Press Release

Pace Digitek's Subsidiary LPPL Secures Rs. 4,884.6 million BESS Supply Order from NGSL

Order further strengthens Pace Digitek's direct BESS supply business, with scope also covering commissioning and lifecycle support

Bengaluru, 21 September 2026: Pace Digitek Limited's Material Subsidiary, Lineage Power Private Limited (LPPL), has secured an order valued at Rs. 4,884.6 million (including GST) from NTPC GE Power Services Private Limited (NGSL) for the BESS Project at Barh STPP (NTPC Stages I & II).

The order comprises the supply, testing, supervision of erection and commissioning of BESS containers, together with Battery Management Systems (BMS) and Energy Management Systems (EMS). The order also includes five years of Annual Maintenance Services (AMC) and a further seven-year extended warranty for the battery containers, providing lifecycle support for the deployed systems.

The order is scheduled to be completed by December 31, 2026.

Expanding Participation Across the BESS Value Chain

The order marks a further step in Pace Digitek's strategy to build a scaled and integrated Energy platform, with LPPL being developed as a product-led BESS business spanning manufacturing, product supply, system integration and lifecycle support.

Pace Digitek has operationalised 2.5 GWh of BESS manufacturing capacity in 2025, expanded this to 5 GWh, and plans to further scale capacity towards 10 GWh by Q3 FY2027. The Company has delivered BESS containers representing more than 1.5 GWh of capacity to date.

As the Company expands its participation across the BESS value chain, it is focused on strengthening localisation, integration and service capabilities, while enhancing its ability to serve a broader range of customer requirements. This is expected to support deeper customer engagement and a more diversified Energy business over time.

Pace Digitek also sees C&I applications as an emerging opportunity alongside its core utility-scale BESS business and continues to evaluate opportunities across commercial and industrial customers and other power-intensive users.

Commenting on the development, Mr. Venugopalrao Maddisetty, Chairman & Managing Director, Pace Digitek Limited, said: *"This order is an important step in strengthening LPPL as a product-led BESS business. It brings together product supply, commissioning and long-term lifecycle support, enabling us to deepen our participation across the BESS value chain and strengthen our engagement with customers beyond manufacturing."*

As we scale our manufacturing capacity and strengthen localisation, integration and service capabilities, our focus is to build a broader Energy platform capable of serving utility-scale requirements as well as emerging C&I applications. We will continue to invest in the capabilities required to support customers across the lifecycle of energy-storage systems."

About PACE Digitek Limited

Pace Digitek Limited (NSE: PACEDIGITK | BSE: 544550) is an integrated infrastructure and energy solutions company operating across the Energy and Telecom & ICT business segments. The Company operates across the value chain, spanning Manufacturing, Engineering, Procurement & Construction (EPC) and Operations & Maintenance (O&M) activities, supporting both project execution and product supply.

In the energy segment, the Company undertakes Battery Energy Storage System (BESS) design, manufacturing, system integration and deployment. Through its subsidiary, Lineage Power Private Limited, the Company manufactures energy storage systems and related power infrastructure products.

In the Telecom & ICT segment, the Company manufactures telecom power systems and delivers EPC and O&M services for telecom infrastructure, fibre networks and digital infrastructure projects across India.
