**Dinesh Thakkar:** Good afternoon, everyone. A very warm welcome to all of you to the 30th Annual General Meeting of Angel One Limited. On behalf of the Board of Directors, I would like to thank all our shareholders for your continued trust, encouragement, and support. Your confidence in the company over the years has played a very important role in our journey. The Company Secretary has informed me that the required quorum is present, and so I declare the meeting duly convened and open for business.

As per the circular issued by the Ministry of Corporate Affairs and SEBI, this AGM is being conducted through video conferencing and other audio-visual means. We have partnered with NSDL to make participation seamless for all our members, including remote e-voting and voting during the meeting itself. The proceedings are also being webcast live on the NSDL platform and YouTube channel for the convenience of our shareholders. This is our sixth post-listing AGM held virtually, and this format has helped us connect with a much wider shareholder community across India and globally.

**Dinesh Thakkar:** Before we move ahead with the agenda, let me introduce my colleagues on the Board and the key managerial personnel joining us today. Mr. Muralidharan Ramachandran, our Lead Independent Director and Chairperson of the Risk Management Committee, ESG Committee, and Cyber Security and Information Technology Committee. He is also a member of the Audit Committee and is joining us from Chennai.

**Muralidharan R.:** Good afternoon, everybody. Wishing you all a very warm welcome to the 30th Annual General Meeting of your company.

**Dinesh Thakkar:** Ms. Mala Todarwal and Chairperson of the Audit Committee and Stakeholder Relationship Committee. She is also a member of the NRC and is joining us from Mumbai.

**Mala Todarwal:** Hi, good afternoon, everyone. Welcome to the 30th Annual General Meeting of your company.

**Dinesh Thakkar:** A. K. Sridhar, Independent Director and Chairperson of the NRC. He is also a member of the Risk Management Committee and Stakeholders Relationship Committee and is attending this meeting from Mumbai. Mr. Kalyan Prasath, Independent Director and member of the Risk Management Committee, CSR

Committee, and Cyber Security and Information Technology Committee. He is joining us from Mumbai.

**Kalyan Prasath:** Good afternoon, everyone. Welcome to the 30th Annual General Meeting

**Dinesh Thakkar:** N. T. Arunkumar, Independent Director and member of the NRC and Cyber Security and Information Technology Committee. He is attending this meeting from Chennai. Krishna Iyer, Non-Executive Director and member of the Audit Committee, CSR Committee, and ESG Committee. He is attending this from Pune.

**Krishna Iyer:** Namaste, Pranam. Warm welcome.

**Dinesh Thakkar:** Mr. Ambarish Kenghe, Group CEO and Whole-Time Director. He is joining us from Bengaluru. He is a member of the Risk Management Committee and Cyber Security and Information Technology Committee.

**Ambarish Kenghe:** Good afternoon, everyone. Welcome to your AGM.

**Dinesh Thakkar:** Mr. Amit Majumdar, Whole-Time Director. He is joining us from Mumbai and is a member of the Stakeholders Relationship Committee.

**Amit Majumdar:** Good afternoon, everyone, and welcome you all to the 30th Annual General Meeting of your company.

**Dinesh Thakkar:** Mr. Vineet Agrawal, Group Chief Financial Officer is joining from Mumbai.

**Vineet Agrawal:** Good afternoon, everyone. Welcome to the 30th AGM of Angel One Limited.

**Dinesh Thakkar:** Ms. Naheed Patel, Company Secretary and Compliance Officer is also joining us from Mumbai.

**Naheed Patel:** Good afternoon, shareholders. Welcome to your AGM.

**Dinesh Thakkar:** We also have with us Mr. Rutushtra Patell and Mr. Jaikishan Wadwani, representatives of M/s S.R. Batliboi & Co. LLP, the Statutory Auditor of the company; Mr. Umashankar Hegde, representative of M/s U. Hegde & Associates, Secretarial Auditor for Financial Year 2025-2026; and Vaibhav Dhanwate, representative of M/s MMJB & Associates LLP, Practicing Company Secretaries, who have been appointed as a scrutinizer for the e-voting process.

Since the AGM notice has already been circulated to all the members, I take the notice convening the meeting as read. I would like to mention that the Statutory Audit Report on the financial statements does not contain any qualification, observation, or adverse remark; therefore, it is taken as read.

