack point of DGs for controlling and minimising emissions	As per CPCB it would be 70 to 90 % reduction in emissions ( Particulate mater), co, HC and Nox

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

We prioritize comprehensive disaster management and business continuity to protect lives, assets, and essential healthcare services during natural or man-made crises. Our hospitals leverage a National Emergency Services Network and 24/7 trauma care to handle threats like earthquakes, floods, fires, chemical spills, cyberattacks, and pandemics, supported by annual site-specific risk assessments and updated response plans featuring evacuation protocols, communication strategies, and triage procedures.

#### Preparedness Measures:

Each facility creates tailored evacuation plans from centralized SOPs, conducts quarterly mock drills, and delivers safety training across scenarios. Partnerships with nearby hospitals enable smooth patient transfers during emergencies.

#### Risk Framework:

Our Enterprise Risk Management operates at Corporate, Regional, and Unit levels to identify and mitigate growth-threatening risks. The Audit, Risk & Compliance Committee and Executive Leadership Team review critical risks, while organization-wide Business Continuity and Disaster Management Plans minimize downtime, losses, and disruptions for swift recovery.

**6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.**

The Company has not conducted any formal assessment of value chain partners with respect to their direct or indirect environmental impacts during the reporting period..

**7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.**

NA

**8. How many Green Credits have been generated or procured:**

a. By the listed entity - Nil

b. By the top ten (in terms of value of purchases and sales, respectively) value chain partners - Nil

**PRINCIPLE 7:**

**Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent**

**Essential Indicators**

1. a. Number of affiliations with trade and industry chambers/associations.

10

- b. List the top 10 trade and industry chambers/associations (determined based on the total members of such body) the entity is a member of/ affiliated to.

S. No.	Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations (State/National)

2. Provide details of corrective action taken or underway on any issues related to anti-competitive conduct by the entity, based on adverse orders from regulatory authorities.

Name of authority	Brief of the case	Corrective action taken
	Not applicable	

**Leadership Indicators**

1. Details of public policy positions advocated by the entity:

S. No.	Public policy advocated	Method resorted for such advocacy	Whether information available in public domain? (Yes/No)	Frequency of Review by Board (Annually/ Half yearly/ Quarterly / Others – please specify)	Web Link, if available
-	-	-	-	-	-

**PRINCIPLE 8:****Businesses should promote inclusive growth and equitable development****Essential Indicators**

1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	SIA Notification No.	Date of notification	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
Not applicable					

2. Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:

S. No	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In INR)
Not applicable						

3. Describe the mechanisms to receive and redress grievances of the community.

Rainbow has established a comprehensive grievance redressal mechanism to ensure that concerns raised by local communities are addressed promptly and effectively. The key channels include:

1. **Multi-Channel Communication Access:**

Rainbow provides a dedicated email ID, toll-free number, and official social media handles through which community members can raise concerns. Any query or complaint received via these channels is promptly directed to the respective operational unit for resolution

2. **On-Ground Public Relations Support:**

Each operational unit is supported by a dedicated Public Relations Officer (PRO). When a concern is raised, the PRO ensures it is communicated to the relevant department or functionary and follows through to facilitate a timely resolution

3. **Engagement with Local Authorities:**

Community members also have the option to report concerns directly to relevant local government authorities such as the Police Department, Health Department, or Municipal Corporation. Rainbow fully cooperates with these authorities to resolve issues.

4. **Percentage of input material (inputs to total inputs by value) sourced from suppliers:**

	FY 2026	FY 2025
Directly sourced from MSMEs/ small producers	53%	62%
Directly from within India	100%	100%

5. **Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost**

Location	FY 2026	FY 2025
Rural	0	-
Semi-urban	0	-
Urban	1.2%	-
Metropolitan	98.7%	100%

(Place to be categorized as per RBI Classification System - rural / semi-urban / urban / metropolitan)

**Leadership Indicators**

1. Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):

Details of negative social impact identified	Corrective action taken
Not applicable	

2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

Sr. No.	State	Aspirational District	Amount spent (In INR)
Not applicable			

3. A. Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized/ vulnerable group? (Yes/ No)  
No
- B. From which marginalized /vulnerable groups do you procure?  
Not Applicable
- C. What percentage of total procurement (by value) does it constitute?  
Not Applicable

4. Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:

S. No.	Intellectual Property based on traditional knowledge	Owned/ Acquired (Yes/No)	Benefit shared (Yes / No)	Basis of calculating benefit share
-	Nil	Nil	Nil	Nil

5. Details of corrective actions taken or underway, based on any adverse order in intellectual property-related disputes wherein usage of traditional knowledge is involved.

