Sub.: Energization of Further Capacity under the 370 MW AC / 677 MW DC Wind-Solar Hybrid Power Project

Dear Sir/Madam,

We wish to inform you that KPI Green Energy Limited ("the Company") has energized further capacity under its 370 MW AC / 677 MW DC Wind-Solar Hybrid Power Project (IPP) at Bharuch, Gujarat, comprising **130 MW AC / 195 MW DC Solar** capacity.

With the energizing of the aforesaid capacity, the Company has cumulatively energized 269.7 MW AC / 389.7 MW DC capacity under the said Wind-Solar Hybrid IPP Project. This project is being developed by the Company as an **Independent Power Producer (IPP)** under a long-term Power Purchase Agreement with **Gujarat Urja Vikas Nigam Limited (GUVNL)**.

The Company continues to steadily expand its Independent Power Producer (IPP) portfolio, as it simultaneously scales its EPC business. The progressive energisation of capacity under long-term PPAs further strengthens the Company's annuity-based, recurring revenue streams, enhancing earnings visibility and creating sustained long-term value for its stakeholders.

This is for your information and records.

Thanking You,

For KPI Green Energy Limited

Moh. Sohail Yusuf Dabhoya
Whole Time Director
