Dear Sir/Madam,

Sub: Press Release

Ref: Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the “Listing Regulations”)

Pursuant to the aforementioned Regulation, we hereby enclose a copy of the Press Release titled “*Fabtech’s Wholly Owned Subsidiary Secures AED 9.92 Million Turnkey Flavour Manufacturing Project in UAE*”.

The above can also be accessed on the website of the Company at www.fabtechnologies.com

We request you to take the above information on record.

Thank you.

**Yours faithfully,
For Fabtech Technologies Limited**

**Hemant Mohan Anavkar
Executive Director
DIN: 00150776**

Encl.: As mentioned above

Fabtech's Wholly Owned Subsidiary Secures AED 9.92 Million Turnkey Flavour Manufacturing Project in UAE

Six-Month Fast-Track Project Expands Fabtech's Critical Infrastructure Platform Beyond Life Sciences

Mumbai, August 19, 2026 – Fabtech Technologies Limited (FTL), through its **100% subsidiary FTS Cleanrooms Systems LLC, UAE**, has secured an **AED 9.92 million (approximately ₹24.6 crore)** turnkey project for **Aroma King**, a flavour manufacturing company in the UAE. The project is scheduled for **fast-track completion within six months**.

FTS Cleanrooms Systems LLC will deliver the facility's **critical internal infrastructure**, encompassing modular controlled environments, cold rooms, specialised flooring, high- and low-side HVAC systems, and internal electrical works under an integrated, single-source execution model.

Flavour manufacturing requires precise control of **temperature, humidity, hygiene and production environments** to ensure consistency and product quality. The project leverages Fabtech Group's engineering expertise in controlled environments and mission-critical infrastructure to create a modern, efficient and future-ready manufacturing facility.

The win also demonstrates the strategic role of **FTS Cleanrooms Systems LLC as Fabtech's regional execution platform**, expanding the Group's capabilities into high-specification food, flavour and ingredient manufacturing while strengthening its presence in the UAE.

This project advances Fabtech's broader vision of becoming a **global critical infrastructure platform**—extending its expertise in precision environments, HVAC, utilities and integrated engineering into industries where manufacturing conditions are mission-critical.

Fabtech Technologies Limited — Engineering Critical Infrastructure for the Industries of Tomorrow.