Name of authority	Brief of the Case	Corrective action taken
Not Applicable		

6. Details of beneficiaries of CSR Projects:

S. No	CSR Project	No. of persons benefitted from CSR Projects	% of beneficiaries from vulnerable and marginalized groups
1	Support to Emerging Sports Talent – Sanjana Sirimalla from Telangana, India	1	100
2	Swarna Bharat Trust	887	45.65
3	Datri Blood Stem Cell Donors Registry	56	35.71

**PRINCIPLE 9:****Businesses should engage with and provide value to their consumers in a responsible manner****Essential indicators****1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.**

The Company has established a multi-channel customer feedback and grievance redressal mechanism through its website, dedicated email ID ([queries@rainbowhospitals.in](mailto:queries@rainbowhospitals.in)), call centre, SMS-based feedback, Google Business Profiles, social media platforms and its in-house application. All feedback and complaints are routed to the respective unit or department for timely resolution. The Company continues to strengthen its customer engagement framework through enhanced and centralised feedback management processes.

All feedback is shared with relevant teams for action, and the process is being upgraded with new, centralized touchpoints

**2. Turnover of products and/ services as a percentage of turnover from all products/services that carry information about:**

State	As a percentage to total turnover
Environmental and social parameters relevant to the product	
Safe and responsible usage	Not applicable
Recycling and/or safe disposal	

**3. Number of consumer complaints in respect of the following:**

	FY 2026		Remarks	FY 2025		Remarks
	Received during the year	Pending resolution at end of year		Received during the year	Pending resolution at end of year

Notes : (Includes past/pending cases; if received during the year, the total number of complaints/cases stood at 10 as on March 31, 2026)

**4. Details of instances of product recalls on account of safety issues:**

	Number	Reasons for recall
Voluntary recalls	0	-
Forced recalls	0	-

**5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.**

Rainbow Hospitals is committed to protecting personal privacy through a strong cybersecurity framework and data privacy policy. It follows industry standards with continuous monitoring, risk assessments, and staff training. The privacy policy, available at <https://www.rainbowhospitals.in/terms-and-conditions>, outlines how personal information is collected, used, and secured.

**6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty/ action taken by regulatory authorities on safety of products/services.**

None

**7. Provide the following information relating to data breaches:****a. Number of instances of data breaches**

NIL

**b. Percentage of data breaches involving personally identifiable information of customers**

NIL

**c. Impact, if any, of the data breaches**

NIL

**Leadership Indicators****1. Channels/platforms where information on products and services of the entity can be accessed (provide web link, if available).**

The website features details regarding the company's healthcare services. The link for the website is <https://www.rainbowhospitals.in/>

## Independent Assurance Statement

### Independent Assurance Statement to Rainbow Children's Medicare Limited on its BRSR Core Report for FY 2025-26

#### TO THE BOARD OF DIRECTORS OF RAINBOW CHILDREN'S MEDICARE LIMITED

1. We, Adwin Advisory Private Limited ("Adwin"), have undertaken a **reasonable assurance engagement** for RAINBOW CHILDREN'S MEDICARE LIMITED (the "Company"), pursuant to our engagement letter dated **January 31, 2026**, in respect of the selected sustainability information comprising the **nine BRSR Core indicators** (the "Identified Sustainability Information") for the period **April 1, 2025 to March 31, 2026** (the "Reporting Period").

The Identified Sustainability Information forms part of the Business Responsibility and Sustainability Report ("BRSR") prepared by the Company for the above-mentioned period. This engagement was conducted by our multidisciplinary team, including assurance practitioners, environmental engineers, and specialists.

#### 2. Identified Sustainability Information

The scope of our reasonable assurance engagement is limited to the nine BRSR Core indicators, as detailed in Appendix I of this report (the "Identified Sustainability Information"). The reporting boundary for these disclosures is in accordance with Question 13 of Section A: General Disclosures of the BRSR. Any specific exclusions or deviations from this boundary, where applicable, have been appropriately disclosed by the Company through notes under the respective questions in the BRSR.

#### 3. Criteria

The Identified Sustainability Information has been prepared by the Company in accordance with the following criteria:

- Regulation 34(2)(f) of the Securities and Exchange Board of India (the "SEBI") (Listing Obligations and Disclosure Requirements), Regulations, 2015 as amended;

- Business Responsibility and Sustainability Reporting Requirements for listed entities per Master Circular No. SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024 (the "SEBI Master Circular");
- SEBI Press Release PR No.36/2024 dated December 18, 2024; – Industry Standards on Reporting of BRSR Core as per SEBI Circular SEBI/HO/CFD/CFD-PoD-1/P/ CIR/2024/177 dated December 20, 2024; and
- SEBI Circular SEBI/HO/CFD/CFD - PoD- 1/P/ CIR/2025/42 dated March 28, 2025.

### **4. Management's Responsibility**

- The preparation, content, and presentation of the information included in the Report are the sole responsibility of the Company's management. Adwin has not participated in the preparation or development of any of the underlying information contained in the Report.
- The Company's management is also responsible for the preparation and presentation of the other information included in the BRSR, excluding the Identified Sustainability Information and our independent assurance report thereon.
- Our responsibility is limited to expressing an independent, reasonable assurance opinion on the text, data, and statements falling within the defined scope of this engagement, in accordance with the agreed terms of reference, and for the purpose of informing the Company's management. We do not accept or assume any responsibility beyond the scope of this engagement.
- This assurance statement should not be relied upon for assessing or interpreting the overall performance of the Company, except in relation to the specific matters covered within the defined scope of assurance.

