Bombay Stock Exchange Limited
25th Floor, P. J. Tower, Dalal Street,
Fort, Mumbai- 400 001.

Date: 19th August, 2026

Dear Sir/Madam,

Sub: Intimation under Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations") – Press release regarding Commencement of Construction of Unit IV Manufacturing Facility and Receipt of Three New Vendor Codes

REF: SCRIP CODE: 544863 (LAPL Automotive Limited)

Pursuant to Regulation 30 of the SEBI Listing Regulations, we wish to inform you that **LAPL Automotive Limited** has completed the **Bhoomi Pujan (Groundbreaking Ceremony)** on August 19, 2026, marking the formal commencement of construction of its upcoming **Unit IV manufacturing facility at Chhatrapati Sambhajnagar, Maharashtra.**

The proposed facility is being developed to support the Company's future growth, enhance its manufacturing capabilities, cater to increasing customer requirements and progressively strengthen its in-house manufacturing capabilities.

Further, the Company has also **received three new vendor codes from leading automotive companies**, which will enable the Company to participate in upcoming RFQs, development programmes and sourcing opportunities of the respective customers, subject to their applicable technical, commercial and sourcing evaluation processes. These developments are expected to strengthen the Company's manufacturing capacity, OEM engagement and future business pipeline.

Please find enclosed herewith a Press Release providing further details of the aforesaid developments, including their strategic significance and expected impact on the Company's manufacturing capabilities and future business opportunities.

The said Press Release is also being uploaded on the Company's website at: <https://www.laplautomotive.com/investor-relations>

We request you to take note of the same.

Thanking you,

FOR, LAPL AUTOMOTIVE LIMITED

NEERAJ SATYAPRAKASH GOYAL
MANAGING DIRECTOR

Enclosure: press release

LAPL Automotive Limited Commences Construction of Unit IV Manufacturing Facility and Receives Three New Vendor Codes

Aurangabad, 19th August 2026 – LAPL Automotive Limited (BSE SME: 544863), an integrated automotive components manufacturer engaged in the design and manufacture of automotive lighting systems, mirrors, motors and plastic moulded components, today announced two developments – one on the manufacturing side of the business and one on the customer side – that together support its next phase of growth.

Bhumi Pujan and Commencement of Construction of Unit IV

LAPL Automotive Limited has completed the Bhumi Pujan and commenced construction of its upcoming Unit IV manufacturing facility at Chhatrapati Sambhajnagar, Maharashtra. The ceremony, performed at the project site in the presence of the promoters, the senior management team and employees of the Company, marks the formal start of construction work on what will be the Company's fourth manufacturing unit.

The expansion is aimed at supporting future growth, enhanced manufacturing capabilities and increasing customer requirements. Each of these objectives responds to a specific need. On growth, the new unit is intended to give the Company the physical footprint to scale production beyond what its present facilities allow. On capability, it is planned to house manufacturing and testing infrastructure that supports a wider and more technically demanding product mix, including lighting systems, electrical accessories and electronic components. The new facility is intended to provide additional manufacturing space and infrastructure to support the Company's future requirements and product portfolio. The Company also intends to progressively increase in-house manufacturing capabilities at the facility.

Construction will proceed in phases, with the Company obtaining the applicable approvals, registrations and certifications from the relevant authorities at each stage of implementation.

Three New Vendor Codes from Leading Automotive Companies

LAPL Automotive Limited has received three new vendor codes from leading automotive companies, expanding its access to upcoming RFQs, development programmes and sourcing opportunities.

A vendor code is the formal supplier registration issued by an automotive customer once a component manufacturer has been evaluated and approved under its sourcing framework. The assessment typically covers manufacturing capability, quality management systems, plant audits, engineering and design capability, testing infrastructure and delivery readiness. Approvals of this nature are earned over time and are not granted routinely, which is why the addition of three new codes is a meaningful step for the Company.

Once a vendor code is in place, the supplier becomes eligible to receive enquiries and to participate in sourcing processes for current and forthcoming vehicle programmes. In practical terms, the three approvals place LAPL Automotive in consideration for business across the product platforms of the respective customers, at the stage where requirements are still being defined rather than after sourcing decisions have been made. The award of any specific order remains subject to the customers' own commercial and technical evaluation.

The vendor codes strengthen the Company's OEM engagement and future business pipeline. They also support its broader objective of widening its customer base across vehicle segments, so that its order book draws on a larger number of relationships over time.

Mr. Neeraj Satyaprakash Goyal, Chairman and Managing Director, LAPL Automotive Limited, commented: *"The Bhumi Pujan of Unit IV is an important moment for LAPL. Over the past two decades we have added capability unit by unit, and this facility is the next stage of that journey – giving us the space and the infrastructure to serve the growing requirements of our customers and to bring more of our manufacturing in-house. Alongside this, the three new vendor codes open the door to enquiries and development programmes that were previously outside our reach, and reflect the confidence these customers place in our engineering and quality systems. Capacity without customer access, or customer access without capacity, would take us only so far. Building both together is what gives us a stronger platform for the next phase of growth."*

About LAPL Automotive Limited

LAPL Automotive Limited (BSE SME: 544863) is an integrated automotive components manufacturer operating across the Original Design Manufacturing (ODM) and Original Brand Manufacturing (OBM) models, with a diversified portfolio spanning automotive lighting systems, mirrors, motors and plastic moulded components. Incorporated in 2004, the Company caters to automobile OEMs across passenger vehicles, commercial vehicles, two-wheelers and electric mobility segments.

The Company's product range includes tail lamps, head lamps, front and rear indicators, reflex reflectors, stop, position, reverse and roof lamps under the lighting division; starter motors, wiper motors, rotors, stators and small BLDC fans under the motor division; and rear-view mirrors, hoods and allied accessories. Products are supplied to OEM customers on an ODM basis and under the Company's proprietary brand "LAPL" on an OBM basis. LAPL Automotive is an IATF 16949:2016 certified company with manufacturing operations at Chhatrapati Sambhajnagar (erstwhile Aurangabad), Maharashtra.
