Media Release

Adani Energy Solutions wins Bihar transmission project

Editor's Synopsis

- Project to evacuate 2,400 MW of power from Adani Power's upcoming Pirpainti Ultra Super Critical Thermal Power Plant and strengthen Bihar's transmission network
- Project adds 881 ckm of transmission lines and 3,160 MVA of transformation capacity to AESL's transmission portfolio

Ahmedabad, 19 November 2026: Adani Energy Solutions Limited (AESL), India's leading private sector power transmission and distribution company, today said it has won a transmission project for evacuation of power from the upcoming 2400 MW power plant in Pirpainti, Bihar. The project, won through the Tariff Based Competitive Bidding (TBCB) mechanism, will provide annual tariff of Rs ~Rs 500 cr once commissioned.

The project, titled, "Evacuation of Power from 3X800 MW STPP Pirpainti", will be implemented through the Special Purpose Vehicle (SPV) Vikramshila Power Transmission Ltd. and will be delivered by the last quarter of 2028. Besides evacuation of power from the Pirpainti Power Plant, the project will strengthen the state's transmission network and enhance supply reliability.

"The Pirpainti transmission scheme will create a robust evacuation system for 2,400 MW of generation capacity while strengthening Bihar's transmission backbone. It will enhance grid reliability and resilience and help the state meet its growing power demand. We remain committed to building reliable and efficient transmission infrastructure that supports the country's long-term energy security," said Mr. **Kandarp Patel, CEO, Adani Energy Solutions.**

Upon completion, the project will add 881 circuit kilometres (ckm) of transmission lines and 3,160 MVA of transformation capacity to AESL's portfolio, taking it to 30,683 ckm and 146,585 MVA. With this project, AESL's transmission capex now stands at ~Rs 91,500 crore.

The project comprises construction of four Gas Insulated Substations (GIS) at Jhanjharpur, Bethauli and Begusarai, along with associated transformation capacity. The transmission infrastructure will include the 400 kV DCDS Pirpainti-Jhanjharpur, Pirpainti-Begusarai and Begusarai-Bakhtiyarpur lines, as well as the 220 kV DCDS Jhanjharpur-Bethauli and Begusarai-Begusarai Town lines. It will also involve LILO of existing 220 kV and 132 kV transmission lines at Jhanjharpur and construction of 400 kV line bays at Bakhtiyarpur GSS.

About Adani Energy Solutions Ltd (AESL)

AESL, part of the Adani portfolio, is a multidimensional organization with presence in various facets of the energy domain, namely power transmission, distribution, smart metering, and cooling solutions. AESL is the country's largest private transmission company with a cumulative transmission network of 30,683 ckm and 146,585 MVA transformation capacity. In its retail electricity distribution business, as on AESL serves approximately 13 million consumers in metropolitan Mumbai and the industrial hub of Mundra SEZ. AESL is ramping up its smart metering business and is on course to become India's leading smart metering integrator. AESL, with its integrated offering through the expansion of its distribution network through parallel licenses and competitive and tailored retail solutions, including a significant share of green power, is revolutionizing the way energy is delivered to the end consumer. AESL is a catalyst for transforming the energy landscape in the most reliable, affordable, and sustainable way.
