- vii. Pecuniary relationship directly or indirectly with the company, or relationship with the managerial personnel, if any: Nil.

3. OTHER INFORMATION

- i. Reasons of loss or inadequate profits: The accumulated losses are primarily due to unprecedented back-to-back droughts in 2016 and 2018, which reduced cane availability and consequently led to significant financial losses.

- ii. Steps taken or proposed to be taken for improvement:

The Company has undertaken several initiatives to strengthen operations and ensure sustainable growth. Cane development programs have been introduced to support farmers with improved seed varieties and timely inputs, while efficient irrigation practices are being promoted to reduce dependence on monsoon rainfall. Operations have been diversified into ethanol production and power generation from bagasse, thereby reducing reliance solely on sugar revenues. In addition, plant machinery has been upgraded and cost control measures implemented to enhance efficiency. The Company has also reinforced farmer relationships through timely payments and agronomic support, ensuring a stable and consistent supply of sugarcane.

- iii. Expected increase in productivity and profits in measurable terms: The productivity depends upon the vagaries of nature, namely, good monsoon, which in turn will help in higher sugarcane availability.

The ground water recharge in the command areas of the company has been encouraging for cane planting, thereby supporting factory operations for at least next two years.

- j) The Memorandum and Articles of Association of the Company, relevant resolutions passed by the Nomination and Remuneration Committee, the Audit Committee and the Board of Directors, the resolution and explanatory statement setting out the terms of appointment and remuneration of the Wholetime Director, which shall be treated as the written memorandum for the purpose of Section 190(1)(b) of the Companies Act, 2013, and such other documents referred to above, will be available for inspection by the members at the Registered Office of the Company during business hours on any working day.
- k) Mr.R.Varadarajan is interested in this subject. None of the other Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in this resolution.
- l) The Board of Directors recommends the resolution furnished in the agenda for approval of the shareholders by way of special resolution.

Item No.5 : Ratification of remuneration payable to M/s. S. Mahadevan & Co., Cost Auditors (Firm Registration No. 000007), for the financial year ending 31st March 2027

The Board of Directors, based on the recommendation of the Audit Committee, has approved the appointment of M/s. S. Mahadevan & Co., Cost Accountants (Firm Registration No. 000007), as Cost Auditors of the Company for the

financial year ending 31st March 2027. The Cost Auditors will audit the cost records maintained by the Company in respect of its products, namely sugar, cogeneration of power and industrial alcohol.

The Cost Auditors have confirmed their eligibility and consented to act as Cost Auditors for the financial year ending 31st March 2027, in accordance with the applicable provisions of the Companies Act, 2013.

In accordance with Section 148 of the Companies Act, 2013, read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors, as approved by the Board, is required to be ratified by the shareholders of the Company.

The total remuneration payable to M/s. S. Mahadevan & Co. for the said financial year is ₹2.50 lakhs (Rupees Two Lakhs Fifty Thousand only), exclusive of applicable taxes and reimbursement of out-of-pocket expenses. This amount is allocated as follows: ₹1.25 lakhs for sugar, ₹0.81 lakhs for cogeneration of power and ₹0.44 lakhs for industrial alcohol.

The remuneration has been increased from ₹2.00 lakhs paid in the previous year, considering that the last increase was made three years ago. The previous year's remuneration was ₹1.00 lakh for sugar, ₹0.65 lakhs for cogeneration of power and ₹0.35 lakhs for industrial alcohol.

None of the Directors, Key Managerial Personnel or their relatives are, in any way, concerned or interested, financially or otherwise, in the proposed resolution.

The Board recommends the resolution for approval of the shareholders as an Ordinary Resolution.

Total comprehensive income /(loss) for the period	106.48	707.76
Basic / Diluted earnings /(loss) per share of ₹10/- each, before / after extraordinary items	0.34	2.44

2) Dividend

In order to conserve the financial resources for operational requirements, the Board has not recommended any dividend for the year 2025-26. Also no amount has been transferred to reserves.

3) Financial Performance

During the financial year 2025-26, your Company earned a total income of ₹ 54,894.36 lakhs, as compared to ₹ 65,356.87 lakhs in the previous year. The net profit before tax was ₹ 191.67 lakhs, as against ₹ 1,107.57 lakhs in the previous year. The net profit after tax was ₹ 113.59 lakhs, compared to ₹ 809.10 lakhs in the previous year.

4) Operational Performance

The operational highlights of our sugar, cogeneration and distillery divisions for the year 2025-26 are as follows:

a) Sugar Division

Particulars	2025-26	2024-25
Sugarcane crushed (MT)	11,29,060	12,28,905
Recovery %	8.73	8.14
Sugar Produced (MT)	98,521	1,00,053
Sugar Sold (MT) - Domestic	88,523	1,17,347

During FY 2025-26, sugar production marginally declined by 1.53% compared to the previous year, mainly due to lower sugarcane availability. However, the average recovery improved from 8.14% in the previous year to 8.73% during FY 2025-26.

b) Cogeneration Division

In the fiscal year under review, the Cogeneration Division produced a total of 1,376 lakh units of power, compared to 1,488 lakh units in the previous year. The Company exported 831 lakh units during the year, as against 886 lakh units exported in the preceding year.

c) Distillery Division

During the year, the Distillery Division produced 177 lakh litres of alcohol, compared to 187 lakh litres produced in the previous year. The sales volume stood at 169 lakh litres, as against 192 lakh litres sold during the previous financial year.

5) Change in Registered Office

The Registered Office of the Company was shifted within the same city from "The Uffizi", 338/8, Avanashi Road, Peelamedu, Coimbatore, Tamil Nadu - 641004, to 1GV, 360, Kamaraj Road, Uppilpalayam, Coimbatore, Tamil Nadu - 641015, with effect from 1st September 2025.

6) Future Outlook

The management believes that no material uncertainty exists about the company's ability to continue as a going concern and accordingly it has prepared the financial statements on a going concern basis.

The ground water recharge in the command areas of the Company has been encouraging for cane planting, thereby supporting factory operations for at least next two years. However, emergence of Competitive crops with remunerative prices could pose a threat to the Sugarcane Cultivation. The company is taking special measures like providing subsidy to the farmers for cane planting, appointing service providers for the cultivation operations, promoting mechanical harvesting and arranging timely supply of quality seed materials. The company is also promoting wider row planting, drip irrigation, trash shredding, trash mulching and organic manure application. The company's R&D wing is also working on research and development of new and high yielding varieties.

In the sugar season 2025-26 (October to September), the Government had allowed an export of 1.5 million tons. With the production in Maharashtra and north Karnataka lower than the estimated numbers, the domestic prices took an upswing in the current seasons.

The ambitious ethanol program of the Central Government continues to be supportive to the sugar industry. The Government is formulating a policy for flexi-fuel vehicle adoption to mitigate energy supply disruptions. The draft rules in April 2026 were proposed to allow for higher ethanol blends, including the E85 and E100 (pure ethanol), for vehicles capable of handling them. However, transition to higher blends would require automotive manufacturers to introduce engines with appropriate technology.