As highlighted in the Secretarial Audit Report for Financial Year 2025-2026, SEBI issued two settlement orders during the year. The settlement amounts under these orders were duly paid to the regulator, and the disclosures were made in accordance with the requirement of SEBI LODR Regulation 2015. Apart from routine matters relating to action initiated by SEBI or stock exchanges that are generally applicable to stockbroking entities, the company has complied with all applicable provisions of SEBI LODR regulations along with related circulars and guidelines.

I hope all of you and your family are safe, healthy, and doing well. Over the last decade, Angel One has evolved into a technology-led financial service platform servicing millions of Indians. While the business has changed significantly over the years, our core purpose has remained the same: helping people participate confidently in India's growth journey.

FY26 was the year of meaningful progress and the strategic evolution of Angel One. The business environment remained dynamic throughout the year. Markets saw phases of volatility, customer behavior continued to evolve, and the regulatory environment witnessed important changes focused on strengthening market integrity and investor protection. In this context, I would like to acknowledge the important role played by our regulators.

Their continued focus on transparency, governance, and long-term market stability is helping strengthen India's capital market and build greater investor confidence. As a leading participant in the industry, we remain fully committed to supporting these efforts and maintaining the highest standard of compliance and governance.

At Angel One, we see regulation as an important pillar for sustainable growth. Today, India is going through a major shift in financial participation. Investing is no longer limited to a few urban centers or experienced investors; it is becoming more mainstream, more digital, and far more inclusive. What excites us most is that this change is being driven by a new generation of Indians, ambitious, financially aware, and digitally connected. Our role is to simplify finance for them.

That is why our long-term vision remains focused on building a trusted, technology-driven financial ecosystem that is accessible, intelligent, and customer-centric.

Over the years, we have steadily expanded beyond broking into a broader financial platform that includes investing, wealth management, asset management, lending, and protection solutions. We believe the future of financial services will belong to integrated platforms that can support customers through their entire financial journey. Technology and Artificial Intelligence will play a defining role in shaping this future.

At Angel One, we continue to make long-term investment in AI, digital infrastructure, cyber security, and data capabilities. But for us, technology is not just scale or efficiency; it is about empowerment. It is about helping customers make informed financial decisions with greater simplicity, clarity, and confidence.

As we continue to grow, our commitment to responsible business practices remains strong. Trust is the foundation for this industry. Whether it is governance, risk management, customer protection, or operational resilience, we remain focused on building an institution that can create sustainable long-term value.

I would like to take this opportunity to thank all our stakeholders. To our employees, thank you for your dedication, passion, and entrepreneurial mindset. To our partners and ecosystem collaborators, thank you for supporting our mission of expanding financial access across India. And to our shareholders, thank you once again for your continued trust and confidence in Angel One.

As we look ahead, we remain very optimistic about the future. India is entering a once-in-a-generation phase of financialization. Rising participation in capital markets, rapid digital adoption, and growing awareness about wealth creation are creating significant long-term opportunities. Angel One is well-positioned to participate in this transformation.

Our priorities are very clear; we will continue investing in technology and AI, we will continue expanding our product ecosystem, we will continue deepening our

reach across Bharat, and we will continue building a business that combines innovation with responsibility, growth with discipline, and scale with trust.

The future of financial service will be shaped by institutions that remain customer-centric, technologically agile, and deeply trusted. That is exactly the kind of institution we are building. We remain excited about the opportunities ahead and committed to creating long-term value for all our stakeholders. Thank you once again for your trust and support.

I now hand over the proceedings to Mr. Ambarish Kenghe, Group CEO and Whole-Time Director.

**Ambarish Kenghe:**

Thank you, DT. Good afternoon, everyone. Thank you for joining us today. As DT highlighted, FY26 was a year of strategic progress and continued evolution of Angel One. From an operational standpoint, it was also a year where we focused deeply on strengthening the quality, resilience, and scalability of our business.

The market environment remained dynamic through the year. Client activity patterns shifted across different phases of the market cycle, and regulatory changes reshaped parts of the industry. In this backdrop, our focus remained clear; stay disciplined operationally, keep innovating, and continue building long-term value for our clients.

