Subject: Regulation 30 disclosure for Clarification regarding Significant Movement in the Price of the Company's Scrip.

Dear Sir/Madam,

This is with reference to your email dated November 17, 2026, regarding the significant movement in the price of the Company's scrip.

In this regard, we wish to clarify that the movement in the price of the Company's scrip is purely market-driven and attributable to prevailing market conditions. The Company and its management have no control over the movement in the market price of the scrip and are not aware of any specific reason or undisclosed development that may have contributed to such price movement.

It may be noted that the price of the Company's scrip had remained largely stagnant over the past several years .

However, subsequent to the disclosure of the Un-audited Financial Results of the Company for the quarter and half year ended September 30, 2026, wherein the Company reported a profit after a prolonged period, an improvement in market sentiment appears to have coincided with an upward movement in the price of the Company's scrip. The Company believes that the improved financial performance may have attracted renewed interest from market participants.

Nevertheless, the Company reiterates that the movement in the market price of its scrip is market-driven and is beyond the control of the Company and its management.

Further, as already apprised to the stakeholders through its Annual Report, the Company has been undertaking initiatives towards the efficient utilisation and disposal of its land bank and continues to work towards the same.