Further, the Government policy on sugar would continue to have a significant bearing on the prospects of the industry in the coming years.

7) Fixed Deposits

Your Company has not accepted any deposits within the meaning of Section 73 of the Companies Act, 2013 (the Act) and the Companies (Acceptance of Deposits) Rules, 2014 during the year under review.

8) Auditors

Statutory Auditors: M/s. S. Krishnamoorthy & Co., Chartered Accountants, Coimbatore (Firm Registration No. 001496S), who were appointed as the Statutory Auditors of the Company, will complete their second consecutive tenure at the conclusion of the ensuing 40th Annual General Meeting (AGM). The Board places on record its sincere appreciation for the services rendered by M/s. S. Krishnamoorthy & Co. during their tenure as Statutory Auditors of the Company.

Based on the recommendation of the Audit Committee, the Board of Directors proposes the appointment of M/s. Karthikeyan & Jayaram, Chartered Accountants, Coimbatore (Firm Registration No. 007570S; Peer Review Certificate No. 017284, valid from 28th June 2024 to 30th June 2027), as the Statutory Auditors of the Company for a term of five consecutive financial years from 2026-27 to 2030-31, to hold office from the conclusion of the 40th AGM until the

conclusion of the 45th AGM, subject to the approval of the shareholders at the ensuing AGM.

The proposed auditors have confirmed their eligibility and willingness to act as Statutory Auditors of the Company in accordance with Sections 139 and 141 of the Companies Act, 2013, and the rules made thereunder.

The necessary resolution for their appointment is being placed before the shareholders for approval at the ensuing AGM.

Cost Auditors: Pursuant to Section 148 of the Companies Act, 2013, read with the Companies (Cost Records and Audits) Rules, 2014, the products of the Company viz., Sugar, Industrial Alcohol, and Cogeneration of Power, are subject to mandatory cost audit. The Company has maintained the cost records as prescribed by the Central Government.

Based on the recommendation of the Audit Committee, the Board of Directors has re-appointed M/s. S. Mahadevan & Co., Cost Accountants (Firm Registration No. 000007), as the Cost Auditors of the Company to conduct the cost audit for the financial year ending 31st March 2027. The remuneration payable to the Cost Auditors has been fixed by the Board, and the resolution seeking ratification of the same by the shareholders, pursuant to Section 148(3) of the Companies Act, 2013, is being placed at the ensuing Annual General Meeting.

Secretarial Auditor: Pursuant to Section 204 of the Companies Act, 2013, and Regulation 24A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (LODR), Mr. G. Soundarajan, Practising Company Secretary (Membership No. 13993; CP No. 4993; Peer Review No. 2101/2022), has conducted the Secretarial Audit of the Company for the financial year 2025-26. Mr. G. Soundarajan was appointed as the Secretarial Auditor of the Company for a term of five consecutive financial years from 2025-26 to 2029-30, as approved by the shareholders at the 39th Annual General Meeting held on 13th August 2025.

The Company has adopted a Code of Conduct for Prevention of Insider Trading with a view to regulate trading in securities by the Directors and Designated Persons of the Company, as per SEBI (Prohibition of Insider Trading) Regulations, 2015.

The code is available in the website of the Company www.rajshreesugars.com/Code-of-conduct-fair-disclosure

33) Risk Management Policy

The Company has formulated a Risk Management Policy as required under LODR. The Company has also formulated a specific policy on 'Forex and Interest Rate Risk Management Policy for Currency and Interest Rate Risk Management'.

The Board perceives the risk of recurring lower sugar recovery in the State of Tamil Nadu as compared to minimum recovery for which sugar mills are to pay the Fair and Remunerative Price. Lower capacity utilization is also a concern.

The Tamil Nadu Industry has also the option of producing Ethanol. The Tamil Nadu Government has issued an Ethanol Blending Policy 2023 to attract investments in molasses/grain-based ethanol programme to make the state self-sufficient in meeting the estimated annual requirement of 130 crore litres. However, the State has the limited scope as availability of molasses is limited.

The Tamil Nadu government has been allowing the manufacturers of Indian Made Foreign Liquor to import a major share of the requirement of Extra Neutral Alcohol (ENA) (raw material for processing into liquor) from other neighboring states, giving an unfair advantage to the other states due to comparatively lower rate of taxes. This has an adverse effect in the cash flow stream of sugar manufacturers in the state of Tamil Nadu, as ENA is also one of the main streams of revenue.

The details about the risks being faced by the Company are furnished in the 'Management Discussion & Analysis Report' (Annexure 6).

34) Significant & material orders passed by regulator or courts or tribunals impacting going concern status and companies operations in future.

There have been no significant and material orders passed by any Regulator / Court / Tribunal impacting the going concern status and company's operations in future.

35) Compliance with Secretarial Standards

The Company has complied with all applicable mandatory Secretarial Standards issued by the Institute of Company Secretaries of India and approved as such by the Central Government, as per the provisions of the Act.

36) Details of any applications made or proceedings pending under the Insolvency and Bankruptcy Code, 2016 during the year along with their status as at the end of the financial year.

The Company confirms that no such applications have been made, and there are no proceedings pending.

37) Details of difference between amount of the valuation done at the time of one time settlement and the valuation done while taking loan from the Banks or Financial Institutions along with the reasons thereof.

The Company affirms that no one-time settlement was entered into during the year under review.

38) Disclosure on Compliance with the Maternity Benefit Act, 1961

The Company has complied with the applicable provisions of the Maternity Benefit Act, 1961 and the Maternity Benefit (Amendment) Act, 2017.

39) Acknowledgement

Your Directors thank the Banks and Financial Institutions for their valuable and timely financial assistance and support provided by them to the Company. Your Directors also thank the cane growers, suppliers, Government Institutions and others for the cooperation extended to the Company. The Board also places on record its appreciation of the dedicated services rendered by the employees of the Company.

May **Goddess Lakshmi** shower her blessings for the continued prosperity of the Company.

ANNEXURE 1

TO THE BOARD'S REPORT FOR THE YEAR ENDED 31st MARCH 2026

A. CONSERVATION OF ENERGY

i) Steps taken or impact on conservation of energy

At Unit - I, Varadarajnagar:

- The old DC drive of Mill No. 1 was replaced with a new digital DC drive, resulting in energy saving of 38,880 units and cost saving of ₹1.56 lakhs during the financial year. The investment for this replacement was ₹14.00 lakhs.
- Conventional lights in the administrative office, boiling house and mill house were replaced with energy efficient LED lights, resulting in energy saving of 1,152 units and cost saving of ₹0.04 lakh during the financial year. The investment was ₹0.15 lakh.