I am pleased to share that Angel One continued to scale strongly during the year. Our client base grew to 37.4 million customers, with 6.9 million new additions during FY26. Importantly, nearly 89% of these acquisitions came from Tier 2, Tier 3, and smaller towns, reaffirming our belief that the next wave of India's investing growth will come from beyond the metros.

We are also seeing encouraging shifts in client behavior. Increasingly, clients are moving beyond transactional participation toward long-term investing and wealth creation. Mutual fund adoption continues to grow steadily, SIP participation remains healthy, and clients are engaging with multiple financial products on our platform.

We continue to expand our ecosystem across investing, wealth management, lending, asset management, and insurance. I am happy to share that our wealth management business crossed Rs. 100 billion in assets under management as of March 31, 2026, reflecting growing client trust and deeper engagement. This

behavioral shift is strategically important because it aligns closely with our long-term vision as a fintech platform.

From a financial perspective, FY26 was a resilient year for the business. Our consolidated total income stood at Rs. 51,522 million, while profit after tax came in at Rs. 9,151 million. Even amid changing market conditions, we maintained healthy profitability, operational discipline, and a strong balance sheet.

A major strategic priority for us continues to be technology and AI. Today, Angel One operates at significant digital scale, with millions of client interactions and transactions processed seamlessly across our platforms. To support this scale responsibly, we continue investing in cloud infrastructure, cyber security, automation, and platform resilience.

Artificial Intelligence is increasingly becoming embedded across the organization, from onboarding and client engagement to risk management, service efficiency, and personalized experiences. During the year, we leveraged AI to accelerate our decision-making process with the rollout of our data analyst agent, improved upon client experience through Ask Angel, created operating efficiency and effectiveness through AI code generation, etcetera.

Our objective is simple; to make financial services more intuitive, accessible, and intelligent for every cohort through the use of technology. At the same time, scale must always be accompanied by trust. That is why governance, operational reliability, risk management, and compliance remain central to how we operate.

In financial services, long-term success depends not only on innovation but also on consistency and responsibility. I would also like to acknowledge the efforts of our teams across the organization. Their agility, commitment, and client-first mindset continue to drive our execution strength every day.

Looking ahead, we remain highly optimistic about the long-term opportunity ahead. India's financialization journey is still in the early stages. Retail participation continues to expand, digital adoption is accelerating, and younger clients are increasingly prioritizing financial planning and wealth creation.

For companies that can combine technology, trust, and client-centric innovation, the opportunity ahead is immense. Our roadmap remains focused on four priorities; deepening client engagement across our product ecosystem,

investing further in AI and technology capabilities, driving operational excellence at scale, and continuing to build a sustainable, future-ready business.

At Angel One, we are building a leading technology-led platform that can fulfill the long-term financial aspirations of 1 billion Indians. Thank you to our clients, employees, partners, and shareholders for your continued trust and support. We are excited about the future and remain committed to building enduring value in the years ahead. Thank you.

I now hand over the proceedings to Ms. Naheed Patel, Company Secretary.

**Naheed Patel:**

Thank you, Ambarish. Good afternoon and a very warm welcome to all members to the 30th Annual General Meeting of your company being held through video conferencing. This facility has been provided on a first-come, first-serve basis in line with regulatory requirements. All members are placed on mute by default to ensure smooth proceedings.

During the question and answer session, pre-registered speakers will be invited in sequence. Members are requested to speak clearly, keep their video on, and use headsets wherever possible. In case of technical issues, questions may be asked in audio mode. In case any member faces technical issues with video transmission, they may ask their question through audio mode.

If there is a connectivity issue at a speaker's end and we are unable to connect, we will request the next speaker to proceed. Once connectivity is restored, the earlier speaker will be invited to speak after all pre-registered speakers have completed their turns. I request all speakers to keep their queries brief, relevant to the agenda, and avoid repetition.

As per the provisions of the Companies Act, 2013, and the SEBI LODR regulations, your company had provided the remote e-voting facility to the members through the NSDL platform in order to cast their votes prior to this meeting. The cut-off date for the same was 5<sup>th</sup> June, 2026. The remote e-voting commenced on Monday, 8<sup>th</sup> June, at 9:00 AM and concluded yesterday, June 11, at 5:00 PM. Members as of the cut-off date are only entitled to cast their votes.

