## Jindal Stainless' Hisar and Jajpur units win multiple CII National Awards for energy efficiency and low-carbon initiatives

- Implemented over 200 energy efficiency projects over the last four years
- Achieved a cumulative emissions reduction of over 1.05 million tCO<sub>2</sub>e

**Hisar, Jajpur, July 9, 2026:** Reinforcing its commitment to sustainable manufacturing and operational excellence, Jindal Stainless, India's leading stainless steel manufacturer, has been recognised with multiple honours at the 10th CII National Energy Efficiency Circle Competition 2026, organised by the Confederation of Indian Industry (CII) at India Habitat Centre, New Delhi, on July 2-3.

The company's manufacturing facilities at Hisar, Haryana and Jajpur, Odisha were recognised across four award categories for their sustained efforts in energy conservation, decarbonisation, and implementation of best-in-class energy management practices.

The Hisar unit received the National Award for Best Energy Efficient Case Study and the National Award for Best Case Study on Low Carbon/Carbon Neutral Initiative. The award-winning initiatives included waste heat recovery systems, adoption of heater-less vaporisers, renewable energy integration, energy-efficient equipment upgrades, and green hydrogen applications. Over the last four years, the unit has successfully implemented 112 energy efficiency projects, resulting to a cumulative greenhouse gas emission reduction of 584,903 tCO<sub>2</sub>e through renewable energy and energy efficiency initiatives.

The Jajpur unit was recognised under the Bureau of Energy Efficiency (BEE) PAT/CCTS Scheme and for the Effective Implementation of ISO 50001 Energy Management System. Its award-winning initiatives included the installation of a Waste Heat Recovery Boiler (WHRB), adoption of the Melt Control System in the Electric Arc Furnace (EAF), optimisation of the Reheating Furnace (RHF), optimisation of the Chrome Palletisation Plant, and integration of renewable energy. Over the last four years, the unit has successfully implemented more than 100 energy conservation projects, resulting in a cumulative carbon emission reduction of over 471,398 tCO<sub>2</sub>e.

**Commenting on the achievement, Managing Director, Jindal Stainless, Mr Abhyuday Jindal, said, "At Jindal Stainless, sustainability is integral to the way we operate and grow. These recognitions by CII reaffirm our commitment to driving innovation that delivers both operational excellence and meaningful environmental impact. As we advance on our decarbonisation journey, we will continue investing in technologies and practices that accelerate India's transition to a low-carbon future while creating long-term value for all our stakeholders."**

The competition brought together leading organisations from sectors including steel, automobiles, power, and manufacturing, highlighting innovative practices that contribute to energy conservation and climate action.

**Commenting on the recognition, Unit Head – Hisar, Jindal Stainless, Mr Vijay Bindlish, said,** *"This recognition is a proud moment for the entire Hisar team. It reflects our sustained focus on decarbonisation and energy efficiency as strategic priorities. We remain committed to driving continuous innovation as we progress on our low-carbon and net-zero roadmap."*

**Speaking on the recognition, Unit Head – Jajpur, Jindal Stainless, Mr Deepak Agrawal, said,** *"At Jajpur, energy efficiency has become an integral part of our operational philosophy. Through continuous process optimisation, technology adoption, and disciplined execution, we have consistently improved our energy performance while reducing our environmental footprint. This recognition encourages us to continue raising the benchmark for sustainable manufacturing."*

These recognitions further reinforce Jindal Stainless' commitment to operational excellence, sustainable manufacturing, and its long-term vision of achieving net-zero emissions while creating lasting value for customers, communities, and all stakeholders.

### **About Jindal Stainless**

India's leading stainless steel manufacturer, Jindal Stainless, had an annual turnover of INR 42,955 crore (USD 4.86 billion) in FY26 and is ramping up its facilities to reach 4.2 million tonnes of annual melt capacity in FY27. It has 16 stainless steel manufacturing and processing facilities in India and abroad, including in Spain and Indonesia, and a worldwide network in 12 countries, as of March 2026. In India, there are ten sales offices and six service centres, as of March 2026. The company's product range includes stainless steel slabs, blooms, coils, plates, sheets, precision strips, wire rods, rebars, blade steel, and coin blanks.

Jindal Stainless relies on its integrated operations to enhance its cost competitiveness and operational efficiency. Founded in 1970, Jindal Stainless continues to be inspired by a vision for innovation and enriching lives and is committed to social responsibility.

Jindal Stainless remains focused on a greener and sustainable future. The company manufactures stainless steel using electric arc furnace, a process that significantly reduces greenhouse gas emissions and allows for recyclability of scrap without compromising on quality.