At Unit - II, Mundiampakkam

- Metal halide light fittings in the centrifugal area and mill house lighting area were replaced with LED fittings, resulting in energy saving of 15,820 units and cost saving of ₹1.23 lakhs. The investment was ₹0.70 lakh.
- The Auxiliary cooling water (ACW) pump was operated through VFD for 45 days, resulting in energy saving of 16,200 units.

At Unit-III, Gingee:

- The crush removal system in the cane carrier was modified, reducing compressor operation and resulting in cost saving of approximately ₹1.50 lakhs.
- Old metal halide and sodium vapour lamps were replaced with LED lights, resulting in cost saving of approximately ₹3.10 lakhs.
- A high power consuming oil-cooled welding machine was replaced with a rectifier welding machine, resulting in cost saving of approximately ₹1.50 lakhs.

ii) Steps taken by the Company for utilizing alternate sources of energy:

The Company has fully integrated sugar factories where biomass, namely bagasse-based co-generation, is designed into the system, making it an inherent renewable energy-based manufacturing process and facility.

iii) Capital investment on energy conservation equipment:

The capital investment on energy conservation equipment was ₹14.15 lakhs at Unit-I, ₹0.70 lakhs at Unit-II and ₹2.70 lakhs at Unit-III.

B. TECHNOLOGY ABSORPTION

i) The efforts made towards technology absorption;

1. An automated drip fertigation system, supported by an automatic weather station, soil moisture sensors, and field cameras, was installed in an 11-acre block of the R&D Farm on a trial basis to study efficacy and improvements in cane yield.
2. Technology transfer through digital platform was commenced with the creation of an exclusive YouTube channel in the name of Rajshree Sugars. So far 5 videos and 2 short videos up loaded for technology promotion.
3. Under All India Co-ordinated Research Programme - 2019 series, 4 clones were shortlisted from 14 new test clones and multiplied for advanced stage evaluation at Varadaraj Nagar Unit.
4. A new set of 16 clones (AICRP 22000 series) with 4 standard varieties obtained under All India Co-ordinated Research Project on Sugarcane from ICAR Sugarcane Breeding Institute, Coimbatore and taken up for initial multiplication during March 2026 at Varadaraj Nagar for further evaluation.
5. Continual efforts are being made to identify suitable high yield and high sugar variety for the Company's Cane command area through Sweet Bloom 2.0 in collaboration with ICAR-Sugarcane Breeding Institute, Coimbatore and Adaptive Research Trials through Tamil Nadu Agricultural University, Coimbatore.

6. As part of the ICAR-SBI SISMA Sweet Bloom 2.0 Project - two promising clones (Co 21007, and Co 20010) from 1st of 17 clones were selected and multiplied for advanced stage of testing at Mundiampakkam. Testing of second set of 20 clones is in progress.
7. Since Mundiampakkam cane command area falls under East Coast Zone, for the 1st time clones were sourced from SRS, Vyyuru (ECZ Sugarcane Research Centre) to identify suitable variety for clay and Heavy clay soils.
8. To augment varietal research and production of quality high sugar variety seed production, an area of 15.38 acres were taken on lease at Koliyanur division, Mundiampakkam.
9. Studies conducted in 18 locations to study the effect of Lushcane, a bio stimulant for yield and quality improvement, at Unit II. Results revealed that 4 to 6 % yield improvement and 0.21% CCS % improvement over current package. Further studies in large scale is planned in 2026-27 FY.
10. Introduced a new post emergence herbicide viz., Ametryn 80% WG during 2024-25 FY to manage the grassy weeds, covering 1372 acres in 2025-26 FY.
11. Drip irrigation is being promoted as part of the major yield improvement technology and covered an area of 1080 acres at Unit I, 547 acres at Unit II and 356 acres at Unit III.
12. Due to erratic rainfall and underground water level, the company continues to promote drip irrigation, trash shredding and trash mulching to improve the crop yield and to protect the crop from drought. Also water gel is being purchased and supplied to farmers to retain the moisture and save the crop from drought situation.
13. Following sporadic incidences of red rot disease in SI 309 variety at Unit II, 22 tonnes of rejuvenated SI 309 seed material was brought from Unit I area and multiplied at Unit II to ensure disease - free seed material.
14. A New soil nutrient based mapping programme started at Mundiampakkam command area, 2200 samples covering all sugarcane growing villages were collected and the analysis is under progress.
15. 1025 tonnes of quality seed material was produced from R&D seed farm and supplied to farmers in all Units to maintain the varietal purity and sustain the varietal vigour.
16. With a well-designed soil laboratory and sophisticated equipment's, 717 soil samples, 22 organic manure samples and 21 water samples were analyzed, to assess fertility and provide precise fertilizer recommendation.
17. Produced and supplied 38400 packets of Tetrastichus howardi and 49030 cc of Trichogramma bio control agents, covering 7285 acres to manage borer pest incidence.
18. Chlorantraniliprole granule was supplied on 50 % subsidy basis, covering 3273 acres. The Company incurred ₹18.87 lakhs for this scheme to manage the borer pest and improve the crop growth.
19. Regular field surveys monitored the cane area for Pokkah Boeng disease, mealybuds, whitefly, and white grubs. Swift management measures prevented further spread.
20. Wider row coverage reached 42% to 69% across all three units in new planting areas, enabling mechanisation from planting to harvest.
21. Tested various new chemicals and identified Tebuconazole Sulphur and Thiamethoxam as effective against Pokkah Boeng and Crown Mealybug. These were supplied through company depots to avoid pest resistance from earlier recommended chemicals.
22. Two trash shredders, three disc off-barring machines, and 10 power weeders were purchased by farmers and entrepreneurs. The company also purchased and operates three sugarcane planters through entrepreneurs to reduce the planting expenses.
23. Low-cost solar fences (₹0.25 lakhs/ha) were installed on five farms in Theni and Mundiampakkam to protect crops from wild boars.
24. Introduced the concept of categorizing the plot in to good, medium and poor based on the crop growth stages and focusing on medium and poor plot for technology adoption is being implemented for improving the cane yield.
25. Advanced sugarcane cultivation training and field visits were organized for the cane teams across all units. 1116 farmers were participated in 48 farmer training programmes.
26. After a six-year hiatus, technology promotion via Audio-Visual (AV) Van was restarted. 929 programmes reached 10,485 farmers, showcasing videos on wider row planting, drip irrigation, and mechanisation.

ii) The benefits derived like product improvement, cost reduction, product development or import substitution;

xii.	Dematerialization of shareholding and liquidity.	As of 31st March 2026, a total of 3,21,63,366 equity shares, constituting 97.07 % of the overall equity share capital, are held in dematerialized form with NSDL and CDSL. Factors such as trading volume, outstanding shares, market depth, and institutional investor presence significantly impact the liquidity of a stock.
xiii.	Outstanding Global Depository Receipts / American Depository Receipts/ Warrants or any convertible instruments, conversion date and likely impact on equity.	Nil
xiv.	Commodity Price Risk or foreign exchanges risk and hedging activities:	Sugar being a commodity is exposed to cycles and price risk. To mitigate commodity risks, the company enters into advance sales with the reputed institutional buyers for a reasonable quantity. Government in June 2018 has fixed a minimum selling price of sugar at ₹ 29/kg for sale at factory gate in domestic market, below which no sugar mill can sell sugar. Later the price was increased to ₹ 31 per kg in February 2019 and continued to be operative during the period April 2025 to March 2026. The Government also continued the release order mechanism for controlling the sugar that can be sold in the market. This has helped in arresting the free fall of sugar price. Government has also allowed 1.5 million tons of export of sugar for the sugar season 2025-26 to clear the excess stock of sugar which will increase or stabilize the domestic price

