SWOT Analysis

STRENGTH

- Ability to Produce **large castings** up to 30 MT
- Established products with **Top Global OEMs**
- Ability to build large capacities **with capital efficiency**

WEAKNESS

- **Limited Capacity** compared to peers (scaled up to 45,000 TPA, planning to expand further)
- Dependency on **outsourced machining** (~20,000 TPA in-house machining established)

OPPORTUNITY

- Excellent **growth** opportunities in **Renewable's** with **high entry barriers**
- India is being converted as manufacturing Hub offers **growing** casting **demand**
- Trade wars/Global Sentiments **favor** India's demand
- INR depreciation against USD and CNY, **favouring Indian foundries**

THREAT

- **80% of business** from **wind industry** (facilities can produce large castings to any other industries)
- Volatile **Commodity prices** can impact profitability (Key commodities are hedged with customers on quarterly basis)

Key Factors of Q1 Performance

Revenue:

Q1 FY27 production increased by 9.7% YoY compared with Q1 FY26; however, revenue recognition was impacted by lower dispatches during the quarter due to:

- Delays in customer material lifting and prototype approvals
- West Asia conflict–related logistics disruptions for exports

PBDIT Margins:

- RM inflation impacted margins by ~200 bps, largely recovered through **customer RM indexation in Q2 FY27**.
- Consumable cost inflation impacted margins by ~300 bps, partially recovered through **Q2 price customer revisions**.
- Electricity policy and tariff revision impacted margins by ~100 bps, expected to be offset through **additional 5MW wind PPA** via open access and **higher production volumes.**