Members who have not cast their votes through remote e-voting and who are attending this meeting will have an opportunity to cast their votes during the meeting. The window is already open for all the members and will also be available for the next 15 minutes after the conclusion of the meeting. Voting will

not be conducted by show of hands, and the resolutions do not require proposing or seconding. As this meeting is held virtually, proxy facility is not applicable.

All the statutory registers are available electronically; members may request access by emailing on [investors@angelone.in](mailto:investors@angelone.in). During the meeting, if a member needs any assistance or has queries regarding participation or e-voting, they may refer to the FAQs for shareholders and e-voting user manual for shareholders available at the download section of [www.evoting.nsdl.com](http://www.evoting.nsdl.com) or write an email to [evoting@nsdl.com](mailto:evoting@nsdl.com) or connect with the helpline number 022-48867000.

The details are also mentioned in the notice of the meeting. Thank you very much. We will now move on to the question and answer sessions. I now call upon our first speaker shareholder, Mr. Dilip Kumar Jain whose DP and client ID is 1203320142871486. Welcome, sir.

**Dilip Kumar Jain:**

Mr. Thakkar, a very warm welcome to you. I am Dilip Kumar Jain, speaking from the Pink City, Jaipur. First of all, many congratulations to you for such great results and for leading the company in this manner. My best wishes for the future as well. You are delivering excellent results, providing good dividends, and the client base is growing.

My greetings to all the members on the Board panel. Sir, it feels very good; I have been a client of your company since 2008 and a shareholder since the IPO. In 2008, when your company started with a small office on MI Road, I used to look at other brokers and think Angel was nothing at that time. Today, it feels like Angel is everything, all the time. It feels great to have this correlation of nearly 15 to 16 years. Please do meet whenever you visit Jaipur; it would be a pleasure.

One small point is that you have delivered a good profit of INR93.51 crores, which is excellent, and the dividends are great. However, I don't understand why we changed the platform. The transition from Odin to the web-based platform has not been comfortable for the clients. Please look into this.

Also, my family members and I have about 8 to 10 accounts with you. In some, the DP charges are INR5, in others INR5.90, and in some INR23. I have written to you several times about this, but it hasn't been resolved since the last meeting. I received a call, but the matter remains unresolved.

When we keep INR40,000 to INR50,000 for DP charges in the account, it becomes quite significant. Apart from this, many congratulations for all the awards you have received. Please consider upgrading the platform because clients are facing problems. I see it myself because I am not there full-time, but whenever I sit down, the display is not proper. Please look into what I have mentioned. And regarding my personal issue, if you could consider it, that would be great. Thank you very much. When you visit Jaipur, please do meet. Jai Jinendra.

**Dinesh Thakkar:**

First of all, thank you, Dilip Kumarji. You have kept your trust and faith in us since 2008. When we opened the office in Jaipur in 2008, we were a fairly small broker, and it was our beginning of trying to reach shareholders beyond the metro cities. As you can see, we gradually digitized everything, made the mobile app available, and reduced the prices significantly. Compared to the brokerage in 2008 and what we charge today, there is a reduction of nearly 70%. People like you have placed a lot of trust in us and motivated us, so thank you.

Regarding the Odin platform, it simply could not handle such a large scale. There were many troubles with it; some people were happy, but for others, the terminal wouldn't even start. That is why we decided that whatever we build, we will build in-house. I will ask Ambarish to give you some information about this. If there is any specific feature you have in mind, please write to us, and we will definitely look into what can be improved.

But overall, if you look at that time, we had about 7 or 8 lakh customers. Today, as we speak, we have 3 crore 80 lakh customers. The scale has increased significantly, and we haven't received any serious complaints about it so far. Regarding your DP issue, we will look into it again to see what the problem is. It shouldn't happen because it is all system-driven. No one has complained about this until now. Ambarish, would you like to take this question and any parts I missed?

**Ambarish Kenghe:**

Yes, as Dinesh ji said, Dilipji, our web platform is built on the latest technology. This reduces latency, allows us to provide more features, and enables us to bring changes to you very quickly. However, every customer is important to us. It's not that we haven't received many reports; we will reach out to you to understand what specific problem you are facing because we want to solve every customer's problem.