ANNEXURE 6
TO THE BOARD'S REPORT FOR THE YEAR ENDED 31ST MARCH 2026
MANAGEMENT DISCUSSION AND ANALYSIS
Industry Scenario and Development
Global Sugar Outlook

The estimated Global sugar production as per the International Sugar Organization (ISO) is 181.29 million tons with an increase of 5.23 million tons over the previous season. The consumption is expected to grow by 0.55 million tons over the previous season; it is now estimated at 180.07 million tons. The overall global surplus is anticipated to be 1.22 million tons.

World Sugar Balance (Million Tons)

However, USDA forecasts a production of 189.3 million tonnes, which is 8.3 million tonnes over the last year production (181 million tonnes).

Sugar Sector in India

The estimated sugar production for the sugar season 2025-26 is around 292.92 lakh tons, up by 31.92 lakh tons from the previous year. Domestic consumption is estimated at 283 lakh tons compared to 281 lakh tons of the previous year. With the exports of around 7 lakh tons, the closing stock is expected to be around 52.92 lakh tons as compared to the opening stock of 50 lakh tons.

Sugar Sector in Tamil Nadu

Though the Rainfall in Tamil Nadu (TN) was higher, the intensity of that rainfall was concentrated for a shorter period which had an adverse effect on the crushing and recovery.

Sugar season	Cane Crushed (in lakh tons)	Sugar Production (in lakh tons)	Capacity Utilisation %
2011-12	254.55	23.79	99
2012-13	214.57	19.07	84
2013-14	157.60	14.13	61

2023-24	123.08	10.73	48
2024-25	83.74	6.83	33

- Cane Crushing of the State in SY 2024-25 was lower by 39.34 Lakh Tonnes and the average recovery was lower by 0.60% compared to SY 2023-24.
- The planting of sugarcane was affected by the unusually intense summer in the first half of 2024, which had reduced the required sugarcane in the first half of 2025-26 (as the gestation period of sugarcane growth is 12 months), and the impact of Cyclone Fengal in November 2024, which again affected the planting in the last quarter of 2024-25 (January '25 to March '25), which in turn reduced the required sugarcane in January '26 to March '26.

- Average Market price for Financial Year (FY) 2025-26 was around ₹ 3961 per quintal at 8.15% average sugar recovery, the RSF value (@ 75% of realization from sugar sales), and works out to ₹ 2970 per ton of cane. But average FRP payable is ₹ 3291 per ton of cane pegged to a minimum 9.50% recovery. The gap between FRP payable and RSF value is ₹ 321 per ton of cane which mills are unable to recover.
- The capacity utilization is around 33% which has resulted in the sub-optimal production of sugar, power and alcohol. Accordingly, the incidence of fixed cost has more than tripled compared to normal times, leaving correspondingly lower amount in the hands of mills for cane payment. TN sugar mills will have to pay FRP at 9.50% irrespective of the actual sugar recovery even if lower than 9.50%. TN sugar mills will have to pay for 95 Kgs of sugar equivalent whereas actually they recover only 81.5 Kgs.
- The loss works out to ₹535 per ton of cane crushed.

The adverse effect of the climate variations in Tamil Nadu brought down the Cane availability from 123 Lakh tons to 84 Lakh tons, a reduction of 39 Lakh tons and the Recovery from 8.75% to 8.15%.

Our company also recorded a lower crushing of 11.29 Lakh tons in FY 2025-26 as against 12.29 Lakh tons in FY 2024-25 with a recovery of 8.73% as against 8.14% in the previous year.

Government measures in the Sugar Industry

The Central & State Governments had announced a slew of measures to support the sugar industry last year :

a) Central Government Ethanol Blending Programme

In an effort to support the sugar mills for a sustainable operation, the Government has persisted with its ethanol blending programme.

In EY 2024-25 ended 31st October 2025, OMCs have blended a total of 1040 Crore Litres of Ethanol achieving a national average of 19.24%.

In the current Ethanol Year 2025-26 (November '25 to October '26), OMCs have blended 328 Crore Litres achieving a National average of 19.98% till 31st March 2026.

b) Tamil Nadu state sugarcane policy

In FY 2025-26, the TN Government continued the transitional production subsidy introduced in 2020-21 to benefit all registered farmers who had supplied sugarcane during 2025-26 sugar season with the previous year subsidy of ₹349 per ton of sugarcane,

Opportunities :

The increase in domestic prices due to lower production and firm World sugar prices, continues to be an opportunity for the industry to sustain and increase margins.

Threats

The unpredictable climate variations, rainfall pattern & low recovery are threats to the sustainable operation of the Industry. International weather pattern suggests that this year would be a worst El Nino Year in the last 140 years.

Sugarcane Price

The Central Government has increased the 2025-26 season's FRP to ₹355/- per quintal for a basic recovery rate of 10.25% providing a premium of ₹3.55 per quintal for each 0.1 % increase in recovery over and above 10.25% and reduction in FRP at the same rate for each 0.1% decrease in the recovery rate till 9.50%. However, in case of the mill with a recovery of lower than 9.50%, the price remains pegged to this minimum recovery at ₹329 per quintal for the 2025-26 season.

Power

The Company continues to export power to third party customers from the power plant at Mundiampakkam. This has ensured receipt of timely payment and support the working capital requirement.

The Company continues to export power to State Grid from the power plant at Gingee under the power purchase agreement. The applicable power tariff rate is approved by State Regulatory Commission from time to time during the year, the Tamil Nadu Electricity Regulatory Commission (TNERC) has issued its tariff order on 22.09.2025 for the control period from the date of the order to 31.3.2027, according to which the revised rate for the power plant at Gingee is at ₹6.59 per unit as against the previous rate of ₹5.72 per unit.

Outlook

The country is set to produce 29.29 million tons in the current season 2025-26. With an export possibility of 0.7 million tons and a consumption figure at 28.3 million tons, it would leave the industry with a closing stock at 5.29 million tons.

Risk Analysis

The major risks faced by the industry include sugarcane availability, sugar recovery, price realization, regulatory control by Government and financial liquidity amongst others.

For managing such risks emanating from such a volatile environment, the company has put in place a dynamic and robust management process for review at periodic intervals.

Sugar Price Realization Risk

The perceived risk on sugar price realization is lower given the outlook of lower stock available.

