¹ GMR assumed operational control of Nagpur Airport effective 25 Jun'26; YTD & FY26 figures along with YoY change are provided for reference only. Total consolidated metrics (monthly & YTD) incorporate Nagpur Airport Jul'26 figures.

² Cebu Divestment completed but will operate as the Technical Services Provider until Dec'26

[^] Muted growth in international traffic is attributable to flight disruptions caused by West Asian geopolitical instability. Similarly, subdued domestic traffic growth is due to route rationalization by airlines.

Medan airport domestic traffic has been affected by supply-side constraints as a portion of the aircraft fleet remains grounded due to maintenance-related issues - a challenge currently impacting the broader Indonesian aviation market
