Aurionpro secures additional order of nearly ₹100 crore from global hyperscaler, expands AI-ready data centre engagement in Southern India

Expanded engagement takes total value with the customer past ₹400 crore, reflecting confidence in Aurionpro's data centre capabilities and bolstering its order book.

Mumbai, November 19, 2026 – Aurionpro, a leading end-to-end data centre solutions and enterprise technology provider, is pleased to announce an additional order worth close to ₹100 crore from a global hyperscaler for the development of an AI-ready data centre in Southern India. This order represents an expansion of the existing engagement with the hyperscaler, announced earlier this year, further strengthening the Company's relationship with the customer.

With this latest order, the aggregate value of engagements with the hyperscaler has exceeded ₹400 crore, reflecting the growing scale of the relationship. The project is scheduled to be executed over a period of nine months.

Bhaskar Bhattacharya, EVP & Head – Enterprise Business, Aurionpro, said:

"We thank our customer for their continued trust and confidence in Aurionpro. As demand for AI-ready infrastructure accelerates, we are expanding our presence across the data centre value chain. Alongside our delivery teams, we are investing in advanced manufacturing as part of a backward integration strategy. This will enable us to gain greater control over the supply chain, improve operational efficiency, and scale faster to meet the requirements of hyperscale clients. With growing traction and recent order wins, we are well positioned to further strengthen our presence in this market and capitalise on the strong demand."