### **5. Inherent Limitations**

The limited availability of well-established frameworks and practices for evaluating and measuring non-financial information may result in the use of varied, yet acceptable, measurement approaches and techniques. Consequently, this may impact the comparability of such information across different companies.

### **6. Our Independence and Quality Control**

We, Adwin Advisory Pvt. Ltd., have maintained our independence throughout this engagement and have complied with applicable ethical principles, including integrity, objectivity, professional competence and due care, confidentiality, and professional behavior, in accordance with relevant regulatory requirements and internationally accepted assurance practices. We confirm that our team possesses the necessary competencies, capabilities, and experience to perform this reasonable assurance engagement.

Further, we have established and maintain a quality management system designed to ensure compliance with applicable professional standards and regulatory requirements, including documented policies and procedures governing ethical conduct, engagement performance, and quality control.

### **7. Our Responsibility**

Our responsibility is to express a reasonable assurance opinion on the Identified Sustainability Information set out in Appendix I, based on the procedures performed and the evidence obtained during the course of our engagement.

We conducted our assurance engagement in accordance with International Standard on Assurance Engagements (ISAE) 3000 (Revised), Assurance Engagements other than Audits or Reviews of Historical Financial Information, and, where relevant, ISAE 3410, Assurance Engagements on Greenhouse Gas Statements (collectively referred to as the "Standards").

These Standards require that we plan and perform the engagement to obtain reasonable assurance as to whether the Identified Sustainability Information included in the Report has been prepared, in all material respects, in accordance with the defined criteria.

### **8. Reasonable Assurance**

A reasonable assurance engagement entails the identification and assessment of risks that could lead to material misstatement in the Identified Sustainability Information, whether arising from fraud or error, and the design and execution of procedures to address such risks in the given context. The nature and extent of procedures performed were determined based on our professional judgment and included, among others, making inquiries, observing key processes, reviewing relevant documentation, assessing the suitability of measurement and reporting methodologies, performing analytical procedures, and verifying information through

reconciliation with underlying records.

The assurance procedures are performed at the corporate level and for hospitals and locations listed in the reporting boundaries of BRSR under Section A of the BRSR Report.

Considering the nature and scope of this engagement, our procedures included the following:

- Gaining an understanding of the Identified Sustainability Information and the related disclosures presented in the Report;
- Obtaining an understanding of the assessment criteria and their suitability for the evaluation and / or measurement of the Identified Sustainability Information;
- Conducting discussions with relevant personnel, including members of management and teams such as environment, energy, sustainability, compliance, and human resources, as well as individuals responsible for the preparation of the Report;
- Understanding and assessing the design of key systems, processes, and internal controls established for capturing, processing, and reporting the Identified Sustainability Information across the corporate office and plants on a sample basis. This also involved determining whether such controls have been implemented through procedures performed beyond inquiries;
- Based on the above understanding and risk assessment, determining the appropriate nature, timing, and extent of further assurance procedures;
- Reviewing key assumptions, emission factors, and methodologies adopted for the quantification of greenhouse gas (GHG) emissions;
- Assessing the processes followed by the Company for compiling sustainability data, including verification through sample-based reconciliation with underlying records; and
- Evaluating, on a sample basis, the consolidation of data from various plants and offices within the defined reporting boundary to assess completeness of the information reported.

Based on the procedures performed and the evidence obtained, we believe that the evidence is sufficient and appropriate to provide a reasonable basis for our assurance opinion.

### **9. Exclusions**

Our assurance engagement was limited to the Identified Sustainability Information

set out in Appendix I, and accordingly, our opinion does not extend to the following:

- Any operations of the Company that fall outside the reporting boundary defined for the Identified Sustainability Information;
- Any sections, disclosures, or data (whether qualitative or quantitative) within the Report other than the Identified Sustainability Information; and
- Statements that describe the Company's views, beliefs, aspirations, expectations, or forward-looking statements.

### 10. Reasonable Assurance Conclusion

Based on the procedures we have performed and the evidence we have obtained, in our opinion, the Identified Sustainability Information listed in Appendix I and presented in the Report for the financial year April 1, 2025 to March 31, 2026 is prepared, in all material respects, in accordance with the Criteria as stated in point 3 above.

### 11. Restriction on Use

Our Reasonable Assurance report has been prepared and addressed to the Board of Directors of the Company at the request of the Company solely, to assist the Company in reporting on the Company's sustainability performance and activities. Accordingly, we accept no liability to anyone, other than the Company. Our Reasonable Assurance report should not be used for any other purpose or by any person other than the addressees of our report. We neither accept nor assume any duty of care or liability for any other purpose or to any other party to whom our report is shown or into whose hands it may come without our prior consent in writing.