Risk mitigation

To de-risk the challenges of cyclicity in the sugar business, the downstream plants installed for producing alcohol and cogeneration of power by using byproducts of sugar production viz., molasses and bagasse continue to complement the profitability of the company. Further the company has also added flexibility to produce Ethanol from Sugar Cane Juice/Syrup.

The Company is also focusing on selling sugar regularly at every price point thereby improving average realization.

In order to stabilize the domestic sugar prices, and to enable the sugar mills across the country to clear the cane price arrears, the government had taken the following measures during the year:

- a. The Government of India had continued the monthly sugar release mechanism to control sugar supply to the domestic market for the 2025-26 season.
- b. The Government of India has also maintained the Minimum Selling Price (MSP) of ₹31/- per kg, below which the mills cannot sell sugar.
- c. Export of sugar to the extent of 1.5 million tons has been approved by the Central Government.
- d. The Central Government has lifted the ban on production of ethanol from cane juice and B heavy molasses.

Sugarcane Availability and Sugar Recovery

Sugarcane is the main raw material in sugar mills which is monsoon dependent and it becomes unpredictable in adverse climatic conditions. Similarly other factors like scarcity of harvest labor, sugarcane price, and availability of attractive competitive/ alternate crops will have a direct impact on cane availability, sugar recovery and our business. The sugar industry continues to be regulated by State Governments by other controls viz., reservation of cane area and fixation of sugarcane price.

Risk Mitigation

The Company has a robust sugarcane extension department to support crop management practices on the field. Further, Research and Development wing ensures new technology and high yielding varieties are made available at the right time to the farmers.

Measures taken by the Company to mitigate the risks

- Testing new improved varieties of cane with the support of Sugarcane Breeding Institute and Tamil Nadu Agricultural University.
- Promoting high sucrose yielding varieties for better sugar recovery.
- Maintaining above 90% of the area with high yield and high sugar varieties for better cane and sugar productivity
- Organizing to supply, to the farmers, the rejuvenated disease free quality seed material from Sugarcane Breeding Institute to improve the sugarcane yield.
- Exploring AI-driven automation, including drip fertigation systems integrated with automatic weather stations and soil moisture sensors at our R&D farms to study its efficacy on cane yield, quality improvement and for further expansion.
- Technology transfer through digital platform was commenced with the creation of an exclusive YouTube channel in the name of Rajshree Sugars. So far 5 videos and 2 short videos up loaded for technology promotion.
- Restarted the technology promotion through Audio Visual Van Programmes after a gap of 6 years.
- The company has initiated a pilot trial entailing soil nutrient based fertility mapping in command areas of Unit-2 at Mundiampakkam. So far 2200 samples have been collected covering all sugarcane growing villages and the analysis is under progress. This would support the farmers having low fertile lands to improve the soil conditions.
- Promoting the application of water gel in the standing cane crop to conserve the soil moisture and mitigate the drought situation
- Providing micro level support to selective villages whose sugarcane yield is sub-optimal. In the financial year 2025-26, the company has provided the support to 46 villages, resulting in an increase in the average yield by 1.80 to 4.0 tonnes per acre.
- Promoting wider row planting, timely mechanized inter cultural operation and mechanical harvesting which includes entrepreneur development. Through mechanical harvesting the company has covered 15 % of the total cane harvesting. Further development of mechanical harvesters is in progress.
- Aggressively promoting drip irrigation among the farmers to save water and obtain better sugarcane yield.
- Implementing activities like trash shredding, trash mulching and organic manure application to improve soil fertility.
- Close monitoring of nursery development, supply of good quality seeds, fertilizers, micro nutrients and growth promoting inputs, among others as a part of cane development activities.
- More Focus on areas with better ground water availability.
- Implementation of good agronomical and pest management practices.
- Prophylactic spraying across 2,800+ acres and successfully managed diseases namely Pokkah Boeng and Crown Mealybug, particularly in the 2003 V 46 and Co 11015 variety plots.
- Continuous monitoring of cane planting, clean cane management and harvesting schedule.
- Implementation of better Ratoon management practices.
- Developing local and outside cane harvest work force for timely harvest and supply
- Support farmers with timely updated information on technical and entrepreneurial subjects for yield and quality improvement of sugarcane.
- Increasing the quantum of registered cane and the gradual reduction of outside cane
- Focusing on factory efficiency parameters to recover maximum sugar.

Financial liquidity risk

- The sugarcane availability and sugar price risk continue to have significant impact on the financial liquidity of the Company.

- Sugar industry is highly working capital intensive. Raising adequate and rightly-priced working capital to support peak period operation of the company might pose a challenge.
- Since the Company has been under monitoring period after implementing the debt restructuring by lenders with retrospective effect from 30.06.2020, it is operating without working capital facilities from the consortium lenders, and has to continuously sell inventory to maintain cash flows. This situation will continue till the company's account is upgraded as standard with the lenders.
- The Company had challenged the monthly sugar release mechanism, before the court of law and the Madras High Court has dismissed our Writ Petition. Hence, the company has filed a writ appeal before Madras High Court on 24.10.2024 for setting aside the order of single judge. The case is pending disposal.

Risk mitigation:

The continuation of the approved debt restructuring proposal of the company by all the lenders with the beneficial terms which includes reduction in interest rate and the deferred repayment schedule to mitigate the liquidity crunch faced by the company. Further, the company has availed working capital facilities from Kotak Mahindra Bank comprising Dropline Overdraft for ₹30 crores repayable over 21 months and Cash Credit for ₹20 crores to be taken over, upon upgradation of loan accounts, by Consortium lenders.

Internal control systems and their adequacy

The Company has well-established internal control systems in the form of well-documented policies, authorization guidelines commensurate with the level of responsibility standard operating procedures and effective internal audit system to ensure smooth functioning of the Company.

The Board, Audit Committee and the Key Management review the findings and recommendations of the Internal Auditors and take corrective action, wherever necessary. Moreover the Audit Committee periodically interacts with Statutory Auditors and makes continuous assessments of the adequacy and effectiveness of the internal control systems.

Human Resources / Employee Wellbeing

The Management Staff Strength as on 31st March 2026 is 227 and the Non-Management Staff strength is 771. Industrial Relations have been cordial and there is no significant development. For the year, there has been 100 % retention of Key Management Talent and staff attrition is at 12.19% as against 13.93 % in the previous year. The employees were imparted 1030 man-days of learning through the year.