Since you have been with us for so long, our team or I personally will reach out to you, and we will figure out why you are facing difficulties and solve them. Secondly, regarding the DP charges, as Dineshji said, we will check why that is the case. There shouldn't be a problem, but we will verify and ensure it is resolved. Again, thank you very much for being with us, and this feedback is very important for us. Thank you, Dilipji.

**Naheed Patel:**

Thank you, Dilip sir. We now move on to our next speaker shareholder, Mr. Manoj Kumar Gupta and whose DP ID and client ID is 1201090004657156. Good afternoon Mr. Gupta.

**Manoj Kumar Gupta:**

Hello? Good afternoon, respected Chairman, Board of Directors, fellow shareholders. My name is Manoj Gupta. I have joined this meeting from my residence city of Joy, Kolkata. I feel proud to be a shareholder of Angel One and I feel proud to be our mentor and leader here is Mr. Thakkar. And I always wish to God to give him long life and healthy and stay safe long life to serve the company in a long term to take the company on new heights under his leadership with the help of all staff and employees.

And sir, what's your future outlook, future prospect of the company? And how you face the competition because two or three more companies just listed in the same business line as Anand Rathi and others, so how you will face the competition? And thanks to you and your team for excellent result of the company to return to the shareholders.

We have got a bumper return in last three years and you have split the shares without a request by any shareholder, you have split from 10:1. And when you will reward further to the investors? And is there any direct or indirect impact on our company through Middle East? Or sir, have you any plan to demerge or list another company in the market by virtue of Angel One stockbroking or Angel One insurance or Angel One any new company will be listed?

And sir, you have got a good platform IPL because every -- during the IPL season, every day we find that 17 crores, 29 crores people watch the IPL through Jio Hotstar. So if out of that 29 if the 1% will touch and will get benefit of Angel One, so our company will go further in the right direction.

Sir, I request you to come to Kolkata. Now the shape is changing, condition is changing in a new elected BJP government under the leadership of our beloved Chief Minister Suwendu Adhikari with a new investment and bring new office in

Sector 5 or other, bring big office to ask the investors, your investors to open their demat account with Angel One.

Sir, please show us a match sometime, whether in Kolkata or anywhere else, so we can also feel proud to be shareholders of Angel One. I thank you and strongly support all the resolutions. When I come to Mumbai, please give me a chance to meet you. Thank you, sir.

**Dinesh Thakkar:**

Thank you, Manoj Kumarji. Our journey in Kolkata has been quite good from the very beginning. Since launching our digital mobile app -- following the establishment of our branch office there -- we've seen a significant number of people from the Kolkata region opening accounts. So, thank you for your good wishes as well. As I mentioned, we are very optimistic about the future. Currently, there are only about 13 crores registered investors in the market, a figure I believe should be much higher ultimately, those who have understood equity investments have benefited from the power of compounding.

Our goal is to provide as many people as possible with access to this market, along with the necessary information and confidence, so they can start investing whatever savings they can -- whether it's INR1,000, INR2,000, INR5,000, or INR10,000. Regarding the Middle East situation -- while there have been conflicts and global disruptions -- our economy remains quite steady, driven largely by a domestic consumption story.

There may be some impact due to factors like the current account deficit, rising oil prices, or currency fluctuations, but looking at the long term, our growth rate is solid, and the future looks very promising. As for demerging any business units, the other units have only recently started operations let them gain some scale and structure first, and we will certainly inform you if any such move happens in the future.

Regarding the IPL, I appreciate you noting the high visibility and recognition we've gained; families across the country watch the IPL together. Angel One was already popular among existing clients, but today it has become a household name. And we will definitely keep you in mind for the next IPL season and send you some tickets. Thank you very much. Ambarish, would you like to add anything to this?

**Ambarish Kenghe:**

No, I think you said everything. I'll add a couple more things. Again, thank you again for being a shareholder. Future I think, As Dineshji mentioned, he spoke

about fact that we want to actually create wealth for a nation, for a lot of people. And you will -- we have said this in our initial introduction also -- that you will see a lot of use of AI and technology, and that is starting to happen.

For example, we've launched this feature Ask Angel, if you haven't tried it, that could be very interesting feature to try as well. So, I want to just add that you will see a lot from us on AI and technology and how our businesses are diversifying. And I'm also excited that Dinesh ji has already promised you some IPL tickets, so that's exciting. Thank you.

