Subject: Intimation Under Regulation 30 of SEBI (LODR) Regulation 2015: Quarter-1 performance and growth update

Dear Sir / Madam,

Pursuant to Regulation 30 of Securities and Exchange Board of India (Listing Obligations and Disclosures Requirements) Regulations, 2015, we hereby submit an update on Company's Operational Performance and growth for the 1st Quarter of FY-2026-27

The Company continues to focus on selective bidding, timely execution, and effective working capital management while leveraging its integrated capabilities in engineering design, procurement, subcontracting, and on site execution. This performance underscores the Company's continued commitment to strengthening its market presence, scaling operations responsibly, and creating long term value for stakeholders.

A copy of the detailed operational performance for the Q-1 is enclosed as Annexure – 1

The same is being uploaded into the Website of the Company.

We respectfully request you to note the above information in your records.

Thanking you,

Yours faithfully,

For Airfloa Rail Technology Limited

Haraprasad Rout
Company Secretary and Compliance Officer

Airfloa Rail Technology begins FY27 with record Q1 revenue, surpassing H1 FY26 revenue and reinforcing confidence in ₹500 crores FY27 guidance

Chennai, India – July 14, 2026: Airfloa Rail Technology Limited ("Airfloa" or "the Company"), a leading engineering and manufacturing company serving railway, metro and aerospace & defense sectors, today announced its provisional business update for Q1 FY27. The Company delivered its highest-ever quarterly revenue of ₹100.7 crores during Q1 FY27, despite the quarter historically being the seasonally weakest period for project execution. The strong start to the financial year reflects robust execution capabilities, healthy order visibility and sustained demand across its core business segments.

Q1 FY27 business highlights:

- Reported **quarterly revenue of ₹100.7 crores**, registering a **200% YoY growth** compared to ₹33.6 crores in Q1 FY26
 - Delivered **record performance despite a seasonally weak quarter**, with project execution expected to **accelerate over the remainder of the fiscal year**
 - **Q1 FY27 revenue surpassed the company's entire H1 FY26 revenue** of ₹90.5 crores, underscoring the significant scale-up in execution capabilities
- **Order book stood at ₹433.8 crores** as of June-end, providing healthy revenue visibility for upcoming quarters
- **Active bid pipeline remains robust at ₹1,200 crores**, spanning opportunities across railway, metro and aerospace & defense segments
- Company remains **on track to achieve its FY27 revenue guidance of ₹500 crores**, supported by a healthy order book and strong execution momentum
- The **proposed joint venture with Big Bang Boom Solutions is progressing as planned**, with a formal announcement expected during the month
- Aerospace and defense initiatives continue to progress in line with the company's long-term strategic roadmap, with the proposed joint venture expected to further strengthen its capabilities in the sector

Note: Revenue numbers presented above are provisional and unaudited and are subject to audit

About Airfloa Rail Technology Limited:

Airfloa Rail Technology Limited ('Airfloa' or 'Company') is a leading manufacturer of rolling stock components for Indian Railways, with operations spanning key production units including the Integral Coach Factory and other major coach factories. In addition to component manufacturing, the Company executes turnkey interior furnishing projects for Indian Railways and supplies high-precision components to the aerospace and defence sectors. With over 27 years of operating experience, two manufacturing facilities, and two core business verticals, Airfloa has successfully delivered nine marquee turnkey rail projects, including Sri Lankan DEMU and Mainline Export Coaches, Agra-Kanpur Metro, RRTS, Vistadome, and Vande Bharat Express. The Company also caters to global rail OEMs and multiple divisions of Indian Railways. Airfloa's fully integrated in-house capabilities covering engineering, design, tooling, finishing, material development, and assembly enable end-to-end project execution and reinforce its position as a trusted partner across the railway, aerospace, and defence ecosystems.
