## Kabra Extrusiontechnik FY26 Revenue Stands at ₹ 4,511 Mn

**Mumbai, May 28, 2026:** Kabra Extrusiontechnik Ltd. (BSE - 524109, NSE - KABRAEXTRU, ISIN: INE900B01029), one of India's leading extrusion machinery company and emerging battery pack player, has announced its results for the fourth quarter and year ended March 31, 2026.

### Financial Highlights for the Quarter & Year Ended March 31, 2026:

- Operating Revenues at ₹ 1,201 Mn in Q4FY26; Revenue for FY26 stood at ₹ 4,511 Mn
  - Extrusion Machinery revenues stood at ₹ 930 Mn in Q4FY26 & at ₹ 3,149 Mn in FY26
  - Geon (erstwhile Battrixx) revenues stood at ₹ 271 Mn in Q4FY26 & at ₹ 1,361 Mn in FY26
- EBITDA stood at ₹ 30 Mn in Q4FY26 & ₹ 104 Mn in FY26

**Commenting on the performance, Mr. Anand Kabra, Managing Director of Kabra Extrusiontechnik said,** *"FY26 marked a transition year, as the Company balanced near-term challenges in its core extrusion business with continued investments in future growth drivers. The operating environment remained weak, with macroeconomic uncertainty, delayed infrastructure spending, and soft export demand weighing on performance.*

*Demand in the extrusion segment moderated, particularly in pipe applications, due to slower execution of government infrastructure programs and delay in capital expenditure. However, the Company expects a gradual recovery, supported by the anticipated rollout of Jal Jeevan Mission 2.0 with a revised outlay of INR 8.7 lakh crore till December 2028.*

*Geon expanded its horizons across electric mobility segments like two-wheelers, three-wheelers, passenger vehicles, and high-voltage applications for off-road use cases, while further strengthening its presence in battery energy storage solutions and lithium powered inverter systems. Rising customer acceptance and a broader application base continue to drive momentum.*

*The Company has reinforced its energy solutions design and delivery capabilities through sustained investments in product development, advanced manufacturing, and electronics integration, enabling delivery of customized, technology-agnostic solutions. It is also actively expanding marquee global OEM partnerships, supported by a strong order pipeline.*

*Looking ahead, Kabra Extrusiontechnik remains optimistic, with expected recovery in infrastructure-led demand and strong mid to long-term prospects in electric mobility and energy storage positioning the Company for sustainable growth in the coming years."*

### **About Kabra Extrusionstechnik Ltd. (KET):**

Kabra Extrusionstechnik (KET) is India's premier manufacturer & exporter of plastic extrusion machineries. KET is a part of renowned Kolsite Group having over 6 decades of experience, more than 15,000 installations and presence around 100+ countries in Americas, Middle East, Asia and Africa. KET enjoys leadership position in the extrusion market. KET constantly endeavours to offer better solutions to plastics processors across the globe. Kabra Extrusionstechnik has set benchmarks in plastics extrusion industry by modern R&D techniques and various processes to cater the market requirements.

Geon (erstwhile Battrixx) is the future technologies division of KET. It is dedicated to developing and producing green energy systems and solutions that will power the growth of India's transition into green energy storage and electric transportation. It is the largest technology agnostic battery pack manufacturer with a culture of continuous innovation through strong R&D capabilities. Geon provides real time data feedback loops to the OEMs. It has the capabilities to manufacture safe, optimum and regulatory compliant battery packs. Geon enjoys long term co-development partnerships with OEMs. The brand stands tall with state-of-the-art facilities for design, development and production in Chakan, Pune. The noble objectives are epitomised by the brand's flagship product – advanced lithium-ion battery packs and modules for e-vehicles.