**Naheed Patel:** Thank you, Mr. Gupta. We now move on to our next speaker shareholder, Mr. Hiranand Kotwani, his DP ID, Client ID is IN30018312015804. Yes Mr. Kotwani., good afternoon.

**Hiranand Kotwani:** Yes, yes. It is a great pleasure to talk to you, Mr. Dinesh Thakkar. I know, Yes, Yes, it's a great pleasure. Company's rated operation efficiency and sustainability well. And this gentleman Ambarish, he has given ECG of the company. It's a great company and being fast, growth is immense.

And you told this 3.8, I hope in the December or up to last this year, we will cross INR4 crores and you will be I hope number one within a few years. How company will sustain help the old people demating the shares? Because digitally you are fast moving, but some old issues are there, Shares are being sold in the government, how are you helping them?

Because you are very old, 40 years to 50 years, you have 45 years of experience from association to regulation. You know the association of the broker crying at the stock exchange and become digitalized and you move fast nowadays. And you have done well. Your company has rewarded last year, I told regarding the split, now I am asking for the bonus also.

If you can give bonus, then we will be more happy. Your system is well acknowledged, your service is well acknowledged. But how are we moving ahead with asset management and gold and other verticals? If you can elaborate. Thank you and best wishes. I am Hiranand Kotwani from Kalyan.

**Dinesh Thakkar:** Thank you, Mr. Kotwani. And as for physical share, there we have a small kind of like unit, but it is a very tedious process nowadays to change physical to digital because of lots of kind of like duplicate shares and if at all your shares has gone to government's custody, it's a process where we can guide you on, but there are

lots of different different agencies which are involved. It is not a broker can do much in that till the time you are able to get your physical share back and sent to company for demat.

So, we'll see that what help we can provide in terms of guiding you what is the process, but keep in mind it is bit lengthy if you have lost your shares, if you are unable to trace your shares and all that. So, time and again on this bonus issue, we have been very conscious about rewarding our shareholders, be it being liberal in dividend or splitting our shares.

And bonus also in one sense is like split of shares, you don't create any great value, only number of shares increase and there can be some taxation benefit. So, we'll look into this and have I missed out any point? Ambarish, if at all I have missed out.

**Ambarish Kenghe:** I think you talked about -- Hiranand ji, really nice to...

**Dinesh Thakkar:** One thing if you can, Ambarish, give a detail of wealth management and other businesses.

**Ambarish Kenghe:** Yes, I was just coming to asset management. So, we have, of course, you can manage your money through us and have mutual funds, stocks, anything through Angel One platform, but we also have a wealth management company called Ionic Wealth Management, which is a subsidiary of Angel One. And they have actually been growing very fast. Like we said, they have actually reached 100 billion in assets in a very, very short time and it's a very, very good team who's been operating really well.

Of course, my assets are managed by them, all of our assets, a lot of our assets get managed by them, so you will find them actually very helpful if you have to do this. And like Dinesh ji said, if you have trouble with the dematting of shares, just reach out to our customer support and we'll walk you through the process. Some of it you will have to do, some of it we can help with. Thank you.

**Naheed Patel:** Thank you, all speaker shareholders. Thank you, Chairman. We can now move to the closing comments from the Chairman.

**Dinesh Thakkar:** Yes. Thank you everyone for your questions and your suggestions. I hope we have been able to address your queries and concerns satisfactorily. I would like to sincerely thank all the members for your active participation and thoughtful

inputs during the meeting. Members who have not yet cast their vote are requested to do so on the resolution set out in AGM notice. The e-voting facility on NSDL platform will remain open for the next 15 minutes to enable members to exercise their voting right.

Ms. Naheed Patel, Company Secretary, has already briefed you on voting process for this meeting. The consolidated scrutinizer's report on remote e-voting and e-voting conducted during the meeting will be declared within 48 hours of conclusion of this AGM and will be made available on the company's website, the NSDL website, and the website of stock exchanges. The resolution set out in the notice shall be deemed to have been passed today subject to receipt of requisite majority of votes.

With this, the formal business of the meeting stands concluded. The meeting will remain open for the next 15 minutes to facilitate e-voting for the members who have not yet exercised their voting rights. Once again, thank you all for joining and participating in this Annual General Meeting. Thank you.

**Naheed Patel:**

Thank you.