Financial performance with respect to operational performance

c) Ratios where there has been significant change for FY 2024 - 25 to FY 2025 - 26 :

S. No.	Key Profitability Ratios	FY 2025 - 26	FY 2024 - 25	Remarks
1.	EBITDA/Sales % (Operating Profit Margin)	7.30%	7.87%	Operating Profit Margin has marginally decreased due to lower cane crushing and the resultant output caused by adverse climate.
2.	Net Profit Margin (%)	0.35%	1.73%	As explained in point no. 1 above
3.	Return on Net Worth	0.73%	4.19%	As explained in point no. 1 above

S. No.	Key Liquidity Ratios	FY 2025 - 26	FY 2024 - 25	Remarks
1.	Current Ratio	1.03	1.04	Marginal increase
2.	Debtors Turnover Ratio	23.40	26.30	The value of Debtors as on 31 st March 2026 has been lower by 14% as compared to the same as on 31 st March 2025 while the decrease in sales during the year 2025 - 26 is by 15% as compared to the same during the year 2024 - 25. This has led to a marginal decrease in the Debtors turnover ratio.
3.	Inventory Turnover	3.32	5.49	The Inventory Turnover ratio is lower due to stock holding higher by 40% in the year end. This is due to limitation in absorption of the market due to inflow of sugar from other states and higher stocking of alcohol due to Tamil Nadu Government has allowed higher share of import from neighboring states by IMFL manufacturers.

S. No.	Key Capital Structure Ratios	FY 2025-26	FY 2024-25	Remarks
1.	Debt Equity Ratio	0.91	1.03	Reduction in Debt Equity Ratio is due to reduction in debt arising out of repayment of the principal as per repayment schedule of approved debt restructuring scheme.
2.	Interest Coverage Ratio	2.74	3.16	The EBITDA has been at ₹40 crores in FY 2025-26 as against the same at ₹50 crores in FY 2024-25. The interest charge has been recorded at ₹14.50 crores in the year 2025-26 as against the same at ₹15.97 crores in 2024-25. This led to the decrease in interest coverage ratio.

INDEPENDENT AUDITOR'S REPORT

To the Members of M/s. Rajshree Sugars & Chemicals Limited

Report on the Financial Statements

Opinion

We have audited the Financial Statements of RAJSHREE SUGARS & CHEMICALS LIMITED ("the Company"), which comprise the Balance Sheet as at 31st March 2026, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and Statement of Cash Flows for the year then ended and a summary of the material accounting policies and other explanatory information (hereinafter referred to as "the Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, its Profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the Financial Statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in

aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(I) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1) As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid Financial Statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on 31st March, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2026 from being appointed as a director in terms of Section 164(2) of the Act
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure "A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanation given to us, the remuneration paid by the company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company except unpaid dividend of ₹39,729/- for the Financial Year 2009-10 as per the stay orders issued by the Court.
 - iv.
 - a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- v. The company has not declared or paid any dividend during the year
 - vi. Based on our examination, which included test checks, the Company has used accounting software systems for maintaining its books of account for the financial year ended March 31, 2026 which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems. Further, during our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.
- 2) As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure "B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' of the Independent Auditors' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of RAJSHREE SUGARS & CHEMICALS LIMITED ("the Company") as of March 31, 2026 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining Internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the

company are being made only in accordance with authorizations of management and directors of the company; and (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

- v) According to the information and explanations given to us the Company has not accepted any deposit or amounts which are deemed to be deposits.
- vi) The Central Government has prescribed the maintenance of cost records under section 148(1) of the Act, in respect of manufacture of sugar and alcohol as well as generation and transmission of electricity by the company. We have broadly reviewed the accounts and records of the company in this connection and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. We have not, however carried out a detailed examination of the same.
- vii) According to the information and explanations given to us, in respect of statutory dues:

- a) The Company has generally been regular in depositing undisputed statutory dues, including Goods and Services Tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities.
- b) There were no undisputed amounts payable in respect of Goods and Services Tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax and other material statutory dues applicable to it in arrears as at March 31, 2026 for a period of more than six months from the date they became payable.
- c) Details of statutory dues which have not been deposited as at March 31, 2026 on account of any dispute are given below:

Name of the Statute	Nature of Demand	Amount (₹ in Lakhs)	Period to which the Amount Relates	Forum where dispute is pending

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

Company overview

RAJSHREE SUGARS & CHEMICALS LIMITED ('the Company') is a public limited company incorporated in India. The company's equity shares are listed on BSE and NSE. The registered office is located at 1GV, 360, Kamaraj Road, Uppilipalayam, Coimbatore - 641 015 Tamilnadu, India.

1. Material accounting policies

1.1 Statement of compliance

The financial statements have been prepared as a going concern in accordance with Indian Accounting Standards (Ind AS) notified under the Section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provisions of the Act.

1.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost convention on accrual basis except for certain financial instruments which are measured at fair value at the end of each reporting period, as explained in the accounting policies mentioned below. Historical cost is generally based on the fair value of the consideration given in exchange of goods or services.

The principal accounting policies are set out below:

All assets and liabilities have been classified as current or non-current according to the Company's operating cycle and other criteria set out in the Act. Based on the nature of products and the time between acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

1.3 Going concern

The Board of Directors have considered the financial position of the Company as at 31st March, 2026 and projected cash flows and financial performance of the Company for at least twelve months from the date of approval of these financial statements as well as planned cost and cash improvement actions, and believe that the plan for sustained profitability remains on course.

1.4 Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amount of revenues and expenses for the years presented. Actual results may differ from the estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods affected. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statement.

1.5 Revenue recognition

The company derives revenue primarily from the sale of Sugar, Alcohol and power.

Revenue from contract with customers is recognized when the Company satisfies performance obligation by transferring promised goods and services to the customer. Performance obligations are satisfied at the point of time when the customer obtains controls of the asset.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

Revenue is measured based on transaction price, which is the fair value of the consideration received or receivable, stated net of discounts, returns and Goods and Services Tax. Transaction price is recognized based on the price specified in the contract, net of the estimated sales incentives/ discounts. Accumulated experience is used to estimate and provide for the discounts/ right of return, using the expected value method.

Ind AS 115 provides a single model of accounting for revenue arising from contracts with customers based on the identification and satisfaction of performance obligations.

1.6 Foreign currencies

1.6.1. Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the company operates ('the functional currency'). The financial statements are presented in Indian rupee, which is the company's functional and presentation currency.

1.6.2. Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the year-end exchange rates are generally recognized in profit or loss.

1.7 Employee Benefits

1.7.1. Short term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the Balance Sheet.

1.7.2. Other long term employee benefit

The liabilities for earned leave that are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are measured as the present value of the expected future payments to be made in respect of services provided by employee up to the end of reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Measurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur. Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

1.7.3. Post-employment obligation

The Company operates the following post-employment schemes:

- a) Defined benefit plans such as gratuity for its eligible employees and
- b) Defined contribution plans such as provident fund.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

Defined contribution plan:

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme and pension scheme as expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

Defined benefit plan:

The Company has a gratuity defined benefit plans for its employees. The costs of providing benefits under these plans are determined on the basis of actuarial valuation at each year-end. Separate actuarial valuation is carried out for each plan using the projected unit credit method. Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and the balance sheet. The Company has funded this with Life Insurance Corporation of India ('LIC') and HDFC Standard Life Insurance Company. The contributions made are treated as plan assets. The defined benefit obligation recognized in the balance sheet represents the present value of the defined benefit obligation as reduced by the fair value of plan assets.

