Mphasis Strengthens Partnership with Social Security Scotland to Support Core Benefits Platform

~Signs an agreement for approximately £35.4 million to help maintain reliable access to vital benefits services supporting more than 2 million citizens across Scotland

Bengaluru, October 06, 2026

[Mphasis](#), ([BSE: 526299](#); [NSE: MPHASIS](#)), a global AI-led, platform-driven technology solutions provider, today announced it will extend its collaboration with [Social Security Scotland](#). Under this contract, Mphasis will manage and maintain [Social Security Scotland](#)'s benefits management platform, which delivers core functions and benefits efficiently and securely for around 2 million citizens across Scotland, strengthening how they access the support they need.

Through this scope of work, Mphasis will help Social Security Scotland provide support and maintenance for the executive agency's core benefits case management platform by maintaining access to citizen benefits that are important to individuals, families and communities across Scotland. Additionally, Mphasis' role will focus on maintaining a stable, resilient and high-quality service for citizens, supporting continuity across a platform central to benefit applications, eligibility decisions and payments.

"Our ongoing relationship with Social Security Scotland allows us to continue to support one of the country's most critical public service platforms, and our commitment is to maintain continuity, improve operational efficiency and deliver meaningful outcomes for individuals and families across Scotland. The project aligns with our broader [public sector focus](#); supporting government organizations in running secure, reliable and future-ready digital services. The Social Security system underpins the delivery of essential benefits to around 2 million people, and we are proud to help ensure it remains consistently available," said **Ashish Devalekar, Executive Vice President and Head of Europe, Mphasis**.

Social Security Scotland is one of the largest executive agencies of the Scottish Government, responsible for delivering core benefits to people across Scotland efficiently and securely. Its Social Program Management (SPM) case management system plays a critical role in administering a wide range of social security payments from disability to heating support. This agreement helps mitigate risks linked to operational inefficiency and disruption through major incidents.
