Sub: Energization of further capacity under the 250 MW / 350 MWp Solar Power Project and the 370 MW / 677 MWp Hybrid Power Project

Dear Sir/Madam,

Apropos the captioned subject and pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we wish to inform you that KPI Green Energy Limited ("the Company") has energized further capacity of **49.7 MWp** under its 250 MW / 350 MWp Solar Power Project (IPP) and **121.8 MWp** under its 370 MW / 677 MWp Hybrid Power Project (IPP) at Bharuch, Gujarat.

With the energizing of the aforesaid capacity, the Company has cumulatively energized **300.8 MWp out of 350 MWp** capacity under the said Solar IPP Project and **510.7 MWp out of 677 MWp** capacity under the said Hybrid IPP Project, comprising **449.2 MWp of solar** and **61.5 MW of wind** capacity. These projects are being developed by the Company as an **Independent Power Producer (IPP)** under long-term Power Purchase Agreements with **Gujarat Urja Vikas Nigam Limited (GUVNL)**.

The Company continues to steadily expand its Independent Power Producer (IPP) portfolio, as it simultaneously scales its EPC business. The progressive energization of capacity under long-term PPAs further strengthens the Company's annuity-based, recurring revenue streams, enhancing earnings visibility and creating sustained long-term value for its stakeholders.

This is for your information and records.

Thanking you,

Yours Faithfully,
For KPI Green Energy Limited