1.7.4. Bonus plans

The Company recognizes a liability and an expense for bonus. The Company recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation

1.8 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

1.8.1 Current tax

The income tax expenses or credit is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted.

1.8.2 Deferred tax

Deferred tax is provided in full, using the balance sheet approach, on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profits. Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences and incurred tax losses to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

1.8.3 Current and deferred tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the income taxes are also recognized in other comprehensive income or directly in equity respectively.

1.9. Property, plant and equipment

1) Adoption of Revaluation Model:

The management adopted revaluation model for its land, and determined that these constitute separate class of assets under Ind AS 113, based on the nature, characteristics and risks of the asset.

Fair value of the land is determined by using the market approach. As at the date of revaluation, Value is restated based on the valuation by a registered valuer as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017.

Valuations are performed with sufficient frequency to ensure that the carrying amount of a revalued asset does not differ materially from its fair value.

A revaluation surplus is recorded in Other Comprehensive Income and credited to the asset revaluation surplus in equity. However, to the extent that it reverses a revaluation deficit of the same asset previously recognized in profit or loss, the increase is recognized in profit and loss. A revaluation deficit is recognized in the statement of profit and loss, except to the extent that it offsets an existing surplus on the same asset recognized in the asset revaluation reserve.

An annual transfer from the asset revaluation reserve to retained earnings is made for the difference between depreciation based on the revalued carrying amount of the asset and depreciation based on the asset's original cost. Additionally, accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

Upon disposal, any revaluation reserve relating to the particular asset being sold is transferred directly to retained earnings.

2) Cost Model

Property, plant and equipment, other than land measured through revaluation model, are stated at cost of acquisition or construction less accumulated depreciation less accumulated impairment, if any.

Such assets are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. The other repairs and maintenance of revenue nature are charged to profit or loss during the reporting period in which they are incurred.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

Depreciation on Property, Plant and Equipment (other than freehold land) has been provided on the straight-line method as per the useful life prescribed in the Schedule II to the Companies Act, 2013.

The estimated useful life of the tangible assets are reviewed at the end of the each financial year and the depreciation period is revised to reflect the changed pattern, if any.

An item of Property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from continued use of asset. Any gain or loss on disposal or retirement of an item of property, plant or equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognized in the statement of profit and loss.

1.9.1. Investment Property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the group, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from disposal. Any gain or loss on disposal or retirement of property is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognized in the statement of profit and loss.

Depreciation on investment property has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013.

1.10. Intangible assets

Intangible assets are stated at cost of acquisition or construction less accumulated depreciation less accumulated impairment, if any.

1.11. Impairment of tangible and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

1.12. Inventories

Inventories are valued at the lower of cost and net realizable value.

The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and appropriate proportion of variable and fixed overhead expenditure. Overhead expenditures are being allocated on the basis of normal operating capacity. Raw materials are valued at first in first out. Cost of inventories also includes all other costs incurred in bringing the inventories to their present location and condition. Costs of purchased

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Non-production inventory (other than those supplied along with main plant and machinery, which are capitalized and depreciated accordingly) are charged to profit or loss on consumption.

1.13 Provisions and contingencies

Provisions: Provisions are recognized when there is a present obligation or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and the risks specific to the liability.

Contingent Liabilities: Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

1.14 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial instruments (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in the profit or loss. Subsequently, financial instruments are measured according to the category in which they are classified.

1.15 Financial assets

All purchases or sales of financial assets are recognized and de-recognized on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

1.15.1. Classification of financial assets

Classification of financial assets depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortized cost

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

A financial asset that meets the following two conditions is measured at amortized cost unless the asset is designated at fair value through profit or loss under the fair value option:

- **Business model test** : the objective of the Company's business model is to hold the financial asset to collect the contractual cash flows.
- **Cash flow characteristic test** : the contractual term of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset that meets the following two conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option:

- **Business model test** : the financial asset is held within a business model whose objective is achieved by both collecting cash flows and selling financial assets.
- **Cash flow characteristic test** : the contractual term of the financial asset gives rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are measured at fair value through profit or loss.

1.15.2. Financial assets at fair value through profit or loss (FVTPL)

Investment in equity instrument are classified at fair value through profit or loss, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Financial assets that do not meet the amortized cost criteria or fair value through other comprehensive income criteria are measured at fair value through profit or loss. A financial asset that meets the amortized cost criteria or fair value through other comprehensive income criteria may be designated as at fair value through profit or loss upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets and liabilities or recognizing the gains or losses on them on different bases.

Investments in debt based mutual funds are measured at fair value through profit and loss.

Financial assets which are fair valued through profit or loss are measured at fair value at the end of each reporting period, with any gains or losses arising on re measurement recognized in profit or loss.

1.15.3. Trade receivables

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost less provision for impairment.

1.15.4. Cash and cash equivalents

Cash flows are reported using the indirect method, whereby profit for the year is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

In the cash flow statement, cash and cash equivalents includes cash in hand, cheques and drafts in hand, balances with bank and deposits held at call with financial institutions, short-term highly liquid investments

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet and forms part of financing activities in the cash flow statement.

1.15.5. Impairment of financial assets

The Company assesses impairment based on expected credit losses (ECL) model to the following:

- financial assets measured at amortized cost
- financial assets measured at fair value through other comprehensive income

Expected credit loss are measured through a loss allowance at an amount equal to:

- the twelve month expected credit losses (expected credit losses that result from those default events on the financial instruments that are possible within twelve months after the reporting date); or
- full life time expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

For trade receivables or any contractual right to receive cash or another financial asset the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

1.15.6. Income recognition

Interest Income: Interest income from debt instruments is recognized using the effective interest rate method.

1.16 Financial liabilities

i) Initial Recognition:

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, debt instruments and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables

ii) Subsequent measurement:

All financial liabilities are subsequently measured at amortized cost using the effective interest rate method.

Financial liabilities that are not held for trading and are not designated as at FVTPL are measured at amortized cost at the end of the subsequent accounting period.

Amortized cost is calculated by taking into account any discount or premium on issue of funds, and transaction costs that are an integral part of the Effective Interest Rate ("EIR").

Any fees, paid or received, transaction costs and other premiums or discounts that are included in the calculation of the effective interest rate are amortized over the expected life of the financial instrument.

The carrying amount of financial liabilities that are subsequently measured at amortized cost are determined based on the effective interest rate method. Interest expense that is not capitalized as part of costs of an asset is included in the "Finance costs" in Statement of Profit and Loss.

iii) De-recognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

When an existing financial liability is replaced by another from the same lender

- a. on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.
- b. with no substantially different terms, or the terms of an existing liability are not substantially modified, such an exchange or modification is treated as modification of original liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss or amortized as expenses over the period of time.