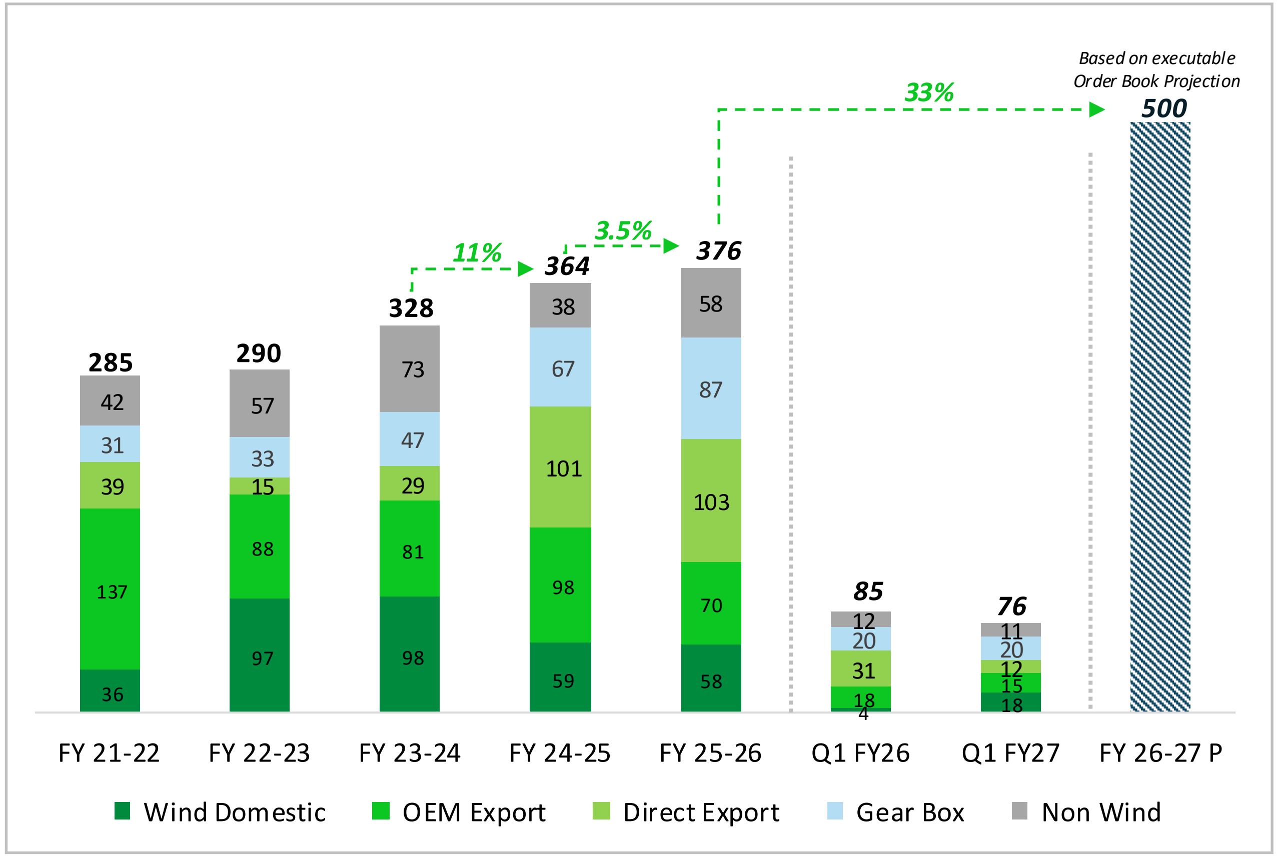
Brief Overview of Financials

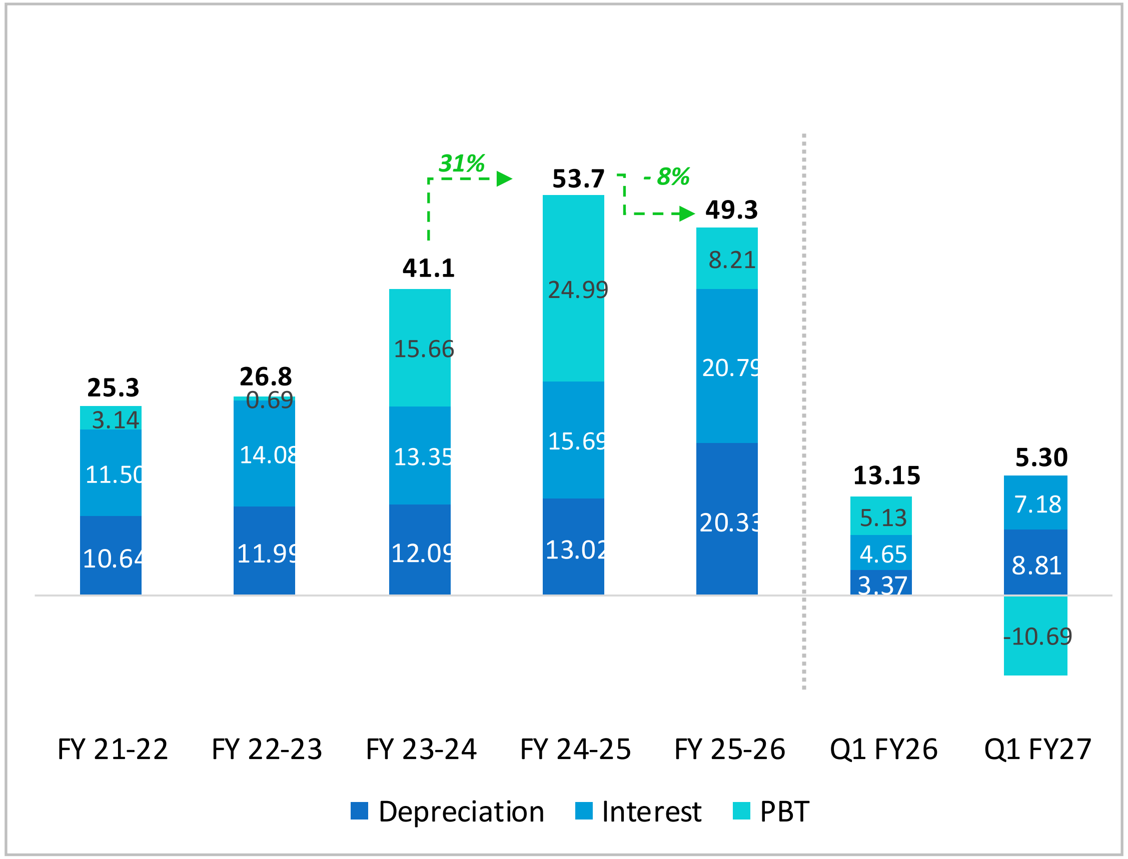
Revenue streams (in Rs Cr) and Estimate:



Quarterly Results of Q1 FY27 are unaudited. Executable Orderbook Projection is based on Orderbook Projections/Schedules available with management on the date of publishing and may be subject to change based on market conditions.

FY 27 is expected to have a ~33% revenue growth over FY 26, supported by additional capacity and revenues from new customers.

PBDIT over the period (in Rs Cr):



Quarterly Results of Q1 FY27 are unaudited; PBT before exceptional items

Despite moderation in Q1, FY27 PBDIT margin is expected to improve by >300 bps, driven by higher volumes, increased export contribution and growing contributions from in-house machining.

The Path Ahead

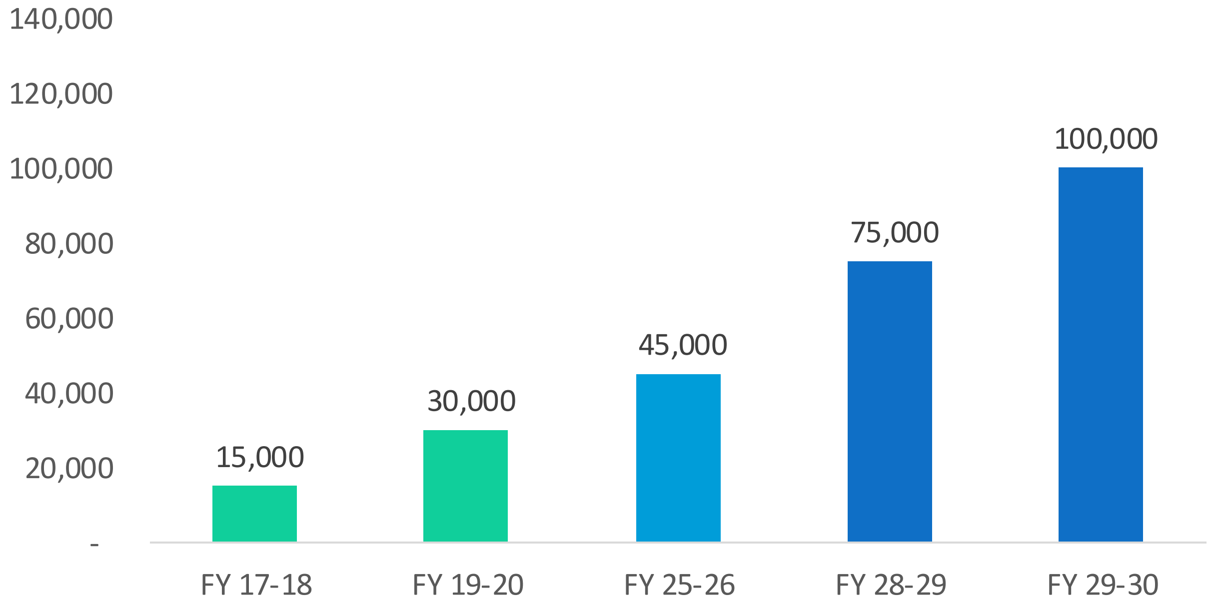
FY 2026-27 Performance Outlook

Revenue growth of ~33% projected in FY27 backed by new customer additions and enhanced capacity

Export revenues are projected to remain stable, contributing around 25-30%

PBDIT margins are expected to expand by ~300 basis points year-on-year

Medium Term Capacities (MT/Annum)



During the next 3-4 years, there is an opportunity for one more greenfield expansion to increase our capacity to over 100,000 MT
