HCLTech celebrates 50th anniversary of HCL Group by planting 50,000 saplings

NOIDA, August 11, 2026—[HCLFoundation](#), which drives the corporate social responsibility agenda of [HCLTech](#) in India, today celebrated the 50th anniversary of HCL Group by carrying out plantation of 50,000 native saplings and launching clean-up drives at 50 beaches across the country.

The mega environmental drives, organized across 10 states, brought together HCLTech employees, their families, nonprofit partners, women's collectives, youth and other community members. The initiatives form part of HCLFoundation's broader sustainability efforts that seek to strengthen ecosystems, conserve natural resources and inspire community participation in environmental stewardship.

HCLFoundation has greened 74,000 acres of land to date, bringing them under community management. More than 155 billion liters of water have been harvested to date, creating a habitat for biodiversity and strengthening water security for some of India's most stressed communities. As part of its coastal conservation efforts, more than 181,000 saplings of terrestrial, mangrove and shelter belt species have been planted and over 120,800 kg of ghost nets and marine debris have been collected to date.

"As we celebrate 50 remarkable years of HCL Group, we are reminded every day that growth and progress are not separable from a deep commitment to a sustainable planet and resilient communities," said Dr. Nidhi Pundhir, Director, HCLFoundation. "We believe that meaningful change is achieved when communities come together with a shared purpose and we are grateful to our employees, families, partners and volunteers for joining us in contributing to a greener, cleaner and more sustainable future."

About HCLFoundation

HCLFoundation delivers the corporate social responsibility agenda of HCLTech in India. The Foundation contributes to national and international development goals by investing in long-term sustainable programs and special initiatives with thematic focus on education, nurturing grassroots sports, health and sanitation, skill development and livelihood, environment and disaster risk reduction and response management. To ensure equitable development, child protective strategies, inclusion and gender transformative approaches are at the core of all the programs of the Foundation. To date, the HCLFoundation has positively impacted over 8.5 million lives. To learn more, visit www.hclfoundation.org