For financial liabilities that are denominated in a foreign currency and are measured at amortized cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortized cost of the instruments and are recognized in profit or loss. The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the exchange rate at the end of the reporting period. For financial liabilities that are measured as at fair value through profit or loss, the foreign exchange component forms part of the fair value gains or losses and is recognized in profit or loss

1.16.1. Debt Securities:

The Optionally Convertible Debentures ("OCD") and Non-Convertible Debentures ("NCD") issued by the Company are Financial Liability because the issuer has an obligation to transfer financial assets to the holder of the debt securities.

The OCDs and NCDs are issued as a part of exchange of existing loan under restructuring agreement. The terms are substantially modified on such exchange i.e. 10% test is passed and the principle of "extinguishment accounting" are applied.

The old loan is de-recognized and the debt securities issued are recognized at fair value. The difference between the carrying value and the fair value of debt securities is charged to the profit and loss account.

The Company has incurred expenses with respect to loan syndication fees and Commitment fees, which relate to restructuring when it was unlikely that the restructuring arrangement will be entered into, are charged to profit and loss account.

The debt securities are subsequently measured at amortized cost using the effective interest rate method. The value of redemption is reduced from carrying value of the debt securities.

1.16.2. Borrowings:

As per the restructuring plan sanctioned, the borrowings are exchanged with the existing borrower for substantially modified terms. The 10% test is passed and the principle of "extinguishment accounting" are applied.

The old loan or borrowings are de-recognized and the new loan or borrowings are recognized at fair value. The difference between the carrying value and the fair value of new loan or borrowings is charged to the profit and loss account.

The Company has incurred expenses with respect to loan syndication fees and Commitment fees, which relate to restructuring when it was unlikely that the restructuring arrangement will be entered into, are charged to profit and loss account. The loans and borrowings are subsequently measured at amortized cost using the effective interest rate method.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

1.16.3. Trade and other payables:

Trade and other payables represent liabilities for goods or services provided to the Company prior to the end of financial year which are unpaid.

1.17. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

1.18. Leases

The Company as a lessee:

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Effective April 1, 2019, the Company has adopted Ind AS 116 'Leases' and applied the standard to its existing lease contracts using the modified retrospective approach under which the ROU Asset is measured based on the remaining lease payments.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

1.19 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

1.20. Government grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

1.21. Earnings per Share

Basic earnings per share have been computed by dividing the net income by the weighted average number of shares outstanding during the year. Diluted earnings per share has been computed using the weighted average number of shares and diluted potential shares, except where the result would be anti-dilutive.

1.22. Dividends

In order to conserve the financial resources for operational requirements, the Board has not recommended any dividend for the year 2025-26. Also no amount has been transferred to reserves.

Delta Effect of +1% Change in Rate of Employee Turnover	17.32	12.61
Delta Effect of -1% Change in Rate of Employee Turnover	(19.33)	(14.11)

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the Defined Benefit Obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the Defined Benefit Obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the Defined Benefit Obligation as recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Notes

Gratuity is payable as per entity's scheme as detailed in the report.

"Actuarial gains/losses are recognized in the period of occurrence under Other Comprehensive Income (OCI). All above reported figures of OCI are gross of taxation."

Salary escalation & attrition rate are considered as advised by the entity; they appear to be in line with the industry practice considering promotion and demand & supply of the employees.

Maturity Analysis of Benefit Payments is undiscounted cash flows considering future salary, attrition & death in respective year for members as mentioned above.

Average Expected Future Service represents Estimated Term of Post - Employment Benefit Obligation.

Weighted Average Duration of the Defined Benefit Obligation is the weighted average of cash flow timing, where weights are derived from the present value of each cash flow to the total present value.

Any benefit payment and contribution to plan assets is considered to occur end of the year to depict liability and fund movement in the disclosures.

Value of asset provided by the entity is not audited by us and the same is considered as unaudited fair value of plan asset as on the reporting date.

In absence of specific communication as regards contribution by the entity, Expected Contribution in the Next Year is considered as the sum of net liability/assets at the end of the current year and current service cost for next year, subject to maximum allowable contribution to the Plan Assets over the next year as per the Income Tax Rules.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

Qualitative Disclosures

Para 139 (a) Characteristics of defined benefit plan

"The entity has a defined benefit gratuity plan in India (funded). The entity's defined benefit gratuity plan is a final salary plan for employees, which requires contributions to be made to a separately administered fund.

The fund is managed by a trust which is governed by the Board of Trustees. The Board of Trustees are responsible for the administration of the plan assets and for the definition of the investment strategy."

Para 139 (b) Risks associated with defined benefit plan

"Gratuity is a defined benefit plan and entity is exposed to the Following Risks:

Interest rate risk: A fall in the discount rate which is linked to the Government Securities. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the market value of the assets depending on the duration of asset.

Salary Risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment Risk: The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

Asset Liability Matching Risk: The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Concentration Risk: Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very low as insurance companies have to follow stringent regulatory guidelines which mitigate risk.

Para 139 (c) Characteristics of defined benefit plans

During the year, there were no plan amendments, curtailments and settlements.

Para 147 (a)

A separate trust fund is created to manage the Gratuity plan and the contributions towards the trust fund is done as guided by rule 103 of Income Tax Rules, 1962.

i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

There are no transfers between levels 1 and 2 during the year.

The company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

ii) Fair value of assets carried at amortised cost.

The carrying amounts of trade receivables, trade payables, loans, deposits, advances, borrowings, cash and cash equivalents and other current financial liabilities are considered to be the same as their fair values, due to their short-term nature.

34 Financial risk management

The Company's activities expose it to market risk, liquidity risk and credit risk.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

(A) Credit risk

Credit risk on deposit is mitigated by depositing the funds in reputed private sector bank.

For trade receivables, the primary source of credit risk is that these are unsecured. The Company sells the products to customers only when the collection of trade receivables is certain and whether there has been a significant increase in the credit risk on an on-going basis is monitored throughout each reporting period. As at the balance sheet date, based on the credit assessment the historical trend of low default is expected to continue. An impairment analysis is performed at each reporting date on an individual basis for major clients. Any recoverability of receivables is provided for based on the impairment assessment. Historical trends showed as at the transition date, 31st March 2017 and 31st March 2018 company had no significant credit risk.

(B) Liquidity risk

Objective of liquidity risk management is to maintain sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Management monitors rolling forecasts of the company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. The company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal requirements.

Maturities of financial liabilities

The tables below analyse the company's financial liabilities into relevant maturity groupings based on their contractual maturities for:

- a) all non-derivative financial liabilities, and
- b) net and gross settled derivative financial instruments for which the contractual maturities are essential for an understanding of the timing of the cash flows.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

35 Capital management

a) Risk management

The Company's objectives when managing capital are to :

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, The company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, The company monitors capital on the basis of the following gearing ratio:

Net debt (total borrowings net of cash and cash equivalents)

divided by

Total 'equity' (as shown in the balance sheet).
